This rule will not result in the collection of information from, or place recordkeeping requirements on, the public under the Paperwork Reduction Act of 1980. Since there have been no applications submitted since 1976, and the revisions will not relieve the developmental costs, the Service feels that there will not be 10 or more persons submitting applications within the foreseeable future. Therefore, clearance under 44 U.S.C. 3501 is not required. In accordance with Executive Order 12291, it has been determined that this rule is not a major rule. Since no application has been received since 1976, and not more than one or two applications are likely to occur over the next few years, it is unlikely that the current regulations or this proposed revision will have any economic effect on small entities. Therefore, in accordance with the Regulatory Flexibility Act (5 U.S.C. 601 et seq.), it was determined that this rule would not have a significant economic effect on a substantial number of small entities. A copy of the analysis relating to these decisions, Determination of Effects of Proposed Revision of Nontoxic Shot Approval Procedures, can be obtained from the U.S. Fish and Wildlife Service (MBMO), Washington, D.C. 20240.

This proposed rule was authored by Rollin D. Sparrowe, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Transportation, Wildlife.

PART 20—[AMENDED]

In light of the foregoing, 50 CFR Part 20 is proposed to be amended as follows:

1. The authority citation continues to read as follows:

Authority: Migratory Bird Treaty Act, sec. 3, Pub. L. 65–186, 40 Stat. 755 (16 U.S.C. 704); sec. 3(h)(3), Pub. L. 95–616, 92 Stat. 3112 (16 U.S.C. 712).

2. Section 20.134 is proposed to be revised by removing the present wording in its entirety and replacing with the following:

§ 20.134 Nontoxic shot

(a) *Approval.* The Director, U.S. Fish and Wildlife Service, shall determine that a specific type of shot material is acceptable for the purposes of § 20.21(j) if after a review of applications and supporting data submitted in accordance with this section, together with all other relevant evidence, it is concluded that the shot material can be used without imposing a significant danger to migratory birds or their habitats.

(b) *Procedures.* (1) Applicant submits to the Director:

(i) A minimum of 25 pounds of the candidate shot in size #4.

(ii) A description of shot composition and a statement of the expected composition variability during large-scale production.

(iii) The applicant's assessment of the ballistic characteristics of the candidate shot.

(iv) The applicant's assessment of the potential toxicity of the candidate shot to migratory birds and other wildlife species as compared to lead and steel shot.

(v) The applicant's assessment of the environmental fate of the candidate shot and of any human health or safety issues that may be of concern.

(2) If the Director concludes that this candidate is worthy of further testing, the applicant is notified to submit a plan for conducting initial screening evaluations as outlined in paragraph (c)(1) below. The Director specifies what portion of (c)(1) should be conducted and any modifications to the procedures that might be necessary.

(3) The Plan submitted by the applicant is reviewed by the Director. The Director, or authorized representative, will inspect laboratory facilities to be used.

(4) Initial screening tests, if approved, are then conducted, analyzed, and reported by the applicant to the Director.

(5) The Director reviews results, analytical procedures, and conclusions from screening tests. Guidance concerning further testing will be made by the Director within 30 days of receipt of the report.

(6) If the Director feels that the candidate material has possibilities, the applicant will be advised on the second phase of tests (paragraph (c)(2)). The applicant is advised to develop and submit a plan for conducting a 30-day dosing test using mallards on a

nutritionally complete diet (Test Number 1, (c)(2)).

Procedures: Hydrochloric acid and pepsin are added to each pooled test

of the candidate shot. In every case, the

effects that are not significantly greater

candidate shot. All birds dying prior to

in Test Numbers 1 and 2 will be measured in

nutritionally complete diet (Test Number 1, (c)(2)).

(7) The Plan for conducting the 30-day dosing test on a nutritionally complete diet is submitted to the Director for review and approval. The Director, or authorized representative, inspects the test facilities and reviews the test procedures.

(8) Test Number 1, if approved, is then conducted, analyzed, and reported by the applicant to the Director.

(9) The Director reviews the report and provides guidance concerning further testing within 30 days of receipt of the report.

(10) This process of requesting a plan, reviewing the plan, accepting or rejecting the plan, conducting tests, analyzing results, reporting to the Director, followed by a decision by the Director to continue or terminate testing can occur twice more as Test Numbers 2 and 3 in pargraph (c)(2) are performed.

(c) *Outline of procedures for testing.*—(1) *Initial screening tests.* These tests will be performed on the candidate shot if the initial submission of information (Paragraphs (b)(1)(i)–(v)) by the applicant indicates that it is worthy of further testing. The Director will provide instructions to the applicant concerning the conduct of the following tests.

(i) The candidate shot will be chemically analyzed by the Fish and Wildlife Service or an independent laboratory and the results will be compared to the applicant's descriptions of shot composition and composition variability.

(ii) At the applicant's expense, two independent laboratories will evaluate the ballistic characteristics of the candidate shot.

(iii) The candidate shot will be run through a standardized test (see below) that will assess its erosion in an environment simulating *in vivo* conditions of a waterfowl gizzard and its release of components into a liquid medium. Erosion characteristics will be compared to those of lead and steel shot of comparable size.

Standardized Test For Erosion Rate

Reference: Kimball, W.H. and Munir, Z.A. 1971. The corrosion of lead shot in a simulated waterfowl gizzard. J. Wildl. Mgmt. 35(2):360–365.

Material:
- Atomic absorption spectrophotometer.
- Drilled aluminum block to support test tubes.
- Thermostatically controlled stirring hot plate.
- Small teflon costed magnets.
- Hydrochloric acid (pH 2.0) and pepsin.
- Capped test tubes.
- Lead, steel, and candidate shot.

Procedures: Hydrochloric acid and pepsin are added to each capped test tube at a volume and concentration that will erode a single #4 lead shot at a rate of 5 mg/day. Three test tubes containing either lead shot, steel shot, or candidate shot are placed in the aluminum block on the stirring hot plate. A teflon coated magnet is added to each test tube and the hot plate is set at 42° C and 500 rpm. Erosion of shot will be determined on a daily basis for 14 consecutive days by weighing the shot and analyzing the digestion solution with an atomic absorption spectrophotometer. The 14 day procedure will be replicated five times.

Analysis: Erosion rates of the three types of shot will be compared with appropriate analysis of variance and regression procedures. The statistical analysis will determine whether the rate of erosion of the candidate shot is significantly greater or less than that of lead and steel. This determination will be important if the candidate shot is subsequently tested for toxicity.

(2) *Toxicity tests.* The three tests described in this section represent an evaluation of three major categories of toxic effects: Short-term periodic exposure, chronic exposure under adverse environmental conditions, and chronic exposure impact on reproduction. The details of the experimental procedure can be modified, if necessary, to address the specific composition and erosion characteristics of the candidate shot. The inclusion of lead shot and steel shot control groups is considered necessary for dealing with the experimental variability associated with tests being performed by different laboratories under a variety of conditions beyond control of the experimental protocol. Statistical analyses will be performed on all data from each test. Specific guidance on statistical procedures and levels of significance (0.10 through 0.01) will be provided by the Director to the applicant prior to initiation of each test. A significance level of 0.01 indicates that not more than one trial in 100 trials would produce results that contradict a finding of significant difference. Criteria of acceptability (e.g., percent of control or steel shot values for a given measure) will be employed for some of the factors being measured in the test, however, these criteria must be established in conjunction with the Director's instructions regarding statistical procedures. Toxicity tests 1–3 are designed for testing the effects of metal or metalloid shot. If the candidate is not metal or metalloid, separate testing procedures will have to be developed to evaluate the effects of the components of the candidate shot. In every case, the test animals will be exposed to the candidate material:

(i) Both acutely and chronically:

(ii) Both stressed and non-stressed by diet and temperature.

(iii) With comparisons made to lead and steel shot regarding mortality and sublethal effects.

When special consideration is given to potential impacts on species other than migratory birds and to the environmental fate of non-metal or non-metalloid candidate shot, further testing beyond that outlined in Section (c) might be required.

TEST NUMBER 1 Short-term, 30-day toxicity test using a nutritionally complete diet.

Material:
- 100 male and 100 female hand-reared mallards less than 8 months old.
- 200 elevated outdoor 1-meter square pens of vinyl-coated wire equipped with food containers and waterers.
- Laboratory equipped to perform fluoroscopy, required blood and tissue assays, tissue metal analyses, and necropsies.
- Commercial developer pellets for ducks.
- Lead, steel, and candidate shot.

Procedures: Mallards will be housed individually in outdoor pens and given *ad libitum* access to food and water. After 3 weeks, they will be randomly assigned to 10 groups (10 males and 10 females/group) and sham-dosed (control) or dosed with two, four, or eight pellets of lead, steel or the candidate shot. Birds will be fluoroscoped 1 week after dosage to check for shot retention. Birds will be observed daily for signs of intoxication and mortality for a 30 day period. Body weight will be determined at the time of dosing, and at day 15 and 30 of the test.

On days 0, 3, 9, 15 and 30, blood will be collected by venipuncture for determination of hematocrit, hemoglobin concentration, red blood cell delta aminolevulinic acid dehydratase, and zinc porphyrin concentration. All survivors will be sacrificed on day 30, and liver delta aminolevunic acid dehydratase, and total and protein bound glutathione concentration will be determined. The liver and other appropriate organs will be removed from sacrificed birds dying prior to sacrifice on day 30. The organs will be analyzed for lead and other metals contained in the steel and candidate shot. All birds dying prior to sacrifice will be necropsied to determine pathological conditions associated with death.

Analysis: The candidate shot must cause significantly less sublethal effects than lead shot and must cause sublethal effects that are not significantly greater than those caused by steel shot. Mortality among the three types of shot will be analyzed with appropriate chi-square procedures. Certain levels of mortality resulting from dosing of the candidate material will be acceptable using this procedure; however, the Director reserves the right to reject any candidate material that causes mortality equal to 20 percent or more of the mortality caused by comparable doses of lead shot. Physiological data and tissue residues will be analyzed by analysis of variance or other appropriate statistical procedures to include the factors of shot type, does, and sex. Comparisons between sacrificed birds and birds dying before sacrifice will be made whenever sample sizes are adequate for a meaningful comparison. The applicant will insure that copies of all the raw data and statistical analysis accompany the report of this test when it is sent to the Director.

TEST NUMBER 2 Chronic, 14-week toxicity test in cold weather using a nutritionally-deficient diet.

Material:
- 56 male and 56 female hand-reared mallards less than 8 months old.
- 112 elevated outdoor 1-meter square pens of vinyl-coated wire equipped with food containers and waterers.
- Laboratory equipped to perform fluoroscopy, and required blood and tissue assays, tissue metal analysis, and necropsies.
- Whole kernel corn.
- Lead, steel, and candidate shot.

Procedures: Mallards will be individually assigned to outdoor 1-meter square pens of vinyl-coated-wire during the first week of December and acclimated to and *ad libitum* diet of whole kernel corn for 2 weeks. Birds will be randomly assigned to seven groups (8 males and 8 females/group) and sham-dosed (control) or dosed with one or four #4 pellets of lead, steel, or the candidate shot.

Birds will be weighed and fluoroscoped weekly. All recovered shot will be weighed to measure erosion. Blood parameters determined in Test Number 1 will be measured in blood samples drawn at the initiation of dosage, 24 hours after dosage, and at the end of weeks 1, 2, 4, 8 and 14. At the end of 84 days, all survivors will be sacrificed. The liver and other appropriate organs will be removed from the sacrificed birds and birds dying prior to sacrifice on day 84. The organs will be analyzed for lead and other metals contained in the steel and candidate shot. All birds dying prior to sacrifice will be necropsied to determine pathological conditions associated with death.

Analysis: The candidate shot must cause significantly less sublethal effects than lead shot and must cause sublethal effects that are not significantly greater than those caused by steel shot. Mortality among the three types of shot will be analyzed with appropriate chi-square procedures. Certain levels of mortality resulting from dosing of the candidate material will be acceptable using this procedure; however, the Director reserves the right to reject any candidate material that causes mortality equal to 20 percent or more of the mortality caused by comparable doses of lead shot. Physiological data and tissue residues will be analyzed by analysis of variance or appropriate statistical procedures to include the factors of shot type, does, and sex. Comparisons between sacrificed birds and birds dying before sacrifice will be made whenever sample sizes are adequate for a meaningful comparison. The applicant will insure that copies of all the raw data and statistical analyses accompany the report of this test when it is sent to the Director.

TEST NUMBER 3 Chronic dosage study which includes reproductive assessment on a nutritionally-complete diet.

Material:
- 200 male and 200 female hand-reared mallard ducks who have not been through a reproductive season.
- Pens capable of holding 5–10 ducks each.
- 200 elevated outdoor pens at least 1-meter square, covered with vinyl-coated wire, and equipped with feeders, waterers and nest boxes.
- Laboratory equipped to perform fluoroscopy and required blood assays.
- Commercial developer pellets, breeder pellets, and starter mash for ducks.
- Lead, steel and candidate shot.

Procedures: Mallards will be randomly assigned to 10 groups (20 males and 20 females/group) in January and held in same-sex groups of 5–10 individuals until mid-February. The mallards will then be randomly paired and moved to outdoor pens (one pair per pen). Ducks will be provided with an *ad libitum* diet of commercial developer pellets until initiation of laying, when the pairs will be switched to breeder pellets. Ducks will be sham-dosed (controls) or dosed with three #4 pellets of lead, steel or candidate shot. Dosing will occur according to three schedules; (1) once in January, 2 weeks after initiation of the study, (2) once at the initiation of laying, and (3) at both times designated in (1) and (2).

Birds will be fluoroscoped 1 week after dosage to check shot retention, and weighed every 2 weeks. Blood parameters determined in Test Numbers 1 and 2 will be measured in blood samples drawn at initiation of the study, at time of dosing, at initiation of incubation, and at sacrifice. All birds will be sacrificed when ducklings reach 7 days of age.

Clutches will be candled to determine fertility of the eggs. Nests will be checked daily to determine the fate of eggs and ducklings. Ducklings will be provided with starter mash after hatching.

Analysis: The candidate shot must cause significantly less mortality, sublethal effects than lead shot, reproductive inhibition not significantly greater than lead shot and must cause mortality, sublethal effects, and reproductive inhibition that are not significantly greater than those caused by steel shot. Physiological and reproductive data will be analyzed by analysis of variance or other appropriate statistical procedures. The applicant will insure that copies of all raw data and statistical analysis accompany the report of this test when it is sent to the Director.

Dated: July 2, 1985.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Intent To Establish Agricultural Export Enhancement Advisory Group

The Department of Agriculture proposes to establish the Agricultural Export Enhancement Advisory Group. The purpose of the Advisory Group is to provide advice on the establishment and administration of the Agricultural Export Enhancement Program. Establishment of the Advisory Group is necessary and in the public interest in connection with duties imposed upon the Department by law.

Comments of interested persons concerning the establishment of the Agricultural Export Enhancement Advisory Group should be submitted to Richard A. Smith, Administrator, Foreign Agricultural Service, Room 5071–S, USDA, Washington, D.C. 20250 on or before August 6, 1985.

Dated: July 17, 1985.

Office of Grants and Program Systems; Technical Advisory Committee for Science and Education Research Grants Program, Subcommittee on Forest Biology (II); Closed Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, the U.S. Department of Agriculture announces the following meeting:

Name: Subcommittee on Forest Biology (II), Technical Advisory Committee for Science and Education Research Grants Programs

Date: August 22–24, 1985.

Time: 8:30 a.m. to 5:30 p.m.

Place: Dupont Plaza Hotel, Dupont Circle, Washington, D.C.

Purpose of Subcommittee: To provide advice and recommendation concerning support for research in the Forest Biology program.

Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.

Type of Meeting: Closed.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information, financial data, such as salaries, and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C 552b(c), the Government in the Sunshine Act.

Authority to Close Meeting: This determination was made by the Secretary of Agriculture pursuant to provisions of section 10(d) of Pub. L. 92–463.

Contact Person: Robert C. Koeppen, Acting Associate Program Manager, Competitive Research Grants Office, Office of Grants and Program Systems, USDA, Room 112, Justin Smith Morrill Building, Washington, D.C. 20251.

[A–455–401]

Barbed Wire and Barbless Fencing Wire From Poland; Final Determination of Sales at Less Than Fair Value

AGENCY: Import Administration, International Trade Administration. Commerce.

ACTION: Notice.

SUMMARY: We have determined that barbed wire and barbless fencing wire (barbed wire) from Poland are being, or are likely to be, sold in the United States at less than fair value, and that "critical circumstances" do not exist with respect to imports of the merchandise under investigation. We have notified the U.S. International Trade Commission (ITC) of our determinations, and we have directed the U.S. Customs Service to continue with the suspension of liquidation of all entries of the subject merchandise as discussed in the section under "Continuation of Suspension of Liquidation". The ITC will determine, within forty-five days of the date of this determination, whether these imports are materially injuring, or are threatening material injury to, a U.S. industry.

EFFECTIVE DATE: July 22, 1985.

FOR FURTHER INFORMATION CONTACT: Kenneth G. Shimabukuro, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; Telephone: (202) 377–5332.

SUPPLEMENTARY INFORMATION:

Final Determination

We have determined that barbed wire and barbless fencing wire (barbed wire) from Poland are being, or are likely to be, sold in the United States at less than fair value, as provided in section 735 of the Tariff Act of 1930, as amended (the Act). We have determined the weighted-average margin of sales at less than fair value to be 36.25 percent. The margins range from 29.51 percent to 39.08 percent on virtually all of the sales compared. We also found that critical circumstances do not exist.

Case History

On November 19, 1984, we received an antidumping duty petition from Forbes Steel and Wire Corporation, filed on behalf of domestic producers of barbed wire. In compliance with the filing requirements of § 353.36 of our regulations (19 CFR 353.36), the petitioner alleged that imports of barbed wire from Poland are being, or are likely to be, sold in the United States at less than fair value within the meaing of section 731 of the Act, and that these imports materially injure, or threaten material injury to, a United States industry. Petitioner also alleged that "critical circumstances" exist, as defined in section 733(e) of the Act. After reviewing the petition, we determined that it contained sufficient grounds upon which to initiate an antidumping duty investigation. We notified the ITC of our action and initiated such an jnvestigation on December 9, 1984 (49 FR 49128). On January 2, 1985, the ITC determined that there is a reasonable indication that imports of barbed wire from Poland are materially injuring a U.S. industry.

A questionnaire was presented to counsel of Universal F.T.E., the only known exporter of barbed wire to the United States, on March 1, 1985. The response was received on April 8, 1985. We have determined that Poland is a state-controlled-economy country for the purpose of this investigation. This is discussed further under the "Foreign Market Value" section of this notice.

We published the preliminary determination of sales at less than fair value on May 3, 1985 (50 FR 18902). A hearing, requested by both petitioner and respondent, was held on June 4, 1985. Arguments raised in the briefs of both parties were considered for the final determination.

Scope of Investigation

The products covered by this investigation are barbed wire and barbless fencing wire, as currently provided for in items 642.0200 and 642.1105 of the Tariff Schedules of the United States Annotated (TSUSA). We investigated all sales of barbed wire, to the United States, for the period June 1, 1984, through November 30, 1984.

Fair Value Comparison

To determine whether sales in the United States of the subject merchandise were made at less than fair value, we compared the United States price with the foreign market value.

United States Price

As provided in section 772(b) of the Act, the purchase price of the subject merchandise was used to represent the United States price because the merchandise was sold to an unrelated United States purchaser prior to its importation into the United States. We made deductions for foreign inland freight and ocean freight. Deductions for inland freight were based on trucking charges obtained in Italy which were applied to the distances over which the merchandise was transported, by rail, in Poland.

Foreign Market Value

In accordance with section 773(c)(1)(A) of the Act, we used prices of barbed wire sold for consumption in the home market of the surrogate country to determine foreign market value. Petitioner alleged that Poland is a state-controlled-economy country and that sales of the subject merchandise from that country do not permit a determination of foreign market value under section 773(a). After an analysis of Poland's economy and consideration of the briefs submitted by the parties, we have concluded that Poland is a state-controlled-economy country for purposes of this investigation.

Our decision on this issue is mainly based on the fact that the government of Poland strictly controls the prices and levels of production of the steel industry, as well as the internal pricing of the factors of production.

As a result, section 773(c) of the Act requires us to use prices or the constructed value of such or similar merchadise in a "non-state-controlled-economy" country. Section 353.8 (a) of our regulations established a preference for foreign maket value based upon prices at which similar merchandise is sold for consumption in the home maket of that surrogate country, or to other countries, including the United States. Our regulations further stipulate that, to the extent possible, we should determine sales prices on the basis of prices in a "non-state-controlled-economy" country at a stage of economic development comparable to the country with the state-controlled economy.

After an analysis of the economies of the countries producing barded wire, we determined that Italy would be an appropriate surrogate. We sent questionnaires to three Italian producers of barbed wire and, on April 18, 1985, received a response from one of them.

We based foreign market value on the weighted-average ex-mill unpacked

VOL 50 ISS 140 JL 22 1985 UMI

price in the Italian home market. An adjustment was made for differences in circumstances of sale relating to credit expenses. The adjustment was based on the number of days between shipment and payment, and interest rates, in Italy. Adjustments for differences in similar merchandise were not made since the appropriate information on factors of production for such adjustments was not available. Since the Italian producers did not utilize packing of the same type as that of the Polish sales to the United States, we valued packing in Korea, using data from Special Steel Summary Invoices.

In calculating foreign market value we made currency conversions from Italian lire to United States dollars in accordance with § 353.56(a)(1) of the Commerce regulations, using the average of the daily exchange rates, during the period, certified by the U.S. Federal Reserve.

Respondent's Comments

Comment 1: Respondent claims that adjustments for cost differences of similar merchandise should be made.

DOC Response: As stated in the "Foreign Market Value" section of this notice, information necessary for such adjustments was not available.

Comment 2: Respondent claims that the inland freight used in the preliminary determination was overstated.

DOC Response: In the preliminary determination we calculated inland freight on the basis of barge rates in the Federal Republic of Germany. At the verification we learned that all barge transportation charges were included in the ocean freight reported. Therefore, we applied Italian freight charges to the distances from the factory to the barge loading point in calculating inland freight, on sales to the United States, for purposes of this determination.

Comment 3: Respondent argues that based upon comparisons of infrastructure development and generally recognized "macro" development criteria, the United Kingdom is the most comparable surrogate for Poland for purposes of this investigation.

DOC Response: In its submissions analyzing possible surrogate countries for Poland in this investigation, respondent finds that the United Kingdom, Italy and Spain are all at a stage of economic development comparable to that of Poland. However, in our view, respondent's analysis does not support the conclusion that the United Kingdom is the most comparable of the three. Among the various "macro" development criteria studied (per capita GNP, GDP, energy production and consumption, transportation infrastructure, labor force, literacy rates, life expectancy and population growth rate), the United Kingdom was most comparable to Poland only in terms of recent growth rate of GNP and per capita energy consumption. No argument is offered as to why these particular similarities make the United Kingdom more preferable than Italy or Spain as a surrogate for Poland.

Petitioner's Comments

Comment 1: Petitioner argues that critical circumstances exist with regard to imports of this merchandise from Poland.

DOC Response: We disagree. See the "Final Negative Determination of Critical Circumstances" section of this notice.

Comment 2: Petitioner claims that inland freight should not be reduced.

DOC Response: See DOC response to Respondent's comment 2.

Final Negative Determination of Critical Circumstances

The petitioner alleged that imports of barbed wire from Poland present "critical circumstances." Under section 735(a)(3) of the Act, critical circumstances exist if we find that (1) there is a history of dumping in the United States, or elsewhere, of the class or kind of the merchandise which is the subject of the investigation; or the person by whom, or for whose account, the merchandise was imported knew or should have known that the exporter was selling the merchandise, which is the subject of the investigation, at less than its fair value; and (2) there have been massive imports of the class or kind of merchandise that is the subject of the investigation over a relatively short period.

In determining whether there have been massive imports over a relatively short period, we considered the following factors:

1. Whether recent imports have increased significantly;
2. Whether recent import penetration ratios have increased significantly;
3. Whether the pattern of recent imports may be explained by seasonal factors; and
4. Whether recent imports are significantly above average imports calculated over the last three years.

Based on our analysis of these factors, we have determined that imports of the products covered by this investigation were not massive over a relatively short period.

We, therefore, did not need to consider whether there is a history of dumping of barbed wire, or whether the person by whom or for whose account these products were imported knew or should have known that the exporters were selling these products at less than fair value.

We have determined, for the reasons described above, that "critical circumstances" do not exist with respect to barbed wire from Poland.

Verification

In accordance with section 776(a) of the Act we verified the information provided by the respondent and the Italian surrogate company using standard verification procedures, which included on-site inspection of the merchandise and examination of relevant sales and financial records of the companies.

Continuation of Suspension of Liquidation

We are directing the United States Customs Service to continue to suspend liquidation of all entries of barbed wire from Poland that are entered, or withdrawn from warehouse, for consumption, on or after May 3, 1985, the date of publication of our notice of preliminary determination in the **Federal Register**. The U.S. Customs Service shall continue to require a cash deposit or the posting of a bond equal to the estimated weighted-average amount by which the foreign market value of the merchandise subject to this investigation exceeds the United States price. The bond or cash deposit rate established in the preliminary determination shall remain in effect with respect to entries or withdrawals made prior to the date of publication of this notice in the **Federal Register**. The bond or cash deposit rate for entries or withdrawals made on or after the publication of this notice is 36.25 percent.

ITC Notification

In accordance with section 735(d) of the Act, we will notify the ITC of our determination. In addition, we are making available to the ITC all nonprivileged and nonconfidential information relating to this investigation. We will allow the ITC access to all privileged and confidential information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an administrative protective order, without the written consent of the Deputy Assistant Secretary for Import Administration.

The ITC will determine whether these imports materially injure, or threaten material injury to, a U.S. industry within 45 days after we make our final determination. If the ITC determines that material injury, or threat of material injury, does not exist this proceeding will be terminated and all securities posted as a result of the suspension of liquidation will be refunded or cancelled. If the ITC, however, determines that such injury does exist we will issue an antidumping duty order directing the U.S. Customs Service to assess an antidumping duty on barbed wire from Poland which were entered, or withdrawn from warehouse, for consumption on or after May 3, 1985, the publication date of the preliminary determination in the **Federal Register**, equal to the amount by which the foreign market value exceeds the United States price.

This determination is being published pursuant to section 735(d) of the Act (19 U.S.C. 1673d(d)).

William T. Archey,

Acting Assistant Secretary for Trade Administration.

July 15, 1985.

BILLING CODE 3510-DS-M

[A-588-405]

Cellular Mobile Telephones and Subassemblies From Japan; Postponement of Final Antidumping Duty Determination

AGENCY: International Trade Administration, Import Administration, Department of Commerce.

ACTION: Notice.

SUMMARY: This notice informs the public that the Department of Commerce (the Department) has received a request from several respondents in this investigation to postpone the final determination, as provided for in section 735(a)(2)(A) of the Tariff Act of 1930, as amended (the Act) (19 U.S.C. 1673d(a)(2)(A)). Based on these requests, we are postponing our final antidumping duty determination as to whether sales of cellular mobile telephones and subassemblies from Japan have occurred at less than fair value until not later than October 24, 1985.

EFFECTIVE DATE: July 22, 1985.

FOR FURTHER INFORMATION CONTACT: John R. Brinkmann Jr., Office of Investigations, Import Administration, International Trade Administration, Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; telephone (202) 377-4929.

SUPPLEMENTARY INFORMATION: On November 5, 1984, we announced the initiation of an antidumping duty investigation to determine whether cellular mobile telephones and subassemblies from Japan, are being, or are likely to be, sold in the United States at less than fair value (49 FR 47076). We published our preliminary affirmative determination on June 11, 1985 (50 FR 24554). That notice stated that we would issue a final determination by August 19, 1985. On June 19 and July 2, 1985, counsel for Toshiba Corporation, Mitsubishi Electric Corporation and Matsushita Communications Industrial Co., Ltd., three of the six respondents in the investigation, requested that we extend the period for the final determination until not later than the 135th day after publication of our preliminary determination in accordance with section 735(a)(2)(A) of the Act. These respondents account for a signficant proportion of exports of the subject merchandise to the United States, and thus are qualified to make this request. If qualified exporters properly request an extension after an affirmative preliminary determination, the Department is required, absent compelling reasons to the contrary, to grant the requests. Accordingly, we grant the request and postpone our final determination until not later than October 24, 1985. The date of the public hearing has also been changed to September 9, 1985, at 9:00 AM in room 4830 of the Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230. Prehearing briefs in at least 10 copies must now be submitted to the Deputy Assistant Secretary by August 30, 1985.

This notice is published pursuant to section 735(d) of the Act.

Scope of Investigation

The products covered by this investigation are cellular mobile telephones (CMTs), CMT transceivers, CMT control units, and subassemblies dedicated for use in CMTs. CMTs are radio-telephone equipment designed to operate in a cellular radio-telephone system, i.e., a system that permits mobile telephones to communicate with traditional land-line telephones via a base station, and that permits multiple simultaneous use of particular radio frequencies through the division of the system into independent cells, each of which has its own transceiving base station. Each CMT generally consists of (1) a transceiver, i.e., a box of electronic subassemblies which receives and transmits calls; and (2) a control unit, i.e., a handset and cradle resembling a modern telephone, which permits a motor-vehicle driver or passenger to dial, speak, and hear a call. They are designed to use motor vehicle power sources. Cellular transportable telephones, which are designed to use either motor vehicle power sources or, alternatively, portable power sources, are included in this investigation.

Subassemblies are any completed or partially completed circuit boards, circuit modules and/or any packaged assemblage of electronic components, the value of which is equal to or greater than five dollars, and which are dedicated for use in CMT transceivers or control units. Examples of such subassemblies are circuit boards and/or modules containing any of the following circuitry or combinations thereof: audio processing, signal processing (logic), RF, IF, synthesizer, duplexer, power supply, power amplification, transmitter, and exciter.

The following merchandise has been excluded from this investigation: Pocket-size self-contained portable cellular telephones, cellular base stations or base station apparatus, cellular switches, and mobile telephones designed for operation on other, non-cellular, mobile telephone systems.

Cellular mobile telephones and subassemblies are no longer classified under item numbers 685.23, 685.24 and 685.29 of the Tariff Schedules of the United States (TSUS), as was reported in the preliminary determination. They are currently classified under TSUS numbers 685.28 and 685.32.

Gilbert B. Kaplan,

Acting Deputy Assistant Secretary for Import Administration.

July 15, 1985.

Certain Welded Rectangular Carbon Steel Pipes and Tubes From Taiwan; Preliminary Determination of Sales at Less Than Fair Value

AGENCY: International Trade Administration/Import Administration Department of Commerce.

ACTION: Notice.

SUMMARY: We have preliminarily determined that certain welded rectangular carbon steel pipes and tubes (pipes and tubes) from Taiwan are being, or are likely to be, sold in the United States at less than fair value and that "critical circumstances" do not exist with respect to imports of the merchandise under investigation. We have notified the U.S. International Trade Commission (ITC) of our determination, and we have directed the

U.S. Customs Service to suspend liquidation on all entries of the subject merchandise as described in the

U.S. Customs Service to suspend liquidation on all entries of the subject merchandise as described in the "Suspension of Liquidation" section of this notice. If this investigation proceeds normally, we will make a final determination by September 30, 1985.

EFFECTIVE DATE: July 22, 1985.

FOR FURTHER INFORMATION CONTACT: Karen L. Sackett, Office of Investigations, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; telephone (202) 377–1273.

SUPPLEMENTARY INFORMATION:

Preliminary Determination

We have preliminarily determined that pipes and tubes from Taiwan are being, or are likely to be, sold in the United States at less than fair value, as provided in section 733(b) (19 U.S.C. 1673b(b)) of the Tariff Act of 1930, as amended (the Act). The margin preliminarily found for the company investigated is listed in the "Suspension of Liquidation" section of this notice. We have also preliminarily determined that "critical circumstances" do not exist with respect to imports of this product from Taiwan.

If this investigation proceeds normally, we will make our final determination by September 30, 1985.

Case History

On December 18, 1984, we received a petition filed by the Mechanical Tubing Subcommittee of the Committee on Pipe and Tube Imports, on behalf of the U.S. industry producing certain welded rectangular carbon steel pipes and tubes. In compliance with the filing requirements of § 353.36 of Commerce Regulations (19 CFR 353.36), the petition alleged that imports of pipes and tubes from Taiwan are being, or are likely to be, sold in the United States at less than fair value, within the meaning of section 731 of the Act, and that these imports are materially injuring, or are threatening material injury to, a U.S. industry.

After reviewing the petition, we determined that it contained sufficient grounds upon which to initiate an antidumping duty investigation. We notified the ITC of our action and initiated such an investigation on January 11, 1985 (50 FR 1614). On February 1, 1985, the ITC subsequently found that there is a reasonable indication that imports of pipes and tubes from Taiwan are materially injuring or threatening to materially injure a United States industry.

The petitioner alleged that two companies in Taiwan produced pipes and tubes for export to the United States. We found that Yieh Hsing accounted for virtually all of the sales of the subject merchandise from Taiwan during the period of investigation. A questionnaire was presented to counsel for Yieh Hsing on February 14, 1985. Yieh Hsing responded to our questionnaire on April 9, 1985.

After reviewing the questionnaire response, counsel for the petitioner alleged that sales of rectangular pipe from Taiwan are being made at below the cost of production, and petitioner requested that the deadline for the preliminary determination be extended for 50 days in order to allow sufficient time for the cost of production investigation. On May 8, 1985, we postponed the preliminary antidumping duty determination for 50 days, or not later than July 16, 1985 (50 FR 20255). On May 23, 1985 we sent a cost of production questionnaire to the respondent. On June 27, 1985 we received a response to our questionnaire. The response was deficient in that it did not properly allocate costs for the various sizes of pipes and tubes under investigation, and that a theoretical instead of an actual factor weight was used for the cost of production. Therefore, we used the best information available to determine the cost of production. The best information available was cost information submitted by petitioner, which is based on costs of raw materials, labor, and general expenses, excluding profit, incurred in producing such or similar merchandise.

Scope of Investigation

The products under investigation are welded rectangular (including square) carbon steel pipes and tubes having a walk thickness of less than 0.156 inch, as currently classified in the Tariff Schedules of the United States, Annotated (TSUSA), under item 610.4928.

Since the respondent produced and exported virtually all of the rectangular pipes and tubes from Taiwan during the period of investigatin, we limited our investigation to that one company.

We investigation sales of certain welded rectangerlar carbon steel pipes and tubes from Taiwan during the period from July 1 through December 31, 1984

Fair Value Comparison

To determine whether sales of the subject merchandise in the United States were made at less than fair value, we compared the United States price with the foreign market value.

United States Price

As provided in section 772 of the Act, we used the purchase price of pipes and tubes to represent the United States price for sales by the respondent because the merchandise was sold to unrelated purchasers prior to its importation into the United States.

We calculated the purchase price on the c.&f. price to unrelated purchasers in the United States. We made deductions, where appropriate, for inland freight, ocean freight, brokerage and handling, stamp tax, and export charges.

Foreign Market Value

In calculating foreign market value we used constructed value in accordance with section 773(e) of the Act. There was no viable home market. Petitioner alleged and we found that all sales to the largest third country market were at prices below the cost of production. For cost of production, we used the "best information available," which was based on cost data submitted by petitioner. Accordingly, we disregarded third country prices and used constructed value in making our comparisons.

Since respondent's cost of production information was deficient, cosntructed value was based on best information available. Best information available was the cost of production submitted by petitioner, which was based on the cost of materials, labor, and general expenses. To the cost of materials and labor, we added the statutory minimum of 10 percent for selling, general, and administrative expenses and the statutory minimum of 6 percent profit, as required in section 773 of the Act, since the cost information furnished by petitioner did not include general expenses and profit.

In calculating foreign market value we made currency conversions from Taiwan dollars to United States dollars in accordance with § 353.56(a)(1) of our regulations.

Preliminary Negative Determination of Critical Circumstances

Counsel for the petitioners alleged that imports of pipes and tubes from Taiwan present "critical circumstances." Under section 733(e) of the Act, critical circumstances exist if we have a reasonable basis to believe or suspect that (1) there is a history of dumping in the United States or elsewhere of the class or kind of the merchandise which is the subject of the investigation; or the person by whom, or for whose account, the merchandise was imported knew or should have known that the exporter was selling the merchandise which is the subject of the investigation at less than its fair value; and (2) there have been massive imports of the class or kind of merchandise that is the subject of the investigation over a relatively short period.

In determining whether there is a history of dumping of pipes and tubes from Taiwan in the United States or elsewhere, we reviewed past antidumping findings of the Department of Treasury as well as past Department of Commerce antidumping duty orders. We also reviewed the antidumping actions of other countries, and found one past antidumping determination on the same product being imported into Australia. Since there is a history of dumping, we did not need to consider whether to impute knowledge of dumping.

We then considered whether there were massive imports. We generally consider the following concerning massive imports: (1) Recent trends in import penetration levels, (2) whether imports have surged recently, (3) whether the recent imports are significantly above the average calcuated over the last three years; and (4) whether the pattern of imports over that three years period may be explained by seasonal swings.

In considering this question, we analyzed recent trade statistics on impost levels and import penetration ratios for pipes and tubes from Taiwan for the periods immediately preceding and subsequent to the filing of the petition. Based on our analysis of recent trade data, we find that imports of pipes and tubes from Taiwan during the period subsequent to the receipt of the petition have not been massive when compared to recent import levels and import penetration ratios.

Therefore, we preliminarily determine that critical circumstances do not exist with respect to imports of certain pipes and tubes from Taiwan.

Suspension of Liquidation

In accordance with section 733(d) of the Act, we are directing the United States Customs Service to suspend liquidation of all entries of pipes and tubes from Taiwan which are entered, or withdrawn from warehouse, for consumption, on or after the date of the publication of this notice in the **Federal Register**. The Customs Service shall require a cash deposit or the posting of a bond equal to the estimated weighted-average amount by which the foreign market value of the merchandise subject to this investigation exceeds the United States price. This suspension of liquidation will remain in effect until further notice. The weighted-average margins are as follows:

Manufacturer	Dumping margins (percent)
Yieh Hsing	34.34
All other manufacturers/producers and exporters	34.34

Verification

As provided in section 776(a) of the Act, we will verify all information used in reaching our final determination.

ITC Notification

In accordance with section 733(f) of the Act, we will notify the ITC of our determination. In addition, we are making available to the ITC all nonprivileged and nonconfidential information relating to this investigation. We will allow the ITC access to all privileged and confidential information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an administrative protective order, without the written consent of the Deputy Assistant Secretary for Import Administration. The ITC will determine whether these imports materially injure, or threaten material injury to, a U.S. industry before the later of 120 days after we make our preliminary affirmative determination or 45 days after we make our final affirmative determination.

Public Comment

In accordance with § 353.47 of our regulations (19 CFR 353.47), if requested, we will hold a public hearing to afford interested parties an opportunity to comment on this preliminary determination at 10:00 a.m. on August 9, 1985, at the United States Department of Commerce, Room 3708, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230. Individuals who wish to participate in the hearing must submit a request to the Deputy Assistant Secretary for Import Administration, Room B–099, at the above address within 10 days of the publication of this notice. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; (3) the reason for attending; and (4) a list of the issues to be discussed.

In addition, prehearing briefs in at least 10 copies must be submitted to the Deputy Assistant Secretary by August 2, 1985. Oral presentations will be limited to issues raised in the briefs. All written views should be filed in accordance with 19 CFR 353.46, within 30 days of this notice's publication, at the above address and in at least 10 copies.

Gilbert B. Kaplan,

Acting Deputy Assistant Secretary for Import Administration.

National Oceanic and Atmospheric Administration

[Modification No. 1 to Permit No. 443]

Marine Mammal Permit Modification; Southwest Fisheries Center

Notice is hereby given that pursuant to the provisions of § 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR 216), Permit No. 443 issued to Southwest Fisheries Center, National Marine Fisheries Service, P.O. Box 271, La Jolla, California 92038 on March 5, 1984 (49 FR 8057) is modified as follows:

Section C is deleted and replaced by:

"C. All General Conditions attached as Section C shall apply and are made a part hereof except Sections C–2(g), C–3, C–4, C–6 and C–7 are specifically waived."

This modification became effective on July 16, 1985.

Documents in connection with the above modification and Permit are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: July 16, 1985.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

New Limits for Certain Cotton, Wool and Man-Made Fiber Textile Products Produced or Manufactured in the People's Republic of China

July 17, 1985.

The Chairman of the Committee for the Implementation of Textile Agreements (CITA), under the authority contained in E.O. 11651 of March 3, 1972, as amended, has issued the directive published below to the Commissioner of Customs to be effective on July 23, 1985. For further information contact Diana Solkoff, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212.

Background

On December 28, 1984 a notice was published in the **Federal Register** (49 FR 50434) announcing the import restraint limits for certain cotton, wool and man-made fiber textile products, produced or manufactured in China and exported to the United States during the agreement year which began on January 1, 1985.

During consultations held May 20–24, 1985 under the terms of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement, effected by exchange of notes dated August 19, 1983, as amended, the Governments of the United States and the People's Republic of China agreed to establish specific limits for the following products: twill and sateen in Category 317, dresses in Category 336, underwear in Category 352, coveralls, overalls and similar apparel in Category 359pt. (only T.S.U.S.A. numbers 379.0822, 379.6410, 383.0828 and 383.5053), women's, girls', and infants' suits in Category 444, women's, girls', and infants' knit shirts and blouses in Category 639, and polypropylene bags in Category 669pt. (only T.S.U.S.A. number 385.5300), produced or manufactured in China and exported during the agreement year which began on January 1, 1985. The United States Government has decided to control imports in these categories at the agreed limits. Accordingly, in the letter published below, the Chairman of CITA directs the Commissioner of Customs to prohibit entry, or withdrawal from warehouse, for consumption in the United States of textile products in the foregoing categories in excess of the designated restraint limits.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

July 17, 1985.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C. 20229

Dear Mr. Commissioner: This directive cancels and supersedes the directives of April 3, May 21, June 27, and August 22, 1984 which directed you to prohibit entry for consumption, or withdrawal from warehouse for consumption, of certain cotton, wool, and man-made fiber textile products, produced or manufactured in China and exported during designated restraint periods.

Under the terms of Section 204 of the Agricultural Act 1956, as amended (7 U.S.C. 1954), pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 19, 1983, between the Governments of the United States and the People's Republic of China, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed, effective on July 23, 1985, to prohibit entry for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in Categories 317, 336, 352, 359pt.[1] 444, 639 and 669pt.[2], produced or manufactured in the People's Republic of China and exported during the twelve-month period which began on January 1, 1985 and extends through December 31, 1985, in excess of the following limits:

Category	12-mo restraint limit[3]
317	15,600,000 square yards of which not more than 3,120,000 square yards shall be in TSUSA items 320.—through 331.—with statistical suffixes 50, 87 and 93.
336	118,450 dozen.
352	1,254,000 dozen.
359pt.[1]	706,750 dozen.
444	15,150 dozen.
639	958,375 dozen.
669pt.[2]	2,491,000 pounds.

[1] In Category 359, only TSUSA numbers 383.5027 and 379.6410, 379.0822; 383.0828.
[2] In Category 669, only TSUSA number 385.5300.
[3] The limits have not been adjusted to account for any imports exported after December 31, 1984.

In carrying out this directive textile products in the foregoing categories which have been exported to the United States during the agreement year which began on January 1, 1984 and extended through December 31, 1984, shall, to the extent of any unfilled balance, be charged against the restraint limits established for such goods during that twelve-month period. In the event the restraint limits established for that period have been exhausted by previous entries, such goods shall be subject to the limits set forth in this letter.

Textile products in the foregoing Categories which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

A description of the textile categories in terms of T.S.U.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

Announcing an Import Restraint Limit for Certain Cotton Textile Products Produced or Manufactured in Turkey

July 17, 1985

On May 10, 1985 a notice was published in the **Federal Register** (50 FR 19776) announcing that, on April 30, 1985, the United States Government, under Article 3 of the Arrangement Regarding International Trade in Textiles, had requested the Government of Turkey to enter into consultations concerning exports to the United States of cotton twill fabric in Category 317pt. (only T.S.U.S.A. numbers 320.— through 331.— with statistical suffixes 51, 52, 85, 89, 91, and 95), produced or manufactured in Turkey.

The purpose of this notice is to advise the public that, inasmuch as no agreement has been reached on a mutually satisfactory solution concerning this category in consultations held June 17–19, 1985, the United States Government has decided to control imports in Category 317pt., produced or manufactured in Turkey and exported during the twelve-month period which began on April 30, 1985 and extends through April 29, 1986 at a level of 6,441,771 square yards.

Accordingly, in the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of cotton textile products in Category 317pt. in excess of the designated restraint limit.

For Further Information Contact: Anne Fields, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. (202/377–4212).

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of the United States Annotated (1985).

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

July 17, 1985.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C. 20229

Dear Mr. Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on July 23, 1985, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 317pt.[1] produced or manufactured in Turkey and exported during the twelve-month period which began on April 30, 1985 and extends through April 29, 1986, in excess of 6,441,771 square yards.[2]

Textile products in Category 317pt.[1] which have been exported to the United States prior to April 30, 1985 shall not be subject to this directive.

Textile products in Category 317pt.[1] which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on December 13, 1982 (47 FR 55709), as amended on April 7, 1983 (48 FR 15175), May 3, 1983 (48 FR 19924), December 14, 1983 (48 FR 55607), December 30, 1983 (48 FR 57584), April 4, 1984 (49 FR 13397), June 28, 1984 (49 FR 26622), July 16, 1984 (49 FR 28754), November 9, 1984 (49 FR 44782), and in Statistical Headnote 5, Schedule 3 of the Tariff Schedules of The United States Annotated (1985).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553.

[1] In Category 317, only T.S.U.S.A. numbers 320.— through 331.— with statistical suffixes 51, 52, 85, 89, 91, and 95.
[2] The level has not been adjusted to reflect any imports exported after April 29, 1985.

Sincerely,

Walter C. Lenahan,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

DEPARTMENT OF EDUCATION

Office for Civil Rights; Proposed Annual Operating Plan for Fiscal Year 1986

AGENCY: Department of Education.

ACTION: Notice of proposed annual operating plan for fiscal year 1986.

SUMMARY: The Secretary of Education invites comments on the proposed FY 1986 Annual Operating Plan (AOP) for the Office for Civil Rights (OCR).

DATES: Comments must be received on or before September 5, 1985.

ADDRESS: All comments concerning the AOP should be addressed to Harry M. Singleton, Assistant Secretary for Civil Rights, Department of Education, 400 Maryland Avenue SW Room 5000, Washington, D.C. 20202.

FOR FURTHER INFORMATION CONTACT: Fred Tate, Department of Education, 400 Maryland Avenue SW., Room 5000, Washington, D.C. 20202, (202) 732–1479.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Office for Civil Rights (OCR) is responsible for ensuring that no person is unlawfully discriminated against on the basis of race, color, national origin, sex, handicap, or age, in the delivery of services or the provision of benefits, in programs or activities receiving financial assistance from the Department of Education (ED). The jurisdictional authorities under which OCR operates are Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975.

These authorities cover ED funded programs and activities carried out by 50 State education and rehabilitation agencies and those of their subrecipients, as well as those of the District of Columbia and the territories and possessions of the United States; 15,840 local education agencies; and 3,300 institutions of higher education. In addition, OCR's civil rights authorities cover programs and activities in other institutions that receive ED funds, such as libraries and museums.

OCR ensures compliance with Federal civil rights statutes by the recipients of ED financial assistance through two

basic types of activities: compliance activities and technical assistance activities. Most of OCR's compliance

statutory requirements, in an LOF sent to the recipient. Where the settlement

gives information on the number of reviews initiated for each issue. During

OCR may require a recipient to submit one or more progress reports detailing

rights agencies to facilitate meeting mutual civil rights compliance goals and

engaged in civil rights compliance

basic types of activities: compliance activities and technical assistance activities. Most of OCR's compliance activities (including complaint investigations, compliance reviews and monitoring the implementation of some voluntary compliance plans) are required by the *Adams* court orders. However, OCR has some discretion over where it will conduct its compliance review and other monitoring activities and what those activities will cover. For the most part, OCR concentrates its investigative activities on those recipients that have been identified as having possible compliance problems. OCR also provides technical assistance, including the transfer of information, material, and skills to facilitate ED recipients' voluntary compliance with civil rights laws and to inform beneficiaries of their rights.

Compliance activities and technical assistance activities also may be combined. OCR may provide technical assistance to recipients at any time after the initiation of a compliance review or complaint investigation, or following its conclusion, either in response to a request from a recipient or after an inquiry by investigative staff as to whether a recipient would be interested in such assistance. As a result, compliance issues may be resolved in a nonconfrontational manner that facilitates closer cooperation at the recipient level while assuring that the rights of beneficiaries are protected.

During FY 1986, OCR will continue to use two operational techniques designed to improve the efficiency of the case handling process. The first, Early Complaint Resolution (ECR), is a process in which OCR acts as a mediator between the complainant and the recipient to negotiate a settlement between them. If the mediation is successful, OCR closes the complaint without an investigation. If the parties cannot reach an agreement, OCR investigates the complaint. During the first half of FY 1985, ECR was offered in 139 complaints and accepted in 87 complaints (63 percent). Of those cases in which ECR was offered and accepted, 57 (66 percent) were resolved through mediation.

The second technique is pre-letter of findings (LOF) settlement. With this process OCR reviews its findings with the recipient on each of the issues raised in the complaint or covered by the compliance review in an attempt to reach a settlement prior to the issuance of an LOF addressing areas of non-compliance. When settlement is reached, OCR sets forth the terms of the settlement; along with the applicable statutory requirements, in an LOF sent to the recipient. Where the settlement results from a complaint, the complainant is also sent a copy of the LOF. If an area of noncompliance has been resovled, the LOF cites the basis for the violation findings and the remedy adopted by the recipient. OCR then monitors the implementation of these agreements.

It should be noted that the activities planned by OCR in FY 1986, and outlined below, are consistent with the appropriations authorized by Congress and approved by the President.

The following narrative and table describe the activities that OCR plans for FY 1986.

II. Compliance and Enforcement Activities

OCR's compliance and enforcement responsibilities are divided into three general categories: complaint investigation, compliance reviews, and monitoring activities.

A. *Complaint Investigations.* OCR's primary compliance activity is the investigation and resolution of complaints alleging discrimination. Each timely, complete complaint must be resolved in accordance with established procedures and time frames.

OCR received 1,003 complaints and closed 899 (some of which had been filed prior to the beginning of the fiscal year) during the first half of FY 1985. OCR had 955 open complaints as of March 31, 1985. Alleged discrimination against handicapped persons was the basis of approximately 53 percent of complaint receipts; race, multiple bases, sex, national origin, and age complaints followed in descending order of frequency. The largest number of complaints involved elementary and secondary schools. In the first half of FY 1985, 77 percent of the complaints received involved issues of service delivery to students, 16 percent involved various employment issues, 2 percent involved both, and 4 percent involved other issues.

B. *Compliance Reviews.* OCR's compliance review program complements its complaint investigation activities. Compliance reviews differ from complaint investigations in that OCR has some discretion in selecting the issues and institutions for review. This permits OCR to target resources on compliance problems that appear to be serious or national in scope and that may not have been raised by complaints.

During the first half of FY 1985, OCR initiated compliance reviews of 88 recipients; the Table on compliance review starts, included in this plan, gives information on the number of reviews initiated for each issue. During this same period, OCR closed 87 reviews, some of which had been initiated prior to the beginning of FY 1985. OCR had 148 open compliance reviews as of March 31, 1985.

During FY 1986, pursuant to the December 29, 1977 *Adams* order (*Adams* v. *Califano*, No. 3095–70 (D.D.C. December 29, 1977)) OCR intends to conduct an appropriate number of compliance reviews to ensure adequate enforcement of the civil rights laws.

While some review activities are required by the *Adams* order, most compliance reviews are discretionary and represent the only area in which OCR has flexibility to choose the institutions to be investigated, the issues to be examined, and the dates on which the reviews will begin. Selection of review sites has, in the past, been based on various sources of information, including survey data indicating potential compliance problems and information provided by complainants, interest groups, the media, and the general public. In order to provide greater flexibility in the targeting of institutions and to help validate OCR's current targeting methods, OCR initiated a random site selection program for compliance reviews in some regional offices during FY 1984. This experiment is designed to determine the relative effectiveness of a statistically random compliance review site selection compared with the traditional form of site selection in which regions nominate sites based on criteria set forth by the Assistant Secretary. The experiment calls for five regions to select randomly compliance review sites. Of the five, two regions employ random site selection for 100 percent of their compliance reviews. Three of the five regions employ random site selection for 50 percent of their selections and traditional methods for the remainder. The remaining five regions employ traditional compliance review site selection techniques for all reviews. The random site selection program for compliance reviews is continuing and evaluation results of the effectiveness of this alternative site selection procedure are expected in the near future.

C. *Monitoring Activities.* OCR closes many of the complaints and compliance reviews in which it has identified violations of civil rights statutes on the basis of a commitment by the recipient institution to complete remedial action at a future date. OCR has a responsibility to ensure that agreements to complete such remedial actions are carried out. To fulfill that responsibility, OCR may require a recipient to submit one or more progress reports detailing efforts to come into compliance with applicable laws. In some cases, OCR may go on-site to monitor a recipient's compliance with a negotiated remedial action plan. Other types of OCR monitoring activities include monitoring of higher education desegregation plans pursuant to the March 24, 1983 *Adams* order, (*Adams* v. *Bell*, No. 3095–70 (D.D.C. March 24, 1983)) and vocational education Methods of Administration. In FY 1986, OCR will monitor the following:

- Implementation by recipient institutions of remedial action plans resulting from OCR complaint investigations and compliance reviews.
- Implementation of *Adams* higher education desegregation plans of approximately 416 institutions of higher education in 13 States.
- Review and implementation of corrective action plans to provide educational opportunities to national origin minority students who are limited English proficient (i.e., Title VI *Lau* plans).
- Activities of 50 States, four territories, and the District of Columbia, to ensure that they fulfill their Methods of Administration responsibilities under the Vocational Education Guidelines and the July 1979 Memorandum of Procedures regarding the civil rights compliance of their vocational education subrecipients.

III. Technical Assistance Activities

Technical assistance complements OCR's compliance activities because it encourages voluntary compliance. Through technical assistance, OCR is able to reach a far greater number of recipients than it could solely through complaint investigations or compliance reviews. OCR provides technical assistance to recipients to inform them of their responsibilities under the civil rights statutes and the ED implementing regulations and of means to meet these responsibilities. OCR provides technical assistance to beneficiaries to inform them of their rights under the civil rights statutes and to explore voluntary methods of securing those rights. During FY 1985, in addition to responding to requests for technical assistance, OCR regional offices were encouraged to increase technical assistance outreach activities, to the extent staff resources were available, based on ongoing assessments of recipient and beneficiary needs.

In FY 1986, OCR will conduct the following technical assistance activities:

- Continue development and implementation of Memoranda of Understanding with State and human rights agencies to facilitate meeting mutual civil rights compliance goals and objectives and to promote the sharing of information.
- Coordinate with other ED program offices on the provision of civil rights related technical assistance.
- Facilitate the exchange of information, materials, technical assistance strategies, techniques, and successful compliance practices and procedures among OCR staff providing technical assistance.
- Provide materials and courses to OCR regional investigators and legal staff to facilitate the provision of technical assistance training to education institutions and State and local governments.
- Provide training to State and local education agencies to enhance their capabilities to carry out civil rights activities.
- Prepare materials for dissemination to recipients and beneficiaries, summarizing and explaining OCR policies and regulations.

IV. Program Management Activities

In conducting its compliance, enforcement, and technical assistance activities, OCR continues to implement a comprehensive program that includes—

- Formulating or updating regulations, policies, and investigative manuals, including—
  - —Promulgating ED regulations to implement the Age Discrimination Act of 1975;
  - —Amending the Title IX and Section 504 regulations to provide for vocational education Methods of Administration;
  - —Revising the benefits of employment section of the Title IX regulation to reflect the Supreme Court's decision in *Arizona Governing Committee* v. *Norris*, 103 S.Ct. 3492 (1983);
- Providing technical guidance on complaints and compliance reviews referred from regional offices;
- Conducting hearings before Administrative Law Judges on the compliance of Federal financial recipients with civil rights requirements;
- Meeting with congressional staffs, school district representatives, college and university officials, complainants, and civil rights groups to discuss OCR activities;
- Conducting and evaluating OCR surveys and data collection projects to obtain information on recipients and beneficiary populations for enforcement purposes;
- Providing in-house programmatic training to investigators and legal staff engaged in civil rights compliance activities;
- Conducting a quality assurance program to systematically review, evaluate, and recommend improvements in OCR operations; and
- Operating a Management-by-Objectives program designed to enhance management planning and to track performance in meeting organizational goals.

V. Summary

While regional programs will vary due to considerations such as the number and type of complaints received, compliance reviews conducted, and requests for technical assistance, all OCR activities will be guided by national policies, priorities, and direction. As in previous years, each Regional Director will be responsible for timely fulfillment of OCR's obligations in handling complaint investigations and compliance reviews, monitoring compliance plans, and providing technical assistance to recipients and beneficiaries of ED financial assistance. A large part of each region's compliance program will involve the investigation of complaints of discrimination. Compliance reviews initiated in FY 1986 will include, as appropriate, each of OCR's civil rights jurisdictions in the geographic area served by each regional office. Monitoring activities will focus on ensuring that recipients comply with voluntary compliance plans and fulfill their vocational education Methods of Administration responsibilites. OCR will design technical assistance activities to respond to recipient and beneficiary needs.

Paperwork Reduction Act of 1980. The information collection activity to be undertaken pursuant to this plan is the Fall 1986 Elementary and Secondary School Civil Rights Survey. A notice will be published in the Federal Register in the Fall of 1985, prior to submission of the survey to OMB, notifying the public of OCR's intention to gather this data. This survey is scheduled for OMB approval in February 1986 and for distribution to selected local education agencies in the Fall of 1986. In addition to the above survey, OCR also jointly sponsors two surveys with the National Center for Education Statistics, the Fall Enrollment and Compliance Report of Institutions of Higher Education Survey (OMB control number 1850–0035) and the Earned Degrees and Other Formal Awards Conferred Survey (OMB control number 1850–0053).

VI. Invitation to Comment

Interested persons are invited to submit comments and recommendations regarding the proposed plan. Written comments and recommendations may be sent to the address given at the beginning of this document. All comments received on or before the end of the comment period will be considered in the development of the final plan.

All comments submitted in response to the proposed plan will be available for public inspection, during and after the comment period, at the Department of Education, Room 5074, Switzer Building, 330 C Street SW, Washington, D.C. between the hours of 9:00 a.m. and 5:00 p.m., Monday through Friday of each week except Federal holidays.

(Catalog of Federal Domestic Assistance does not apply)

Dated: July 17, 1985.

William J. Bennett,

Secretary of Education.

BILLING CODE 4000–01–M

Office of Postsecondary Education

Publication of Sample Cases and Expected Parental Contributions for the National Direct Student Loan, College Work-Study and Supplemental Educational Opportunity Grant Programs

AGENCY: Department of Education.

ACTION: Notice of publication of sample cases and expected parental contributions for the approval of need analysis systems and notice of closing date for transmittal of information.

SUMMARY: The Secretary gives notice that the sample cases and expected parental contribution provided in the tables contained in this notice will be used in approving systems of need analysis for award year 1986–87 for the National Direct Student Loan (NDSL), College Work-Study (CWS) and Supplemental Educational Opportunity Grant (SEOG) programs. These programs are known collectively as the campus-based programs. The Secretary takes this action under the authority of the Student Financial Assistance Technical Amendments Act of 1982 (Pub. L. 97–301) as amended and 34 CFR 674.13, 675.13, and 676.13 of the NDSL, CWS, and SEOG program regulations, respectively.

Institutions of higher education must use these approved systems of need analysis in determining the financial need of dependent and independent students under the respective campus-based programs.

FOR FURTHER INFORMATION CONTACT: Margaret O. Henry or Anna S. Borlaug, telephone (202) 245–9720.

SUPPLEMENTARY INFORMATION:

Program Information

This notice provides the sample cases and the expected parental contributions that the Secretary will use to approve need analysis systems for award year 1986–87 under the campus-based programs (20 U.S.C. 1089—Note). In order to be approved, a system must meet the requirements provided in this notice.

If the majority of students served by a system are undergraduate students, an individual or organization must submit to the Secretary expected parental contributions for dependent undergraduate students which increase incrementally as the parents' financial strength (measured in constant dollars) increases, are equal for families of equal financial strength, and are within $50 of the expected parental contributions in 75 percent of the sample cases supplied by the Secretary in Table 1.

If the majority of students served by a system are graduate and professional students, an individual or organization must submit to the Secretary expected parental contributions for dependent graduate and professional students which increase incrementally as the parents' financial strength (measured in constant dollars) increases, are equal for families of equal financial strength, and are within $50 of the expected parental contributions in 75 percent of the sample cases supplied by the Secretary in Table 2. An individual or organization that wishes to have its system of need analysis approved for dependent students must also submit its system of need analysis for independent students.

If the Secretary approves an individual's or organization's system for dependent undergraduate students, the Secretary will also approve that individual's or organization's system for dependent graduate and professional students, and independent undergraduate, and graduate and professional students. If the Secretary approves an individual's or organization's system for dependent graduate and professional students, the Secretary will also approve that individual's or organization's system for dependent undergraduate students, and independent undergraduate, and graduate and professional students.

The expected parental contributions in this notice are based on the following assumptions: a 4.5 percent inflation rate for 1985; families of varying sizes with two parents and either one dependent unergraduate student (Table 1), or one dependent graduate or professional student (Table 2); the adjusted gross income of that student's older parent who is the family's sole wage earner and is 45; an asset protection allowance of $31,000; an 8-percent allowance for State and other taxes; and the use of 1985 U.S. income tax schedules for a joint return with standard deductions. The expected parental contributions in this notice do not take into account—

Business or farm assets;
Nontaxable income;
Other unusual expenses; and
Elementary and secondary tuition expenses.

The Secretary will use the sample cases and expected parental contributions contained in this notice to approve need analysis systems for dependent undergraduate, and graduate and professional students under the campus-based programs. The approved systems will be used for making awards to students under the campus-based programs for award year 1986–87.

Closing Date for Transmittal of Information

An individual or organization wishing to have a system of need analysis approved must submit to the Secretary on or before August 21, 1985: (1) A complete description of its system of need analysis for dependent and independent students; (2) its student application form(s) for undergraduate, and graduate and professional students; (3) either the expected parental contributions for undergraduate students produced by an individual's or organization's system using the sample cases provided in Table 1 which are based on dependent undergraduate students, or the expected parental contributions for graduate and professional students produced by an individual's or organization's system using the sample cases provided in Table 2 which are based on dependent graduate and professional students; and (4) a complete calculation of how each expected parental contribution was derived, including enough information to allow the Secretary to duplicate these calculations and results.

The Secretary will not accept this information in the form of computer programs, software, or mechanical devices. The Secretary will not accept this information after the closing date and will return information received after the closing date to the sender.

Documents Delivered by Mail

Descriptions of systems, application form(s), expected parental contributions, and calculations that are sent by mail must be postmarked on or before August 21, 1985 and addressed to Anna Borlaug, Department of Education, Office of Student Financial Assistance, 400 Maryland Avenue, SW, [ROB–3, Room 4018], Washington, DC, 20202.

An individual or organization must show proof of mailing these documents. Proof of mailing consists of one of the following: (1) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service, (2) a legibly dated U.S. Postal Service postmark; (3) a dated shipping label, invoice, or receipt from a commercial carrier; or (4) any other proof of mailing acceptable to the Secretary of Education.

If these documents are sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) A private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service. An individual or organization should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an individual or organization should check with its local post office. An individual or organization is encouraged to use certified or at least first-class mail.

Documents Delivered by Hand

Descriptions of systems, application form(s), expected parental contributions and calculations that are hand-delivered must be taken on or before (insert date 30 days from the date of publication) to Anna Borlaug, Department of Education, Office of Student Financial Assistance, 7th and D Streets, SW [ROB–3, Room 4018], Washington, DC, 20202. The Campus and State Grant Branch will accept these hand-delivered documents between 8:00 a.m. and 4:30 p.m. daily (Washington, DC time) except Saturdays, Sundays and Federal holidays.

These documents will not be accepted after 4:30 p.m. August 21, 1985.

Office of Special Education and Rehabilitative Services

Discretionary Grant Programs

AGENCY: Department of Education.

ACTION: Application Notice Establishing Closing Dates for Transmittal of Certain Fiscal Year 1986 Noncompeting Continuation Awards.

SUMMARY: The purpose of these application notices is to inform potential applicants of fiscal and programmatic information and closing dates for transmittal of noncompeting continuation grant applications for certain programs administered by the Department of Education under the Office of Special Education and Rehabilitative Services.

Organization of Notice

This notice contains two parts. Part I includes the list of all closing dates for noncompeting continuation awards covered by this notice. Part II consists of the individual application announcements for each program. These announcements are in the same order as the closing dates listed in Part I.

Instructions for Transmittal of Applications

of funding levels do not bind the Department to a specific number of

Instructions for Transmittal of Applications

Applicants should note specifically the instructions for the transmittal of applications included below:

Transmittal of applications: To be assured of consideration for funding, applications for noncompeting continuation awards should be mailed or hand delivered on or before the closing date given in the individual program announcements included in this document.

If an application is late, the Department of Education may lack sufficient time to review it with other noncompeting continuation applications and may decline to accept it.

Applications delivered by mail: An application sent by mail must be addressed to the Department of Education, Application Control Center, Attention: (insert appropriate CFDA number), 400 Maryland Avenue, SW., Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other evidence of mailing acceptable to the U.S. Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) A private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail.

Applications delivered by hand: An application that is hand delivered must be taken to the Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, SW. Washington, D.C.

The Application Control Center will accept hand-delivered applications between 8:00 a.m. and 4:00 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays. Applications that are hand delivered will not be accepted after 4:00 p.m. on the closing date.

Available funds: An estimate of available funds is included in each application notice, under the paragraph on availability of funds. These estimates of funding levels do not bind the Department to a specific number of grants or to the amount of any grant, unless that amount is otherwise specified by statute or regulations.

Intergovernmental review: On June 24, 1983, the Secretary published in the **Federal Register** final regulations (34 CFR Part 79, published at 48 FR 29158 *et seq.*) implementing Executive Order 12372 entitled: "Intergovernmental Review of Federal Programs." The regulations took effect September 30, 1983.

Some of the following programs in this notice are subject to the requirements of the Executive Order and the regulations in 34 CFR Part 79. The objective of Executive Order 12372 is to foster an intergovernmental partnership and a strengthened federalism by relying on State and local processes for State and local government coordination and review of proposed Federal financial assistance.

The Executive Order—

- Allows States, after consultation with local officials, to establish their own process for review and comment on proposed Federal financial assistance;
- Increases Federal responsiveness to State and local officials by requiring Federal agencies to accommodate State and local views or explain why those views will not be accommodated; and
- Revokes OMB Circular A–95.

Transactions with nongovernmental entities, including State postsecondary educational institutions and federally recognized Indian tribal governments, are not covered by Executive Order 12372. Also excluded from coverage are research, development, or demonstration projects that do not have a unique geographic focus and are not directly relevant to the governmental responsibilities of a State or local government within that geographic area.

Included in each application announcement in this notice is a current list of States that have established a process, designated a single point of contact, and have selected that program for review. Also included in each announcement is the date by which comments and recommendations from the single point of contact review are due to the Department.

The Executive Order for Intergovernmental Review will apply to the following programs:

84.158—Secondary Education and Transitional Services for Handicapped Youth
84.024—Handicapped Children's Early Education Program
84.025—Services for Deaf-Blind Children and Youth
84.078—Postsecondary Education Programs for Handicapped Persons

Part II—Application Notice

Secondary Education and Transitional Services for Handicapped Youth

Applications are invited for projects under the Secondary Education and Transitional Services for Handicapped Youth program.

Authority for this program is contained in section 626 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1425)

Awards are made under this program to institutions of higher education, State educational agencies, and other appropriate public and private nonprofit institutions or agencies.

The purpose of this program is to provide support for research, development, demonstration, evaluation, and other types of projects that improve secondary special education and other services for handicapped youth in order to assist them in the transition from secondary school to postsecondary environments such as competitive or supported employment.

84.158F—Secondary Education and Transitional Services for Handicapped Youth—Transition Strategies and Techniques

Closing date: September 30, 1985.

Program information: This priority supports the continued third budget period funding for grants initially awarded in 1984 for research projects designed to develop strategies and techniques for transition to cooperative or supported employment through improvements in independent living skills, secondary and postsecondary education, vocational preparation, and availability of work opportunity.

Intergovernmental Review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The Secondary Education and Transitional Services for Handicapped Youth program is a new program, and most States have not made a determination as to whether it will be included or excluded from review under the State review process. New Jersey, however, has selected this program for review. In those States which have not selected this program for review under the State review process, immediately upon receipt of this notice, applicants which are governmental entities, including local educational agencies, should contact the appropriate State single point of contact to see if this assistance will be included under its State's review process and to comply with the State's process under Executive Order 12372. A list containing the single point of contact for each State will be included in the application package for this program.

In States that have not established a process or chosen this program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education, Room 4181 (84.158F), 400 Maryland Avenue, SW., Washington, D.C. 20202. (Proof of mailing will be determined on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $500,000 will be available for support of the third budget period for 6 fiscal year 1984 Transition Strategies and Techniques projects.

Application forms: Application forms and program information packages will be mailed on July 30, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820–0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Secondary and Transitional Services for Handicapped Youth program (34 CFR Part 326) published at 49 FR 28380 on July 11, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, 78, and 79).

For further information contact: Dr. Nancy Safer, Research Project Branch, Division of Educational Services, Special Education Programs, Department of Education, 400 Maryland Avenue, SW., (Switzer Building, Room 3511–M/S 2313), Washington, D.C. 20202. Telephone: (202) 732–1109.

(20 U.S.C. 1425)

84.158H—Secondary Education and Transitional Services for Handicapped Youth—Research Projects in Secondary Education

Closing date: October 15, 1985.

Program information: This priority supports the continued second budget period funding for grants originally awarded in 1985 to support research projects which focus on secondary level programs for handicapped youth as described under 34 CFR Part 326.

Intergovernmental Review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The Secondary and Transitional Services for Handicapped Youth program is a new program, and most

requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the

eight years of age. Demonstration projects assist in developing and

Maryland Avenue, SW., Washington,

Research in Education of the

be limited on August 30, 1985 to grantees

The Secondary and Transitional Services for Handicapped Youth program is a new program, and most States have not made a determination as to whether it will be included or excluded from review under the State review process. All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the followifg address:

The Secretary, U.S. Department of Education, Room 4181 (84.158H), 400 Maryland Avenue, SW., Washington, D.C. 20202. (Proof of mailing will be determined on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that $1,500,000 will be available for support of the second budget period for 18 Research Projects in Secondary Education projects initially awarded in fiscal year 1985.

Application forms: Application forms and program information packages will be mailed on July 30, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applications not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820-0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Secondary and Transitional Services for Handicapped Youth program (34 CFR Part 326) published at 49 FR 28380 on July 11, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, 78 and 79).

For further information contact: Mr. Melville Appell, Research Projects Branch, Division of Educational Services, Special Education Programs, Department of Education, 400 Maryland Avenue, SW., (Switzer Building, Room 3511–M/S 2313), Washington, D.C. 20202. Telephone: (202) 732–1113.

(20 U.S.C. 1425)

Handicapped Children's Early Education Program

Applications are invited for projects under the Handicapped Children's Early Education Program.

Authority for this program is contained in Section 623 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1423)

Awards are made under this program to appropriate public agencies and private nonprofit organizations to develop and implement experimental preschool and early education programs for handicapped children which show promise of promoting a comprehensive and strengthened approach to the special problems of young handicapped children. Awards are also provided to assist States in planning, developing, and implementing a comprehensive delivery system that provides education and related services to handicapped children from birth through five years and their families.

84.024B–B—Handicapped Children's Early Education Progam—Demonstration Projects

Closing date: October 15, 1985.

Program information: The purpose of this program is to support experiemental preschool and early education programs for handicapped children. These programs are intended to promote a comprehensive service delivery system to meet the special needs of handicapped children from birth through eight years of age. Demonstration projects assist in developing and implementing innovative and experimental practices that establish specific strategies and products worthy of dissemination and replication. This priority supports the continued third budget period funding for grants initially awarded in 1985 for demonstration projects.

Intergovernment Review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The following is a current list of States that have established a process, designated a single point of contact, and have selected this program for review:

Alabama	New Jersey
Arizona	New Mexico
Arkansas	New York
California	Northern Mariana Islands
Connecticut	North Dakota
Delaware	Ohio
District of Columbia	Oklahoma
Florida	Oregon
Guam	Pennsylvania
Georgia	Puerto Rico
Hawaii	South Carolina
Indiana	South Dakota
Iowa	Tennessee
Kansas	Texas
Kentucky	Trust Territory
Louisiana	Utah
Maine	Vermont
Massachusetts	Virgin Islands
Michigan	Virginia
Missouri	Washington
Montana	West Virginia
Nebraska	Wisconsin
Nevada	
New Hampshire	

Immediately upon receipt of this notice, applicants which are governmental entities, including local educational agencies, must contact the appropriate State single point of contact to find out about, and to comply with, the State's process under the Executive Order. Applicants proposing to perform activities in more than one State should, immediately upon receipt of this notice, contact the single point of contact for each State and follow the procedures established in those States under the Executive Order. A list containing the single point of contact for each State is included in the application package for this program.

In State that have not established a process or chosen this program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education. Room 4181 (84.024B–B), 400 Maryland Avenue, SW., Washington, D.C. 20202. (Proof of mailing will be determined on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SENT APPLICATONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $3,700,000 will be available for support of the third budget period for the 32 demonstration projects initially awarded in fiscal year 1984.

Application forms: Application forms and program information packages will be mailed on September 3, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submittted in accordance with the regulations, instructions, and forms included in the program information package. However, the progam information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under Control Number 1820–0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Handicapped Children's Early Education Program (34 CFR Part 309) published at 49 FR 28350 on July 11, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, 78, and 79).

For further information contract: Dr. Thomas Finch, Chief, Early Childhood Programs, Division of Innovation and Development special education programs, Department of Education, 400 Maryland Avenue, SW, (Switzer Building, Room 3511–M/S 2313) Washington, D.C. 20202. Telephone: (202) 732–1084.

(20 U.S.C. 1423)

Research in Education of the Handicapped

Applications are invited for projects under the Research in Education of the Handicapped program.

Authority for this program is contained in sections 641 and 642 of Part E of the Education of the Handicapped Act.

(20 U.S.C. 1441, 1442)

Awards are made under this program to State or local educational agencies, institutions of higher education and other public or nonprofit private educational or research agencies and organizations. In addition, the Secretary may award contracts to profit making organizations.

The purpose of this program is to fund research and related purposes and to conduct research, surveys, or demonstrations relating to the education of handicapped children. This may include model programs designed to meet the special educational needs of those children. It may also include research and related purposes, and research surveys, or demonstrations relating to physical education and recreation for handicapped children.

84.023L—Research in Education of the Handicapped—Handicapped Children's Model Program Youth Employment Projects

Closing date: October 25, 1985.

Program information: This priority supports the continued third budget period funding for grants initially awarded in 1984 for projects on the role of the school in increasing the employment of handicapped individuals, and on any option open to the handicapped providing for the transition from school to work.

48.023N—Research in the Education of the Handicapped—Handicapped Children's Model Program Postsecondary Projects

Closing date: October 25, 1985.

Program information: This priority supports the continued third budget period funding for grants initially awarded in 1984 for projects related to postsecondary and continuing education for the handicapped.

Available funds: It is estimated that approximately $1,400,000 will be available for support of the third budget period for 12 Youth Employment projects initially funded in fiscal year 1984. It is estimated that approximately $1,500,000 will be available for support of the third budget period for 15 Postsecondary projects initially awarded in fiscal year 1984.

Application forms: Application forms and program information packages will be limited on August 30, 1985 to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820–0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Research in Education of the Handicapped program (34 CFR Part 324).

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, and 78).

For further information contact: Dr. Thomas R. Behrens, Director, Division of Innovation and Development, Special Education Programs, Department of Education, 400 Maryland Avenue, SW. (Switzer Building, Room 3511–M/S 2313), Washington, D.C. 20202. Telephone: (202) 732–1154.

(20 U.S.C. 1441, 1442)

Secondary Educotion and Transitional Services for Handicapped Youth

Applications are invited for projects under the Secondary Education and Transitional Services for Handicapped Youth program.

Authority for this program is contained in section 626 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1425)

Awards are made under this program to institutions of higher education, State educational agencies, local educational agencies and other public and private nonprofit institutions or agencies.

The purpose of this program is to provide support for research, development, demonstration, evaluation and other types of projects that improve secondary special education and other services for handicapped youth in order to assist them in the transition from secondary school to postsecondary

environments such as competitive or supported employment.

84.158B—Secondary Education and Transitional Services for Handicapped Youth—Service Demonstrations Models

Closing date: October 25, 1985.

Program information: This priority suports the continued third budget period funding for grants initially awarded in 1984 for projects that develop and establish exemplary models for services and programs, including specific vocational training and job placement, that result directly in paid employment in regular work settings for handicapped youth leaving school or that enhance the effectiveness of secondary and postsecondary services which lead to employment.

Intergovernmental review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The Secondary and Transitional Services for Handicapped Youth program is a new program, and most States have not made a determination as to whether it will be included or excluded from review under the State review process. New Jersey, however, has selected this program for review. In those States which have not selected this program for review under the State review process, immediately upon receipt of this notice, applicants that are governmental entities, including local educational agencies, should contact the appropriate State single point of contact to see if this assistance will be inlcuded under its State's review process and to comply with the State's process under Executive Order 12372. A list containing the single point of contact for each State will be included in the application package for this program.

In States that have not established a process or chosen this program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education Room 4161 (84.158B), 400 Maryland Avenue, SW., Washington, D.C. 20202. (Proof of mailing will be determined on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $1,655,000 will be available for support of the third budget period for 16 Service Demonstration Model projects initially awarded in fiscal year 1984.

Application forms: Application forms and program information packages will be mailed on September 10, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirments beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820-0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Secondary and Transitional Services for Handicapped Youth program (34 CFR Part 326) published at 49 FR 28380 on July 11, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, 78 and 79).

For further information contact: Dr. Thomas R. Behrens, Director, Division of Innovation and Development, Special Education Programs, Department of Education, 400 Maryland Avenue, SW., (Switzer Building, Room 3511-M/S 2313), Washington, D.C. 20202. Telephone: (202) 732-1154.

(20 U.S.C. 1425)

Handicapped Children's Early Education Program

Applications are invited for projects under the Handicapped Children's Early Education Program.

Authority for this program is contained in section 623 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1423)

Awards are made under this program to appropriate public agencies and private nonprofit organizations to develop and implement experimental preschool and early education programs for handicapped children which show promise of promoting a comprehensive and strengthened approach to the special problems of young handicapped children. Awards are also provided to assist States in planning, developing, and implementing a comprehensive delivery system that provides education and related services to handicapped children from birth through five years and their families.

84.024B-A—Handicapped Children's Early Education Program—Demonstration Projects

Closing date: December 27, 1985.

Program information: The purpose of this program is to support experimental preschool and early education programs for handicapped children. These programs are intended to promote a comprehensive service delivery system to meet the special needs of handicapped children from birth through eight years of age. Demonstration projects assist in developing and implementing innovative and experimental practices that establish specific strategies and products worthy of dissemination and replication. This priority supports the continued second budget period fundng for grants initially awarded in 1985 for demonstration projects.

Intergovernmental Review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The following is a current list of States that have established a process, designated a single point of contact, and have selected this program for review:

Alabama	New Jersey
Arizona	New Mexico
Arkansas	New York
California	Northern Mariana Islands
Connecticut	North Dakota
Delaware	Ohio
District of Columbia	Oklahoma
Florida	Oregon
Guam	Pennsylvania
Georgia	Puerto Rico
Hawaii	South Carolina
Indiana	South Dakota
Iowa	Tennessee
Kansas	Texas
Kentucky	Trust Territory
Louisiana	Utah
Maine	Vermont
Massachusetts	Virgin Islands
Michigan	Virginia
Missouri	Washington
Montana	West Virginia
Nebraska	Wisconsin
Nevada	
New Hampshire	

Immediately upon receipt of this notice, applicants which are governmental entities, including local educational agencies, must contact the appropriate State single point of contact to find out about, and to comply with, the State's process under the Executive Order. Applicants proposing to perform activities in more than one State should, immediately upon receipt of this notice, contact the single point of contact for each State and follow the procedures established in those States under the Executive Order. A list containing the single point of contact for each State is included ins the application package for this program.

In States that have not established a process or chosen this program for review, State areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education, Room 4181 (84.024B-A), 400 Maryland Avenue, SW., Washington, D.C. 20202. (Proof of mailing will be determines on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $2,300,000 will be available for support of the second budget period for the 20 demonstration projects initially awarded in fiscal year 1985.

Application forms: Application forms and program information packages will be mailed on September 3, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under Control Number 1820-0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Handicapped Children's Early Education Program (34 CFR Part 309) published at 49 FR 28350 on July 11, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, 78, and 79).

For further information contact: Dr. Thomas Finch, Chief, Early Childhood Programs, Division of Innovation and Development, Special Education Programs, Department of Education, 400 Maryland Avenue, SW, (Switzer Building, Room 3511-M/S 2313) Washington, D.C. 20202. Telephone: (202) 732-1084.

(20 U.S.C. 1423)

Secondary Education and Transitional Service for Handicapped Youth

Applications are invited for projects under the Secondary Education and Transitional Services for Handicapped Youth program.

Authority for this program is contained in Section 628 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1425)

Awards are made under this program to institutions of higher education, State educational agencies, and other appropriate public and private nonprofit institutions or agencies.

The purpose of this program is to provide support for research, development, demonstration, evaluation, and other types of projects that improve secondary special education and other services for handicapped youth in order to assist them in the transition from secondary school to a postsecondary environment such as competitive or supported employment.

84.158D—Secondary Education and Transitional Services for Handicapped Youth—Cooperative Models for Planning and Developing Transitional Services

Closing date: January 15, 1986

Program information: This priority supports the continued second budget period funding for grants initially awarded in 1985 for projects designed to plan and develop cooperative models for activities among State or local educational agencies, developmental disabilities councils, and adult service agencies, including vocational rehabilitation, mental health, mental retardation, public employment, and private employers, which will facilitate effective planning for services to meet the employment needs of handicapped youth as they leave school.

Intergovernmental Review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The Secondary Education and Transitional Services for Handicapped Youth Program is a new program, and most States have not made a determination as to whether it will be included or excluded from review under the State review process. New Jersey, however, has selected this program for review. In those States which have not selected this program for review under the State review process, immediately upon receipt of this notice, applicants which are governmental entities, including local educational agencies, should contact the appropriate State single point of contact to see if this assistance will be included under its State's review process and to comply with the State's process under Executive Order 12372. A list containing the single point of contact for each State will be included in the application package for this program.

In States that have not established a process or chosen this program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education, Room 4181 (84.158D), 400 Maryland Avenue, SW., Washington, D.C. 20202. (Proof of mailing will be determined on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $1,460,000 will be available for support of the second budget period for 15 Cooperative Models for Planning and Developing Transitional Services projects initially awarded fiscal year 1985.

Application forms: Application forms and program information packages will be mailed on September 10, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms

1984 for the provision of services to deaf-blind children and youth, and technical assistance to State educational

Auxiliary Activities—Innovative Programs for Severely Handicapped

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820-0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Secondary and Transitional Services for Handicapped Youth program (34 CFR Part 328) published at 49 FR 28380 on July 11, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR parts 74, 75, 77, 78, and 79).

For further information contact: Dr. Thomas R. Behrens, Director, Division of Innovation and Development, Special Education Programs, Department of Education, 400 Maryland Avenue, SW. (Switzer Building, Room 3511-M/S 2313), Washington, D.C. 20202. Telephone: (202) 732-1154.

(20 U.S.C. 1425)

Services for Deaf-Blind Children and Youth

Applications are invited for projects under the Services for Deaf-Blind Children and Youth program.

Authority for this program is contained in section 622 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1422)

Awards are made under this program to public or nonprofit private agencies, institutions, or organizations.

This program supports projects that enhance services to deaf-blind children and youth, particularly by providing technical assistance to State educational agencies and others who are involved in the education of deaf-blind children and youth.

84.025B—Services for Deaf-Blind Children and Youth

Closing Date: January 27, 1986.

Program information: This priority supports the continued second or third budget period funding for cooperative agreements initially awarded in 1985 or 1984 for the provision of services to deaf-blind children and youth, and technical assistance to State educational agencies, in accordance with 34 CFR 307.11.

Intergovernmental Review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The following is a current list of States that have established a process, designated a single point of contact, and have selected this program for review:

Alabama	New Jersey
Arizona	New Mexico
Arkansas	New York
California	Northern Mariana Islands
Connecticut	North Dakota
Delaware	Ohio
District of Columbia	Oklahoma
Florida	Oregon
Guam	Pennsylvania
Hawaii	South Carolina
Indiana	South Dakota
Iowa	Tennessee
Kansas	Texas
Kentucky	Trust Territory
Louisiana	Utah
Maine	Virgin Islands
Massachusetts	Vermont
Michigan	Virginia
Missouri	Washington
Montana	West Virginia
Nebraska	Wyoming
Nevada	
New Hampshire	

Immediately upon receipt of this notice, applicants which are governmental entities, including local educational agencies, must contact the appropriate State single point of contact to find out about, and to comply with, the State's process under the Executive Order. Applicants proposing to perform activities in more than one State should, immediately upon receipt of this notice, contact the single point of contact for each State and follow the procedures established in those States under the Executive Order. A list containing the single point of contact for each State is included in the application package for this program.

In States that have not established a process or chosen this program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education, Room 4181 (84.025B), 400 Maryland Avenue SW., Washington D.C. 20202. (Proof of mailing will be determined on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $2,763,000 will be available for support of the third budget period for the 13 cooperative agreements initially funded in fiscal year 1984 and approximately $1,574,000 for support of the second budget period of the 18 cooperative agreements initially awarded in fiscal year 1985 for services to deaf-blind children and youth under the Services for Deaf-Blind Children and Youth program. A total of $4,935,000 is expected to be made available for awards for multi and single State projects for fiscal year 1986. Of this amount, $4,337,000 is anticipated to be awarded under this competition for new awards. It is expected that funds available for continuation awards will be increased to the extent that funds are not awarded under the new competition.

Application forms: Application forms and program information packages will be mailed on December 2, 1985, to grantees who are eligible to apply for noncompeting continuation cooperative agreement support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820-0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Services for Deaf-Blind Children and Youth program (34 CFR Part 307) published at 49 FR 28360 on July 11, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, 78, and 79).

For further information contact: Charles W. Freeman, Special Needs Section, Division of Innovation and Development, Special Education Programs, Department of Education, 400 Maryland Avenue, SW., (Switzer Building, Room 3511-M/S 2313), Washington, D.C. 20202. Telephone: (202) 732-1177.

(20 U.S.C. 1422)

Research in Education of the Handicapped

Applications are invited for projects under the Research in Education of the Handicapped program.

Authority for this program is contained in sections 641 and 642 of Part E of the Education of the Handicapped Act.

(20 U.S.C. 1441, 1442)

Awards are made under this program to State and local educational agencies, institutions of higher education, and other public agencies and nonprofit private organizations.

The purpose of this program is to provide support for research, surveys, demonstration projects, and other activities relating to the education of handicapped children and youth. Under this program, the Secretary makes awards to eligible parties for research and related activities, to assist special education personnel, related services personnel, and other appropriate persons, including parents, in improving the education and related services for handicapped children and youth, and to conduct research, surveys, or demonstrations relating to the education of handicapped children and youth. Research and research-related activities supported under this program must be designed to increase knowledge and understanding of handicapping conditions and teaching, learning, and education-related practices and services for handicapped children and youth, including physical education and recreation.

84.023D—Research in Education of the Handicapped—Field-Initiated Research

Closing date: February 3, 1986.

Program information: This priority supports second or third budget period funding for Field-Initiated Research projects that were first funded in fiscal years 1985 or 1984 under the Research in Education of the Handicapped program. The purpose of these projects is to provide support for a broad range of field-initiated research projects focusing on the education of handicapped children and youth. The appropriate areas of interest for projects are limited only by the mission of the research program—support of applied research relating to education of the handicapped children and youth.

Available funds: It is estimated that approximately $5,240,000 will be available for support of the second of third budget periods for 65 Field-Initiated Research projects initially funded in fiscal years 1985 or 1984.

Application forms: Application forms and program information packages will be mailed on December 3, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820-0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) When adopted in final form, regulations governing the Research in Education of the Handicapped program (proposed for codification in 34 CFR Part 324). The proposed regulations for this program were published in the Federal Register on March 20, 1985 (50 FR 11356). Applicants should prepare their applications based on the proposed regulations. If there are any substantive changes made in the regulations when published in final form, applicants will be given the opportunity to revise or resubmit their applications.

(b) The Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, and 78).

For further information contact: Dr. James Johnson, Technology and Marketing Branch, Division of Educational Services Special Education Programs, Department of Education, 400 Maryland Avenue, SW. (Switzer Building, Room 3511 M/S 2313), Washington, D.C. 20202. Telephone: (202) 732-1123.

(20 U.S.C. 1441, 1442)

Auxiliary Activities—Innovative Programs for Severely Handicapped Children

Applications are invited for projects under the Auxiliary Activities—Innovative Programs for Severely Handicapped Children program.

Authority for this program is contained in Section 624 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1424)

Awards are made under this program to public or private, profit or nonprofit organizations and institutions.

The Auxiliary Activities program supports research, development or demonstration, training, and dissemination activities which, consistent with the purpose of Part C of the Education of the Handicapped Act, meet the unique educational needs of handicapped children and youth, including those who are severely handicapped.

84.086X-A—Independent Living Skills Training for Severely Handicapped Youth

Closing date: March 3, 1986.

Program information: This priority supports the continued third budget period funding for grants initially awarded in 1984 for the development of innovative, cost effective methods for providing training in independent living skills to severely handicapped youth, ages 16 through 21, making the transition from educational to home/community environments.

84.086X-B—Parent Involvement in Provision of Educational Services and Life-Long Planning for Severely Handicapped Children and Youth

Closing date: March 3, 1986.

Program information: This priority supports the continued third budget period funding for grants initially awarded in 1984 for increasing the involvement of parents in the development, establishment, and evaluation of individualized educational programs for severely handicapped children and youth, and in the life-long planning for these persons.

84.086X-C—Non-Directed Demonstration Projects for Severely Handicapped Children and Youth

Closing date: March 3, 1986.

Program information: This priority supports the continued second or third budget period funding for grants initially awarded in 1985 or 1984 for demonstrating specific, viable procedures for meeting significant educational needs of severely

handicapped (other than deaf-blind) children and youth.

84.086X-I—Statewide Systems Change

have selected this program for review:

Alabama	New Mexico

grantees who are eligible to apply for noncompeting continuation grant

and related services to handicapped children from birth through five years

VOL 50 ISS 140 JL 22 1985 UMI

handicapped (other than deaf-blind) children and youth.

84.086X–J—Statewide Systems Change

Closing date: March 3, 1986.

Program information: This priority supports the continued second or third budget period funding for grants initially awarded in 1985 or 1984 to design, implement, evaluate, and disseminate information about a model for the Statewide delivery of comprehensive special education and related services to severely handicapped children and youth (including deaf-blind children and youth), ages birth through 21, within a particular State.

84.086X–L—Social and Community Skills Development for Severely Handicapped Children and Youth

Closing date: March 3, 1986.

Program information: This priority supports the continued second budget period funding for grants initially awarded in 1985 to design, implement, and evaluate innovative procedures which increase the skills and opportunities of severely handicapped (including deaf-blind) children and youth to socially interact with peers and others in neighborhood and other community situations.

84.086X–N—Education of Severely Handicapped (Including Deaf-Blind) Children and Youth in the Least Restrictive Environment

Closing date: March 3, 1986.

Program information: This priority supports the continued second budget period funding for grants initially awarded in 1985 to design, implement, and evaluate innovative approaches for the education of severely handicapped (including deaf-blind) children and youth in the least restrictive and least segregated environments.

84.086Y–D—Approaches to Total Life Planning for Deaf-Blind Children and Youth

Closing date: March 3, 1986.

Program information: This priority supports the continued second budget period funding from grants initially awarded in 1985 for projects which implement innovative procedures for the development of total life planning for deaf-blind children and youth.

84.086Y–E—Skills Training, Placement, and Supported Employment for Deaf-Blind Youth

Closing date: March 3, 1986.

Program information: This priority supports the continued second or third budget period funding from grants initially awarded in 1985 for projects which design, implement, and disseminate innovative practices in the prevocational and vocational skills training, work site placement, and supported employment of deaf-blind youth.

84.086Y–H—Non-Directed Demonstration Projects for Deaf-Blind Children and Youth

Closing date: March 3, 1986.

Program information: This priority supports the continued second budget period funding from grants initially awarded in 1985 or 1984 for projects designed to demonstrate specific, viable procedures for meeting significant educational needs of deaf-blind children and youth. These demonstration projects focus upon the overall mission of the program to demonstrate innovative and effective approaches to the education of deaf-blind children and youth in the least restrictive environment with the goal of providing educational programs for these children and youth in regular school settings.

84.086–K—Communication Skills Development for School-Aged Deaf-Blind Children and Youth

Closing date: March 3, 1986.

Program information: This priority supports the continued second budget period funding from grants initially awarded in 1985 for projects which identify critical educational problems in developing communication skills in school-aged deaf-blind children, ages 6 through 21, design and demonstrate innovative programs to effectively resolve such problems, and disseminate information about project findings and recommendations.

Available funds: It is estimated that approximately $1,635,000 will be available for support of the third year of the 13 grants initially awarded in fiscal year 1984 and $7,980,000 for support of the second year of the 76 grants initially awarded in fiscal year 1985 grants.

Application forms: Application forms and program information packages will be mailed on January 16, 1986, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820–0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing Auxiliary Activities—Innovative Programs for Severely Handicapped Children (34 CFR Part 315) published at 49 FR 28020 on July 9, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, and 78).

(20 U.S.C. 1424)

Postsecondary Education Programs for Handicapped Persons

Applications are invited for projects governing demonstration projects under the Postsecondary Education Programs for Handicapped Persons program.

Authority for this program is contained in Section 625 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1424a)

Awards are made under this program to State educational agencies, institutions of higher education, junior and community colleges, vocational and technical institutions, and other nonprofit educational agencies.

84.078D—Postsecondary Education Programs for Handicapped Persons—Demonstration Projects

Closing date: March 14, 1986.

Program information: The purpose of this program is to provide assistance for the development, operation, and dissemination of specially designed model programs of postsecondary, vocational, technical, continuing, or adult education for Handicapped individuals. This priority supports continued second or third budget period funding for grants awarded in fiscal years 1985 or 1984 for demonstration projects.

Intergovernmental review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The following is a current list of States that have established a process, designated a single point of contact, and have selected this program for review:

Alabama	New Mexico
Arizona	New York
Arkansas	Northern Mariana Islands
California	North Dakota
Colorado	Ohio
Connecticut	Oklahoma
Delaware	Oregon
District of Columbia	Pennsylvania
Florida	Puerto Rico
Guam	Rhode Island
Hawaii	South Carolina
Indiana	South Dakota
Iowa	Texas
Kansas	Trust Territory
Louisiana	Utah
Maine	Vermont
Missouri	Virginia
Montana	Virgin Islands
Nebraska	Washington
Nevada	Wyoming
New Hampshire	
New Jersey	

Immediately upon receipt of this notice, applicants which are governmental entities, including local educational agencies, must contact the appropriate State single point of contact to find out about, and to comply with, the State's process under the Executive Order. Applicants proposing to perform activities in more than one State should, immediately upon receipt of this notice, contact the single point of contact for each State and follow the procedures established in those States under the Executive Order. A list containing the single points of contact for each State is included in the application package for this program.

In States that have not established a process or chosen this program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single point of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education, Room 4181 (84.078D), 400 Maryland Avenue, SW., Washington, D.C. 20202. (Proof of mailing will be determined on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $2,500,000 will be available for support of the second or third budget periods for 21 demonstration projects initially awarded in fiscal years 1985 or 1984.

Application forms: Application forms and program information packages will be mailed on January 10, 1986, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that the applicant submit only the information that is requested.

(Approved by the Office of Management and Budget under control number 1820–0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Postsecondary Education Programs for Handicapped Persons program (34 CFR Part 338) published at 49 FR 25990 on June 25, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, 78, and 79).

Handicapped Children's Early Education Program

Applications are invited for projects under the Handicapped Children's Early Education Program.

Authority for this program is contained in section 623 of Part C of the Education of the Handicapped Act.

(20 U.S.C. 1423)

Awards are made under this program to appropriate public agencies and private nonprofit organizations to develop and implement experimental preschool and early education programs for handicapped children which show promise of promoting a comprehensive and strengthened approach to the special problems of young handicapped children. Awards are also provided to assist States in planning, developing, and implementing a comprehensive delivery system that provides education and related services to handicapped children from birth through five years and their families.

84.024F—Handicapped Children's Early Education Program—Early Childhood State Plan

Closing date: April 30, 1986.

Program information: This priority supports the second budget period for grants initially awarded in 1985. Grantees may be in one of three program stages: planning, development, or implementation. Grants are for the purpose of establishing, over a maximum period of eight years, a comprehensive State-wide system for delivering special education and related services to all handicapped children from birth through five years of age.

Intergovernmental review: The information on Intergovernmental Review of Federal Programs, as required under Executive Order 12372, is included in the preamble to this notice.

The following is a current list of States that have established a process, designated a single point of contact, and have selected this program for review:

Alabama	New Jersey
Arizona	New Mexico
Arkansas	New York
California	Northern Mariana Islands
Connecticut	North Dakota
Delaware	Ohio
District of Columbia	Oklahoma
Florida	Oregon
Guam	Pennsylvania
Georgia	Puerto Rico
Indiana	South Carolina
Iowa	South Dakota
Kansas	Tennessee
Kentucky	Texas
Louisiana	Trust Territory
Maine	Utah
Massachusetts	Vermont
Michigan	Virgin Islands
Missouri	Virginia
Montana	Washington
Nebraska	West Virginia
Nevada	Wisconsin
New Hampshire	

Immediately upon receipt of this notice, applicants which are governmental entities, including local educational agencies, must contact the appropriate State single point of contact to find out about, and to comply with, the State's process under the Executive Order. Applicants proposing to perform activities in more than one State should, immediately upon receipt of this notice, contact the single point of contact for each State and follow the procedures established in those States under the Executive Order. A list containing the single point of contact for each State is included in the application package for this program.

In States that have not established a process or chosen this program for

review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single point of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education, Room 4181 (84.086), 400 Maryland Avenue, SW, (Switzer Building, Room 3511–M/S 2313), Washington, D.C. 20202. Telephone: (202) 732–1109.

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $1,000,000 will be available for support of the second budget period for 11 Enhancing Instructional Program Options projects

Program information: This priority supports fourth budget period funding for Technology Effectiveness Research

3511–M/S 2313), Washington, D.C. 20202. Telephone: (202) 732–1109.

Nothing in the program information package is intended to impose any

review, State, areawide, regional, and local entities may submit comments directly to the Department.

All comments from State single points of contact and all comments from State, areawide, regional, and local entities must be mailed or hand delivered by August 22, 1985 to the following address:

The Secretary, U.S. Department of Education, Room 4161 (84.024F), 400 Maryland Avenue, SW., Washington, D.C. 20202. (Proof of mailing will be determined on the same basis as applications.)

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

Available funds: It is estimated that approximately $3,000,000 will be available for support of the second budget period for the 29 Early Childhood State Plan grants initially awarded in fiscal year 1985.

Application forms: Application forms and program information packages will be mailed on January 20, 1986, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretay strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretay further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820–0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Handicapped Children's Early Education Program (34 CFR Part 309) published at 49 FR 28350 on July 11, 1984.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, 78, and 79).

For further information contact: Dr. Thomas Finch, Chief, Early Childhood Programs, Division of Innovation and Development, Special Education Programs, Department of Education, 400 Maryland Avenue, SW, (Switzer Building, Room 3511–M/S 2313) Washington, D.C. 20202. Telephone: (202) 732–1084.

(20 U.S.C. 1423)

Research in Education of the Handicapped

Applications are invited for projects under the Research in Education of the Handicapped program.

Authority for this program is contained in sections 641 and 642 of Part E of the Education of the Handicapped Act.

(20 U.S.C. 1441, 1442)

Awards are made under this program to State and local educational agencies, institutions of higher education, and other public agencies and nonprofit private organizations.

The purpose of this program is to provide support for research, surveys, demonstration projects, and other activities relating to the education of handicapped children and youth. Under this program, the Secretary makes awards to eligible parties for research and related activities, to assist special education personnel, related services personnel, and other appropriate persons, including parents, in improving the education and related services for handicapped children and youth, and to conduct research, surveys, or demonstrations relating to the education of handicapped children and youth. Research and research-related activities supported under this program must be designed to increase knowledge and understanding of handicapping conditions and teaching, learning, and education-related practices and services for handicapped children, and youth, including physical education and recreation.

84.023Q—Research in Education of the Handicapped—Enhancing Instructional Program Options Projects

Closing date: May 1, 1986.

Program information: This priority supports second budget period funding for Enhancing Instructional Program Options projects under the Research in Education of the Handicapped program. The purpose of this priority is to provide support for projects to enhance the capacity of local educational agencies to provide a variety of instructional options and screening procedures prior to evaluation and placement of children with learning problems in special education.

Available funds: It is estimated that approximately $1,200,000 will be available for support of the second budget period for 11 Enhancing Instructional Program Options projects initially awarded in fiscal year 1985.

Application forms: Application forms and program information packages will be mailed on December 3, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the progam information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820–0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) When adopted in final form, regulations governing the Research in Education of the Handicapped program (proposed for codification in 34 CFR Part 324). The proposed regulations for this program were published in the Federal Register on March 20, 1985 (50 FR 11356). Applicants should prepare their applications based on the proposed regulations. If there are any substantive changes made in the regulations when published in final form, applicants will be given the opportunity to revise or resubmit their applications.

(b) The Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75, 77, and 78).

For further information contact: Dr. Gary Lambour, Research Projects Branch, Division of Educational Services, Special Education Programs, U.S. Department of Education, 400 Maryland Avenue, SW., (Switzer Building, Room 3511–M/S 2313), Washington, D.C. 20202. Telephone: (202) 732–1054.

(20 U.S.C. 1441, 1442)

84.023J—Research in Education of the Handicapped—Technology Effectiveness Research Projects

Closing dote: May 19, 1986.

Program information: This priority supports fourth budget period funding for Technology Effectiveness Research projects under the Research in Education of the Handicapped program. The purpose of this program is to support projects on the use of technological devices and systems in schools and by handicapped students.

Available funds: It is estimated that approximately $1,082,000 will be available for support of the fourth year budget period for 4 Technology Effectiveness Research projects initially funded in fiscal year 1983.

Application forms: Application forms and program information packages will be mailed on December 3, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

(Approved by the Office of Management and Budget under control number 1820–0028)

Applicable regulations: Regulations applicable to this program include the following:

(a) When adopted in final form, regulations governing the Research in Education of the Handicapped program (proposed for codification in 34 CFR Part 324). The proposed regulations for this program were published in the Federal Register on March 20, 1985 (50 FR 11356). Applicants should prepare their applications based on the proposed regulations. For further information contact: Dr. Nancy Safer, Research Projects Branch, Division of Educational Services, Special Education Programs, U.S. Department of Education, 400 Maryland Avenue, SW., (Switzer Building, Room 3511–M/S 2313), Washington, D.C. 20202. Telephone: (202) 732–1109.

(20 U.S.C. 1441, 1442)

84.023E—Research in Education of the Handicapped—Field-Initiated Research Projects

Closing date: June 3, 1986.

Program information: This priority supports the third budget period funding for Field-Initiated Research projects under the Research in Education of the Handicapped program. These five year projects were initially funded in fiscal year 1984. The purpose of these projects is to provide support for a broad range of field-initiated research projects focusing on the education of handicapped children and youth. The appropriate areas of interest for projects are limited only by the mission of the research program—support of applied research relating to education of the handicapped children and youth.

84.023S—Research in Education of the Handicapped—Special Population/Handicapped Projects

Closing date: June 3, 1986.

Program information: This priority supports second budget period funding for Special Population/Handicapped projects under the Research in Education of the Handicapped program. These projects are designed to deal with the unique educational problems resulting from a combination of membership in a particular special population and having (a) handicapping condition(s), and, in particular, to identify and analyze intervention strategies for serving secondary-aged handicapped students who are also youthful offenders, children of migrant families, school dropouts, or substance abusers.

Available funds: It is estimated that approximately $800,000 will be available for support of the third budget period for 16 Field-Initiated Research projects initially awarded in fiscal year 1984, and it is estimated that approximately $650,000 will be available for support of the second budget period for 10 Special Population/Handicapped projects initially awarded in fiscal year 1985.

Application forms: Application forms and program information packages will be mailed on December 3, 1985, to grantees who are eligible to apply for noncompeting continuation grant support under this notice.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. However, the program information is only intended to aid applicants in applying for assistance. Nothing in the program information package is intended to impose any paperwork, application content, reporting, or grantee performance requirements beyond those imposed under the statute and regulations.

The Secretary strongly urges that the narrative portion of the application not exceed 20 pages in length. The Secretary further urges that applicants not submit information that is not requested.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Portsmouth Area Site, Ohio; Trespassing on DOE Property

The Department of Energy (DOE), successor agency to the Atomic Energy Commission, is authorized pursuant to section 229 of the Atomic Energy Act of 1954, as amended; section 104 of the Energy Reorganization Act of 1974 as implemented by 10 CFR Part 860; and section 301 of the Department of Energy Organization Act, to prohibit unauthorized entry and the unauthorized introduction of weapons or

dangerous materials into and upon its nuclear sites. By Notice dated October 19, 1985, appearing at page 13280 of the

Street a distance of 0.04 mile along and to a corner in said fence on the

Thence in a westerly direction paralleling the southerly side of said

and to a corner in said fence at the

lot a distance of 0.09 mile along and to a

distance of 0.02 mile along and to a

dangerous materials into and upon its nuclear sites. By Notice dated October 19, 1965, appearing at page 13288 of the Federal Register (FR Doc. 65–11108), the Atomic Energy Commission prohibited unauthorized entry into and upon several installations and facilities of the Portsmouth Area Office of the Atomic Energy Commission, located in Pike County, Ohio, including the Portsmouth Gaseous Diffusion Plant, the Portsmouth Area Water Treatment Plant, the Portsmouth Area Raw Water Pumphouse, and the Portsmouth Area Booster Pumphouse. This Notice amends the site description of all these installations and facilities to reflect perimeter and other changes. The most significant amendment is to the description for the Portsmouth Gaseous Diffusion Plant which has been revised to reflect a perimeter and name common to both it and the recently constructed Portsmouth Gas Centrifuge Plant. Notices stating the pertinent prohibition of 10 CFR 860.3 and 860.4 and penalties of 10 CFR 860.5 will be posted at all entrances of said tracts and at intervals along its perimeters as provided in 10 CFR 860.6.

The site description of the Portsmouth Gaseous Diffusion Plant is hereby amended to read as follows:

The Department of Energy (DOE) installation known as the Portsmouth Uranium Enrichment Plant, said installation being a tract of land located in the township of Scioto, Pike County, Ohio, east of State Route 23 approximately four miles southeast of the village of Piketon, Ohio, covering approximately 900 acres, and more particularly described as follows:

Beginning at a point in the DOE-owned chain link fence on the south side of the intersection of Perimeter Road and the Piketon Hill Road, also known as North Access Road, said point being the point of intersection of the centerline of Piketon Hill Road extended and said DOE-owned chain link fence;

Thence in an easterly and southerly direction paralleling Perimeter Road a distance of 0.70 mile along and to the point of intersection of said fence with the centerline of Dutch Run Road extended, also known as East Access Road;

Thence in a southerly and westerly direction paralleling Perimeter Road a distance of 0.13 mile along and to a corner in said fence on the southerly side of 16th Street;

Thence in a westerly direction paralleling 16th Street a distance of 0.05 mile along and to a corner in said fence on the southerly side of 16th Street;

Thence in a southerly and westerly direction along and to the south of 16th Street a distance of 0.04 mile along and to a corner in said fence on the southerly side of 16th Street;

Thence in a westerly direction paralleling 16th Street a distance of 0.11 mile along and to a corner in said fence on the southerly side of 16th Street and X–105 Building;

Thence in a southerly and westerly direction along and to the south of 16th Street and said building a distance of 0.01 mile along and to a corner in said fence on the easterly side of Patrol Road paralleling X–744L Warehouse;

Thence in a southerly direction paralleling Patrol Road and the easterly side of said warehouse a distance of 0.06 mile along and to a corner in said fence on the southerly side of the Patrol Road extension of 12th Street;

Thence in a westerly direction paralleling the Patrol Road extension of 12th Street and crossing Jackson Avenue a distance of 0.06 mile along and to a corner in said fence on the southerly side of 12th Street and westerly side of Jackson Avenue;

Thence in a southerly and westerly direction along and to the south of 12th Street a distance of 0.02 mile along and to a corner in said fence on the southerly side of 12th Street and westerly side of Jefferson Avenue;

Thence in a southerly direction paralleling Jefferson Avenue a distance of 0.32 mile along and to a corner in said fence on the southerly side of 7th Street;

Thence in a westerly direction paralleling 7th Street a distance of 0.01 mile along and to a corner in said fence on the easterly side of Patrol Road "B";

Thence in a southerly direction paralleling said Patrol Road a distance of 0.02 mile along and to a corner in said fence on the easterly side of said Patrol Road;

Thence in a southerly and easterly direction along and to the east of said Patrol Road a distance of 0.02 mile along and to a corner in said fence on the easterly side of said Patrol Road;

Thence in a southerly direction paralleling said Patrol Road a distance of 0.18 mile along and to a corner in said fence at the southeast corner of said Patrol Road;

Thence in a westerly direction paralleling said Patrol Road a distance of 0.17 mile along and to a point in existing chain link fence a distance of 0.02 mile from the easterly side of X–744K Warehouse;

Thence leaving the existing chain link fence in a southerly direction and paralleling the easterly side of said warehouse a distance of 0.06 mile to a point, said point being 0.02 mile from the easterly side and 0.01 mile from the southerly side of said warehouse;

Thence in a westerly direction paralleling the southerly side of said warehouse and X–751 Building a distance of 0.13 mile to a point, said point being 0.03 mile from the southerly side and 0.01 mile from the westerly side of said building;

Thence in a northerly direction paralleling the westerly side of said building a distance of 0.06 mile to a point, said point being 0.01 mile from the northerly side and 0.01 mile from the westerly side of the said building;

Thence in a northerly and westerly direction a distance of 0.04 mile to a point in existing DOE owned chain link fence on the southerly side of 2nd Street;

Thence in a westerly direction paralleling 2nd Street a distance of 0.02 mile along and to a corner in said fence;

Thence in a southerly direction paralleling Eagle Avenue a distance of 0.09 mile along and to a corner in said fence on the northerly side of Dove Avenue;

Thence in an easterly direction paralleling Dove Avenue a distance of 0.01 mile along and to a corner in said fence on the easterly side of Dove Avenue;

Thence in a southerly direction paralleling Dove Avenue a distance of 0.04 mile along and to a corner in said fence on the southerly side of Dove Avenue;

Thence in a westerly direction paralleling Dove Avenue a distance of 0.01 mile along and to a corner in said fence on the easterly side of Dove Avenue;

Thence in a southerly direction paralleling Dove Avenue a distance of 0.15 mile along and to a corner in said fence on the northerly side of Hewes Street;

Thence in an easterly direction paralleling Hewes Street a distance of 0.05 mile along and to a corner in said fence at the northeast corner of Vehicle Portal X–1107AV;

Thence in a southerly direction crossing Hewes Street a distance of 0.01 mile totaling 0.02 mile along and to a corner in said fence at the southeast corner of said vehicle portal;

Thence in a westerly direction paralleling Hewes Street and said vehicle portal a distance of 0.02 mile along and to a corner in said fence at the easterly side of Crane Avenue;

Thence in a southerly direction paralleling Crane Avenue a distance of 0.12 mile along and to a corner of said fence at the southeast corner of XT–847 Warehouse;

Thence in a westerly direction paralleling the southerly side of said warehouse a distance of 0.05 mile along

and to a corner in said fence at the northeast corner of X–749 Storage Yard;

Thence in a southerly direction paralleling said storage yard on the easterly side a distance of 0.11 mile along and to a corner in said fence;

Thence in an easterly direction paralleling said storage yard a distance of 0.02 mile along and to a corner in said fence;

Thence in a southerly direction paralleling said storage yard on the easterly side, a distance of 0.04 mile along and to a corner in said fence;

Thence in a westerly direction paralleling said storage yard on the southerly side a distance of 0.07 mile along and to a corner in said fence;

Thence in a northerly and westerly direction paralleling the westerly side of X–749 Storage Yard a distance of 0.08 mile along and to a corner in said fence;

Thence in an easterly direction paralleling the northerly side of said storage yard a distance of 0.03 mile along and to a corner in said fence, said corner being a distance of 0.01 mile from the southerly side and 0.03 mile from the westerly side of the XT–847 Warehouse;

Thence in a northerly direction paralleling the westerly side of said warehouse a distance of 0.12 mile along and to a corner in said fence on the southerly side of Hewes Street;

Thence in a westerly direction paralleling Hewes Street a distance of 0.25 mile along and to a corner in said fence on the easterly side of Martin Avenue;

Thence in a southerly direction paralleling Martin Avenue a distance of 0.13 mile along and to a corner in said fence on the southerly end of Martin Avenue and Shrike Loop;

Thence in an easterly direction paralleling Shrike Loop and passing on the south side of the X–1107F Portal a distance of 0.11 mile along and to a corner in said fence on the easterly side of Sunbird Loop;

Thence in a southerly direction paralleling Sunbird Loop a distance of 0.03 mile along and to a corner in said fence on the southerly side of Sunbird Loop;

Thence in a westerly direction paralleling Sunbird Loop a distance of 0.04 mile along and to a corner in said fence on the westerly side of Sunbird Loop;

Thence in a northerly direction paralleling Sunbird Loop, Teal Avenue and Patrol Road a distance of 0.58 mile along and to a corner in said fence at the southwest corner of the X–2207E Parking Lot and northerly side of Patrol Road;

Thence in an easterly direction paralleling Patrol Road and said parking lot a distance of 0.09 mile along and to a corner in said fence on the westerly side of Plover Avenue;

Thence in a northerly direction parelling Plover Avenue a distance of 0.09 mile along and to a corner in said fence on the southerly side of Sherman Loop;

Thence in a westerly direction paralleling Sherman Loop a distance of 0.02 mile along and to a corner in said fence on the westerly side of Sherman Loop.

Thence in a northerly direction parelleling Sherman Loop a distance of 0.06 mile along and to a corner in said fence on the northerly side of the extension of Stockton Street;

Thence in an easterly direction parelleling the extension of Stockton Street and X–1107EV Portal a distance of 0.02 mile along and to a corner in said fence on the north side of the extension of Stockton Street and west side of Plover Avenue;

Thence in a northerly direction paralleling Patrol Road and west side of X–7725A Warehouse a distance of 0.05 mile along and to a corner in said fence at northwest corner of said warehouse;

Thence in an easterly direction paralleling Patrol Road and north side of said warehouse a distance of 0.07 mile along and to a corner in said fence on the northeast corner of said warehouse;

Thence in a southerly direction paralleling Patrol Road and east side of said warehouse a distance of 0.05 mile along and to a corner in said fence on the northerly side of Stockton Street;

Thence in an easterly direction paralleling Stockton Street a distance of 0.10 mile along and to a corner in said fence on the westerly side of Hawk Avenue;

Thence in a northerly direction paralleling Hawk Avenue a distance of 0.05 mile along and to a corner in said fence at the corner of Hawk Avenue and Taylor Street;

Thence in an easterly direction paralleling Taylor Street a distance of 0.09 along and to a corner in said fence on the northwest corner of Taylor Street and Grebe Avenue;

Thence in a northerly direction paralleling Grebe Avenue and X–1107DV Portal a distance of 0.02 mile along and to a corner in said fence at the northwest corner of said Portal.

Thence in an easterly direction paralleling Taylor Street and Gannet Loop and crossing Grebe Avenue a distance of 0.06 mile along and to a corner in said fence at the northeast corner of X–1107DP Portal and Gannet loop;

Thence in a southerly direction paralleling Gannet Loop on the east a distance of 0.02 mile along and to a corner in said fence on the northerly side of Taylor Street;

Thence in an easterly direction paralleling Taylor Street a distance of 0.07 mile along and to a corner in said fence on the westerly side of Scioto Avenue and Patrol Road;

Thence in a northerly direction paralleling Patrol Road and Scioto Avenue a distance of 0.20 mile along and to a corner in said fence on the easterly side of Parking Lot X–206E;

Thence in a northwesterly direction paralleling said parking lot, crossing contruction road, and paralleling Contractor's Parking Lot a distance of 0.10 mile along and to a corner in said fence on the north side of Contractor's Parking Lot;

Thence in a southwesterly direction paralleling Contractor's Parking Lot a distance of 0.08 mile along and to a corner in said fence on the westerly side of "A" Road;

Thence in a northwesterly direction paralleling "A" Road a distance of 0.28 mile along and to a corner in said fence on the westerly side of "B" Road;

Thence in a northerly direction paralleling "B" Road a distance of 0.30 mile along and to a corner in said fence on the southeasterly side of Perimeter Road;

Thence in a northeasterly and easterly direction paralleling Perimeter Road a distance of 0.78 mile along said fence to the point of beginning.

The site description of the X–611 Water Treatment Plant is hereby amended to read as follows:

The Department of Energy (DOE) Facility known as the Portsmouth Area Water Treatment Plant (X–611), located in the township of Scioto, Pike County, Ohio, east of State Route 23 approximately 4 miles southeast of the Village of Piketon, Ohio. This facility is enclosed by a chain link fence seven feet in height, topped by three strands of barbed wire, covers approximately 7.9 acres, and is more particularly described as follows:

Beginning at a corner of a DOE-owned chain link fence located on the easterly side of the Service Road to X–611 at a distance of 0.24 mile from the intersection of said X–611 Road with Perimeter Road;

Thence in a southerly direction a distance of 0.10 mile along and to a corner of said fence;

Thence in a westerly direction a distance of 0.12 mile along and to a corner of said fence;

Thence in a northerly direction a distance of 0.04 mile along and to a corner of said fence located on the

northerly side of the Service Road to X–611C Road at a distance of 0.07 mile from the intersection of said X–611C

Thence in a southerly direction a distance of 0.03 mile along said fence to

BILLING CODE 6450-01-M

Weatherization Assistance Program (WAP); Regional Training and Technical Assistance; Availability of Funding

AGENCY: Department of Energy.

ACTION: Notice of availability of funding.

SUMMARY: This document announces the issuance of a Program Solicitation DE-FG-41-85R150000 by the Department of Energy, Boston Support Office (BSO). The Solicitation invites grant application from state WAP grantees located in New England for funding of project(s) in support of the WAP.

ADDRESS: Department of Energy, Boston Support Office, 150 Causeway Street, Boston, MA 02114.

FOR FURTHER INFORMATION CONTACT: Richard C. Michaud, State and Local Conservation Program, (617) 223-5288, Louise S. Urgo, State and Local Conservation-Grants Management (617) 223-3745.

SUPPLEMENTARY INFORMATION:

I. Background
II. Eligible Grantees
III. Eligible Activities

I. Background

The U.S. Department of Energy—Boston Support Office (BSO) is making funds available as part of its Weatherization Assistance Program (WAP) training and technical assistance (T&TA) program.

Two areas for which the BSO is seeking pilot project grant proposals are; (1) Elderly project; and (2) Consumer education.

II. Eligible Grantees

Eligible grantees are the WAP state grantees located in the area serviced by the DOE-BSO (Connecticut, Maine, Vermont, Massachusetts, New Hampshire, and Rhode Island).

III. Eligible Activities

Grants issued pursuant to this Notice are limited to the following projects:

1. Elderly—WAP.
2. Consumer Education—WAP.

Application Procedures

The Program Solicitation and Grant Applications have been provided to each state WAP grantee in the BSO area and must be received no later than August 31, 1985. Application content and evaluation criteria are set forth in the Program Solicitation.

It is anticipated that grant award will be issued by September 30, 1985.

Issued in Chicago, IL, July 12, 1985.

Johnnie D. Greenwood,

Acting Assistant Manager for Acquisition and Assistance.

BILLING CODE 6450-01-M

Economic Regulatory Administration

Issuance of Proposed Remedial Order to Tonkawa Refining Co. and Opportunity for Objection

AGENCY: Economic Regulatory Administration, U.S. Department of Energy.

ACTION: Notice of issuance of proposed remedial order to Tonkawa Refining Company and notice of opportunity for objection.

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby gives notice of a Proposed Remedial Order which was issued to Tonkawa Refining Company. This Proposed Remedial Order alleges entitlements violations in the amount of $18,634,038 plus interest in connection with the failure to satisfy entitlements purchase obligations during the period January 1980 through December 1980.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from the Freedom of Information Public Reading Room (MA-232.1), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-6020.

Within fifteen (15) days of publication of this notice, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, U.S. Department of Energy, Room 6F-055, 1000 Independence Avenue, SW., Washington, D.C. 20585, in accordance with 10 CFR 205.193. Failure to file a Notice of Objection shall be deemed to be an admission of the findings of fact and conclusions of law stated in the proposed order. If a Notice of Objection is not filed in accordance with § 205.193, the proposed order may be issued as a final Remedial Order by the Office of Hearings and Appeals.

Issued in Washington, D.C., on the 25th day of June 1985.

Avrom Landesman,

Director, Office of Enforcement Programs, Economic Regulatory Administration.

BILLING CODE 6450-01-M

Bi-Petro, Inc.; Proposed Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of proposed Consent Order and Opportunity for Comment.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces a proposed Consent Order with Bi-Petro, Inc., concerning crude oil resales by the firm, and provides an opportunity for public comment on the terms and conditions of the proposed Consent Order.

DATED: Comments by: August 21, 1985.

ADDRESS: Send comments to: Bi-Petro Consent Order Comments, Office of Special Counsel, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585.

FOR FURTHER INFORMATION CONTACT: Edward P. Levy, Office of Special Counsel, U.S. Department of Energy, 1000 Independence Avenue, SW., Room: 5B-151, 202/252-4945. (Copies of the Consent Order may be obtained free of charge by writing or call this office.)

SUPPLEMENTARY INFORMATION: On July 9, 1985, the ERA executed a proposed Consent Order with Bi-Petro, Inc. of Illinois for $1,250,000. Under 10 CFR 205.199J(b), a proposed Consent Order which involves the sum of $500,000 or more, excluding interest and penalties, becomes effective no sooner than thirty days after publication of a notice in the **Federal Register** requesting comments concerning the proposed Consent Order. Although ERA has signed and tentatively accepted the proposed Consent Order, the ERA may, after consideration of the comments it receives, withdraw its acceptance and, if appropriate, attempt to negotiate a modification of the Consent Order or issue the Consent Order as signed.

I. Background

Bi-Petro, Inc. (Bi-Petro) is a crude oil reseller. Until January 14, 1974, the activities of Bi-Petro were covered by the provisions of 6 CFR Part 150; from then until December 31, 1977, Subpart F of 10 CFR Part 212 of the federal petroleum price regulations applied; and thereafter Subpart L of Part 212 applied. ERA audited the firm's crude oil resales for the period November 1973 through August 1980 to determine Bi-Petro's compliance with these regulations. The audit concluded that Bi-Petro had received illegal revenues in its sales of crude oil, and ERA alleged in a Proposed Remedial Order (PRO) issued on May 2, 1983 (Case Number 6C0X00251), that Bi-Petro overcharged certain of its customers of crude oil in the total amount of $7,968,308.17 during the audit period.

After Bi-Petro filed its Statement of Objections to the PRO, ERA analyzed the firm's arguments and the underlying basis for the PRO. ERA concluded from its analysis that the PRO raised a range of complex issues concerning Bi-Petro's compliance with the regulations, including the following: (1) Whether ERA correctly determined Bi-Petro's base period selling price; (2) whether Bi-Petro sold to more than one class of purchaser in the Subpart F Period; (3) whether ERA determined Bi-Petro's correct cost of crude oil in inventory during the Subpart F period; (4) whether ERA properly treated Bi-Petro's sales of crude oil to Bi-Petro Refining Company; and (5) whether ERA correctly calculated Bi-Petro's Permissible Average Markup for the Subpart L Period. ERA also determined that its resolution of these issues would require the agency to address numerous interpretative matters, and could necessitate a re-audit involving analysis of a voluminous amount of data. Due to the uncertainty involved, ERA withdrew to PRO. Subsequent audit work confirmed that serious issues of regulatory interpretation existed, and that substantial additional work would be required to resolve them.

Nevertheless, ERA believes that significant violations may have occurred during the entire period of price controls. In light of this fact, as well as the unsettled issues described above, and the expense to the government associated with performing additional analysis and audit work and conducting any ensuing litigation, it is the opinion of the ERA that a payment of $1,250,000 is a satisfactory compromise of the issues raised in this audit. This amount includes interest.

II. The Consent Order

The proposed Consent Order has been entered into to resolve all civil and administrative disputes, claims, and causes of action by DOE relating to Bi-Petro's compliance in its resales of crude oil during the period of price controls. Although Bi-Petro contends that in all respects it correctly construed and applied the applicable regulations, Bi-Petro has entered into this proposed Consent Order to avoid the expense of litigation and the disruption of business. DOE believes the Consent Order is in the public interest and provides a satisfactory resolution of the issues raised by its audit.

III. Refunds

Under the Consent Order, Bi-Petro will pay the sum of $1,250,000 to DOE as follows: (1) $350,000 on or before ten days after the effective date of the Consent Order; (2) $450,000 with interest within twelve months from the effective date of the Consent Order; and, (3) $450,000 with interest within twenty-four months from the effective date of the Consent Order. The DOE shall direct that these monies be deposited in the "Deposit Fund Escrow Account" maintained by the U.S. Treasury. In consideration for Bi-Petro's performance under the Consent Order, the DOE agrees not to pursue any civil claims against Bi-Petro that the DOE may have arising out of the matters covered by the Consent Order.

The foregoing provisions for payment of the refund amount were established because ERA was unable to readily identify the ultimate injured parties due to the nature of the alleged violations and the complexities of petroleum marketing. The refund will be disbursed

pursuant to the procedures of 10 CFR Part 205, Subpart V.

Notice of Objection shall be deemed an admission of the findings of fact and

Administration, 1000 Independence Avenue, SW, Room GA-045

an opportunity to request a public

1. American Hydro Power Company

Standard Paragraphs

pursuant to the procedures of 10 CFR Part 205, Subpart V.

V. Submission of Written Comments

Interested persons are invited to submit written comments concerning the terms and conditions of this Consent Order to the address given above. Comments should be identified on the outside of the envelope and on the documents submitted with the designation "Comments on Bi-Petro, Inc. Consent Order." The ERA will consider all comments it receives by 4:30 p.m. CST, thirty (30) days after the date of publication of this notice. Any information or data considered confidential by the person submitting it must be identified as such in accordance with the procedures in 10 CFR 205.9(f).

Issued in Washington, D.C., on the 9th day of July, 1985.

Milton C. Lorenz,

Special Counsel, U.S. Department of Energy.

BILLING CODE 6450-01-M

Issuance of Proposed Remedial Order to Oklahoma Refining Co. and Opportunity for Objection

AGENCY: Economic Regulatory Administration, U.S. Department of Energy.

ACTION: Notice of issuance of proposed remedial order to Oklahoma Refining Company and notice of opportunity for objection.

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby gives notice of a Proposed Remedial Order which was issued to Oklahoma Refining Company. This Proposed Remedial Order alleges entitlement violations in the amount of $12,360,914 plus interest in connection with the failure to satisfy entitlements purchase obligations during the time period February 1980 through December 1980.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from the Freedom of Information Public Reading Room, MA-232.1, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-6020.

Within fifteen (15) days of publication of this notice, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, U.S. Department of Energy, Room 6F-055, 1000 Independence Avenue, SW., Washington, D.C. 20585, in accordance with 10 CFR 205.193. Failure to file a Notice of Objection shall be deemed an admission of the findings of fact and conclusions of law stated in the proposed order. If a Notice of Objection is not filed in accordance with § 205.193, the proposed order may be issued as final Remedial Order by the Office of Hearings and Appeals.

Issued in Washington, D.C., on the 25th day of June 1985.

Avrum Landesman,

Director, Office of Enforcement Programs, Economic Regulatory Administration.

BILLING CODE 6450-01-M

[Docket No. ERA-FC-85-006; OFP Case No. 65039-9268-20-24]

Order Granting to OLS Energy—University of California, Berkeley, Exemption From Prohibitions of Powerplant and Industrial Fuel Use Act of 1978

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Order Granting to OLS Energy—University of California, Berkeley, Exemption from the Prohibitions of the Powerplant and Industrial Fuel Use Act of 1978.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby gives notice that it has granted a permanent cogeneration exemption from the prohibitions of Title II of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.* ("FUA" or "the Act"), to OLS Energy—University of California, Berkeley. The permanent cogeneration exemption permits the use of natural gas as the primary energy source for a 23.5 net megawatts combined cycle cogeneration facility designed to produce electricity and process steam at the University of California—Berkeley, California. The final exemption order and detailed information on the proceeding are provided in the **SUPPLEMENTARY INFORMATION** section, below.

DATES: The order shall take effect on September 20, 1985.

The public file containing a copy of the order, other documents, and supporting materials on this proceeding is available upon request through DOE, Freedom of Information Reading Room, 1000 Independence Avenue, SW, Room 1E-190, Washington, D.C. 20585, Monday through Friday, 9:00 a.m. to 4:00 p.m., except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Xavier Puslowski, Office of Fuels Programs, Economic Regulatory Administration, 1000 Independence Avenue, SW, Room GA-045, Washington, D.C. 20585, Telephone (202) 252-4708.

Steven E. Ferguson, Esq., Office of the General Counsel, Department of Energy, Forrestal Building—Room 6A-113, 1000 Independence Avenue, SW, Washington, D.C. 20585, Telephone (202) 252-6947.

SUPPLEMENTARY INFORMATION: On March 18, 1985, OLS Energy—University of California, Berkeley, petitioned ERA under section 212(c) of FUA and 10 CFR 503.37 for a permanent cogeneration exemption to permit the use of natural gas in a 23.5 MW (net) combined cycle cogeneration facility consisting of a gas turbine generator, a supplementary-fired heat recovery steam generator and a steam turbine.

The powerplant will produce approximately 23.5 net megawatts of electricity while providing the University of California with 125 psig saturated steam (95,000 lb/hr average) for its heating and process steam needs. The University of California, Berkeley, cogeneration facility will burn natural gas and will consume approximately 253,000,000 Btu's/hr (lower heating value) with an anticipated availability of 8,322 hr/yr (95%).

Basis for Permanent Exemption Order

The permanent exemption order is based upon evidence in the record including OLS Energy—University of California, Berkeley's certification to ERA, in accordance with 10 CFR 503.37(a)(1), that:

1. The oil or natural gas to be consumed by the cogeneration facility will be less than that which would otherwise be consumed in the absence of such cogeneration facility, in accordance with 10 CFR 503.37(a)(1)(i); and

2. The use of a mixture of natural gas and coal or oil and coal in the cogeneration facility, will not be technically feasible, in accordance with 10 CFR 503.37(a)(1)(ii).

Procedural Requirements

In accordance with the procedural requirements of section 701(c) of FUA and 10 CFR 501.3(b), ERA published its Notice of Acceptance of Petition and Availability of Certification in the Federal Register on April 24, 1985 (50 FR 16124), commencing a 45-day public comment period.

A copy of the petition was provided to the Environmental Protection Agency for comments as required by section 701(f) of the Act. During the comment period, interested persons were afforded

an opportunity to request a public hearing. The comment period closed on June 10, 1985; no comments were received and no hearing was requested.

NEPA Compliance

After review of the petitioner's environmental impact analysis, together with other relevant information, ERA has determined that the granting of the requested exemption does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act (NEPA).

Order Granting Permanent Cogeneration Exemption

Based upon the entire record of this proceeding, ERA has determined that OLS Energy—University of California, Berkeley, has satisfied the eligibility requirements for the requested permanent cogeneration exemption, as set forth in 10 CFR 503.37. Therefore, pursuant to section 212(c) of FUA, ERA hereby grants a a permanent cogeneration exemption to OLS Energy—University of California, Berkeley, to permit the use of natural gas as the primary energy source for its cogeneration facility at the University of California, Berkeley, in Berkeley, California.

Pursuant to section 702(c) of the Act and 10 CFR 501.69, any person aggrieved by this order may petition for judicial review thereof at any time before the 60th day following the publication of this order in the Federal Register.

Issued in Washington, D.C., on July 12, 1985.

Richard A. Ransom,

Acting Director, Cool ond Electricity Division, Office of Fuels Programs, Economic Regulatory Administration.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project Nos. 8274-002 et al.]

American Hydro Power Co. et al.; Surrender of preliminary permits

July 15, 1985.

Take notice that the following preliminary permits have been surrendered effective as described in Standard Paragraph I at the end of this notice.

1. American Hydro Power Company

[Project No. 8274-002]

Take notice that American Hydro Power Company, Permittee for the proposed Alvin R. Bush Project No. 8274 requested by letter dated June 10, 1985, that its preliminary permit be terminated. The preliminary permit was issued on December 10, 1984, and would have expired on May 31, 1986. The project would be located on the Kettle Creek in Clinton County, Pennsylvania.

The Permittee filed the request on June 10, 1985.

2. F. Alan Sever

[Project No. 8280-001]

Take notice that the F. Alan Sever, Permittee for the Jeddo Tunnel Project No. 8280, located on a drainage tunnel in Luzerne County, Pennsylvania, has requested that its preliminary permit be terminated. The preliminary permit was issued on December 14, 1984, and would have expired on November 30, 1986. The Permittee states that analysis of the Jeddo Tunnel Project did not indicate feasibility for development.

The Permittee filed the request on June 17, 1985.

3. Modesto Irrigation District

[Project No. 5303-001]

Take notice that Modesto Irrigation District, Permittee for the proposed Lavezzola Creek Project No. 5303, has requested that its preliminary permit be terminated. The preliminary permit was issued on January 23, 1985, and would have expired December 31, 1987. The project would have been located on Lavezzola and Pauley Creeks in Sierra County, California. The Permittee states that a preliminary permit study found that the project would not be economically feasible to develop at this time.

The Permittee filed the request on June 18, 1985.

4. Ralston Hydro Associates

[Project No. 7983-001]

Take notice that the Ralston Hydro Associates Permittee for the Ralston Hydro Power Project No. 7983 located on Red Run in Lycoming County, Pennsylvania, has requested that its preliminary permit be terminated. The preliminary permit was issued on June 7, 1984, and would have expired on May 31, 1986. The Permittee states that analysis of the Ralston Hydro Power Project did not indicate feasibility for development.

The Permittee filed the request on June 17, 1985.

Standard Paragraphs

I. The preliminary permit shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday or holiday as described in 18 CFR 385.2007 in which case the permit shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR Part 4, may be filed on the next business day.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85-17288 Filed 7-19-85; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CP85-589-000 et al.]

Natural Gas Certificate Filings; Colorado Interstate Gas Company et al.

Take notice that the following filings have been made with the Commission:

1. Colorado Interstate Gas Company

[Docket No. CP85-589-000]

July 12, 1985.

Take notice that on June 7, 1985, Colorado Interstate Gas Company (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP85-589-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 10,000 Mcf of natural gas per day for Sinclair Oil Corporation (Sinclair), on an interruptible basis, and for authority to add and delete receipt and delivery points, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport up to 10,000 Mcf of natural gas per day for Sinclair from various points on Applicant's system in Wyoming to an existing interconnection with Sinclair in Carbon County, Wyoming. It is stated that Sinclair would use the gas in its Sinclair refinery. Applicant proposes to charge Sinclair 36.06 cents per Mcf plus a 1.25-cent per Mcf Gas Research Institute funding fee for this service. Applicant further proposes to be allowed to add or delete receipt and delivery points for the proposed transportation. It is stated that Applicant would file annual tariff revisions reflecting the addition or deletion of receipt and delivery points.

Applicant states that it is currently transporting the natural gas for Sinclair pursuant to the authority granted to

Applicant in Docket No. CP83-21-000 and Subpart F of Part 157 of the

pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR

Comment date: August 26, 1985, in accordance with Standard Paragraph G

daily flowing and load-equation system supplies. Applicant states that if it

end-user, all as more fully set forth in the application which is on file with the

the parties mutually agree to terminate the underlying agreement.

VOL 50 ISS 140 JL 22 1985 UMI

Applicant in Docket No. CP83-21-000 and Subpart F of Part 157 of the Commission's Regulations.

Comment date: August 2, 1985, in accordance with Standard Paragraph F at the end of this notice.

2. Colorado Interstate Gas Company

[Docket No. CP85-624-000]

July 12, 1985.

Take notice that on June 19, 1985, Colorado Interstate Gas Company (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP85-624-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 6,500 Mcf of natural gas per day for The Gates Rubber Company (Gates), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport until September 1, 1985, on an interruptible basis, up to 6,500 Mcf of natural gas per day which Williston Basin Interstate Pipeline Company would deliver for Gates' account to Applicant at existing interconnections on Applicant's system in Wyoming. Applicant states it would redeliver thermally equivalent volumes, less fuel and lost or unaccounted-for gas, to Public Service Company of Colorado for Gates' account at an existing interconnection in Adams County, Colorado.

Applicant states that it is currently transporting the volumes of natural gas available to Gates pursuant to the authority granted to Applicant in Docket No. CP83-21-000 and Subpart F of Part 157 of the Commission's Regulations. Applicant indicates that it is currently charging Gates 36.08 cents per Mcf for each Mcf of gas transported and that it proposes to continue to charge such rate.

Comment date: August 2, 1985, in accordance with Standard Paragraph F at the end of this notice.

3. Columbia Gas Transmission Corporation, Columbia Gas Transmission Company

[Docket No. CP85-663-000]

July 11, 1985.

Take notice that on June 28, 1985, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, and Columbia Gulf Transmission Company (Columbia Gulf), 3805 West Alabama Avenue, Houston, Texas 77027, hereinafter referred to jointly as Applicants, filed in Docket No. CP85-663-000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of International Permalite, Inc. (International Permalite) under their certificates issued in Docket Nos. CP83-76-000 and CP83-496-000, respectively, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Applicants propose to transport up to 4 billion Btu equivalent of natural gas per day for International Permalite through October 31, 1985. Applicants state that the gas to be transported hereunder would be used as process gas in International Permalite's plant in Florence, Kentucky.

Applicants indicate that the gas to be purchased was not released by Columbia and that such supplies would not exceed the applicable maximum lawful price.

Columbia Gulf states that it would charge its current rate for offshore to Kentucky of 23.92 cents per dt equivalent with 1.69 percent retainage; or lateral onshore to Kentucky—4.28 cents per dt with 1.50 percent retainage; or from Payne, Louisiana to Kentucky—12.76 cents per dt and 1.50 percent retainage; or from Corinth, Mississippi to Kentucky—6.38 cents per dt with 0.75 percent retainage.

Columbia states that it would charge its current rate of 29.93 cents per dt equivalent of volumes that are within the distribution company's total daily entitlement, or its current rate of 41.27 cents per dt equivalent of volumes that are in excess of the distribution company's total daily entitlement, exclusive of company-use and unaccounted-for gas. It is further stated that Columbia would retain for company-use and unaccounted-for gas a percentage of the gas delivered hereunder as reflected in the rate filings; this percentage is currently 2.43 percent.

Applicant also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Applicant will file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: August 26, 1985, in accordance with Standard Paragraph G at the end of this notice.

4. El Paso Natural Gas Company

[Docket No. CP85-658-000]

July 12, 1985.

Take notice that on June 27, 1985, El Paso Natural Gas Company (Applicant), Post Office Box 1492, El Paso, Texas, 79978, filed in Docket No. CP85-658-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain minor facilities in Roger Mills County, Oklahoma, and the transportation and delivery of natural gas, on an exchange basis, to ANR Pipeline Company (ANR), all as more fully set forth in the application on file with the Commission and open for public inspection.

Applicant states that the construction and operation of the proposed facilities, together with the requested transportation by exchange, would enable Applicant and ANR to operate more effectively and efficiently their respective pipeline facilities. Applicant states that ANR has purchased large volumes of natural gas in the Overthrust Belt area of Wyoming from Exxon Corporation (Exxon) which volumes of natural gas ANR desires to receive and utilize for its general system supply. It is explained that the volumes of natural gas purchased by ANR from Exxon are not located in close proximity to ANR's interstate pipeline system. Applicant further states that by exchanging volumes of natural gas with ANR in the Anadarko Basin area of Oklahoma and through the utilization of the volumes of natural gas that ANR causes Northwest Pipeline Corporation (Northwest) to tender to Applicant, for ANR's account, at the point of interconnection between the facilities of Applicant and Northwest at Ignacio, Colorado, for Applicant's system supply, would: (i) Help alleviate existing capacity problems on Applicant's Dumas-Plains pipeline system; and (ii) assist ANR in moving its Overthrust Belt area gas to ANR's interstate pipeline transmission system. Applicant and ANR have entered into a gas exchange agreement providing for the free exchange of up to 75,000 Mcf per day.

Applicant states that it has agreed to evaluate periodically the capability of its system to accept for ANR's account, the volume of natural gas tendered to Applicant by Northwest, the volume of natural gas tendered at Ignacio pursuant to similar arrangements with other parties, and the volume of Applicant's daily flowing and load-equation system supplies. Applicant states that if it determines the need for incremental facilities it would notify ANR of such need. Applicant proposes that ANR after being notified of the need for such additional facilities, would advise Applicant to seek necessary regulatory authorizations to construct and operate facility additions or to instruct Applicant not to make such additions for ANR. In the event that ANR authorized Applicant to seek all necessary regulatory approvals for the construction of facility additions, Applicant explains that ANR would be entitled to utilize the additional capacity in direct proportion to ANR's contribution to the costs of construction and ANR would pay a demand charge with respect to ANR's allocable share of Applicant's costs of service of said facilities. In the event that ANR instructs Applicant not to seek necessary regulatory approvals to construct said facilities then Applicant's obligation under the transportation arrangement to move natural gas through said facilities would be on a best-efforts basis, it is asserted.

Applicant states that it and ANR have agreed to perform their respective exchange obligations without monetary compensation from the other party and that the primary term of the requested exchange is for a period of fifteen years.

Applicant states that it would be required to construct minor facilities which facilities would consist of one 8⅝ inch O.D. tap and valve assembly, with appurtenances, including two 10¾ inch standard orifice-type meters and two flow controllers. Applicant estimates the total cost of those facilities proposed to be constructed and operated by it, including respective overhead, contingency and required filing fees is $266,569 which cost would be financed from internally generated funds.

Comment date: August 2, 1985, in accordance with Standard Paragraph F at the end of this notice.

5. Great Lakes Gas Transmission

[Docket No. CP85-652-000]

July 12, 1985

Take notice that on June 26, 1985, Great Lakes Gas Transmission Company (Applicant), 2100 Buhl Building, Detroit, Michigan 48226, filed in Docket No. CP85-652-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas on an interruptible basis for the account of Bethlehem Steel Corporation (Bethlehem Steel), a new customer and end-user, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Bethlehem Steel has requested that the Applicant transport up to 30,000 Mcf of gas per day from the Emerson, Maintoba, delivery point, where the facilities of the Applicant interconnect with the facilities of TransCanada PipeLines Limited, to points where Applicant's facilities interconnect with those of Northern Natural Gas Company, a Division of InterNorth, Inc., and ANR Pipeline Company, a Carlton, Minnesota, and Fortune Lake, Michigan, respectively.

It is further alleged that the term of the proposed transportation service is two years, beginning July 1, 1985, and that the Applicant and Bethlehem Steel have agreed upon initial rates of 12.465 cents per Mcf of natural gas delivered to Carlton Minnesota, and 24.323 cents per Mcf of natural gas delivered to Fortune Lake, Michigan.

Comment date: August 2, 1985, in accordance with Standard Paragraph F at the end of this notice.

6. Natural Gas Pipeline Company of America

[Docket No. CP85-648-000]

July 12, 1985.

Take notice that on June 26, 1985, Natural Gas Pipeline Company of America (Natural), 701 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP85-648-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Natural proposes to transport on a best-efforts basis up to 14 billion Btu of natural gas per day for Transcontinental Gas Pipe Line Corporation (Transco). Natural would accept Transco's natural gas produced in Eugene Island Block 57, offshore Louisiana, and would deliver the gas at an existing point of interconnection in Eugene Island Block 32 with United Gas Pipe Line Company (United). It is asserted that United and Transco have proposed in Docket No. CP85-452-000 an exchange arrangement involving Transco's Eugene Island natural gas reserves. Natural proposes that the term of service would commence on the date of initial deliveries and end the earliest of (1) ten years thereafter of (2) when Transco's purchase volumes from Eugene Island Block 57 have been depleted or (3) when the parties mutually agree to terminate the underlying agreement.

Natural states that it would provide the transportation service at no charge in exchange for Transco's agreement: (1) To maintain the current level of charges under all rate schedules which Transco provides transportation service to Natural (despite the next two scheduled annual rate increases granted by the Commission in Transco's general rate proceeding Docket Nos. RP83-11-000 and RP83-30-000), (2) to reduce Natural's transportation contract demand quantity under Transco's Rate Schedule X-210 from 30,000 Mcf to 15,000 Mcf of natural gas per day effective April 1, 1984, and to terminate Rate Schedule X-210 on April 1, 1985, and (3) to reduce from time to time the presently applicable transportation contract demand of 10,000 Mcf of natural gas per day under Transco's Rate Schedule X-75.

Comment date: August 2, 1985, in accordance with Standard Paragraph F at the end of this notice.

7. Northern Natural Gas Company, Division of InterNorth, Inc.

[Docket No. CP85-638-000]

July 12, 1985.

Take notice that on June 24, 1985, Northern Natural Gas Company, Division of InterNorth, Inc. (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP85-638-000 an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing Northern to implement adjustments to the firm entitlement of certain of Northern's market area utility customers as a result of the stipulation and agreement of settlement (stipulation and agreement) filed in resolution of issues in Docket Nos. RP82-71, TA83-1-59, TA84-1-59, and TA85-1-59, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Northern states that as part of the stipulation and agreement, Northern agreed to provide for a firm entitlement adjustment program which would be in effect through November 1986. Northern states that this program would allow each of its market area customers to reduce or realign its respective level of firm entitlement in the following manner:

(1) Effective March 27, 1985, November 27, 1985, and November 27, 1986, each of Northern's market area utility customers would be allowed to reduce its firm entitlement under the CD-1, CDO-1, or PL-1 Rate Schedules up to a maximum of 2 percent of its then

VOL
50
ISS
140
JL
22
1985
UMI

currently effective firm entitlement (Turnback Program).

(2) Any customer not requesting a reduction in its currently effective firm entitlement or who only desires to reduce a portion of the 2 percent limit, may realign from CD–1, CDO–1 or PL–1 to SS–1 up to the maximum 2 percent limit or the balance of the 2 percent limit not reduced.

(3) If a customer does not reduce or realign up to the 2 percent limit in any year, a carryover of the unutilized portion of such 2 percent limit to a subsequent year will not be allowed. A customer would have the option to participate in all or any of the three phases of the Turnback Program.

Northern states that as a result of the implementation of the firm entitlement adjustment program, it seeks authority to realign and reduce 45,604 Mcf of gas per day of its market area system firm entitlement to be effective March 27, 1985. Northern indicates that the proposed reduction in firm entitlement is the net result of 52,481 Mcf of gas per day decrease in contract demand, 180 Mcf per day decrease in contract demand offsystem, 12,194 Mcf per day increase in seasonal service, and 5,137 Mcf per day decrease in pipe line service.

Northern states that it agreed to file a certificate application under section 7(c) of the Natural Gas Act within 30 days of the date of filing of the stipulation and agreement or as soon afterward as possible to implement the first phase of the turnback program to be effective March 27, 1985. Northern also states that no facility modifications are required to implement the proposed adjustments.

Northern also indicates that section VII of the stipulation and agreement provides that upon effectuation of a reduction in the firm entitlement of Northern's customers, each customer's additional demand quantities (ADQ's), as established in Northern's rate settlement in Docket No. RP82–71 and billed during the winter heating months of December through March, would be increased by an increment equal to the daily firm entitlement reduction (CD–1, CDO–1 or PL–1 reduction). Northern also states that this reduction would not apply to any realignment from those same rate schedules to Rate Schedule SS–1 and that through October 26, 1985, the volume to be utilized in computing the minimum monthly bill volumes for the Rate Schedule PL–1 customers would remain at the level in effect on October 27, 1984.

In addition, Northern states that it would not request authority to adjust its demand rate as of the effective date of each phase in the turnback program but would recover its costs through Commission-approved tracking mechanisms. Finally, Northern indicates that in any general rate proceeding made prior to November 27, 1987, it would not be precluded from filing to recover any demand revenue shortfall resulting from the turnback program.

Comment date: August 2, 1985, in accordance with Standard Paragraph F at the end of this notice.

8. Panhandle Eastern Pipeline Company

[Docket No. CP85–611–000]

July 12, 1985.

Take notice that on June 13, 1985, Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas 77001 filed in Docket No. CP85–611–000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a portion of its Sneed 100 Line as more fully set forth in the application which is on file with the Commission and open to public inspection.

Panhandle proposes to retire from service 17.15 miles of its Sneed-to-Hansford 100 pipeline from 2 gate to 4 gate and related facilities, all located in Hansford and Hutchinson Counties, Texas, between the Sneed and Hansford compressor stations. Panhandle states that this line was constructed in 1930, is severely deteriorated and would require extensive repairs if not abandoned. Panhandle states further that it has sufficient capacity in the area to move its gas supply without these facilities and that this abandonment will reduce its costs. Panhandle further explains the subject line has been previously looped by a 22-inch line which will continue to be operated. Panhandle advises that its proposal will have no negative effect on any customer service.

Comment date: August 2, 1985, in accordance with Standard Paragraph F at the end of this notice.

9. Panhandle Eastern Pipe Line Company

[Docket No. CP85–637–000]

July 12, 1985.

Take notice that on June 24, 1985, Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP85–637–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Richardson Battery Parts Division-Witco Chemical Corporation (Richardson) under the certificate issued in Docket No. CP83–83–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Panhandle proposes to transport up to 1,000 Mcf of natural gas per day for Richardson. It is stated that the gas to be transported would be purchased from Damson Oil Corporation (Damson) and would be used as boiler fuel in Richardson's plant in Indianapolis, Indiana. It is explained that the gas has been released by Panhandle and would be subject to the provisions of section 102 of the Natural Gas Policy Act. Panhandle would receive the gas from Damson at existing receipt points in Texas County, Oklahoma, and would redeliver the gas at an existing interconnection with Citizens Gas and Coke Utility, the distributor serving Richardson, in Marion County, Indiana, for ultimate delivery to Richardson's plant in Indianapolis, Indiana. The service would be until the earlier of 18 months from April 22, 1985, or the termination of authorization provided by Subpart F of 18 CFR Part 157, or the termination of the transportation agreement by the parties thereto.

It is indicated that Panhandle would charge the currently applicable transportation rate set forth in its Rate Schedule OST.

Panhandle also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Panhandle would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: August 26, 1985, in accordance with Standard Paragraph G at the end of this notice.

10. Panhandle Eastern Pipe Line Company

[Docket No. CP85–639–000]

July 12, 1985.

Take notice that on June 24, 1985, Panhandle Eastern Pipe Line Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP85–639–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Broderick Co., a Division of Harsco Corporation (Broderick), under the certificate issued in Docket No. CP83–83–000 pursuant to section 7 of the

Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Applicant proposes to transport up to 2,000 Mcf of natural gas per day for Broderick pursuant to a transportation agreement dated April 16, 1985, among Applicant, Broderick and Indiana Gas Company (Indiana Gas). Applicant states that the gas to be transported would be purchased from Yankee Resources, Inc. (Yankee), and would be used for forge furnaces, heat treating and plant heating and protection in Broderick's facility in Muncie, Indiana.

It is stated that Applicant would receive the gas on an interruptible basis, at an existing point of interconnection between the facilities of Applicant and others in Kingfisher, Woodward and Major Counties, Oklahoma. It is further stated that Applicant would transport and deliver such gas to Indiana Gas in Delaware County, Indiana. Indiana Gas, it is said, would in turn make ultimate delivery of the gas to Broderick at its facility in Muncie, Indiana.

Applicant states that it would charge the OST contract service rate of 42 cents per MMBtu or the OST excess service rate of 87 cents per MMBtu. In addition, Applicant states it would collect the General R&D Funding Unit of the Gas Research Institute.

Comment date: August 26, 1985, in accordance with Standard Paragraph G at the end of this notice.

11. Tennessee Gas Pipeline Company, a Division of Tenneco Inc.

[Docket No. CP85–680–000]

July 11, 1985.

Take notice that on July 9, 1985, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP85–680–000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for LOOP, Inc. (LOOP), the construction and operation of a subsea hot tap and abandonment authority for the transportation service, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that LOOP has reserved interests in certain quantities of gas produced in offshore Louisiana. Tennessee has agreed to receive the natural gas produced from such supply sources and redeliver thermally equivalent volumes to LOOP for its own use. It is explained that pursuant to the terms of a June 10, 1985, gas transportation agreement between Tennessee and Tenngasco Corporation (Tenngasco), acting as agent for LOOP, Tennessee would accept and receive on an interruptible basis, up to 3,000 Mcf of natural gas per day for the account of LOOP from points of receipt located in Vermilion Area Block 122; East Cameron Block 129; Ship Shoal Area Block 181; Eugene Island Area Blocks 215 and 343; and Bay Marchand Block 5, all in offshore Louisiana. In addition, Tennessee states that it would have the right to accept excess quantities provided that such excess quantities do not exceed 2,000 Mcf per day.

It is stated that Tennessee would then transport and redeliver thermally equivalent quantities, less volumes for Tennessee's fuel and uses and lost and unaccounted for volumes, due to processing, to LOOP at a proposed subsea interconnection between the facilities of Tennessee and LOOP to be constructed in Grand Isle Block 39, offshore Louisiana. It is also stated that deliveries of plant volume reductions would be made to the Ycloskey Processing Plant, onshore Louisiana, from the Ship Shoal Block 181, Eugene Island Block 215 and 343, and Bay Marchand receipt points and to the Blue Water Processing Plant, onshore Louisiana, from the Vermilion Block 122 and East Cameron Block 129 receipt points. Tennessee submits that the term of the transportation agreement expires December 31, 1988. Tennessee requests abandonment authorization to be effective 11:59 P.M. CST December 31, 1988.

It is asserted that in order to effectuate the deliveries from Tennessee to LOOP, Tennessee proposes to install a subsea hot tap and valve on its existing 12-inch line in Grand Isle Block 39, offshore Louisiana. Tennessee estimates the cost of installing the proposed facilities to be $243,500. It is stated that LOOP has agreed to reimburse Tennessee for all costs and expenses incurred in the construction of Tennessee's hot tap and appurtenant facilities necessary to connect the facilities of LOOP and to effect the transportation service. It is explained that all funds necessary for the proposed construction would be supplied from current working funds available to Tennessee and its parent, Tenneco Inc. It is also explained that LOOP would use the gas transported by Tennessee to generate electricity for use on its offshore oil port facilities in Grand Isle Block 59, offshore Louisiana.

It is submitted that Tennessee would charge Tenngasco for the transportation service a volume charge equal to the product of 10.63 cents multiplied by the total volume in Mcf of gas delivered by Tennessee for the account of Tenngasco during the month. In addition to the volume charge, the GRI surcharge of 1.25 cents per Mcf would be assessed. It is submitted that Tennessee would also charge Tenngasco a minimum monthly bill which would consist of the volume charge of 10.63 cents multiplied by the minimum bill volume, which would consist of the number of days in said month multiplied by sixty-six and two-thirds percent of the transportation quantity; provided, however, that the minimum bill volume would be reduced by the volumes tendered and not taken by Tennessee and by the volumes retained for Tennessee's system fuel and uses and gas lost and unaccounted for. It is also stated that Tennessee would charge Tenngasco for plant volume reduction a charge equal to 7.51 cents per Mcf of plant volume reduction delivered to the Blue Water Processing Plant from the Vermilion Block 122 receipt point, 7.82 cents per Mcf of plant volume reduction delivered to the Blue Water Processing Plant from East Cameron Block 129 receipt point, 9.82 cents per Mcf of plant volume reduction delivered to the Ycloskey Processing Plant from the Ship Shoal Block 181 receipt point, 10.94 cents per Mcf of plant volume reduction delivered to the Ycloskey Processing Plant from the Eugene Island Block 215 receipt point, 6.71 cents per Mcf of plant volume reduction delivered to the Ycloskey Processing Plant from the Bay Marchand receipt point, and 11.35 cents per Mcf of plant volume reduction delivered to the Ycloskey Processing Plant from the Eugene Island 343 receipt point. Additionally, it is explained, LOOP would provide to Tennessee 1.3 percent of the daily volume of gas received for delivery at the Grand Isle 39 point of delivery for Tennessee's fuel and uses and gas lost and unaccounted for as well as 1.2 percent of the daily volumes of plant volume reduction received at Vermilion Block 122, East Cameron Block 139, and Bay Marchand, 1.5 percent of the daily volumes of plant volume reduction received at Ship Shoal Block 181, and 1.7 percent of the daily volumes of plant volume reduction received at Eugene Island 215 and Eugene Island 343 for Tennessee's fuel and uses and gas lost and unaccounted for.

Finally, Tennessee states it would charge a liquids transportation charge for transportation of liquid hydrocarbons to separation facilities at Pecan Island, Vermilion Parish, Louisiana, Cocodrie, Terrebonne Parish, Louisiana, or Leeville, Lafourche Parish,

Louisiana, depending on the point of receipt involved.

the proposed activity shall be deemed to be authorized effective the day after the

Tennessee maintains that the proposed service would assist LOOP in obtaining a less expensive source of energy to generate electricity on it soffshore oil port facilities.

Comment date: July 31, 1985, in accordance with Standard Paragraph F at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the conquest. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Act.

Kenneth F. Plumb,

Secretary.

[FR 85-17287 Filed 7-19-85; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. QF85-583-000 et al.]

Small Power Production and Cogeneration Facilities; Qualifying Status; Certificate Applications, etc.; O'Brien Energy Systems, Inc., et al.

July 12, 1985.

Comment date: Thirty days from publication in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

Take notice that the following filings have been made with the Commission.

1. O'Brien Energy Systems Inc.

[Docket No. QF85-583-000]

On June 7, 1985, O'Brien Energy Systems Inc. (Applicant), Green and Washington Streets, Downingtown, Pennsylvania, 19335 submitted for filing an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The facility is a gas turbine-steam turbine combined cycle cogeneration plant. The primary energy source for the cogeneration facility will be natural gas. The power production capacity of the facility will be approximately 41 MW electrical, with average thermal output of 23,750 lbs/hr. steam. The facility will be located at the manufacturing site of Merchants Refrigerating Company, 950 South Sanborn Road, Salinas, California, 93901. Installation will begin in June 1986 with commencement of operation planned for June 1987.

2. Himmelberger-Harrison Co., Inc.

[Docket No. QF85-565-000]

On June 24, 1985, Himmelberger-Harrison Company, Inc. (Applicant), P.O. Box 108, Morehouse, Missouri 63868 submitted for filing an application for certification of a facility as a cogeneration facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The facility located at Morehouse, Missouri is a cogeneration facility and a small power producer. The facility consists of a biomass fired boiler, an extraction turbine and a condensing turbine. The cogeneration aspect of the plant utilizes a topping cycle extraction turbine. The thermal energy remaining in the extracted steam is used in plant process to dry lumber and heat the plant. Electrical output of the cogeneration portion of the facility is approximately 125 kilowatts. Installation of the facility will begin in July 1985 with completion due by October 1985.

3. Himmelberger-Harrison Co., Inc.

[Docket No. QF85-565-001]

On June 24, 1985, Himmelberger-Harrison Company, Inc. (Applicant), P.O. Box 108, Morehouse Missouri, 63868 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The facility located at Morehouse, Missouri is a cogeneration facility and a small power producer. The facility consists of a biomass fired boiler, an extraction turbine and a condensing turbine. The primary energy source will be kiln dried Hardwood scrap. Electrical output of the small power production portion of the facility will be approximately 400 kilowatts.

4. Swift River/Hafslund Company

[Docket No. QF85-562-000]

On June 24, 1985, Swift River/Hafslund Company (Applicant), of 10 Harbor Street, Danversport, Massachusetts 01923 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located at the Greenville Biomass Project in the Town of Greenville, Maine. The facility will contain a boiler and a steam-turbine generator. The primary energy source will be biomass in the form of wood and wood wastes. The electric power production capacity of the facility will be 13.8 MW.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. SA85-43-000]

Cascade Natural Gas Corporation; Petition for Exemption and Interim Relief

Issued: July 18, 1985.

Take notice that on July 1, 1985, the Cascade Natural Gas Corporation (Cascade) filed a petition with the Commission under section 206(d) of the Natural Gas Policy Act of 1978 (NGPA) and § 282.206(b) of the Commission's regulations for an exemption from the Commission's incremental pricing rules with regard to proposed natural gas sales to Mobil Oil Corporation and Shell Oil Company for use in their non-exempt industrial facilities. In addition Cascade requests interim relief under Rule 1113 of the Commission's rules of practice and procedure.

Cascade asserts that its sales to industrial customers have declined precipitously and as a result its high-priority customers have absorbed a greater portion of the system's fixed costs. Cascade states that Mobil and Shell have refinery by-products, primarily No. 6 fuel oil, available to them for use at the facilities in question at prices lower than those Cascade is required to charge for natural gas under the Commission's incremental pricing rules, 18 CFR 282.101 *et. seq.* The disparity in pricing levels between incrementally priced natural gas and the alternative fuel available to Mobil and Shell has continued without material change for an extended period, and Cascade asserts that without the requested exemption its sales of gas to Mobil and Shell will not be economically feasible, and accordingly, will not be made. If the requested exemption is granted, Mobil has stated it could purchase 22 MMth of natural gas per year; Shell has stated it could purchase 34 MMth per year.

Cascade also states that its facilities are currently underutilized and that the proposed sales to Mobil and Shell will contribute $2.7 million per year to Cascade's total fixed costs, and reduce or eliminate the need for a general rate increase by Cascade. Cascade asks for interim relief in order to realize the benefits of the proposed sales as soon as possible.

The procedures applicable to the conduct of this proceeding are found in Subpart K of the Commission's rules of practice and procedure, 18 CFR 385.1101-.1117 (1985). Any person desiring to participate in this proceeding shall file a motion to intervene in accordance with Rule 1105 of the Commission's rules of practice and procedure. All motions to intervene must be filed within fifteen days after publication of this notice in the **Federal Register**.

Kenneth F. Plumb,

Secretory.

BILLING CODE 6717-01-M

[Docket No. QF85-582-000]

Ogden Martin Systems of Bristol, Inc.; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

July 18, 1985.

On June 27, 1985, Ogden Martin Systems of Bristol, Inc., (Applicant) of 140 East Ridgewood, Paramus, New Jersey 07652 submitted for filing an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility, known as the Bristol, Connecticut Resource Recovery Project, will be located in the City of Bristol, Connecticut. The facility will generate electric power by burning municipal solid waste (MSW) as the primary energy source. The net electric power production capacity of the facility will be 13.2 MW. The only planned usage of natural gas will be for the purpose of warming boiler prior to ignition of the MSW that will not exceed 25 percent of total energy input during any calendar year.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. ER85-612-000 et al.]

Centel Corp. et al.; Electric Rate and Corporate Regulation Filings

July 15, 1985.

Take notice that the following filings have been made with the Commission.

1. Centel Corporation

[Docket No. ER85-612-000]

Take notice that Centel Corporation on July 8, 1985, tendered for filing a proposed Appendix No. 1 to Service Schedule P (Participation Power Service) and Appendix No. 1 to Service Schedule J (Displacement Power Service), both as a part of the Electric Interconnection and Interchange Agreement between Centel Corporation and Sunflower Electric Cooperative, Inc., dated June 3, 1980. These Appendixes contain the determination calculations for the contract year beginning June 1, 1985 and ending May 31, 1986.

Centel proposes an effective date of June 1, 1985 for the proposed Appendixes and therefore request waiver of the Commission's notice requirements.

Comment date: July 29, 1985, in accordance with Standard Paragraph E at the end of this notice.

2. Commonwealth Edison Company

[Docket No. ER85-615-000]

Take notice that Commonwealth Edison Company, on July 9, 1985, tendered for filing proposed changes in its FERC Electric Tariff. The proposed changes revised the Electric Service Contract between Commonwealth Edison Company and the City of St. Charles, Illinois, to provide for a new

point of electric supply to the City by the Company.

Delivery at PGandE's Tesla Substation ("Tesla"), and to increase the Contract

Comment date: July 29, 1985, in accordance with Standard Paragraph E

11. The Kansas Power and Light

1. Natural Gas Pipeline Company of

ST85-1051, for a 120-day period

VOL 50 ISS 140 JL 22 1985 UMI

point of electric supply to the City by the Company.

A copy of the filing has been served upon the City of St. Charles, Illinois.

Comment date: July 29, 1985, in accordance with Standard Paragraph E at the end of this notice.

3. Consolidated Edison Company of New York, Inc.

[Docket No. ER85-607-000]

Take notice that on July 8, 1985, Consolidated Edison Company of New York, Inc. ("Con Edison") tendered for filing as an initial rate schedule an agreement to provide transmission service to the Power Authority of the State of New York ("NYPA"). The Rate Schedule provides for a monthly transmission charge of $0.89 per kilowatt for firm transmission of power and energy sold by NYPA to Municipal Distribution Agencies ("MDAs") on Long Island and for an interruptible transmission rate of 2.7 mills per kwh for any additional interruptible service that NYPA might schedule to the MDAs.

Con Edison requests a waiver of notice requirements so that the Rate Schedule can be made effective as of July 1, 1985.

Con Edison states that a copy of this filing has been served by mail upon NYPA.

Comment date: July 29, 1985, in accordance with Standard Paragraph E at the end of this notice.

4. Florida Power and Light Company

[Docket No. ER85-380-003]

Take notice that on June 17, 1984 ("FPL"), tendered for filing, in compliance with the Commission's order of May 17, 1985, revised rates and cost support data which reflect the Commission's determination that summarily disallowed FP&L's inclusion of accumulated deferred investment tax credits (ADITC) as a separate component of its capital structure.

Comment date: July 29, 1985, in accordance with Standard Paragraph H at the end of this notice.

5. Pacific Gas and Electric Company

[Docket No. ER85-614-000]

Take notice that on July 9, 1985, Pacific Gas and Electric Company ("PGandE") tendered for filing changes to the rate schedules under the Interconnection Agreement between PGandE and the City of Santa Clara (the "Santa Clara Agreement").

The Santa Clara Agreement provides for firm transmission service between Points of Receipt and Points of Delivery. The City of ("Santa Clara") wishes to include new Points of Receipt and Delivery at PGandE's Tesla Substation ("Tesla"), and to increase the Contract Coincident Rate of Delivery and the Maximum Rate of Delivery at the city of Santa Clara. The new Points of Receipt and Delivery at Tesla will allow Santa Clara to import power over the existing Pacific Northwest-Southwest Intertie pursuant to the assignment by the Sacramento Municipal Utility District ("SMUD") of transmission service under its EVH contract (FERC Docket No. ER85-342-000). PGandE requests an effective date of June 1, 1986.

PGandE requests that these new Points of Receipt and Delivery will be effective only until the earliest of the following:

(1) May 1, 1986; or

(2) The date when the California-Oregon Transmission Project (the "Project") becomes operational; or

(3) The date when the participation of PGandE in the Project is terminated because the approvals required under section 11.4 of the Project's Memorandum of Understanding (the "MOU") cannot be obtained or because those approvals are unsatsifactory to PGandE; or

(4) The date when the Project is terminated prior to its operation, such termination to be deemed to have occurred on January 1, 1993, if no work has been on the Project for three years prior to that date.

Comment date: July 29, 1985, in accordance with Standard Paragraph E at the end of this notice.

6. Public Service Company of New Mexico

[Docket No. ER85-608-000]

Take notice that on July 8, 1985, Public Service Company of New Mexico filed a petition to amend the fuel adjustment clause in its wholesale rate schedules for service to the Cities of Gallup and Farmington, New Mexico, the Department of Energy—Los Alamos, Plains Electric Generation and Transmission Cooperative, Inc., and Texas-New Mexico Power Company. PNM proposes to revise its fuel adjustment clause to exclude the effect of the availability of test energy from Palo Verde Nuclear generating station Units 1, 2, and 3 from the calculation of its fuel adjustment charges and to include fees for the disposal of spent nuclear fuel and/or high level radioactive waste in such charge. PNM requests that its revisions become effective as of June 12, except for Gallup, for whom the change is proposed to become effective as of September 2, 1986.

Comment date: July 29, 1985, in accordance with Standard Paragraph E at the end of this notice.

7. Union Electric Company

[Docket No. ER85-610-000]

Take notice that Union Electric Company, on July 8, 1985, tendered for filing First Amendment dated June 20, 1985, to the Wholesale Electric Service Agreement of March 17, 1980 between City of Farmington, Missouri, and Union Electric Company.

Union Electric states the purpose of the amendment is to provide for a new delivery point between the parties.

Comment date: July 29, 1985, in accordance with Standard Paragraph E at the end of this notice.

8. Union Electric Company

[Docket No. ER85-611-000]

Take notice that Union Electric Company, on July 8, 1985, tended for filing Third Amendment dated June 11, 1985, to the Interchange Agreement of June 28, 1978 between Associated Electric Cooperative, Incorporated, and Union Electric Company.

Union Electric states the purpose of the Amendment is to provide for revised reservation charges for certain classes of power, to establish a new class of power, Term Energy, and to comply with FERC Order No. 84.

Comment date: July 29, 1985, in accordance with Standard Paragraph E at the end of this notice.

9. Vermont Yankee Nuclear Power Corporation

[Docket No. ER85-300-002]

Take notice that on May 31, 1985, Vermont Yankee Nuclear Power Corporation tendered for filing, pursuant to the Commission's order of May 1, 1985, the original and six copies of executed amendments to its power contracts with each of its sponsors specifying a 15.5% return on common equity.

Comment date: July 29, 1985, in accordance with Standard Paragraph H at the end of this notice.

10. Kansas Gas and Electric Company

[Docket No. ER85-432-001]

Take notice that on July 1, 1985, Kansas Gas and Electric Company tendered for filing information relating to its filing for revised rates in compliance with a deficiency letter from the Commission dated June 4, 1985.

Comment date: July 29, 1985, in accordance with Standard Paragraph H at the end of this notice.

11. The Kansas Power and Light Company

[Docket No. ER85-613-000]

Take notice that on July 8, 1985, The Kansas Power and Light Company (KPL) tendered for filing a proposed cancellation of FPC Rate Schedule No. 166. Said rate schedule was dated December 7, 1984 between the City Netawaka and KPL.

KPL states that the termination of the contract will be effective not later than September 1, 1985.

Comment date: July 29, 1985, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

H. Any person desiring to be heard or to protest this filing should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, on or before the comment date. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. CP85-647-000 et al.]

Natural Gas Pipeline Company of America et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission.

1. Natural Gas Pipeline Company of America

July 12, 1985.

[Docket No. CP85-647-000]

Take notice that on June 25, 1985, Natural Gas Pipeline Company of America (Natural), 701 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP85-647-000 a request pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas for Wabash Alloys, Inc. (Wabash), an industrial end-user of the gas, under the certificate issued in Docket No. CP82-402-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Natural proposes to transport a maximum of 4.3 billion Btu equivalent of natural gas per day for Wabash pursuant to the terms of a May 1, 1985, gastransportation agreement between the two parties. Natural states that it would charge Wabash a transportation fee of 27.2 cents per dt equivalent of gas plus the Gas Research Institute's surcharge funding unit per dt (currently 1.21 cents per dt) as shown on Sheet No. 5A of Natural's FERC Gas Tariff, Volume No. 1, for gas transported from Woodward County, Oklahoma, to its interconnection with Northern Indiana Public Service Company (NIPSCO) on the border between Cook County, Illinois, and Lake County, Indiana. It is explained that NIPSCO, the local distribution company, would redeliver the natural gas to Wabash which would use the gas in its aluminum smelting operations at its Wabash, Indiana, plant. The request states that the gas would be sold to Wabash by Park-Ohio Energy, Inc., *et al.*, and initially would be delivered to Natural by Oklahoma Natural Gas Company, a Division of ONEOK Inc.

Natural also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Natural would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Natural advises that the transportation service commenced on May 1, 1985, as reported in Docket No. ST85-1051, for a 120-day period terminating August 29, 1985. Natural proposes to continue this service without cessation until the earlier of (1) an effective date of a final rule in Docket No. RM85-1-000, (2) October 21, 1985, under the requested authorization, or (3) May 1, 1987, when the subject gas transportation agreement expires by its own terms.

Comment date: August 26, 1985, in accordance with Standard Paragraph G at the end of this notice.

2. Natural Gas Pipeline Company of America

July 12, 1985.

[Docket No. CP85-653-000]

Take notice that on June 27, 1985, Natural Gas Pipeline Company of America (Natural), 701 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP85-653-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas for Westvaco Corporation (Westvaco) under the certificate issued in Docket No. CP82-402-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Natural states that it proposes to transport a maximum of 10 billion Btu's of natural gas per day for Westvaco from Polk County, Texas to Vermilion Parish, Louisiana, Cameron Meadows in Cameron Parish, Louisiana and near Lowery in Cameron Parish, Louisiana. It is stated that Natural would charge transportation fees of 8.9 cents, 5.2 cents an 7.1 cents per million Btu of gas received by Natural for the account of Westvaco in Polk County, Texas and delivered in Vermilion Parish, Louisiana, Cameron Meadows in Cameron Parish, Louisiana and near Lowery in Cameron Parish, Louisiana, respectively.

Natural further states that it commenced this service on May 1, 1985 pursuant to §157.209(e)(1) for a 120-day period that terminates August 29, 1985. Natural states that it proposes to continue this service from August 29, 1985, until the earlier of (1) an effective date of a final rule in Docket No. RM85-1-000, (2) the date authorization would expire (presently October 31, 1985), under the notice procedure authorization, or (3) May 1, 1986, pursuant to the April 8, 1985, gas transportation agreement between Natural and Westvaco.

Natural also requests flexible authority to add or delete receipt/

delivery points associated with sources of gas acquired by the end-user. The

stipulation and agreement approved by the Commission's letter order issued

The gas would be purchased by Bethlehem from Northern Gas

seeking authority to transport gas pursuant to all the terms and conditions

It is claimed Rate Schedule TF-1 is

accommodated, based upon Applicant's

VOL 50 ISS 140 JL 22 1985 UMI

delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Natural would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: August 28, 1985, in accordance with Standard Paragraph G at the end of this notice.

3. Michigan Consolidated Gas Company—Interstate Storage Division

[Docket No. CP85-646-000]

July 15, 1985.

Take notice that on June 25, 1985, Michigan Consolidated Gas Company (Mich Con), 500 Griswold Street, Detroit, Michigan 48226, filed in Docket No. CP85-646-000 a request pursuant to §157.205 of the Commission' Regulations under the Natural Gas Act (18 CFR 157.205) for authority to undertake a storage service for AMCA International (AMCA) under the blanket certificate issued in Docket No. CP82-532-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Mich Con would provide this service through its Interstate Storage Division (ISD) pursuant to §157.213(b) of the Commission's Regulations and a storage service agreement (Agreement) between Mich Con and AMCA dated June 17, 1985. It is explained that pursuant to the Agreement, Mich Con (through ISD) would provide storage service on behalf of AMCA for a period of 5 years. It is stated that ISD would receive up to 100,000 McF (approximately 100 billion Btu) of storage volumes, plus compressor fuel of 0.9 percent of such volumes, which AMCA would cause ANR Pipeline Company (ANR) to tender to ISD for AMCA's account at existing points of interconnection between the pipeline systems of ISD and ANR as the parties agree upon from time to time. ISD would store the gas and redeliver equivalent volumes, exclusive of compressor fuel, to ANR for AMCA's account.

It is asserted that ISD would receive 49.22 cents per Mcf of storage contract demand ($4,102 per month). It is stated that such revenues received by ISD would be refunded to ISD's customers in accordance with Article IX of the stipulation and agreement approved by the Commission's letter order issued January 11, 1985, in Docket No. RP84-13-000.

Comment date: August 29, 1985, in accordance with Standard Paragraph G at the end of this notice.

4. Northern Natural Gas Company, Division of InterNorth, Inc.

[Docket No. CP85-541-000]

July 15, 1985.

Take notice that on May 24, 1985, Northern Natural Gas Company, Division of InterNorth, Inc. (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP85-541-000 a request pursuant to §157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Bethlehem Steel Corporation (Bethlehem) under the authorization issued in Docket No. CP82-401-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the application which is on file with the Commisssion and open to public inspection.

Northern states that the proposed transportation service would be performed in accordance with a transportation agreement dated March 15, 1985, which provides for the transportation of up to 20,000 Mcf of natural gas per day. Such gas would be received at an existing interconnection between Northern and Funk Fuels Corporation in Beaver County, Oklahoma. Northern would deliver equivalent volumes for the account of Bethehem at a common point on Northern's system at Oasis, Pecos County, Texas. The gas transported to Oasis would then be delivered by displacement for the account of Bethlehem at the facilities of Columbia Gulf Transmission Company (Columbia Gulf) at Egan, Arcadia Parish, Louisiana (Egan). It is explained that Columbia Gulf would transport the gas to Columbia Gas Transmission Corporation which then would transport it to Columbia Gas of Pennsylvania, Inc., the local distribution company for ultimate delievery to Bethlehem's Hanover Quarry, Pennsylvania, plant. Northern further indicates that this same route would be used to serve Bethlehem's plants at Steelton and Bethlehem, Pennsylvania, with the exception that the local distribution company is UGI Corporation. Northern proposes to transport gas through December 31, 1986.

Northern states that it would charge Bethlehem 10.92 cents per Mcf and retain 1.25 percent of the gas for fuel. The gas would be purchased by Bethlehem from Northern Gas Marketing, Inc., and would be used as boiler, reheat furnace, and lime kiln fuel at Bethlehem's plants in Steelton, Hanover Quarry, and Bethlehem, Pennsylvania.

Comment date: August 29, 1985, in accordance with Standard Paragraph G at the end of this notice.

5. Northern Natural Gas Company, Division of InterNorth, Inc.

[Docket No. CP85-671-000]

July 12, 1985.

Taken notice that on July 2, 1985, Northern Natural Gas Company, Division of InterNorth, Inc. (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP85-671-000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the establishment of four transportation rate schedules and blanket authorization to provide firm and interruptible transportation service pursuant to such rate schedules, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to establish two new transportation rate schedules, Rate Schedle TF-1 and Rate Schedule IT-1, to be incorporated in Applicant's FERC Gas Tariff, Third Revised Volume No. 1 (Volume 1 Tariff) and to establish two new transportation rate schedules, Rate Schedule TF-1 and Rate Schedule IT-1 to be incorporated in Applicant's FERC Gas Tariff, Original Volume No. 2 (Volume 2 Tariff). It is stated that Rate Schedule TF-1 is proposed to become a permanent part of Applicant's Volume 1 and Volume 2 Tariffs and reflects the rules and regulations proposed in Docket No. RM85-1. It is claimed that the appropriate time Applicant would file any necessary changes to Rate Schedule TF-1 to comply with the conditions issued in the final order in Docket No. RM85-1. It is further stated that Rate Schedule IT-1 is proposed to be an interim rate schedule under Applicant's Volume 1 and Volume 2 Tariffs and would terminate on the date that Applicant implemented a new rate schedule reflecting the requirements of the final order issued in Docket No. RM85-1. Applicant also proposes blanket authorization to transfer existing firm entitlement under Rate Schedules CD-1 or CDO-1 to proposed Rate Schedule TF-1 and vice versa to achieve maximum flexibility under the proposed transportation program. It is claimed that other than establishing four new transportation rate schedules and seeking authority to transport gas pursuant to all the terms and conditions set forth in Rate Schedules TF-1 and IT-1 of Applicants Volume 1 and Volume 2 Tariffs, respectively, Applicant proposes no changes in currently authorized facilities or services.

Applicant states that as the price of natural gas in the spot or short term markets has continued to compete with the price of gas in the long-term contract market, it has received numerous requests for transportation service on behalf of local distribution customers and end-users within its market area. It is asserted that in response to competitive forces in the marketplace Applicant proposes to establish four new transportation services in order to complement its existing transportation services. It is averred that these proposed rate schedules would complement Applicant's on-going efforts to transport gas to off-system markets and would provide Applicant's utility customers greater flexibility in rates and services to adjust to rapidly changing Market conditions to serve more effectively and efficiently their market requirements and to promote end-user utilization of its distributor's facilities. It is further averred that both a firm and interruptible transportation service would be available to Applicant's customers which services may displace sales on Applicant's system.

Applicant proposes to continue transportation for existing on-system end-users and on-system utility customers which are being provided transportation services under Rate Schedule EUT-1 of Applicant's Volume 1 Tariff and/or Part 284 of the Commission's Regulations, respectively, until the termination date of their existing contracts. It is stated that when the proposed rate schedules become effective any on-system utility customers woud be allowed to have its own gas supply transported under the proposed Rate Schedules TF-1 or IT-1 of Applicant's Volume 1 and Volume 2 Tariffs, whichever would be applicable.

Applicant asserts it would continue to be active in transporting gas to off-system markets, and that such transportation services would be subject to available capacity and Applicant's approved transportation rates for such services.

Applicant states its proposed Rate Schedule TF-1 would be available for the transportation of natural gas to any of Applicant's distribution customers (Shipper) purchasing contract demand from Applicant pursuant to Rate Schedules CD-1 or CDO-1 under Applicant's Volume 1 Tariff.

It is claimed Rate Schedule TF-1 is designed to be an integral part of Applicant's unbundled services as a capacity reserved service. It is stated that the provisions of transfer to Rate Schedule TF-1 and the TF-1 rates are designed to allow Shippers the opportunity to access competing supplies of gas while minimizing the potential for cost shifting among customers.

Service rendered under Rate Schedule TF-1, up to the transportation demand quantity (TDQ) would be firm reservation of capacity and would not be subject to interruption, it is stated.

Applicant explains that the TDQ would be the maximum daily volume of natural gas that it is obligated to receive and transport for Shipper at the receipt point(s), and delivery point(s), respectively, as set forth in the TF-1 transportation service agreement, which would be required to be executed between Applicant and Shipper for service under the rate schedule, except as provided in Section 8 of the rate schedule.

It is claimed that in order to plan and accommodate system supply sales requirements a minimum one-year term would be required for all service agreements executed under Rate Schedule TF-1.

Applicant states that upon requesting an initial TDQ under Rate Schedule TF-1 the Shipper would have the right to request a concurrent reduction in his effective firm entitlement under Rate Schedules CD-1 or CDO-1 by an amount not exceeding the requested TDQ. It is further stated the TDQ may be increased or decreased as long as there is a corresponding increase or decrease in sales firm entitlement under Rate Schedules CD-1 or CDO-1, such that the net effect on the Shipper's total firm entitlement for transportation and sales is zero. It is claimed the Shipper would be required to execute new service agreements for any change in service and that Applicant would require the Shipper to nominate on or before May 1 of each year, commencing May 1, 1986, any changes in the TDQ under Rate Schedule TF-1 and corresponding changes in its sales firm entitlement under Rate Schedules CD-1 or CDO-1. Once the customer has transferred sales firm entitlement to transportation firm entitlement, it is stated, such customer would relinquish his right to that transferred sales firm entitlement under Rate Schedules CD-1 or CDO-1. It is claimed Applicant would notify Shipper by September 1 of each year as to when and to the extent such increase or decrease can be accommodated, based upon Applicant's ability to provide the transportation service without detriment or disadvantage to its sales customers and subject to its operating and system requirements. Applicant states that in its sole judgement it may waive the nomination period if conditions warrant such action.

Applicant states this nomination would not preclude Shipper from requesting any additions or deletions to the receipt point(s) or delivery point(s) of the TF-1 transportation service agreement.

Applicant proposes to charge a two part rate for service rendered under Rate Schedule TF-1. It is explained that the demand rate proposed to be charged would be equivalent to the currently effective demand rate under Rate Schedules CD-1 or CDO-1 applicable to the rate zone which contains the delivery point(s) where gas would be delivered by Applicant to Shipper. It is asserted that the commodity rate proposed to be charged per Mcf at 1000 Btu, would be equivalent to the non-gas component of Applicant's CD-1 or CDO-1 commodity rate per Mcf at 1000 Btu (whichever is applicable) for the rate zone applicable to the delivery point(s) where gas is being transported by Applicant to Shipper. Applicant also proposes to charge Shipper the currently effective GRI surcharge. In addition, Applicant claims it would charge a commodity rate of 21.56 cents per Mcf at 1000 Btu for fuel and unaccounted-for losses based upon the same factor as currently included in Applicant's Purchased Gas Adjustment filing in Docket No. TA85-3-59. It is further stated that in the event the daily quantities of natural gas Shipper delivers or causes to be delivered to Applicant at the designated receipt point(s) exceed 110 percent or is less than 90 percent of the nominated quantity as established in section 7 of Rate Schedule TF-1, Applicant would have the right to charge Shipper a penalty of $5.00 for each Mcf of deliveries which are above or below such limitations.

It is stated that Shipper would be responsible for all costs associated with delivering the gas to the specified receipt points on Applicant's system for transportation by Applicant and that Applicant would have the right to charge Shipper a total incremental cost of service or, alternatively, a one-time charge associated with any new facilities constructed and paid for by Applicant to enable Applicant to receive or delivery volumes of gas. It is claimed that such cost of service would be based

VOL

JL
22
1985
UMI

upon the cost of service methodologies and factors underlying Applicant's currently effective rates.

It is asserted that for billing purposes all volumes nominated under Rate Schedule TF–1 would be considered the first volumes delivered to Shipper each day.

It is asserted no change in the total firm entitlement of Shippers would result from the implementation of this rate schedule, since the sum of the TDQ contracted for under Rate Schedule TF–1 plus the adjusted sales firm entitlement of the Shipper would equal the currently effective firm entitlement for the respective Shipper under currently existing service agreements as detailed in the Index of Purchasers contained in Applicant's Volume 1 Tariff.

Applicant states that its proposed Rate Schedule IT–1 would be a best efforts interruptible transportation service available to any Shipper who has executed a transportation service agreement for the transportation of natural gas under Rate Schedule TF–1 of Applicant's Volume 1 Tariff.

Applicant claims that some of its customers may desire a short-term, interruptible transportation service for spot market gas and that Rate Schedule IT–1 would be available to accommodate such need. It is asserted that Rate Schedule IT–1 would terminate after the final order issued in Docket No. RM85–1.

It is claimed Rate Schedule IT–1 would be applicable for the transportation of natural gas in excess of Shipper's TDQ, under Applicant's Rate Schedule IT–1 of its Volume 1 Tariff. Applicant asserts service rendered under this rate schedule would be interruptible service subject to interruption as deemed necessary in Applicant's sole judgement.

It is stated that for all volumes of natural gas transported under Rate Schedule IT–1, Shipper would pay Applicant a commodity rate Mcf at 1000 Btu equivalent to the commodity rate charged under proposed Rate Schedule TF–1 for the rate zone applicable to the delivery point(s) where gas would be delivered to Shipper. In addition it is stated Applicant would charge Shipper the currently effective GRI Surcharge.

In addition Applicant states it would charge Shipper a commodity rate per Mcf at 1000 Btu for fuel and unaccounted-for losses which rate Applicant claims is equivalent to the fuel rate charged under its proposed Rate Schedule TF–1 of its Volume 1 Tariff.

It is further stated that in the event the daily quantities of natural gas Shipper delivers or causes to be delivered to Applicant at the designated receipt point(s) exeed 110 percent or is less than 90 percent of the nominated quantity as established in section 7 of Rate Schedule IT–1, Applicant would have the right to charge Shipper a penalty of $5.00 for each Mcf of deliveries which are above or below such limitations.

It is stated that Shipper would be responsible for all costs associated with delivering the gas to the specified receipt points on Applicant's system for transportation by Applicant and that Applicant would have the right to charge Shipper a total incremental cost of service or, alternatively, a one-time charge associated with any new facilities constructed and paid for by Applicant to enable Applicant to receive or deliver volumes of gas. It is claimed that such cost of service would be based upon the cost of service methodologies and factors underlying Applicant's currently effective rates.

It is asserted that for billing purposes all volumes nominated pursuant to Rate Schedule IT–1 would be considered the second volumes delivered each day.

Applicant asserts that Rate Schedule TF–1 proposed to be included in Applicant's Volume 2 Tariff would be a firm transportation service available to any Shipper currently purchasing natural gas from Applicant pursuant to Applicant's Panhandle, Plains, or Permian area rates under Applicant's Volume 2 Tariff.

It is claimed Rate Schedule TF–1 is designed to be an integal part of Applicant's unbundled services as a capacity reserved service. It is stated that the provisions of transfer to Rate Schedule TF–1 and the TF–1 rates are designed to allow users the opportunity to access competing supplies of gas while minimizing the potential for cost shifting among customers.

Service rendered under Rate Schedule TF–1, up to the TDQ would be a firm reservation of capacity and would not be subject to interruption, it is stated.

Applicant explains that the TDQ would be the maximum daily volume of natural gas that it is obligated to receive and transport for Shipper at the receipt point(s) and delivery point(s), respectively, set forth in the TF–1 transportation service agreement, which would be required to be executed between Applicant and Shipper for service under Rate Schedule TF–1.

It is claimed that in order to plan and accommodate system supply sales requirements a minimum one-year term would be required for all service agreements executed under Rate Schedule TF–1.

Applicant states that upon requesting an initial TDQ under Rate Schedule TF–1 the Shipper would have the right to request a concurrent reduction in its effective firm entitlement, as defined in Shipper's respective rate schedule, by an amount not exceeding the requested TDQ. It is further stated the TDQ may be increased or decreased as long as there is a corresponding increase or decrease in the sales firm entitlement as defined in Shipper's respective rate schedule. It is stated that the Shipper would be required to execute the necessary service agreements reflecting such changes. Applicant states it would require Shippe- to nominate, on or before May 1 of each year, commencing May 1, 1986, any changes in the TDQ and corresponding changes to their firm entitlement demand, and that Applicant would notify Shipper by September 1 of each year as to the extent such nomination can be accommodated, based upon Applicant's ability to provide the service without detriment or disadvantage to its existing sales customer and subject to its operating and system requirements. Applicant states that in its sole judgment it may waive the nomination period if conditions warrant such action.

Applicant states this nomination procedure would not preclude Shipper from making any requested additions or deletions to the receipt point(s) or delivery point(s) of the transportation service agreement.

Applicant proposes to charge a one-part commodity rate for service rendered under this rate schedule. The proposed commodity rate per Mcf at 1000 Btu for transportation services would be determined by the area applicable to the delivery point(s) where gas is being transported by Applicant to Shipper, it is claimed. Applicant also proposes to charge Shipper the currently effective GRI Surcharge. Shipper would also be charged a commodity rate of 21.56 cents per Mcf at 1000 Btu for fuel and unaccounted-for losses. It is further stated that in the event the daily quantities of natural gas Shipper delivers or causes to be delivered to Applicant at the designated receipt point(s) exceed 110 percent or is less than 90 percent of the nominated quantity as established in Section 7 of Rate Schedule TF–1. Applicant would have the right to charge Shipper $5.00 per Mcf for deliveries of natural gas which are above or below such limitations.

It is stated that Shipper would be responsible for all costs associated with delivering gas to Applicant's system for subsequent transportation by Applicant and that Applicant would have the right to charge Shipper a total incremental cost of service or, alternatively, a one-time charge associated with facilities constructed and paid for by Applicant to enable Applicant to receive or deliver volumes of gas. It is claimed that such cost of service would be based upon the cost of service methodologies and factors underlying Applicant's currently effective rates.

It is asserted that for billing purposes all volumes nominated under this rate schedule would be considered the first volumes delivered to Shipper each day.

It is asserted no change in the total contract quantity of Applicant's existing volume 2 customers would result from the implementation of this rate schedule.

Applicant states that its proposed Rate Schedule IT–1, to be included in Applicant's Volume 2 Tariff, would be a best efforts interruptible transporation service available to any Shipper who has executed a transportation service agreement for the transportation of natural gas under Rate Schedule TF–1 of Applicant's Volume 2 Tariff. Applicant states that Rate Schedule IT–1 would be applicable to the transportation of natural gas in excess of Shipper's TDQ under Rate Schedule TF–1 of Applicant's Volume 2 Tariff. It is asserted that service rendered under this rate schedule would be an interruptible service subject to interruption as deemed necessary in Applicant's sole judgment.

It is stated that for all volumes of natural gas transported under this rate schedule Shipper would pay a commodity rate per Mcf as determined by the area applicable to the delivery point(s) where gas would be delivered to Shipper. In addition Applicant proposes to charge Shipper the currently effective GRI Surcharge. It is further stated that Applicant would charge Shipper a commodity rate per Mcf for fuel and unaccounted for losses at a rate equivalent to the fuel rate charged under proposed Rate Schedule TF–1 of Applicant's Volume 2 Tariff.

Applicant explains that for billing purposes all volumes nominated under this rate schedule would be considered second volumes delivered each day to Shipper.

It is claimed that the transportation service pursuant to the proposed Rate Schedule TF–1 of Applicant's Volume 1 or Volume 2 Tariff would be a firm service equal in priority to the sale of gas under Applicant's firm sales rate schedules contained in Applicant's Volume 1 and Volume 2 Tariffs. It is stated that firm sales and transportation services would have priority over interruptible sales and interruptible transportation services when the request for all such services exceeds, on any day, the available transmission capacity. It is averred that in the event curtailment of firm services is required due to capacity constraints on Applicant's system, such curtailment would be performed in accordance with the priorities set forth in Section 9 of Applicant's Volume 1 Tariff or the respective customer sales rate schedule contained in Applicant's Volume 2 Tariff.

Applicant asserts that the Shipper must be aware that the potential exists for isolated system bottlenecks if a number of customers elect to use the same or closely locate receipt points for their transportation service, and that such potential would be discussed with each customer upon implementation of service. Applicant further asserts that it retains the right to reject certain receipt points if capacity does not exist or alternatively to selectively curtail certain customers pursuant to provisions of their transportation service agreement.

Applicant proposes to retain all transportation revenues received under these rate schedules to assist it in recovering the costs underlying Applicant's currently effective sales rates. It is stated that the volumes to be transported under these rate schedules would be volumes that Applicant would otherwise sell under currently effective rate schedules. It is claimed that the proposed rates and revenues treatment would ensure that Shippers continue to bear their fair share of Applicant's system fixed costs and would prevent undue cost shifting. Applicant claims that revenues received for fuel and unaccounted for losses would be credited to its Account No. 191—Unrecovered Gas Purchase Costs.

It is claimed that in order to achieve the maximum flexibility under Applicant's proposal to meet the needs of its Volume 1 Tariff customers, Applicant requests blanket certificate authority to realign the firm entitlement of its existing customers from Rate Schedule(s) CD–1 or DCO–1 to Rate Schedule TF–1, and vice versa, as long as their total firm entitlement under existing service agreements does not change. Applicant proposes to advise the Commission of such transactions by filing the necessary tariff sheets reflecting such changes. Such blanket certificate authority also is requested for Applicant's Volume 2 Tariff customers who realign firm entitlement demand between sales and transportation.

It is asserted that Applicant, its customers, and the Commission would benefit from the efficiencies resulting from the reduction in individual certificate filings by authorizing such blanket authority, and that the ultimate consumer would benefit from the shorter time required for the commencement of the firm transportation service.

Applicant submits that the proposed Rate Schedules TF–1 and IT–1 are in the public convenience and necessity since the proposed rate schedules (1) provide open access to transportation services; (2) proivde alternatives and maximize supply flexibility for Applicant's existing customers; (3) ensure that consumers are provided natural gas service at the lowest reasonable rates consistent with reliable long-term service; and (4) minimize rate consequences to nonparticipating customers.

Comment date: August 1, 1985, in accordance with Standard Paragraph F at the end of this notice.

6. Panhandle Eastern Pipe Line Company

[Docket No. CP85–638–000]

July 15, 1985.

Take notice that on June 24, 1985, Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP85–638–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of North American Refractories Company, an Allied Company (NAR), under the certificate issued in Docket No. DP83–83–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Panhandle requests authorization to transport natural gas on behalf of NAR, pursuant to a transportation agreement dated March 25, 1985, between NAR and Panhandle. It is explained that the agreement provides for Panhandle to receive up to 400 Mcf per day of natural gas on an interruptible basis at an existing point of interconnection between Panhandle and Anadarko Land and Exploration Co. (Anadarko) in Custer County, Oklahoma. Panhandle would then transport and redeliver such gas, less a four percent reduction for fuel, to an existing point of interconnection between Panhandle and NAR in Audrain County, Missouri, for use at NAR's facilities in Farber, Missouri. It is stated that NAR is an existing direct industrial sales customer of Panhandle.

NAR would pay Panhandle the rate under Panhandle's Rate Schedule OST.

The currently effective rate is $.8524 per MMBtu.

Panhandle Eastern indicates that it would charge RCA 3.28 cents for each

Gas & Coke would ultimately deliver

any hearing therein must file a motion to intervene in accordance with the

determine whether production-related costs have been charged to CIG by Koch

Energy Regulatory Commission 825 North Capitol Street, NE, Washington

The currently effective rate is $.8524 per MMBtu.

This agreement, it is stated, would be effective from March 25, 1985, for a primary term of six months, and successive terms of one month each, until the earlier of eighteen months from the date thereof, or termination of authorizations for service thereunder pursuant to Subpart F of 18 CFR Part 157.

Comment date: August 29, 1985, in accordance with Standard Paragraph G at the end of this notice.

7. Panhandle Eastern Pipe Line Company

[Docket No. CP85-641-000]

July 15, 1985.

Take notice that on June 24, 1985, Panhandle Eastern Pipe Line Company (Panhandle Eastern), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP85-641-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of RCA Corporation (RCA), an industrial customer, under the certificate issued in Docket No. CP83-83 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Panhandle Eastern proposes to transport up to 1,300 Mcf of natural gas per day on an interruptible basis for RCA for 18 months should the Commission extend the end-user transportation program beyond June 30, 1985. Panhandle Eastern indicates that the gas to be transported would be purchased from Phillips Petroleum Company (Phillips) and that it would receive said volumes at their existing connections in Kingfisher and Woodward Counties, Oklahoma. Panhandle Eastern states it would transport and deliver said volumes, less a 4 percent retainer, to Citizens Gas and Coke Utility for RCA's account and that Citizens Gas & Coke would ultimately deliver said volumes to RCA for its use as boiler fuel in its Marion County, Indiana facility. Panhandle Eastern further states that Rebel Energy is acting as agent between Phillips and itself for a monthly fee of 3.0 cents per Mcf. It is explained that these volumes represent gas Panhandle Eastern released under section 102 of the Natural Gas Policy Act of 1978. Panhandle Eastern states that it commenced this transportation service on April 26, 1985 under the automatic authorization of § 157.209 of the Regulations and that existing facilities were utilized.

Panhandle Eastern indicates that it would charge RCA 3.28 cents for each Mcf of natural gas delivered to the Kingfisher plant and 3.25 cents for each Mcf delivered to the Cimarron plant, which is in accordance with its Rate Schedule On-System Transportation Service (OST). In addition, RCA would pay a Gas Research Institute surcharge, if applicable, it is stated.

Panhandle Eastern also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Panhandle Eastern would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: August 29, 1985, in accordance with Standard Paragraph G at the end of this notice.

8. Panhandle Eastern Pipe Line Company

[Docket No. CP85-642-000]

July 15, 1985.

Take notice that on June 24, 1985, Panhandle Eastern Pipe Line Company (Panhandle Eastern), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP85-642-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Quemetco, Inc. (Quemetco), under the certificate issued in Docket No. CP83-83 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Panhandle Eastern proposes to transport up to 1,000 Mcf of natural gas per day on an interruptible basis for Quemetco for 18 months should the Commission extend the end-user transportation program beyond June 30, 1985. Panhandle Eastern indicates that the gas to be transported would be purchased from Phillips Petroleum Company (Phillips) and that it would receive said volumes at their existing interconnections with Phillips in Kingfisher and Woodward Counties, Oklahoma. Panhandle Eastern states it would transport and deliver said volumes, less a 4 percent retainer, to Citizens Gas and Coke Utility for Quemetco's account and that Citizens Gas & Coke would ultimately deliver said volumes to Quemetco for its use in its reverbatory furnace, rotary dryers, and lead-meltinga kettle, in its Marion County, Indiana facility. Panhandle Eastern further states that Rebel Energy is acting as agent between Phillips and itself for a monthly fee of 3.0 cents per Mcf. It is explained that these volumes represent gas Panhandle Eastern released under section 102 of the Natural Gas Policy Act of 1978. Panhandle Eastern states that it commenced this transportation service on May 2, 1985 under the automatic authorization of § 157.209 of the Regulations and that existing facilities were utilized.

Panhandle Eastern indicates that it would charge Quemetco 3.28 cents for each Mcf of natural gas delivered to the Kingfisher plant and 3.25 cents for each Mcf delivered to the Cimarron plant, which is in accordance with its Rate Schedule On-System Transportation Service (OST). In addition, Quemetco would pay a Gas Research Institute surcharge, if applicable, it is stated.

Panhandle Eastern also requests flexible authority to add or delete receipt/delivery points associated with sources of gas acquired by the end-user. The flexible authority requested applies only to points related to sources of gas supply, not to delivery points in the market area. Panhandle Eastern would file a report providing certain information with regard to the addition or deletion of sources of gas as further detailed in the application and any additional sources of gas would only be obtained to constitute the transportation quantities herein and not to increase those quantities.

Comment date: August 29, 1985, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Kenneth F. Plumb,

Secretary.

[FR Doc. 85-17355 Filed 7-19-85; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. GP85-29-000]

Colorado Interstate Gas Company v. Koch Industries, Inc., Koch Hydrocarbon Company, Koch Exploration Company; Complaint Filed

July 15, 1985.

On April 29, 1985, Colorado Interstate Gas Company (CIG) filed a complaint pursuant to 18 CFR 271.1105(d)(3) and Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206. CIG requests that the Production-Related Costs Board (Board) determine whether production-related costs have been charged to CIG by Koch Hydrocarbon Company and Koch Exploration Company, both wholly-owned subsidiaries of Koch Industries, Inc. (collectively referred to as "Koch"), contrary to 18 CFR 271.1104.

CIG states that it purchases natural gas produced from thirty-nine wells sold under two contracts with Koch at the tailgate of Koch's liquids extraction plant. CIG contends that Koch charged gathering allowances in excess of those permitted by § 271.1104 for both section 105 and 108 wells. CIG notes that they are currently litigating the issue of whether certain wells are properly priced under section 105. They state that their complaint is directed solely to the validity of Koch's claim for production-related costs, assuming the gas is correctly priced as Koch claims, but that CIG does not admit or concede by the filing of this complaint that such price was proper.

CIG further states that Koch is claiming gathering allowances for gas produced from seventeen additional wells which CIG believes are not committed to the two contracts. The issue of whether gas sales from these wells are committed to contracts is the subject of current litigation. CIG states that if the gas is not committed, then Koch is in violation of § 271.1104 because there is no expressed contractual authorization for collection of production-related costs. CIG also states that if it is determined that gas sales from eight of these wells are committed to a contract and properly priced under section 105, then Koch is collecting a gathering charge in excess of that permitted by § 271.1104.

CIG requests that the Board determine (1) the allowable gathering charges for all gas sold by Koch under Section 105, (2) the allowable gathering charge for all gas sold by Koch under Section 108, (3) the propriety of a gathering charge for gas from any well not covered by the terms of either contract, and (4) such other relief as the Board may find just and proper.

Under Rules 206(b) and 213(a), 18 CFR 385.206(b) and 385.213(a), Koch must file an answer to CIG's complaint with the Commission unless otherwise ordered by the Commission. Under Rule 213(e), 18 CFR 385.213(e), any person failing to answer a complaint may be considered in default, and all relevant facts stated in such complaint may be deemed admitted. Koch shall file its answer with the Commission on or before August 14, 1985.

Any person desiring to be heard or to protest said filing should file a protest or a motion to intervene with the Federal Energy Regulatory Commission 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such protests or motions should be filed on or before August 14, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[Docket Nos. CS69-6, et al. and CI77-145-003 et al.]

FMP Operating Company (Successor to McMoRan Exploration Co., McMoRan-Freeport Oil Company, McMoRan Offshore Production Co. and McMoRan Offshore Exploration Co.; Mergers and Name Change

July 15, 1985.

Take notice that on June 28, 1985, FMP Operating Company of P.O. Box 6800, Metairie, Louisiana 70009 filed a Notice of Mergers and Name Change.

McMoRan Exploration Co., McMoRan-Freeport Oil Company, McMoRan Offshore Production Co., and McMoRan Offshore Exploration Co. were merged into McMoRan Offshore Exploration Co. on April 4, 1985.

McMoRan Oil & Gas Co. was merged into McMoRan Offshore Exploration Co. on April 9, 1985, and the name of the Corporation was changed to McMoRan Oil & Gas Co.

Thereafter, by general conveyance, McMoRan Oil & Gas Co., the survivor and successor corporation, assigned its interest in the gas production reserves subject to the Rate Schedules and Certificates listed in Exhibit "A" to FMP Operating Company.

The certificates and FERC Gas Rate Schedules of FMP Operating Company, for which amendment to reflect the name change is requested, are listed in the attached Appendix "A".

Any person desiring to be heard or to make any protest with reference to said application should on or before July 29, 1985, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR

BILLING CODE 6717-01-M

[Docket No. G-17447-001 et al.]

Phillips Oil Co., et al.; Applications for Certificates, Abandonments of Service and Petitions To Amend Certificates [1]

July 17, 1985.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Policy Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 31 1985, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

CI68-200-002, D, July 8, 1985	....do	Arkansas Louisiana Gas Company, Peno Field, Sequoyah County, Oklahoma.	([30])	

[1] The wells connected to the Ship Shoal Block 33, "B" Platform have all ceased to produce. The #1 and #3 wells, OCS-G-0336 and OCS-G-0333, respectively, never produced gas in commercial quantities. The date of last production for #2 well, OCS-G-0334, was April 1979, and for the #4 well, OCS-G-0333, was November 1969.
[2] All production from leases committed to Tennessee Gas Pipe Line Company under the contract has ceased. Pursuant to the terms of the lease agreements, leases expired shortly after production ceased. Lessee interests have passed to Lea Exploration, Inc. Chevron is therefore not able to produce further from these leases, or continue sales under the contract.
[3] All of the production related to the Bear Field, in Beauregard Parish, Louisiana has ceased. The gas purchaser Transcontinental Gas Pipe Line Corporation, in conjunction with the operator, Sun Exploration and Production Company, has requested that Phillips file this abandonment.
[4] Producing wells on the acreage dedicated to R.S. 122 were plugged and abandoned in 1975. El Paso disconnected the wells on 5-27-76.
[5] On 5-20-82 in Docket No. CI81-1265-002, *et al.*, Unicon Producing Company filed a request to be designated Successor-In-Interest to Supron Energy Company in R.S. 35. The inclusion of this R.S. was erroneous. Unicon was never assigned Supron's interest in the leases covered by R.S. 35. These leases are owned by Southern Union Exploration Company.
[6] Union Texas' interest in the leases dedicated to R.S. 107 was assigned to NP Energy Corporation. Sales by UTP have not been made under this R.S. since December 1977.
[7] Leases dedicated to R.S. 38 were never conveyed to Unicon Producing Company. On 5-20-82 Unicon erroneously filed to be named Successor-In-Interest to Supron Energy in Docket No. CI78-398, R.S. 38.
[8] Contract expired on 6-30-83. All wells dedicated thereto have been plugged and abandoned.
[9] Gas Purchase Contract was terminated on 4-1-81. There has been no production from the zones dedicated to R.S. 53 since 1971.
[10] Because no Natural Gas was produced and sold since September 1979. Union Texas' Lease OCS-G-2011 expired on 12-6-80. Therefore Union Texas will make no sales under the terms and provisions of the contract filed in Docket No. CI76-761, R.S. 104.
[11] Gas has depleted down to the extent that it isn't paying to maintain a meter.
[12] Well #1698 has been plugged.
[13] Well #1564 has been plugged.
[14] Low well production.
[15] Non-production.
[16] Low delivery.
[17] Uneconomical.
[18] Dry hole.
[19] Expenses exceed income.
[20] Well production has stopped.
[21] Well has not produced any gas since 1980.
[22] Low volume. Purchaser wants to remove meter.
[23] Unprofitable production.
[24] Unicon's interest in the leases dedicated to R.S. 20 was canceled effective 1-1-83. The primary term of the contract expired 5-24-82.
[25] Effective date of transfer of ownership: 10-1-84. Proposed effective date of assignment: 10-1-84. Applicant respectfully requests that a Certificate of Public Convenience and Necessity be issued authorizing it to render the service previously authorized in the certificate of public convenience and necessity issued to Diamond Shamrock Exploration Company, effective from and after 10-1-84.
[26] Sale of dedicated properties to Quinoco Petroleum Inc. on 1-1-84.
[27] Clifford Love is the owner of Sec. 31-T30S-R34W, including all minerals and all the mineral owners royalty for gas produced from the Harrison #1 Well. Mr. Love, on behalf of the tenant farmer, Archie Rooney, desire to purchase natural gas at the wellhead of the Harrison #1 Well in volumes for use as fuel for irrigation water pumps.
[28] All acreage has been assigned to Lyco Acquasition 1984 Limited Partnership.
[29] Partial Assignment and Bill of Sale executed on 3-28-85, effective 4-1-85 to Edel, Inc.
[30] Partial Assignment and Bill of Sale executed on 8-1-84, effective 8-1-84 to Kaiser-Francis Oil Company.

Filing Code: A—Initial Service. B—Abandonment. C—Amendment to add acreage. D—Amendment to delete acreage. E—Total Succession. F—Partial Succession.

BILLING CODE 6717-01-M

[Docket No. GP85-34-000]

Sohio Alaska Petroleum Co.; Petition for Declaratory Order

Issued: July 17, 1985.

Take notice that on June 17, 1985, Sohio Alaska Petroleum Company (Sohio), pursuant to Rule 207(a)(2) of the Commission's Rules of Practice and Procedure, petitions the Commission to remove uncertainty as to the applicability of section 109 of the Natural Gas Policy Act to sales of natural gas to Sohio from other Prudhoe Bay Unit working interest owners.

Sohio states that it is one of several oil and gas producers operating on the North Slope of Alaska in the Prudhoe Bay Field, both the largest oil field and the largest gas field in North America. Sohio states that, operations at Prudhoe Bay are conducted in accordance with the Prudhoe Bay Unit Operating Agreement (PBUOA). Sohio alleges that under an exercised option contained in the PBOUA, Sohio and other major oil owners must purchase natural gas from the field's major gas owners to satisfy fuel requirements within the unit.

Pursuant to a November 1984 arbitration decision, the price Sohio must pay for natural gas was determined to be $3.04 per MMBtu. Sohio claims that payment of $3.04 per MMBtu in accordance with the arbitration decision would violate the maximum lawful price provisions of section 109 to the extent the wells involved do not qualify for NGPA section 103 or 103 pricing. As to deliveries made before January 1, 1985, Sohio states that payments at the $3.04 per MMBtu rate for gas from section 103(c) wells also would violate the NGPA.

Sohio therefore requests that the Commission issue an order declaring that the price of $3.04 per MMBtu (1) exceeds the applicable maximum lawful price provisions of section 109 to the extent the gas sold to Sohio has been and is produced from wells not qualifying for NGPA section 102 or 103 pricing and (2) exceeds the maximum lawful price provisions of NGPA section 102 for gas acquired by Sohio before January 1, 1985, from wells classified under NGPA section 103.

Within thirty days of publication in the **Federal Register**, any person may file a protest or a petition to intervene with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. If you wish to become a party, you must file a petition to intervene. See Rules 214 or 211.[1]

Kenneth F. Plumb,
Secretary.

[Docket No. RP85-168-000

Transwestern Pipeline Co.; Request for Waiver

July 16, 1985.

Take notice that on June 28, 1985, Transwestern Pipeline Company (Transwestern) requested a partial waiver of section 4 of its Rate Schedule CDQ-1 and related tariff provisions to permit crediting of transportation revenues against the annual minimum commodity bill.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before July 22, 1985. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6717-01-M

[Docket No. CI82-296-001 et al.]

Zapata Exploration Co. (Successor to Pacific Petroleums, Inc.); Merger; Filing of Certificate

July 15, 1985.

Take notice that on July 2, 1985, Zapata Exploration Company of 1410 United Bank Tower, 400 West Fifteenth Street, Austin, Texas 78701 pursuant to § 154.92(d) of the Commission's Regulations, filed a certificate of the Secretary of State of the State of Delaware recognizing the merger of Pacific Petroleums, Inc., into Zapata Exploration Company and a copy of a certificate of ownership and merger, both effective October 1, 1984.

Zapata Exploration Company requests that it be authorized to continue to perform the service heretofore performed by its wholly-owned subsidiary, Pacific Petroleums, Inc., under Docket Nos. CI82-296-001 and CI82-299-000. Zapata Exploration Company also requests that Pacific Petroleums' Rate Schedule Nos. 1 and 2 be redesignated as Zapata Exploration Company rate schedules.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 29, 1985, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or to be represented at the hearing.

Kenneth F. Plumb,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[OPPE-FRI 2867-7]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 3507(a)(2)(B) of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*) requires the Agency to publish in the **Federal Register** a notice of proposed information collection requests (ICRs) that have been forwarded to the Office of Management and Budget (OMB) for review. The ICR describes the nature of the solicitation and the expected impact, and where appropriate includes the actual data collection instrument. The following ICRs are available for review and comment.

FOR FURTHER INFORMATION CONTACT: Nanette Liepman (PM-223); Office of Standards and Regulations; Regulation and Information Management Division; U.S. Environmental Protection Agency; 401 M Street, SW.; Washington, DC 20460; telephone (202) 382-2742 or FTS 382-2742.

SUPPLEMENTARY INFORMATION:

Office of Solid Waste and Emergency Response

- *Title:* Census of State and Territorial Non-Hazardous Waste Programs. (EPA #1248) (This is a one-time collection.)

Abstract: EPA is conducting a census of the Non-Hazardous Waste Programs (RCRA Subtitle-D) implemented by the States and Territories. Section 302 of the Hazardous and Solid Waste Amendments of 1984 requires EPA to determine if the current programs are adequate to protect human health and the environment.

Respondents: States and Territories.

Office of Pesticides and Toxic Substances

- *Title:* Request for Contractor Access to TSCA Confidential Business Information. (EPA #1250) (This is a new collection.)

Abstract: EPA must collect information from contractors to confirm clearance for their employees who need access to Toxic Substances Control Act (TSCA) confidential business information (CBI). Under terms of a Consent Order with Polaroid the Agency is required to revise its TSCA CBI Access Form for use by contractor/subcontractor personnel by June 1, 1985.

Respondents: EPA contractors with employees needing clearance to work with TSCA confidential business information.

Agency PRA Clearance Requests Completed by OMB

EPA No. 0619; Mobile Sources Emission Factor Survey, was approved 6/13/85 (OMB #2060-0078; expires 6/30/86).

EPA No. 0783; Application for Motor Vehicle Certification and Fuel Economy Labeling: Information Requirements (Revision), was approved 6/13/85 (OMB #2060-0104; expires 6/30/88).

EPA No. 0807; RCRA Closure and Post-Closure, was approved 6/12/85 (OMB #2000-0380; expires 9/30/85).

EPA No. 1049; Notification of Oil or Hazardous Substance Discharge, was approved 6/14/85 (OMB #2050-0046; expires 6/30/88).

EPA No. 1054; New Source Performance Standards for Petroleum Refineries, was approved 6/19/85 (OMB #2060-0022; expires 12/31/85).

EPA No. 1086; New Source Performance Standards for Onshore Natural Gas Processing Plants/Equipment Leaks for Volatile Organic Compounds, was approved 6/12/85 (OMB #2060-0120; expires 6/30/88).

EPA No. 1236; Information Requirements for National Emission

Standards for Hazardous Air Pollutants (NESHAPS)—Department of Energy,

Columbia, and the EPA Regional Administrator, Region III.

Dated: July 10, 1985.
Edwin Johnson,

Adopted or amended by State: Jan. 19, 1984.

Resolution 83-80 Resolution 83-80—

Territory of Guam

Standards for Hazardous Air Pollutants (NESHAPS)—Department of Energy,. Nuclear Regulatory Commission Licensees, and Elemental Phosphorous Facilities which Emit Radionuclides, was approved 6/12/85 (OMB #2060–0117; expires 6/30/88).

EPA No. 1250; Guideline for Federal Procurement of Paper and Paper Products Containing Recovered Materials, was approved 6/14/85 (OMB #2050–0045; expires 6/30/88).

EPA No. 1242; New Source Performance Standards—Information for Flare Requirements, was approved 6/13/85 (OMB #2060–0119; expires 6/30/88).

EPA No. 1243; Notification Requirements for Underground Storage Tanks Containing Regulated Substances, was approved 6/14/85 (OMB #2050–0049; expires 6/30/88).

Comments on all parts of this notice should be sent to:

Nanette Liepman (PM–223), U.S. Environmental Protection Agency, Office of Standards and Regulations, Regulation and Information Management Division, 401 M Street, SW., Washington, DC 20460

and

Nancy Baldwin (ICR $1248), or Carlos Tellez (ICR #1250), Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building (Room 3228), 726 Jackson Place, NW., Washington, DC 20503.

Dated: July 16, 1985.

Daniel J. Fiorino

Acting Director, Regulation and Information Management Division.

Chesapeake Bay Executive Council; Establishment

This notice is published in accordance with section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463). Following consultation with the General Services Administration, notice is hereby given that the Environmental Protection Agency is establishing the Chesapeake Bay Executive Council as described in the Chesapeake Bay Agreement of December 9, 1983.

The Council will assess and oversee the implementation of coordinated plans to improve and protect the water quality and living resources of the Chesapeake estuarine system. The nine members are Cabinet designees of the Governors of the States of Pennsylvania, Virginia, and Maryland, the Mayor of the District of Columbia, and the EPA Regional Administrator, Region III.

It has been determined that establishment of this Council is in the public interest in connection with the performance of the Environmental Protection Agency's duties and responsibilities under the Clean Water Act of 1981, as amended.

For further information contact: Henry Zygmunt, Coordinator for Policy and Program Integration, Chesapeake Bay Program, at (301) 266–6873.

Dated: July 5, 1985.

A. James Barnes,

Deputy Administrator.

State Water Quality Standards; Availability of Updated Listing

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability.

SUMMARY: This notice contains an updated listing of State water quality standards, dates of adoption by the State and dates of approval by the EPA of the standards or sections thereof pursuant to the Water Quality Standard Regulation (40 CFR Part 131, Subpart C § 131.21).

FOR FURTHER INFORMATION CONTACT: David K. Sabock, Chief, Standards Branch (WH–585), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

SUPPLEMENTARY INFORMATION: This listing of State water quality standards is an update of a listing that was noticed in the Federal Register on Friday, April 27, 1984 (49 FR 18177). The updated listing identifies the State regulatory documentation containing the State water quality standards and the dates of State adoption and EPA approval from April 1984 through May 1985. Not included in this Notice are: (1) The text of the water quality standards, (2) a description of the adoption action, or (3) any conditions (including disapprovals) that might have been attached to the approvals.

The text of a State's standards and copies of the approval letters can be obtained from the State's pollution control agency or the appropriate EPA Regional Office. Proprietary publications such as those of the Bureau of National Affairs also contain the text of State standards.

Dated: July 10, 1985.

Edwin Johnson,

Acting Assistant Administrator for Water.

Alaska

State water quality standards for the surface waters of the State of Alaska are those which are contained in the "Alaska Administrative Code", Register 47 at "Title 18, Environmental Conservation, Chapter 70, Water Quality Standards".

Adopted or amended by State: Jan. 20, 1984.

Approved by EPA: April 30, 1984.

Adopted or amended by State: Sept. 18, 1984.

Approved by EPA: Dec. 28, 1984.

Arizona

State water quality standards for the surface waters of the State of Arizona are those adopted by the Arizona Water Quality Control Council, contained in State regulations entitled "Water Quality Standards for Surface Waters in Arizona" (A.C.R.R. R9–21–214, Appendix A, Appendix B, R9–21–301 through R9–21–304) and Water Quality Standards for Salinity, Colorado River System.

Adopted or amended by State: Jan. 4, 1985.

Approved by EPA: (Not yet approved.)

Arkansas

State water quality standards for the surface waters of the State of Arkansas are those which are contained in the document entitled "Arkansas Water Quality Standards Regulation No. 2".

Adopted or amended by State: Nov. 28, 1984.

Approved by EPA: Jan. 28, 1984.

American Samoa

State water quality standards for the surface waters of the territory of American Samoa are those contained in the document entitled "Water Quality Standards for American Samoa", 1981.

Adopted or amended by State: July 19, 1985.

Approved by EPA: Oct. 22, 1984.

California

California State Water Quality Standards pertaining to the following amendment and approval dates are those contained in the documents entitled:

Resolution Number 84–11—Consideration of an Amendment to the Water Quality Control Plan for the Central Coastal Basin (Revision and Amendment of Table 2–1, "Existing and Anticipated Uses of Inland Surface Waters").

Adopted or amended by State: Jan. 19, 1984.

Approved by EPA: Apr. 17, 1984.

Resolution 83–17—Re-affirming Central Coastal Basin Standards.

Adopted or amended by State: Oct. 14, 1983.

Approved by EPA: Aug. 2, 1984.

Resolution 98–83—Reconsideration of an Amendment to the Water Quality Control Plan for the West Fork Carson River Hydrological Unit and Indian Creek Watershed, Alpine Country (Water Quality Standards of the Lahontan Region, North Lahontan Basin).

Adopted or amended by State: Dec. 15, 1983.

Approved by EPA: Apr. 19, 1984.

Resolution 84–046—Re-affirming Central Valley Basin Standards.

Adopted or amended by State: May 18, 1984.

Approved by EPA: Sept. 22, 1984.

Resolution 83–82—Consideration of Water Quality Standards for the Santa Ana River Region, Chapters 2 and 3 of the "Water Quality Control Plan, Santa Ana Region Basin (8)".

Adopted or amended by State: Oct. 20, 1983.

Approved by EPA: Apr. 28, 1984.

Resolution 84–55—Amending Central Valley Basin standards for the Sacramento River August 16, 1984.

Amendments to the Water Quality Control Plan for the Ocean Waters of California. (Res. 83–87)

Adopted or amended by State: Nov. 17, 1983.

Approved by EPA: May 2, 1984.

Resolution 85–12 amending Colorado River Basin standards.

Adopted or amended by State: Feb. 21, 1985.

Approved by EPA: (Not yet approved).

Resolution 84–5 re-affirming Los Angeles Basin standards

Adopted or amended by State: Sept. 13, 1984.

Approved by EPA: Oct. 22, 1984.

Resolution 85–10 amending Colorado River salinity standards by adopting "Proposed Report on the 1984 Review, Water Quality Standards for Salinity, Colorado River System". Colorado River Basin Salintiy Control Forum May 1, 1984, and "Supplemental River System", Colorado River Basin Salinity Control Forum July 1984.

Adopted or amended by State: Feb. 21, 1985.

Approved by EPA: (Not yet approved).

Resolution 85–4 re-affirming Sacramento-San Joaquin Delta standards for salinity control.

Adopted or amended by State: Jan. 17, 1985.

Approved by EPA: (Not yet approved).

Resolution 83–90 Resolution 83–90—Consideration of an amendment to the Water Quality Control Plan for the South Lahontan Basin to incorporate water quality objectives for the lower Mojave River Basin, and San Bernardino County.

Adopted or amended by State: Dec. 15, 1983.

Approved by EPA: May 30, 1984.

Colorado

State water quality standards for the surface waters of the State of Colorado are contained in the document entitled "Water Quality Standards and Stream Classification" and the Colorado River Basin Salinity Control Forum report entitled "Proposed Water Quality Standards for Salinity, Including Numeric Criteria and Plan of Implementation for Salinity Control, Colorado River System, June 1975", and "Supplement Including Modification to Proposed Water Quality Standards for Salinity Including Numeric Criteria and Plan of Implementation for Salinity Control, Colorado River System, June 1975".

Adopted or amended by State: Aug. 22, 1984.

Approved by EPA: (Not yet approved).

Connecticut

State water quality standards for the surface waters of the State of Connecticut are those adopted by the Connecticut Department of Environmental Protection which are contained in the document entitled "Water Quality Criteria".

Adopted or amended by State: Apr. 17, 1985.

Approved by EPA: Apr. 25, 1985.

Florida

State water quality standards for the surface waters of the State of Florida are those contained in Chapter 17–3, "Water Quality Standards", and Chapter 17–4, "Permits", of the Florida Administrative Code.

Adopted or amended by State: Feb. 17, 1984.

Approved by EPA: Mar. 16, 1984, Mar. 18, 1985.

Georgia

State water quality standards for the surface waters of the State of Georgia are those contained in the document entitled "Water-Use Classifications, Trout Stream Designations and Water Quality Standards for the Surface Waters of the State of Georgia".

Adopted or amended by State: Feb. 27, 1985.

Approved by EPA: (Not yet approved).

Territory of Guam

State water quality standards for the surface waters of the Territory of Guam are those contained in the document entitled "Water Quality Standards for the Territory of Guam, 1984".

Adopted or amended by State: Feb. 24, 1984.

Approved by EPA: July 24, 1984.

Idaho

State water quality standards for the surface waters of the State of Idaho are contained in the document entitled "Water Quality Standards and Wastewater Treatment Requirements" as amended.

Adopted or approved by State: Dec. 5, 1984.

Approved by EPA: Mar. 4, 1985.

Indiana

State water quality standards for the surface waters of the State of Indiana are those which are contained in the documents recodified as:

(1) "330 1AC 1–1 Water Quality Standards for waters of Indiana", effective August 21, 1973;

(2) "330 1AC 2–1, Water Quality Standards for Lake Michigan and Contiguous Harbor Areas", effective February 11, 1972;

(3) "330 1AC 2–2, Water Quality Standards for the Grand Calumet River and the Indiana Harbor Ship Canal", effective August 21, 1973;

(4) "330 1AC 2–3, Water Quality Standards for Wolf Lake", effective August 21, 1973;

(5) "330 1AC 2–4, Water Quality Standards for Natural Spawning Areas, Rearing or Imprinting Areas and Migration Routes of Salamoid Fishes", effective February 11, 1972.

Adopted or approved by State: Mar. 2, 1984.

Adopted or approved by State: Mar. 2, 1984. Approved by EPA; Nov. 1, 1984.

Kansas

State water quality standards for the surface waters of the State of Kansas are those regulations contained in the document entitled "Kansas Administrative Regulations, 28–16–28, Water Quality Criteria for Interstate and Intrastate Waters of Kansas" and "Emergency Regulation 28–16–28(a) Water Quality Criteria for Interstate and Intrastate Waters of Kansas". State adoption and Federal approval dates are:

Adopted or amended by State: Dec. 2, 1982.

Approved by EPA: Sept. 6, 1984.

Kentucky

State water quality standards [illegible] Water Resources Commission, Part 4, Water Quality Standards" amended, and 1984 Review, Water Quality Standards for Salinity, Colorado

"Ohio Water Quality Standards, Ohio regulations 3745–1 through 3745–1–14."

Dakota are contained in the document entitled "South Dakota Surface Waters

"Regulations Governing Water Classification and Control of Quality;"

Kentucky

State water quality standards for the surface waters of the Commonwealth of Kentucky are contained in the documents entitled:

(1) 401KAR 5:026—Classification of waters.

(2) 401KAR 5:029—General Provisions.

(3) 401KAR 5:031—Surface waters standards.

Adopted or amended by State: Nov. 13, 1984.

Approved by EPA: Dec. 19, 1984.

Louisiana

State water quality standards for the surface waters of the State of Louisiana are contained in the document entitled "State of Louisiana Water Quality Criteria, Louisiana Stream Control Commission, 1973".

Adopted or amended by State: Nov. 13, 1984.

Approved by EPA: Jan. 11, 1985.

Maine

State water quality standards for the surface waters of the State of Maine are contained in the documents entitled:

(1) "Revised statutes of 1964, Title 38, Sections 363–364, 368–369, and 370–371, as amended; and

(2) "Department of Environmental Protection, Bureau of Water Quality Control, Regulations, 480.1–480.9".

Adopted or amended by State: Dec. 27, 1984.

Approved by EPA: Feb. 20, 1985.

Maryland

State water quality standards for the surface waters of the State of Maryland are contained in the document entitled "Maryland Receiving Water Quality Standards, Maryland Water Pollution Control Regulations 08.05.04.01, 08.05.04.02m, 08.05.04.03, 08.05.04.09, and 08.05.04.11".

Adopted or amended by State: Dec. 3, 1984.

Approved by EPA: May 12, 1985.

Massachusetts

State water quality standards for the surface waters of the Commonwealth of the State of Massachusetts are contained in the document entitled "Massachusetts Water Quality Standards".

Adopted or amended by State: Dec. 20, 1984.

Approved by EPA: Jan. 28, 1985.

Michigan

State water quality standards for the navigable waters of the State of Michigan are contained in the document entitled "General Rules of the Michigan Water Resources Commission, Part 4, Water Quality Standards".

R323.1041, R323.1043, R323.1044, R323.1050, R323.1051, R323.1053, R323.1055, R323.1057, R323.1058, R323.1060, R323.1062, R323.1064, R323.1065, R323.1069, R323.1070, R323.1072, R323.1073, R323.1074, R323.1075, R323.1080, R323.1082, R323.1090, R323.1091, R323.1092, R323.1096, R323.1097, R323.1098, R323.1100, R323.1105, R323.1110, R323.1115, R323.1116, together with Appendices A and B.

Adopted or amended by State: Jan 18, 1985.

Approved by EPA: Mar. 14, 1985.

Minnesota

State water quality standards for the surface waters of the State of Minnesota are contained in the documents entitled "Minnesota Water Quality Standards—6MCAR 4.8014, 8015, 8024, 8025; Recodified and amended through June 29, 1981.

Adopted or amended by State: Aug. 28, 1984.

Approved by EPA: Mar. 1985.

Mississippi

State water quality standards for the surface waters of the State of Mississippi are those contained in the document entitled "State of Mississippi Water Quality Criteria for Intrastate, Interstate and Coastal Waters".

Adopted or amended by State: Apr. 10, 1984.

Approved by EPA: May 18, 1984.

Missouri

State water quality standards for the surface waters of the State of Missouri are contained in MSCR, Title 10, Clean Water Commission Chapter 7—Water Quality. State adoption and Federal approval dates are:

Adopted or amended by State: Dec. 13, 1984.

Approved by EPA: Jan. 17, 1985.

Montana

State water quality standards for the surface waters of Montana are contained in the document entitled "Montana Surface Water Quality Standards".

Adopted or amended by State: Nov. 16, 1984.

Approved by EPA: Mar. 20, 1985.

Nevada

State water quality standards for the waters of the State of Nevada are contained in the document entitled "Water Pollution Control Regulations, Commission of Environmental Protection", November 14, 1972, as amended, and 1984 Review, Water Quality Standards for Salinity, Colorado River System," Colorado River Report on the 1984 Review, Water Quality Standards for Salinity, Colorado River System," Colorado River Basin Salinity Control Forum, July 1984.

Adopted or amended by State: June 29, 1984.

Approved by EPA: Mar. 8, 1985.

New Hampshire

State water quality standards for the waters of the State of New Hampshire are contained in the document entitled "New Hampshire Water Quality Standards".

Adopted or amended by State: May 15, 1984.

Approved by EPA: Dec. 19, 1984.

New Mexico

State water quality standards for the surface waters of the State of New Mexico are contained in the documents entitled "New Mexico Water Quality Standards, August 1973", as amended. Water Quality Standards for Intrastate and Interstate Streams in New Mexico adopted February 8, 1977 and the Colorado River Basin Salinity Control Forum report entitled "Proposed Water Quality Standards for Salinity Control Colorado River System, June 1975", and "Supplement Including Numeric Criteria and Plan of Implementation for Salinity Control, Colorado River System, June 1975", dated August 28, 1975.

Adopted or amended by State: Jan. 8, 1985.

Approved by EPA: Mar. 28, 1985.

North Carolina

State water quality standards for the surface waters of the State of North Carolina are contained in the documents entitled "Classifications and Water Quality Standards Applicable to the Surface Waters of North Carolina".

Adopted or amended by State: Apr. 12, 1984.

Approved by EPA: Sept. 17, 1984.

North Dakota

State water quality standards for the surface waters of the State of North Dakota are contained in the document entitled "Standards of Surface Water Quality, State of North Dakota" (R.61–28–05.2, X through VIII).

Adopted or amended by State: Jan. 16, 1985.

Approved by EPA: (Not yet approved).

Ohio

State water quality standards for the surface waters of the State of Ohio are contained in the document entitled, "Ohio Water Quality Standards, Ohio regulations 3745–1 through 3745–1–14."

Adopted or amended by State: Jan. 4, 1985.

Approved by EPA: (Not yet aproved).

Pennsylvania

State water quality standards for the surface water of the State of Pennsylvania are contained in the documents entitled:

(1) "Title 25, Part I, Subpart C, Article II, Chapter 93—Water Quality Criteria, and

(2) Title 25, Part I, Subpart C, Article II, Chapter 95—Water paragraph 95.1".

Adopted or amended by State: Dec. 18, 1984.

Approved by EPA: May 14, 1985.

Commonwealth of Puerto Rico

State water quality standards for the surface waters of the Commonwealth of Puerto Rico are contained in the documents entitled:

(1) "Water Quality Standards Regulations, December 1973," Commonwealth of Puerto Rico, Office of the Governor, Environmental Quality Board, January 4, 1974, as amended on May 1, 1974; and

(2) "Amendments to Certain Sections of WQS Regulation", October 1976, amended version "Commonwealth of Puerto Rico, Office of the Governor. Environmental Quality Board, November 12, 1976".

Adopted or amended by State: Mar. 2, 1983.

Approved by EPA: March 1984.

Rhode Island

State water quality standards for the surface waters for the State of Rhode Island are contained in the documents entitled "Rhode Island Water Quality Regulations for Water Pollution Control".

Adopted or amended by State: Dec. 20, 1984.

Approved by EPA: Jan. 31, 1985.

South Carolina

State water quality standards for the surface waters of the State of South Carolina are contained in the documents entitled "Water Classification—Standards System for the State of South Carolina".

Adopted or amended by State: July 27, 1984.

Approved by EPA: Sept. 28, 1984.

Adopted or amended by State: Dec. 20, 1984.

Approved by EPA: Feb. 27, 1985.

South Dakota

State water quality standards for the surface waters of the State of South Dakota are contained in the document entitled, "South Dakota Surface Water Quality Standards Regulations".

Adopted or approved by State: Apr. 26, 1984.

Approved by EPA: (Not yet approved).

Tennessee

State water quality standards for the surface waters of the State of Tennessee are those contained in Chapters 1200–4–3, "General Water Quality Criteria and 1200–4–4, "Stream Use Classifications for Interstate and Intrastate Streams", of the document entitled, "Rules of Tennessee Department of Health and Environment, Bureau of Environment, Division of Water Management".

Adopted or amended by State: Oct. 22, 1982.

Approved by EPA: Feb. 3, 1984.

Texas

State water quality standards for the surface waters of the State of Texas are contained in the document entitled "Texas Water Quality Standards, February 1976".

Adopted or amended by State: Dec. 28, 1984.

Approved by EPA: Feb. 28, 1985.

Utah

State water quality standards for the surface waters of the State of Utah are contained in the document entitled "Code of Waste Disposal Regulations, Part II Standards of Quality for Waters of the State", and the Colorado River Basin Salinity Control Forum report entitled "Proposed Water Quality Standards for Salinity, Including Numeric Criteria and Plan of Implementation for Salinity Control, Colorado River System, June 1975", and Supplement Including Modification to Proposed Water Quality Standards for Salinity Including Numeric Criteria and Plan of Implementation for Salinity Control, Colorado River System, June 1975", dated August 25, 1975.

Adopted or amended by State: Nov. 14, 1984.

Approved by EPA: (Not yet approved).

Virginia

State water quality standards for the surface waters of the State of Virginia are contained in the document entitled "Commonwealth of Virginia Water Quality Standards".

Adopted or amended by State: Sept. 22, 1983, Oct. 28, 1984.

Approval by EPA: March 22, 1985.

Vermont

State water quality standards for the surface waters of the State of Vermont are contained in the document entitled "Regulations Governing Water Classification and Control of Quality".

Adopted or amended by State: Jan. 17, 1985.

Approved by EPA: Feb. 19, 1985.

Washington

State water quality standards for the surface waters of the State of Washington are contained in the document entitled "State of Washington Department of Ecology, Water Quality Standards, June 19, 1973".

Adopted or amended by State: May 25, 1982.

Approved by EPA: Oct. 26, 1984.

Wyoming

State water quality standards for the surface waters of the State of Wyoming are contained in the documents entitled "Water Quality Standards, Stream Classification in Wyoming" and the Colorado River Basin Salinity Control Forum report entitled "Proposed Water Quality Standards for Salinity, Including Numeric Criteria and Plan of Implementation for Salinity Control, Colorado River System, June 1975", and "Supplement Including Modification to Proposed Water Quality Standards for Salinity Including Numeric Criteria and Plan of Implementation for Salinity Control, Colorado River System, June 1975", dated August 25, 1975.

Adopted or amended by State: Dec. 14, 1984.

Approved by EPA: (Not yet approved).

BILLING CODE 6560–50–M

[OPTS–42068; TSH–FRL 2849–1]

Carbofuran Intermediates; Response to the Interagency Testing Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice is EPA's response to the Interagency Testing Committee's (ITC) recommendation of methally-2-nitrophenyl ether (CAS No. 13414–54–5), 7-nitro-2,2-dimethyl-2,3-dihydrobenzofuran (CAS No. 13414–55–6), and 7-amino-2,2-dimethyl-2,3-dihydrobenzofuran (CAS No. 68298–46–4), collectively known as the carbofuran intermediates (CIs), for priority consideration for chemical fate and environmental effects testing. EPA is not initiating rulemaking at this time under section 4(a) of the Toxic Substances Control Act (TSCA) to require any testing of the CIs because EPA does not believe that there is a basis to find that these substances may present an

unreasonable risk of injury to the environment nor that there is or may be substantial environmental release.

that is likely to contain the CIs is either incinerated or placed in a Resource

unreasonable risk of injury to the environment nor that there is or may be substantial environmental release.

FOR FURTHER INFORMATION CONTACT: Edward A. Klein, Director, TSCA Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. E-543, 401 M St., SW., Washington, DC 20460. Toll Free: (800-424-9065). In Washington, DC (554-1404). Outside the U.S.A.: (Operator-202-554-1404).

SUPPLEMENTARY INFORMATION: EPA is not initiating rulemaking at this time under section 4(a) of TSCA to require chemical fate or environmental effects testing of the CIs as recommended by the ITC in its Eleventh Report.

I. Background

Section 4(e) of the TSCA (Pub. L. 94-469, 90 Stat. 2010 *et seq.*; 15 U.S.C. 2603 *et seq.*) established the ITC to recommend to EPA a list of chemicals to receive priority consideration for testing under section 4(a) of TSCA.

The ITC recommended, but did not designate for response within 12 months, methallyl-2-nitrophenyl ether (MNE, CAS No. 13414-54-5), 7-nitro-2,2-dimethyl-2,3-dihydrobenzofuran (NDD, CAS No. 13414-55-6) and 7-amino-2,2-dimethyl-2,3-dihydrobenzofuran (ADD, CAS No. 68248-48-4), collectively known as the carbofuran intermediates (CIs), for priority testing consideration in its Eleventh Report, published in the **Federal Register** of December 3, 1982 (47 FR 54626). This notice constitutes EPA's response to the ITC's recommendation of the CIs.

The ITC recommended chemical fate testing for the CIs with emphasis on environmental monitoring. The ITC's rationale for chemical fate testing was that there was insufficient information to characterize the nature of dispersion, concentration, and persistence of CIs in the environment.

The ITC also recommended environmental effects tests for the CIs including acute toxicity to fish and aquatic invertebrates. The ITC's rationale for environmental effects testing was that concentrations of CIs in wastewater effluent released to the aquatic environment were believed to approach the concentrations of CIs reported to cause acute effects in goldfish and possibly exceed levels for more sensitive species.

Under section 4(a)(1) of TSCA, the Administrator shall, by rule, require testing of a chemical substance to develop appropriate test data if the Agency finds that:

(A)(i) the manufacture, distribution in commerce, processing, use, or disposal of a chemical substance or mixture, or that any combination of such activities, may present an unreasonable risk of injury to health or the environment.

(ii) there are insufficient data and experience upon which the effects of such manufacture, distribution in commerce, processing, use, or disposal of such substance or mixture or of any combination of such activities on health or the environment can reasonably be determined or predicted, and

(iii) testing of such substance or mixture with respect to such effects is necessary to develop such data; or

(B)(i) a chemical substance or mixture is or will be produced in substantial quantities, and (I) it enters or may reasonably be anticipated to enter the environment in substantial quantities or (II) there is or may be significant or substantial human exposure to such substance or mixture,

(ii) there are insufficient data and experience upon which the effects of the manufacture, distribution in commerce, processing, use, or disposal of such substance or mixture or of any combination of such activities on health or the environment can reasonably be determined or predicted, and

(iii) testing of such substance or mixture with respect to such effects is necessary to develop such data.

EPA uses a weight-of-evidence approach in which both exposure and toxicity information are considered in making a section 4(a)(1)(A)(i) finding that the chemical may present an unreasonable risk. For the section 4(a)(1)(B)(i) finding, EPA considers only production, exposure, and release information to determine whether there is substantial production, and signficant or substantial exposure, or substantial release. Thus, EPA can require testing for an effect under section 4(a)(1)(A) only if there is a suspicion of a hazard. Under 4(a)(1)(B), EPA can require testing whether or not there are data suggesting adverse effects if the relevant production and exposure or release criteria are met.

For the findings under both section 4(a)(1)(A)(ii) and 4(a)(1)(B)(ii), EPA examines toxicity and fate studies to determine whether existing information is adequate to reasonably determine or predict the effects of human exposure to, or environmental release of, the chemical. In making the third finding, that testing is necessary, EPA considers whether ongoing testing will satisfy the information needs for the chemical and whether testing that the Agency might require would be capable of developing the necessary information. EPA's process for determining when these findings can be made is described in detail in EPA's first and second proposed test rules as published in the **Federal Register** of July 18, 1980 (45 FR 48510) and June 5, 1981 (46 FR 30300). The section 4(a)(1)(A) finding is discussed in 45 FR 48528, and the section 4(a)(1)(B) finding is discussed in 46 FR 30302.

In evaluating the ITC's testing recommendations for the CIs, EPA considered all available relevant information including the following: information presented in the ITC's report recommending testing consideration; production volume, use, exposure, and release information reported by the manufacturer of CIs under the TSCA section 8(a) Preliminary Assessment Information Rule (40 CFR Part 712—Chemical Information Rules, Subpart B—Manufacturers Reporting—Preliminary Assessment Information); and published and unpublished data available to the Agency.

II. Review of Available Data

A. Environmental Release

The carbofuran intermediates are produced solely by FMC Coroporation in Baltimore, Maryland. Production was about 10 to 50 million pounds for each CI in 1977 (Ref. 1). The manufacturer has submitted to EPA production volumes for 1982 as confidential business information (Ref. 2).

FMC reports that the CIs are used consumptively as intermediates in closed systems during the production of the insecticide-nematicide carbofuran (Ref. 3). The manufacturer pretreats the effluent through a carbon bed adsorption system and a settling basin with pH adjustments. Since January, 1984, the manufacturer's pretreated effluent has been further treated by a local publicly owned treatment works (POTW). Approximately 10 to 20 thousand pounds of each of the CIs is expected to enter the POTW in 1985 (Ref. 4).

EPA has calculated worst-case predicted environmental concentrations (PECs) for the CIs in the discharge environment of 1.75 parts per billion (ppb) for MNE, 1.97 ppb for NDD and 0.85 ppb for ADD. These figures were derived from recent release data supplied to EPA by the manufacturer. Because we have no data on the fate of the CIs in the POTW or the environment, calculation of the PECs was based on the assumption that none of the CIs are removed during treatment by the POTW or from the discharge environment by physical or biological processes (Refs. 4 and 5). In addition, the dilution estimate for the discharge environment was conservatively based on an average 7 day per 10-year, low flow rate (7Q10) and included tidal flushing for the receiving brackish water. Sludge waste from the POTW that is likely to contain the CIs is either incinerated or placed in a Resource Conservation and Recovery Act (RCRA)-regulated landfill where the CIs are expected to biodegrade (Ref. 6).

B. Chemical Fate

1. *Water solubility and octanol/water partition coefficient.* EPA has calculated water solubilities of 1,100 mg/L for MNE, 120 mg/L for NDD, and 2,300 for ADD and logs of the octanol/water partition coefficient (log P) of 2.75 for MNE, 3.33 for NDD, and 2.36 for ADD (Ref. 5). These calculated properties indicate that under equilibrium conditions the CIs will remain mainly in the water compartment.

2. *Soil mobility.* The adsorption properties of the CIs have not been reported in the available literature. However, using equations developed by Kenaga (Ref. 7) and Kenaga and Goring (Ref. 8), values for the adsorption coefficients (K_{oc}) have been estimated from the calulated lop P values (Ref. 5). These estimated adsorption coefficients of 746 for MNE, 1,540 for NDD and 458 for ADD indicate that the CIs will adsorb moderately to organic matter in soil and sediment and therefore can be considered moderately mobile. There are experimental data to indicate that aromatic amines chemically bind to soil organics (Refs. 9 and 10). Because ADD is an aromatic amine, it may bind chemically to organics in soil and therefore be less mobile than the other two CIs.

3. *Persistence.* EPA is not aware of any information on the environmental persistence of the CIs in the available literature. However, data on a compound structurally related to the CIs indicate that the CIs are likely to biodegrade in soil (Ref. 11).

Environmental Effects

1. *Acute toxicity.* The manufacturer reported measured 96hr LC_{50} values for goldfish of 6.5 ppm for MNE, 30 ppm for NDD and 56 to 140 ppm for ADD (Ref. 12).

2. *Other toxicity data.* EPA knows of no data on the chronic effects of CIs on fish, or on the acute or chronic effects of CIs on aquatic and benthic invertebrates.

III. Decision Not To Initiate Rulemaking

EPA has decided not to initiate rulemaking at this time to require chemical fate or environmental effects testing of the CIs. The ITC recommended environmental effects testing because concentrations of CIs in wastewater affluent released to the aquatic environment were believed to approach the concentrations of CIs reported to cause acute effects in goldfish and possibly exceed effected levels for more sensitive species. The ITC recommended chemical fate testing because there was insufficient information to characterize the nature of dispersion, concentration and persistence of CIs in the environment.

EPA has estimated the environmental risk posed by the CIs by comparing goldfish LC_{50}s (Unit II.C) to the PECs (Unit II.A). In general, if the LC_{50} for a chemical exceeds its envorinmental concentration by three orders of magnitude the Agency considers the substance to be of low concern. The factor of three orders of magnitude between the LC_{50}s and PEC takes into account interspecies, acute-to-chronic, field-to-lab, and lab-to-lab variability. Since the LC_{50}s for the CIs exceed the PECs for the CIs by three orders of magnitude, EPA finds no indication of potential unreasonable risk. Furthermore, EPA believes that factors used in calculating the predicted environmental concentrations, such as assuming a 7Q10 low flow rate for dilution and that no biodegradation or adsorption occurs to remove CIs in the POTW or environment, are very conservative and provide an additional margin of confidence that the CIs present no unreasonable risk to the environment.

In summary, the ITC recommended chemical fate and environmental effects testing of the CIs because they believed the environmental exposure exceeded effects levels in goldfish and possibly more sensitive species. However, EPA concludes from available data that information in Unit II.A through C of this notice does not support a TSCA section 4(a)(1)(A) finding that the CIs may present an unreasonable risk of injury to fish and invertebrates in the environment. EPA also concludes on the basis of information presented in Unit II.A of this notice, some of which was not available to the ITC, that there is not sufficient environmental release to support TSCA section 4(a)(1)(B) findings for chemical fate and environmental effects testing of CIs. Therefore, the Agency is not requiring testing for the CIs at this time.

IV. Public Record

EPA has established a public record for this decision not to test under Section 4 of TSCA (docket number OPTS-42068). The record includes the following information:

A. Supporting Documentation

(1) **Federal Register** notice containing the ITC Report recommending methallyl-2-nitrophenyl ether, 7-nitro-2, 2-dimethyl-2,3-dihydrobenzofuran, and 7-amino-2, 2-dimethyl-2, 3-dihydrobenzofuran to the priority list.

(2) Communications consisting of:

(a) Written public and intra-agency or interagency memoranda and comments.

(b) Summaries of telephone conversations.

(c) Summaries of meetings.

(3) Reports—published and unpublished factual materials, including contractors' reports.

[AMS-FRL 2868-2]

Motor Vehicle Fuel Economy Retrofit Devices; Announcement of Fuel Economy Retrofit Device Evaluation for the Autotherm Energy Conservation System

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Fuel Economy Retrofit Device Evaluation.

SUMMARY: This document announces the completion of the EPA evaluation of the "AUTOTHERM Energy Conservation System" under provisions of Section 511 of the Motor Vehicle Information and Cost Savings Act. The notice also announces our findings, conclusions, and the availability of the report.

SUPPLEMENTARY INFORMATION:

I. Background

Section 511(b)(1) and section 511(c) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2011(b)) requires that:

(b)(1) "Upon application of any manufacturer of a retrofit device (or prototype thereof), upon the request of the Federal Trade Commission pursuant to subsection (a), or upon his own motion, the EPA Administrator shall evaluate, in accordance with rules prescribed under subsection (d), any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations (if any) made with respect to such retrofit devices are accurate."

(c) "The EPA Administrator shall publish in the **Federal Register** a summary of the results of all tests conducted under this section, together with the EPA Administrator's conclusions as to—

(1) The effect of any retrofit device on fuel economy;

(2) The effect of any such device on emissions of air pollutants; and

(3) Any other information which the Administrator determines to be relevant in evaluating such device."

EPA published final regulations establishing procedures for conducting evaluations of fuel economy retrofit devices on March 23, 1979 [44 FR 17946].

II. Origin of Request for Evaluation, Device Descriptions and Report Identification

On May 21, 1984, the EPA received a request from AUTOTHERM Sales Corporation for evaluation of the AUTOTHERM Energy Conservation System as a fuel saving device. The device allows using the vehicle's heater to utilize the residual heat in the engine, and electrical circuitry to control the operation of the device.

Report: "EPA evaluation of the Autotherm Energy Conservation System Under Section 511 of the Motor Vehicle Information and Cost Savings Act". Report Number EPA-AA-TEB-511-85-1 contains the analysis and conclusions and consists of 85 pages including all attachments.

III. Availability of Evaluation Reports

Copies of these reports may be obtained from the National Technical Information Service by using the above report numbers. Address requests to: National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161, Telephone: (703) 487-4650 or FTS 737-4650.

IV. Summary of Evaluation

EPA fully considered all of the information submitted by the device manufacturer in the Application. The evaluation of the AUTOTHERM Energy Conservation System was based on that information, tests conducted by the Air Force, and our engineering judgement.

The overall conclusion is that Autotherm Energy Conservation System, when used, has the potential to conserve fuel and lower exhaust emissions. In most cases, fuel savings should fall between 0.15 and 1.0 gallons of fuel per hour of device use. Engine size and efficiency are the primary determinants of the actual gallons saved per hour of device usage.

FOR FURTHER INFORMATION CONTACT: Merrill W. Korth, Emission Control Technology Division, Office of Mobile Sources, Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, Michigan 48105, Telephone: (313) 668-4299.

Dated: July 15, 1985.

Charles L. Elkins,

Acting Assistant Administrator for Air and Radiation.

BILLING CODE 6560-50-M

FEDERAL ELECTION COMMISSION

Clearinghouse on Election Administration Clearinghouse Advisory Panel; Meeting

In accordance with the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I) and Office of Management and Budget Circular A-63, as revised, the Federal Election Commission announces the following Advisory Panel meeting:

Name: Federal Election Commission Clearinghouse, Advisory Panel.

Date: 5-6 August 1985.

Place: Washington Plaza-Hotel, Massachusetts and Vermont Aves., NW., Washington, DC.

Time: 0900-1200; 1400-1700 on 5 August 1985, 0900-1200; 1400-1700 on 6 August 1985.

Proposed Agenda: Discussion sessions addressing Clearinghouse research projects, including the Voting Systems Standards Project, the Voting Accessibility for the Elderly and Handicapped Act, the FEC Remote Access project; FEC campaign finance workshops, and the proposed use of Post Office Change of Address forms for voter registration purposes.

Purpose of the Meeting: The Panel will discuss the agenda items, present their views on problems in the administration of Federal elections, and formulate recommendations to the Federal Election Commission Clearinghouse for its future program development.

The Advisory Panel meeting is open to the public, dependent on available space. Any member of the public may file a written statement with the Panel before, during, or after the meeting. To the extent that time permits, the Panel Chairman may allow public presentation or oral statements at the meeting.

All communications regarding this Advisory Panel should be addressed to Penelope Bonsall, Clearinghouse on Election Administration, Federal Election Commission, 1325 K St., NW Washington, DC 20463.

Dated: July 18, 1985.

John Warren McGarry,

Chairman, Federal Election Commission.

[FR Doc. 85-17465 Filed 7-19-85; 8:45 am]

BILLING CODE 6715-01-M

FEDERAL RESERVE SYSTEM

Federal Open Market Committee; Domestic Policy Directive of May 21, 1985

In accordance with § 217.5 of its rules regarding availability of information, there is set forth below the Committee's Policy Directive issued at its meeting held on March 26, 1985.[1]

The following domestic policy directive was issued to the Federal Reserve Bank of New York:

The information reviewed at this meeting suggests only a modest pickup in real GNP in the current quarter from the reduced rate of growth in the first quarter. Total retail sales rose in April to a level somewhat above the average for the first quarter, and housing starts increased further after rising substantially in the first quarter. Information on business capital spending suggests further growth, though at a much less rapid pace than earlier in the economic expansion. Industrial production declined slightly in April after rising little over the first quarter. Total nonfarm payroll employment increased at a somewhat reduced pace in April with employment in manufacturing registering another decline. The civilian unemployment rate remained at 7.3 percent in April. Broad measures of prices and wages appear to be rising at rates close to those recorded in 1984.

Since the Committee's meeting in late March, the trade-weighted value of the dollar against major foreign currencies has continued to fluctuate widely in often volatile market conditions and has declined moderately on balance. The trade and current account deficits widened in the first quarter as a rebound in non-oil imports from their low fourth-quarter level extended the pattern of sharp quarter-to-quarter swings experienced since the beginning of 1984.

Growth in M1 slowed markedly in March from the rapid pace of earlier months and remained moderate in April. The broader aggregates showed little change in April after their growth had slowed appreciably in March. Expansion in total domestic nonfinancial debt has remained relatively rapid. Interest rates have declined considerably since the March meeting of the Committee. On May 17, the Federal Reserve Board approved a reduction in the discount rate from 8 to 7½ percent.

The Federal Open Market Committee seeks to foster monetary and financial conditions that will help to reduce inflation further, promote growth in output on a sustainable basis, and contribute to an improved pattern of international transactions. In furtherance of these objectives the Committee agreed at its meeting in February to establish ranges for monetary growth of 4 to 7 percent for M1, 6 to 9 percent for M2, and 6 to 9½ percent for M3 for the period from the fourth quarter of 1984 to the fourth quarter of 1985. The associated range for total domestic nonfinancial debt was set at 9 to 12 percent for the year 1985. The Committee agreed that growth in the monetary aggregates in the upper part of their ranges for 1985 may be appropriate, depending on developments with respect to velocity and provided that inflationary pressures remain subdued.

The Committee understood that policy implementation would require continuing appraisal of the relationships not only among the various measures of money and credit but also between those aggregates and nominal GNP, including evaluation of conditions in domestic credit and foreign exchange markets.

In the implementation of policy for the immediate future, and against the background of the recent reduction in the discount rate, the Committee seeks to maintain about the same degree of pressure on bank reserve positions. This action is expected to be consistent with growth in M1 at an annual rate of around 6 percent or a little higher during the period from March to June, while M2 and M3, in the light of their weakness in April, are expected to grow more slowly over the quarter than the 7 and 8 percent annual rates, respectively, anticipated earlier. Somewhat lesser reserve restraint would be acceptable in the event of substantially slower growth of the monetary aggregates while somewhat greater restraint might be acceptable in the event of substantially higher growth. In either case such a change would be considered in the context of appraisals of the strength of the business expansion, progress against inflation, and conditions in domestic credit and foreign exchange markets. The Chairman may call for Committee consultation if it appears to the Manager for Domestic Operations that pursuit of the monetary objectives and related reserve paths during the period before the next meeting is likely to be associated with a federal funds rate persistently outside a range of 5 to 10 percent.

By order of the Federal Open Market Committee, July 16, 1985.

Stephen H. Axilrod,

Secretary.

[FR Doc. 85-17284 Filed 7-19-85 8:45 am]

BILLING CODE 6210-01-M

[1] The Record of policy actions of the Committee for the meeting of May 21, 1985, is filed as part of the original document. Copies are available upon request to The Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

Schuyler Bancorporation; Formation of; Acquisition by; or Merger of Bank Holding Companies

The company listed in this notice has applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.24) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that application or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Comments regarding this application must be received not later than August 12, 1985.

A. Federal Reserve Bank of Kansas City (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *Schulyer Bancorporation*, Schulyer, Nebraska; to become a bank holding company by acquiring 100 percent of the voting shares of Schulyer State Bank and Trust Co., Schulyer, Nebraska.

Board of Governors of the Federal Reserve System, July 16, 1985.

James McAfee,

Associate Secretary of the Board.

Health Care Financing Administration

Privacy Act of 1974; Report of New System

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of New System of Records.

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, we are proposing to establish a new system of records, Evaluation of the Social/Health Maintenance Organization (S/HMO) Demonstration, HHS/HCFA/ORD No. 09–70–0034. We have provided background information about the proposed system in the "Supplementary Information" section below. HCFA invites public comments by August 21, 1985, with respect to routine uses of the system.

DATES: HCFA filed a new system report with the Speaker of the House, the President of the Senate, and the Director, Office of Management and Budget (OMB) on July 17, 1985. The new system of records, including routine uses, will become effective September 16, 1985, unless HCFA receives comments which would convince us to make a contrary determination.

ADDRESS: The public should address comments to Richard A. DeMeo, Privacy Act Officer, Office of Management and Budget, Health Care Financing Administration, Room G–A–1, East Low Rise Building, 6325 Security Boulevard, Baltimore, Maryland 21207. Comments received will be available for inspection at this location.

FOR FURTHER INFORMATION CONTACT: Alan S. Friedlob, Division of Long-Term Care Experimentation, Office of Research and Demonstrations, Health Care Financing Administration, Room 2–F–3 Oak Meadows Building, 6325 Security Boulevard, Baltimore, Maryland 21207, Telephone 301–597–2364.

SUPPLEMENTARY INFORMATION: HCFA proposes to initiate a new system of records collecting data under the authority of section 402 of the 1967 Amendments to the Social Security Act, Pub. L. 90–248 as amended by section 222(b) of the Amendments to the Social Security Act, Pub. L. 92–603. The purpose of this system of records is to provide data necessary to evaluate HCFA's S/HMO demonstration projects. The S/HMO demonstration and evaluation have been Congressionally mandated by Pub. L. 98–369, "The Deficit Reduction Act of 1984". The S/HMO seeks to enroll voluntarily persons 65 years of age and over in an innovative prepaid program that integrates medical, social, and long-term care delivery systems. The S/HMO merges the health maintenance organization concepts of capitation financing and provider risk-sharing developed by HCFA under its Medicare capitation and competition demonstrations with the case-management and support services concepts underlying Department of Health and Human Services' sponsored long-term care demonstrations serving the chronically ill aged.

The system of records will include demongraphic, health status, long-term care services use, and satisfaction data collected through sample surveys of Medicare beneficaries who join the S/HMOs participating in the demonstration and comparison group benefitciaries choosing not to enroll. Demonstration contractors included in the evaluation are: Kaiser-Portland, Portland, Oregon; Elderplan, Inc., Brooklyn, New York; Medicare Partners, Inc., Minneapolis Minnesota; and SCAN Health Plan, Long Beach, California.

This information will be collected by a contractor that HCFA shall choose on or about September 1, 1985.

In order to fulfill the objective and complete tasks in this project, the contractor must have individually-identified records. Since we are proposing to establish this system of records in accordance with the requirements and principles of the Privacy Act, we do not anticipate that it will have an unfavorable effect on the privacy or other personal rights of individuals.

The Privacy Act permits us to disclose information without the consent of the individual for "routine uses"—that is, disclosures for purposes that are compatible with the purpose for which we collected the information. The proposed routine uses in the new system meet the compatibility criteria since the information is collected for administering the Medicare program for which we are responsible. We anticipate that disclosures under the routine uses will not result in any unwarranted adverse effects on personal privacy.

Dated: July 16, 1985.

Carolyne K. Davis,

Administrator, Health Care Financing Administration.

09–70–0034

SYSTEM NAME:

Evaluation of Social/Health Maintenance Organization (S/HMO) Demonstrations.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

To be determined on or about September 1, 1985 by HCFA's selection of an evaluation contractor. Contact the systems manager for the location of the contractor.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Medicare beneficiaries residing in the following states and counties who join the social/health maintenance organization demonstrations and comparison group beneficiaries who choose not to enroll: *California:* Los Angeles, Orange; *Minnesota:* Hennepin, Ramsey; *New York:* Bronx, Kings, Queens; *Oregon:* Multnomah.

CATEGORIES OF RECORDS IN THE SYSTEM:

Demographic characteristics (e.g., income, education, source of medical care), factors related to choice of S/HMO, data on satisfaction with S/HMO, data related to use of community-based and institutional long-term care services and informal care-givers; health and functional status assessment data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 402 of the Social Security Amendments of 1967, Pub. L. 90–248, as amended by section 222(b) of the Social Security Amendments of 1972, Pub. L. 92–603, 42 U.S.C. 1395b–1.

PURPOSE(S):

To provide data necessary to evaluate HCFA's Social/Health Maintenance Organization demonstration projects, including information to study the impact of the S/HMO on Medicare beneficiaries' use of acute care and long-term care services; health status; choice of the S/HMO option; and satisfaction with the S/HMO alternative.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made:

1. To the evaluation contractor who will use this information to evaluate HCFA's S/HMO demonstration projects.

2. To a congressional office, from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. In the event of litigation, where the defendant is (a) the Department, any component of the department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines

that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected.

4. To an individual or organization for a research, evaluation, or epidemiological project related to the prevention of disease or disability, the restoration or maintenance of health, or the containment of costs in the Medicare and/or Medicaid programs if HCFA:

(a) Determines that the use or disclosure does not violate legal limitations under which the record was provided, collected, or obtained;

(b) Determines that the purpose for which the disclosure is to be made:

(1) Cannot be reasonably accomplished unless the record is provided in individually identifiable form,

(2) Is of sufficient importance to warrant the effect and/or risk on the privacy of the individual that additional exposure of the record might bring, and

(3) There is reasonable probability that the objective for the use will be accomplished;

c. Requires the information recipient to:

(1) Establish reasonable administrative, technical, and physical safeguards to prevent unauthorized use or disclosure of the record, and

(2) Remove or destroy the information that allows the individual to be identified at the earliest time at which removal or destruction can be accomplished consistent with the purpose of the project, unless the recipient presents an adequate justification of a research or health nature for retaining such information, and

(3) Make no further use or disclosure of the record except:

(a) In emergency circumstances affecting the health or safety of any individual,

(b) For use in another research project, under these some conditions, and with written authorization of HCFA,

(c) For disclosure to a properly identified person for the purpose of an audit related to the research project, if information that would enable research subjects to be identified is removed or destroyed at the earliest opportunity consistent with the purpose of the audit, or

(d) When required by law:

d. Secures a written statement attesting to the information recipient's understanding of and willingness to abide by these provisions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper and magnetic tape.

RETRIEVABILITY:

Information will be retrieved by beneficiary's name and health insurance claim number.

SAFEGUARDS:

The contractor will maintain all records in secure storage areas accessible only to authorized employees and will notify all employees having access to records of criminal sanctions for unauthorized disclosure of information on individuals. For computerized records, the contractor will initiate automated data processing (ADP) system security procedures required by DHHS *ADP Systems Manual,* Part 6, ADP Systems Security (e.g., use of passwords), and the National Bureau of Standards Federal Information Processing Standards.

RETENTION AND DISPOSAL:

Hardcopy data collection forms and magnetic tapes with identifiers will be retained in secure storage areas. The disposal technique of degaussing will be used to strip magnetic tape of all identifying names and numbers in December 1989. Hardcopy records will be destroyed at this time.

SYSTEM MANAGERS(S) AND ADDRESS:

Director, Office of Research and Demonstrations, Health Care Financing Administration, 2230 Oak Meadows Building, 6325 Security Boulevard, Baltimore, Maryland 21207.

NOTIFICATION PROCEDURE:

To determine if a record exists, write to the System Manager at the address indicated above, specify name, address, and health insurance number.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requestors should reasonably specify the record contents being sought.

CONTESTING RECORD PROCEDURES:

Contact the System Manager named above and reasonably identify the record and specify the information to be contested. State the reason for contesting it (e.g., why it is inaccurate, irrelevant, incomplete, or not current).

RECORD SOURCE CATEGORIES:

Sources of information contained in this records system include surveys to be conducted of Medicare beneficiaries and their informal care-givers by HCFA's evaluation contractor.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 4120–03–M

Public Health Service

Statement of Organization, Functions and Delegations of Authority; Health Resources and Services Administration

Part H, Chapter HB (Health Resources and Services Administration) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (47 FR 38409–24, August 31, 1982, as amended most recently at 50 FR 3415–16, January 24, 1985), is amended to reflect the abolishment of the Division of Beneficiary Medical Programs, Bureau of Health Care Delivery and Assistance, and a change in the title and functions of the Division of Federal Employee Occupational Health, Bureau of Health Care Delivery and Assistance.

Under *Section HB–10, Organization and Functions,* amend the statement for the Bureau of Health Care Delivery and Assistance as follows:

(1) Delete the *Division of Beneficiary Medical Programs (HBC2)* in its entirety.

(2) Delete the statement for the *Division of Federal Employee Occupational Health (HBC9)* and substitute the following: *Division of Federal Occupational and Beneficiary Health Services (HBC9).*

Division of Federal Occupational and Beneficiary Health Services (HBC9).—(1) Provides consultation on, and stimulates the development of improved occupational health and safety programs throughout the Government; (2) provides evaluation, support, and direction to Federal agency health services in relation to standards; (3) administers

BILLING CODE 4160-15-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[I-20704, I-21520, and I-21521]

Realty Action; Direct Sale of Public Land in Owyhee County, ID

SUMMARY: The following-described lands have been examined, and through the land use planning process, have been determined to be suitable for disposal by sale pursuant to section 203 of the Federal Land Policy and Management Act of 1976 at no less than fair market value:

Boise Meridian, Idaho

T. 1 N., R. 3 W. (I-20704)
Sec. 27, NE¼SE¼SW¼;
Sec. 28, E½SE¼.
Containing 90 acres.

T. 4 S., R. 1 E. (I-21520)
Sec. 28, S½NE¼NW¼.
Containing 20 acres.

T. 4 S., R. 1 E. (I-21521)
Sec. 28, W½SW¼NE¼.
Containing 20 acres.

The patents, when issued, will contain the following reservations to the United States:

1. Ditches and canals.

2. Oil and gas and geothermal resources.

The patents will be subject to all valid, existing rights and reservations of record. This includes:

1. Oil and gas lease I-14584 held by Amoco, P.O. Box 800, Denver, Colorado 80201, on I-20704. Access, exploration, and development rights shall be reserved for this lease.

2. Irrigation ditch right-of-way I-05177 held by James Agenbroad and Sons, Route 3, Nampa, Idaho 83651, across I-20704.

3. A 60-foot road right-of-way to Owyhee County across I-21520.

4. County road right-of-way I-20724 across I-21521.

The lands are hereby segregated from appropriation under the public land laws, including the mining laws, as provided by 43 CFR 2711.1-2(d).

The lands of I-20704 are being offered by direct sale to Elias Jaca, the existing user who has placed improvements on the land and is the adjoining landowner. The lands of I-21520 are being offered by direct sale to O.M. Cox, the existing user and adjoining landowner. The lands of I-21521 are being offered by direct sale to Shirley Cox, the existing user who has placed improvements on the land and is the adjoining landowner.

Each offer to purchase will include a $50.00 nonreturnable filing fee for processing the conveyance of mineral interests of no known value.

If no offers to purchse are received within 30 days after these tracts are offered, each tract will be offered for sale by competitive bid until November 26, 1985.

DATE AND ADDRESSES: The sale offerings will be held in the Boise District Office, 3948 Development Avenue, Boise, Idaho 83705, no less than 60 days following the date of this notice.

FOR FURTHER INFORMATION CONTACT: Detailed information concerning the sale terms and conditions and other details can be obtained by contacting Blackie Bruegman at the above address, or by calling (208) 334-1582.

SUPPLEMENTARY INFORMATION: For a period of 45 days from the date of this notice, interested parties my submit comments to the Boise District Manager at the above address.

Dated: July 5, 1985.

J. David Brunner,

Associate District Manager.

BILLING CODE 4310-FB-M

National Park Service

Intention to Extend Concession Contract; Bullfrog Resort & Marina, Inc.

Pursuant to the provisions of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that sixty (60) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to extend a concession contract with Bullfrog Resort & Marina, Incorporated, authorizing it to continue to provide accommodations, facilities, and services for the public at Glen Canyon National Recreation Area, Arizona, for a period of one (1) year from January 1, 1986, through December 31, 1986.

This contract extension has been determined to be categorically excluded from the procedural provisions of the National Environmental Policy Act and no environmental document will be prepared.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing contract which expires on December 31, 1985, and therefore, pursuant to the Act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract as defined in 36 CFR 51.5.

The Secretary will consider and evaluate all proposals received as a result of this notice. Any proposal, including that of the existing concessioner, must be postmarked or hand delivered on or before the sixtieth (60th) day following publication of this notice to be considered and evaluated.

Interested parties should contact the Regional Director, Rocky Mountain Region, Denver, Colorado, for information as to the requirements of the proposed contract.

Dated: June 24, 1985.

Jack W. Neckels,

Acting Regional Director, Rocky Mountain Region.

South Wellfleet, MA; Cape Cod National Seashore Advisory Commission; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770 (5 U.S.C. App. 1 section 10), that a meeting of the Cape Cod National Seashore Advisory Commission will be held Friday, August 9, 1985.

The Commission was established pursuant to Pub. L. 91-383 to meet and consult with the Secretary of the Interior on general policies and specific matters relating to the development of Cape Cod National Seashore.

The meeting will convene at Park Headquarters at 1:30 p.m. to discuss:

1. Status Report—Land Protection Plan.

2. Historic Preservation.

3. Herring River Environmental Studies.

The meeting is open to the public. It is expected that 15 persons will be able to attend the session in addition to the Commission members.

Interested persons may make oral/written presentations to the Commission or file written statements. Such requests should be made to the official listed below at least seven days prior to the meeting.

Further information concerning this meeting may be obtained from Herbert Olsen, Superintendent, Cape Cod National Seashore, South Wellfleet, MA 02663. Telephone: (617) 349-3785. Minutes of the meeting will be available for public information and copying two weeks after the meeting at the office of the Superintendent, Cape Cod National Seashore, South Wellfleet, Massachusetts.

Herbert Olsen,

Superintendent, Cape Cod National Seashore.

July 11, 1985.

BILLING CODE 4310-70-M

National Register of Historic Places; Proposed NHL Boundaries

The National Park Service has been working to establish boundaries for all National Historic Landmarks for which no specific boundary was identified at the time of designation and therefore are without a clear delineation of the amount of property involved. The results of such designation make it important that we define specific boundaries for each landmark.

In accordance with the National Historic Landmark program regulations 36 CFR Part 65, the National Park Service notifies owners, public officials and other interested parties and provides them with an opportunity to make comments on the proposed boundaries.

Comments on the proposed boundaries will be received for 60 days after the date of this notice. Please address replies to Jerry L. Rogers, Associate Director, Cultural Resources, and Keeper of the National Register of Historic Places, National Park Service, Washington, DC 20240, Attention: Chief of Registration (202) 343-9536. Copies of the documentation of the landmarks and their proposed boundaries, including maps may be obtained from that same office.

Carol D. Shull,

Chief of Registration, National Register of Historic Places, Interagency Resources Division.

Kamakahonu National Historic Landmark

Kailua-Kona, Hawaii County, Hawaii

American Factors, Ltd. owns the major portions of old Kamakahonu in two parcels (7-5-06: parcels 24 and 32). These parcels are 0.6 and 1.6 acres, respectively. Additionally, the State of Hawaii owns a narrow strip of beach—lands below the high tide mark. Amfac's parcel 24 (0.8 acre) contains the reconstructed 'Ahu'ena Heiau and hale nana mahina'ai and the foundations of the hale poki.

Parcel 24 (0.8 acre) contains the only visible remains of the former Kamakahonu settlement. All other structures referred to in this text have been destroyed in the course of modern commercial developments.

BILLING CODE 4310-70-M

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731-TA-208, 209, and 210 (Final)]

Barbed Wire and Barbless Wire Strand From Argentina, Brazil, and Poland

AGENCY: United States International Trade Commission.

ACTION: Termination of investigation No. 731-TA-210 (Final), Barbed Wire and Barbless Wire Strand from Poland and rescheduling of the hearing to be held in connection with investigations Nos. 731-TA-208 and 209 (Final), Barbed Wire and Barbless Wire Strand from Argentina and Brazil.

SUMMARY: On July 15, 1985, the Commission received a letter from petitioner in the subject investigations (Forbes Steel and Wire Corp.) which stated, with respect to the investigation on Poland, that it ". . . withdraws the above-described petition without prejudice" and that "the Commission is requested to terminate the investigation." Accordingly, pursuant to § 207.40(a) of the Commission's Rules of Practice and Procedure (19 CFR 207.40(a)), the following investigation is terminated:

Barbed Wire and Barbless Wire Strand from Poland (investigation No. 731-TA-210 (Final)).

The Commission further announces the rescheduling of the hearing to be held in connection with the investigations on Argentina and Brazil from 10:00 a.m. on July 24, 1985, to 10:00 a.m. on September 23, 1985.

For further information concerning the conduct of the investigations, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, Part 207, Subparts A and C (19 CFR Part 207), and Part 201, Subparts A through E (19 CFR Part 201, as amended by 49 FR 32568, Aug. 15, 1984).

EFFECTIVE DATE: July 16, 1985.

FOR FURTHER INFORMATION CONTACT: Robert Carpenter (202-523-0399), Office of Investigations, U.S. International Trade Commission, 701 E Street NW., Washington, DC 20436. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202-724-0002.

SUPPLEMENTARY INFORMATION:

Background

Effective May 2, 1985, the Commission instituted the subject investigations and scheduled a hearing to be held in connection therewith for July 24, 1985 (50 FR 23083). Subsequently, the Department of Commerce extended the date for its final determinations in the investigations on Argentina and Brazil from July 15, 1985 to September 16, 1985. The Commission, therefore, is revising its schedule in the investigations to conform with Commerce's new schedule. As provided in section 735(b)(2)(B) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)(2)(B)), the Commission must make its final determinations in antidumping investigations within 45 days of Commerce's final determinations, or in these cases by October 30, 1985.

Staff report

A public version of the prehearing staff report in these investigations was placed in the public record on July 5, 1985, pursuant to § 207.21 of the Commission's rules (19 CFR 207.21).

Hearing

The Commission will hold a hearing in connection with these investigations beginning at 10:00 a.m. on September 23, 1985, at the U.S. International Trade Commission Building, 701 E Street NW., Washington, DC. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m.) on September 12, 1985. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs and attend a prehearing conference to be held at 9:30 a.m. on September 17, 1985, in room 117 of the U.S. International Trade Commission Building. The deadline for filing prehearing briefs is September 17, 1985.

Testimony at the public hearing is governed by § 207.23 of the Commission's rules (19 CFR 207.23). This rule requires that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. Any written materials submitted at the hearing must be filed in accordance with the procedures described below and any confidential materials must be submitted at least three (3) working days prior to the hearing (see § 201.6(b)(2) of the Commission's rules (19 CFR 201.6(b)(2), as amended by 49 FR 32569, Aug. 15, 1984)).

Written submissions

All legal arguments, economic analyses, and factual materials relevant to the public hearing should be included in prehearing briefs in accordance with § 207.22 of the Commission's rules (19 CFR 207.22). Posthearing briefs must conform with the provisions of § 207.24 (19 CFR 207.24) and must be submitted not later than the close of business on October 1, 1985. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before October 1, 1985.

A signed original and fourteen (14) copies of each submission must be filed with the Secretary to the Commission in accordance with § 201.8 of the Commission's rules (19 CFR 201.8, as amended by 49 FR 32569, Aug. 15, 1984). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any business information for which confidential treatment is desired must be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of § 201.6 of the Commission's rules (19 CFR 201.6, as amended by 49 FR 32569, Aug. 15, 1984).

Authority: these investigations are being conducted under authority of the Tariff Act of 1930, title VII. This notice is published pursuant to § 207.20 of the Commission's rules (19 CFR 207.20, as amended by 49 FR 32569, Aug. 15, 1984)

By Order of the Commission.

Issued: July 17, 1985.

Kenneth R. Mason,

Secretary.

[FR Doc. 85-17365 Filed 7-19-85; 8:45 am]

BILLING CODE 7020-02-M

DEPARTMENT OF JUSTICE

Information Collection(s) Under Review

July 16, 1985.

The Office of Management and Budget (OMB) has been sent for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was published. The list has all entries grouped into new forms, revisions, or extensions. Each entry contains the following information:

(1) The name and telephone number of the Agency Clearance Officer (from whom a copy of the form and supporting documents is available);

(2) The office of the agency issuing the form;

(3) The title of the form;

(4) The agency form number, if applicable;

(5) How often the form must be filled out;

(6) Who will be required or asked to report;

(7) An estimate of the number of responses;

(8) An estimate of the total number of hours needed to fill out the form;

(9) An indication of whether section 3504(h) of Pub. L. 96-511 applies; and.

(10) The name and telephone number of the person or office responsible for the OMB review.

Copies of the proposed form(s) and the supporting documentation may be obtained from the Agency Clearance Officer whose name and telephone number appear under the agency name. Comments and questions regarding the item(s) contained in this list should be directed to the reviewer listed at the end of each entry *AND* to the Agency Clearance Officer. If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer and the Agency Clearance Officer of your intent as early as possible:

NATIONAL CREDIT UNION ADMINISTRATION

Agency Form Submitted to the Office of Management and Budget for Clearance

The following package was submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Subject: Criminal Referral Form—NCUA 2362 and NCUA 2363

Respondents: Federally Insured Credit Unions

Abstract: All federally insured credit unions will be required to complete and, within seven business days, to report suspected criminal activity on NCUA 2362 or NCUA 2363 to the NCUA regional director, the U.S. Attorney, and the Federal Bureau of Investigation. The requirement will provide for timely and specific information needed for decisions regarding investigation and prosecution.

OMB Desk Officer for NCUA

Copies of the above information collection clearance package can be obtained by calling the NCUA Department of Supervision and Examination on (202) 357–1065.

Written comments and recommendations for the listed information and collection should be sent directly to the OMB desk officer designated above at the following address: OMB Reports Management Branch, New Executive Office Building, Room 3208, Washington, DC 20503.

Dated: July 16, 1985.
Rosemary Brady,
Secretary of the NCUA Board.

NUCLEAR REGULATORY COMMISSION

Appointments to Performance Review Board for Senior Executive Service

AGENCY: Nuclear Regulatory Commission.

ACTION: Appointments to Performance Review Board for Senior Executive Service.

SUMMARY: The Nuclear Regulatory Commission (NRC) has announced the following new appointments to the NRC Performance Review Board (PRB):

Robert M. Bernero, Director, Division of Systems Integration, Office of Nuclear Reactor Regulation
Richard E. Cunningham, Director, Division of Fuel Cycle & Material Safety, Office of Nuclear Material Safety and Safeguards
James P. Murray, Deputy Executive Legal Director
William B. Kerr, Director, Office of Small and Disadvantaged Business Utilization and Civil Rights has been appointed as an ex officio nonvoting member.

In addition to the above appointments, the following members are continuing on the PRB:

John G. Davis, Director, Office of Nuclear Material Safety and Safeguards
Harold R. Denton, Director, Office of Nuclear Reactor Regulation
James G. Keppler, Regional Administrator, Region III
Martin G. Malsch, Deputy General Counsel for Domestic Licensing and Regulation, Office of the General Counsel
Patricia G. Norry, Director, Office of Administration
Thomas Rehm, Assistant for Operations, Office of the Executive Director for Operations
Denwood F. Ross, Deputy Director, Office of Nuclear Regulatory Research
James M. Taylor, Director, Office of Inspection and Enforcement

The NRC has created a Performance Review Board Panel with the following members:

Guy H. Cunningham, Executive Legal Director
Thomas E. Murley, Regional Administrator, Region I
Jack W. Roe, Deputy Executive Director for Operations

All appointments are made pursuant to section 4314 of Chapter 43 of Title 5 of the United States Code.

EFFECTIVE DATE: July 12, 1985.

FOR FURTHER INFORMATION CONTACT: Patricia G. Norry, Chair, Performance Review Board, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, 301–492–7335.

Dated at Bethesda, Maryland, this 12th day of July, 1985.

For the Nuclear Regulatory Commission.
William J. Dircks,
Executive Director for Operations.

BILLING CODE 7590–01–M

[FERMI–2; Docket No. 50–341]

Issuance of Facility Operating License; Detroit Edison Co. and Wolverine Power Supply Cooperative, Inc.

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission or NRC), has issued Facility Operating License No. NPF–43 to Detroit Edison Company and Wolverine Power Supply Cooperative, Incorporated (the licensees) which authorizes operation of Fermi–2 (the facility), at reactor core power levels not in excess of 3292 megawatts thermal in accordance with the provisions of the License, the Technical Specifications and the Environmental Protection Plan.

The issuance of this license was approved by the Nuclear Regulatory Commission at a meeting on July 10, 1985, and supersedes the License for Fuel Loading and Low Power Testing, License No. NPF–33, issued on March 20, 1985.

License No. NPF–43 incorporates changes to the technical specifications which were made subsequent to the issuance of NPF–33 and supersedes NPF–33.

Fermi–2 is a boiling water reactor located in Frenchtown Township, Monroe County, Michigan. The license is effective as of the date of issuance.

The application for the license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I which are set forth in the License. Prior public notice of the overall action involving the proposed issuance of an operating license was published in the Federal Register on May 18, 1975 (40 FR 23122).

The Commission has determined that the issuance of this license will not result in any environmental impacts other than those evaluated in the Final Environmental Statement since the activity authorized by the license is encompassed by the overall action evaluated in the Final Environmental Statement.

For further details with respect to this action, see (1) Facility Operating License No. NPF–43, with Technical Specifications (NUREG–1141) and the Environmental Protection Plan; (2) the report of the Advisory Committee on Reactor Safeguards, dated August 11, 1981; (3) the Commission's Safety Evaluation Report, dated July 1981 (NUREG–0798), and Supplements 1 through 6; (4) the Final Safety Analysis Report and Amendments thereto; (5) the Environmental Report and supplements thereto; and (6) the Final Environmental Statement, dated August 1981.

These items are available for inspection at the Commission's Public Document Room located at 1717 H Street, NW., Washington, D.C. 20555, and at the Monroe County Library Systems, Reference Department, 3700 Custer Road, Monroe, Michigan 48161. A copy of Facility Operating License NPF–43 may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing. Copies of the Safety Evaluation Report and Supplements 1 through 6 (NUREG–0798) and the Final Environmental Statement (NUREG–0789) may be ordered by calling (202) 275–2060 or (202) 275–2171 or by writing to the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, D.C. 20013–7082. All orders should clearly identify the NRC publication number and the requester's GPO deposit account, VISA or Mastercard number and expiration date. Anyone wishing to inquire about a subscription account or subscribe to a periodic NRC publication may do so by calling GPO at (202) 783–3238. The NRC will continue to participate in the National Technical Information Service Program and

BILLING CODE 7590-01-M

[Docket No. 50-302]

Florida Power Corp. et al., (Crystal River Unit No. 3 Nuclear Generating Plant); Exemption

I

The Florida Power Corporation (the licensee) and eleven other co-owners are the holders of Facility Operating License No. DPR-72 which authorizes operation of Crystal River Unit No. 3 Nuclear Generating Plant (CR-3) at steady state reactor power levels not in excess of 2544 megawatts thermal. The facility comprises one pressurized water reactor at the licensee's site located in Citrus County, Florida. The license provides, among other things, that it is subject to all rules, regulations and Orders of the Nuclear Regulatory Commission (the Commission) now or hereafter in effect.

II

10 CFR Part 50, Appendix R, Section III, identifies specific fire protection required to be provided by a licensee authorized to operate a nuclear power reactor. 10 CFR 50.48(c) identifies the schedules for the completion of fire protection modifications for which a plant shutdown is required. By letter dated October 5, 1984, as superseded March 1, 1985, the licensee requested that the current deadline of Refuel V (July 1985) be extended to the first quarter of 1986 (March 31, 1986) for the fire protection modifications identified below.

The time extension is needed to implement the following modifications:

1. Installations of the dedicated heating, ventilating and air conditioning (HVAC) system for safe shutdown areas of the Control Complex;

2. Installation of the 3-hour rated fire barrier for the ceilings in the new Emergency Feedwater Initiation and Control (EFIC) Room located on elevation 124 feet of the Control Complex; and

3. Installation of fire barriers for protection of safety-related cable trays and conduits in the Auxiliary Building, Intermediate Building and Control Complex.

III

The licensee has indicated that the proposed exemption is needed because of the extremely ambitious scope of the presently planned 20-week outage and the difficulty of completing all the required modifications within the scheduled shutdown period. As a measure of the scope of the modifications being performed during this outage, the total cost of the outage will be approximately $110 million, covering 1.8 million manhours, and occupying 1800 craft and supervisory personnel associated with modifications. Major modifications include those required for Emergency Feedwater Initiation and Control, Reactor Coolant Inventory Tracking System, Evironmental Qualification, and Appendix R including Remote Shutdown Capability. The requested exemption addresses areas where there are significant conflicts between the Appendix R work scope other and work scopes, making concurrent accomplishment during this outage impractical. The licensee concludes that modifications covered by the requested exemption can be completed within the requested time extension without adversely affecting public health and safety, based on (1) compensatory measures proposed, (2) completion of the major Appendix R modifications during this shutdown, and (3) ability of the onsite fire brigade to respond rapidly to any fires in the affected areas.

As compensation pending the completion of the modifications indentified above, the licensee will implement a roving fire watch patrol in all areas for which schedular relief has been requested. The fire watch will continue until all fire protection related work associated with Appendix R has been completed. The routing of the fire watch will be established to ensure that the patrol observes each area in which a fire could damage redundant shutdown related systems. It will return to these areas at a frequency of about once every twenty minutes.

If a fire should occur within any area provided with a fire watch, there is reasonable assurance that it will be detected in its incipient stages, before significant flame propgation or temperature rise occur. Upon discovery of a fire, the Control Room will be immediately notified and fire brigade response initiated. Pending arrival of the brigade, the fire watch, having been trained in the proper use of portable fire extinguishers, will be capable of suppressing the fire before significant damage occurs. We therefore have reasonable assurance that, pending completion of the licensee's Appendix R related modifications, the advent of fire in any of these areas will not result in damage to shutdown systems to the extent that safe plant shutdown could not be achieved and maintained.

Based on the considerations discussed above, the Commission concludes that the licensee has provided reasonable and acceptable interim post-fire safe shutdown capability or interim fire protection measures to support the exemption request.

IV

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12(a), an exemption as requested by the licensee's letter of October 5, 1984, as superseded by letter dated March 1, 1985, is authorized by law and will not endanger life or property or the common defense and security and is othewise in the public interest. The Commission hereby grants an exemption from the requirements of 10 CFR 50.48(c) to extend the deadline for completion of the above identified fire protection modifications at Crystal River Unit 3 Nuclear Generating Plant until March 31, 1986.

Pursuant to 10 CFR 51.32, the Commission has determined that the issuance of the exemption will have no significant impact on the environment (50 FR 28858).

This Exemption is effective upon issuance.

Dated at Bethesda, Maryland this 16th day of July, 1985.

Darrell G. Eisenhut,

Acting Director, Office of Nuclear Reactor Regulation.

[FR Doc. 85-17367 Filed 7-19-85; 8:45 am]

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards; Subcommittee on Gessar II; Meeting

The ACRS Subcommittee on GESSAR II will hold a meeting on August 7, 1985, Room 1167, 1717 H Street, NW., Washington, DC.

To the extent practical the meeting will be open to public attendance. However, portions of the meeting will be closed to discuss proprietary information relating to the GESSAR probabilistic risk assessment and plant security.

The agenda for subject meeting shall be as follows:

Wednesday, August 7, 1985—8:30 a.m. until the conclusion of business

The Subcommittee will continue its review of GESSAR II for a Final Design Approval applicable to future plants.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Richard Major (telephone 202/634-1414) between 8:15 a.m. and 5:00 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: July 16, 1985.

Morton W. Libarkin,

Assistant Executive Director for Project Review.

[FR Doc. 85-17374 Filed 7-19-85; 8:45 am]

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards; Subcommittee Reactor Radiological Effects; Meeting

The ACRS Subcommittee on Reactor Radiological Effects will hold a meeting on July 31, 1985, in Room 1167, at 1717 H Street, NW., Washington, DC.

The meeting will, for the most part, be open to public attendance. However, portions of the meeting will be closed for the discussion of Institute of Nuclear Power Operations (INPO) proprietary information.

The agenda for the subject meeting shall be as follows:

Wednesday, July 31, 1985—8:30 a.m. until the conclusion of business

The Subcommittee will review the INPO Radiation Protection Program, particularly as it relates to a similar and related NRC program.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practiable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee and its consultants will then hear presentations by and hold discussions with representatives of INPO, the NRC Staff, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Owen Merrill (telephone 202/634-1414) between 8:15 a.m. and 5:00 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards; Subcommittees on Waste Management and Procedures and Administration; Meeting

The ACRS Subcommittees on Waste Management, and Procedures and Administration will hold a joint meeting on July 30, 1985, Room 1046, 1717 H Street, NW., Washington, D.C.

The meeting will, for the most part, be open to public attendance. However, portions of the meeting may be closed for the discussion of inviduals as potential consultants to the Waste Management Subcommittee.

The agenda for the subject meeting shall be as follows:

Tuesday, July 30, 1985—8:30 a.m. until the conclusion of business

The Subcommittees will review the ACRS Role in the Civilian High-Level Radioactive Waste Management Program.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittees may exchange preliminary views regarding matters to be considered during the balance of the meeting. The Subcommittees will then hear presentations by and hold discussions with representatives of the NRC Staff and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Owen S. Merrill (telephone 202/634-1414) between 8:15 a.m. and 5:00 p.m. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

BILLING CODE 7200-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-22240; SR-Amex-84-41]

Self-Regulatory Organizations; the American Stock Exchange, Inc.; Order Approving Proposed Rule Change

The American Stock Exchange, Inc. ("Amex") submitted on December 28, 1984, copies of a proposed rule change pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") and Rule 19b-4 thereunder, to amend Rule 950 to permit stop and stop limit option orders to be elected when the quoted market for the option reaches the appropriate bid or offer price, in addition to being elected when a transaction in the security occurs at the appropriate stop or stop limit price. The amended rule is primarily designed to increase the effectiveness of these orders when used in connection with inactive option series.

The rule proposal provides that procedures applicable for the election of stop and stop limit orders by transaction shall be governed by Amex Rule 154, Commentary .04 relating to stop and stop limit orders for equity securities. The Amex has pending with the Commission a proposal to amend Commentary .04 to permit specialists on the equity side of the market to accept stop orders and to elect stop orders for their own account provided that the specialist first obtains a floor official's approval and executes the stop order at the same price as the electing transaction.[1] Under the Amex's proposal to amend Rule 950, this procedure also would apply to the options market.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by the issuance of a Commission release (Securities Exchange Act Release No. 21629, January 3, 1985) and by publication in the **Federal Register** (50 FR 1964, January 4 1985). No written comments were received with respect to the proposed rule change.

The Commission finds that the proposed rule change is consistent with the requirement of the Act and the rules and regulations thereunder applicable to a self-regulatory organization and, in particular, the requirements of Section 6 and the rules and regulations thereunder. At this time, however, the Commission is approving only that part of the rule proposal providing for election of stop and stop limit orders by quotation. The Commission defers action upon that part of the proposal providing for election by transaction until such time as the Commission acts upon SR-Amex-84—32 (*see* note 1, *supra*).

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the above mentioned proposed rule change (with the exception discussed herein) be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: July 15, 1985.

Shirley E. Hollis,

Assistant Secretary.

Central Power and Light Co.; Proposal To Make Tender Offer for $150 Million of Securities, and To Issue and Sell $90 Million of First Mortgage Bonds and $95 Million of Debentures

July 16, 1985.

Central Power and Light Company ("Company"), a subsidiary of Central and South West Corporation ("CSW"), a registered holding company, has filed an application-declaration with this Commission pursuant to sections 6(a) 7, 9(a), 10 and 12(c) of the Public Utility Holding Company Act ("Act"), and Rules 42 and 50 thereunder.

The Company has $75 million of its First Mortgage Bonds, Series R, 14 ⅝% due January 1, 2011 ("Bonds"), and $75 million of its 15 ⅞% Debentures, Series 1982, Due April 1, 2012 ("Debentures"), collectively ("Securities") presently outstanding. The bonds may not be redeemed at a lower cost of money prior to January 1, 1986 and the Debentures may not be so redeemed prior to April 1, 1987. Since the Securities were issued, there has been a dramatic reduction in long term interest rates. The Company believes that comparable securities issued in today's market would bear significantly lower interest rates, and refunding of the Securities would benefit the Company's ratepayers by reducing the present interest costs to the Company. Although the Securities cannot presently be called due to refunding restrictions it is possible to repurchase for cash a substantial portion of the Securities through tender offers ("Tender Offers") to the holders which the Company proposes to make in the form of a letter to all Security holders. The Security holders may also be notified by telephone of the offers. The Company presently intends to hold open the offers for ten days but if market conditions require or particular Security holders require, the Company requests authority to extend the offer periods. Based on the experience of other utility companies, the Company expects that 80% to 90% of the Securities will be tendered.

Under the present market conditions based upon the information from several investment bankers, the Company believes that a Tender Offer for the Bonds could be successfully made at approximately 115% of the principal amount thereof, plus accrued interest. Similarly, a Tender Offer for the Debentures could be made at approximately 121% of the principal amount, plus accrued interest. The Tender Offer prices must be determined shortly before the Tender Offer commences.The actual prices will be based on a number of factors, including the coupon rate of the Securities, the date of expiration of the refunding protection on the Securities, the call price on such expiration date and the present market rates for similar bonds and debentures. Based upon limited information available to the Company, similar bonds and debentures have recently bid at a price of 114.125% and 119% of the principal amount thereof, respectively.

Based on today's market conditions the Company estimates that it could issue new 30-year first mortgage bonds ("New Bonds") at an interest rate of approximately 11.50%. Assuming that 100% of the Bonds are tendered, the transactions would reduce annual interest costs to the Company by approximately $675,000, including the amortization of the premium to be paid on the Bonds over the life of the New Bonds, for a total interest savings over the remaining life of the Bonds of approximately $16,875,000.

The Company intends to issue new debentures to provide funds to pay the tender price to the Debenture holders. Based on today's market conditions, the Company estimates that it could issue new debentures ("New Debentures") at an interest rate of approximately 11.75%. Assuming 100% of the Debentures are tendered, the transactions would reduce interest costs to the Company by approximately $718,000, annually including the amortization of the

premium to be paid on the Debentures over the life of the New Debentures, for a total interest savings over the remaining life of the Debentures of approximately $18,600,000.

The Company proposes to retain Salomon Brothers Inc. as the Company's tender agent and dealer-manager for the Tender Offer for the Bonds, and Goldman, Sachs & Co. as tender agent and dealer-manager for the Tender Offer for the Debentures in order to obtain the benefit of their experiences in similar transactions involving other utilities. The dealer-managers will not become obligated to purchase or sell any of the Securities. They will act merely as the Company's agents in disseminating the offer and receiving responses thereto. The dealer-manager's fee for the Bonds will be $2.50 per $1,000 principal amount of Bonds tendered, a solicitation fee of $1.50 per $1,000 principal amount of Bonds, plus reimbursement of out of pocket expenses in an amount not to exceed $20,000. In addition, the Company will reimburse the dealer-manager for its attorney fees not to exceed $15,000. The dealer-manager's fee for the Debentures will be $5.00 per $1,000 principal amount of Debentures tendered plus reimbursement of out of pocket expenses in an amount not to exceed $20,000. In addition, the Company will reimburse the dealer-manager for its attorney fees not to exceed $20,000. As is customary, the Company will be required to indemnify the dealer-managers for certain liabilities as provided in the contracts with the dealer-managers. While not yet determined, the Company may also retain depositaries to hold the tendered Securities pending the purchase thereof and/or an information agent to assist in the Tender Offers. If any such arrangements are entered into, they will be on customary items which will be filed by amendment.

Depending upon the amount of Securities tendered and the price paid for the tendered Securities, it will be necessary for the Company to issue up to approximately $90,000,000 principal amount of New Bonds and $95,000,000 principal amount of New Debentures in order to fund the purchase of the tendered Securities. The New Bonds would not be issued until completion of the Tender Offer to allow the company to have the New Bonds authenticated against the retired Bonds rather than property additions.

The New Bonds and the Debentures will be offered by competitive bidding in one or more series with up to 30-year maturity periods. The price to be paid to the Company for the New Bonds and the New Debentures (exclusive of any accrued interest which will be added to such price) will not be less than 98%, nor more than 101.75%, of the principal amount of the New Bonds and New Debentures. It is anticipated that the New Bonds and New Debentures will be redeemable at any time in whole or in part provided that such redemption will not be allowed for a period of five years from issue if it is part of a refunding at an effective interest cost lower than that of the particular series of the New Bonds or New Debentures.

The application-declaration, and any amendments thereto, are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by August 8, 1985, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarant at the address specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

[Release No. 34-22239; File No. SR-OCC-83-22]

Self-Regulatory Organizations; Order Approving Proposed Rule Change of Options Clearing Corp.

On October 11, 1983, Options Clearing Corporation ("OCC") filed with the Commission a proposed rule change under section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act") to regulate facilities management agreements of OCC Clearing Members. Notice of the proposal was published in Securities Exchange Act Release No. 20323 (October 24, 1983), 48 FR 50187. On January 7, 1985, OCC filed substantive amendments to the proposal. Notice of the amendment was published in Securities Exchange Act Release No. 21827 (March 8, 1985), 50 FR 10334 (March 14, 1985). The Commission did not receive any comments on the proposal. As discussed below, the Commission is approving the proposed rule change.

I. Description

OCC proposes rules and procedures governing facilities management agreements between OCC Clearing Members. Under a typical facilities management agreement, a Clearing Member with clearance and settlement facilities (the "Managing Clearing Member") agrees to perform "back-office" sevices for another Clearing Member (the "Managed Cleaing Member") for a fee. The Managing Clearing Member may perform a variety of services for the Managed Clearing Member including: (1) Ministerial and cashiering functions; (2) preparation of trade input; (3) adjustment and settlement of options; (4) receipt, delivery, and custody of cash and securities; and (5) processing of exchange offers, tender offers, and redemptions.[1]

The proposal would change OCC's By-laws and Rules in several ways. First, the proposal would add Interpretation and Policy ("I&P") Four to OCC By-law Article V governing Clearing Member qualifications. Second, the proposal would add new OCC Rule 309 entitled "Managing Clearing Members and Managed Clearing Members." Finally, the proposal would amend OCC Rule 305 to authorize OCC to limit, under specified circumstances, the facilities management activities of Clearing Members.

New I&P Four would provide that OCC's Membership Committee will consider the provisions of a facilities management contract of an applicant for OCC membership as a managed Clearing Member to determine whether OCC's membership requirements have been met. The applicant would rely on its facilities management contract with a Managing Clearing Member to meet several of those requirements.[2] With

[1] The proposal does not affect what services a Managing Clearing Member may perform for a Managed Clearing Member. This continues to be an item of negotiation between the parties.

[2] OCC will look to the Managing Clearing Member with regard to: (1) Complying with the Act's books and record maintenance requirements; (2) demonstrating an ability to reconcile uncompared trades on a timely and efficient basis under options exchange rules and procedures; and (3) using personnel and procedures sufficent to discharge Clearing Member functions timely and efficiently. *See* OCC By-law Article V. § 1. I&P Two.

VOL 50 ISS 140 JL 22 1985 UMI

respect to services that will not be performed by the Managing Clearing Member, however, the Managed Clearing Member must show OCC's Membership Committee that it has the operational experience, capability and competence to perform those services. Moreover, the Managed Clearing Member must satisfy on its own several important membership criteria.[3]

In addition to reviewing facilities management contracts of applicants, OCC will review Managing Clearing Members and approve or disapprove them to act as Managing Clearing Members.[4] Moreover OCC will conduct periodic reviews of Managing Clearing Members and require further operational readiness reviews each time a Managing Clearing Member expands its facilities management activities by an additional four Managed Clearing Members.

New I&P Four requires that several provisions be in a facilities management agreement. First, the agreement must specify the services that will be performed by the Managing Clearing Member for the Managed Clearing Member and the respective duties and obligations of each. Second, the agreement must provide that it will not be terminated unless OCC is given 30 days prior written notice of termination. Third, the agreement must provide for its termination if OCC disapproves the Managing Clearing Member from acting as such. Last, all existing facilities management agreements must meet the requirements of OCC By-law Article V, Section 1 within 120 days from the effective date of the proposal.

New I&P Four also provides that OCC's Membership Committee will review a facilities management contract between an applicant and a facilities manager that is not an OCC Clearing Member when the facilities manager agrees to perform an applicant Clearing Member's obligations relating to OCC, OCC's Clearing Members or the maintenance of required books and records. Under those circumstances, the proposal provides that each facilities management agreement will be considered by OCC for approval on a case-by-case basis.

In addition to proposed I&P Four, the proposed rule change would add new OCC Rule 309. That Rule would institute specific requirements for facilities management activities. First, Rule 309 defines Managing Clearing Member as a Clearing Member that provides any facilities management services to one or more other Clearing Members, *i.e.*, Managed Clearing Members. Second, Rule 309 would create additional new net capital requirements for Managing Clearing Members. Managing Clearing Members would be required to maintain net capital which is the greater of the minimum net capital required by OCC Rule 302 [5] or the sum of $300,000 plus $50,000 times the number of its Managed Clearing Members in excess of four. Third, Rule 309 would require Managing Clearing Members to notify OCC if their net capital requirements are not met and would authorize OCC, under specified circumstances, to impose restrictions or limitations on the activities of Managing and Managed Clearing Members.[6] Those limitations or restrictions can be imposed if OCC's Chairman or President determines that the financial or operational condition of the Clearing Members makes limitations or restrictions necessary or advisable to protect OCC, other Clearing Members, or the general public. Finally, OCC Rule 309 states that, if a facilities management agreement is terminated, affected Managed Clearing Members must withdraw from OCC membership. Alternatively, the Managed Clearing Member can retain its membership by demonstrating to OCC's Membership Committee that it can perform the previously managed services itself or has entered into another facilities management agreement that is acceptable to OCC.

OCC's amendments to OCC Rule 305 would incorporate OCC's authority to impose the above restrictions and limitations on Clearing Member's activities and would clarify that OCC is authorized to restrict or limit Clearing Members' facilities management activities.

II. OCC'S Rationale

OCC states in its filing that facilities management agreements between Clearing Members have existed for a number of years. OCC represents that it recently has witnessed a substantial increase in facilities management arrangements and believes that Managed Clearing Members are relying increasingly on Managing Clearing Members to perform broader functions or all operational functions for the Managed Clearing Members. For those reasons, OCC believes that its proposal is now necessary.

OCC states that the proposal defines clearly the relationship between Managed and Managing Clearing Members and their respective relationships to OCC. OCC believes that I & P Four provides clear guidelines as to how the Managed and Managing Clearing Members can meet and maintain OCC's standards for Clearing Member operational capacity, experience and competence. Similarly, OCC believes its increased net capital requirements for certain Managing Clearing Members helps to inform it of the potential liabilities of facilities managements relationships and should help to ensure that those firms can meet those liabilities.

OCC notes that there has been an increasing tendency for Managed Clearing Members to use OCC Managing Clearing Members. OCC states in its filing, however, that it has allowed, and will continue to allow, Managed Clearing Members to maintain facilities management agreements with non-Clearing Member facilities managers. Nevertheless, OCC notes that, because those facilities managers are not OCC Clearing Members, OCC regulatory authority over those facilities managers is very different than its authority over facilities manager that are Clearing Members. Thus, OCC believes it necessary to continue to review such arrangements on a case-by-case basis.

OCC states in its filing that its proposal is consistent with Section 17A of the Act because it will facilitate the prompt and accurate clearance and settlement of securities transactions. OCC also states that the proposal will serve to protect the public interest, OCC Clearing Members, and OCC.

III. Discussion

The Commission agrees with OCC that the proposal is consistent with the Act and should be approved. Specifically, the Commission believes that OCC's proposal is consistent with the requirement of Section 17A that a clearing agency safeguard securities and funds in its custody or control or for which it is responsible. The Commission agrees with OCC that facilities management activities of OCC Clearing Members pose potential financial exposure to OCC and its Clearing Members. The Commission believes, however, that the safeguards incorporated in OCC's proposal should protect OCC, its members, and the public from that exposure. The proposal's increased net capital requirements for Managing Clearing Members should provide OCC with additional assurances of financial responsibility. If Managing or Managed Clearing Members fail to maintain required net capital, the proposal enables OCC to restrict or limit the activities of those members to protect OCC, other OCC members, and the public. In addition, the proposal provides for adequate monitoring by OCC of facilities management arrangements. OCC will approve a Managing Clearing Member to act as such only so long as the Managing Clearing Member demonstrates its operational capability in both periodic reviews by OCC and automatically whenever the Managing Clearing Member expands its activities by an additional four Managed Clearing Members. For Managed Clearing Members, all of OCC's membership requirements and monitoring programs will continue to apply except for functions performed by Managing Clearing Members, which also must meet applicable OCC requirements. In addition, the proposal ensures that if a facilities management arrangement is terminated, affected Managed Clearing Members must withdraw from OCC membership or satisfy OCC's membership requirements on their own or through a new facilities management arrangement.

Finally, the Commission believes that the proposal will promote the prompt and accurate clearance and settlement of securities transactions under section 17A of the Act. By subjecting facilities management arrangements to structured regulatory oversight, the proposal should help to ensure that facilities management services are being performed adequately.

IV. Conclusion

It is therefore ordered, under section 19(b)(2) of the Act, that the proposed rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

[FR Doc. 85-17325 Filed 7-19-85; 8:45 am]

BILLING CODE 8010-01-M

---

[3] The Managed Clearing Member still must meet OCC's financial responsibility membership requirements. For example, the Managed Clearing Member must: (1) Meet OCC's initial financial requirements in OCC's Rules; (2) not sustain significant net pre-tax losses; or (3) not be on the Securities Investor Protection corporation's special surveillance list. *See* Article V, § 1 I&P One. The Managed Clearing Member also must meet several OCC operational requirements. For example, the Managed Clearing Member or any of its associated persons: (1) Cannot be subject to a "statutory disqualification" defined in § 3 of the Act; and (2) must not have been engaged or be reasonably likely to engage again in acts or practices inconsistent with just and equitable principles of trade.

[4] To qualify for OCC approval, a Managing Clearing Member must have "the requisite operational capability, experience and competence and [must have] allocated sufficient resources and experienced staff to enable it properly to serve . . . all facilities management agreements . . . and that it [has sufficient net capital under OCC's Rules for Managing Clearing Members]" Proposed I&P 4c. In addition, OCC's Membership Committee will not recommend for membership any Managed Clearing Member whose proposed Managing Clearing Member: (1) Lacks options clearing experience and has failed to employ sufficiently experienced personnel to compensate for that weakness (*see* Article V. § 1, I&P 3c); (2) has less than two key operations personnel that have attended OCC operations readiness review sessions and have passed any applicable OCC operational and financial examinations (*see* Article V. § 1 I&P 3d); and (3) has not yet undertaken to apply for approval to clear the type of option transaction contemplated in the facilities management agreement (*see* Article V. § 1, I&P 3e).

[5] OCC Rule 302 requires OCC Clearing Members to maintain net capital that is the greater of $100,000, 6⅔ percent of its aggregate indebtedness, or, for Clearing Members using OCC's alternative net capital requirements, 2 percent of its aggregate debit items. *See also* OCC Rule 301 which sets forth initial net capital requirements as opposed to minimum net capital maintenance requirements.

[6] Those restrictions include: Prohibitions against distributions that would cause the member's net capital to fall below OCC's requirements; limitations on the clearance of opening purchase transactions and/or opening writing transactions; and requirements that the member reduce or eliminate short positions for which underlying securities have not been deposited with OCC under OCC Rules Chapter VI. *See* OCC Rules 304 and 305.

[Release No. 34-22241; File No. SR-NASD-85-18]

Self-Regulatory Organizations; Proposed Rule Change by the National Association of Securities Dealers, Inc.; Relating to Proposed Fees To Be Paid by Members Receiving the Computer Assisted Execution Servcie ("CAES")

The National Association of Securities Dealers, Inc. ("NASD"), on July 10, 1985 filed with the Securities and Exchange Commission pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), a proposed rule change as described in Item I, II, and III below. These Items have been prepared by the NASD. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed amendment establishes service and transaction chargea to be paid by members receiving the Computer Assisted Execution Services ("CAES"). The new fee schedule will result in the costs of operation and enhancement to the system being borne by CAES market makers.

II. Self-Regulatory Organization's Statement Regarding the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule

The CAES User Committee, which has a significant representation of the CAES market makers, has requested that certain enhancements be made to CAES which will require additional funding. The new fee schedule is designed to recover developmental and operational costs of CAES.

Section 15A(b)(5) of the Securities Exchange Act provides that the rules of a National Securities Association must provide for the equitable allocation of reasonable dues, fees and other charges among members, issuers and other persons using any facility of the Association.

B. Self-Regulatory Organization's Statement of Burden on Competition

The Association believes that the fees charged to CAES are nominal, and does not foresee any impact on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Changes Received From Members, Participants, or Others.

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of the Securities Exchange Act Rule 19b-4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule changes if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions

should file six copies thereof with the Secretary, Securities and Exchange

for a statement of the representations contained therein, which are

a trustee entitled to payment of deferred fees will be a general unsecured creditor

of section 22(f) of the Act because that section was designed only to bar those

should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 5th Street NW., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 450 5th Street, NW., Washington, D.C. Copies of such filing will also be available at the principal office of the NASD. All submissions should refer to File No. SR–NASD–85–18 and should be submitted by August 12, 1985.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: July 15, 1985.

Shirley E. Hollis,

Assistant Secretary.

[FR Doc. 85–17322 Filed 7–19–85; 8:45 am]

BILLING CODE 8010–01–M

[Release No. IC–14637; 812–6129]

Carnegie-Cappiello Growth Trust et al.; Notice of Application for an Order Granting Exemptions

July 16, 1985.

Notice is hereby given that Carnegie-Cappiello Growth Trust, Carnegie Government Securities Trust, Carnegie Tax Free Income Trust, and Liquid Capital Income Trust ("Applicants"), 1331 Euclid Avenue, Cleveland, Ohio 44115, open-end, diversified management investment companies registered under the Investment Company Act of 1940 ("Act"), filed an application on June 7, 1985, for an order of the Commission, (1) pursuant to section 6(c) of the Act, exempting Applicants and all subsequent funds and similar series of funds organized and managed by Carnegie Capital Management Company (together with Applicants, "Carnegie Funds"), from the provisions of sections 13(a)(2), 18(f)(1), 22(f) and 22(g) of the Act, to the extent necessary to permit the Carnegie Funds to enter into deferred fee agreements with certain of their trustees ("Agreements"), and (2) pursuant to section 17(d) of the Act and Rule 17d–1 thereunder, permitting the Carnegie Funds to effect certain affiliated transactions incident to the Agreements. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and to the Act for the text of the relevant statutory provisions.

Applicants state that, with the exception of Carnegie-Cappiello Growth Trust, each Applicant has a board of trustees comprised of six persons, none of whom are "interested persons" within the meaning of section 2(a)(19) of the Act. Carnegie-Cappiello Growth Trust's board of trustees is comprised of seven persons, only one of whom is an "interested person." Each of the disinterested trustees receives trustees' fees in varying amounts for serving as a trustee of any Applicant, in addition to a fee in varying amounts for each board meeting attended, and that each trustee is also reimbursed for expenses incurred in attending any meeting of the board and, if a member, the audit committee. Applicants represent that they do not pay any other remuneration to their trustees and that the trustees' fees paid are, and are expected to continue to be, insignificant in comparison to each Applicant's total net assets.

It is stated that under the Agreements, Applicants would be able to defer payment of trustees' fees otherwise currently payable so as to avoid a loss or diminution of social security benefits, to defer payment of income taxes on such fees, or for other reasons. The institution of the Agreements is expected to enhance the ability of the Funds to attract and retain trustees of the same high caliber as those who presently serve on their boards. Applicants state that the deferred trustees' fees will be credited, as of the date such fees would have been paid, to a book reserve account ("Deferred Fee Account") that will be established on each Applicant's books, and that trustees' fees that become payable for attending board meetings will be credited to the applicable Applicant's Deferred Fee Account on the following business day.

Fees thus deferred will accrue interest daily from the date they are credited to the Deferred Fee Account, and the rate of return on amounts (including accrued interest) in the Deferred Fee Account will be equivalent to the rate payable on shares of Liquid Capital Income Trust. Each Applicant may purchase shares of Liquid Capital Income Trust to fund interest payments on amounts in such Applicant's Deferred Fee Account; however, pursuant to the Agreements, payment of deferred fees and accrued interest will constitute a general obligation of each Applicant, and such payment will be made out of each Applicant's general assets and property; a trustee entitled to payment of deferred fees will be a general unsecured creditor of the Applicant he serves. Applicants represent that the Agreements will not create a trust or fiduciary relationship between an Applicant and its trustees, nor will they constitute a security interest of any kind in any property of the Applicants in favor of a trustee or any third person.

Applicants state that the deferred trustees' fees (including interest accrued thereon) will become payable in cash upon termination of a trustee's services in such capacity; in a lump sum; or in such number of annual installments as shall be elected in writing by such trustee, subject to the right of each Applicant, in its sole discretion, to accelerate payment of such fees. In the event of a trustee's death or disability, amounts payable to him under the Agreement will be paid in a lump sum on the date specified in the Agreement, subject to each Applicant's right to accelerate payment. Such amount will be payable to the trustee's personal representative or designated beneficiary; in all other events, the trustee's right to receive payments will be non-transferable. Applicants state that the Agreements will not obligate them to retain a trustee in such capacity, nor will they obligate Applicants to pay any (or any particular level of) trustees' fees to any trustee. Applicants further represent that deferral of trustees' fees in accordance with the Agreements will have a negligible effect on their assets, liabilities, net assets and net income per share.

Applicants contend that they should be exempted from the provisions of sections 18(f)(1) and 13(a)(2) of the Act because the Agreements would not possess any of the caracteristics of a senior security which led Congress to enact section 18 of the Act. Applicants would not "borrow" from their trustees, and all liabilities created by credits to Deferred Fee Accounts would be offset by equivalent amounts of assets that would not exist if the deferred fees were paid currently. Applicants assert that the Agreements would not: (1) Induce speculative investments by Applicants, or provide an opportunity for manipulative allocation of any of Applicants' expenses and profits, (2) effect control of any Applicant, or (3) given the currently widespread use of deferred compensation agreements, confuse Applicants' investors, make it difficult for them to value Applicants' shares, or convey a false impression of safety.

Applicants further submit that they should be exempted from the provisions

of section 22(f) of the Act because that section was designed only to bar those restrictions on transferability or negotiability either not disclosed to the holders of the subject security, or expressly prohibited by Commission rule or regulation. On the contrary, the restrictions on transferability of trustees' benefits would be clearly set forth in the Agreements, would primarily benefit the trustees, and assertedly would not effect adversely the interests of the trustees or the shareholders of any Applicant.

With respect to the exemption requested from section 22(g) of the Act, it is stated that the legislative history of the Act indicates that Congress was primarily concerned with the dilutive effect on the equity and voting power of the securities of an open-end company if such securities were issued for consideration not readily valued. Applicants' assert that their obligations to make payments under the Agreements should not be viewed as being "issued" for services, and that although fees that might become payable to a trustee would clearly be for services, any such fees would become payable independently of the Agreements. The Agreements would merely provide for deferral of payment of such fees and thus should be viewed as being undertaken, not in return for services, but in return for Applicants' not being required to pay such fees on a current basis.

With regard to the applicability of section 17(d) and Rule 17d–1 thereunder, Applicants submit that the Agreements do not possess profit-sharing characteristics within the meaning of paragraph (c) of Rule 17d–1, which defines "joint enterprise or other joint arrangement or profit-sharing plan" for purposes of the Rule. Under the Agreements, each Applicant will have the discretion to set aside cash to fund the general obligations accruing under the Agreements and may invest such cash in shares of Liquid Capital Income Trust. The income, gain, or loss on investments of the assets of Liquid Capital Income Trust would be received indirectly by a trustee through receipt thereof by the Deferred Fee Account; such receipt would, however, be identical in amount to the income, gain, or loss which would be received by a shareholder of Liquid Capital Income Trust whose shares were not held in the Deferred Fee Account. Applicants represent that as an affiliated person, the trustee would neither directly nor indirectly receive a benefit which would otherwise inure to Applicants or any of their shareholders, and that the Agreements would not, therefore, constitute a joint or joint and several participation by any Applicant with an affiliated person in a transaction on a basis different from or less advantageous than that of the affiliated person. Applicants contend that the use of Liquid Capital Income Trust's yield to determine the level of interest to be paid on amounts in Deferred Fee Accounts does not inherently differ from the use of the prime rate or another assumed rate of interest. Applicants represent that deferral of a t ustee's fees in accordance with the Agreements will maintain the parties to the Agreements, viewed both separately and in their relationship to one another, in the same position as if the fees were paid on a current basis, and that payment of interest on deferred fees is necessary to prevent a trustee from being penalized by an election to defer fees. It is believed that the benefits to Applicants and their shareholders will outweigh any benefit that may be realized by any trustee individually.

Notice is further given that any interested person wishing to request a hearing on the application may, not later than August 12, 1985, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for the request, and the specific issues of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicant at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Mangement, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

Part 1—General

1. Purpose and Scope.

(a) This Policy implements for the Corporation the Ethics in Government Act of 1978, as amended, and Executive Order 12674 of April 12, 1989, as modified by Executive Order 12731 of October 17, 1990.

(b) This Policy also implements for the Corporation:

(1) Section 7(b)(2)(A)(iii) of the Energy Security Act, 42 U.S.C. 8706(b)(2)(A)(iii), which requires the Corporation to establish a code of ethics governing the conduct of its employees;

(2) Section 7(b)(2)(A)(iv) of the Energy Security Act, 42 U.S.C. 8706(b)(2)(A)(iv), which requires the Corporation to establish a program for the disclosure of financial interests of its employees; and

(3) Section 7(b)(2)(A)(v) of the Energy Security Act, 42 U.S.C. 8706(b)(2)(A)(v), which requires the Corporation to establish a program for the disclosure of financial interests of its Directors.

(c) This Policy establishes standards of conduct for Corporation employees and Directors, and sets forth the Corporation's program for the disclosure of financial interests of its employees and Directors.

2. Applicability.

(a) This Policy applies to all employees of the Corporation, including Directors, and to all persons who provide services to the Corporation under personal service contracts.

(b) Unless otherwise specifically provided, this Policy does not apply to the Chairman of the Board of Directors, who is the Secretary of Energy, or to the Secretary of Energy.

3. Definitions.

For purposes of this Policy:

"Act" and "Energy Security Act" mean the Energy Security Act (95 Stat.

official and as such will administer the

Corporation is made or, if possible, prior

receipt of anything of value for or

20. Post-Employment Conflicts of Interest.
(a) Statutory.
(b) Purpose.
(c) Guidelines.
(d) Permanent restriction against any former Director or Employee acting as representative as to a particular matter in which the Director or Employee personally and substantially participated.
(e) Exemption for persons with special qualifications.
(f) Testimony and statements under oath or subject to penalty of perjury.
(g) Administrative enforcement.

Part 7—Procedures and Standards of Conduct Applicable to Consultants

21. (a) Procedures applicable to consultants.
(b) Standards of conduct for consultants.
(c) Statutory provisions.

Part 1—General

Section 1. Purpose and Scope.

(a) The purpose of this Policy is to assure that the business of the United States Synthetic Fuels Corporation (the "Corporation") is conducted effectively, objectively, and without improper influence or the appearance thereof.

The Corporation expects that its Directors and Employees will exhibit courtesy, consideration, and promptness in all dealings with the public, with parties having business before the Corporation, and with government agencies. It is the intent of this Policy that Directors and Employees will avoid any action, whether or not specifically prohibited by this Policy, which might result in, or create the appearance of:

(1) Using Corporation office for private gain;

(2) Giving improper preferential treatment to any person;

(3) Impeding the efficiency and economy of the operations of the Corporation;

(4) Losing complete independence or impartiality of action;

(5) Making a Corporation decision outside of official channels; or

(6) Affecting adversely the confidence of the public in the integrity of the Corporation.

(b) This Policy also implements for the Corporation:

(1) The same standards of ethical conduct and financial reporting as set forth in Executive Order 11222, pursuant to section 117(f) of the Energy Security Act (Pub. L. 96–294, as amended) (The "Act" or the "Energy Security Act");

(2) The financial disclosure provisions of the Ethics in Goverment Act of 1978, as amended (Pub. L. 95–521), made applicable to the Corporation by section 118(a) of the Energy Security Act;

(3) The regulations relating to the financial disclosure provisions of the Ethics in Government Act of 1978, as amended, issued by the Office of Personnel Managment (5 CFR Part 734);

(4) The provisions of section 207(a) of title 18 of the United States Code (and subsections (f), (h), and (j) of such section to the extend that they relate to section 207(a)) relating to post-employment prohibitions applicable to former Directors and Employees of the Corporation, pursuant to section 118(d) of the Energy Security Act; and

(5) The regulations relating to 18 U.S.C. 207(a) and subsection (f), (h), and (j) of said Section as they relate to 18 U.S.C. 207(a), issued by the Office of Personnel Managment. (5 CFR Part 737).

In addition, this Policy directs the attention of the Directors and Employees of the Corporation to certain important prohibitions and requirements imposed by the Energy Security Act and other laws of the United States. This Policy does not purport to reflect or enumerate all restrictions or requirements imposed by statutes, regulations or otherwise upon Corporation Directors and Employees and former Directors and Employees of the Corporation. The omission of a restatement of or a reference to any restriction or requirement in no way alters the legal effect of that restriction or requirement and any such restriction or requirement, as the case may be, continues to be applicable in accordance with its own terms.

(c) It is expected that the provisions of this Policy will be observed and administered in a manner which is consistent with both their spirit and their letter.

Section 2. Applicability.

Unless specifically provided otherwise, the provisions of this Policy apply to all Directors and Employees of the Corporation.

Section 3. Definitions.

Unless the context requires otherwise, the following definitions apply in this Policy:

"Act" and "Energy Security Act" mean the Energy Security Act (95 Stat. 611, Pub. L. 96–294) approved June 30, 1980, as amended.

"Board of Directors" and "Board" mean the Board of Directors of the Corporation.

"Chairman" means the Chairman of the Board of Directors or his delegate.

"Corporation" or the "United States Synthetic Fuels Corporation" means the corporation created by Subtitle B of Title I of the Act.

"Director" means a member of the Board of Directors.

"Employee" means a Corporation officer or a full-time or part-time employee of the Corporation or an employee of a Government agency assigned or detailed to the Corporation.

"Ethics Officer" means the person designated pursuant to section 5 hereof to administer this Policy and the provisions of Title II of the Ethics in Government Act within the Corporation.

"Participating Organization" means any entity listed on the list of Participating Organizations published from time to time by the Ethics Officer under section 6(b)(5) hereof, which list shall contain the name of each firm, corporation or other entity which has undertaken or formally proposes to undertake a synthetic fuels project involving the Corporation and any other entity participating in any material way in any such project, including but not limited to financial institutions, investment bankers, construction companies, engineering firms, supply contractors and attorneys.

Section 4. Corporation Ethics Program.

(a) The Corporation's ethics program shall consist generally of liaison with the Office of Government Ethics; review of financial disclosure reports; ethics counseling; and the administration of this Policy within the Corporation.

(b) The Ethics Officer under the direction of the Chairman is the Corporation official responsible for establishing, maintaining, and carrying out the Corporation's ethics program. To carry out this responsibility, sufficient resources (including investigative, audit, legal, and administrative staff as necessary) shall be made available to enable the Corporation to administer its program in a positive and effective manner.

Section 5: Designated Corporation Ethics Officer.

(a) By designation of the Chairman, a qualified attorney in the Office of the General Counsel of the Corporation shall serve as the Corporation's ethics

official and as such will administer the provisions of Title II of the Ethics in Government Act within the Corporation, coordinate and manage the Corporation's ethics program, and provide liaison to the Office of Government Ethics with regard to all aspects of the Corporation's ethics program.

(b) The Chairman may designate an alternate Corporation Ethics Officer who shall serve in an acting capacity in the absence of the designated Ethics Officer.

Section 6. Responsibilities and Administration.

(a) Each Employee shall:

(1) Read and comply with this Policy and the statutes and regulations referred to herein. Each Employee shall receive a copy of this Policy and acknowledge such receipt in writing prior to assuming duties at the Corporation or, if already employed, promptly after the effective date of the Policy;

(2) Be mindful of the high standards of integrity expected of them in all their activities, personal and official;

(3) Recognize that violation of the provisions of this policy or the laws referred to herein may subject them to dismissal, disciplinary action, and other penalties;

(4) Discuss with the Ethics Officer any problems arising out of this Policy.

(b) The Ethics Officer shall:

(1) Assure that required reports are promptly filed by all Directors and Employees;

(2) Review all reports submitted to him under the Policy;

(3) Notify Directors and Employees at that time of entrance on duty and periodically thereafter of the availability of counseling services and how and where these services are available;

(4) Bring the provisions of this Policy to the attention of each Director and Employee as circumstances warrant;

(5) Compile, maintain, and periodically update a list of all Participating Organizations and submit such list to the Vice President for Administration for distribution to all Directors and Employees; and

(6) Serve as the Corporation's designee to the Office of Government Ethics on matters within the jurisdiction of that office covered by this policy.

(c) The Director of Personnel shall:

(1) Distribute to prospective Employees, and departing Employees, those forms required to be submitted pursuant to this Policy; and

(2) Distribute a copy of this Policy to all prospective Employees at the time an offer of employment with the Corporation is made or, if possible, prior to making such offer.

Part 2—Conduct of Employees

Section 7. General.

(a) It is the policy of the Corporation not to interfere in the private lives of its Directors and Employees. However, in view of the public trust confided to the Corporation by the Energy Security Act, certain standards of conduct, some of which are statutory, are required to assure the proper performance of the Corporation's business and the maintenance of public confidence in the Corporation. The provisions of this section are designed to insure the fulfillment of that trust and the maintenance of that public confidence. Adherence to the provisions in this Section requires that Directors and Employees not do indirectly what would be improper to do directly.

(b) The attention of Directors and Employees is directed to the following statutory provisions:

(1) The prohibition contained in section 118(c) of the Act (42 U.S.C. 8714(c)) relating to a Director voting on any matter in which, to his or her knowledge, he or she has a financial interest (See section 17(g) hereof).

(2) The prohibition contained in section 118(d) of the Act (42 U.S.C. 8714(d)) relating to post-employment activities of former Directors and Employees of the Corporation (See section 20 hereof).

(3) The prohibition contained in section 161 of the Act (42 U.S.C. 8761) relating to false statements in connection with certain Corporation activities.

(4) The prohibition contained in section 162 of the Act (42 U.S.C. 8762) relating to forgery of Corporation instruments and agreements.

(5) The prohibition contained in section 163 of the Act (42 U.S.C. 8763) relating to misappropriation of funds and unauthorized activities in relation to the Corporation's business.

(6) The prohibition contained in section 164 of the Act (42 U.S.C. 8764) relating to conspiracy to commit acts made unlawful by sections 161, 162, or 163 of the Act.

(7) The prohibition contained in section 171(b) of the Act (42 U.S.C. 8771(b)) relating to the exercise of the Corporation's authorities.

(8) The prohibition contained in section 121(c) of the Act (42 U.S.C. 8717(c)) and 18 U.S.C. 1905 relating to the disclosure of confidential information.

(9) The prohibition contained in 18 U.S.C. 201 relating to the soliciton or receipt of anything of value for or because of an official act.

(10) The prohibition contained in 18 U.S.C. 1719 relating to misuse of the franking privilege.

(11) The prohibition contained in 18 U.S.C. 600 relating to promises of employment or other benefit for political activity.

(12) The prohibition contained in 18 U.S.C. 601 relating to deprivation of employment or other benefit for political contribution.

(13) The prohibition contained in 18 U.S.C. 602 relating to solicitation of political contributions.

(14) The prohibition contained in 18 U.S.C. 603 relating to making political contributions.

Section 8. Gifts, Gratuities, Entertainment, and Favors.

(a) Acceptance of gifts, gratuties, entertainment, and favors from those who have or seek business with the Corporation may be a source of embarrassment to both the Corporation and the Director or Employee involved, may affect or appear to affect the objective judgment of the recipient, and may impair public confidence in the integrity of the Corporation's business relationships. Therefore, except as provided in subsection (b) of this Section, no Director or Employee shall knowingly solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, loan, or any other thing of monetary value, from any Participating Organization or any person who: (1) Has, or is seeking to obtain, contractual, or other business or financial relations with the Corporation; or (2) has interests that may be substantially affected by the performance or nonperformance of the Director's or Employee's official duty. In those cases in which the tender of any such gift, gratuity, or other thing of monetary value occurs under circumstances making the return thereof to the donor either impractical or impossible, the item involved shall be promptly delivered to the Vice President for Administration of the Corporation. All such items delivered to the Vice President shall be disposed of by him in accordance with instructions of the General Counsel of the Corporation.

(b) Notwithstanding the foregoing, a Director or Employee may:

(1) Accept gifts, entertainment, or favors given him as a result of obvious family or personal relationships (such as those between a parent, child, spouse, or other relative of the Director or Employee) when the circumstances make it clear that it is those

relationships rather than the business of the persons concerned which are the

writing. However, a Director or Employee shall not, either for or without

the Corporation under the Energy Security Act, and the need to avoid any

have access to business information of a confidential nature, including

courtesy, consideration, and promptness

Part 3—Financial Interests, Prior

relationships rather than the business of the persons concerned which are the motivating factors;

(2) Accept food and refreshments of moderate value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting or on an inspection tour where such Director or Employee is authorized by the Corporation to be in attendance;

(3) With approval of the Vice President to whom he or she reports and the Ethics Officer, accept food and refreshment, transportation, lodging, or subsistence from a consumer, environemntal, industrial, technical, trade, professional, or other association or similar group, in connection with the Employee's participation in a widely attended luncheon, dinner, seminar, conference, or similar gathering sponsored by the donor; provided that this exception shall not apply when the donor is a Participating Organization or an association or group composed principally of Participating Organizations;

(4) Accept loans from banks or other financial institutions or parties on customary term to finance proper and usual activities such as home mortgage loans;

(5) Accept unsolicited advertising or promotional material, such as pens, pencils, note pads, calendars, and other items of nominal intrinsic value; and

(6) Accept transportation to inspect or investigate a location or facility, if under the circumstances it would be unduly inconvenient or inefficient to use other transportation.

Section 9. Outside Employment and Other Outside Activity.

(a) Employees are prohibited from holding employment with any Participating Organization and shall not engage in any other outside employment or outside activity not compatible with the full and proper discharge of the duties and responsibilities of their Corporation employment. Incompatible activities include but are not limited to:

(1) Acceptance of a fee, compensation, gift, payment of expense, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, a conflict of interest; or

(2) Outside employment which tends to impair the individual's mental or physical capacity to perform his or her Corporation duties and responsibilities in an acceptable manner, or which requires time or attention during the Employee's official work hours.

(b) Within the limitations imposed by this Section, Employees are encouraged to engage in teaching, lecturing and writing. However, a Director or Employee shall not, either for or without compensation, engage in teaching, lecturing or writing that is dependent on information obtained as a result of the Employee's Corporation employment, except: (1) Where that information has been made available to the general public or will be made available on request, or (2) when the Chairman gives written authorization for the use of non-public information on the basis that the use is in the public interest. Any such outside teaching, lecturing, and writing shall clearly distinguish the views of the Employee from those of the Corporation and its management. In addition, Directors and Employees shall not accept any compensation or honorarium for any consultation, lecture, discussion, writing, or appearance the subject matter of which is devoted substantially to the responsibilities, programs, or operations of the Corporation.

(c) No Employee shall accept a fee from an outside source on account of a public appearance, speech, or lecture (1) if the public appearance or the preparation or delivery of the speech or lecture was a part of the official duties of the Employee, (2) if the public appearance, speech, or lecture was made during official working hours, or (3) if travel for the purpose of the public appearance, speech, or lecture was made at Corporation expense. In addition, no Employee shall accept a fee for the preparation, publication, or review of an article, story or book if it was prepared during official working hours or was part of the official duties of the Employee.

(d) This Section shall not preclude an Employee from:

(1) Participating in discussions and meetings of a professional nature and from receiving from outside sources (other than a Participating Organization) bona fide reimbursement for actual expenses of travel and subsistence incurred in connection with his or her participation if such Employee's participation is not a part of his official duties at the Corporation;

(2) Participating in the affairs of, or acceptance of an award for a meritorious public contribution or achievement given by a charitable, religious, professional, social, fraternal, educational, recreational, public service, or civic organization.

Section 10. Political Activity.

(a) Although Corporation personnel are free to engage in political activity as a private matter, and while it is the policy of the Corporation not to interfere in the private lives of its Directors and Employees, the public trust confided to the Corporation under the Energy Security Act, and the need to avoid any action that might adversely affect public confidence in the Corporation's operations require that special care be taken by all Directors and Employees to avoid any action that might be at odds with the ethical standards for the conduct of business established in section 1(a) of this Policy. Attention is also directed to the prohibition contained in section 8 of the Policy relating to gifts, gratuities, entertainment, and favors. This prohibition is not limited to the solicitation and acceptance of personal gifts, and includes the solicitation and acceptance of any thing of monetary value (including services) on behalf of another, including contributions to political organizations. Such solicitations from Participating Organizations are prohibited. All Directors and Employees shall also remain alert to and comply with the statutory standards of conduct based on general law referenced in section 7(b) of the Policy relating to prohibited political activity. The referenced statutes include section 600 of title 18 of the United States Code, which makes it a federal offense for anyone to promise a benefit made possible by an Act of Congress, or any special consideration in obtaining such benefit, as consideration for any political activity or the support of or opposition to any candidate or political party in connection with any general or primary election, or political convention.

Section 11. Confidential Information.

(a) Section 163(a)(4) of the Act makes it a criminal offense for anyone to give to any person any unauthorized information concerning any future action or plan of the Corporation, or having such information to invest or speculate, directly or indirectly, in the securities or property of any company, bank, or corporation receiving financial assistance from the Corporation. Criminal statutes also prohibit a Director or Employee from disclosing, other than as provided by law, confidential business information obtained through his employment (section 121(c) of the Act, and 18 U.S.C. 1905).

(b) A Corporation Director or Employee shall not make use or give the appearance of making use, or permit others to make use or give the appearance of making use, of Corporation information not made available to the general public, for the purpose of furthering a private interest.

(c) As a result of their official duties, Directors and Employees will frequently have access to business information of a confidential nature, including commercial, financial, or proprietary data provided by companies seeking financial assistance from the Corporation. Such information is disclosed for official use within the Corporation and is made available for no other purpose than consideration of the financial assistance application or other Corporation matters. Where such confidential business information might be compromised in responding to outside inquiries from apparently authorized or legitimate sources, such as government agencies, these inquiries should be referred to the Director of Public Disclosure to determine whether the nature and circumstances of such inquiries justify disclosure of the particular information sought.

Section 12. Use of Corporation Property.

A Director or Employee shall not, directly or indirectly, use, or allow the use of, Corporation property of any kind, including property leased to the Corporation, for other than officially approved activities. A Director or Employee has a positive duty to protect and conserve Corporation property, including equipment, supplies, and other property entrusted or issued to him.

Section 13. Financial Integrity/ Gambling.

(a) *Personal Financial Integrity*—An Employee shall pay each just financial obligation in a proper and timely manner, especially one imposed by law such as federal, state, or local taxes. For the purpose of this section, a "just financial obligation" means one acknowledged by the employee or reduced to judgment by a court, or one imposed by law such as federal, state, and local taxes, and "in a proper and timely manner" means in a manner which the Chairman determines does not, under the circumstances, reflect adversely on the Corporation as an employer.

(b) *Gambling, Betting, and Lotteries*—An Employee shall not participate, while on Corporation owned or leased property, or while on duty for the Corporation, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing numbers slips or tickets.

Section 14. Courtesy.

An Employee shall conduct himself in a manner that will assure effective accomplishment of his responsibilities and must observe the requirements of courtesy, consideration, and promptness in dealing with those seeking the Corporation's assistance.

Section 15. Availability of Counseling.

Each Director or Employee may consult the Ethics Officer at any time during normal Corporation hours for counseling on problems raised by this Policy.

Section 16. Procedures and Remedial Action.

(a) Information or complaints from any source evidencing violations of the ethical standards and standards of conduct prescribed in this Policy, whether emanating from within or outside the Corporation, shall be brought to the attention of the Chairman, who shall take immediate action to resolve the matter. All such complaints or allegations shall be referred to the Ethics Officer, who shall review the same and advise the Chairman in writing whether the matter should be resolved by administrative action, is appropriate for investigation by the Inspector General, or should be referred to the Department of Justice for investigation. Any such information or complaint involving a Director or Officer of the Corporation shall be referred to the Board of Directors together with the Chairman's recommendation for appropriate action. Information which, following review, affords reasonable grounds to believe that there has been a violation of criminal law, shall be promptly referred to the Department of Justice for investigation.

(1) Administrative Sanctions—

(i) A violation by an Employee of the ethical standards and standards of conduct prescribed by this Policy may be cause for appropriate disciplinary action, which may be in addition to any penalty prescribed by law.

(ii) When, after review of the report of the Ethics Officer and/or the report of the Inspector General, and after consideration of any explanation and information provided by the Employee, the Chairman decides that remedial action is required, he shall take appropriate disciplinary action against the Employee, which action may include, among others, oral admonishment, written reprimand, suspension, or termination of employment. When appropriate, the Chairman shall recommend to the Board of Directors the suspension or termination of employment of Officers. Disciplinary and other remedial action shall be effected in accordance with any applicable laws.

Part 3—Financial Interests, Prior Employment, and Similar Interests

Section 17. Restrictions Related to Employee Financial Interests, Prior Employment, and Similar Interests.

(a) The maintenance of public confidence in the Corporation requires that a Director or Employee not take any action which would constitute the use of his or her Corporation position to advance personal or private interests.

(b) After assuming an office or employment with the Corporation, a Director or Employee shall not acquire any financial interest in a Participating Organization while it is on the list of Participating Organizations maintained by the Ethics Officer pursuant to section 6(b)(5) above.

(c) Unless authorized to do so as provided hereafter in this Section, an Employee shall not participate personally and substantially as an Employee in a particular matter in which the employee knowingly has a financial interest or in which he or she participated personally and substantially prior to employment by the Corporation.

(d) For purposes of this Section—

(1) An Employee "participates" in a particular matter through decision, approval, disapproval, recommendations, evaluation, the rendering of advice, negotiation, investigation, implementation, or otherwise.

(2) "Particular matter" is any synthetic fuel project proposal or other application, request for determination, determination, proposal, agreement, contract, claim, controversy, or other similar matter under consideration within the Corporation.

(3) A "financial interest" of an Employee includes the financial interest of the Employee's spouse, dependent child, partner, or an organization (other than the Corporation) in which the Employee is serving as an officer, director, trustee, partner, or employee, or any person or organization with whom the Employee is negotiating or has an arrangement concerning prospective employment. An Employee shall be deemed to be negotiating for prospetive employment upon an expression of interest in response to a solicitation for future employment by either the Employee or the person or organization.

(e) With the approval of the Chairman, the Ethics Officer may waive the restrictions of subsection (c) of this Section in a particular matter for an individual if the Ethics Officer determines in writing that the interest is

too remote or too inconsequential, or the prior participation was too

submit the report of each Director, as well as his or her own report, to the

Part 5—Financial Interests of Other

too remote or too inconsequential, or the prior participation was too insubstantial, to affect the integrity of the services which the Corporation may expect of the individual. This determination shall be made after consultation with the Vice President in charge of the Employee's work assignment. Where it appears that a conflict of interest would arise in other matters in which the Employee might in the future be involved in the performance of normal duties, the Ethics Officer will so advise the Chairman and appropriate action shall be taken.

(f) The Chairman may by rule waive the restrictions of subsection (c) of this Section for classes of financial interests which the Chairman determines are too remote or too inconsequential to affect the integrity of an Employee's services. The restrictions on the following financial interests are waived pursuant to this paragraph:

Financial interests in mutual funds, regulated investment companies or similarly constituted entities the portfolios of which are widely diversified, and similarly constituted commercially fungible entities.

(g) Procedures Applicable to Directors.

(1) Subsection 118(c) of the Act prohibits a Director from voting on any matter respecting any application, contract, claim, or other particular matter pending before the Corporation, in which, to the Director's knowledge, he or she, his or her spouse, minor child, partner, or an organization (other than the Corporation) in which the Director is serving as an officer, director, trustee, partner, or employee, or any person or organization with whom the Director is negotiating or has any arrangement concerning prospective employment, has a financial interest. This prohibition shall not apply if the Director first advises the Board of Directors of the nature of the particular matter in which he or she proposes to participate and makes full disclosure of such financial interest, and the Board of Directors determines by majority vote that the financial interest is too remote or too inconsequential to affect the integrity of such Director's services for the Corporation in that matter. The Director involved shall not participate in such determination.

(2) Prior to any meeting of the Board of Directors at which the Board is expected to vote on any matter respecting any application, contract, claim, or other particular matter pending before the Corporation, the Ethics Officer shall review the financial disclosure report filed with the Corporation by each Director and shall advise each Director in writing if any reported financial interest is within the purview of section 118(c) of the Act.

(3) If a Director has a financial interest within the purview of section 118(c)(1) of the Act and believes that the interest is too remote or too inconsequential to affect the integrity of his services for the Corporation in the particular matter on which the Board is scheduled to vote, he may request the Ethics Officer to evaluate the particular financial interest and make a recommendation to the Board of Directors as to whether, in his opinion, the financial interest in question is too remote or too inconsequential to affect the integrity of the Director's service within the meaning of section 18(c)(3) of the Act.

Part 4—Executive Personnel Financial Disclosure Requirements

Section 18. Financial Disclosure Requirements for Directors and Certain Employees.

(a) *Statutory.* Section 118(a) of the Act and Title II of the Ethics in Government Act of 1978, (the "1978 Act") (Pub. L. 95–521, as amended), require the Directors and certain Employees of the Corporation to disclose personal financial interests and a description of certain employment relationships in order to avoid potential conflicts of interest, and the appearance of such conflicts, which may arise as they carry out the duties of their positions. The 1978 Act directs the Office of Government Ethics ("OGE") to provide for the systematic review of the financial holdings of both current and prospective Directors and Employees. The Office of Personnel Management ("OPM"), on the recommendation of the Director of OGE, has promulgated regulations establishing the procedures for the filing, review, and public availability of the Financial Disclosure Report required under the 1978 Act. (5 CFR Part 734).

(b) *General Policy and Purpose.* The purpose of this Section is to implement the statutory requirements and to provide guidelines for those Directors and those Employees who are required to submit financial disclosure reports under the 1978 Act and the OPM regulations. Reference should be made to the Ethics Act and regulations for detailed statements of the law, definitions, exemptions, limitations, and illustrative examples (5 CFR 734.103).

Under Title II of the Ethics Act, Directors and Employees whose positions are compensated at a rate equivalent to or above that payable for the grade GS–16 of the Federal General Schedule under 5 U.S.C. 5332, are required to complete financial disclosure forms, disclosing any other employment relationships, any income received (other than from Corporation employment), assets, liabilities, and certain purchases, sales, exchanges, and gifts. These reports are not net worth statements. Only assets held as investments and certain other items must be reported. Items for personal use, such as a residence, a personal automobile or jewelry not held for sale need not be reported. Although the reports must be made available if requested by a member of the public, subject to compliance with certain procedures set out in the OPM regulations, they cannot be used for any commercial purpose, for establishing credit rating or, directly or indirectly, in the solicitation of money for any political, charitable or other purpose. In the event that a report is used by a person for one of these prohibited purposes, the Attorney General may institute a civil action against such person.

(c) *Persons Required to File—General Requirements for Filing.* Each Director and each Employee compensated at a rate equivalent to or above the rate payable for grade GS–16 of the General Schedule prescribed by 5 U.S.C. 5332, and any other Employee in a position determined by the Director of OGE to be of equal classification and certain others unless excluded pursuant to 5 CFR 734.203 (hereinafter referred to as a "reporting individual"), shall file a report in accordance with the following rules:

(1) A reporting individual who, during any calendar year, performs the duties of his or her office for more than sixty days shall file a report on or before May 15 of the succeeding year.

(2) Within thirty days of assuming a position or office at the Corporation, a reporting individual shall file a report, unless such individual

(a) Has left another position within the thirty days prior to the assumption of the Corporation position in which a report required by 5 CFR 734.201 has previously been filed, or

(b) Has already filed such a report as a nominee for the Corporation position.

(3) On or before the thirtieth day after termination of his or her Corporation employment, a reporting individual shall file a report for the period from the end of the calendar year with respect to which a report was last filed to the date on which the individual left such office or position. If the individual assumes employment within thirty days of leaving the Corporation in another position or office in which the report is required to be filed pursuant to Title II of the 1978 Act, he or she need not file a report under this paragraph.

(4) The Ethics Officer may, for good cause shown, grant to any Employee or class of Employees an extension of up to 45 days. OGE may grant an additional extension of up to 45 days if it makes a determination, based upon the reporting indvidual's specific reasons which have been forwarded to OGE by the Ethics Officer along with his or her own comments on the request, that there is good cause shown for an extension.

(5) Any reporting individual who, as determined by the Ethics Officer, is not reasonably expected to perform the duties of his or her office for more than sixty days in a calendar year need not file a report.

(6) Notwithstanding the provisions of paragraph (5) of this Section, if the reporting individual does perform the duties of his or her office or position for more than sixty days in a calendar year, and (i) if such individual is a new entrant or nominee, he or she shall file a report within fifteen calendar days after the sixty-first day unless the individual has filed a request for a waiver which is subsequently granted or (ii) if such individual is terminating employment, he or she shall file a report required by paragraph (3) of this section.

(7) In unusual circumstances, the Director of OGE may grant a request for a waiver of any public reporting requirement otherwise applicable under this Section for a reporting individual who is reasonably expected to perform, or has performed, the duties of his or her office for less than 130 days in a calendar year. Such a determination will be made after OGE has received advice from the Corporation and shall be in accordance with the guidelines established in 5 CFR 734.205.

(d) *Contents of Reports.* The information required to be included in each report is fully described in the instructions accompanying the Executive Personnel Financial Disclosure Report (S.F. 278) prescribed by OGE and in regulations promulgated by OGE (5 CFR Part 734), which requirements are incorporated herein by reference. Directors and Employees are encouraged to consult with the Ethics Officer, as necessary, concerning such requirements.

(e) *Filing, Custody, Review.* A reporting individual shall file the report with the Ethics Officer of the Corporation, who shall note on the report or supplemental report the date it is received. The Ethics Officer shall submit the report of each Director, as well as his or her own report, to the Director of OGE after he or she has reviewed it (except that the Chairman or his delegate shall review the report of the Ethics Officer).

(f) The Corporation shall, within fifteen days after any report is received by the Ethics Officer, make each report filed with it under this Part available to the public by permitting inspection of such report by, or furnishing a copy of such report to, any person who makes a written application stating: (1) The person's name, occupation and address, (2) the name and address of any other person or organization on whose behalf the inspection or copy is requested, and (3) that such person is aware of the prohibitions on obtaining or using the report for (a) any unlawful purpose, (b) any commercial purpose, other than by news and communications media for dissemination to the general public, (c) determining or establishing the individual's credit rating, or (d) use, directly or indirectly, in the solicitation of money for any political, charitable, or other purpose. The Corporation may require a reasonable fee to be paid which is necessary to recover the direct cost of reproduction or mailing of such report, or may waive or reduce the fee if the Corporation determines that such waiver or reduction is in the public interest.

All reports shall be retained by the Corporation for six years, during which time they shall be made available to the public as provided above. After the six-year period a report shall be destroyed, unless needed in an ongoing investigation.

(g) The Ethics Officer shall review each report within 60 days after the date of filing (or earlier if required by the expedited procedure of 5 CFR 734.604(c)) in order to determine that the individual is in compliance with applicable laws and regulations and that the interests or positions disclosed on the form do not violate any applicable statute or regulation. Such review shall be conducted pursuant to 5 CFR 734.604.

(h) The Chairman of the Corporation shall refer to the Attorney General the name of any individual he or she has reasonable cause to believe has willfully falsified or willfully failed to file information required to be reported and may take any appropriate personnel or other action in accordance with applicable law or Corporation policy against such individual.

Part 5—Financial Interests of Other Corporation Employees

Section 19. Financial Disclosure Statements.

(a) *Filing Requirement.* To the extent they are not covered by Part 4 of these Standards of Conduct (which implements the financial disclosure provisions of title II of the Ethics in Government Act of 1978) statements of employment and financial interests shall also be submitted by:

(1) Each Corporation employee whose position is compensated at or above the pay level for GS–13 under section 5332 of Title 5, United States Code, the incumbent of which is responsible for making a Corporation decision or taking a Corporation action in regard to:

(i) Contracting or procurement;

(ii) Administering or monitoring a financial assistance agreement;

(iii) Regulating or auditing a private or other non-federal enterprise; or

(iv) Other activities where the decision or action has an economic impact on the interests of any other non-federal enterprise;

(2) Each Corporation employee whose position is compensated at a rate equivalent to that payable for Grade GS–13 or above of the General Schedule established by Chapter 53 of Title 5 of the United States Code who occupies a position the basic duties and responsibilities of which consist of the investigation, evaluation, negotiation, administration, or implementation of any synthetic fuels project formally proposed to the Corporation or the preparation of the comprehensive strategy for a national synthetic fuels development program to be recommended to the Congress by the Corporation;

(3) Such other employees who are in positions which the Chairman determines require the incumbent to report employment and financial interests in order to carry out the purposes of law, Executive Order 11222 of May 8, 1965, this Part 5 or any other Corporation regulations.

(4) Notwithstanding paragraph (1) above, employees in positions which meet the criteria of paragraph (1) may be excluded from the reporting requirement when the Chairman determines that:

(i) The duties of a position are such that the likelihood of the incumbent's involvement in a conflicts of interest situation is remote; or

(ii) The duties of a position are at such a level of responsibility that the submission of a statement of employment anf financial interests is

not necessary because of the degree of supervision and review over the incumbent or the inconsequential effect

Employment and Financial Interests" or supplementary statement any

not necessary because of the degree of supervision and review over the incumbent or the inconsequential effect of the duties of the position on the integrity of the Corporation.

(5) An employee is not required to submit in a statement of employment and financial interests or supplementary statement any information relating to the employee's connection with, or interest in, a professional society, a charitable, religious, social, fraternal, recreational, public service, civic or political organization or a similar organization and not conducted as a business enterprise. For the purpose of this Section, educational and other institutions doing research and development or related work involving contracts with the Corporation are deemed "business enterprises" and are required to be included in an employee's statement of employment and financial interests.

(b) *Time and Place for Submission.* The statements referred to in this Section shall be submitted to the Ethics Officer. An Employee who, after the effective date of this Policy, is appointed to a position requiring submission of such statement, shall submit such statement within 30 days after appointment. Each covered Employee who previously submitted any such statement shall submit a supplementary statement on or before June 30 of each succeeding year, regardless of whether or not there were occurrences which require changes in, or additions to, information previously submitted.

(c) *Form of Statements.* Statements of employment and financial interests shall be submitted on a standard form "Confidential Statement of Employment and Financial Interests", copies of which are available in the Personnel Office of the Corporation.

The following rules shall be observed in preparing the statements:

(1) The interest, if any, of a spouse, minor child, or other member of the Employee's immediate household is considered to be an interest of the Employee. For the purpose of this Section, "member of an Employee's immediate household" means those blood relations who are residents of the Employee's household.

(2) If any information required to be included on a "Confidential Statement of Employment and Financial Interests" or supplementary statement, including holdings placed in trust, is not known to the Employee but is known to another person, the Employee shall request that other person to submit information on his behalf.

(3) An employee is not required to submit in a "Confidential Statement of Employment and Financial Interests" or supplementary statement any information relating to the Employee's connection with, or interest in, a professional society, a charitable, religious, social, fraternal, recreational, public service, civic or political organization or a similar organization not conducted as a business enterprise.

(d) *Confidentiality of Employees' Statements.* The Corporation shall hold each Confidential Statement of Employment and Financial Interests, and each supplementary statement, filed under this Section in confidence. To insure this confidentiality, the Ethics Officer is designated to review and retain the statements, and shall be responsible for the maintenance of the statements in confidence, and he shall not allow access to, or allow information to be disclosed from a statement except as necessary to carry out the purpose of this section. The Corporation shall not disclose information from a statement except as the Chairman may determine for good cause shown. All statements filed under this Section shall be retained by the Corporation for six years, after which period a statement shall be destroyed, unless needed in an ongoing investigation.

(e) *Effect of Employees' Statements on Other Requirements.* The statements required by this Section are in addition to, and not in substitution for, or in derogation of, any similar requirement imposed by law or regulation. The submission of a statement or supplementary statement by an Employee does not permit him or any other person to participate in a matter in which his or the other person's participation is prohibited by law or this Policy.

(f) *Review of Statements and Remedial Action.* All statements submitted under this Section shall be reviewed by the Ethics Officer. If, in the judgment of the Ethics Officer, any statement discloses a conflict of interest, or an apparent or potential conflict of interest between the interests of the Employee and the performance of such Employee's duties at the Corporation, the Ethics Officer shall consult with such Employee and shall take such action as the Ethics Officer deems appropriate to resolve such conflict, or apparent or potential conflict. If the Ethics Officer is unable to resolve the situation, he shall report the matter to the Chairman who shall then take appropriate remedial action to end such conflict or potential conflict, or apparent conflict. Remedial action may include, but is not limited to:

(1) Changes in assigned duties;

(2) Disqualification for a particular assignment;

(3) Divestment by the Employee of his conflicting interest; or

(4) Disciplinary action.

Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws and regulations.

(g) *Exclusions From Reporting Requirements.* (1) Any Employee who considers that his or her position has been improperly included among those requiring the submission of the statements required by this Section may submit the matter for review by the Ethics Officer.

(2) Employees in positions that meet the criteria in subsection (a) of this Section may be excluded from the reporting requirements of this Section if the Chairman determines that:

(a) The duties of a position are at such a level of responsibility that the likelihood of the incumbent's involvement in a conflict of interest situation is remote; or

(b) The duties of a position are at such level of responsibility that the submission of a statement is not necessary because of the degree of supervision and review over the incumbent or the inconsequential effect of the duties of the position on the integrity of the Corporation.

Part 6—Post-Employment Conflicts of Interest

Section 20. Post-Employment Conflicts of Interest.

(a) *Statutory.* Sections 118(b) and 118(d) of the Act relate to post-employment activities of Directors and Employees. Section 118(b) applies to former federal employees employed by the Corporation and provides that the laws governing post-federal employment shall not apply to them while acting on behalf of the Corporation. Section 118(d) provides that section 207(a) of Title 18 of the United States Code (and subsections (f), (h), and (j) of such Section to the extent they relate to subsection (a)) shall apply to former Directors and Employees of the Corporation as if they were former officers or employees of the executive branch of the United States Government, and also provides that section 207(a) shall apply to the Corporation as if it were an agency of the executive branch of the United States Government. In addition, under the Ethics in Government Act of 1978 the Office of Government Ethics within the Office of Personnel Management has supervisory jurisdiction over the administration of subsection (j) of section 207 throughout the Government. Pursuant to the 1978 Act, the OPM has, on the recommendation of the Director of OGE and in consultation with the Attorney General, issued regulations in 5 CFR Part 737 to guide agencies (including the Corporation) in exercising the administrative enforcement authority contained in section 18 U.S.C. 207(j), and to provide guidance to individuals who must conform to the law. Criminal enforcement of the provisions of 18 U.S.C. 207(a) is the exclusive responsibility of the Attorney General.

(b) *Purpose.* It is the purpose of this Section to provide guidelines for Directors and Employees within the framework of 18 U.S.C. 207(a) and the OPM regulations. Reference should be made to the regulations, and the Ethics Officer should be consulted, for detailed statements of the law, definitions, exemptions, limitations and illustrative examples.

(c) *Guidelines.* The statute bars certain acts by former Directors and Employees, which may reasonably give the appearance of making unfair use of prior Corporation employment and affiliations. It does not, however, bar any former Director or Employee, regardless of rank, from employment with any private or public employer after he or she has left the Corporation's employ. Nor does it bar employment even on a particular matter in which the former Director or Employee had major official involvement except in certain circumstances involving persons engaged in advocacy. Rather, the specific prohibitions arise from a combination of the following factors which in any given situation may include the following: (1) The nature and extent of the involvement in a particular matter by the individual while employed by the Corporation, (2) the identity of the particular matter with which the individual dealt while employed by the Corporation with the same matter with respect to which he or she may represent others after leaving the Corporation, (3) the manner in which the former Director of Employee appears before or communicates with the Corporation or the U.S. Government, and (4) the position occupied by the individual while in the Corporation's employ.

(d) Permanent restriction against any former Director or Employee acting as representative as to a particular matter in which the Director or Employee personally and substantially participated.

(1) The Prohibition of 18 U.S.C. 207(a). No former Director or Employee after terminating employment with the Corporation shall knowingly act as agent or attorney for, or otherwise represent any other person, in any formal or informal appearance before, or with intent to influence, make any oral or written communication on behalf of any other person: (1) To the Corporation or otherwise to the United States, (2) in connection with any particular matter involving a specific party, and (3) in which matter such Director or Employee participated personally and substantially while with the Corporation.

(2) Pertinent combinations of factors involved in this prohibition include the following:

(a) Since the prohibition has no time limit, it raises a permanent bar to the proscribed activity;

(b) The former Director or Employee is prohibited from acting as agent or attorney for any other person, but not for himself;

(c) It prohibits representation by an "appearance" even if only in a technical procedural sense regardless of physical presence;

(d) It also prohibits any communication with intent to influence;

(e) The prohibition against an appearance or communication extends to other departments, agencies and courts of the United States and is not limited to the Corporation;

(f) The representation by the former Director or Employee must be in connection with a particular matter involving specific parties; and

(g) The particular matter must be one in which the former Director or Employee participated personally and subsantially while in the Corporation's employ.

(3) The prohibition in paragraph (1) of this subsection shall not apply to:

(a) Any appearance, attendance, or communication by a former Director or Employee who is employed by and acting on behalf of the United States; or

(b) Any appearance or communication by the individual where such appearance or communication is made in response to a subpoena, or concerns any matter of an exclusively personal and individual nature such as pension benefits.

(e) *Exemption for persons with special qualifications.* (1) A former Director or Employee may be exempted from the prohibitions of 18 U.S.C. 207(a) and this Section if the Chairman, in consultation with the Director of OGE, executes a certification published in the Federal Register that such individual has outstanding qualifications in a scientific, technological, or other technical discipline and is acting with respect to a particular matter which requires such qualifications and that the national interest would be served by such individual's participation.

(2) This exemption shall be used only in instances where the former Director or Employee's services are needed on so continuous and comprehensive a basis that other procedures for the communication of technical information designed to isolate the individual from other aspects of the matter would burdensome and impractical.

(3) The exemption shall be effective upon the execution of the certification required by paragraph (1), provided that it is transmitted to the Federal Register for publication.

(f) *Testimony and statements under oath or subject to penalty of perjury.* A former Corporation Director or Employee may make any statement required to be made under oath or subject to penalty of perjury.

(g) *Administrative enforcement.*—(1) *Information of Violation.* On receipt of information regarding a possible violation of 18 U.S.C. 207(a) and after determining that such information appears substantiated, the Chairman, or the Ethics Officer, if so directed by the Chairman, shall expeditiously provide such information along with any comments on pertinent Corporation policy to the Director of the OGE and to the Criminal Division, Department of Justice. Any continuing investigation by the Corporation on administrative action shall be coordinated with the Department of Justice to avoid prejudicing criminal proceedings unless the Department of Justice advises the Corporation that it does not intend to initiate criminal prosecution (18 U.S.C. 207, 5 CFR 737.27).

(2) *Initiation of Administrative Proceedings.* Whenever the Corporation has determined after appropriate review that there is reasonable cause to believe that a former Director or Employee has violated any of the provisions of 18 U.S.C. 207(a) or 5 CFR Part 737, it may initiate an administrative disciplinary proceeding by providing the former Director or Employee with notice as defined in the statute. Prior to a determination of sufficient cause to initiate an administrative disciplinary hearing, all records under the Corporation's control relating to allegations of a violation shall be confidential, subject to applicable law (18 U.S.C. 207, 5 CFR 737.27).

(3) *Notice and Hearing.* The notice of an administrative disciplinary proceeding and any hearing pursuant to such notice requested by the former Director or Employee shall follow the

procedures set forth in 5 CFR 737.27(a)(3), (4), (5), (6), (7) and (8).

(4) *Administrative Sanctions.* Actions

staff consultant on more than 60 days during any perod of 365 consecutive days shall submit to the Corporation for

receiving financial assistance from the Corporation.

18 U.S.C. 1905 relating to the disclosure of confidential information.

the head excursion was beyond the 32 inch maximum allowed by the standard.

is requested but not required that five copies be submitted.

procedures set forth in 5 CFR 737.27(a)(3), (4), (5), (6), (7) and (8).

(4) *Administrative Sanctions.* Actions which may be taken by the Corporation in the case of an individual who is found in violation of 18 U.S.C. 207(a) or 5 CFR Part 737, after a final administrative decision, or who failed to request a hearing after receiving adequate notice, include: (1) Prohibiting the individual from making, on behalf of any other person except the United States, any formal or informal appearance before, or, with the intent to influence, any oral or written communication to, the Corporation on any matter of business for a period not to exceed five years, which may be accomplished by directing Corporation Employees to refuse to participate in such appearance or to accept any such communications, or (2) taking other appropriate desciplinary action.

Part 7—Procedures and Standards of Conduct Applicable to Consultants

Section 21. Procedures Applicable to Consultants.

(a) This Section sets forth procedures which shall be observed in appointing and utilizing consultants.

(1) All individuals and organizations retained to perform consulting services for the Corporation shall be required to read the "Standards of Conduct for Consultants" set forth in subsection (b) of this Section.

(2) Prior to appointment or retention prospective consultants shall be required to make disclosure of any financial interest in, any affiliation with any person, firm, or organization listed on the list of Participating Organizations published by the Ethics Officer pursuant to section 6(b)(5) of this Policy. "Affiliation" includes, but is not limited to service as an employee, officer, member, owner, director, trustee, advisor, or consultant.

(3) No consultant having any financial interest in or affiliation with any Participating Organization shall be retained by the Corporation, unless the Ethics Officer determines in writing: (1) That the financial interest or affiliation is too remote or too inconsequential to affect the integrity of the services which the Corporation may expect from the consultant or (2) that satsifactory arrangements have been made to obviate any conflicts of interest on the part of such consultant. This detemination shall be made after consultation with the Employee proposing retention of the consultant.

(4) Each individual who provides or is expected to provide services on a full-time, part-time, or intermittent basis as a staff consultant on more than 60 days during any perod of 365 consecutive days shall submit to the Corporation for review by the Ethics Officer a statement of employment and financial interests in accordance with section 19 of this Policy, and shall keep such statement current throughout his or her employment with the Corporation by the submission of annual statements.

(5) The Ethics Officer shall advise those authorizing the services of consultants of the requirements of this section, and each Officer of the Corporation shall observe such requirements in engaging consultant services for the Corporation.

(b) *Standards of Conduct for Consultants.* The following is intended for the guidance of consultants retained to provide services to the Corporation.

(1) *Inside information.* A consultant must conduct himself in a manner devoid of the slightest suggestion that he is exploiting his Corporation consultancy for private advantage. Thus, a consultant must not, on the basis of any inside information gained in the course of his activities with the Corporation invest or recommend investment in any commodities, land or securities. Moreover, he should be careful in his personal financial activities to avoid any appearance of acting on the basis of information obtained in the course of his activities with the Corporation.

(2) It is important for a consultant to have access to Corporation data pertinent to this duties and to maintain familiarity with the Corporation's plans and programs and the requirements thereof, within the area of his responsibility. Where such data have been made generally available to the public, there is generally no impropriety in a consultant's utilizing such information in the course of his non-Corporation activitites after it has become so available. However, a consultant may, in addition, acquire information which is not generally available to those outside the Corporation. In that event, he may not use such information for the benefit of a business or other entity by which he is employed or retained on in which he has a financial interest.

(3) Consultants must also be alert to section 163(a)(4) of the Energy Security Act which makes it a criminal offense for anyone to give to any person any unauthorized information concerning any future action or plan of the Corporation, or having such knowledge to invest or speculate, directly or indirectly, in the securities or property of any company, bank, or corporation receiving financial assistance from the Corporation.

(4) Consultants and advisors are encouraged to confer with the Ethics Officer and other appropriate persons at the Corporation to assist them in the identification of information not generally available and in the resolution of any acutal or potential conflict between duties to the Corporation and to other employers or clients.

(5) Occasionally an individual who becomes a consultant to the Corporation may, subsequent to his designation as such, be requested by another party to act in a similar capacity. In some cases the request may give the appearance of being motivated by the desire of the other party to secure inside information. Where the consultant has reason to believe that the request for his services is so motivated, he should make a choice between acceptance of the tendered employment and continuation of his Corporation consultancy. In such circumstances he may not engaged in both.

(6) A consultant shall not use his position in any way to coerce, or give the appearance of coercing, another person to provide any financial benefit to him or persons with whom he has family, business, or financial ties.

(7) A staff consultant shall comply with section 8 of this Policy relating to the solicitation and acceptance of gifts and other things of monetary value from parties having business before the Corporation.

(c) *Statutory provisions.* The attention of all Corporation consultants is directed to the following statutory provisions:

(1) The prohibition contained in section 161 of the Act (42 U.S.C. 8761) relating to false statements in connection with certain Corporation activities.

(2) The prohibition contained in section 162 of the Act (42 U.S.C. 8762) relating to forgery of Corporation instruments and agreements.

(3) The prohibition contained in section 163 of the Act (42 U.S.C. 8763) relating to misappropriation of funds and unauthorized activities in relation to the Corporation's business.

(4) The prohibition contained in section 164 of the Act (42 U.S.C. 8764) relating to conspiracy to commit acts made unlawful by sections 161, 162, or 163 of the Act.

(5) The prohibition contained in section 171(b) of the Act (42 U.S.C. 8771(b)) relating to the exercise of the Corporation's authorities.

The prohibition contained in section 121(c) of the Act (42 U.S.C. 8717(c)) and 18 U.S.C. 1905 relating to the disclosure of confidential information.

(7) The prohibition contained in 18 U.S.C. 201 relating to the solicitation or receipt of anything of value for or because of an official act.

(8) The prohibition contained in 18 U.S.C. 1719 relating to misuse of the franking privilege.

United States Synthetic Fuels Corporation.

BILLING CODE 0000-00-M

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. IP85-11; Notice 1]

California Strolee, Inc.; Receipt of Petition for Determination of Inconsequential Noncompliance

California Strolee, Inc., of Rancho Dominguez, California, has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.*) for an apparent noncompliance with 49 CFR 571.213, Motor Vehicle Safety Standard No. 213, *Child Seating Systems*, on the basis that it is inconsequential as it relates to motor vehicle safety.

This Notice of Receipt of a petition is published under section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Paragraph S5.3.1 of Federal Motor Vehicle Safety Standard No. 213, requires that on front facing child restraint systems, the test dummy's torso shall be retained within the system and no portion of the test dummy's head shall pass through the vertical transverse plane that is 32 inches forward of a point Z on the standard seat assembly, *et seq.*

In periodic testing of their production, the petitioner found that one of its booster seat component suppliers had changed the type of plastic used in molding the bolster, which helps retain the occupant and spreads the chest loads over a wider area. Strolee states that approximately 4,367 units of its Number 605 booster seat shields were produced with the wrong polymer formulation by its supplier, causing cracking and excessive head excursion. In testing conducted by the petitioner, the head excursion was beyond the 32 inch maximum allowed by the standard. Test results, Table I, show a maximum excursion of 1.5" above the limit imposed by the standard.

TABLE 1.—TEST SPECIFICATIONS AND RESULTS

Date	Head excursion (32 in maximum)	Knee excursion (36 inch maximum)	Head injury criterion (1,000 maximum)	Chest peak G's (60 G's maximum)
Apr. 23, 1985	33.5	29.2	455	36
May 2, 1985	32.9	27.7	306	29
May 2, 1985	31.8	26.5	364	28
May 2, 1985	31.7	27.8	306	30
May 2, 1985	32.7	27.1	585	29
May 9, 1985	30.5	26.9	312	15
May 9, 1985	31.2	28.1	434	13

Paragraphs S5.1.1 of the standard requires that, "each child seat restraint system shall: (a) exhibit no complete separation of any load bearing structural element and no partial separation exposing either surfaces with a radius of less than ¼ inch or surfaces with protrusions greater tha ⅜ inch above the immediate adjacent surrounding contactable surface of any structural element of the system;"

Strolee states that, "in all of these tests, the child model remained within the unit and the cracks referred to did produce separation of the product. In sum, for the product run with the different plastic, at some speeds, a slightly excessive head excursion was observed, but the unit protected the child well within required ranges on other standards and held the child within the unit itself."

The petitioner indicated that cracking did not occur at speeds below 28 miles per hour, and that 28 mph appears to be the threshold for excessive head excursion.

"For the reasons set forth herein, having quickly stopped production and shipping of the units manufactured with the questionable plastic, and given the fact that even the questionable plastic, when subjected to the range of tests described above, generally performed in a fashion protective of the child, and within standards, Strolee petitions for a determination that the condition noted herein, while sometime producing a noncompliance with the head excursion portions of Motor Vehicle Standard No. 213, is inconsequential."

Interested persons are invited to submit written data, views and arguments on the petition of Strolee of California described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, the Notice will be published in the **Federal Register** pursuant to the authority indicated below.

Comment closing date: August 21, 1985.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on July 17, 1985.

Barry Felrice,

Associate Administrator for Rulemaking.

UNITED STATES INFORMATION AGENCY

A Grants Program for Private Not-for-Profit Organizations in Support of International Educational and Cultural Activities

The United States Information Agency (USIA) announces a program of selective assistance and limited grant support to non-profit activities of United States institutions and organizations in the Private Sector. The primary purpose of the program is to enhance the achievement of the Agency's international public diplomacy goals and objectives by stimulating and encouraging increased private sector commitment, activity, and resources. The information collection involved in this solicitation is covered by OMB Clearance Number 3116–0175, entitled "A Grants Program for Private Organizations", expiration date January 31, 1987.

The United States Information Agency is interested in working cooperatively with private sector organizations and is requesting proposals (deadline August 25, 1985) for the following program:

USIA African Regional Communication Project

Summary

USIA plans to support a pilot exchange program for Deans and Professors of Journalism from francophone Africa to familiarize them with journalism education at both the theoretical and practical level in the United States. The twenty-one to twenty-eight day program will take place sometime between November 1985 and April 1986, the precise period to be determined in consultation with ESIJY and CESTI (see following paragraph).

Background

As part of the United States government's commitment to sponsor programs for journalists, USIA will support a number of exchanges designed to provide project participants with non-ideological professional experience in communications. These USIA designed activities are intended to focus on the establishment of bilateral or regional programs for communication training and on the improvement of communication technology in developing nations. While the role and level of development of the mass media vary from country to country within Africa, two existing regional schools of journalism provide training for many of the key journalists from francophone Africa. These two schools—one is located in Cameroon (International College of Journalism, ESIJY) and the other is in Senegal (Centre for Information Studies, CESTI)—have been selected as the most appropriate organizations with which to initiate this project. In addition, USIA has determined that the smaller national schools of journalism in Zaire and Burundi should also participate in this undertaking. With heightened interest in journalism throughout francophone Africa, USIA would like to include representatives from countries not currently conducting formal journalism training programs.

Project Proposal Information

All proposals will be judged on effectiveness in accomplishing the following project goals: (1) Providing African participants with an enhanced understanding of how U.S. universities train journalists; (2) reviewing the practice and philosophy of the free press in the U.S.; (3) highlighting the independence of the press; (4) outlining professional standards for writing, editing and reporting; (5) evaluating the impact of technological progress on the media; (6) offering opportunities for hands-on experience; (7) describing the various types of internship programs conducted in the U.S.

In addition to the seven factors listed above, proposals will be ranked on effectiveness in providing participants with an enhanced understanding of the distinctive features of the U.S. media; of what makes news in the U.S., including how news on Africa is reported; and of what conflicting pressures U.S. media operators and practitioners must confront. Also taken into consideration will be the submitting organization's demonstrated potential to design and implement programs as well as the proposal's cost effectiveness, institutional in-kind contributions, and minimal overhead.

Program Description

The program should include a week at the host institution for lectures and briefings, followed by a week of hands-on experience at differing media outlets in another metropolitan area and a final week or so in Washington and New York for on-site tours and exposure to national and international reporting by both private and government media outlets. USIA's Foreign Press Centers in Washington and New York will assist in the facilitation of this program in those two cities. In addition to professional meetings and experiences, weekend homestays for each individual participant are desirable. Since knowledge of English is not a requirement for participation in this project, French/English interpreters will be provided for all phases of the program.

Funding

Costs may include, but are not necessarily limited to, per diem (for 16 African participants and 6 additional escort/interpreters at a maximum of $100.00 per day); international travel from home country to U.S. and return (appx. $2,200 per participant); U.S. travel for all participants and escort/interpreters; single payment book/cultural allotment of $300 per international participant and $150 cultural allotment for escort/interpreters; direct administrative expenditures; and minimal (if any) indirect costs as a percentage of administrative costs. (Salaries for escort/interpreters are covered separately by USIA and need for be part of your proposal.)

Applications Procedures

Applicants must submit ten (10) copies of the proposal to the address below. In order to be eligible for review the proposal must include: an abstract of approximately two pages; a narrative, not exceeding ten pages, outlining the proposed program; a list of the participating institutions and participating departments; a detailed line-item three column budget defining specific expenditures with information on in-kind and cash contributions to the program by the institution; and vitae on project managers

Timing

To be eligible for consideration, organizations *must* forward their proposals for receipt at USIA by COB August 25, 1985.

Guidance

Because of the competitive nature of this solicitation, guidance in proposal development from the Office of Private Sector Programs (E/P) will be restricted to technical issues (202–485–7319).

Office of Private Sector Programs, Bureau of Educational and Cultural Affairs, (Attn: Initiative Programs), United States Information Agency, 301 4th Street, SW, Washington, D.C. 20547

Dated: July 17, 1985.

Albert Ball,
Deputy Director Office of Private Sector Programs.

FEDERAL DEPOSIT INSURANCE CORPORATION

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 12:20 p.m. on Tuesday, July 16, 1985, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to:

(A) consider bids submitted for the transfer of the insured deposits made in the Houston, Texas; Chicago, Illinois; Boston, Massachusetts; San Mateo, California; and Monterey Park, California, loan production offices of Golden Pacific National Bank, New York (Manhattan), New York, which was closed by the Deputy Comptroller of the Currency, Office of the Comptroller of the Currency, on Friday, June 21, 1985;

(B) adopt a resolution: (1) Making funds available for the payment of insured deposits made in the Houston, Texas, loan production office of the closed Golden Pacific National Bank; (2) accepting the bid of Texas First National Bank, Houston, Texas, for the transfer of the insured deposits of the Houston, Texas, loan production office of the closed bank; and (3) designating Texas First National Bank as the agent for the Corporation for the payment of the insured deposits of the Houston, Texas, loan production office of the closed bank;

(C) adopt a resolution: (1) Making funds available for the payment of insured deposits made in the Monterey Park, California, loan production office of the closed Golden Pacific National Bank; (2) accepting the bid of OMNI Bank, National Association, Monterey Park, California, for the transfer of the insured deposits of the Monterey Park, California, loan production office of the closed bank; and (3) designating OMNI Bank, National Association as the agent for the Corporation for the payment of insured deposits in the Monterey Park, California, loan production office of the closed bank; and

(D) adopt a resolution making funds available for the payment of insured deposits made in the Chicago, Illinois; Boston, Massachusetts; and San Mateo, California, loan production offices of the closed Golden Pacific National Bank.

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director H. Joe Selby (Acting Comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: July 17, 1985.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

3

TENNESSEE VALLEY AUTHORITY

[Meeting No. 1352]

TIME AND DATE: 9:00 a.m. (EDT), Wednesday, July 24, 1985.

PLACE: TVA West Tower Auditorium, 400 West Summit Hill Drive, Knoxville, Tennessee.

STATUS: Open.

Agenda

Approval of minutes of meeting held on June 18, 1985.

Discussion Items

1. Preliminary rate review.

Action Item

A—Budget and Financing

A1. Adoption of supplemental resolution authorizing 1985 Series D power bonds.

A2. Resolution authorizing the Chairman and other executive officers to take further action relating to issuance and sale of 1985 Series D power bonds.

A3. Amendment to fiscal year 1985 capital budget for the Power program—Replace component cooling system heat exchangers for Sequoyah Nuclear Plant.

B—Purchase Awards

B1. Invitation B4-952618 Reissue—Indefinite quantity term contract for TVA's annual requirement for high-content calcium carbonate crushed limestone for the wet scrubber system on units 1 and 2 at the Paradise Fossil Plant.

B2. Invitation 67-064403—Indefinite quantity term contract for high-integrity containers, cask rental and transportation for various nuclear plants.

B3. Amendment to indefinite quantity term contract 81P68-187408 with U.S. Ecology, Inc., to provide for continuation of low-level radioactive waste disposal services for TVA nuclear plants for an additional year and include services for Watts Bar Nuclear Plant.

B4. Invitation 64-955590—Indefinite quantity term contract for eddy current inspection services for various TVA nuclear plants.

C—Power Items

C1. Revision of limited interruptible power arrangements.

C2. Form agreement covering participation by distributors in TVA's redesigned Load Research Program.

*C3. Memorandum of understanding between TVA and the Department of the Army, governing power supply to Department of the Army's Redstone Arsenal.

D—Personnel Items

D1. Personal services contract with General Physics Corporation, Columbia, Maryland, for engineering and related support services at Browns Ferry Nuclear Plant, requested by Power and Engineering (Nuclear).

D2. Personal services contract with BCP Technical Services, New Orleans, Louisiana, for engineering and related support service at Browns Ferry Nuclear Plant, requested by Power and Engineering (Nuclear).

*Item approved by individual Board members. This would give formal ratification to Board's action.

D3. Personal services contract with Nuclear Energy Consultants, Inc., Rockville, Maryland, for engineering and related support service at Browns Ferry Nuclear Plant, requested by Power and Engineering (Nuclear).

E—Real Property Transactions

E1. Grant of permanent easement to the Eastern Band of Cherokee Indians, affecting two parcels of Tellico Reservoir land located in Monroe County, Tennessee, containing approximately 26.9 acres—Tract Nos. XTTELR-29RE and XTTELR-30RE; and authorization to change the land use designation for Tract No. XTTELR-29RE containing 13.5 acres.

E2. Sale of permanent easement to City of Kingsport, Tennessee, for the construction, operation, and maintenance of a pumping station and sewerline affecting approximately 0.6 acre of Fort Patrick Henry Dam Reservation property loacted in Sullivan County, Tennessee—Tract No. XFHR-33PS.

E3. Filing of condemnation cases.

F—Unclasifed

F1. Kentucky Reservoir Land Management Plan.

F2. Memorandum of understanding No. TV-67062A between Corps of Engineers, Nashville District, U.S. Department of the Army, and TVA covering arrangements for a cooperative effort for the production of navigation charts for the Tennessee River system.

F3. Contract No. TV-67201A between TVA and State of Alabama Department of Economic and Community Affairs for an economic development project in the Tennessee-Tombigbee Waterway area.

F4. Subagreements to general agreement (TV-50942A) between the Electric Power Research Institute and TVA covering arrangements for Pittsburgh No. 8-type coal test and high ash fusion coal test.

F5. Amendments to Retirement System rules and regulations and to Savings Plan terms and conditions; selection of additional investment managers; amendment to Commerce Union Bank trust agreement; and 1985 restated and amended trust agreement with American National Bank and Trust Company of Chicago.

F6. Changes in designation of certifying officers for vouchers and letter-of-credit transactions.

CONTACT PERSON FOR MORE INFORMATION: Craven H. Crowell, Jr., Director of Informaton, or a member of his staff can respond to requests for information about this meeting. Call (615) 632-8000, Knoxville, Tennessee. Information is also available at TVA's Washington Office (202) 245-0101.

Dated: July 17, 1985.

W.F. Willis,

General Manager.

[Justice Acquisition Circular 85-1]

Amendments to the Justice Acquisition Regulation (JAR) Concerning Competition in Contracting

AGENCY: Justice Management Division, Office of the Procurement Executive, Justice.

ACTION: Interim rule and request for comments.

SUMMARY: This notice invites written comments to an interim rule to amend the Justice Acquisition Regulations, 48 CFR, Chapter 28. The purpose of the amendments is to implement the Competition in Contracting Act of 1984, the Small Business and Federal Procurement Competition Enhancement Act of 1984 and the DOJ procurement reorganization plan authorized by the Attorney General February 21, 1985. This reorganization established in DOJ an Office of the Procurement Executive and placed under this office the procurement policy and contract review function. In addition, a new Part 2827, Patents, Data, and Copyrights, and associated clauses in Subpart 2852.227 are added. The effective date of this JAR amendment is the date of publication in the **Federal Register**. However, when a statute, the FAR, or Attorney General Order has an earlier effective date, the earlier date has precedence.

DATES: *Effective date:* July 22, 1985.

Comment date: Comments must be received on or before September 20, 1985. Please cite JAC 85-1 in all correspondence related to these amendments.

ADDRESS: Requests for copies of the interim regulations and comments should be addressed to the Office of the Procurement Executive, Department of Justice, Room 9000, 601 D Street, N.W., Washington, D.C. 10004. The regulations may be reviewed at the above address.

FOR FURTHER INFORMATION CONTACT: Wilson L. Silvis at the above address or telephone (202) 272-8356.

SUPPLEMENTARY INFORMATION: The determination is hereby made that these amendments must be issued as an interim or temporary regulation. The CICA is effective on April 1, 1985. All solicitations for bids or proposals must be in compliance with the Act. Any delay in issuing these amendments could impair DOJ's ability to provide procedural guidance necessary to properly implement the provisions of the CICA. The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempted agency procurement regulations from review under Executive Order 12291 except for selected areas. Where applicable, these amendments have been reviewed in accordance with OMB Bulletin 85-7. The Department of Justice certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 60 et seq.).

List of Subjects in 48 CFR Parts 2801, 2804, 2806, 2807, 2808, 2809, 2810, 2814, 2815, 2827, 2830, 2831, 2834, 2835, and 2852.

Government procurement.

W. Lawrence Wallace,

Acting Assistant Attorney General for Administration.

Accordingly, 48 CFR, Ch. 28 is amended as set forth herein. The authority citation for 48 CFR Parts 2801, 2804, 2807, 2808, 2809, 2810, 2814, 2815, 2830, 2831, 2835, and 2852 continues to read as follows:

Authority: 28 U.S.C. 510; 40 U.S.C. 486(c); 28 CFR 0.75(j) and 0.76(j).

PART 2801—DEPARTMENT OF JUSTICE ACQUISITION REGULATIONS SYSTEM

2801.301 [Amended]

1. Section 2801.301, paragraph (c) is amended by revising the last sentence in paragraph (c) to read "Authority to issue departmentwide acquisition regulations has been delegated by Attorney General Order 1085-85 to the Office of the Procurement Executive, subject to the review of the Assistant Attorney General of Administration."

2801.304 [Amended]

2. Section 2801.304, paragraph (b), first sentence is amended by removing the words "departmental Procurement Executive" and inserting the words "Office of the Procurement Executive."

3. Section 2801.304, paragraph (b) is amended by revising the last sentence in paragraph (b) to read "A record of the approved bureau policies and procedures will be maintained by the Office of the Procurement Executive."

2801.403 [Amended]

4. Section 2801.403, paragraph (a) is amended by removing the words "DOJ Procurement Executive" and inserting the words "The Office of the Procurement Executive."

2801.601 [Amended]

5. Section 2801.601, is amended by revising the introductory text of paragraph (a) to read as follows:

(a) Pursuant to Attorney General Order 1085-85 the authority vested in the Attorney General with respect to contractual actions is delegated to the following officials:

* * * * * *

6. Section 2801.602-70 is revised to read as follows:

2801.602-70 Office of the Procurement Executive.

(a) Prior to the execution of any contractual action in excess of $25,000 the contracting officer shall forward the proposed action to the Office of the Procurement Executive for review. Review by the Office of the Procurement Executive is applicable to all organization elements in the Department (OBDBs) with the exception of the FBI. It is the responsibility of the FBI's Contract Review Board to ensure that procurement actions are awarded in conformity with applicable statutes, regulations, and procedures. This exemption does not exempt the FBI from other oversight responsibilities of the Office of the Procurement Executive, including Procurement Executive review and approval of justifications for other than full and open competition on contracts over $10 million.

(b) For the purposes of this section contractual actions include all pre-award and post-award contractual actions over $25,000 including but not limited to modifications, ratification, and options but excluding orders from Federal Supply Schedules.

(c) Prior to submission to the Procurement Executive the legal office for each bureau-level procurement activity is responsible for reviewing and approving all such procurement actions for legal sufficiency.

(d) The Procurement Executive or his authorized representative shall have the authority to grant waivers from pre-award reviews for emergency requirements.

(1) Except for extreme emergencies, waiver requests must be in writing and include a detailed explanation as to why the waiver is required as well as information explaining reasons why the contract cannot be reviewed on a pre-award basis. Telephone waivers may be granted in extreme emergencies.

(2) All contract documents that are available at the time a waiver request is made must accompany the request for review. All available documents will be reviewed to assure that the award is legally sufficient prior to the granting of a waiver. A post review of the completed contract file is required.

(3) Waivers will not be granted near the end of a fiscal year for the purpose of obligating year end funds.

(e) There is established, in accordance with Attorney General Order 1085-85, a Contract Appeals Panel to permit the head of a bureau-level procurement activity to appeal a decision of the Procurement Executive. This panel shall be composed of the Deputy Attorney General (who shall serve as Chairperson), the Associate Attorney General, and the Assistant Attorney General for Administration. The panel shall meet on an ad hoc basis as necessary and determined by the Chairperson.

(f) The Office of the Procurement Executive is authorized to postaudit any procurement transaction throughout the Department and direct that corrective actions be taken wherever deemed necessary, and to inspect at any time the procurement operations of the Justice Management Division, Federal Bureau of Investigation, Bureau of Prison, Federal Prison Industries, Inc., Immigration and Naturalization Service, Drug Enforcement Administration, Office of Justice Programs, the National Institute of Corrections, United States Marshals Service and other organizational elements exercising delegated procurement authority:

2804.601 [Amended]

7. Section 2804.601 (a) and (b) are amended by removing the words "Departmental Procurement Executive" and substituting "Office of the Procurement Executive."

2804.803-70 [Amended]

8. Section 2804.803-70 is amended by revising the Checklist for Invitation for Bids (2804.803-70(b)(1)), the RFP Checklist (2804.803-70(b)(2)), and the Contract File Award Checklist (2804.803-70(c)), and by adding a new Checklist for Modifications (2804.803-70(b)(3)).

PART 2804—ADMINISTRATIVE MATTERS

9. Subpart 2804.70 is revised to read as follows:

Subpart 2804.70—Ratification of Unauthorized Contractual Commitments

Sec.
2804.7001 Ratification of unauthorized contract awards.
2804.7002 Request for ratification.

Subpart 2804.70—Ratification of Unauthorized Contractual Commitments

2804.7001 Ratification of unauthorized contract awards.

(a) Execution of otherwise proper contracts made by individuals without contracting authority or by contracting officers in excess of the limits of their delegated authority may be later ratified. To be effective ratifications must be approved by the head of the contracting activity (HCA) as designated in 2801.601(a).

(b) The HCA may approve ratification of the unauthorized commitment by an authorized contracting officer if:

(1) Ratification is in the best interests of the Government;

(2) The unauthorized commitment is otherwise proper;

(3) The price is fair and reasonable; and

(4) Funds are available.

2804.7002 Request for ratification.

(a) The request for approval of a ratification must be submitted to the HCA in writing and shall include all relevant documents and records. The ratification file shall include, but not be limited to, a statement signed by the official who made the unauthorized commitment stating the facts leading up to the commitment, why and how the contractor was selected, why normal procedures were not followed, a description of the work performed, the current status of the work, and any price agreement. If the official who made the unauthorized commitment has left the agency or is otherwise no longer available, the contracting officer assigned the ratification action shall assemble the record and document the facts to the extent known, including identification of the official who made the unauthorized commitment and why he/she is not available.

(b) The contracting officer assigned the ratification action shall review the file to determine the adequacy of the facts and prepare a written recommendation as to whether the ratification action should be approved. This recommendation shall include:

(1) A determination of fair market value of the benefit received;

(2) A statement as to the availability of funds; and,

(3) Concurrence by the contracting activity's legal counsel as to whether the action should be ratified.

(c) The contracting officer shall forward the complete file as described in paragraphs (a) and (b) above as applicable to the HCA for approval. Following approval, the contracting officer shall prepare the appropriate contractual documents and when required by 2801.602-70(b) submit the contract for review by legal counsel and the Office of the Procurement Executive. If not approved, the HCA shall return the file with a written explanation and any recommendations.

(d) The HCA may delegate to subordinate individuals approval of ratification requests of $5,000 and below.

(e) Unauthorized commitments of Government funds are a serious matter and in violation of Federal laws and regulations. In situations where suspected irregularities may involve fraud, other criminal misconduct, or other employee misconduct, the matter shall be forwarded to the Department's Office of Professional Responsibility.

SUBCHAPTER B—COMPETITION AND ACQUISITION PLANNING

10. The title to Subchapter B is amended by removing the words "Acquisition Planning" and substituting in their place "Competition and Acquisition Planning." The title is relocated to the end of Part 4.

11. A new Part 2806 is added to read as follows:

PART 2806—COMPETITION REQUIREMENTS

Subpart 2806.5—Competition Advocates

Sec.
2806.501 Requirement.
2806.502 Duties and responsibilities.

Authority: 28 U.S.C. 510; 40 U.S.C. 486(e); 28 CFR 0.75(j) and 0.76(j).

Subpart 2806.5—Competition Advocates

2806.501 Requirement.

As required by section 20 of the Office of Federal Procurement Policy Act, each executive agency must appoint an agency competition advocate and a competition advocate in each procuring activity of the executive agency. Accordingly:

(a) The competition advocate for DOJ will be located in the Office of the Procurement Executive. The official designated will not be the Procurement Executive but will occupy a senior level position in the office with department-wide responsibility for procurement matters.

(b) The agency head will appoint in each bureau an official to be the bureau activity competition advocate. The individuals designated may not be located in or be in direct supervision of the operational procurement activity.

2806.502 Duties and responsibilities.

(a) The duties and responsibilities of the competition advocates are set forth in FAR 6.502. The Department's Procurement Executive will provide guidance to the competition advocates in formulating plans, goals, and procedures to achieve the goals of enhancing competition and challenging barriers to full and open competition.

(b) *Responsibilities.* (1) Within 60 days following the end of the fiscal year each competition advocate in the procuring activities will submit to the agency competition advocate an annual report. This report will provide specific information and a summary of advocacy accomplishments during the fiscal year. The information provided, combined with other available data, will provide the basis for the report in paragraph (b)(3) of this section to be submitted to Congress by the agency head in accordance with section 21(a) of the Office of Federal Procurement Policy Act.

(2) Within 90 days following the end of the fiscal year the agency competition advocate shall submit to the Procurement Executive a report on the competition advocacy accomplishments throughout DOJ during the preceding year and plans for the next year.

(3) Annual reports will be submitted for the fiscal years 1985 (from April 1, 1985 to September 30, 1985), 1986, 1987, 1988 and 1989.

PART 2807—ACQUISITION PLANNING

2807.102 [Amended]

12. Section 2807.102, paragraph (b), last sentence, is amended by removing the letters "DOJ/PE" and adding "the Office of the Procurement Executive."

PART 2808—REQUIRED SOURCES OF SUPPLIES AND SERVICES

2808.802-70 [Amended]

13. Section 2808.802-70 is amended by removing the words "Information Systems Staff" and inserting in their place "General Services Staff, JMD."

2809.400 [Amended]

14. Section 2809.400, paragraph (b) is amended by removing the words "DOJ Procurement Executive" and inserting the words "The Office of the Procurement Executive."

2809.470 [Amended]

15. Section 2809.470, paragraph (a)(4), is amended by removing the words "DOJ Procurement Executive" and inserting the words "The Office of the Procurement Executive."

PART 2810—SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS

2810.007 [Amended]

16. Section 2810.007, last sentence, is amended by removing the words "Procurement Executive" and inserting the words "Office of the Procurement Executive."

PART 2814—SEALED BIDDING

17. The title of Part 14 is amended by removing the words "Formal Advertising" and inserting in their place "Sealed Bidding."

2814.000 [Amended]

18. Section 2814.000 is amended by removing the words "formal advertising" and inserting in their place "sealed bidding."

PART 2815—CONTRACTING BY NEGOTIATION

Subpart 2815.1 [Removed]

19. Subpart 2815.1 is removed in its entirety.

Subpart 2815.3 [Removed]

20. Subpart 2815.3 is removed in its entirety.

Subpart 2815.8—Price Negotiation

2815.803-70 [Amended]

21. Section 2815.803-70 is amended by removing the words "DOJ Procurement Executive" and inserting the words "The Office of the Procurement Executive."

22. A new Part 2827 is added to read as follows.

PART 2827—PATENTS, DATA, AND COPYRIGHTS

Subpart 2827.4—Rights in Data and Copyrights

Sec.
2827.400 Scope of subpart.
2827.401 Definitions.
2827.402 Policy.
2827.403 Procedures.
2827.404 Acquisition of data.
2827.405 Solicitation provisions and contract clauses.

Authority: 28 U.S.C. 510; 40 U.S.C. 486(c), 28 CFR 0.75(j) and 0.76(j).

Subpart 2827.4—Rights in Data and Copyrights

2827.400 Scope of subpart.

This subpart sets forth policies, procedures, and instructions with respect to: (a) rights in data and copyrights; and (b) requirements for data.

2827.401 Definitions.

"Computer software," as used in this subpart, means:

(1) Computer programs, i.e., any set of statements or instructions in any form of written programming language source code or machine-executable code that is capable of causing a machine with information processing capabilities to perform a particular result;

(2) Computer data bases, i.e., any form of information in written programming language source code or machine-executable code, other than computer programs;

(3) Computer supporting material, i.e., any material in lingual, pictorial,

schematic, or any other forms, that would permit the making of a computer

may be included or incorporated in the contract.

2827.403 Procedures.

validation of proprietary data restrictions or questions whether notices

training material for installation, operation, or routine maintenance and

schematic, or any other forms, that would permit the making of a computer program (e.g. flow charts) or that was created to aid the understanding, application, or use of a computer program (e.g., user instructions and manuals, installation and operational manuals, input and output forms, and technical documentation); and,

(4) Any updates or revisions to computer programs, computer data bases, or computer supporting material;

(5) But does not mean any data produced as a result of using computer programs, computer data bases, or computer supporting material delivered under a contract.

"Data," as used in this subpart, means recorded information, regardless of form or the media on which it may be recorded. The term includes computer software. The term does not include information incidental to contract administration, such as contract cost analysis or any financial, business, and management information required for contract administration purposes.

"Data first produced in the performance of this contract," as used in this subpart, means data the contractor created, in whole or in part, after the effective date of this contract.

"Created," as used in this subpart, has the same meaning as does that term in the Copyright Act (17 U.S.C. 101).

"Form, fit, and function data," as used in this subpart, means data relating to, and sufficient to enable, physical and functional interchangeability; as well as data identifying source, size, configuration, mating and attachment characteristics, functional characteristics, and performance requirements.

"Limited rights," as used in this subpart, means the rights of the Government in limited rights data, as set forth in a Limited Rights Notice, if included in the data rights clause of the contract, or as otherwise provided in a collateral agreement incorporated in and made a part of the contract.

"Limited rights data," as used in this subpart, means data other than computer software, developed in whole at private expense, that embodies trade secrets.

"Restricted computer software," as used in this subpart, means computer software that is developed in whole at private expense and is a trade secret or copyrighted computer software.

"Restricted rights," as used in this subpart, means the rights of the Government in restricted computer software as set forth in a Restricted Rights Notice, if included in a data rights clause of the contract or as otherwise may be included or incorporated in the contract.

"Unlimited rights," as used in this subpart, means the right to make, use, disclose publicly, reproduce, prepare derivative works, distribute copies to the public without restriction, by sale or other transfer of ownership or by rental, lease or lending, perform publicly in whole or in part, and display publicly in any manner and for any purpose, and to have or permit others to do so. In the case of computer software, "unlimited rights" also includes the right to modify, prepare adaptations, enhance, merge or combine with other computer software, and convert to any other programming language source code or machine-executable code.

2827.402 Policy.

It is necessary for the departments and agencies, in order to carry out their missions and programs, to acquire or obtain access to many kinds of data produced during or used in the performance of their contracts. Such data may be required to: obtain competition among suppliers; fulfill certain responsibilities for disseminating and publishing the results of their activities; ensure appropriate utilization of the results of research, development, and demonstration activities; and meet other programmatic and statutory requirements. At the same time, the Government recognizes that its contractors may have a property right or other valid economic interest in certain data resulting from private investment, and that protection from unauthorized use and disclosure of this data is necessary in order to prevent the compromise of such property right or economic interest, avoid jeopardizing the contractor's commercial position, and maintain the Government's ability to obtain access to or use such data. The protection of this data by the Government is necessary to encourage qualified contractors to participate in Government programs and apply innovative concepts to such programs. The specific procedures and prescriptions for use of solicitation provisions and contract clauses set forth below are framed in light of the above considerations to strike a balance between the Government's needs and the contractor's property rights and economic interests. In instances where data developed during contractual performance is produced partially at Government expense and partially at private expense, the respective rights of the Government and the contractor, if not delineated elsewhere in the contract, shall be determined by negotiation on a case-by-case basis.

2827.403 Procedures.

(a) *General.* All contracts that require data be produced, furnished, or acquired must contain terms that delineate the respective rights and obligations of the Government and the contractor regarding the use, disclosure, modification, reproduction, preparation of derivative works, distribution of copies to the public, transfer and public performance and display of such data, except certain contracts resulting from sealed bidding that require only existing data (other than limited rights data and restricted computer software) to be delivered and reproduction rights are not needed for such data. As a general rule, the data rights clause at section 2852.227–70, Rights in Data-General, including Alternates I–V where determined appropriate by the contracting agency as discussed in paragraph (b) below, is to be used for this purpose. However, certain types of contracts, the particular subject matter of a contract, or the intended use of the data, may require the use of other clauses or no clause at all, as discussed in paragraphs (c) and (d) below.

(b) *Basic Rights in Data Clause.*—(1) *Summary.* The clause at 2852.227–70, Rights in Data-General, is structured to strike a balance between an agency's needs in carrying out its missions and programs and the contractor's needs to protect property rights and valid economic interests in certain data arising out of private investment. This clause enables the contractor to protect from unauthorized use and disclosure data that qualifies as limited rights data or restricted computer software (see paragraph (b)(2) below for an alternate definition of limited rights data). This clause also specifically delineates the categories or types of data that the Government is to acquire with unlimited rights (see paragraph (b)(3) below). The contractor may protect qualifying limited rights data and restricted computer software under this clause by either withholding such data from delivery to the Government; or when an agency has a need to obtain delivery of limited rights data or restricted computer software, by delivering such data with limited rights data or restricted rights with authorized notices on the data. (See paragraphs (b) (4) and (5) below.) In addition, this clause enables contractors to establish and/or maintain copyright protection for data first produced and/or delivered under the contract, subject to certain license rights in the Government. (See paragraph (b)(6) below.) This clause also includes procedures that apply when the Government requests

validation of proprietary data restrictions or questions whether notices on data are authorized (see paragraphs (b) (7) and (8) below) or when a contractor wishes to add or correct omitted or incorrect notices on data (see paragraph (b)(9) below); addresses the contractor's right to release, publish, or use certain data involved in contract performance (see paragraph (b)(10) below); and, provides for the possibility for the Government to inspect certain data at the contractor's facility (see paragraph (b)(11) below).

(2) *Alternate definition of limited rights data.* In the clause at 2852.227–70, Rights in Data-General, in order for data to qualify as limited rights data, in addition to being data that either embody a trade secret or are data that are commercial or financial and confidential or privileged, such data must also pertain to items, components, or processes developed at private expense, including minor modifications thereof. However, where appropriate, an agency may determine to adopt in the clause the alternate definition for limited rights data that does not require that such data pertain to items, components, or processes developed at private expense; but rather that the data that embody a trade secret or is commercial or financial and confidential or privileged be produced at private expense in order to qualify as limited rights data. As an example, this alternate definition may be used where the principal purpose of a contract does not involve the development, use, or delivery of items, components, or processes that are intended to be acquired for use by or for the Government (either under the contract in question or any anticipated follow-on contracts relating to the same subject matter). Other examples include contracts for market research and surveys, economic forecasts, socio-economic reports, educational material, health and safety information, management analysis, and related matters. This alternate definition of limited rights data may be adopted, where appropriate, by using the clause with its Alternate I.

(3) *Unlimited rights data.* Under the clause at 2852.227–70, Rights in Data-General, the Government acquires unlimited rights in the following data except as provided in paragraph (b)(6) below for copyrighted data: (i) Data first produced in the performance of a contract; (ii) form, fit, and function data delivered under contract; (iii) data (except as may be included with restricted computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair delivered under a contract; and (iv) all other data delivered under the contract unless such data qualify as limited rights data or restricted computer software. If any of the foregoing data is published copyrighted data, the Government acquires it under a copyright license as set forth in paragraph (b)(6) below rather than with limited rights or restricted rights.

(4) *Protection of limited rights data.* (i) The contractor may protect data (other than unlimited rights data or published copyrighted data) that qualify as limited rights data under the clause at 2852.227–70, Rights in Data-General, by withholding such data from delivery and providing form, fit, and function data in lieu thereof; or, if the clause is used with its Alternate II and the Government specifies the delivery of the data, by delivering such data with limitations on their use and disclosure. These two modes of protection afforded the contractor (i.e., withhold or deliver with limited rights) are provided for in paragraph (h) of the clause at 2852.227–70, Rights in Data-General. Subparagraph (h)(1) of this clause allows the contractor to withhold limited rights data and provide form, fit, and function data in lieu thereof. Alternate II adds subparagraph (h)(2) to this clause to enable the Government selectively to obtain the delivery of withheld or withholdable data with limited rights. The limitations on the Government's right to use and disclose limited rights data when the clause is used with its Alternate II are set forth in a "Limited Rights Notice" that the contractor is required to affix to such data. The specific limitations in the Notice are described below.

(ii) Limited rights data delivered to the Government with the Limited Rights Notice contained in subparagraph (h)(2) (Alternate II) will not, without permission of the contractor, be used by the Government for purposes of manufacture, and will not be disclosed outside the Government except for certain limited purposes as may be set forth in the Notice, and then only if the Government makes the disclosure subject to prohibition against further use and disclosure by the recipient. The following are examples of specific purposes which may be selected by an agency and added to the Limited Rights Notice of subparagraph (h)(2) of the clause (Alternative II):

(A) Use by support service contractors.

(B) Evaluation by nongovernment evaluators.

(C) Use by other contractors participating in the Government's program of which this contract is a part, for information and use in connection with the work performed under their contracts.

(D) Emergency repair or overhaul work.

(E) Release to a foreign government, as the interests of the United States may require, for information or evaluation, or for emergency repair or overhaul work by such government.

(iii) As an aid in determining whether the clause should be used with its Alternate II, the provision at 2852.227–71, Notification of Limited Rights Data and Restricted Computer Software, may be included in any solicitation containing the clause at 2852.227–70, Rights in Data-General. In addition, the need for Alternate II should be considered during the negotiations of a contract, particularly if negotiations are based on an unsolicited proposal. However, use of the clause at 2852.227–70, Rights in Data-General, without Alternate II does not preclude this Alternate from being used subsequently by amendment during contract performance should the need arise for delivery of limited rights data that have been withheld or identified as withholdable.

(5) *Protection of restricted computer software.* (i) If computer software qualifies as restricted computer software, the clause at 2852.227–70, Rights in Data-General, permits the contractor to protect such software by either withholding it from delivery and providing form, fit, and function data in lieu thereof; or if the clause is used with its Alternate III and the Government specifies delivery of the software, by delivering the software with restricted rights regarding its use, disclosure, and reproduction. The two modes of protection afforded the contractor (i.e., withhold or deliver with restricted rights) are provided for in paragraph (h) of the clause at 2852.227–70, Rights in Data-General. Subparagraph (h)(1) of the clause allows the contractor to withhold restricted computer software and provide form, fit, and function data in lieu thereof. Alternate III adds subparagraph (h)(3) to this clause to enable the Government selectively to obtain delivery of the withheld or withholdable computer software with restricted rights. The restrictions on the Government's rights to use, disclose, and reproduce restricted computer software when the clause is used with its Alternate III are set forth in a "Restricted Rights Notice" that the contractor is required to affix to such

computer software. When restricted computer software delivered with such Notice is published copy-righted

considered during negotiations of a contract, particularly if negotiations are

required by statute to prepare; (2) the data are intended primarily for internal

contractor may be afforded an

appropriate. If a party asserting a

VOL 50 ISS 140 JL 22 1985 UMI

computer software. When restricted computer software delivered with such Notice is published copy-righted computer software, it is acquired with a restricted copyright license, without disclosure prohibitions, as also set forth in the Notice. The specific restrictions in the Notice are set forth in paragraph (b)(5)(ii) below.

(ii) Restricted computer software delivered with the Restricted Rights Notice of subparagraph (h)(3) (Alternate III) will not be used or reproduced by the Government, or disclosed outside the Government, except that the computer software may be:

(A) Used, or copies for use in or with the computer for which it was acquired, including use at any Government installation to which such computer or computers may be transferred;

(B) Used, or copies for use in or with a backup computer if the computer or computers for which it is acquired are inoperative;

(C) Reproduced for safekeeping (archives) or backup purposes;

(D) Modified, adapted, or combined with other computer software, provided that the modified, combined, or adapted portions of any derivative software incorporating restricted computer software are made subject to the same restricted rights; and,

(E) Disclosed and reproduced by support contractors or their subcontractors, subject to the same restrictions under which the Government acquired the software.

(iii) The restricted rights set forth in paragraph (b)(5)(ii) above are the minimum rights the Government normally obtains with restricted computer software and will automatically apply when such software is acquired under the Restricted Rights Notice of subparagraph (h)(3) (Alternate III) of the clause. However, either greater or lesser rights, consistent with the purposes and needs for which the software is to be acquired, may be specified in the contract. Any additions to, or limitations on, the restricted rights set forth in the Restricted Rights Notice of subparagraph (h)(3) of the clause are to be expressly stated in the contract; or, with approval of the contracting officer, in a collateral agreement incorporated in and made part of the contract. (See paragraph (d)(2) below.)

(iv) As an aid in determining whether the clause should be used with its Alternate III, the provision at 2852.227-71, Notification of Limited Rights Data and Restricted Computer Software, may be included in any solicitation containing the clause at 2852.227-70, Rights in Data-General. In addition, the need for Alternate III should be considered during negotiations of a contract, particularly if negotiations are based on an unsolicited proposal. However, use of the clause at 2852.227-70, Rights in Data-General, without Alternate III does not preclude this Alternate from being used subsequently by amendment during contract performance, should the need arise for the delivery of restricted computer software that has been withheld or identified as withholdable.

(6) *Copyrighted data.*—(i) *Data first produced in the performance of a contract.* (A) In order to enhance the transfer or dissemination of information produced at Government expense, contractors may be permitted to establish claim to copyright subsisting in data first produced in the performance of work under a contract containing the clause at 2852.227-70, Rights in Data-General. This right is granted in subparagraph (c)(1) of the clause for any data first produced under the contract. Agencies may, however, specifically exclude items or categories of data from the right of the contractor to establish claim to copyright when appropriate; for example, where the data is to be disseminated in useful form by the Government. Also, agencies having programs for the transfer or dissemination of information resulting from its programs may, by use of the clause with its Alternate IV, include a substitute subparagraph (c)(1) in the clause to limit the right of the contractor granted in subparagraph (c)(1) to establish claim of copyright to scientific and technical articles based on or derived from work performed under the contract and published in academic, professional, or technical journals. However, when Alternate IV is used, permission may be granted to establish claim to copyright in all other data in accordance with the procedures set forth below.

(B) Usually permission for a contractor to establish claim to copyright for data first produced under the contract will be granted when copyright protection will enhance the appropriate transfer or dissemination of such data. The request for permission must be in writing, and may be made either at the time of contracting or subsequently during contract performance. It should identify the data involved or furnish a copy of the data for which permission is requested, as well as a statement as to the intended publication or dissemination media or other purpose for which copyright is desired. The request normally will be granted unless: (*1*) the data consist of a report that represents the official views of the agency or that the agency is required by statute to prepare; (*2*) the data are intended primarily for internal use by the Government; (*3*) the data are of the type that the agency itself distributes to the public under an established program; or (*4*) the Government determines that limitation on distribution of the data is in the national interest.

(C) Whenever a contractor establishes claim to copyright subsisting in data first produced in the performance of a contract, the Government normally is granted a paid-up, nonexclusive, irrevocable, worldwide license of unlimited rights for all such data, as set forth in subparagraph (c)(1) of the clause at 2852.227-70, Rights in Data-General, with the following exceptions: these rights do not include the right to license or sublicense or to have or to permit other persons to exercise those rights other than those on behalf of the Government. However, agencies may on a case-by-case basis or no a class basis if provided in implementing regulations, obtain on equitable terms a license of lesser scope than set forth in subparagraph (c)(1) of the clause if the agency determines that such lesser license will substantially enhance the transfer or dissemination of any data first produced under the contract.

(ii) *Data not first produced in the performance of a contract.* (A) Contractors are not to incorporate in data delivered under contract any data not first produced under the contract with the copyright notice of 17 U.S.C. 401 or 402 without either: acquiring for, or granting to the Government and others acting on its behalf, a paid-up, nonexclusive, irrevocable, worldwide license to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, by or on behalf of the Government, for all such data; or obtaining permission from the contacting officer to do otherwise. However, if computer software not first produced under contract is delivered with the copyright notice of 17 U.S.C. 401 or 402, the Government's license will be as set forth in subparagraph (h)(3) (Alternate III) if included in the clause at 2852.227-70, Rights in Data-General, or as otherwise may be provided in a collateral agreement incorporated in or made part of the contract.

(B) Contractors delivering data with an authorized limited rights or restricted rights notice and a copyright notice of 17 U.S.C. 401 or 402 should modify the copyright notice to include the following (or similar) statement: "Unpublished-all rights reserved under the copyright laws." If this statement is omitted, the

contractor may be afforded an opportunity to correct it in accordance with 2827.403(b)(9). Otherwise, data delivered with a copyright notice of 17 U.S.C. 401 or 402 may be presumed to be published copyrighted data subject to the applicable license rights as set forth in paragraph (b)(6)(ii) (A) above, without disclosure limitations or restrictions.

(C) If contractor action causes limited rights or restricted rights data to be published with copyright notice after its delivery to the Government, the Government is relieved of disclosure and use limitations and restrictions regarding such data, and the contractor should advise the Government and request that a copyright notice be placed on the data, and acknowledge that the applicable copyright license set forth in paragraph (b)(6)(ii) above applies.

(7) *Validation of proprietary data restrictions.* (i) The Government has, in accordance with paragraph (e) of the clause at 2852.277-70, Rights in Data-General, the right to require a contractor or subcontractor, at any tier, to furnish to the contracting officer a written justification for any restriction asserted by the contractor or subcontractor on the right of the Government to use such technical data. The contracting officer shall review the validity of any restriction asserted by the contractor or by a subcontractor under the contract on the right of Government to use technical data furnished to it under a contract if the contracting officer determines that reasonable grounds exist to question the current validity of the asserted restriction and that continued adherence to the asserted restriction by the Government would make it impracticable to procure the item competitively at a later date.

(ii) If after such review the contracting officer determines that a challenge to the asserted restriction is warranted, the contracting officer shall provide written notice to the contractor or subcontractor asserting the restriction. Such notice shall state:

(A) The grounds for challenging the asserted restriction; and,

(B) The requirement for a written response within 60 days justifying the current validity of the asserted restriction.

(iii) If a contractor or subcontractor asserting a restriction subject to this section submits to the contracting officer a written request showing the need for additional time to comply with the requirement to justify the current validity of the asserted restriction, additional time to adequately permit the submission of such justification shall be provided by the contracting officer as appropriate. If a party asserting a restriction receives notices of challenges to restrictions on technical data from more than one contracting officer and notifies each contracting officer of the existence of more than one challenge, the contracting officer initiating the first in time challenge, after consultation with the party asserting the restriction and other contracting officers, shall formulate a schedule of responses to each of the challenges that will afford the party asserting the restriction with an equitable opportunity to respond to each such challenge.

(iv) (A) Upon a failure by the contractor or subcontractor to submit any response under paragraph (b)(7)(ii) above, the contracting officer shall issue a decision pertaining to the validity of the asserted restriction.

(B) If a justification is submitted in response to the notice provided pursuant to paragraph (b)(7)(ii) above, a contracting officer shall, within 60 days of receipt of any justification submitted, issue a decision or notify the party asserting the restriction of the time within which a decision will be issued.

(v) If a claim pertaining to the validity of the asserted restriction is submitted in writing to a contracting officer by a contractor or subcontractor at any tier, such claim shall be considered a claim within the meaning of the Contract Disputes Act of 1978 (41 U.S.C. 601 et seq.).

(vi) (A) If, upon final disposition, the contracting officer's challenge to the restriction on the right of the Government to use such technical data is sustained:

(1) The restriction on the right of the Government to use the technical data shall be cancelled; and,

(2) If the asserted restriction is found not to be substantially justified, the contractor, or subcontractor, as appropriate, shall be liable to the Government for payment of the cost to the Government of reviewing the asserted restriction and the fees and other expenses (as defined in Title 28 U.S.C. section 2412(d)(2)(A)) incurred by the Government in challenging the asserted restriction, unless special circumstances would make such payments unjust.

(B) If, upon final disposition, the contracting officer's challenge to the restriction on the right of the Government to use such technical data is not sustained:

(*1*) the Government shall continue to be bound by the restriction; and,

(*2*) the Government shall be liable for payment to the party asserting the restriction for fees and other expenses (as defined in Title 28 U.S.C. section 2412(d)(2)(A)) incurred by the party asserting the restriction in defending the asserted restriction if the challenge by the Government is found not to be made in good faith.

(8) *Unauthorized marking of data.* The Government has, in accordance with paragraph (f) of the clause at 2852.227-70, Rights in Data-General, the right to either return to the contractor data containing markings not authorized by that clause, or to cancel or ignore such markings. However, markings will not be cancelled or ignored without making written inquiry of the contractor and affording the contractor at least 60 days (or a longer time approved by the contracting officer for good cause shown) to substantiate the propriety of the markings. The contracting officer will also give the contractor notice of any determination made based on any response by the contractor. Any such determination to cancel or ignore the markings shall be a final decision under the Contract Disputes Act. Failure of the contractor to respond to the contracting officer's inquiry within the time afforded may, however, result in Government action to cancel or ignore the markings. The above procedures may be modified in accordance with bureau regulations implementing the Freedom of Information Act (5 U.S.C. 552) if necessary to respond to a request for data thereunder.

(9) *Omitted or incorrect notices.* (i) Data delivered under a contract containing the clause at 2852.227-70, Rights in Data-General, without a limited rights notice or restricted rights notice, or without a copyright notice, shall be presumed to have been delivered with unlimited rights, and the Government assumes no liability for the disclosure or use, or reproduction, of such data. However, to the extent the data has not been disclosed without restriction outside the Government, the contractor may within 6 months (or a longer period approved by the contracting officer for good cause shown) request permission of the contracting officer to have the omitted limited rights or restricted rights notices, as applicable, placed on qualifying data at the contractor's expense, and the contracting officer may agree to so permit if the contractor:

(A) Identifies the data for which a notice is to be added or corrected;

(B) Demonstrates that the omission of the proposed notice was inadvertent;

(C) Establishes that use of the proposed notice is authorized; and,

(D) Acknowledges that the Government has no liability with respect to any disclosure or use of any

such data made prior to the addition of the notice or resulting from the omission

contracting officer that there would be a possible conflict of interest if inspection

with the purposes for which the works are acquired.

commercial sales and may not be appropriate for Government contracts.

should be made to keep the contract data requirements to a minimum.

other than special works, as appropriate;

such data made prior to the addition of the notice or resulting from the omission of the notice.

(ii) The contracting officer may also (A) permit correction, at the contractor's expense, of incorrect notices if the contractor identifies the data on which correction of the notice is to be made, and demonstrates that the correct notice is authorized, or (B) correct any incorrect notices.

(10) *Release, publication, and use of data.* (i) In the clause at 2852.227–70, Rights in Data-General, paragraph (d) provides that contractors normally have the right to use, release to others, reproduce, distribute, or publish data first produced specifically in the performance of a contract; however, to the extent the contractor receives or is given access to data that are necessary for the performance of the contract and the data contains restrictive markings, the contractor agrees to treat the data in accordance with such markings unless otherwise specifically authorized in writing by the contracting officer.

(ii) Agencies may, on a case-by-case basis, or on a class basis if provided in implementing regulations, place further limitations or restrictions on the contractor's right to use, release to others, reproduce, distribute or publish any data first produced (but not data specifically used) in the performance of the contract. Such restrictions are not to be imposed on a class basis unless they are pursuant to statutory requirements, determined to be necessary in the furtherance of agency mission objectives, or determined to be necessary in support of specific agency programs.

(11) *Inspection of data at the contractor's facility.* Agencies may obtain the right to inspect data at the contractor's facility by use of Alternate V, which adds paragraph (b)(1) above to provide that right in the clause at 2852.227–70, Rights in Data-General. The data subject to inspection may be data withheld or withholdable under subparagraph (h)(1) of the clause, or any data specifically used in the performance of the contract. Such inspection may be made by the contracting officer or representative for the purpose of verifying a contractor's assertion regarding the limited rights or restricted rights status of the data, or for evaluating work performance under the contract. This right may be exercised at all reasonable times up to three years after acceptance of all items to be delivered under the contract. The contract may specify data items that are not subject to inspection under paragraph (b)(1) above (Alternate V). If the contractor demonstrates to the contracting officer that there would be a possible conflict of interest if inspection were made by a particular representative, the contracting officer shall designate an alternate representative.

(c) *Production of special works.* (1) The clause at 2852.227–73, Rights in Data-Special Works, applies to contracts (or may be made applicable to portions thereof) that are primarily for the production or compilation of data (other than limited rights data or restricted computer software) for the Government's internal use, or when there is a specific need to limit distribution and use of the data and/or to obtain indemnity for liabilities that may arise out of the content, performance, or disclosure of the data. Examples are contracts for:

(i) The production of audiovisual works including motion pictures or television recordings with or without accompanying sound, or for the preparation of motion picture scripts, musical compositions, sound tracks, translations, adaptations, and the like;

(ii) Histories of the respective agencies, departments, services, or units thereof;

(iii) Works pertaining to recruiting, morale, training, or career guidance;

(iv) Surveys of Government establishments;

(v) Works pertaining to the instruction or guidance of Government officers and employees in the discharge of their official duties;

(vi) The compilation of reports, studies, surveys, or similar documents that do not involve research, development, or experimental work performed by the contractor;

(vii) The collection of data containing personally identifiable information such that the disclosure thereof would violate the right of privacy or publicity of the individual to whom the information relates;

(viii) Investigatory reports; or,

(ix) The development, accumulation, or compilation of data (other than that resulting from research, development, or experimental work performed by the contractor), the early release of which could prejudice follow-on acquisition activities.

(2) The contract may specify the purposes and conditions (including time limitations) under which the data may be used, released, or reproduced other than for contract performance. Contracts for the production of audiovisual works, sound recordings, etc., may include limitations in connection with talent releases, music licenses, and the like that are consistent with the purposes for which the works are acquired.

(d) *Acquisition of existing data other than limited rights data.*—(1) *Existing audiovisual and similar works.* The clause at 2852.227–74, Rights in Data-Existing Works, is for use in contracts exclusively for the acquisition (without modification) of existing motion pictures, television recordings, and other audiovisual works; sound recordings; musical dramatic, and literary works; pantomimes and choreographic works; pictorial, graphic, and sculptural works; and works of a similar nature. The contract may set forth limitations consistent with the purposes for which the works covered by the contract are being acquired. Examples of these limitations are (i) means of exhibition or transmission, (ii) time, (iii) type of audience, and (iv) geographical location. If the contract requires that works of the type indicated above are to be modified through editing, translation, or addition of subject matter, etc. (rather than purchased in existing form) the clause at 2852.227–73, Rights in Data-Special Works, is to be used. (See 2827–403(c).)

(2) *Separate acquisition of existing computer software.* (i) If the contract is for the separate acquisition of existing computer software, no specific contract clause contained in this subpart need be used. However, the contract must specifically address the Government's rights to use, disclose, and reproduce the software and must contain terms obtaining sufficient rights for the Government to fulfill the need for which the software is being acquired. The restricted rights set forth in 2827.403(b)(5) should be used as a guide and are usually the minimum the Government should accept. If the computer software is to be acquired with unlimited rights, the contract must also so state. In addition, the contract must adequately describe the computer programs and/or data bases, the form (tapes, punch cards, disc pack, and the like), and all the necessary documentation pertaining thereto. If the acquisition is by lease or license, the disposition of the computer software (by returning to the vendor or destroying) at the end of the term of the lease or license must be addressed.

(ii) If the contract incorporates, makes reference to, or uses a vendor's standard commercial lease, license, or purchase agreement, such agreement shall be reviewed to assure that it is consistent with paragraph (d)(2)(i) above, and all other statutory and regulatory constraints. Caution should be exercised in accepting a vendor's terms and conditions since they may be directed to commercial sales and may not be appropriate for Government contracts. Any inconsistencies in a vendor's standard commercial agreement shall be addressed in the contract and the contract shall state that its terms shall take precedence over the vendor's standard commercial agreement.

(iii) If a prime contractor under a contract containing the clause at 2852.227–70, Rights in Data-General, with subparagraph (h)(3) (Alternate III) in the clause acquires restricted computer software from a subcontractor (at any tier) as a separate acquisition for delivery to the Government, the contracting officer may approve any additions to, or limitations on the restricted rights in the Restricted Rights Notice of subparagraph (h)(3) in a collateral agreement incorporated in and made part of the contract. (See also 2827.403(b)(5).)

(3) *Other existing works.* (i) Except for existing audiovisual and similar works pursuant to paragraph (d)(1) above, and existing computer software pursuant to paragraph (d)(2) above, no clause contained in this subpart need be included in: (*a*) contracts solely for the acquisition of books, publications, and similar items in the exact form in which such items exist prior to the request for purchase (i.e., the off-the-shelf purchase of such items) unless reproduction rights of such items are to be obtained; or (*b*) contracts resulting from formal advertising that require only existing data to be delivered unless reproduction rights for such data (other than limited rights data) are to be obtained. If reproduction rights are to be obtained, such rights must be specifically set forth in the contract.

2827.404 Acquisition of data.

(a) *General.* (1) It is important to recognize and maintain the conceptual distinction between contract terms whose purpose is to identify the data required for delivery to, or made available to, the Government (i.e., data requirements); and those contract terms whose purpose is to define the respective rights of the Government and the contractor in such data (i.e., data rights). This section relates to data requirements; section 2827.403 relates to the data rights.

(2) It is the Government's practice to determine, to the extent feasible, its data requirements in time for inclusion in solicitations. The data requirements are subject to revision during contract negotiations. Since the preparation, reformatting, maintenance, updating, cataloging, and storage of data represents an expense to both the Government and the contractor, efforts should be made to keep the contract data requirements to a minimum.

(3) To the extent feasible, all known data requirements, including the time and place for delivery and any limitations and restrictions to be imposed on the contractor in the handling of the data, shall be specified in the contract. In establishing the contract data requirements and in specifying data items to be delivered by a contractor, bureaus may, consistent with paragraph (a)(2) above, develop their own implementing instructions (including data requirements lists) for listing, specifying, identifying sources, assuring delivery, and handling any data required to be delivered, first produced, or specifically used in the performance of the contract.

(b) *Additional data requirements.* Recognizing that in some contracting situations, such as experimental, developmental, research, or demonstration contracts, it may not be possible or appropriate to ascertain all the data requirements at the time of contracting, the clause at 2852.227–72, Additional Data Requirements, is provided to enable the subsequent ordering by the Government of additional data first produced or specifically used in the performance of such contracts as the actual requirements become known. Data may be ordered under this clause at any time during contract performance or within a period of 3 years after acceptance of all items to be delivered under the contract. The contractor is to be compensated for converting the data into the prescribed form, for reproduction, and for delivery. In order to minimize storage costs for the retention of data, the contractor may be relieved of retention requirements for specified data items by the contracting officer at any time during the retention period required by the clause. Any data ordered under the clause will be subject to the Rights in Data-General clause in the contract and data authorized to be withheld under that clause will not be required to be delivered under this Additional Data Requirements clause.

2827.405 Solicitation provisions and contract clauses

(a)(1) The contracting officer shall insert the clause at 2852.227–70, Rights in Data-General (see 2827.403(b)), in solicitations and contracts if it is contemplated that data will be produced, furnished, or acquired under the contract, unless the contract is:

(i) For the production of special works of the type set forth in 2827.403(c), but the clause at 2852.227–70, Rights in Data-General, shall be included in the contract and made applicable to data other than special works, as appropriate;

(ii) For the separate acquisition of existing works, as described in 2827.403(d);

(iii) To be performed outside the United States, its possessions, and Puerto Rico, in which case bureaus may prescribe different clauses (see paragraph (h) below);

(iv) For architect-engineer services or construction work, in which case bureaus may prescribe different clauses (see paragraph (i) below), but the clause at 2852.227–70, Rights in Data-General, may be included in the contract and made applicable to data pertaining to other than architect-engineer services and construction work;

(v) A Small Business Innovative Research (SBIR) contract, in which case bureaus shall prescribe clauses consistent with the requirements of Public Law 97–219 (the Small Business Innovative Development Act of 1982) and the Small Business Administration Policy Directive No. 65–01 (see paragraph (j) below);

(vi) For the operation of a Government-owned facility to perform research, development or production work, in which case bureaus may prescribe different clauses (see paragraph (k) below).

(2) If a contracting officer determines, in accordance with 2827.403(b)(2), to adopt the alternate definition of "Limited Rights Data" in paragraph (a) of the clause, the clause shall be used with its Alternate I.

(3) If a contracting officer needs to obtain the delivery of limited rights data, the clause shall be used with its Alternate II (see 2827.403(b)(4)). The contracting officer shall, when Alternate II is used, assure that the purposes, if any, for which limited rights data is to be disclosed outside the Government are included in the "Limited Rights Notice" of subparagraph (h)(2) of the clause in accordance with 2827.403(b)(4). The contract may exclude identified items of data from delivery under subparagraph (h)(2) of the clause. Alternate II may be used at the time of contracting or subsequently by amendment if the need to acquire limited rights data arises during contract performance.

(4) If a contracting officer needs to obtain the delivery of restricted computer software, the clause shall be used with its Alternate III (see 2827.403(b)(5)). Any greater or lesser rights regarding the use, duplication, or disclosure of restricted computer software than those set forth in the Restricted Rights Notice of

subparagraph (h)(3) of the clause must be specified in the contract. Alternate III may be used at the time of contracting or subsequently by amendment if the need to acquire restricted computer software arises during contract performance.

(5) The clause at 2852.227–73, Rights in Data-Special Works, shall be used if existing works, other than computer software, are to be modified or adapted to the specific needs of the contracting agency and the modifications or adaptations are to be performed under the contract. The clause may be used with its Alternate I if the contracting officer determines that the Government's minimum needs can be satisfied with less than all rights as set forth in the basic clause.

(6) The clause at 2852.227–74, Rights in Data-Existing Works, shall be used when existing works are to be acquired under the contract. The clause may be used with its Alternate I if the contracting officer determines that the Government's minimum needs can be satisfied with less than all rights as set forth in the basic clause.

(7) The clause at 2852.227–75, Rights in Data-Special Works (Small Business Innovative Research Program), shall be used in contracts awarded under the Small Business Innovative Research Program.

(b) The clause at 2852.227–76, Computer Software, shall be used in contracts when computer software is to be developed or furnished.

(c) The clause at 2852.227–77, Rights in Bid or Proposal Info, shall be used in solicitations and contracts when technical data or computer software is required to be submitted with a bid or proposal.

(d) The clause at 2852.227–78, Preservation of Data, shall be used in solicitations and contracts when there is a need to preserve data for a period after contract completion.

(e) The clause at 2852.227–79, Copyright—Data First Produced in the Performance of the Contract, shall be used in solicitations and contracts when data first produced in the performance of the contract is to be copyrighted.

(f) The clause at 2852.227–80, Copyright—Existing Data, shall be used in solicitations and contracts when existing data is to be copyrighted.

(g) The clause at 2852.227–81, Rights in Data—Existing Works (Architect-Engineer Services), shall be used in solicitations and contracts for architect-engineer services when existing works are to be acquired under the contract.

(h) The clause at 2852.227–82, Rights in Data-General (Outside U.S.), shall be used in solicitations and contracts when data is to be produced outside the United States, its possessions, and Puerto Rico.

(i) The clause at 2852.227–83, Rights in Data-General (Architect-Engineer Services), shall be used in solicitations and contracts for architect-engineer services when data is to be produced.

(j) The clause at 2852.227–84, Rights in Data-General (Small Business Innovative Research Program), shall be used in solicitations and contracts awarded under the Small Business Innovative Research Program.

(k) The clause at 2852.227–85, Rights in Data-General (Government-Owned Facility), shall be used in solicitations and contracts when data is to be produced in a Government-owned facility.

(l) The clause at 2852.227–86, Technical Data—Computer Software, shall be used in solicitations and contracts when technical data or computer software is required to be delivered.

(m) The clause at 2852.227–87, Rights in Data—Special Works (Architect-Engineer Services), shall be used in solicitations and contracts for architect-engineer services when special works are to be produced.

(n) The clause at 2852.227–88, Rights in Data—Special Works (Outside U.S.), shall be used in solicitations and contracts when special works are to be produced outside the United States, its possessions, and Puerto Rico.

(o) The clause at 2852.227–89, Rights in Data—Special Works (Government-Owned Facility), shall be used in solicitations and contracts when special works are to be produced in a Government-owned facility.

(p) The clause at 2852.227–90, Rights in Data—Special Works (Small Business Innovative Research Program), shall be used in solicitations and contracts awarded under the Small Business Innovative Research Program.

(q) The clause at 2852.227–91, Rights in Data—Special Works (Architect-Engineer Services, Outside U.S.), shall be used in solicitations and contracts for architect-engineer services when special works are to be produced outside the United States, its possessions, and Puerto Rico.

(r) The clause at 2852.227–92, Rights in Data—Special Works (Architect-Engineer Services, Government-Owned Facility), shall be used in solicitations and contracts for architect-engineer services when special works are to be produced in a Government-owned facility.

(s) The clause at 2852.227–93, Rights in Data—Special Works (Small Business Innovative Research Program, Government-Owned Facility), shall be used in solicitations and contracts awarded under the Small Business Innovative Research Program.

(t) The clause at 2852.227–94, Rights in Data—Special Works (Outside U.S., Government-Owned Facility), shall be used in solicitations and contracts when special works are to be produced outside the United States, its possessions, and Puerto Rico in a Government-owned facility.

(u) The clause at 2852.227–95, Rights in Data—Special Works (Architect-Engineer Services, Outside U.S., Government-Owned Facility), shall be used in solicitations and contracts for architect-engineer services when special works are to be produced outside the United States, its possessions, and Puerto Rico in a Government-owned facility.

PART 2831—CONTRACT COST PRINCIPLES AND PROCEDURES

PART 2835—RESEARCH AND DEVELOPMENT CONTRACTING

"Created," as used in this clause, has the same meaning as does that term in the

subparagraph (h)(3) of the clause must be specified in the contract. Alternate III may be used at the time of contracting or subsequently by amendment if the need to acquire restricted computer software arises during contract performance.

(5) If a contracting officer wishes to limit the automatic right of the contractor to establish claim to copyright subsisting in data first produced in the performance of the contract to scientific and technical articles based on or derived from the work performed under the contract and published in academic, technical, or professional journals, the clause shall be used with its Alternate IV. (See 2827.403(b)(6).) Alternate IV provides a substitute subparagraph (c)(1) in the clause with such limitation. This subparagraph (c)(1) does, however, allow the contracting officer to give permission to the contractor to establish claim to copyright subsisting in other data first produced in the performance of the contract, either at the time of contracting or subsequently during contract performance, in accordance with 2827.403(b)(6).

(6) If a contracting officer needs to have the right to inspect certain data at a contractor's facility, the clause shall be used with its Alternate V. (See 2827.403(b)(11).) Alternate V adds a paragraph (1) to the clause to provide for such right, including the limitations thereon. Inspection may be by the contracting officer or a representative, and may be made at all reasonable times up to 3 years after acceptance of all items to be delivered under the contract. The contract may specify data items that are not to be subject to inspection under paragraph (1) of the clause. If the contractor demonstrates to the contracting officer that there would be a possible conflict of interest if inspection were made by a particular representative, the contracting officer shall designate an alternate representative.

(b) If a contracting officer desires to have an offeror state in response to a solicitation, to the extent feasible, whether limited rights data or restricted computer software is likely to be used in meeting the data requirements set forth in the solicitation, the contracting officer shall insert the provision at 2852.227–71, Notification of Limited Rights Data and Restricted Computer Software, in any solicitation containing the clause at 2852.227–70, Rights in Data-General. The contractor's response will provide an aid in determining whether the clause should be used with Alternate II and/or Alternate III. (See 2827.403(b)(4) and (5).)

(c) The contracting officer shall insert the clause at 2852.227–72, Additional Data Requirements, in solicitations and contracts involving experimental, developmental, research, or demonstration work unless all the requirements for data are believed to be known at the time of contracting and specified in the contract. (See 2827.404.) This clause may also be used in other contracts when considered appropriate. If the clause at 2852.227–70, Rights in Data-General, is used in the contract with its Alternates II or III, the contracting officer may permit the contractor to identify data the contractor does not wish to deliver, and may specifically exclude in the contract any requirements that such data be delivered under paragraphs (h) (2) or (3) of that clause or ordered for delivery under the Additional Data Requirements clause if such data is not necessary to meet the Government's requirements for data. Also, the contracting officer may alter the Additional Data Requirements clause by deleting the term "or specifically used" in subparagraph (a) of the clause if delivery of such data is not necessary to meet the Government's requirements for data.

(d) The contracting officer shall insert the clause at 2852.227–73, Rights in Data-Special Works, in solicitations and contracts primarily for the production or compilation of data (other than limited rights data or restricted computer software) for the Government's internal use, or when there is a specific reason to limit distribution and use of the data and/or to obtain indemnity for liabilities that may arise out of the content, performance, or disclosure of the data. Examples of such contracts are set forth in 2827.403(c). The contract may specify the purposes and conditions (including time limitations) under which the data may be used, released, or reproduced by the contractor for other than contract performance. Contracts for the production of audiovisual works, sound recordings, etc., may include limitations in connection with talent releases, music licenses, and the like that are consistent with the purposes for which the data is acquired.

(e) The contracting officer shall insert the clause at 2852.227–74, Rights in Data-Existing Works, in solicitations and contracts exclusively for the acquisition, without modification, of existing audiovisual and similar works of the type set forth in 2827.403(d)(1). The contract may set forth limitations consistent with the purposes for which the work is being acquired. The clause at 2852.227–73, Rights in Data-Special Works, shall be used if existing works are to be modified, as by editing, translation, addition of subject matter, etc.

(f) While no specific clause of this subpart need be included in contracts for the separate acquisition of existing computer software, the contracting officer shall assure that the contract contains terms to obtain sufficient rights for the Government to fulfill the need for which the software is being acquired and is otherwise consistent with 2827.403(d)(2).

(g) While no specific clause of this subpart need be included in contracts solely for the acquisition of books, publications, and similar items in the exact form in which such items exist prior to the request for purchase (i.e., the off-the-shelf purchase of such items), if reproduction rights are to be acquired, the contract shall include terms addressing such rights. (See 2827.403(d)(3).)

(h) Bureaus may prescribe, as appropriate, clauses consistent with the policy of section 2827.402 in contracts to be performed outside the United States, its possessions, and Puerto Rico.

(i) Bureaus may prescribe, as appropriate, clauses consistent with the policy in section 2827.402 in contracts for architect-engineer services and construction work.

(j) Bureaus shall prescribe clauses consistent with the requirements of Pub. L. 97–219 (the Small Business Administration Development Act of 1982) and the Small Business Innovative Policy Directive No. 65–01 in Small Business Innovative Research (SBIR) contracts.

(k) Bureaus may prescribe, as appropriate, clauses consistent with the policy in section 2827.402 in contracts for the operation of Government-owned research, development, or production facilities.

PART 2830—COST ACCOUNTING STANDARDS

Subpart 2830.2—Disclosure Requirements

2830.201–270 [Amended]

23. Section 2830.201–70, last sentence is amended by removing the words ". . . to the DOJ Procurement Executive who will review" and inserting ". . . to the Office of the Procurement Executive for review of . . ." in their place.

PART 2831—CONTRACT COST PRINCIPLES AND PROCEDURES

Subpart 2831.1—Applicability

2831.101–70 [Amended]

24. 2831.101–70, paragraph (b), is amended by removing the words "DOJ Procurement Executive" and inserting the words "Office of the Procurement Executive" in their place.

25. A new Part 2834 is added to read as follows:

PART 2834—MAJOR SYSTEM ACQUISITION

2834.002–70 Policy.

In accordance with Pub. L. 98–577, the Small Business and Federal Procurement Competition Enhancement Act of 1984, an executive agency may establish dollar thresholds for the designation of a major system. Accordingly, dollar thresholds for a major system under Office of Management and Budget Circular A–109 are designated below.

(a) *Major Automated Information System.* Within the Department of Justice, a major automated information system is one whose life cycle cost is in excess of $40 million.

(b) *Major Real Property System.* (1) By purchase, when the assessed value of the property exceeds $12 million.

(2) By lease, when the annual rental charges, including basic services (e.g., cleaning, guards, maintenance), exceed $1.5 million.

(3) By transfer from another agency at no cost when the assessed value of the property exceeds $12 million.

(c) *Construction Projects.* Construction projects for which the total estimated costs (including architectural and engineering design fees, and project administration and management fees) through implementation of the project exceed $60 million.

(d) *Research and Development (R&D) System.* Any R&D activity expected to exceed $0.5 million for the R&D phase is subject to OMB Circular A–109, unless exempted by the head of the contracting activity.

(e) *Any Other System or Activity.* The head of the agency responsible for the system may designate any system or activity as a Major System under OMB Circular A–109 as a result of Departmental review, e.g., selected systems designed to support more than one principal organizational unit.

(28 U.S.C. 510; 40 U.S.C. 486(c); 28 CFR 0.75(j) and 0.76(j).)

PART 2835—RESEARCH AND DEVELOPMENT CONTRACTING

Subpart 2835.003–70 Policy and Procedures

2835.003–70 [Amended]

26. Section 2835.003–70, paragraph (a), second sentence, is amended by removing "justification for noncompetitive procurement" and inserting the words "justification for other than full and open competition" in their place.

27. Section 2835.003–70, paragraph (a), third sentence, is amended by removing the words "DOJ Procurement Executive" and inserting the words "Office of the Procurement Executive" in their place.

PART 2852—[AMENDED]

28. Subpart 2852.227 is added to read as follows:

Subpart 2852.227

Sec.
2852.227–70 Rights in data—general.
2852.227–71 Notification of limited rights data and restricted computer software.
2852.227–72 Additional data requirements.
2852.227–73 Rights in data—special works.
2852.227–74 Rights in data—existing works.

Subpart 2852.227

2852.227–70 Rights in data—general.

As prescribed in 2827.403(a) and 2827.405(a)(1), insert the following clause:

Rights in Data—General (Apr. 1, 1985)

(a) *Definitions.*

"Computer software," as used in this clause, means:

(1) Computer programs, i.e., any set of statements or instructions in any form of written programming language source code, or machine-executable code that is capable of causing a machine with information processing capabilities to perform a particular result;

(2) Computer data bases, i.e., any form of information in written programming language source code or machine-executable code, other than computer programs;

(3) Computer supporting material, i.e., any material in lingual, pictorial schematic, or other form, that would permit the making of a computer program (e.g., flow charts), or that was created to aid the understanding, application, or use of a computer program (e.g., user instructions and manuals, installation and operation manuals, input and output forms, and technical documentation); and,

(4) Any updates or revisions to computer programs, computer data based, or computer supporting material;

(5) But, does not mean any data produced as a result of using computer programs, computer data bases, or computer supporting material delivered under a contract.

"Created," as used in this clause, has the same meaning as does that term in the Copyright Act (17 U.S.C. 101).

"Data," as used in this clause, means recorded information, regardless of form or the media on which it may be recorded. The term includes computer software. The term does not include information incidental to contract administration, such as contract cost analysis or financial, business, and management information required for contract administration purposes.

"Data first produced in the performance of this contract," as used in this clause, means data the contractor created, in whole or in part, after the effective date of this contract for the purpose of performing its obligations under this contract.

"Form, fit, and function data," as used in this clause, means data relating to, and sufficient to enable, physical and functional interchangeability; as well as data identify source, size, configuration, mating and attachment characteristics, and performance requirements.

"Limited rights," as used in this clause, means the rights of the Government in limited rights data as set forth in the Limited Rights Notice of subparagraph (h)(2) if included in this clause, or as otherwise provided in a collateral agreement incorporated in and made part of this contract.

"Limited rights data," as used in this clause, means computer software developed in whole at private expense and that is a trade secret or is copyrighted computer software.

"Restricted computer software," as used in this clause, means computer software developed in whole at private expense and that is a trade secret or is copyrighted computer software.

"Restricted rights," as used in this clause, means the rights of the Government in restricted computer software, as set forth in the Restricted Rights Notice of subparagraph (h)(3) if included in this clause, or as otherwise may be provided in a collateral agreement incorporated in and made part of this contract.

"Unlimited rights," as used in this clause, means the rights to make, use, disclose publicly, reproduce, prepare derivative works, distribute copies to the public, without restriction, by sale or other transfer of ownership or by rental, lease or lending, perform publicly in whole or in part, and display publicly in any manner and for any purpose, and to have or permit others to do so. In the case of computer software, "unlimited rights" also includes the right to modify, prepare adaptations, enhance, merge or combine with other computer software, and convert to any other programming language, source code, or machine-executable code.

(b) *Allocation of rights.* (1) Except as provided in paragraph (c) below, the Government shall have entire right, title and interest, and unlimited rights in:

(i) All data first produced in the performance of this contract;

(ii) All form, fit, and function data delivered under this contract;

(iii) All other data delivered under this contract unless provided otherwise for limited rights data or restricted computer

(ii) If, upon final disposition, the contracting officer's challenge to the restriction on the right of the Government to

of incorrect notices if the contractor identifies the data on which correction of the notice is

commercial or financial and confidential or privileged.

(iii) All other data delivered under this contract unless provided otherwise for limited rights data or restricted computer software in accordance with paragraph (h) below;

(iv) All data produced as a result of using computer software delivered under this contract; and,

(v) All modifications, adaptation, enhancements, mergers or combinations with other computer software, and conversions to any other programming language source code or machine executable code, of any computer software first produced in the performance of this contract, or of any other computer software delivered under this contract unless provided otherwise for restricted computer software in accordance with paragraph (h) below, created by or on behalf of the Government.

(2) Except as provided in paragraph (d) below, the contractor shall have:

(i) A non-exclusive, royalty-free, worldwide, unlimited right to all data first produced in the performance of this contract or otherwise delivered under this contract, but not in data identified in subparagraph (1)(iv) and (1)(v) of this paragraph above, except as set forth in paragraph (h) below.

(ii) The right to protect data which is limited rights data or restricted computer software to the extent provided in paragraphs (f), (g), and (h) below; and,

(iii) The right to establish claim to copyright subsisting in data first produced in the performance of this contract to the extent provided in subparagraph (c)(1) below.

(c) *Copyright.*—(1) *Data first produced in the performance of this contract.* (i) Except as provided in paragraph (ii) below, the contractor may establish claim to copyright subsisting in any data it first produced in the performance of the contract. If the contractor claims such copyrights, the contractor shall notify the Government that it claims such copyrights, identify the specific data for which the contractor claims such copyrights and affix the applicable copyright notice of 17 U.S.C. 401 or 402 to the data when the contractor delivers that data to the Government, and include an acknowledgement of Government sponsorship on the data when registering the copyright claim in the U.S. Copyright Office, and when publishing the data. For any data first produced in the performance of this contract for which the contractor claims such copyrights, the contractor shall have title to such data and the Government shall have a non-exclusive, non-transferable, irrevocable, paid-up worldwide license of unlimited rights with the following exceptions: these rights do not include the right to license or sublicense, or to have, or permit, other persons to exercise those rights other than those on behalf of the Government. For any such data for which the contractor so acquires title, the march-in-rights provided in paragraph (ii) below shall apply.

(ii) *March-In-Rights.* With respect to any data first produced in the performance of this contract in which the contractor has acquired title, the Department of Justice (DOJ) shall have the right to require the contractor, assignee, or exclusive licensee of the copyright to such data, to grant a non-exclusive, partially exclusive, or exclusive license of such rights in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the contractor, assignee, or exclusive licensee refuses such a request, the DOJ has the right to grant such license itself if DOJ determines that: (1) such action is necessary because the contractor, assignee, or licensee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the data in such field of use; (2) such action is necessary to alleviate health or safety needs which are not reasonably satisfied by the contractor, assignee, or licensee; (3) such action is necessary to meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the contractor, assignee, or licensee; or, (4) the effect of the contractor's acquisition of title at the time of the acquisition, in any line of commerce in any section of the country, may be to substantially lessen competition or tend to create a monopoly.

(2) *Data not first produced in the performance of this contract.* The contractor shall not, without prior written permission of the contracting officer, incorporate in data delivered under this contract any data not first produced in the performance of this contract and for which copyright is claimed by anyone, unless the contractor identifies such data and grants to the Government, or acquires on its behalf, a license of the same scope as set forth in subparagraph (1)(i) above; (*provided, however,* That if such data is computer software the Government shall acquire a copyright license as set forth in subparagraph (h)(3) below if included in this contract or as otherwise may be provided in a collateral agreement incorporated in or made part of this contract.)

(3) The Government agrees not to remove any copyright notices placed on data pursuant to this paragraph (c), and to include such notices on all reproduction of the data.

(d) *Data received in performance of contract.* The contractor agrees that to the extent it receives or is given access to data necessary for the performance of this contract which contains restrictive markings, the contractor shall treat the data in accordance with such markings unless otherwise specifically authorized in writing by the contracting officer.

(e) *Validation of proprietary data restrictions.* (1) Notwithstanding any other provisions of this contract including inspection and acceptance the Government has the right to require a contractor or subcontractor, at any tier, to furnish to the contracting officer a written justification for any restriction asserted by the contractor or subcontractor on the right of the Government to use such technical data. The contracting officer shall review the validity of any restriction asserted by the contractor or by a subcontractor under the contract on the right of Government to use technical data furnished to it under a contract if the contracting officer determines that reasonable grounds exist to question the current validity of the asserted restriction and that continued adherence to the asserted restriction by the Government would make it impracticable to procure the item competitively at a later date.

(2) If after such review the contracting officer determines that a challenge to the asserted restriction is warranted, the contracting officer shall provide written notice to the contractor or subcontractor asserting the restriction. Such notice shall state:

(i) the grounds for challenging the asserted restriction; and,

(ii) the requirement for a written response within 60 days justifying the current validity of the asserted restriction.

(3) If a contractor or subcontractor asserting a restriction subject to this section submits to the contracting office a written request, showing the need for additional time to comply with the requirement to justify the current validity of the asserted restriction, additional time to adequately permit the submission of such justification shall be provided by the contracting officer as appropriate. If a party asserting a restriction receives notices of challenge to restrictions or technical data from more than one contracting officer and notifies each contracting officer of the existence of more than one challenge, the contracting officer initiating the first in time challenge, after consultation with the party asserting the restriction and other contracting officers, shall formulate a schedule of responses to each of the challenges that will afford the party asserting the restriction with an equitable opportunity to respond to each such challenge.

(4)(i) Upon a failure by the contractor or subcontractor to submit any response under subsection (2), the contracting officer shall issue a decision pertaining to the validity of the asserted restriction.

(ii) If a justification is submitted in response to the notice provided pursuant to subsection (2), a contracting officer shall within 60 days of receipt of any justification submitted, issue a decision or notify the party asserting the restriction of the time within which a decision will be issued.

(5) If a claim pertaining to the validity of the asserted restriction is submitted in writing to a contracting officer by a contractor or subcontractor at any tier, such claim shall be considered a claim within the meaning of the Contract Disputes Act of 1978 (41 U.S.C. 601 et seq.).

(6)(i) If, upon final disposition, the contracting officer's challenge to the restriction on the right of the Government to use such technical data is sustained:

(A) the restriction on the right of the Government to use the technical data shall be cancelled; and,

(B) if the asserted restriction is found not to be substantially justified, the contractor, or subcontractor, as appropriate, shall be liable to the Government for payment of the cost to the Government of reviewing the asserted restriction and the fees and other expenses (as defined in Title 28 Section 2412(d)(2)(A)) incurred by the Government in challenging the asserted restriction, unless special circumstances would make such payments unjust.

(ii) If, upon final disposition, the contracting officer's challenge to the restriction on the right of the Government to use such technical data is not sustained:

(A) the Government shall continue to be bound by the restriction; and,

(B) the Government shall be liable for payment to the party asserting the restriction for fees and other expenses (as defined in Title 28 U.S.C. Section 2412(d)(2)(A)) incurred by the party asserting the restriction in defending the asserted restriction if the challenge by the Government is found not to be made in good faith.

(f) *Unauthorized markings of data.* (1) Notwithstanding any other provisions of this contract concerning inspection or acceptance, if any data delivered under this contract is marked with the notices specified in subparagraphs (h)(2) or (h)(3) below and use of such is not authorized by this clause, the contracting officer may either return the data to the contractor, or cancel or ignore the markings. However, markings will not be cancelled or ignored unless:

(i) The contracting officer makes written inquiry to the contractor concerning the propriety of the markings, providing the contractor 60 days to respond; and,

(ii) The contractor fails to respond within the 60-day period (or a longer time approved by the contracting officer for good cause shown), or the contractor's response fails to substantiate the propriety of the markings.

(2) The contracting officer shall consider the contractor's response, if any, and determine whether the markings shall be cancelled or ignored. The contracting officer shall furnish written notice to the contractor of the determination, which shall be a final decision under the Contract Disputes Act.

(3) The above procedures may be modified in accordance with bureau regulations implementing the Freedom of Information Act (5 U.S.C. 552) if necessary to respond to a request for data thereunder.

(g) *Omitted or incorrect markings.* (1) Data delivered to the Government without any notice authorized by paragraph (h) below, or without a copyright notice, shall be deemed to have been furnished with unlimited rights, and the Government assumes no liability for the disclosure, use, or reproduction of such data. However, to the extent the data has not been disclosed without restriction outside the Government, the contractor may request, within six months (or a longer time approved by the contracting officer for good cause shown) after delivery of such data, permission to have notices placed on qualifying data at the contractor's expense, and the contracting officer may agree to do so if the contractor:

(i) Identifies the data to which the omitted notice is to be applied;

(ii) Demonstrates that the omission of the notice was inadvertent;

(iii) Establishes that the use of the proposed notice is authorized; and,

(iv) Acknowledges that the Government has no liability with respect to the disclosure or use of any such data made prior to the addition of the notice or resulting from the omission of the notice.

(2) The contracting officer may also (i) permit correction at the contractor's expense, of incorrect notices if the contractor identifies the data on which correction of the notice is to be made, and demonstrates that the correct notice is authorized, or, (ii) correct any incorrect notices.

(h) *Protection of limited rights data and restricted computer software.* (1) Except as provided otherwise in paragraphs (2) and (3) below, when data other than those listed in subparagraphs (b)(1) (i) and (ii) above are specified to be delivered under this contract and qualify as either limited rights data or restricted computer software the contractor, if he/she desires to continue protection of such data, shall withhold such data and not furnish it to the Government under this contract. As a condition of this withholding the contractor shall identify the data as withheld and furnish form, fit, and function data in lieu thereof. Limited rights data that are formatted as computer data bases for delivery to the Government are to be treated as limited rights data and not restricted computer software.

(2) Reserved (unless Alternate II is used)

(3) Reserved (unless Alternate III is used)

(i) *Subcontracting.* The contractor has the responsibility to obtain from its subcontractors all data and rights therein necessary to fulfill the contractor's obligations to the Government under this contract. If a subcontractor refuses to accept terms affording the Government such rights, the contractor shall promptly bring such refusal to the attention of the contracting officer and not proceed with subcontract award without further authorization.

(j) *Relationship to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government.

(k) *Indemnity.* The contractor shall indemnify the Government and its officers, agents, and employees acting for the Government against any liability, including costs and expenses, incurred as the result of the violation of trade secrets, copyrights, or right of privacy or publicity, arising out of the creation, delivery publication, or use of any data delivered under this contract; or any libelous or other unlawful matter contained in such data. The provisions of this paragraph do not apply unless the Government provides notice to the contractor as soon as practicable of any claim or suit, affords the contractor an opportunity under applicable laws, rules, or regulations to participate in the defense thereof, and obtains the contractor's consent to the settlement of any suit or claim other than as required by final decree of a court of competent jurisdiction; and do not apply to material furnished to the contractor by the Government and incorporated in data to which this clause applies.

(End of clause)

Alternate I (Apr. 1, 1985). As prescribed in 2827.403(b)(2) and 2827.405(a)(2), substitute the following definition for "Limited Rights Data" in paragraph (a) of the clause.

"Limited rights data," as used in this clause, means data produced at private expense that embody trade secrets or are commercial or financial and confidential or privileged.

Alternate II (Apr. 1, 1985). As prescribed in 2827.403(b)(4) and 2827.405(a)(3), insert the following subparagraph (h)(2) in the clause:

(h)(2) Notwithstanding subparagraph (h)(1) above, the contract may identify and specify the delivery of limited rights data, or the contracting officer may require by written request the delivery of limited rights data that have been withheld or would otherwise be withholdable. If deliver of such data is so required, the contractor may affix the following "Limited Rights Notice" to the data and the Government will thereafter treat the data, subject to the provisions of paragraphs (e), (f) and (g) above, in accordance with such Notice:

"Limited Rights Notice (Apr. 1, 1985)

(a) These data are submitted with limited rights under Government contract No. ——— (subcontract ———, if appropriate). The data may be reproduced and used by or on behalf of the Government with the express limitation that it will not, without permission of the contractor, be used for purposes of manufacture nor disclosed outside the Government; except that the Government may disclose this data outside the Government for the following purposes, if any, provided that the Government makes such disclosure subject to prohibition against further use and disclosure:

[Agencies may list additional purposes as set forth in 2827.403(b)(4)]

(b) This Notice shall be marked on any reproduction of this data, in whole or in part."

Alternate III (Apr. 1, 1985). As prescribed in 2827.403(b)(5) and 2827.405(a)(4), insert the following subparagraph (h)(3) in the clause:

(h)(3) Notwithstanding subparagraph (h)(1) above, the contract may identify and specify the delivery of restricted computer software, or the contracting officer may require by written request the delivery of restricted computer software that has been withheld. If delivery of such computer software is so required, the contractor may affix the following "Restricted Rights Notice" to the computer software and the Government will thereafter treat the computer software, subject to paragraphs (e), (f) and (g) above, in accordance with the Notice:

"Restricted Rights Notice (Apr. 1, 1985)

(a) This computer software is submitted with restricted rights under Government contract No. ——— (and subcontract . . . . . , if appropriate). The rights of the Government are those as provided below.

(b) The Government may:

(1) Use this computer software or reproduce it for use in or with the computer for which it was acquired, including use at any Government installation to which such computer or computers may be transferred;

(2) Reproduce it for safekeeping (archives) or backup purposes;

(3) Prepare derivative works of, modify or adapt, or enhance it, or merge or combine it with other computer software, or convert it to other programming language source code or machine-executable code, providing that the modified or adapted, enhanced, merged,

combined or converted portions of the restricted computer software incorporated in the computer software shall be subject to the

with the following exceptions: these rights do not include the right to license or sublicense,

Notification of Limited Rights Data and Restricted Computer Software (Apr. 1, 1985)

authorized by the Rights in Data—General clause of this contract, or data which are

the permission of the contracting officer,

contract and for which copyright is claimed

VOL 50 ISS 140 JL 22 1985 UMI

combined or converted portions of the restricted computer software incorporated in the computer software shall be subject to the same restricted rights, and the contractor shall not have any rights to other portions of the modified, adapted, enhanced, merged, combined or converted computer software; and

(4) Disclose and reproduce it for use by support contractors or their subcontractors in accordance with subparagraphs (1) through (3) above, provided the Government makes such disclosure subject to these restricted rights.

(c) Notwithstanding the foregoing, if this computer software is published, copyrighted computer software, it is licensed to the Government, without disclosure prohibitions, with the minimum rights set forth in paragraph (c) of the clause No. 2852.227–70, "Rights in Data-General."

(d) Any other rights or limitations regarding the use, duplication or disclosure of this computer software are to be expressly stated in the contract.

(e) This Notice shall be marked on any reproduction of this computer software, whether reproduced in whole or in part."

Where it is impractical to include the above Notice on restricted computer software, the following short-form notice may be used in lieu thereof:

"Restricted Rights Notice

(Short Form) (Apr. 1, 1985)

Use, reproduction, or disclosure is subject to restrictions set forth in contract No. ——— (and subcontract ———, if appropriate) with ——— (name of contractor and subcontractor)."

Alternate IV (Apr. 1, 1985). As prescribed in 2827.403(b)(6) and 2827.405(a)(5), substitute the following subparagraph (c)(1) in the clause:

(c)(1) *Data first produced in the performance of this contract.* (i) Unless provided otherwise in subparagraph (d) below, the contractor may establish claim to copyright subsisting in scientific and technical articles based on or derived from data first produced in the performance of this contract and published in academic, technical, or professional journals. The prior, express written permission of the contracting officer is required to establish claim to copyright subsisting in all other data first produced in the performance of this contract in accordance with Justice Acquisition Regulation 2827.403(b)(6). When the contractor claims such copyrights, the contractor shall notify the specific data for which the contractor claims such copyrights and affix the applicable copyright notice of 17 U.S.C. 401 or 402 to the data when the contractor delivers those data to the Government, and include an acknowledgment of Government sponsorship on the data when registering the copyright claim in the U.S. Copyright Office, and when publishing the data. For any data first produced in the performance of this contract for which the contractor claims such copyrights the contractor shall have title to such data and the Government shall have a non-exclusive, non-transferable, irrevocable, paid-up worldwide license of unlimited rights with the following exceptions: these rights do not include the right to license or sublicense, or to have, or permit, other persons to exercise those rights other than those on behalf of the Government. For any such data for which the contractor so acquires title, the march-in-rights provided in paragraph (ii) below shall apply.

(ii) *March-In-Rights.* With respect to any data first produced in the performance of this contract in which the contractor has acquired title, the Department of Justice (DOJ) shall have the right to require the contractor, assignee, or exclusive licensee of the copyright to such data, to grant a non-exclusive, partially exclusive, or exclusive license of such rights in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the contractor, assignee, or exclusive licensee refuses such a request, the DOJ has the right to grant such license itself if DOJ determines that: (1) such action is necessary because the contractor, assignee, or licensee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the data in such field of use; (2) such action is necessary to alleviate health or safety needs which are not reasonably satisfied by the contractor, assignee, or licensee; (3) such action is necessary to meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the contractor, assignee, or licensee; or (4) the effect of the contractor's acquisition of title at the time of the acquisition, in any line of commerce in any section of the country, may be to substantially lessen competition or tend to create a monopoly.

Alternate V (Apr. 1, 1985). As prescribed in 2827.403(b)(11) and 2827.405(a)(6), add the following paragraph (1) to the clause:

(1) The contractor agrees, except as may be otherwise specified in this contract for specific data items listed as not subject to this paragraph, that the contracting officer or an authorized representative may, at all reasonable times up to three years after acceptance of all items to be delivered under this contract, inspect at the contractor's facility any data withheld under subparagraph (h)(1) of this clause, or any data specifically used in the performance of this contract, for the purpose of evaluating work performance or verifying the contractor's assertion to pertaining to the limited rights or restricted rights status of the data. Where the contractor whose data are to be inspected demonstrates to the contracting officer that there would be a possible conflict of interest if the inspection were made by a particular representative, the contracting officer shall designate an alternate representative.

(End of clause)

2852.227–71 Notification of limited rights data and restricted computer software.

As prescribed in 2827.403(b)(4) and 2827.405(b), insert the following provision in solicitations that include the clause at 2852.227–70, "Rights in Data-General."

Notification of Limited Rights Data and Restricted Computer Software (Apr. 1, 1985)

(a) This solicitation sets forth the work to be performed if a contract award results, and the Government's known requirements for data (as defined in Justice Acquisition Regulations 2852.227–70 Rights in Data—General) may include limited rights data or restricted computer software. Any resulting contract may also provide the Government the option to order additional data under the Additional Data Requirements clause (Justice Acquisition Regulation 2852.227–72), if included in the contract. Any data delivered under the resulting contract will be subject to the Rights in Data—General clause (Justice Acquisition Regulation 2852.227–70) that is to be included in this contract. Under this clause a contractor may withhold from delivery data that qualify as limited rights data or restricted computer software, and deliver form, fit, and function data in lieu thereof. This clause also may be used with Alternates II and/or III to obtain delivery of limited rights data or restricted computer software with limited rights or restricted rights. In addition, use of Alternate V with this clause provides the Government with the rights to inspect such data at the contractor's facility.

(b) As an aid in determining the Government's need to include any of the above Alternates in the clause at 2852.227–70, Rights in Data—General, the offeror's response to this solicitation shall, to the extent feasible, either state that none of the data qualify as limited rights data or restricted computer software, or identify which of the data qualify as limited rights data or restricted computer software. Any identification of limited rights data or restricted computer software in the offeror's response is not determinative of the status of such data should a contract be awarded to the offeror.

(End of clause)

2852.227–72 Additional data requirements.

As prescribed in 2827.404(b) and 2827.405(c), insert the following clause in solicitations and contracts involving experimental, developmental, or research work, except those awards using small purchase procedures. This clause may be used in solicitations and contracts for other types of work after consultation with counsel.

Additional Data Requirements (Apr. 1, 1985)

(a) In addition to the data (as defined in the Rights in Data—General clause included in this contract) specified elsewhere in this contract to be delivered, the contracting officer may at any time during contract performance or within a period three years after acceptance of all items to be delivered under this contract, order any data first produced or specifically used in the performance of this contract.

(b) The Rights in Data—General clause included in this contract is applicable to all data ordered under this Additional Data Requirements clause. Nothing contained in this clause shall require the contractor to deliver any data the withholding of which is

authorized by the Rights in Data—General clause of this contract, or data which are specifically identified in this contract as not subject to this clause.

(c) When data are to be delivered under this clause, the contractor will be compensated for converting the data into prescribed form, for reproduction, and for delivery.

(d) The contracting officer may release the contractor from the requirements of this clause for specifically identified data items at any time during the three year period set forth in (a) above.

(End of clause)

2852.227–73 Rights in data—special works.

As prescribed in 2827.403(c) and 2827.405(d), insert the following clause.

Rights in Data—Special Works (Apr. 1, 1985)

(a) *Definitions.*

"Data," as used in this clause, means recorded information, regardless of form or the media on which they may be recorded. The term includes computer software. The term does not include information incidental to contract administration, such as contract cost analysis or financial, business, and management information required for contract administration purposes.

"Unlimited rights," as used in this clause, means the rights to make, use, disclose publicly, reproduce, prepare derivative works, distribute copies to the public, without restriction, perform publicly by sale or other transfer of ownership or by rental, lease or lending, in whole or in part, and display publicly in any manner and for any purpose, and to have or permit others to do so. In the case of computer software, "unlimited rights" also includes the right to modify, prepare adaptations, enhance, merge or combine with other computer software, and convert to any other programming language, source code, or machine-executable code.

(b) *Allocation of Rights.*

(1) The Government shall have:

(i) Unlimited rights in all data delivered under this contract, and in all data first produced in the performance of this contract, except as provided in paragraph (c) below for copyright.

(ii) The right to limit exercise of claim to copyright in data first produced in the performance of this contract, and to obtain assignment of copyright in such data, in accordance with subparagraph (c)(1) below.

(iii) The right to limit the release and use of certain data in accordance with paragraph (d) below.

(2) The contractor shall have, to the extent permission is granted in accordance with subparagraph (c)(1) below, the right to establish claim to copyright subsisting in data first produced in the performance of this contract.

(c) *Copyright.*—(1) *Data first produced in the performance of this contract.* (i) The contractor agrees not to assert, establish, or authorize others to assert or establish, any claim to copyright subsisting in any data first produced in the performance of this contract without the prior written permission of the contracting officer. When the contractor, with the permission of the contracting officer, claims such copyrights, the contractor shall notify the Government that it claims such copyrights, identify the specific data for which the contractor claims such copyrights and affix the applicable copyright notice of 17 U.S.C. 401 or 402 to the data when the contractor delivers those data to the Government, and include and acknowledgement of Government sponsorship on the data when registering the copyright claim in the U.S. Copyright Office, and when publishing the data. For any data first produced in the performance of this contract for which the contractor claims such copyrights, the contractor shall have title to such data and the Government shall have a non-exclusive, non-transferable, irrevocable, paid-up worldwide license of unlimited rights with the following exceptions: these rights do not include the right to license or sublicense, or to have or permit other persons to exercise these rights other than on behalf of the Government. For any such data for which the contractor so acquires title, the march-in-rights provided in paragraph (ii) below shall apply.

(ii) *March-In-Rights.* With respect to any data first produced in the performance of this contract in which the contractor has acquired title, the Department of Justice (DOJ) shall have the right to require the contractor, assignee, or exclusive licensee of the copyright to such data, to grant a non-exclusive, partially exclusive, or exclusive license of such rights in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the contractor, assignee, or exclusive licensee refuses such a request, the DOJ has the right to grant such license itself if DOJ determines that: (1) Such action is necessary because the contractor, assignee, or licensee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the data in such field of use; (2) such action is necessary to alleviate health or safety needs which are not reasonably satisfied by the contractor, assignee, or licensee; (3) such action is necessary to meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the contractor, assignee, or licensee; or (4) the effect of the contractor's acquisition of title at the time of the acquisition, in any line of commerce in any section of the country, may be to substantially lessen competition or tend to create a monopoly.

(iii) If the Government desires to obtain copyright in data first produced in the performance of this contract and permission has not been granted as set forth in subdivision (i) above, the contracting officer may direct the contractor to establish, or authorize the establishment of, claim to copyright in such data and to assign, or obtain the assignment of, such copyright to the Government or its designated assignee.

(2) *Data not first produced in the performance of this contract.* The contractor shall not, without prior written permission of the contracting officer, incorporate in data delivered under this contract any data not first produced in the performance of this contract and for which copyright is claimed by anyone, unless the contractor identifies such data and grants to the Government, or acquires on its behalf, a license of the same scope as set forth in subparagraph (1)(i) above; [*provided*, however, that if such data are computer software the Government shall acquire a copyright license as set forth in subparagraph (b)(3) of the Justice Acquisition Regulations Part 2852.227–70 Rights in Data—General clause of this contract, or as otherwise may be provided in a collateral agreement incorporated in or made part of this contract.]

(d) *Release and use restrictions.* Except as otherwise specifically provided for in this contract, the contractor shall not use for purposes other than the performance of this contract, nor release, reproduce, distribute, or publish any data first produced in the performance of this contract, nor authorize others to do so, without written permission of the contracting officer.

(e) *Indemnity.* The contractor shall indemnify the Government and its officers, agents, and employees acting for the Government against any liability, including costs and expenses, incurred as the result of the violation of trade secrets, copyrights, or right of privacy of publicity, arising out of the creation, delivery, publication, or use of any data delivered under this contract; or any libelous or other unlawful matter contained in such data. The provisions of this paragraph do not apply unless the Government provides notice to the contractor as soon as practicable of any claim or suit, affords the contractor an opportunity under applicable laws, rules, or regulations to participate in the defense thereof, and obtains the contractor's consent to the settlement of any suit or claim other than as required by final decree of a court of competent jurisdiction; and do not apply to material furnished to the contractor by the Government and incorporated in data to which this clause applies.

(End of clause)

2852.227–74 Rights in data—existing works.

As prescribed in 2827.403(d) and 2827.405(e), insert the following clause:

Rights in Data—Existing Works (Apr. 1, 1985)

(a) Except as otherwise provided in this contract, the contractor grants to the Government, and others acting on its behalf, a non-exclusive, non-transferable, irrevocable, paid-up, worldwide license of unlimited rights with the following exceptions: these rights do not include the right to license or sublicense; or, to have or permit other persons to exercise these rights other than on behalf of the Government, for all the material or subject matter called for under this contract or for which this clause is specifically made applicable.

(b) The contractor shall indemnify the Government and its officers, agents, and employees acting for the Government against any liability, including costs and expenses, incurred as the result of: (1) the violation of trade secrets, copyrights, or right of privacy or publicity, arising out of the creation,

delivery, publication, or use of any data furnished under this contract; or, (2) any

contractor an opportunity under applicable laws, rules, or regulations to participate in

contractor by the Government and incorporated in data to which this clause

delivery, publication, or use of any data furnished under this contract; or, (2) any libelous or other unlawful matter contained in such data. The provisions of this paragraph do not apply unless the Government provides notice to the contractor as soon as practicable of any claim or suit, affords the contractor an opportunity under applicable laws, rules, or regulations to participate in the defense thereof, and obtains the contractor's consent to the settlement of any suit or claim other than as required by final decree of a court of competent jurisdiction; and do not apply to material furnished to the contractor by the Government and incorporated in data to which this clause applies.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Privacy Act of 1974: Periodic Publications of all Privacy Act Systems of Records

The Department of the Treasury is systematically republishing all of its systems of records notices. This notice updates the information for the systems of records maintained by the Internal Revenue Service. The notices for these systems of records were last published by the **Federal Register** in the Privacy Act Issuances 1984 Compilation, pages 787–836.

The Department has eliminated Appendix AA which listed blanket-type routine uses. The applicable routine uses now appear in each system of records. All other changes are editorial in nature and consist principally of address changes, revision of organizational titles and transfer of functions. None of the changes require an altered system report as prescribed by 5 U.S.C. 552a(o).

The Internal Revenue Service has deleted eight systems of records. Five of those systems are included in other existing systems as noted below.

Dated: July 15, 1985.

John F.W. Rogers,

Assistant Secretary of the Treasury (Management).

Deletions

22.012—Collection Case File, TX:R—(now included in 22.061).

22.036—Interest Equalization Tax Forms File, TX:R—This tax was repealed on February 1, 1977. The return file has been combined with System 22.034.

22.058—Corporate Tentative Carryback Allowance File, TX:R—Corporations are not covered by the Privacy Act of 1974.

24.017—Employee Inquiry Look-up for TDA Inquiries—(obsolete.) Its successor, the Taxpayer Inquiry Look-up Tape (TILT) is also a file of information returns and is a sub-file of 22.061.

24.057—Taxpayer Delinquent Investigation (TDI) Notice File—(now included in the IMF and BMF, 24.030 and 24.046 respectively).

26.007—Form 2990—Miscellaneous Investigations CP:C—(now included in System 26.006).

46.007—Economic Stabilization Program Files—This program, which related to entrepreneurial activity, ceased to function in 1974.

90.012—Internal Control Records for Chief Counsel Legal Files—Internal control has been decentralized and the records in this system have been placed in many other existing systems of records.

SYSTEM NAME:

Biographical Files, Public Affairs—Treasury/IRS.

SYSTEM LOCATION:

National, Regional and District Offices and Service Centers (See IRS Appendix A).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

IRS Employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records are biographical data on key IRS employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in file cabinets without locks or on magnetic media.

RETRIEVABILITY:

By name.

SAFEGUARDS:

Office doors locked at night.

RETENTION AND DISPOSAL:

Generally governed by the Records Management Handbook IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant to the Commissioner (Public Affairs), Regional, District and Service Centers (see IRS Appendix A).

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to Assistant to the Commissioner (Public Affairs), IRS, Washington, D.C. 20224, for national office file. See Appendix A for appropriate address for regional and district office or service center files.

RECORD ACCESS PROCEDURE:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, subpart C, Appendix B. Inquiries should be addressed as in Notification Procedures.

CONTESTING RECORD PROCEDURES:

See Access.

RECORD SOURCE CATEGORIES:

Information is supplied by the IRS official on an IRS biographical data form.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 10.004

SYSTEM NAME:

Subject Files, Public Affairs—Treasury/IRS.

SYSTEM LOCATION:

National, Regional and District Offices and Service Centers (See IRS Appendix A).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

In general, records are maintained on individuals whose names have been mentioned in the press in connection with their relationship with IRS.

CATEGORIES OF RECORDS IN THE SYSTEM:

The records include correspondence, newspaper clippings, inter-office memoranda and similar documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1 (16) 41.

RETENTION AND DISPOSAL:

Retention and Disposal Instruction for paper document in these files is as specified in the Records Disposition Handbook, Service Centers, IRM 1 (15) 59.26.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (D:R). Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the area in which the individual resides. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the areas in which the individual resides. (See IRS Appendix A.)

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Tax returns and other filings made by the individual and agency entries made in the administration of the individual's tax account.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 22.044

SYSTEM NAME:

P.O.W.–M.I.A. Reference File, D:R:T—Treasury/IRS.

SYSTEM LOCATION:

Austin Service Center and each district office. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

P.O.W./M.I.A.–originated from Department of Defense lists.

CATEGORIES OF RECORDS IN THE SYSTEM:

Lists of P.O.W./M.I.A., Regulations, Rulings, and Instructions as to how to handle specific tax questions relating to their special tax status, copies of individual tax returns, claims, and other documents germane to specific cases.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USE OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents in file folders.

RETRIEVABILITY:

Cases filed alphabetically by last name.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

All cases have been retained and no current provisions have been established for disposal. Auth: IRM (15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (D:R). Officials maintaining the system—Director, Internal Revenue Austin Service Center and District Directors of Internal Revenue. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the area in which the individual resides. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the areas in which the individual resides. (See IRS Appendix A.)

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852 (e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Tax returns and other filings made by the individual and agency entries made in the administration of the individual's tax account.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 22.054

SYSTEM NAME:

Subsidiary Accounting Files, D:R—Treasury/IRS.

SYSTEM LOCATION:

Internal Revenue Service Centers and District Offices. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The categories of individuals on whom records are maintained are taxpayers affected by one or more of the transactions reflected in the categories of records listed below.

CATEGORIES OF RECORDS IN THE SYSTEM:

The types of records maintained in the system are documents containing entity information (name, address, taxpayer identification number or employer identification number and other information necessary to identify the taxpayer) and accounting information relevant to one of the following categories: Funds held pending, disposition and not applied to the taxpayer's liability at present, properties, tangible or intangible, now in the custody of the Internal Revenue Service, counterfeit money, misappropriations or robbery of Internal Revenue Service funds, credits which cannot be applied to a specific taxpayer account at this time, accounts transferred to other Service Centers or

agencies, substantiation for the receipt of funds collected by the Service for other agencies, abatements or assessments of tax on individuals, deposits received from taxpayers, refunds to taxpayers, taxpayer accounts written off by the Service as uncollectible, credits allowed taxpayers requiring special consideration due to processing constraints, litigation, seized and acquired property and Offers-in-Compromise. A General Ledger with all fiscal accounting information is maintained within the RACS system which is an automated accounting control system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Accounting Files consist of paper documents and computer printouts stored in files.

RETRIEVABILITY:

Records are retrievable by Social Security Number and by name.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1 (16) 41.

RETENTION AND DISPOSAL:

Records are retired to the Records Center and are retrieved by request from authorized individuals where account substantiation is necessary. Policies regarding disposal are as specified in the Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (D:R). Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the area in which the individual resides. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the areas in which the individual resides. (See IRS Appendix A.)

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852 (e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Tax returns and other filings made by the individual and agency entries made in the administration of the individual's tax account. Some Justice Department investigations are an additional source for the information contained in litigation case files.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 22.059

SYSTEM NAME:

Unidentified Remitance File, D:R—Treasury/IRS.

SYSTEM LOCATION:

Internal Revenue Service Centers. See IRS Appendix A for locations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Remittances which have been received but cannot be positively identified, either as to the taxpayer who sent it or the tax period to which it is to be applied.

CATEGORIES OF RECORDS IN THE SYSTEM:

Each record contains a fourteen digit unidentified remittance (UR) control number, the amount, received date, and all known identifying data. In addition, the URF contains a record of all doubtfully applied Estimated Tax (ES) credits. The ES record contains the taxpayer's name, address, type of payment, taxpayer identification number, tax period, received date, money amount, and the transaction document locator number (DLN).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Disk Storage.

RETRIEVABILITY:

Remittance amount, Unidentified Remittance Control Number, taxpayer name.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

180 days after the amount is reduced to zero balance. Auth: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (D:R). Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the areas in which the individual resides. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the areas in which the individual resides. (See IRS Appendix A.)

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Remittances received from taxpayers that cannot be positively identified either as to the taxpayer who sent it or the type of tax to which it is to be applied.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 22.060

SYSTEM NAME:

Unit Ledger Cards, D:R:R–Treasury/IRS.

SYSTEM LOCATION:

Internal Revenue Service Centers and Records Center.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Records are maintained on taxpayers having accounts with the Internal Revenue Service which are not compatible with normal master file processes, e.g.: penalties, transferee assessments, termination assessments, excise protest accounts, Master File overflow accounts, culpable and non-petitioning spouses, Forms 1042, 1040–NR, 926, 5330, 4720, 990–AR (Penalty) and pre-ADP returns. Also, a record will be maintained for those taxpayers whose individual income tax overpayment have been retained and transferred from the IMF to apply against past due child and/or spousal support payments as reported to IRS by the States under Pub. L. 97–35.

CATEGORIES OF RECORDS IN THE SYSTEM:

The categories of records maintained are taxpayer entity records (name, address, taxpayer identification number or employer identification number and other indicators relevant to entity maintenance) and records containing tax module information (the tax return, the tax period, the balance due or credit balance, and transactions which have been recorded relative to the module). Information will be maintained as to the name, SSN, address of individuals owing past due child and/or spousal support payments submitted by the States under Pub. L. 97–35. Also maintained will be names of the submission state, the amount owed, and the amount on any individual income tax overpayment retained and transferred to the state to apply against the amount owed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The unit ledger cards are a card file.

RETRIEVABILITY:

Information is retrievable by Taxpayer Identification Number.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1 (16) 41.

RETENTION AND DISPOSAL:

Disposition is prescribed in IRM 1(15)59, Records Disposition Handbook.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (D:R). Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURES:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the area in which the individual resides. (See IRS Appendix A.)

RECORD ACCESS PROCEDURE:

Individuals seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the areas in which the individual resides. (See IRS Appendix A.)

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Tax returns and other filings made by the individual and agency entries made in the administration of the individual's tax account.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 22.061

SYSTEM NAME:

Wage and Information Returns Processing (IRP) File; D:R—Treasury/IRS.

SYSTEM LOCATION:

National Computer Center, Martinsburg, W. Va.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Recipients of various types on income; wages; dividends; interest; rents and royalties; medical payments; capital gains distributions; non-taxable distributions; pensions, annuities, retired pay or IRA payments; patronage dividends, distributions, and allocations; fishing crew payments; sales or redemption of securities, future transactions, commodities, bartering exchange transactions; original issue discount; distributions and prizes; currency transactions; state tax refunds; unemployment compensation, agricultural payments, taxable grants, indebtedness forgiveness; non-employees compensation; gambling winnings; and miscellaneous income.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records maintained are records representing certain wage and information returns: Forms W–2, W–2P, the 1087 and 1099 series; currency transaction reports; state tax refunds; statements of sales of equity obligations; and records of agricultural subsidy payments. Information included on each record identifies the recipient of the income (name, address, taxpayer identifying number, and other indicators relating to payee identification), identifies the incomepayer (very similar information), and identifies the type(s) and amount(s) of income.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape in social security number sequence.

RETRIEVABILITY:

By taxpayer social security number and name control.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical Document Security Handbook, IRM 1 (16) 41.

RETENTION AND DISPOSAL:

Until tax year 1974, only until processed; after tax year 1974, four years; then magnetically erased. Auth: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (D:R), National Office. Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A for locations.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 24.013

SYSTEM NAME:

Combined Account Number File, Returns and Information Processing, D:R:R.—Treasury/IRS.

SYSTEM LOCATION:

Internal Revenue Service Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and businesses having specific, current business with IRS.

CATEGORIES OF RECORDS IN THE SYSTEM:

Taxpayer entity records (name, address, taxpayer identification number, and filing requirements related to entity liability); and tax modules (specific tax returns, tax years, and transactions which have been recorded relative to the module) when specifically requested by a service center, or if a notice for balance of tax due has been issued; a specific tax period is in taxpayer delinquent account status (TDA); a specific tax period is either credit or debit balance; no return has posted and the return due date (RDD) has passed; or when a specific tax period is in taxpayer delinquent return (TDI) status.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Disk storage.

RETRIEVABILITY:

Social security number or employer identification number.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Index IRM 1(16)41.

RETENTION AND DISPOSAL:

The policies and practices regarding storage, retention, and disposal are governed by the principle that a specific tax period will be retained on the file dependent upon specified criteria prescribed in the Internal Revenue Manual. The disposal of documents output from this file is specified in the Records Disposition Handbook, IRM 1(15)59, published by the Service.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices-Assistant Commissioner Returns and Information Processing. Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the area in which the individual resides. (See IRS Appendix A.)

Treasury/IRS 24.030

SYSTEM NAME:

Individual Master File (IMF); Returns and Information Processing, D:D:R—Treasury/IRS.

SYSTEM LOCATION:

National Computer Center (NCC), Martinsburg, West Virginia.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers who file Federal Individual Income Tax Returns (i.e. Forms 1040, 1040A) and power of attorney notifications for individuals.

CATEGORIES OF RECORDS IN THE SYSTEM:

Taxpayer entity records (name, address, identification number (SSN) and other indicators pertaining to entity maintenance, including Zip Code), and tax modular records which contain all records relative to specific tax returns for each applicable tax period or year. Modular records for authorization information (name, address, identification number and type of authority granted, and the name of the representative(s) for the taxpayer. Modular records for the representative (name, address and unique identification number). Recorded here are tax transactions such as tax amount, additions, abatements of tax payments, interest and like type transactions recorded relative to each tax module, power or attorney authorization transactions, and a code identifying taxpayers who threatened or assaulted IRS employees. An indicator will be added to any taxpayer's account who owes past due child and/or spousal support payments and whose name has been submitted to IRS by a state under provisions of Pub. L. 97–35.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic media.

RETRIEVABILITY:

By identification number and alphabet.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in the Records Disposition Handbook published by the Service, IRM 1(15)59. The code identifying taxpayers who threatened or assaulted IRS employees will be removed after five years or initial input.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner Returns and Information Processing. Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center servicing the area in which the individual resides. (See IRS Appendix A.)

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 26.006

SYSTEM NAME:

Form 2209, Courtesy Investigations, OP:C—Treasury/IRS.

SYSTEM LOCATION:

District Offices (See IRS Appendix A), Service Centers, and Federal Records Center.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers on whom a delinquent account or delinquency or other investigation is or was located in one IRS district office, but the individual is now living or has assets located in the jurisdiction of another IRS District office. Taxpayers on whom an investigation has been initiated for purposes of securing information necessary for Federal Tax Administration purposes.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains taxpayer name, current and former addresses, taxpayer identifying number, if known. Contains the information, including class of tax, if applicable, or information concerning the action desired to be taken. The name and address of party that was contacted, chronological investigative history and/or information secured. The following types of investigations are included in this system: Form SSA–1273 cases—Notice of determination of FICA wages—issued when SSA obtains evidence that wages paid to claimant have not been recorded on his earnings record; requests for data needed in proof of claim cases; applications for discharge of property from tax lien; service of tax court subpoenas; complaints of employers failing to provide withholding statements; recovery of unassessable erroneous refunds; Form SSA–7010 cases—Request for preferential Investigation. This is a request for preferential treatment (over other SSA cases) on an earning discrepancy case. Secure application for exemption from self-employment tax. Offers in compromise and related activities; i.e., follow-up on defaulted installments, secure payments on collateral agreements, etc. Maximize compliance with withholding requirements on alien's earnings; other miscellaneous uses.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801 and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USERS:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (3) To disclose information to foreign governments in accordance with formal or informal international agreements. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (7) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper Records, magnetic media.

RETRIEVABILITY:

By taxpayer name and taxpayer identification number.

SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices-Assistant Commissioner (Collection). Officials maintaining the system-District Directors and Service Center Directors. (See IRS Appendix A).

NOTIFICATION PROCEDURES:

Name and address and phone number (if provided).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801 and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (3) To disclose information to foreign governments in accordance with formal or informal international agreements. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (7) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, magnetic media.

RETRIEVABILITY:

By name of prospective bidder.

SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in Records Disposition Handbook IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Collection). Officials maintaining the system—District Directors determine if need for this system exists. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the District Director of Internal Revenue Service servicing the area in which the individual resides.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of Internal Revenue Service servicing the area in which the individual resides.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Supplied voluntarily by the subject prospective bidder.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 26.011

SYSTEM NAME:

Litigation Case Files, OPC:—Treasury/IRS.

SYSTEM LOCATION:

District Offices. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers on whom Federal tax assessments have been made but against whom litigation has been initiated or is being considered by the government or who have instituted suits against the government.

CATEGORIES OF RECORDS IN THE SYSTEM:

Taxpayer name, address, taxpayer identification number, information about basis of assessment, including class of tax, period, and dollar amount. This file includes: Suit to Reduce Tax Claim to Judgement; Suit for Failure to Honor a Levy; Suit to Enforce Federal Tax Lien; Suit Against Transferee; Suit to Set Aside Fraudulent Transfer; Suit to Recover Erroneous Refund; other suits include those which the United States may intervene to assert a Federal tax lien; a proceeding to require opening of a safe deposit box, etc. The following suits against the United States are also included in this file: Quiet Title Suit; Foreclosure of Mortgage or other Lien; Partition; Condemnation; Interpleader; Refund Suits Involving 100-Percent Penalty Assessments; Injunction Suits Under Freedom of Information Act. Also included in Litigation Files are: Individuals against whom bankruptcy proceedings are pending; decedent estates in probate with outstanding Federal tax liabilities; individuals executing Assignments for the Benefit of Creditors; individuals in Receivership Proceedings; individuals conducting a bulk sale; summons referrals; subpoena files; advisory opinions; collateral security agreements; revenue officer reports; and various other legal instruments and correspondence. Disclosure may be made during judicial processes.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801 and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (3) To

disclose information to foreign governments in accordance with formal or informal international agreements. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (7) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

(4) To disclose information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (7) To provide information to third parties during the course of an investigation to extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, magnetic media.

RETRIEVABILITY:

By taxpayer name, taxpayer identification number.

SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Collection). Officials maintaining the system—District Directors and Service Center Directors. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigative material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 26.019

SYSTEM NAME:

TDA (Taxpayer Delinquent Accounts) including subsystems: (a) Adjustments and Payment Tracers Files, (b) Collateral Files, (c) Seized Property Records, (d) Tax Collection Waiver, Forms 900, Files, (e) Accounts on child support obligations; OP:C—Treasury/IRS.

SYSTEM LOCATION:

District Offices and Service Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers on whom Federal tax assessments have been made, and persons who owe child support obligations.

CATEGORIES OF RECORDS IN THE SYSTEM:

Taxpayer name, address, taxpayer identification number, information about basis of assessment, including class of tax, period, dollar amounts, chronological investigative history, cancelled checks, amended returns, claims, collateral submitted to stay collection, copies of notices of Federal

tax liens, revenue officer reports, waivers to extend statutory period for collection, etc. and similar information

tax liens, revenue officer reports, waivers to extend statutory period for collection, etc. and similar information about persons who owe child support obligations. This system includes Installment Agreement Files; Delinquent Account Inventory Profile (DAIP); Currently Not Collectible Register; Currently Not Collectible Register (over $25,000); Advance Dated Remittance Check Files; Currently Not Collectable Accounts Files; File of taxpayer names entered in the Treasury Enforcement Communications System and a code identifying taxpayers that threatened or assaulted IRS employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801 and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (3) To disclose information to foreign governments in accordance with formal or informal international agreements. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (7) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Disc and paper records, and magnetic media.

RETRIEVABILITY:

By taxpayer name, or name of person who owes child support obligations, and taxpayer identification number.

SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Collection). Officials maintaining the system—District Directors and Service Center Directors. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852 (e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigative material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 26.020

SYSTEM NAME:

TDI (Taxpayer Delinquency Investigation) Files, OP:C—Treasury/IRS.

SYSTEM LOCATION:

District Offices and Service Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers believed to be delinquent in filing Federal tax returns.

CATEGORIES OF RECORDS IN THE SYSTEM:

Taxpayer name, address, taxpayer identification number, information from previously filed returns, information about the potential delinquent return(s), including class of tax, chronological investigative history; Delinquency Investigation Inventory Profile (DIIP) and a code identifying taxpayers that threatened or assaulted IRS employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801 and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Collection). Officials maintaining the system—District Directors and Service Center Directors. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURE:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigative material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system of records has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 26.021

SYSTEM NAME:

Transferee Files, OP:C—Treasury/IRS.

SYSTEM LOCATION:

District Offices. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Includes taxpayers on whom tax assessments have been made but who have allegedly transferred their assets in order to place them beyond the reach of the government.

CATEGORIES OF RECORDS IN THE SYSTEM:

Taxpayer name, address, taxpayer identification number, information about basis of assessment, including class of tax, period, dollar amounts. Also the name, address, taxpayer identification number and related information about transferee.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801 and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (3) To disclose information to foreign governments in accordance with formal or informal international agreements. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (7) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper record, magnetic media.

RETRIEVABILITY:

By taxpayer name, taxpayer identification number.

SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Collection). Officials maintaining the system—District Directors, Service and Data Center Directors. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

As specified in Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Collection). Officials maintaining the system—District Directors and Service Center Directors Service and Data Center Directors. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigative material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 30.003

SYSTEM NAME:

Requests for Printed Tax Materials Including Lists, Treasury/IRS.

SYSTEM LOCATION:

National Office, Regional Offices, District Offices, Service Centers (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Files include those individuals that request various IRS printed materials such as publication 1045, reproduction proofs, etc.

CATEGORIES OF RECORDS IN THE SYSTEM:

A cross reference index may be developed to identify and control requests.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system of records may be made: (1) To the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes. (2) To other federal agencies for the purpose of effecting interagency salary offset or interagency administrative offset. (3) To consumer reporting agencies in accordance with 31 U.S.C. 3711(f). (4) To a debt collection agency for debt collection services. (5) To a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (6) To third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation. (7) To mailing or distribution services contractors for the purpose of executing mailouts, order fulfillment, or subscription fulfillment. (8) To mailing or distribution services contractors for the purpose of maintaining mailing lists.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a (b)(12). Disclosures of debt information concerning a claim against an individual may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic media, paper records.or mailing plates.

RETRIEVABILITY:

Alphabetically or numerically, by zip code.

SAFEGUARDS:

Not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

In accordance with IRM 1 (15)59.31, RCS 301, GRS 13, Printing, Binding, Duplication, and Distribution Records. Records Disposition Handbook.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Publishing Services Branch National Office, and Chief, Resource Management in Regional Offices, District Offices and Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System Manager for each office whose records are to be searched.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of

records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System Manager for each office whose records are to be accessed or contested.

RECORD SOURCE CATEGORIES:

The information is supplied by the individual and/or company making the request. The Service adds data pertaining to the fulfillment of the request.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 30.004

SYSTEM NAME:

Security Violations—Treasury/IRS.

SYSTEM LOCATION:

National Office, Regional Offices, Service Centers, and District Offices. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Violators of IRS Security Regulations.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name of violator, circumstances of violation (date, time, actions of violator, etc.) supervisory action taken.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system of records may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folder (notices of violation); 3 x 5 inch card file.

RETRIEVABILITY:

3 x 5 inch card file-name; lateral file cabinets, access by security officer and staff only.

RETENTION AND DISPOSAL:

As specified in the Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Security Offices, National Office, Regional Office District Offices and Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Chief, Protective Programs Staff, National Office, or Security Officer for regional offices, service centers, and district offices. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any records contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System manager as noted.

RECORD SOURCE CATEGORIES:

Contract Guard Force and Security Inspections.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 32.001

SYSTEM NAME:

Travel Expense Record—Treasury/IRS.

SYSTEM LOCATION:

National Office, Regional Offices and District Offices. (See IRS Appendix A for Locations.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All IRS employees who have incurred travel or moving expenses in conjunction with official business.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records consist of travel advances, personal travel vouchers, household move vouchers, Forms W–2, Schedule of Disbursements, GAO decisions/rulings, Transportation Requests, Overdue Notices, Certification of Deposits, Government Bills of Lading, and Forms 2221 (Schedule of Collections). Records are for the purpose of maintaining accurate financial accounting of travel and moving expenses of employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

GAO Policy and Procedures Manual for Guidance of Federal Agencies, Title 2, Chapter 2, Sections 5 and 6.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system of records may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes. Routine disclosure of information may be made to furnish another Federal agency information to effect inter-agency salary offset; to furnish a consumer reporting agency information to obtain commercial credit reports; to furnish a debt collection agency information for debt collection services; to furnish a consumer reporting agency with delinquency and default data available to private sector credit grantors.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12). Disclosures of debt information concerning a claim against an individual may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(e)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic media or paper records.

RETRIEVABILITY:

Alphabetically or numerically.

SAFEGUARDS:

Access is restricted to designated Fiscal Management employees, to individuals concerned on a need-to-know basis, and to administrative offices through the authority of the Travel Management Supervisor. As required, IRS Internal Audit and Security has access to the files.

RETENTION AND DISPOSAL:

Retired after one to three years to Federal Records Center; disposed in accordance with Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, IRS National Office, Financial Operations Branch, or Chief, Accounting Section, IRS Regional Office. See IRS Appendix A for Locations.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record

pertaining to themselves may inquire in accordance with instructions appearing

reports; to furnish debt collection agency information for debt collection

RECORD SOURCE CATEGORIES:

course of an investigation to the extent

CATEGORIES OF RECORDS IN THE SYSTEM:

Treasury/IRS 34.007

pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System Manager.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System Manager.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Information supplied by employees, by GAO as required, and consumer reporting agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 32.003

SYSTEM NAME:

Schedules of Collections and Schedules of Canceled Checks—Treasury/IRS

SYSTEM LOCATION:

National Office and Regional Offices. See IRS Appendix A for locations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees of Internal Revenue Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Checks received from employees in connection with jury duty and overpayments. System maintained to place all collections under security control promptly upon receipt and to record amount of deposit to general ledger control accounts.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system of records may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes. Routine disclosure of information may be made to furnish another federal agency information to effect inter-agency salary offset, to furnish a consumer reporting agency information to obtain commercial credit reports; to furnish debt collection agency information for debt collection services; to furnish a consumer reporting agency with delinquency and default data available to private sector credit grantors.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12). Disclosures of debt information concerning a claim against an individual may be made from this system to 'consumer reporting agencies' as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records maintained in locked file cabinet.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Access controls are not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Records are maintained until transferred to the Federal Records Center to be retained in accordance with the Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, National Office Financial Operations Branch, or Chief, Accounting Section, Regional Offices. (See IRS Appendix A for locations.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System Manager for each office whose records are to be searched.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System Manager for each Office whose records are to be accessed or contested.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Employees, District Directors, Regional Commissioners.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 34.003

SYSTEM NAME:

Assignment and Accountability of Personal Property Files. Treasury/IRS.

SYSTEM LOCATION:

National Office, Regional Offices, District Offices, Service Centers, IRS Data Center and National Computer Center. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals receiving Government property for temporary use and repair.

CATEGORIES OF RECORDS IN THE SYSTEM:

Descriptions of property, receipts, reasons for removal, and property passes.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 and FPMR (41 CFR) 101–19.108.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system of records may be made to the Department of Justice in connection with actual or potential criminal prosecution of civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (3) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (4) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information is stored on various forms and ledgers maintained in locked filing cabinets.

RETRIEVABILITY:

Indexed alphabetically by name.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

In accordance with the Records disposition Handbook IRM 1(15)59.31, RCS 301, General Records Schedule 18, Security and Protective Services Records.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Space and Property Branch, National Office; Chief, National Office Facilities Management Branch; Regional Offices, District Offices, Service Centers, IRS Data Center and National Computer Center. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Same as System Manager above.

RECORD ACCESS PROCEDURES:

Same as System Manager above.

CONTESTING RECORD PROCEDURES:

Same as System Manager above.

RECORD SOURCE CATEGORIES:

Individuals who receive property or request property passes.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 34.005

SYSTEM NAME:

Parking Space Application and Assignment—Treasury/IRS.

SYSTEM LOCATION:

National Office, Regional Offices, District Offices, Service Centers, IRS Data Center and National Computer Center. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Internal Revenue Service employees who apply for assignment of carpool or reserved parking spaces.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains the name, position title, organization, vehicle identification, arrival and departure time, and service computation date of individual or principal carpool applicant. Contains name, place of employment, duty telephone, vehicle license number and service computation date of applicants, individuals or carpool members, for parking spaces.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system of records may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on an 8½ x 10 inch or other local form.

RETRIEVABILITY:

Indexed by name of individual or principal carpool applicant.

SAFEGUARDS:

Records are maintained in a file cabinet in a locked room.

RETENTION AND DISPOSAL:

In accordance with IRM1(15)59.311, GRS 11, Space and Maintenance Records.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, National Office Protective Programs Staff, National Office; Regional Offices, District Offices, Service Centers, IRS Data Center and National Computer Center. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Same as System Manager above.

RECORD ACCESS PROCEDURES:

Same as System Manager above.

CONTESTING RECORD PROCEDURES:

Same as System Manager above.

RECORD SOURCE CATEGORIES:

Individuals applying for parking spaces.

Treasury/IRS 34.009

SYSTEM NAME:

Safety Program Files System—Treasury/IRS.

SYSTEM LOCATION:

National Office, Regional Offices, District Offices, Service Centers, IRS Data Center, National Computer Center. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

IRS employees and others involved in an IRS motor vehicle accident, and accident or injury on IRS property, or a tort or personal property claim against the service. All individuals issued an IRS drivers license are covered by this system.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual driving records and license applications, motor vehicle accident reports, lost time and no-lost time personal injury reports, tort and personal property claims case files, informal and formal investigative report files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, Executive Order 12196.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To disclose information to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. (2) To provide the Department of Labor in connection with investigations of accidents occurring in the work place. (3) To disclose information during judicial processes. (4) To provide information to other federal agencies for the purpose of effecting interagency salarly offset or interagency administrative offset. (5) To provide information to consumer reporting agencies in accordance with 31 U.S.C. 3711(f). (6) To provide information to a debt collection agency for debt collection services. (7) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, when the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (8) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (9) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (10) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12). Disclosures of debt information concerning a claim against an individual may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(e)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders with corresponding card indexes.

RETRIEVABILITY:

Indexed alphabetically by name.

SAFEGUARDS:

Access to information is restricted to official use of IRS employees and not less than that required by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

In accordance with The Records Disposition Handbook, IRM (15)59.31, RCS 301, GRS 1, 10, 18, IRM 1(15)59.1(14) and IRM 1(15)59.2(12).

SYSTEM MANAGER(S) AND ADDRESS:

For National Office—safety Management Officer, Space and Property Branch, Facilities Management Division, Chief, National Office Facilities Management Branch; Regional and District Offices—Chief, Facilities Management Branch, appropriate Regional or District office. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Same as System Manager above. Name must be provided to ascertain whether or not the system has a record pertaining to the individual.

RECORD ACCESS PROCEDURES:

Individuals seeking to determine if the system of records contains information pertaining to themselves may inquire in accordance with instructions appearing in 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System Manager for each office whose records are to be accessed.

CONTESTING RECORD PROCEDURES:

Individuals seeking access to any record contained in the system of records to contest its contents, may inquire in accordance with instructions appearing in 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the system manager for each office whose records are to be accessed or contested.

RECORD SOURCE CATEGORIES:

Information originates from IRS employees, private individuals and private parties.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 34.012

SYSTEM NAME:

Emergency Preparedness Cadre Assignments and Alerting Rosters Files System—Treasury/IRS.

SYSTEM LOCATION:

National Office, Regional Offices, District Offices, and Service Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Key IRS and Treasury personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Cadre assignments-personal information on employees, i.e., name, address, phone number, family data, security clearance, relocation assignment, etc. Alerting rosters-current listing of individuals by name and title stating their work and home address and phone numbers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Routine disclosure of information contained in this sytem of records may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Individual forms and correspondence kept in file folders.

RETRIEVABILITY:

Cadre assignments are filed by relocation site and alerting rosters by title of list.

SAFEGUARDS:

Records are kept in a secured office.

RETENTION AND DISPOSAL:

In accordance with IRM 1(15)59 31, GRS 16, Records Disposition Handbook.

SYSTEM MANAGER(S) AND ADDRESS:

For National Office—Chief, Physical Security Section, Security Branch, Disclosure and Security Division. For Regional Offices and Service Centers and district offices, Security officer. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Same as System Manager above.

RECORD ACCESS PROCEDURES:

Same as System Manager above.

CONTESTING RECORD PROCEDURES:

Same as System Manager above.

RECORD SOURCE CATEGORIES:

Provided by individuals themselves.

Treasury/IRS 34.013

SYSTEM NAME:

Identification Media Files System for Employees and Others Issued IRS ID-Treasury/IRS.

SYSTEM LOCATION:

National Office, Regional Offices, District Offices, Service Centers, IRS Data Center, National Computer Center. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

IRS employees having one or more items of identification and federal and non-federal personnel working in or visiting IRS facilities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records contain individual's name, home address, and other personal information and reports on loss, theft, or destruction of pocket commissions, enforcement badges and other forms of identification.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Routine disclosure of information contained in this system of records may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Correspondence file folders; 3 x 5 inch card files computer memory.

RETRIEVABILITY:

Indexed separately by name and Identification Media serial number.

SAFEGUARDS:

Access to the records is restricted to official use of Internal Revenue. The files are stored in locked security containers in offices which are locked or guarded during non-work hours. Access controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

In accordance with IRM 1(15)59.31, GRS, Space and Maintenance Records.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Physical Security Section, Security Branch, Disclosure and National Office; Security Officer, Each Region, Service Center and District; and Chief, National Office Protective Programs Staff.

NOTIFICATION PROCEDURE:

Individual's name, SSN, address and type of ID media, plus the approximate date that he/she was issued and/or returned the particular item of identification, would have to be furnished the Service office that issued the item for them to be able to ascertain whether or not their system contains a record about the individual. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

By writing or visiting applicable Service office.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Information was furnished by each individual at the time they received the particular item of identification.

Individual employees who input or are authorized to input IDRS transactions or who are subjects of IDRS inputs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record logs of the employees who are authorized access to IDRS and of employee inputs and inquiries processed through IDRS terminals.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures are not made outside the Department.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic media, disk, flatpaper, lists, and card files.

RETRIEVABILITY:

These records are indexed by employee's SSN or other employee identifying number.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

All records are disposed of in conformance with established Retention Schedules contained in IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Computer Security Section, Security Branch, Disclosure and Security Division, National Office.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center or District Office servicing the area in which the individual resides. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Internal Revenue Service Center or District Office servicing the area in which the individual resides. Taxpayers seeking to adjust records which affect the determination of a tax assessment or the balance due should utilize existing procedures for doing so, as substantive tax matters are not subject to the amendment provisions of the Privacy Act. (See IRS Appendix A.)

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Information supplied by the IRS employee on standard personnel forms and computer generated records of all inputs to IDRS. Data may also be retrieved from other published systems of records used in processing of this system.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 36.001

SYSTEM NAME:

Appeals, Grievances and Complaints Records—Treasury/IRS

SYSTEM LOCATION:

National, Regional and District Offices, POD's, Service Centers, The National Computer Center and The IRS Data Center. (See Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for Federal employment, current and former Federal employees (including annuitants) who submit appeals grievances, or complaints for resolution.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records contains information or documents relating to a decision or determination made by an agency or other appropriate action organization (e.g., Office of Personnel Management, Equal Employment Opportunity Commission, Merit Systems Protection Board) affecting an individual. The records consist of the initial appeal or complaint, letters or notices to the individual, record of hearings when conducted, materials placed into the record to support the decision or determination, affidavits or statements, testimonies of witnesses, investigative reports, instructions to an agency about action to be taken to comply with decisions, and related correspondence, opinions and recommendations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5, U.S.C., Sections 1302, 3301, 3302, 4308, 5115, 5338, 5351, 5388, 7105, 7151, 7154, 7301, 7512, 7701, 8347, Executive Order 9830, 10577, 10987, 11222, 11478, 11491, and Pub. L. 92–261 (EEO Act of 1972), and Pub. L. 93–259 (Provisions of ADEA extended to Federal employees).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used: (1) To provide information to a Member of Congress regarding the status of an appeal, complaintor grievance. (2) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or licensee, where the disclosing agency becomes aware of an indication of a violation or potential civil or criminal law or regulation. (3) To disclose information to a Federal, state, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To provide information to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation and in connection with requests for legal advice. Disclosure may be made during judicial processes. (5) To provide information to other agencies to the extent provided by law or regulation and as necessary to report apparent violations of law to appropriate law enforcenent agencies. (6) To provide records and information to the Office of Personnel Management, Merit Systems Protection Board or Equal Employment Opportunity Commission for the purpose of properly administering Federal Personnel Systems in accordance with applicable laws, Executive Orders and regulations. (7) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card files, flat paper, lists, forms, folders, binder, microfilm and microfiche, punch card, and magnetic media.

RETRIEVABILITY:

Indexed by the names and case number of the individuals on whom they are maintained.

SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41. This is also in conformance with existing EEOC regulations.

RETENTION AND DISPOSAL:

All records are disposed of in conformance with established Retention Schedules, IRM 1(15)59.31, General Records Schedule.

SYSTEM MANAGER(S) AND ADDRESS:

(a) EEO Discrimination Complaint Records-Assistant to the Commissioner (EEO), National Office; (b) all other records. Director, Personnel Division, or

Chief, Personnel Branch, appropriate office. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to: District Director for each District whose records are to be searched; Service Center Director for each Service Center whose records are to be searched; Director, National Computer Center (for computer center employees only); Director, Data Center (for data center employees only); Regional Commissioner for each Regional Office whose records are to be searched; Director, Personnel Division, National Office; Assistant Commissioner Human Resources, National Office; Regional Counsel for each region whose records are to be searched; Director, Disclosure Litigation Division for records in the National Office of Chief Counsel; or other appropriate official. (See IRS Appendix A for Locations.) Individuals should provide their name, date of birth, agency in which employed, and the approximate date, and the kind of action taken by the agency when making inquiries about records.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the appropriate official listed above. Individuals should provide their name, date of birth, POD, approximate date, and the kind of action taken by the agency when requesting access to, or contest of, records.

CONTESTING RECORD PROCEDURES:

See Access.

RECORD SOURCE CATEGORIES:

(a) Individual to whom the record pertains. (b) Agency and/or other authorized Federal officials. (c) Affidavits or statements from employee. (d) Testimonies of witnesses. (e) Official document relating to the appeal, grievance, or complaints. (f) Correspondence from specific organization or persons.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 36.002

SYSTEM NAME:

Employee Activity Records—Treasury/IRS.

SYSTEM LOCATION:

National, Regional, and District Offices, POD's, Service Centers, The National Computer Center, and The IRS Data Center. (See Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the Internal Revenue Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains records and information relating to voluntary employee activities and functions which are not directly related to the mission of the IRS or any of its functional components. These records will contain the names of participants and such other information only to the extent that it is necessary for the operation of the activity.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5, U.S.C., Section 302.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system of records may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes. These records and information in these records may be used: (1) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (2) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (3) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on flat paper, card files, lists, and in folders, and binders.

RETRIEVABILITY:

Indexed by the name of the individuals on whom they are maintained.

SAFEGUARDS:

Access Controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41. This is in conformance with existing CSC regulations.

RETENTION AND DISPOSAL:

Disposition varies in accordance with the nature of the record, but is made in accordance with the Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Supervisor of the organizational segment participating in the activity.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the system manager or the individual designated to maintain the record. Inquiring individuals need only provide their name.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the system manager or the individual designated to maintain the record. Inquiring individuals need only provide their name.

CONTESTING RECORD PROCEDURES:

See Access.

Treasury/IRS 36.003

SYSTEM NAME:

General Personnel and Payroll Records—Treasury/IRS.

SYSTEM LOCATION:

National, Regional and District Offices, POD's, Service Centers, the National Computer Center and the Data Center. Payroll records are maintained at the Data Center. (See Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Prospective, current and former employees of the IRS.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of a variety of records relating to personnel actions and determinations made about an individual while employed in the Federal service. These records contain data on individuals required by the Office of Personnel Management (OPM) and maintained in the Official Personnel Folder (OPF). The OPF may also contain letters of commendation; awards from non-federal organizations; recommendations for Federal awards; awards; reprimands; adverse or disciplinary charges; records relating to life insurance, health insurance, designation of beneficiary; training; performance ratings; and other records which OPM and IRS require or permit to be maintained in the OPF. This system also includes records which are maintained in support of a personnel action such as a position management or position classification action, a reduction-in-force action (including such documents as retention registers and notices), and priority placement actions. Other records maintained about an individual in this system are evaluation records, including appraisal, expectation and payout records; employee performance file records; suggestion files; award files; financial and tax matters; back pay files; jury duty records; special emphasis programs records, such as Upward Mobility and Handicapped; outside employment statements; clearance upon separation; Unemployment Compensation records; adverse and disciplinary action files; supervisory files; records relating to personnel actions correcting a pay problem; employment of relatives; furlough/recall records; work measurement records; emergency notification, employee locator and current address records; other records relating to the status of an individual; executive resources records and Senior Executive Service records; Management Careers Program records; and correspondence files pertaining to any personnel information contained in this notice. Pyroll records included in this system are data storage and file records system for processing payroll and personnel actions, consisting of records of time and attendance, leave, tax withholding, bond purchases and issuances, emergency salaries, overtime and holiday pay, optional payroll deductions, and minority group designator codes.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5, U.S.C. Section 301, 1302, 2951, 4118, 4308, 4506, and Executive Order 10561, September 13, 1954.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To provide information to a prospective employer of an IRS employee or former IRS employee. (2) To provide data to update Federal Automated Career Systems (FACS), Executive Inventory File, and security investigations index on new hires, adverse actions, and terminations. (3) To provide information to a Federal, state, or local agency, other organizations or individuals in order to obtain relevant and pertinent information about an individual which is necessary for the hiring or retention of an individual; letting of a contract; or the issuance of a license, grant or other benefit. (4) To request information from a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement or other pertinent agencies. (5) To provide information to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial process. (6) To provide information to other agencies to the extent provided by law or regulation and as necessary to report apparent violation of law to appropriate law enforcement agencies. (7) To provide information or records, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to any other appropriate agency, whether Federal, state, or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation, or order issued pursuant thereto or upon request of such agency when the agency is investigating the possible violation of their rules or regulations. (8) To provide records to the Office of Personnel Management, Merit Systems Protection Board, Equal Employment Opportunity Commission, and General Accounting Office for the purpose of properly administering Federal Personnel systems or other agencies systems in accordance with applicable laws, Executive Orders, and applicable regulations. (9) To provide information to hospitals and similar institutions or organizations involved in voluntary blood donation activities. (10) To provide information to educational institutions for recruitment and cooperative education purposes. (11) To provide information to a Federal, state, or local agency so that the agency may adjudicate an individual's eligibility for a benefit, such as a state unemployment compensation board, housing administration agency and Social Security Administration. (12) To provide information to financial institutions for payroll purposes. (13) To provide information to another agency such as the Department of Labor or Social Security Administration and state and local taxing authorities as required by law for payroll purposes. (14) To provide information to Federal agencies to effect inter-agency salary offset; to effect inter-agency administrative offset to consumer reporting agency for obtaining commercial credit reports; and to a debt collecting agency for debt collection services. (15) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (16) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12). Disclosures of debt information concerning a claim against an individual may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic media, discs, forms, punched cards, flat paper, lists, card files, forms, folders, binders, microfilm and microfiche.

RETRIEVABILITY:

Records are indexed by any combination of name, birthdate, Social Security Number, or identification number.

SAFEGUARDS:

Access Control will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41. This is also in conformance with existing OPM and GAO regulations.

RETENTION AND DISPOSAL:

All records are disposed of in conformance with established retention

schedules. IRM 1(15)59.31 General Records Schedule.

payroll coordinator, or administrative officer.

Information relating to employee participation in the Federal Civilian

representative is required by the Office

District Director for each District whose

VOL 50 ISS 140 JL 22 1985 UMI

schedules, IRM 1(15)59.31 General Records Schedule.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Division, and Chief, Personnel Branch, appropriate office (see IRS Appendix A); Executive Secretary, Executive Resources Board (for executive resource records).

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to: District Director for each District whose records are to be searched; Service Center Director for each Service Center whose records are to be searched; Director, National Computer Center (for computer center employees only); Director, Data Center (for data center employees only); Regional Commissioner for each Regional Office whose records are to be searched; Director, Personnel Division, National Office; Assistant Commissioner for each appropriate Division in the National Office; Regional Counsel for each region whose records are to be searched; Director, Disclosure Litigation Division for records in the National Office of Chief Counsel; or other appropriate official. (See Appendix A.) Inquiries should include name, date of birth, social security number and POD.

RECORD ACCESS PROCEDURE:

Individual seeking access to any record contained in the system of record or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the appropriate official listed above. Former IRS employees who wish to gain access to their records should direct such a request in writing, including their name, date of birth, and Social Security Number, to: National Personnel Records Center, General Services Administration, 111 Winnebago St., St. Louis, Missouri 63118.

CONTESTING RECORD PROCEDURES:

See Access.

RECORD SOURCE CATEGORIES:

Information in this system of records either comes from the individual to whom it applies or is derived from information supplied by that individual, except information provided by agency officials. Payroll Information is compiled from existing master records, i.e. employees official personnel folders, or the employee Information. is also obtained directly from an employee.

payroll coordinator, or administrative officer.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

Treasury/IRS 36.005

SYSTEM NAME:

Medical Records—Treasury/IRS.

SYSTEM LOCATION:

(1) Applicants and current IRS employees: National, Regional and District Offices, POD's, Service Centers, the National Computer Center and the Data Center. (See Appendix A.) (2) Former IRS employees: National Personnel Records Center, 111 Winnebago Street, St. Louis, Missouri 63118. Records may also be maintained in the National Regional and District Offices, POD's Service Centers, the National Computer Center and the Data Center. (See Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Applicants for IRS employment. (2) Applicants rejected on medical grounds. (3) Applicants for disability retirement under the Civil Service Retirement Law. (4) IRS employees. (5) Former IRS employees. (6) Visitors of IRS Offices who require medical attention while on the premises.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Applications for IRS employment containing information relating to an individual's medical qualifications to hold a position in the IRS. (2) Applications rejected on medical grounds. Information relating to an applicant's rejection for a position because of medical reasons. (3) Disability retirement records. Information relating to an individual's capability (physical and mental) to satisfactorily perform the duties of the position he or she holds or held. (4) Health unit medical records (Federal civilian employees). Information relating to an employee's participation in an occupational health services program. (5) Qualification examinations (Federal employees). Information relates to pre-employment, or periodic re-qualification medical examinations to assure that the incumbents are qualified (physically and mentally) to satisfactorily perform the duties of the position. (6) Fitness-for-duty examinations. Information relating to a medical examination to determine an individual's physical or mental condition with respect to ability to satisfactorily perform the duties of the position held. (7) Alcohol/drug employee assistance records. Information relating to employee participation in the Federal Civilian Alcoholism and Drug Abuse Program. (8) Injury Compensation Records. Information relating to on-the-job injuries of employees and former employees. (9) Records relating to the Blood Donor Program.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Medical Information relating to the Retirement, Life Insurance and Health Benefits Programs—5 U.S.C., Chapters 81, 87 and 89. Information for Federal employment—5 U.S.C. 3301. Information relating to the Alcoholism, Drug Abuse and Employee Assistance Programs—Pub. L. 91-616 and 92-255 as amended by Pub. L. 93-282 in regard to confidentiality of patient records. Information relating to the Occupational Health Program (5 U.S.C. 7901).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) Information may be provided to other Federal agencies responsible for other Federal benefits programs administered by the Office of Workmen's Compensation Programs; Retired Military Pay Centers; Veterans Administration; Social Security Administration; Office of Personnel Management; Private contractors engaged in providing benefits under Federal contracts. (2) Disclosure of information may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in requests for legal advice. (3) Disclosure may be made during judicial processes. (4) Disclosure may be made to other agencies to the extent provided by law or regulation. (5) Disclosure may be made to the appropriate Federal, state or local agency where there is an indication of a violation or potential violation of law, whether civil, criminal or regulatory in nature. (6) Disclosure may be made to Federal, state, or local agencies in order to obtain or release relevant and pertinent information to an agency decision concerning the hiring or retention of an individual, the issuance of a security clearance, the letting of a contract or the issuance of a license, grant or other benefit. (7) Disclosure may be made to the Public Health Service. (8) Disclosure may be made to an individual's private physician where medical considerations or the content of medical records indicate that such release is appropriate. (9) Disclosure may be made to an agency designated employee representative where such

representative is required by the Office of Personnel Management. (10) Disclosure may be made to hospitals and similar institutions or organizations participating in blood donor activities. (11) Disclosure of Alcoholism, Drug Abuse, and Employee Assistance records are limited under Pub. L. 91-616, 92-255, and 93-282. (12) disclosure may be made to the Equal Employment Opportunity Commission when needed to resolve a complaint. (13) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (14) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (15) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic media, discs, flat paper, lists, forms, folders, card files, microfilm, and microfiche.

RETRIEVABILITY:

Records are indexed by name, social security number, date of birth, and/or claim number.

SAFEGUARDS:

Access controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

All records are disposed of in conformance with established Retention Schedules, IRM 1(15)59.31, General Records Schedule.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Division, or Chief, Personnel Branch, appropriate office; Director, Operations Divisions (Office of Chief Counsel), National and Regional Counsels. (See IRS Appendix A for Locations.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to: District Director for each District whose records are to be searched; Service Center Director for each Service Center whose records are to be searched; Director, National Computer Center (for computer center employees only); Director, Data Center (for Data Center employees only); Regional Commissioner for each Regional Office whose records are to be searched; Director, Personnel Division, National Office; Assistant Commissioner (Human Resources), National Office; Regional Counsel for each region whose records are to be searched; Director, Disclosure Litigation Division for records in the National Office of Chief Counsel; or other appropriate official. (See IRS Appendix A for Location.) Former employees should direct inquiries to: The National Personnel Records Center, 111 Winnebago Street, St. Louis, Missouri 63118. Individuals requesting information about this system of records should provide their full name, date of birth, social security number, name, and address of office in which currently or formerly employed in the Federal service, and annuity account number, if any has been assigned.

RECORD ACCESS PROCEDURE:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the appropriate official listed above.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

(1) The individual to whom the record pertains. (2) Private physicians. (3) Medical institutions. (4) Office of Workers' Compensation Programs. (5) Military Retired Pay Systems Records. (6) Federal civilian retirement systems other than Civil Service Retirement System. (7) General Accounting Office pay, leave allowance cards. (8) CSC Retirement, Life Insurance and Health Benefits Records System. (9) OPM Personnel Management Records System.

Treasury/IRS 36.008

SYSTEM NAME:

Recruiting, Examining and Placement Records—Treasury/IRS.

SYSTEM LOCATION:

National, Regional and District Offices, POD's, Service Centers, The National Computer Center and The Data Center. (See Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for IRS employment, current and former employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information relating to education, training employment history and earnings, tests, results of written tests, test scores, qualification determinations, evaluations, appraisals of potential, interview records, responses to test items and questionnaires, honors, and awards or fellowships. Other information maintained in the records includes military service, date of birth, birthplace, SSN, home address. Records may also be maintained on suitability determinations, employee participation in special emphasis placement and recruiting programs, and employee turnover records. This system also includes correspondence files relating to the above mentioned records. Personnel research and test validation records are included in this system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C., Sections 1302, 3109, 3301, 3302, 3304, 3306, 3307 3309, 3313, 3317, 3318, 3319, 3326, 3349, 4103, 5532, 5533, 5723, and Executive Orders 10577 and 11103.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To disclose information to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes. (2) To disclose information to other agencies to the extent provided by law or regulation and as necessary to report apparent violations of law to appropriate law enforcement agencies. (3) To disclose information and records to the Office of Personnel Management, Merit Systems Protection Board, or the Equal Employment Opportunity Commission, for the purpose of properly administering Federal Personnel Systems in accordance with applicable laws, Executive Orders and regulations. (4) To refer applicants to officials of Federal government agencies for purposes of consideration for placement in positions for which an applicant has applied and is qualified; to state and local governments with permission of an applicant for the purpose of employment consideration; and to refer current IRS employees to Federal agencies for

consideration for transfer, reassignment, and promotion. (5) To educational

Director, Personnel Division, National

VOL 50 ISS 140 JL 22 1985 UMI

consideration for transfer, reassignment, and promotion. (5) To educational institutions in connection with recruiting efforts. (6) To disclose information or records where there is an indication of a violation or potential violation of law, whether civil, criminal or regulatory in nature, to any other appropriate agency, whether federal, state, or local charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule. (8) To request information from a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement or other pertinent information, such as licenses, if necessary to obtain relevant information to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit. (9) To provide information to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the letting of a contract, or issuance of a license, grant, or other benefit by the requesting agency to the extent that the information is relevant and necessary to the requesting agency's decision on that matter. (10) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (11) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (12) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic tapes, punched cards, discs, card files, lists, flat paper, microfilm, microfiche, forms and folders.

RETRIEVABILITY:

Records are indexed by name, combination of birth date, special security account number, and an identification number that is applicable.

SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41. This is in conformance with existing OPM regulations.

RETENTION AND DISPOSAL:

All records are disposed of in conformance with established Retention Schedules, IRM 1(15) 59.31, General Records Schedule.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Division, or Chief, Personnel Branch, appropriate office. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to: District Director for each District whose records are to be searched; ServiceCenter Director for each Service Center whose records are to be searched; Director, National Computer Center (for computer center employees only); Director, Data Center (for data center employees only); Regional Commissioner for each Regional Office whose records are to be searched; Director, Personnel Division, National Office; Assistant Commissioner (Human Resources), National Office; or other appropriate official. (See Appendix A.) Individuals should provide name, date of birth, social security number, identification number (if known), approximate date of record, and title of examination or announcement with which concerned.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the appropriate official as listed above. This system of records may not be accessed for purposes of inspection or for contest of content of Treasury Forms 4825 (Evaluation of Candidates for Initial Executive Placement) and Treasury Form 4245 (Report of Managerial Potential) prepared prior to September 27, 1975.

CONTESTING RECORD PROCEDURES:

See Access.

RECORD SOURCE CATEGORIES:

Information in this system of records either comes from the individual to whom it applies or is derived from information he or she supplied, except reports from medical personnel on physical qualification; results of examination which are made known to applicants and vouchers supplied by references the applicant lists.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been desiganted as exempt from certain provisions of the Privacy Act.

Treasury/IRS 36.009

SYSTEM NAME:

Retirement, Life Insurance and Health Benefits Records System—Treasury/IRS.

SYSTEM LOCATION:

National, Regional and District Offices, POD's Service Centers, the National Computer Center; and the IRS Data Center (see Appendix A). For former employees: Records Division, Bureau of Retirement, Insurance and Occupational Health, Office of Personnel Management, Boyers, Pennsylvania.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) IRS employees who are covered by the Civil Service Retirement System. (2) IRS employees who have either declined or are covered by the Federal Employees' Group Life Insurance Program or the Federal Employees Health Benefits Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Documentation of Federal service creditable under the Civil Service Retirement System. (2) Documentation of coverage or declination of coverage under the Federal Employees' Group Life Insurance Program, and the Federal Employees Health Benefits Program. (3) Documentation of claim for refund or for annuity benefits under Civil Service Retirement System. (4) Documentation of claim for survivor annuity or death benefits under Civil Service Retirement System. (5) Medical records supporting claims for disability retirement under the Civil Service Retirement System. (6) Designations of beneficiary for benefits payable under the Civil Service Retirement System or the Federal Employees Group Life Insurance Program. (7) All other information necessary to enable offices to recruit annuitants for short term assignments and to send them requested publications.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Chapters 83, 87, and 89 of Title 5, United States Code.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To provide information to the Office of Workers' Compensation Programs, Veterans Administration Pension Benefits Program, Social Security Old Age, Survivor and Disability Insurance and Medicare Programs, and Federal civilian employee retirement systems other than the Civil Service Retirement System, when requested by that program or system or by the individual covered by this system of records, for use in determining an individual's claim for benefits under such system. (2) To provide information necessary to support a claim for life insurance benefits under the Federal Employees' Group Life Insurance Program to the Office of Federal Employees' Group Life Insurance, 4 East 34th Street, New York, N.Y. 10010. (3) To provide information necessary to support a claim for health insurance benefits under the Federal Employees Health Benefits Program to a health insurance carrier or plan participating in the program. (4) To provide information to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation and in connection with requests for legal advice. Disclosure may be made during judicial processes. (5) To provide information to other agencies to the extent provided by law or regulation and as necessary to report apparent violations of law to appropriate law enforcement agencies. (6) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (7) To provide information and records to the Office of Personnel Management for the purpose of properly administering Federal Personnel Systems in accordance with applicable laws, Executive Orders, and regulations. (8) To provide information to an agency-designated employee representative when such representative is required under Office of Personnel Management regulations. (9) To provide information to hospitals and similar institutions to verify an employee's coverage in the Federal Employees Health Benefits Program. (10) To provide information to the Equal Employment Opportunity Commission when needed to resolve a complaint. (11) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (12) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (13) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic media, punched cards, discs, forms, flat paper, card files, lists, folders, microfilm, and microfiche.

RETRIEVABILITY:

Records are indexed by name, social security number, birth date, and by annuity or death claim number.

SAFEGUARDS:

Access Controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41. This is also in conformance with existing OPM regulations.

RETENTION AND DISPOSAL:

All records are disposed of in conformance with established retention schedules, IRM 1(15)59.31, General Records Schedule.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Personnel Division, and Chief, Personnel Branch, appropriate office. Director, Operations Division (Office of Chief Counsel), National and Regional Counsels. (See IRS Appendix A for Locations.)

NOTIFICATION PROCEDURE:

(1) Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to: District Director for each District whose records are to be searched; Service Center Director for each Service Center whose records are to be searched; Director, National Computer Center (for Computer Center employees only); Director, Data Center (for Data Center employees only); Regional Commissioner for each Regional Office whose records are to be searched; Director, Personnel Division, National Office; Assistant Commissioner (Human Resources), National Office; Regional Counsel for each region whose records are to be searched; Director, Disclosure Litigation Division for records in the National Office of Chief Counsel; or other appropriate official. (See IRS Appendix A for locations.) (2) If the individual is retired from Federal service he should direct inquiries to: Associate Director for Compensation, Office of Personnel Management, 1900 E Street, N.W., Washington, D.C. 20415. (3) If the individual is not retired, but has been separated from Federal service, he should direct inquiries to: National Personnel Records Center, 111 Winnebago Street, St. Louis, Missouri 63118.

RECORD ACCESS PROCEDURE:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the appropriate official listed above.

CONTESTING RECORD PROCEDURES:

See Access. Individuals requesting information in this system of records should provide their full name, date of birth, social security number, claim number, if assigned, and the POD in which currently or formerly employed.

RECORD SOURCE CATEGORIES:

The information in this system is obtained from the following sources: (1) The individual whom the information is about. (2) GAO Pay, Leave and Allowance Records System. (3) OPM Personnel Management Records System. (4) GSA National Personnel Records Center. (5) OPM Medical Records System. (6) Federal civilian retirement systems other than Civil Service Retirement System. (7) Military retired pay system records. (8) Office of Workers' Compensation Programs. (9) Veterans Administration Pension Benefits Programs. (10) Social Security Old Age, Survivor and Disability Insurance and Medicare Programs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, or foreign agencies responsible for investigating or prosecuting the violations of, or for implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

In file folders.

RETRIEVABILITY:

Indexed by name of individual.

SAFEGUARDS:

Locked doors. Access limited to authorized personnel.

RETENTION AND DISPOSAL:

Dispose 25 years after case closed; transfer to Federal Records Center 5 years after case closed except for a random selection of a small number of disciplinary cases to be made at 5-year intervals for retention.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Practice, PM:HR:DP, Internal Revenue Service, Washington, D.C. 20224.

NOTIFICATION PROCEDURE:

Individuals wishing to be notified if they are named in this system of records, or gain access to records, maintained in this system, must submit a written request containing the following elements: (1) Identify the record system. (2) Identify the category and type of records sought. (3) Provide at least two items of secondary identification (date of birth, employee identification number, dates of employment, or similar information). Address inquiries to System Manager above.

RECORD ACCESS PROCEDURE:

See System Manager above.

CONTESTING RECORD PROCEDURES:

See System Manager above.

RECORD SOURCE CATEGORIES:

Information contained in this system may have been provided by: (1) Individuals, (2) Internal Revenue Service, (3) other government agencies, and (4) professional organizations.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 38.001

SYSTEM NAME:

General Training Records—Treasury/IRS.

SYSTEM LOCATION:

National, Regional and District Offices, Service Centers National Computer Center, Data Center and posts of duty. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

IRS employees who have participated in or who may be scheduled for training activities (students, instructors, program managers, etc.). Other Federal or non-Government individuals who have participated in or assisted with training programs (students, instructors, course developers, interpreters, etc.).

CATEGORIES OF RECORDS IN THE SYSTEM:

Variety of records containing information about an individual related to training, such as: course rosters, student registrations, nomination forms, course evaluations, instructor lists, individual development plans, counseling records, examination materials, payment records, and other recordations of training necessary for reporting and evaluative purposes. Some records within this system also may be contained in TR/IRS 36.003, General Personnel Records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Chapter 41, Title 5 U.S.C.; EO 11348; and FPM 410.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system may be made available to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes. Information in these records may be used to provide input data for the automated Training CPDF at the Office of Personnel Management.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records may be maintained on magnetic media, computer tapes, index cards, forms, or flat paper.

RETRIEVABILITY:

Computer records are indexed by social security account numbers, course titles, dates of training, location of training, and by specific employee information (i.e., name, title, grade, etc.); other records are indexed by name and course title.

SAFEGUARDS:

Individual computer records are available to those persons at OPM, Treasury, or IRS who are directly involved with the training function.

RETENTION AND DISPOSAL:

All records are disposed of in accordance with established retention schedules, IRM 1(15)59.31, General Records Schedule.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Training and Development Division; and Chief, Training and Development Branch; Training Manager, Foreign Operations District; at the National Office. Chiefs, Training and Development Branches at Regional and District Offices, and Service Centers. Training managers at computer center and data center. (See Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the System Manager for each office whose records are to be searched. See System Manager.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records, or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquires should be addressed to the System Manager for each office whose records are to be accessed or contested. See System Manager.

CONTESTING RECORD PROCEDURES:

See Access.

RECORD SOURCE CATEGORIES:

Information is extracted from participant registration forms, individual development plans, skill surveys, personnel records, and such other forms as may be developed and prescribed by CSC, Treasury, and IRS Training Personnel.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 42.001

SYSTEM NAME:

Examination Administrative File—Treasury/IRS.

SYSTEM LOCATION:

Jurisdictional District Office where the individual resides, or Service Center where return was examined, or Assistant Commissioner (Examination), National Office. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any taxpayer who is being considered for examination or is being examined for tax determination purposes, i.e., income, estate and gift, excise, or employment tax liability.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records containing investigatory materials required in making a tax determination or other verification in the administration of tax laws and all other related sub-files directly related to the processing of the tax case. This system also includes other management material related to a case and used for tax administrative purposes including the appeals process. Includes systems formerly published as 42.018, 42.023, and 42.025.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602, 7801, and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents, machine-sensible data media, microfilm.

RETRIEVABILITY:

By taxpayer's name and social security number and employer identification number.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Destroyed in accordance with the established retention schedule in IRM 1(15)59.22, Records Disposition Handbook.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Examination); Officials maintaining the system—Director of Jurisdictional District Office, or Service Center, or Assistant Commissioner (Examination). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system is exempt from the notification provisions of the Privacy Act.

RECORD ACCESS PROCEDURES:

This system is exempt from the Access and Contest provisions of the Privacy Act.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

(1) Taxpayer's return. (2) Taxpayer's books and records. (3) Informants and third party information. (4) City, state governments. (5) Other Federal agencies. (6) Examinations of related taxpayers. (7) Examinations of other taxpayers. (8) Taxpayer's representative.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

taxpayers with suspended issues on their returns.

Treasury/IRS 42.013

RECORD ACCESS PROCEDURES:

Document Security Handbook, IRM

VOL 50 ISS 140 JL 22 1985 UMI

Treasury/IRS 42.008

SYSTEM NAME:

Audit Information Management System (AIMS)—Treasury/IRS.

SYSTEM LOCATION:

This system is composed of: (1) Computer files located at each jurisdictional IRS Service Center (where tax return is under examination control)—each jurisdictional district (served by an IRS Service Center) has access to the computer file via video terminals; (2) Group control card forms 5345 and 5354 (including temporary and interim processing files for management and control purposes), located at each jurisdictional district office. Items described under (2), above, are subfiles of the AIMS System.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers whose tax returns are under the jurisdiction of the Examination Division; Examiner.

CATEGORIES OF RECORDS IN THE SYSTEM:

Tax return information from the Master File, Tax return status and location changes, Examination Closing information on examined and non-examined tax returns, examiner's name including related internal management information and a code identifying taxpayers that threatened or assaulted IRS employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7602, 7801, and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer, microfiche, paper.

RETRIEVABILITY:

Social Security number, taxpayer's name, examiner's name.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

(1) Computer Record: Examined closings, surveyed claims, and some types of non-examined closings are dropped from the data base 60 days after closing or when assessment verification is completed, whichever is later. The balance of non-examined closing are dropped at the end of the month following the month of closing. (2) Records: Generally, AIMS forms are destroyed within 90 days of the closing. Exceptions include: (a) The charge-out which becomes part of the case file and is sent to the Federal Records Center with the case; (b) Examination requests forms which become the Examination group's controlled card; and (c) The Examination group's control card which is retained in a closed case file for 3 years (in the case of field examinations) and 90 days (in the case of office examinations). Authority: Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Examination), National Office. Officials maintaining the system—Each jurisdictional (taxpayer's place of residence) District Director; each jurisdictional (the Service Center where taxpayer's tax return was filed) IRS Service Center. (See IRS Appendix A.)

NOTIFICATION PROCEDURES:

This system is exempt from the notification provisions of the Privacy Act.

RECORD ACCESS PROCEDURE:

This system is exempt from the Access and Contest provisions of the Privacy Act.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Tax Returns; examination files.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 42.012

SYSTEM NAME:

Combined Case Control Files—Treasury/IRS.

SYSTEM LOCATION:

Jurisdictional District offices (not necessarily carried out in every district). (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers that may be abusing the tax laws through the use of tax shelters, investors in flow-through entities, and taxpayers with suspended issues on their returns.

CATEGORIES OF RECORDS IN THE SYSTEM:

Tax information relating to the tax shelter for use in determining abuses of tax laws.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7602, 7801, and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents, machine-sensible data media, and microfilm.

RETRIEVABILITY:

Taxpayer's identifying number.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Retained until individual projects are completed. Authority: IRM 1(5)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Examination). Officials maintaining the system—Director of jurisdictional District. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system is exempt from the notification provisions of the Privacy Act.

RECORD ACCESS PROCEDURE:

This system is exempt from the Access and Contest provisions of the Privacy Act.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

(1) Individual's tax return (2) Related taxpayer.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 42.013

SYSTEM NAME:

Project Files for the Uniform Application of laws as a result of technical determinations and court decisions—Treasury/IRS.

SYSTEM LOCATION:

Jurisdictional district office where taxpayer resides. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals grouped as to project, i.e., individual shareholders of a corporation where a determination having a tax effect has been made.

CATEGORIES OF RECORDS IN THE SYSTEM:

Listing of individuals and their income tax information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7602, 7801, and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents and magnetic media.

RETRIEVABILITY:

By taxpayer's name and social security number.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Destroyed in accordance with the established Retention Schedule 1(15)59.12, Records Retention Schedule.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Examination). Officials maintaining the system—Director of jurisdictional District. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the District Director for each District whose records are to be searched.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the District Director for each District whose records are to be accessed or contested.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

(1) Shareholder records. (2) Individual's tax return. (3) Examination of related taxpayer.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 42.014

SYSTEM NAME:

Internal Revenue Service Employees' Returns Control Files—Treasury/IRS.

SYSTEM LOCATION:

District Office of district where individual resides. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who is employed by the Internal Revenue Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Alphabetic listing of employee income tax return information, including prior examination results and other tax related information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7602, 7801, and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents, machine-sensible data media, microfilm.

RETRIEVABILITY:

Employee's name and social security number.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Updated periodically and retained as long as individual is employed. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Examination). Officials maintaining the system—Director of District where individual resides. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the District Director for each District whose records are to be searched.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the District Director for each District whose records are to be accessed or contested.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Employee's tax return.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Records associated with the examination of returns are disposed of in accordance with the established Retention Schedule 1(15)59.22, Records Control Schedule. Records not associated with the examination of returns will be destroyed at the completion of the program or project, or in accordance with IRM 1(15)59, Records Disposition Handbook.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Examination). Officials maintaining the system—Director of jurisdictional District or service center. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

(1) Taxpayer's return, (2) taxpayer's books and records, (3) informants and third party information, (4) city, state government, (5) other federal agencies, and (6) examinations of related taxpayers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 42.027

SYSTEM NAME:

Data on Foreign Corporations—Treasury/IRS.

SYSTEM LOCATION:

IRS Data Center, Detroit, Michigan; National Office, Examination Division, Washington, D.C.; District Offices; Regional Offices, Philadelphia Service Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals required to file Form 5471, Information Return with Respect to a Foreign Corporation.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names of individuals filing on foreign holdings.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7602, 7801, and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape in Data Center, Philadelphia Service Center; paper at other listed locations, machine-sensible data media, and microfilm.

RETRIEVABILITY:

By individual name.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Three years or earlier. Authority: IRM 1(15)59.

VOL 50 ISS 140 JL 22 1985 UMI

RETENTION AND DISPOSAL:

Retained for one year, then data are magnetically erased. Authority: IRM 1(15)59, Records Disposition Handbook.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner (Examination) OP:EX, National Office. Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A for locations.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Information returns filed by payers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 42.030

SYSTEM NAME:

Discriminant Function File (DIF), OP:EX—Treasury/IRS.

SYSTEM LOCATION:

Internal Revenue Service Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals whose Forms 1040 and 1040A have a DIF Score higher than a cutoff score determined by Examination Division, indicating high audit potential. The DIF Score is the computation of Audit potential, based on formulae prescribed by Examination.

CATEGORIES OF RECORDS IN THE SYSTEM:

Document Locator Number of the return, the Regional and District Offices of the taxpayer, the taxpayer's DIF Score and data from the individual's Income Tax Return needed to conduct an audit of his return.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801. 26 U.S.C. 7802, 26 U.S.C. 7602.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

By magnetic tape and computer printout.

RETRIEVABILITY:

By individual's Social Security Number.

SAFEGUARDS:

Access controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Retained for three years. Disposed of thereafter. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner Examination. Officials maintaining the system—Directors, Internal Revenue Service Centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purpose of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This System of records may not be accessed for the purpose of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Individual's tax return information and data on retrieving the return information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 44.001

SYSTEM NAME:

Appeals Case Files—Treasury/IRS.

SYSTEM LOCATION:

Director, Appeals Division, National Office; Regional Director of Appeals. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Tax returns, Revenue Agents' Reports, case correspondence, legal opinions, and Appeals closing actions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

26 U.S.C. 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper, file cabinets, and magnetic media.

RETRIEVABILITY:

Name of taxpayer.

SAFEGUARDS:

Locked file cabinets, locked doors, need to know.

RETENTION AND DISPOSAL:

Retention as prescribed in Records Disposition Handbook, IRM 1(15)59. Disposal by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Appeals Division, National Office; Regional Director of Appeals. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to the individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 44.003

SYSTEM NAME:

Appeals Case Data—Treasury/IRS.

SYSTEM LOCATION:

Director, Appeals Division, National Office; Regional Director of Appeals. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Provides case control data and management information, utilizing data from system 42.008 and data developed in the appeal process.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

26 U.S.C. 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper, magnetic media, interactive terminal, diskette, hard disk.

RETRIEVABILITY:

By taxpayer's name and social security number, employer identification number, and by work unit number.

SAFEGUARDS:

IRS personnel on need to know basis and passwords to access system information.

RETENTION AND DISPOSAL:

Retention is prescribed in Records Disposition Handbook. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Appeals Division, National Office, 1111 Constitution Avenue, NW., Washington, D.C. 20224; Regional Director of Appeals. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

See System Manager above.

RECORD ACCESS PROCEDURES:

See System Manager above.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Record clerks and Appeals Officers.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 46.002

SYSTEM NAME:

Case Management and Time Reporting System, Criminal Investigation Division—Treasury/IRS.

SYSTEM LOCATION:

National, Regional, and District Offices, Data Center, Service centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Subjects and potential subjects of Criminal Investigation Division Investigations, Special Agents, U.S. District Court Judges, and U.S. Attorneys.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personal and financial information developed in criminal tax investigations, potential tax investigations, and in projects including information from other Federal, state, and local agencies.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7802; 26 U.S.C. 7801, 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. Information contained in this system of records may be disclosed to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in binders; magnetic media; computer discs; computer printouts.

RETRIEVABILITY:

Name, case number, and social security number.

SAFEGUARDS:

Controls will be not less than provided for by the Access Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner, Criminal Investigation, National Office. Officials maintaining the system—Regional Commissioners; District Directors; Assistant Commissioner, Criminal Investigation; Director, Data Center, Directors, Service centers. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be assessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the PrivAcy Act.

Treasury/IRS 46.003

SYSTEM NAME:

Confidential Informants, Criminal Investigation Division—Treasury/IRS.

SYSTEM LOCATION:

District Offices, National Office. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Confidential Informants. Subjects of Confidential Informant's Reports.

CATEGORIES OF RECORDS IN THE SYSTEM:

Memorandums, index cards, related data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7802; 26 U.S.C. 7801, 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information contained in this system of records may be disclosed to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure of

VOL 50 ISS 140 JL 22 1985 UMI

returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper and magnetic media.

RETRIEVABILITY:

Name, or number.

SAFEGUARDS:

Controls will be not less than provided for by the Access Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

As specified in Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner Criminal Investigation, National Office. Officials maintaining the system—District Directors. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be assessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 46.004

SYSTEM NAME:

Controlled Accounts—Open and Closed, Criminal Investigation Division TC 910/TC 914/TC 916/TC 918—Treasury/IRS.

SYSTEM LOCATION:

Service Centers, National Computer Center, District Offices. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Subjects and potential subjects of criminal tax investigation.

CATEGORIES OF RECORDS IN THE SYSTEM:

Criminal Investigation Information and Control Notices; list of names and related data; lists of action taken; transcripts of account.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602; 26 U.S.C. 7801, 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic media and paper.

RETRIEVABILITY:

By name or Social Security Number.

SAFEGUARDS:

Controls will be not less than provided for by the Access Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Paper destroyed after 1 year. Magnetic tape erased after 3 months. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner, Criminal Investigation, National Office. Officials maintaining the system—District Directors, Service Center Directors, National Computer Center Director. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the District Director for each District whose records are to be searched. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the District Director for each District whose records are to be searched. (See IRS Appendix A.)

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

District Office Personnel; Service Center Personnel.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 46.005

SYSTEM NAME:

Electronic Surveillance File, Criminal Investigation Division—Treasury/IRS.

SYSTEM LOCATION:

National Office. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Subjects of electronic surveillance. Individuals who have been subjects of queries by other agencies.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information relating to conduct of electronic surveillance.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602; 26 U.S.C. 7801, 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper and magnetic media.

RETRIEVABILITY:

Names, addresses, and telephone numbers.

SAFEGUARDS:

Controls will be not less than provided for by the Access Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Permanent; none authorized. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner, Criminal Investigation, National Office. Officials maintaining the system—Director, Criminal Investigation. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 46.009

SYSTEM NAME:

Centralized Evaluation and Processing of Information Items (CEPIIs), Criminal Investigation Division—Treasury/IRS.

SYSTEM LOCATION:

District Offices and Service Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers about whom the Internal Revenue Service has received information alleging a violation of laws within IRS jurisdiction, potential subjects of investigation.

CATEGORIES OF RECORDS IN THE SYSTEM:

Copies of income tax returns, special agents' reports, revenue agents' reports, reports from police and other investigative agencies, memorandum of interview, question-and-answer statements, affidavits, collateral request and replies, information items, newspaper and magazine articles and other published data, financial information from public records, case initiating documents and other similar and related documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602; 26 U.S.C. 7801, 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Tape, paper, and microfilm.

RETRIEVABILITY:

Name.

SAFEGUARDS:

Controls will be not less than provided for by the Access Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Paper—shredded after use. Microfilm—destroyed after 5 years. Magnetic tape—erased after 3 years. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner, Criminal Investigation National Office. Officials maintaining the system—Service Center Directors, District Directors. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

Fugitives until apprehended. Other records are deleted when no longer of potential use for criminal investigation case or informational purposes. Cancellation after 10 years. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Assistant Commissioner, Criminal Investigation, National Office. Officials maintaining the system—Assistant Commissioner, Criminal Investigation, National Office.

NOTIFICATION PROCEDURES:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURE:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

This system of records contains investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 46.001

SYSTEM NAME:

Disclosure Records; Disclosure—Treasury/IRS.

SYSTEM LOCATION:

National Office, National Computer Center, Data Center, Regional Offices, Service Centers, and District Offices. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Subjects or requests for disclosure initiated by the Department of Justice, including auspects or persons related to the violation of Federal laws; persons who have initiated legal actions against the Federal Government; persons identified as strike force targets or related to organized crime activities; persons under investigation for national security reasons; persons believed by the Internal Revenue Service to be related to violations of Federal laws other than the Internal Revenue Code. (2) Persons under investigation by other executive departments or congressional committees for whom tax information has been requested pursuant to 26 U.S.C. 6103. (3) Persons who are parties to criminal or civil non-tax litigation in which the testimony of IRS employees has been requested. (4) Persons who have applied for Federal employment or presidential appointments for which pre-employment tax checks have been requested, and applicants for Department of Commerce "E" Awards. (5) Requesters for access to records pursuant to 26 U.S.C. 6103, the Freedom of Information Act, 5 U.S.C. 552, and initiators of requests for access, amendment, or other action pursuant to the Privacy Act of 1974, 5 U.S.C. 552a. (6) Individuals identified by or initiating correspondence or inquiries processed or controlled by the Disclosure function or relating to the foregoing subjects.

CATEGORIES OF RECORDS IN THE SYSTEM:

Requests for records, information or testimony, responses to such requests, supporting documentation, processing records, copies of items provided or withheld, control records, and related files. Department of Justice, and IRS replies to such requests. (2) Copies of related authorizations to IRS officials permitting such disclosures and, in some instances, their responses. (3) Copies of individuals' tax information, memoranda for file, notations of telephone calls, file search requests, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

26 U.S.C. 7801 and 7802; 26 U.S.C. 6103; 5 U.S.C. 301, 552, and 552a.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine disclosure of information contained in this system of records may be made to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure may be made during judicial processes, and necessary to report apparent violations of law to appropriate law enforcement agencies. Disclosure of debtor information may be made to a Federal payor agency for purposes of salary and administrative offsets, to a consumer reporting agency to obtain commercial credit reports, and to a debt collection agency for debt collection services. Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

DISCLOSURES TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a (b)12: Disclosures may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in alphabetical or chronological order within subject categories and/or such automated or electronic recordkeeping equipment as may be locally available. No centralized index exists. Accountings of disclosure of tax related records pursuant to 5 U.S.C. 552a(c) or 26 U.S.C. 6103(p)(3) are posted to the Individual Master File and retrievable by Social Security Number, or to the Business Master File and

retrievable by Employer Identification Number.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Information inquiries and litigation cases

District Office, 1325 K Street, N.W., Washington, D.C. 20225. A corresponding system of records is

SAFEGUARDS:

Access Controls will not be less than

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

VOL 50 ISS 140 JL 22 1985 UMI

retrievable by Employer Identification Number.

RETRIEVABILITY:

Records are generally retrievable by name of individual, although category of record and chronological period may be necessary to retrieve some records. The Social Security number is necessary to access accountings of disclosure posted to the Individual Master File. The Employer Identification Number is necessary for access to the Business Master File.

SAFEGUARDS:

Safeguards will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

In accordance with IRM 1(15)59, Records Disposition Handbook.

SYSTEM MANAGER(S) AND ADDRESS:

Official prescribing policies and practices—Director, Disclosure and Security Division. Officials maintaining the system—Director, Disclosure Security Division, National Office; Regional Commissioners, District Directors, Service Center Directors, or other official receiving or servicing requests for records. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Requesters seeking to determine if accountable disclosures about them have been made should request an accounting of disclosure pursuant to 5 U.S.C. 552a(c) and 26 U.S.C. 6103(p)(3) of the District Director for the area in which they reside. This system may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Requests for disclosure, records being evaluated and processed for disclosure, and related information from other systems of records. Portions of this system may contain investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Portions of this system have been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 46.008

SYSTEM NAME:

Defunct Special Service Staff File being retained because of Congressional directive, Disclosure—Treasury/IRS.

SYSTEM LOCATION:

National Office. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals suspected of violating the Internal Revenue laws.

CATEGORIES OF RECORDS IN THE SYSTEM:

Internal Revenue Service Master File printouts; returns and field reports; information from other law enforcement government investigative agencies; Congressional Reports; and news media articles.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801 and 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

This file is no longer being used by the Internal Revenue Service. The Special Service Staff was abolished August 13, 1973. Disclosure of information contained in this System of Records may be made to the Department of Justice in connection with actual or potential litigation. Access to the system is limited to Congressional Committees and individuals making Freedom of Information requests pertaining to themselves.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records maintained alphabetically by individual and organization contained in vault at IRS National Office.

RETRIEVABILITY:

By alphabet.

SAFEGUARDS:

Access controls are in conformance with provisions of the Physical and Document Security Handbook, IRM 1(16)41. No IRS official has access to these records except for retrieval purposes in connection with Congressional or Freedom of Information inquiries and litigation cases.

RETENTION AND DISPOSAL:

Records are being maintained solely for Congressional Committees at their request. When the Congressional Committees have completed their inquiries, the records will be destroyed except for those documents pertaining to pending litigation. Those records will be destroyed upon direction by the Court having jurisdiction over the documents. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Disclosure and Security Division, National Office. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the System of Records contains a record pertaining to themselves may address inquiries to the Director, Disclosure and Security Division, National Office. (See IRS Appendix A for location.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any System of Records may inquire in accordance with the instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director, Disclosure and Security Division, National Office. (See IRS Appendix A for location.) In addition, this System may contain some records provided by other agencies which are exempt from the Access and Contest provisions of the Privacy Act as published in the Notices of the Systems of Records for those agencies.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

News media articles, taxpayers' returns and records, informant and third party information, other Federal agencies, and examinations of related or other taxpayers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Information from an exempt system of records duplicated in this system of records retains the exempt status.

Treasury/IRS 49.001

SYSTEM NAME:

Collateral and Information Requests System—Treasury/IRS.

SYSTEM LOCATION:

The central files for this system are maintained at Foreign Operations District Office, 1325 K Street, N.W., Washington, D.C. 20225. A corresponding system of records is separately maintained by the foreign posts located in: (1) Bonn, Germany; (2) Sydney, Australia; (3) Caracas, Venezuela; (4) Jidda, Saudi Arabia; (5) Johannesburg, Republic of South Africa; (6) Nassau, Bahamas; (7) London, England; (8) Manila, Philippines; (9) Mexico City, Mexico; (10) Ottawa, Canada; (11) Paris, France; (12) Rome, Italy; (13) Sao Paulo, Brazil; (14) Singapore; and (15) Tokyo, Japan. Inquiries concerning this system of records maintained by the foreign posts should be addressed to the Director, Foreign Operations District.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

United States citizens, resident aliens, nonresident aliens.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record of interviewing witnesses regarding financial transactions of taxpayers; employment data; bank and brokerage house records; probate records; property valuations; public documents; payments of foreign taxes; inventories of assets; business books and records. These records relate to tax investigations conducted by the U.S. Internal Revenue Service where some aspects on an investigation must be pursued in foreign countries pursuant to the various tax treaties between the United States and foreign governments. The records also include individual case files of taxpayers on whom information (as is pertinent to carrying out the provisions of the convention or preventing fraud or fiscal evasion in relation to the taxes which are the subject of this convention) is exchanged with foreign tax officials of treaty countries.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7602, 26 U.S.C. 7801, 26 U.S.C. 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper Records.

RETRIEVABILITY:

By Taxpayer Name.

SAFEGUARDS:

Access Controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Dispose after 3 years. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Foreign Operations District, 1325 K Street, NW., Washington, D.C. 20225.

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Records of examinations of taxpayers, interviews of witnesses, etc., where some aspects on an investigation must be pursued in foreign countries pursuant to various tax treaties between the United States and foreign governments.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 49.002

Treasury/IRS 60.001

SYSTEM NAME:

Assault and Threat Investigation Files, Inspection—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and the Federal Records Center, as well as Collection Offices at IRS National office, Regional Offices, District Offices, and Service Centers.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals attempting to interfere with the administration of the Internal Revenue laws through threats, assaults or forcible interference of any officer or employee while discharging the official duties of his position, or individuals classified as potentially dangerous taxpayers, based on verifiable evidence or information that fit the following criteria: (1) Taxpayers who physically assault an employee; (2) taxpayers who have on hand a deadly or dangerous weapon when meeting with an employee and it is apparent their purpose is to intimidate the employee; (3) taxpayers who make specific threats to do bodily harm to an employee; (4) taxpayers who use animals to threaten or intimidate an employee; (5) taxpayers who have committed the acts set forth in any of the above criteria (1) through (4), but whose acts have been directed against employees of other governmental agencies at Federal, state, county, or local levels; and (6) taxpayers who are not classifiable as potentially dangerous through application of the above criteria (1) through (5), but who have demonstrated a clear propensity toward violence through acts of violent behavior to a serious and extreme degree within the five-year period immediately preceeding the time of classification as potentially dangerous.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Document citing the complaint. (2) Documentary evidence (i.e., threatening letter). (3) Report of investigation, with possible statements, or affidavits as exhibits, and related tax information. (4) Report of legal action, if case is prosecuted. (5) Local police record of individual named in case. (6) FBI record of individual named in the case.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

26 U.S.C. 7608, 7801, 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets, or on magnetic media.

RETRIEVABILITY:

By name of individual to whom it applies, cross-referenced third parties and/or by case number.

SAFEGUARDS:

Minimum requirements provided for by the Physical and Documents Security Handbook, IRM 1(16)41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have been the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

This system of records contains investigatory material compiled for criminal law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 60.002

SYSTEM NAME:

Bribery Investigation Files, Inspection—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and Federal Records Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees and/or former employees of the Treasury Department; taxpayers and non-IRS persons whose alleged criminal actions may affect the integrity of the Internal Revenue Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Report of investigation including exhibits, affidavits, transcripts, and documentation concerning requests and approval for consensual telephone and consensual non-telephone monitoring. (2) Report of legal action concerning the results of prosecution. (3) Prior criminal record of subject.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602, 7608, 7801, 7802; EO 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for enforcing or investigating or prosecuting the violations of, or for implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation of potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets, or on magnetic media.

RETRIEVABILITY:

By name of individual to whom it applies, cross-referenced third parties, and/or by case number.

SAFEGUARDS:

Minimum requirements provided for by the Physical and Document Security Handbook, IRM 1(16) 41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have been the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15) 59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigatory material compiled for criminal law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 60.003

SYSTEM NAME:

Conduct Investigation Files, Inspection—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and Federal Records Center. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees and former employees of Internal Revenue Service, and other Bureaus and Services within the Department of the Treasury.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Document citing complaint of alleged misconduct or violation of statute. (2) Report of investigation to resolve allegation of misconduct or violation of statute, with related exhibits of statements, affidavits or records obtained during investigation. (3) Report of action taken by management personnel adjudicating any misconduct substantiated by the investigation. (4) Report of legal action resulting from violations of statutes referred for prosecution.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602, 7608, 7801, 7802; EO 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security

clearance, license, contract, grant, or other benefit. (3) To disclose information

documents; Personal observations of the investigator; and subjects of the

regulation. (2) To disclose information to a Federal, State, or local agency,

RECORD ACCESS PROCEDURES:

RECORD ACCESS PROCEDURES:

clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets, and on magnetic media.

RETRIEVABILITY:

By name of individual to whom it applies, cross-referenced third parties, and/or by case number.

SAFEGUARDS:

Minimum requirements provided for by the Physical and Document Security Handbook, IRM 1(16)41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have been the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system is exempt and may not be accessed for purposes of notification and inspection or for contest of content of records.

RECORD ACCESS PROCEDURES:

Same as Notification section.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Department of Treasury personnel and records; Taxpayers (Complainants, Witnesses, Confidential Informants); Other Federal Agencies, State, and local agencies; Tax Returns and related documents; Personal observations of the investigator; and subjects of the investigation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 60.004

SYSTEM NAME:

Disclosure Investigation Files, Inspection—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and Federal Records Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Internal Revenue Service employees and/or Government contract employees at IRS Facilities who have allegedly disclosed confidential tax information. (2) Federal, State, and local government employees who have allegedly disclosed confidential Federal tax information. (3) Tax return preparers who have allegedly disclosed confidential Federal tax information, et. al.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Document citing the complaint of the alleged criminal or administrative violation. (2) Investigative report, including statements, affidavits and any other pertinent documents supporting the investigative report, which will be attached as an exhibit. (3) Report of legal action if case is accepted by U.S. Attorney for prosecution. (4) Report of action by management personnel if case is referred for administrative adjudication.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602, 7608, 7801, 7802; EO 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the buresu's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets, or on magnetic media.

RETRIEVABILITY:

By name of individual to whom it applies, cross-referenced third parties, and/or by case number.

SAFEGUARDS:

Minimum requirements provded for by the Physical and Document Security Handbook, IRM 1(16)41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have been the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

This system of records contains investigatory material compiled for criminal law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPT FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 60.005

SYSTEM NAME:

Enrollee Applicant Investigation Files, Inspection—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and Federal Records Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Former employees and non-IRS persons who apply for enrollment to practice before IRS under the provisions of Circular 230.

CATEGORIES OF RECORDS IN THE SYSTEM:

Investigative reports on non-IRS employees covered derogatory results of checks of: FBI files; Inspection files; local police; Examination and Criminal Investigation and Collection Division files; and verification of Federal tax filing status. Also, appropriate documents attached as exhibits showing results of above file checks.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

26 U.S.C. 7801, 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for or investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets and on magnetic media.

RETRIEVABILITY:

By name of individual to whom it applies, cross-referenced third parties, and/or by case number.

SAFEGUARDS:

Minimum requirements provided for by the Physical and Document Security Handbook, IRM 1(16)41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have been the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to Assistant Commissioner (Inspection), National Office.

RECORD ACCESS PROCEDURES:

Same as Notification section.

RECORD SOURCE CATEGORIES:

Internal Revenue Service, Federal Bureau of Investigation, local police departments.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 60.006

SYSTEM NAME:

Enrollee Charge Investigation Files, Inspection—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and Federal Records Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

IRS employees or former employees, tax practitioners, attorneys, certified public accountants, or enrolled persons.

CATEGORIES OF RECORDS IN THE SYSTEM:

A documented complaint or request for investigation alleging criminal or administrative misconduct affecting IRS integrity. A report of investigation, including exhibits such as affidavits, statements or documents which have been reviewed. A report of legal action resulting from violations of statutes referred for prosecution.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

26 U.S.C. 7801, 7802, 7608.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. VOL 50 ISS 140 JL 22 1985 UMI

clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets, or on magnetic media.

RETRIEVABILITY:

By name of individual to whom it applies, cross-referenced third parties, and/or by case number.

SAFEGUARDS:

Minimum requirements provided for by the Physical and Document Security Handbook, IRM 1(16)41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have been the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system is exempt and may not be accessed for purposes of notification and inspection or for contest of content of records.

RECORD ACCESS PROCEDURES:

Same as Notification section above.

CONTESTING RECORD PROCEDURES:

Same as Notification section above.

RECORD SOURCE CATEGORIES:

Department of Treasury personnel and records, other Federal agencies, Taxpayers/Complainants, State and local agencies, tax returns, newspapers, persons acquainted with the individual under investigation, subjects of the investigation, and personal observations of the investigator.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 60.007

SYSTEM NAME:

Miscellaneous Information File, Inspection—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and Federal Records Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees and former employees of the Internal Revenue Service; Tax Practitioners (Attorneys, Certified Public Accountants, Enrolled Persons, Return Preparers); alleged tax violators; persons whose actions or alleged actions indicate a threat to IRS employees, facilities, or the integrity of the tax system; confidential informants; and reputed members of the organized criminal element.

Categories of records in the system: (1) Complaint type information regarding IRS employees which is not, in itself, specific or significant enough to initiate an investigation when received. (2) Allegations of bribery and gratuities by taxpayers and/or their representatives which are not by themselves specific or significant enough to initiate an investigation when received. (3) Allegations of misconduct by tax practitioners, enrolled persons, or tax preparers which are not by themselves specific or significant enough to initiate an investigation when received. (4) Any information received or developed by Inspection that has a bearing on IRS, but is not of itself specific or significant enough to initiate an investigation when received. (5) Information received by Inspection pertaining to alleged violations enforced by other agencies or Divisions of IRS, copies of which are referred to those respective agencies or divisions. (6) Photographs and descriptive data of some IRS employees and of persons arrested by Inspection. (7) Information concerning lost or stolen Government documents, property, credentials, or IRS employee personal property lost or stolen on Government premises. (8) List of persons in State or Local Government agencies working under State agreements and having access to Federal Tax information. (9) Newspaper or periodical items about IRS. (10) Newspaper items regarding attorneys, CPA's, Tax Practitioners, or Return Preparers arrested, indicted, convicted or under investigation by other agencies. (11) Allegations of threats, assaults, forcible interference, or other violence type activity aimed at employees or facilities of IRS which are not by themselves specific or significant enough to initiate an investigation when received. Information regarding Inspection's mission which does not fall into any of the above categories.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM: 5 U.S.C. 301; 26 U.S.C. 7602, 7608, 7801, 7802; EO 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counselor witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets, or on magnetic media.

RETRIEVABILITY:

By name of individual, subject, or incident involved, by name at cross-referenced third parties, and/or information item number.

SAFEGUARDS:

Minimum requirements provided for by the Physical and Document Security Handbook, IRM 1(16)41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15)59. Informant files are retained as long as informant remains active.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system is exempt and may not be accessed for purposes of notification and inspection or for contest of content of records.

RECORD ACCESS PROCEDURES:

Same as Notification section.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7851(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Department of Treasury personnel and records, newspapers and periodicals, taxpayers (complainants, witnesses, and informants), State and local government agency personnel and records, and anonymous complainants.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 60.008

SYSTEM NAME:

Security, Background and Character Investigations Files, Inspection—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and Federal Records Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current, former, and prospective employees of Internal Revenue Service, Office of the Secretary of the Treasury, Office of the General Counsel, Office of the Treasurer of the United States, Office of the Comptroller of the Currency, Office of International Finance, Bureau of Accounts, Bureau of Engraving and Printing, United States Mint, Bureau of the Public Debt, Financial Management Service [formerly Bureau of Government Financial Operations], U.S. Savings Bonds Division, Federal Law Enforcement Training Center, and Private Contractors at IRS Facilities.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Federal Employment Application Forms. (2) Results of National Agency Checks (prior reports and records from FBI Investigative Files, Fingerprint Files, Office of Personnel Management, Defense Central Index of Investigations, House Committee on Internal Security, and Coast Guard Intelligence). (3) Employee's Tax Account History. (4) Results of Employees Tax Examination. (5) Employee's Financial Statement. (6) A summary report, a narrative report, notes and/or written replies resulting from the investigator's inquiries into the subject's scholastic record, prior employment, military service, references, neighbors, acquaintances, or other knowledgeable sources, police records, and past credit record. (7) Report of action taken by management personnel adjudicating any derogatory information developed by the investigation. (8) Report of legal action resulting from violations of statutes referred for prosecution.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602, 7608, 7801, 7802; E.O. 10450; E.O. 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose informations to a Federal, State, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets, or on magnetic media.

RETRIEVABILITY:

By name of individual to whom it applies, cross-referenced third parties, and/or by case number.

SAFEGUARDS:

Minimum requirements provided for by the Physical and Document Security Handbook, IRM 1(16)41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have been the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Some of the records in this system may not be accessed for purposes of inspection or for contest of content of records. Individuals seeking to determine if their record is accessible may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Assistant Commissioner (Inspection), National Office.

RECORD ACCESS PROCEDURES:

Same as Notification above.

CONTESTING RECORD PROCEDURES:

Same as Notification above.

RECORD SOURCE CATEGORIES:

Department of Treasury personnel and records; Federal, State, and local police agencies; witnesses; subjects involved in the investigation; hospitals (medical records); doctors (medical records and personal observations); personal observations of the investigator; automobile repair facilities; insurance companies; attorneys; Federal, State, and local driver license records; and Federal and State vehicle registration records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 70.001

SYSTEM NAME:

Individual Income Tax Returns, Statistics of Income—Treasury/IRS.

SYSTEM LOCATION:

Primary—Internal Revenue Service Data Center. Secondary—(1) Internal Revenue Service, Statistics Division. (2) Treasury Department, Offices of Tax Analysis and Computer Science. (3) Health and Human Services Department, Parklawn Computer Center. (4) Federal Records Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers selected for an annual statistical sample.

CATEGORIES OF RECORDS IN THE SYSTEM:

Sources of income, exemptions deductions, income tax, and tax credits, as reported on Forms 1040 and 1040A, U.S. Individual income tax return; and demographic characteristics as reported on Form SS–5, Application for a Social Security number. The records are used to prepare and publish annually statistics, with respect to the operations of the tax laws and for special statistical studies and compilations. The statistics, studies, and compilations are designed so as to prevent disclosure of a particular taxpayer's identity.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

26 U.S.C. 6108.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper Records and magnetic media.

RETRIEVABILITY:

Each magnetic tape record is identified by social security number and a unique Document Locator Number assigned by the Internal Revenue Service. Those with sole proprietorship income, in addition, contain employer identification number, if reported by the taxpayer. Input records that are copies of tax returns and other input records for high income taxpayers for tax years prior to 1967 are identified by name and address.

SAFEGUARDS:

Access Controls will not be less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Input records disposed after publication of the statistics, except for input records for high income taxpayers for tax years prior to 1967 which are disposed after 40 years. Output records retained permanently. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Returns and Information Processing), National Office. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system is exempt and may not be accessed for purposes of notification and inspection or for contest of content of records.

RECORD ACCESS PROCEDURES:

Same as Notification above.

CONTESTING RECORD PROCEDURES:

Same as Notification above.

RECORD SOURCE CATEGORIES:

Taxpayers (Complainants, Witnesses, Confidential Informants); Federal, State, and local government agencies' personnel and records (police, court, property, etc.); newspapers or periodicals; Department of the Treasury personnel and records; financial institutions; and other private business records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 60.011

SYSTEM NAME:

Internal Revenue Service Employee Tax Compliance Records—Treasury/IRS.

Same as Notification above.

CONTESTING RECORD PROCEDURES:

Same as Notification above.

RECORD SOURCE CATEGORIES:

Taxpayers (Complainants, Witnesses, Confidential Informants); Federal, State, and local government agencies' personnel and records (police, court, property, etc.); newspapers or periodicals; Department of the Treasury personnel and records; financial institutions; and other private business records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 60.012

SYSTEM NAME:

Internal Revenue Service Employee Tax Compliance Records—Treasury/IRS.

SYSTEM LOCATION:

IRS National Office, Regional Inspectors' Offices, and Federal Records Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees of the Internal Revenue Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Report of investigation including exhibits such as SF–91, Operator's Report of Motor Vehicle Accident; SF–91A, Investigation Report of Motor Vehicle Accident; SF–92A, Report of Accident Other Than Motor Vehicle; SF–94, Statement of Witness; Optional Form 26, Data Bearing Upon Scope of Employment of Motor Vehicle Operator In addition, attached as exhibits might be a Police Report of the accident; copies of insurance policies of the involved drivers; photographs of the scene or vehicles after the accident; Treasury Department vehicle maintenance record, medical records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602, 7608, 7801, 7802; EO 11222.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (5) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2, which relate to an agency's functions relating to civil and criminal proceedings. (6) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, in folders, maintained in file cabinets, and on magnetic media.

RETRIEVABILITY:

By name of individual to whom it applies, cross-referenced third parties, subject, other identifier, and/or by case number.

SAFEGUARDS:

Minimum requirements provided for by the Physical and Document Security Handbook, IRM 1(16)41. Also, accessible to Inspection personnel on a need-to-know basis, all of whom have been the subject of background investigations.

RETENTION AND DISPOSAL:

In accordance with Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner (Inspection). (See IRS Appendix A.)

VOL 50 ISS 140 JL 22 1985 UMI

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual.

RECORD ACCESS PROCEDURE:

This system of records may not be accessed for purposes of inspection or for contest of content of records.

CONTESTING RECORD PROCEDURES:

See access above.

RECORD SOURCE CATEGORIES:

Primary—Forms 1040 and 1040A, U.S. Individual Income Tax Returns. Secondary—Form SS-5, Application for a Social Security Number.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from Privacy Act provisions relating to notification, access, and contest.

Treasury/IRS 80.001

SYSTEM NAME:

Artist File. Associate Chief Counsel (Technical)—Treasury/IRS.

SYSTEM LOCATION:

National Office. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Famous or noted artists whose works have been evaluated.

CATEGORIES OF RECORDS IN THE SYSTEM:

Commissioner's Art Panel decisions on values of works of art by named artists and appraisal documentation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602, 26 U.S.C. 7805(a).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 27 U.S.C. 6103. These records and information in these records may be used: (1) To disclose information to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. (2) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (3) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (7) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, magnetic media.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

System has been retained since 1968. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Chief Counsel (Technical), National Office. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Associate Chief Counsel (Technical), National Office.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Associate Chief Counsel (Technical), National Office.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Appraisal documentation and Art Panel decisions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 80.002

SYSTEM NAME:

Expert witness and fee appraiser files, Associate Chief Counsel (Technical)—Treasury/IRS.

SYSTEM LOCATION:

National Office. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Potential expert witnesses for litigation and fee appraisers for art valuation.

CATEGORIES OF RECORDS IN THE SYSTEM:

Biographical sketches, application letters, or list of names by specialty.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602, 26 U.S.C. 7805(a).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. (1) To disclose information Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. (2) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (7) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Safeguards will not be less than provided by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Records are periodically updated to reflect changes and maintained as needed. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Chief Counsel (Technical), National Office. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B.

Inquiries should be addressed to the Associate Chief Counsel (Technical), National Office.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records, or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Associate Counsel (Technical), National Office.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Varied, generally from the named individual, often unsolicited.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 80.003

SYSTEM NAME:

Correspondence Control and Records, Associate Chief Counsel (Technical)—Treasury/IRS.

SYSTEM LOCATION:

National Office. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individual subjects of letter rulings, technical advice, memorandum, and other correspondence from the Office of the Associate Chief Counsel (Technical).

CATEGORIES OF RECORDS IN THE SYSTEM:

Cards and disks containing taxpayer names, date of correspondence, issue, and related information, including in some cases the conclusions reached, and related letter ruling, technical advice, memorandum, and other correspondence files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 26 U.S.C. 7801, 26 U.S.C. 7802, 26 U.S.C. 7602, 26 U.S.C. 7805 (a).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103 and as necessary to report apparent violations of law to appropriate law enforcement agencies. These records and information in these records may be used: (1) To disclose information to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. (2) To disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (3) To disclose information to a Federal, State, or local agency, maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. SYSTEM MANAGER(S) AND ADDRESS:

Associate Chief Counsel (Technical), National Office. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instruction appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Associate Chief Counsel (Technical), National Office.

RECORD ACCESS PROCEDURES:

Individual seeking access to any record contained in the system of records may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Associate Chief Counsel (Technical), National Office.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Individual subjects of letter rulings, technical advice, memorandums, and other correspondence; field office personnel.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 90.001

SYSTEM NAME:

Chief Counsel Criminal Tax Case Files. Each Regional Counsel Office, each District Counsel Office, and the National Office maintain one of these systems. The information in this notice applies to all 57 systems—Treasury/IRS.

SYSTEM LOCATION:

The addresses of the National Office, each Regional Counsel Office, and each District Counsel Office are listed in the Appendix. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Taxpayers and related parties against whom tax-related criminal recommendations have been made. (2) Taxpayers and related parties under investigation for criminal tax-related violations who have corresponded with the Regional Counsel's Office. (3) Taxpayers and related parties on whom advice has been requested concerning investigation for tax-related offenses. (4) Potential witnesses in criminal tax investigations. (5) Investigative subjects in connection with Organized Crime Drive, Strike Force, Narcotics Project, or HUD project.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Internal Control Records. (2) Legal and administrative files including investigative reports. (3) Correspondence files. (4) Information on potential witnesses, including expert witnesses. (5) Special project files such as Organized Crime Drive, Narcotics Project, and HUD project.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose information to the Department of Justice for the purpose of litigating an action or seeking legal advice. (2) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (3) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (7) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and magnetic media.

RETRIEVABILITY:

Records are retrievable by the name of the person to whom they apply.

SAFEGUARDS:

Records are locked up during nonworking hours and during periods when the work area is vacant. Access is strictly controlled and limited to employees who have a need for such records in the course of their work. Background checks are made on employees. All facilities where records are stored have access limited to authorized personnel or individuals in the company of authorized personnel.

RETENTION AND DISPOSAL:

Legal files are generally retired to the Federal Records Center (FRC) one year after they are closed. The FRC will retain "significant case" files an additional 19 years and dispose of them 20 years after they are closed. Other legal files are retained in the FRC 4 years after they are transferred to the FRC and disposed of 5 years after they are closed. Duplicate National Office legal files are retained in the Division 1 year after they are closed in the field. Other records are retained in the Division for the same time periods described above. Files transferred from other Divisions are returned to the source when no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Each Regional Counsel is the system manager of the systems in his or her Region. The Director of the Criminal Tax Division is the system manager of the National Office system. The addresses are in the Appendix. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual as it is exempt under 5 U.S.C. 552a(j)(2).

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for the purposes of inspection or for contest of content of records as it is exempt under 5 U.S.C. 552a(j)[2].

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Taxpayers and their representatives; Department of Treasury personnel; other Federal agencies; State, local, and foreign governments; witnesses, informants; parties to disputed matters of fact or law; other persons who communicate with the Internal Revenue Service.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 90.002

SYSTEM NAME:

Chief Counsel Disclosure Litigation Division Case Files—Treasury/IRS.

SYSTEM LOCATION:

Disclosure Litigation Division, Internal Revenue Service, Office of Chief Counsel, 1111 Constitution Avenue, NW., Washington, D.C. 20224.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons who communicate with the Service regarding disclosure matters or who are involved with a disclosure issue involving the Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Legal Case and Administrative Case Files; (2) Internal Control Records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose information to the Department of Justice for the purpose of litigating an action or seeking legal advice. (2) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (3) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (7) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and magnetic media.

RETRIEVABILITY:

Records are retrievable by the name of the person to whom they apply, cross-referenced third parties, issues, and by case number.

SAFEGUARDS:

A background investigation is made on personnel. Division offices are located in a security area. Access to keys to these offices is restricted. All facilities where records are stored have access limited to authorized personnel or individuals in the company of authorized personnel.

RETENTION AND DISPOSAL:

Legal files are generally retired to the Federal Records Center (FRC) 1 year after they are closed. The FRC will retain "significant case" files an additional 29 years and dispose of them 30 years after they are closed. Other legal files are retained in the FRC 5 years after they are transferred to the FRC and disposed of 6 years after they are closed. Other records, are retained in the Division for the same time periods as described above.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Disclosure Litigation Division, Internal Revenue Service, Office of Chief Counsel, 1111 Constitution Avenue, NW., Washington, D.C. 20224.

NOTIFICATION PROCEDURE:

This system may not be accessed for purposes of determining if the records pertain to a particular individual as the records are exempt under 5 U.S.C. 552a (d)(5) and/or (k)(2).

RECORD ACCESS PROCEDURES:

This system may not be accessed for purpose of inspection or for contest of content of records as the records are exempt under 5 U.S.C. 552a(d)(5) and/or (k)(2).

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Persons who communicate with the agency regarding disclosure matters; Department of Treasury employees; State, local, and foreign governments; other Federal agencies; witnesses; informants; parties to disputed matters of fact or law.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 90.003

Chief Counsel General Administrative Systems. Each of the 7 Regional Counsel Offices and 49 District Counsel Offices, each of the 9 Divisions in the National Office, the Office of the Chief Counsel, and the Office of the Deputy Chief Counsel, Associate Chief Counsels (Litigation and Technical) maintain a General Administrative System. This notice applies to all 68 of these systems.—Treasury/IRS.

SYSTEM LOCATION:

The location of these systems are listed in the Appendix. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Past, present, and prospective

who are parties in practitioner actions under the jurisdiction of the Director of

information, which has requested information relevant to or necessary to

Statements, who makes the statements available to the public as required by

VOL 50 ISS 140 JL 22 1985 UMI

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Past, present, and prospective employees of the Chief Counsel's Office. (2) Tax Court Witnesses.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Employee records other than Official Personnel Files of the Office of Personnel Management and the Merit System Protection Board. (2) Time and attendance Rosters. (3) Financial records, such as travel expenses, Notary Public expenses, moving expenses, expenses of Tax Court witnesses, and miscellaneous expenses. (4) Employee recruiting records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose information to the Department of Justice for the purpose of litigating an action or seeking legal advice. (2) To disclose information to the Office of Personnel Management and the Merit System Protection Board for appropriate Personnel actions. (3) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (4) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (5) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (6) To disclose information to foreign governments in accordance with formal or informal international agreements. (7) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (8) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (9) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (10) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and magnetic media.

RETRIEVABILITY:

Records are generally retrievable by the name of the person to whom they apply.

SAFEGUARDS:

Access is limited to employees who have a need for such records in the course of their work. Background checks are made on employees. All facilities where records are stored have access limited to authorized personnel or individuals in the company of authorized personnel.

RETENTION AND DISPOSAL:

Records are updated periodically to reflect changes and maintained as long as needed. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Each Regional Counsel is the system manager of the systems in his or her Region. Each Division Director is the system manager of the system in his or her Division. The Chief Counsel, the Deputy Chief Counsel, and the Associate Chief Counsels (Litigation) and (Technical), are the system managers of the system in each of their Offices. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Regional Counsel of the Region in which the records are located or the Director of the Disclosure Litigation Division in the case of records in the National Office. The addresses are listed in the Appendix. (See IRS Appendix A.)

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Regional Counsel of the Region in which the records are located or the Director of the Disclosure Litigation Division in the case of records in the National Office. The addresses are listed in the Appendix. Information leading to the identity of a confidential source is exempt pursuant to 5 U.S.C. 552a(k)(5).

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Employees, Department of Treasury Personnel; Tax Court witnesses; Office of Personnel Management and Merit System Protection Board; other Federal agencies; State, local, and foreign governments; references; former employers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 90.004

SYSTEM NAME:

Chief Counsel General Legal Services Case Files. Each of the seven Regional Counsel Offices and the National Office do or will maintain a General Legal Services Case File System. The information in this notice applies to all eight systems—Treasury/IRS.

SYSTEM LOCATION:

The addresses of the National Office and each Regional Counsel Office are listed in the Appendix. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons involved in litigation, actions, investigations, or cases falling within the jurisdiction of the General Legal Services function, including persons (1) who have caused service of subpoenas, summonses, or other judicial processes directed to an officer or employee of the Treasury Department in his official capacity; (2) who are parties in personnel matters, as well as discrimination and labor management relations matters, of the Internal Revenue Service, Chief Counsel's Office, or, in some instances, other constituent units of the Treasury Department; (3)

who are parties in practitioner actions under the jurisdiction of the Director of Practice or the Joint Board of Actuaries; (4) who are parties in procurement matters and under the Federal Claims Collection Act; (5) who are parties in litigation or administrative claims involving alleged violations of the United States Constitution, the Federal Tort Claims Act, the Military Personnel and Civilian Employee Compensation Act, relief of accountable officers for loss of Government funds, rewards, acts of officers or employees acting within the scope of their employment, or official acts of officers or employees not directly relating to Federal tax issues but relating to the Internal Revenue Service; (6) who are parties in miscellaneous matters referred to the General Legal Service Division; (7) who are the subjects of investigations made by the Internal Security Division if the case is referred to the General Legal Services Division; (8) who have filed petitions for the remission or mitigation of forfeitures or who are otherwise directly involved as parties in forfeiture matters, judicial or administrative; (9) who are officials of the Internal Revenue Service and Chief Counsel's Office required to file a Financial Disclosure Statement under the Ethics in Government Act of 1978; (10) who have corresponded regarding a matter under consideration within the General Legal Services Division.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Legal case and administrative case files. (2) Internal Control Cards. (3) Correspondence files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To disclose information to the Department of Justice for the purposes of litigating an action or seeking legal advice. (2) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing, or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (3) To disclose information to a Federal, State, or local agency, maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (7) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation. (10) To provide information to the Director of Practice and Joint Board of Actuaries in practitioner disciplinary matters. (11) To provide information to the Office of Personnel Management in personnel, discrimination, and labor management matters. (12) To provide information to arbitrators, the Federal Labor Relations Authority, including the Office of the General Counsel of that authority, the Federal Service Impasses Board, and the Federal Mediation and Conciliation Service in labor management matters. (13) To provide information to the Merit Systems Protection Board in Personnel, Discrimination, and Labor Management matters. (14) To provide information to the Equal Employment Opportunity Commission in Personnel, Discrimination, and Labor Management matters. (15) To provide information to the Special Counsel of the Merit Systems Protection Board in Personnel, Discrimination, and Labor Management matters. (16) To provide information to the General Services Administration in property management matters. (17) To provide information to Federal, state, and foreign government agencies to the extent necessary to obtain records in their possession. (18) To provide information to the Administrative Assistant of the Executive Reources Board as to Financial Disclosure Statements, who makes the statements available to the public as required by law. (19) To provide information to other Federal agencies for the purpose of effectuating inter-agency salary offset or inter-agency administrative offset. (20) Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12). Disclosures of debt information concerning a claim against an individual may be made from this system to consumer reporting agencies as defined in the Fair Credit Reporting Act, 15 U.S.C. 1681a(f), or the Federal Claims Collection Act of 1966, 31 U.S.C. 3701(a)(3).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and magnetic media.

RETRIEVABILITY:

Records are retrievable by the name of the person to whom they apply. If more than one person is involved in a given case, then it is generally retrievable only by the first named person.

SAFEGUARDS:

Access is limited to employees who have a need for such records in the course of their work. Background checks are made on employees. All facilities where records are stored have access limited to authorized personnel or individuals in the company of authorized personnel.

RETENTION AND DISPOSAL:

Legal files are generally retired to the Federal Records Center (FRC) 1 year after the cases are closed. The FRC will retain "significant case" files an additional 19 years and dispose of them 20 years after they are closed. Other legal files are retained in the FRC 4 years after they are transferred to the center and disposed of 5 years after they are closed. Other records are retained in the Division for the same time periods described above.

SYSTEM MANAGER(S) AND ADDRESS:

Each Regional Counsel is the system manager of the system in his or her Region. The Director of the General Legal Services Division is the system manager of the National Office system. The addresses are in the Appendix. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system of records may not be

corresponded regarding a matter under consideration within the General

media in accordance with guidelines contained in 28 CFR 50.2 which relate to

RECORD ACCESS PROCEDURES:

information to appropriate Federal, State, local, or foreign

SAFEGUARDS:

VOL 50 ISS 140 JL 22 1985 UMI

NOTIFICATION PROCEDURE:

This system of records may not be accessed for purposes of determining if the system contains a record pertaining to a particular individual as the records are exempt under 5 U.S.C. 552a(d)(5) and/or (k)(2).

RECORD ACCESS PROCEDURES:

This system of records may not be accessed for purposes of inspection or for contest of content of records as the records are exempt under 5 U.S.C. 552a(d)(5) and/or (k)(2).

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Taxpayers and their representatives; Department of Treasury personnel; other Federal agencies; State, local, and foreign governments; witnesses; informants; parties to disputed matters of fact or law; other persons who communicate with the Internal Revenue Service.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 90.005

SYSTEM NAME:

Chief Counsel General Litigation Case Files. Each Regional Counsel Office, each District Counsel Office, and the National Office maintain one of these systems. The information in this notice applies to all 57 systems—Treasury/IRS.

SYSTEM LOCATION:

The addresses of the National Office, each Regional Counsel Office, and each District Counsel Office are listed in the Appendix. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Taxpayers or other individuals involved in matters referred to the General Litigation function including: (a) Taxpayers with outstanding tax liabilities or with potential outstanding tax liabilities; (b) persons from whom information is being sought (summons); (c) persons requesting information (disclosure); (d) present or former Internal Revenue Service employees who are being or may be sued in connection with their duties or who have been called upon to testify in private litigation; (e) persons who are or may be liable to the United States on non-tax claims; (f) persons who have submitted offers in compromise of federal taxes. (2) Persons who have corresponded regarding a matter under consideration within the General Litigation function.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Legal and administrative files. (2) Internal Control Records. (3) Offer in Compromise files. (4) Correspondence files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To provide information to other Federal agencies holding funds of taxpayer for the purpose of collecting a liability owed by the taxpayer. (2) To disclose information to the Department of Justice for the purpose of litigating an action or seeking legal advice. (3) To provide information to State and local taxing authorities for purpose of enforcing federal tax laws. (4) To provide information to Federal, State, and local regulatory authorities for purposes of collection of Federal taxes. (5) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing, or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (6) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (7) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (8) To disclose information to foreign governments in accordance with formal or informal international agreements. (9) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (10) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (11) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (12) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and magnetic media.

RETRIEVABILITY:

Records are retrievable by the name of the person to whom they apply.

SAFEGUARDS:

Access is limited to employees who have a need for such records in the course of their work. Background checks are made on employees. All facilities where records are stored have access limited to authorized personnel or individuals in the company of authorized personnel.

RETENTION AND DISPOSAL:

National Office, Regional, and District Counsel legal files are generally retired to the Federal Records Center (FRC) one year after they are closed. The FRC will retain "significant case" files an additional 24 years and dispose of them 25 years after the cases are closed. Other legal files are retained in the FRC 9 years after they are transferred to the Center and disposed of 10 years after they are closed. Other records are retained in the Division for the same time periods described above. Files transferred from other divisions are returned to the source when no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Each Regional Counsel is the system manager of the systems in his or her Region. The Director of the General Litigation Division is the system manager of the National Office system. The addresses are in the Appendix. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system may not be accessed for purposes of determining if the records pertain to a particular individual as the records are exempt under 5 U.S.C. 552a (d)(5) and/or (k)(2).

RECORD ACCESS PROCEDURES:

This system may not be accessed for purposes of inspection or for contest of content of records as the records are exempt under 5 U.S.C. 552a (d)(5) and/or (k)(2).

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Taxpayers and their representatives; Department of the Treasury personnel; other Federal agencies; State, local, and foreign governments; witnesses; informants; parties to disputed matters of fact or law; other persons who communicate with the Internal Revenue Service.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of this Privacy Act.

Treasury/IRS 90.006

SYSTEM NAME:

Chief Counsel Interpretative Division Case Files—Treasury/IRS.

SYSTEM LOCATION:

Interpretative Division, Internal Revenue Service, Office of Chief Counsel, 1111 Constitution Avenue, NW., Washington, D.C. 20224; Employee Plans and Exempt Organizations Division, same address.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Taxpayers concerning whom legal issues have been referred to the Interpretative Division or the Employee Plans and Exempt Organizations Division for opinion.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Legal Case and Administrative Files and Advisory Legal Opinions; (2) General Counsel Memorandums; (3) Office Memorandums; (4) Internal Control Records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103. These records and information in these records may be used: (1) To disclose information to the Department of Justice for the purpose of litigating an action or seeking legal advice. (2) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing, or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (3) To disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (7) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation. (10) To provide information to the Social Security Administration to consult about a matter involving legal issues concerning the imposition of Social Security taxes. (11) To provide information to the Department of Labor or the Pension Benefit Guaranty Corporation concerning the Employee Retirement Income Security Act.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and magnetic media.

RETRIEVABILITY:

(4) Persons who have corresponded regarding a matter under consideration within the Tax Litigation function.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Legal Case and Administrative Case Files. (2) Internal Control Records. (3) Correspondence Files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To disclose information to the Department of Justice for the purpose of litigating an action or seeking legal advice. (2) To disclose pertinent information to appropriate Federal, state, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing, or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (3) To disclose information to a Federal, state, or local agency, maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (7) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2, which relate to an agency's functions relating to civil and criminal proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation. (10) Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and magnetic media.

RETRIEVABILITY:

Records are retrievable by the name of the person to whom they apply.

SAFEGUARDS:

Access is limited to employees who have a need for such records in the course of their work. Background checks are made on employees. All facilities where records are stored have access limited to authorized personnel or individuals in the company of authorized personnel.

RETENTION AND DISPOSAL:

Legal files are generally retired to the Federal Records Center (FRC) one year after they are closed. The FRC will retain "significant case" files an additional 29 years and dispose of them 30 years after they are closed. Other legal files are retained in the FRC 9 years after they are transferred to the Center and disposed of 10 years after they are closed. Other records are periodically updated to reflect changes and maintained as long as needed. Files transferred from other divisions are returned to the source when no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Each Regional Counsel is the system manager of the systems in his or her Region. The Director of the Tax Litigation Division is the system manager of the National Office system. The addresses are in the Appendix. (See IRS Appendix A.)

NOTIFICATION PROCEDURE:

This system may not be accessed for purposes of determining if the records pertain to a particular individual as the records are exempt under 5 U.S.C. 552a (d)(5) and/or (k)(2).

RECORD ACCESS PROCEDURES:

This system may not be accessed for purposes of inspection or for contest of content of records as the records are exempt under 5 U.S.C. 552a(d)(5) and/or (k)(2).

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Taxpayers and their representatives; Department of Treasury personnel; other Federal agencies; State, local, and foreign governments; witnesses; informants; parties to disputed matters of fact or law; other persons who communicate with the Internal Revenue Service.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 90.010

SYSTEM NAME:

Digest Room Files Containing Briefs, Legal Opinions, and Digests of Documents Generated Internally or by the Department of Justice Relating to the Administration of the Revenue Laws—Treasury/IRS.

Treasury/IRS 90.015

SYSTEM NAME:

Reference Records of the Library in the Office of Chief Counsel—Treasury/IRS.

SYSTEM LOCATION:

Operations Division, Internal Revenue Service, Office of Chief Counsel, 1111 Constitution Avenue, NW., Washington, D.C. 20224.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Taxpayers who have sought Congressional tax relief by means of a Private Bill. (2) Taxpayers involved in tax litigation. (3) IRS employees who charge out books.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Numerical and alphabetical listing of Private Relief Bill and files related to the Bill. (2) Reference cards for tax cases. (3) Charge cards and inter-library loan forms.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 26 U.S.C. 7801.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (1) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (2) To disclose information to a Federal, State, or local agency, maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (3) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations or in connection with criminal law proceedings. (4) To disclose information to foreign governments in accordance with formal or informal international agreements. (5) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (6) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (7) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (8) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and magnetic media.

RETRIEVABILITY:

Records are retrievable by the name of the individual to whom they pertain and Private Bill material can also be retrieved by H.R. or S. number.

SAFEGUARDS:

Although access is limited to authorized individuals, this material would be available to any person through a Freedom of Information Act request.

RETENTION AND DISPOSAL:

Records are regularly updated. If the library materials to which the references pertain are no longer in the library collection, the reference cards are destroyed. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Operations Division, Internal Revenue Service, Office of Chief Counsel, 1111 Constitutional Avenue, NW., Washington, D.C. 20224.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if the system of records contains a record pertaining to themselves may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Disclosure Litigation Division. The address is listed in the Appendix.

RECORD ACCESS PROCEDURES:

Individuals seeking access to any record contained in the system of records, or seeking to contest its content, may inquire in accordance with instructions appearing at 31 CFR Part 1, Subpart C, Appendix B. Inquiries should be addressed to the Director of the Disclosure Litigation Division. The address is listed in the Appendix.

CONTESTING RECORD PROCEDURES:

See Access above.

RECORD SOURCE CATEGORIES:

Material to which reference information pertains.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Treasury/IRS 90.016

SYSTEM NAME:

Reports and Information Retrieval Activity Computer and Microfilm Records (Counsel/Appeals Tracking System)—Treasury/IRS.

SYSTEM LOCATION:

Computer Records: Internal Revenue Service Data Center, 1300 John Lodge Drive, Detroit, Michigan 48226 (and a commercial vendor to be identified later for FY 1983–1986 system development). Microfilm Records: Operations Division, Internal Revenue Service, Office of Chief Counsel, 1111 Constitution Avenue, NW., Washington, D.C., 20224.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Taxpayers who initiated suits for refund in district courts or the Claims Court. (2) Taxpayers who have filed petitions with the United States Tax Court. (3) Taxpayers who have requested rulings from the Service in those cases in which the request has been referred to the Office of Chief Counsel for a legal opinion. (4) Taxpayers who have been involved in litigation concerning the collection of taxes. (5) Taxpayers whose cases were the subject of technical advice memoranda to the Solicitor General and similar advisory memoranda. (6) The Counsel/Appeals Tracking System to be developed during fiscal years 1983–1986 will act as a control and management information system for the following Chief Counsel systems of records: Treasury/IRS 90.001, 90.002, 90.003, 90.004, 90.005, 90.006, 90.007, 90.009, 90.010, 90.011, 90.013, 90.014, and 90.015. The system will contain control records concerning the categories of individuals identified in these systems. Control records concerning individuals who have, or had, cases pending with the Appeals Division will also be included in the system.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Skeletal legal files. (2) Indexes. (3) Actions on Decisions. (4) Case Abstracts. (5) Technical Advice Replies by the Tax Litigation Division. (6) Miscellaneous Advisory Memoranda regarding a case usually going to the Solicitor General.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) To disclose information to the Department of Justice for the purpose of litigating an action, seeking legal advice, or for research purposes. (2) To disclose pertinent information to appropriate Federal, State, local, or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation. (3) To disclose information to a Federal, State, or local agency, maintaining civil, criminal, or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit. (4) To disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or

settlement negotiations or in connection with criminal law proceedings. (5) To

SYSTEM MANAGER(S) AND ADDRESS:

Director, Operations Division, Internal

Associated records. This system may include tax return information and

NOTIFICATION PROCEDURE:

This system is exempt from the

District Director, Internal Revenue Service, Rm. 2483, Patrick V. McNamara Building,

settlement negotiations or in connection with criminal law proceedings. (5) To disclose information to foreign governments in accordance with formal or informal international agreements. (6) To provide information to a congressional office in response to an inquiry made at the request of the individual to whom the record pertains. (7) To provide information to the news media in accordance with guidelines contained in 28 CFR 50.2 which relate to an agency's functions relating to civil and criminal proceedings. (8) To provide information to unions recognized as exclusive bargaining representatives under the Civil Service Reform Act of 1978, 5 U.S.C. 7111 and 7114. (9) To provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation. (10) Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Skeletal legal files and indexes to the narrative material or microfilm excluding the General Litigation Division's Actions on Decisions are stored on magnetic media. Actions on Decisions, Case Abstracts, Technical Advice and Advisory Memoranda are stored on microfilm. Input documents are on paper. The system to be developed during fiscal years 1983–1986 will also show access by interactive terminal.

RETRIEVABILITY:

Records are retrievable by legal jacket number and case issue. The system to be developed during fiscal years 1983–1986 will also allow retrieval by name of the person to whom they apply.

SAFEGUARDS:

Access is limited to employees who have a need for such records in the course of their work. Background checks are made on employees. All facilities where records are stored have access limited to authorized personnel or individuals in the company of authorized personnel. Passwords are required in the Counsel/Appeals Tracking System to access system information.

RETENTION AND DISPOSAL:

Magnetic media and microfilm will be periodically updated to reflect changes and maintained as long as needed. Input documents are retained for one year. Authority: IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Operations Division, Internal Revenue Service, Office of Chief Counsel, 1111 Constitution Avenue NW, Washington, D.C. 20224.

NOTIFICATION PROCEDURE:

This system may not be accessed for purposes of determining if the records pertain to a particular individual as the records are exempt under 5 U.S.C. 552a (d)(5) and/or (k)(2).

RECORD ACCESS PROCEDURES:

This system may not be accessed for purposes of inspection or for contest of content of records as the records are exempt under 5 U.S.C. 552a (d)(5) and/or (k)(2).

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Taxpayers and their representatives; Department of Treasury personnel; other Federal agencies; State, local, and foreign governments; witnesses; informants; parties to disputed matters of fact or law; other persons who communicate with the Internal Revenue Service.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS 00.002

SYSTEM NAME:

Correspondence Files and Correspondence Control Files (Including inquiries about enforcement activities)—Treasury/IRS.

SYSTEM LOCATION:

National Office, National Computer Center, Data Center, Regional Offices, District Offices, and Service Centers. (See IRS Appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

(1) Initiators of correspondence. (2) Persons upon whose behalf the correspondence was initiated. (3) Persons who are subjects of the correspondence. Includes individuals for whom tax liabilities exist, individuals who have made a complaint or inquiry relative to an Internal Revenue tax matter, or individuals for whom a third party is interceding relative to an Internal Revenue tax matter.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Correspondence received. (2) Responses to correspondence. (3) Associated records. This system may include tax return information and investigation records as necessary to process correspondence received. Correspondence may include letters, telegrams, memoranda of telephone calls, and other forms of communication. This notice is not intended to apply to correspondence or correspondence controls covered by other published notices of systems of records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 26 U.S.C. 7602; 26 U.S.C. 7801, 7802.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information contained in this system of records may be disclosed to the Department of Justice in connection with actual or potential criminal prosecution or civil litigation, and in connection with requests for legal advice. Disclosure of returns and return information may be made only as provided by 26 U.S.C. 6103 and as necessary to report apparent violations of law to appropriate law enforcement agencies. Disclosure may be made during judicial processes.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records and/or such automated or electronic record-keeping equipment as may be locally available.

RETRIEVABILITY:

Controlled items are generally retrievable by name; some items are not retrievable, depending upon the controls established locally. No centralized index exists.

SAFEGUARDS:

Access controls will be not less than provided for by the Physical and Document Security Handbook, IRM 1(16)41.

RETENTION AND DISPOSAL:

Disposition varies in accordance with the nature of the correspondence file, but is made in accordance with the Records Disposition Handbook, IRM 1(15)59.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioners, Regional Commissioners, District Directors, and Service Center Directors of Internal Revenue.

NOTIFICATION PROCEDURE:

This system is exempt from the notification provisions of the Privacy Act.

RECORD ACCESS PROCEDURE:

This system is exempt from the Access and Contest provisions of the Privacy Act.

CONTESTING RECORD PROCEDURES:

26 U.S.C. 7852(e) prohibits Privacy Act amendment of tax records.

RECORD SOURCE CATEGORIES:

Correspondence received. This system of records may contain investigatory material compiled for law enforcement purposes whose sources need not be reported.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

This system has been designated as exempt from certain provisions of the Privacy Act.

Treasury/IRS—Appendix A

Inquiries under Treasury/IRS systems should be addressed to the office whose records are to be searched. The titles and addresses of the Systems Managers are as follows:

National Office Internal Revenue Service

Assistant to the Commissioner (Equal Opportunity)
Assistant to the Commissioner (Public Affairs)
Assistant Commissioner (Collection)
Assistant Commissioner (Computer Services)
Assistant Commissioner (Employee Plans and Exempt Organizations)
Assistant Commissioner (Inspection)
Assistant Commissioner (Planning Finance and Research)
Assistant Commissioner (Human Resources)
Assistant Commissioner (Support and Services)
Assistant Commissioner (Returns and Information Processing)
Associate Chief Counsel (Technical)
Director, Disclosure and Security Division
Chief Counsel
Director, Appeals Division

The address for all of the above Systems Managers is as follows:
1111 Constitution Avenue, NW., Washington, D.C. 20224
Foreign Operations District, 1325 K Street, NW., Washington, D.C. 20225

Regional Office Internal Revenue Service

Central Region

is listed, upon a determination that such

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Review Completed for Species Classified as Endangered or Threatened in 1978

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 5-year review completion.

SUMMARY: The Service reports the completion of its review of species listed as endangered or threatened in 1978. No proposed change in the status of these species is contemplated in the near future.

DATES: The Service will continue to accept data on any listed species at any time.

ADDRESSES: Comments or data may be submitted to the Director (OES–500 Broyhill), U.S. Fish and Wildlife Service, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Mr. John L. Spinks, Jr., Chief, Office of Endangered Species, 500 Broyhill, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (703/235–2771 or FTS 235–2771).

SUPPLEMENTARY INFORMATION:

Background

The Endangered Species Act of 1973 (16 U.S.C. 1531, *et seq.*), as amended, requires the Service to conduct a review of all listed species at least once every 5 years. The purpose of this action is to ensure that the listing accurately reflects the most current status of the listed species. In order to aid in discharging this responsibility, the Service requested in the **Federal Register** of December 8, 1983 (48 FR 55102), comments and appropriate data that might document the need to delist or reclassify any of the species of endangered or threatened wildlife and plants listed in 1978. The Service requested all comments be submitted by April 6, 1984, in order to be considered in this review. The Service actively sought comments from recovery teams, applicable State conservation agencies, individuals known to be concerned with particular species, and other groups and individuals who might shed light on the current status of those species in this review. In addition, the Service searched its own files and requested data from Service biologists that might also help in this review.

The Service has reviewed all the pertinent material available on each species and finds that there are no substantial data to suggest a change in status for any of the 39 species. All such data support the present status for those species. However, it is possible that at some point before the next 5-year review for these species that data may become available that would suggest the Service propose the reclassification or even delisting of one or more species.

The Service has conducted four previous 5-year reviews (e.g., review of species listed in 1976, 1977, etc.). A few species have either been delisted or reclassified as a result, at least in part, of these 5-year reviews. This is the first summary of the results of any 5-year review to be published; summaries will be published of future 5-year reviews in order to better inform the public of the outcome of the reviews.

Author

The primary author of this notice is Jay M. Sheppard, Office of Endangered Species, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (703/235–1975).

Authority

The authority for this action is the Endangered Species Act (16 U.S.C. 1531 *et seq.*; Pub. L. 93–205, 87 Stat. 884; Pub. L. 94–359, 90 Stat. 911; Pub. L. 95–632, 92 Stat. 3751; Pub. L. 96–159, 93 Stat. 1225; Pub. L. 97–304, 96 Stat. 1411).

Wolf, gray (*Canis lupus*)

Birds:

Eagle, bald (*Haliaeetus leucocephalus*)

Reptiles:

Boa, Mona (*Epicrates monensis monensis*)
Iguana, Mona ground (*Cyclura stejnegeri*)
Rattlesnake, New Mexican (*Crotalus willardi obscurus*)
Snake, eastern indigo (*Drymarchon corais couperi*)
Turtle, green sea (*Chelonia mydas*)
Turtle, loggerhead sea (*Caretta caretta*)
Turtle, Olive (Pacific) Ridley sea (*Lepidochelys olivacea*)

Fishes:

Darter, leopard (*Percina pantherina*)
Trout, greenback cutthroat (*Salmo clarki stomias*)
Trout, little kern golden (*Salmo aquabonita whitei*)

Snails:

Snail, Chittenango ovate amber (*Succinea chittenangoensis*)
Snail, flat-spired three-toothed (*Triodopsis platysayoides*)
Snail, Iowa Pleistocene (*Discus macclintocki*)
Snail, noonday (*Mesodon clarki nantahala*)
Snail, painted snake coiled forest (*Anguispira picta*)
Snail, Stock Island (*Orthalicus reses*)
Snail, Virginia fringed mountain (*Polygyriscus virginianus*)

Crustaceans:

Isopod, Socorro (*Thermosphaeroma* [=*Exosphaeroma*] *thermophilus*)

List of Plants Reviewed in 50 CFR 17.12

Betulaceae—Birch family:

Betula uber (Virginia round-leaf birch)

Brassicaceae—Mustard family:

Arabis mcdonaldiana (McDonald's rock-cress)
Erysimum capitatum var. *angustatum* (Contra Costa wallflower)

Crassulaceae—Stonecrop family:

Dudleya traskiae (Santa Barbara Island liveforever)

Fabaceae—Pea family:

Astragalus perianus (Rydberg milk-vetch)
Baptisia arachnifera (Hairy rattleweed)
Vicia menziesii (Hawaiian vetch)

Hydrophyllaceae—Waterleaf family:

Phacelia argillacea (Clay-loving phacelia)

Lamiaceae—Mint family:

Pogogyne abramsii (San Diego mesa mint)

Liliaceae—Lily family:

Trillium persistens (Persistent trillium)

Onagraceae—Evening-primrose family:

Oenothera avita ssp. *eurekensis* (Eureka Valley evening-primrose)
Oenothera deltoides ssp. *howellii* (Antioch Dunes evening-primrose)

Poaceae—Grass family:

Tuctoria mucronata (=*Orcuttia m.*) (Solano grass)
Swallenia alexandrae (Eureka Dune grass)
Zizania texana (Texas wild-rice)

Ranunculaceae—Buttercup family:

Aconitum noveboracense (Northern wild monkshood)

Scrophulariaceae—Snapdragon family:

Cordylanthus maritimus spp. *maritimus* (Salt marsh bird's beak)
Pedicularis furbishiae (Furbish lousewort)

Dated: June 28, 1985.

J. Craig Potter,

Acting Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310–55–M

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; 5-Year Review for Species Listed Before 1976 and in 1979 and 1980

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of review.

SUMMARY: The Endangered Species Act of 1973, as amended, requires the Service to conduct a review of all species listed as endangered or threatened at least once every 5 years. The purpose of this action is to ensure that the list accurately reflects the most current status of the species. The Service requests comments and appropriate data that might document the need to delist or reclassify any of the species of wildlife and plants in the table below. If, as a result of this review, the present classification of these species as endangered or threatened is not consistent with the current evidence, the Service may propose changes accordingly.

DATES: In order to be considered in this review, comments must be received no later than November 19, 1985.

ADDRESSES: Each species in the table below has a U.S. Fish and Wildlife Service office (USFWS) identified for receipt of comments:

1. Regional Director, Region 1 (ARD/FA), USFWS, Lloyd 500 Building, Suite 1692, 500 N.E. Multnomah Street, Portland, Oregon 97232.
2. Regional Director, Region 2 (ARD/AFF), USFWS, 500 Gold Avenue, SW., P.O. Box 1306, Albuquerque, New Mexico 87103.
3. Regional Director, Region 3 (ARD/AFF), USFWS, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.
4. Regional Director, Region 4 (ARD/FA), USFWS, Richard B. Russell Federal Building, 75 Spring Street, SW., Atlanta, Georgia 30303.
5. Regional Director, Region 5 (ARD/FA), USFWS, One Gateway Center, Suite 700, Newton Corner, Massachusetts 02158.
6. Regional Director, Region 6 (ARD/FA), USFWS, 134 Union Boulevard, P.O. Box 25486, Denver Federal Center, Denver, Colorado 80225.
7. Regional Director, Region 7 (ARD/FA), USFWS, 1101 E. Tudor Road, Anchorage, Alaska 99503.
8. Associate Director—Federal Assistance, Room 3024, USFWS, Department of the Interior, Washington, D.C. 20240.

Comments and materials sent in response to this notice of review will be available for public inspection at the appropriate office (see addresses above and the table of species below) by appointment during normal business hours.

FOR FURTHER INFORMATION CONTACT: Mr. John L. Spinks, Jr., Chief, Office of Endangered Species, 5th Floor Broyhill, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240 (703/235–2771).

SUPPLEMENTARY INFORMATION:

Background

The Lists of Endangered and Threatened Wildlife and Plants are found in 50 CFR 17.11 (wildlife) and 50 CFR 17.12 (plants). The most recent publication of such lists was in the Code of Federal Regulations of October 1, 1984. The procedural rules for listing, reclassifying, or removing species from the lists are codified at 50 CFR Part 424. The Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*), as amended, and 50 CFR 424.21 require the Service to conduct a review of each listed species at least once every 5 years. Species that are to be considered under the present review are species listed during 1979 or 1980 or before 1976 and are listed in the table below. Species subsequently affected by rules reclassifying all or significant parts of their populations are not included in this notice.

Definitions

The following definitions are provided to assist those persons who contemplate submitting information regarding the status of the species given in the table below:

1. "Critical Habitat" means (i) the specific areas within the geographical area occupied by a species, at the time it is listed in accordance with the Act, on which are found those physical or biological features (I) essential to the conservation of the species and (II) which may require special management considerations or protection, and (ii) specific areas outside the geographical area occupied by a species at the time it is listed, upon a determination that such areas are essential for the conservation of the species.
2. "Endangered" means any species which is in danger of extinction throughout all or a significant portion of its range.
3. "Species" includes any species or subspecies of fish or wildlife or plant, and any distinct population segment of any species or subspecies of a vertebrate, which is capable of interbreeding when mature.
4. "Threatened" means any species which is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range.

A species is determined to be endangered or threatened because of any of the following factors (§ 424.11(c)):

(a) The present or threatened destruction, modification, or curtailment of its habitat or range;
(b) Overutilization for commercial, recreational, scientific, or educational purposes;
(c) Disease or predation;
(d) The inadequacy of existing regulatory mechanisms; or
(e) Other natural or manmade factors affecting its continued existence.

The factors considered when removing a species from the lists are also those in the paragraph above. The data to support such removal must be the best scientific and commercial data available to the Service to substantiate that the species is neither endangered nor threatened for one or more of the following reasons:

1. *Extinction.* Unless all individuals of the listed species had been previously identified and located and were later found to be extirpated from their previous range, a sufficient period of time must be allowed before delisting to clearly ensure that the species is in fact extinct.
2. *Recovery of the species.* The principal goal of the Service is to return listed species to a point at which protection under the Act is no longer required. A species may be delisted on the basis of recovery only if the best scientific and commercial data available indicate that it is no longer endangered or threatened.
3. *Original data for classification in error.* Subsequent investigations may show that the best scientific or commercial data available when the species was listed, or the interpretation of such data, were in error.

Effects of the Review

If substantial evidence is available to the Service or is presented by any party

for one or more species in the table

from the public, other governmental

pertinent publications, or copies of

LIST OF SPECIES UNDER REVIEW—Continued

VOL 50 ISS 140 JL 22 1985 UMI

for one or more species in the table below, the Service may propose new rules that could do any of the following: (a) Reclassify a species from endangered to threatened, (b) reclassify a species from threatened to endangered, or (c) remove a species from the Lists of Endangered and Threatened Wildlife and Plants. Distinct geographic populations of vertebrate species as well as subspecies of all species may be proposed for either separate reclassification or for removal from the lists. If no substantial data are available or presented to suggest a status change for a particular species, then the next formal status review for that species will be announced no later than 5 years hence. However, the Service continuously reviews the status of listed species, and reclassifications and delistings are initiated whenever data shows they are appropriate.

Public Comments Solicited

The Service requests comments concerning the status of any of the species in the table below. Comments from the public, other governmental agencies, the scientific community, industry, or any other interested party are hereby solicited. The original proposed and final rules (see "When Listed" citation in table below) for each species may be used to determine what data formed the basis for the original classification. The Service primarily seeks any new or additional information that reflects the necessity of a change in status. If significant data are available warranting a change in a species' classification under the Act, the Service may propose a rule to modify the present status of the species. Comments and data are requested regarding past and present numbers and distribution of the involved species, subspecies, or distinct vertebrate population; the particular threatening factors affecting the species; and, if appropriate, the features and importance of any critical habitat. This information should preferably be supported by documentation, such as maps, a list of bibliographic references, reprints or pertinent publications, or copies of written reports or letters from authorities.

Author

The primary author of this notice is Jay M. Sheppard, Office of Endangered Species, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240 (703/235-1975).

Authority

The authority for this action is the Endangered Species Act (16 U.S.C. 1531 *et seq.*; Pub. L. 93-205, 87 Stat. 884; Pub. L. 94-359, 90 Stat. 911; Pub. L. 95-632, 92 Stat. 3751; Pub. L. 96-159, 93 Stat. 1255; Pub. L. 97-304; 96 Stat. 1411).

List of Subjects in 50 CFR Part 17

Endangered and threatened wildlife, Fish, Marine mammals, Plants (agriculture).

Dated: June 28, 1985.

Wallaby, Parma	*Macropus parma*	do	do	E	4	8
Wallaby, Western hare	*Lagorchestes hirsutus*	do	do	E	4	8
Wallaby, yellow-footed rock	*Petrogale xanthopus*	do	do	E	6	8
Wolf, maned	*Chrysocyon brachyurus*	Argentina, Bolivia, Brazil, Paraguay, Uruguay.	do	E	4	8
Wolf, red	*Canis rufus*	U.S.A. (southeastern U.S.A. west to central TX).	do	E	1	2
Wombat, hairy-nosed (=Barnard's and Queensland hairy-nosed).	*Lasiorhinus krefftii* (formerly *L. barnardi* and *L. gillespiei*).	Australia	do	E	4, 6	8
Yak, wild	*Bos grunniens*	China (Tibet), India	do	E	3	8
Zebra, Grevy's	*Equus grevyi*	Kenya, Ethiopia, Somalia	do	T	54	8
BIRDS						
Akepa, Hawaii (honeycreeper)	*Loxops coccineus coccineus*	U.S.A. (Hawaii)	do	E	2	1
Akepa, Maui (honeycreeper)	*Loxops coccineus ochraceus*	do	do	E	2	1
Akialoa, Kauai (honeycreeper)	*Hemignathus procerus*	do	do	E	1	1
Akiapolaau (honeycreeper)	*Hemignathus munroi* (=*wilsoni*)	do	do	E	1	1
Albatross, short-tailed	*Diomedea albatrus*	North Pacific Ocean: Japan, U.S.S.R., U.S.A. (AK, CA, HI, OR, WA).	Entire, except U.S.A.	E	3	8
Bobwhite, masked (quail)	*Colinus virginianus ridgwayi*	U.S.A. (Arizona), Mexico (Sonora)	Entire	E	1, 3	2
Bristlebird, western	*Dasyornis brachypterus longirostris*	Australia	do	E	3	8
Bulbul, Mauritius olivaceous	*Hypsipetes borbonicus olivaceus*	Indian Ocean: Mauritius	do	E	3	8
Bullfinch, Sao Miguel (finch)	*Pyrrhula pyrrhula murina*	Eastern Atlantic Ocean: Azores	do	E	3	8
Bushwren, New Zealand	*Xenicus longipes*	New Zealand	do	E	3	8
Bustard, great Indian	*Choriotis nigriceps*	India, Pakistan	do	E	3	8
Cahow (=Bermuda Petrel)	*Pterodroma cahow*	North Atlantic Ocean: Bermuda	do	E	3	8
Condor, Andean	*Vultur gryphus*	Colombia to Chile and Argentina	do	E	4	8
Condor, California	*Gymnogyps californianus*	U.S.A. (OR, CA), Mexico (Baja California)	do	E	1	1
Coot, Hawaiian (=Alae keo keo)	*Fulica americana alai*	U.S.A. (Hawaii)	do	E	2	1
Crane, hooded	*Grus monacha*	Japan, U.S.S.R	do	E	4	8
Crane, Japanese	*Grus japonensis*	China, Japan, Korea, U.S.S.R	do	E	3	8
Crane, Mississippi sandhill	*Grus canadensis pulla*	U.S.A. (Mississippi)	do	E	6	4
Crane, Siberian white	*Grus leucogeranus*	U.S.S.R. (Siberia) to India, including Iran and China.	do	E	4	8
Crane, whooping	*Grus americana*	Canada, U.S.A. (Rocky Mountains east to Carolinas), Mexico.	do	E	1, 3	2
Creeper, Hawaii	*Oreomystis* (=*Loxops*) *mana*	U.S.A. (Hawaii)	do	E	10	1
Creeper, Molokai (=Kakawahie)	*Oreomystis* (=*Loxops*) *flammea*	do	do	E	2	1
Creeper, Oahu (=alauwahio)	*Oreomystis* (=*Loxops*) *maculata*	do	do	E	2	1
Crow, Hawaiian (='alala)	*Corvus hawaiiensis* (=*tropicus*)	do	do	E	1	1
Cuckoo-shrike, Mauritius	*Coquus* (=*Coracina*) *typicus*	Indian Ocean: Mauritius	do	E	3	8
Cuckoo-shrike, Reunion	*Coquus* (=*Coracina*) *newtoni*	Indian Ocean: Reunion	do	E	3	8
Curassow, red-billed	*Crax blumenbachii*	Brazil	do	E	4	8
Curassow, Trinidad white-headed	*Pipile pipile pipile*	West Indies: Trinidad	do	E	3	8
Curlew, Eskimo	*Numenius borealis*	Alaska and northern Canada to Argentina	do	E	1, 3	7
Dove, cloven-feathered	*Drepanoptila holosericea*	Southwest Pacific Ocean: New Caledonia	do	E	3	8

Species		Historic range	Vertebrate population where endangered or threatened	Status	When listed	Office receiving comment
Common name	Scientific name					
Pigeon, Chatham Island	*Hemiphaga novaeseelandiae chathamensis*	New Zealand	do	E	3	8
Pigeon, Puerto Rican plain	*Columba inornata wetmorei*	U.S.A. (Puerto Rico)	do	E	2	4
Plover, New Zealand shore	*Thinornis novaeseelandiae*	New Zealand	do	E	3	8
Po'ouli (honeycreaper)	*Melamprosops phaeosoma*	U.S.A. (Hawaii)	do	E	10	1
Prairie-chicken, Attwater's greater	*Tympanuchus cupido attwateri*	U.S.A. (Texas)	do	E	1	2
Rail, Auklend Island	*Rallus pectoralis muelleri*	New Zealand	do	E	3	8
Rail, California clapper	*Rallus longirostris obsoletus*	U.S.A. (California)	do	E	2	1
Rail, light-footed clapper	*Rallus longirostris levipes*	U.S.A. (CA), Mexico (Baja California)	do	E	2	1
Rail, Yuma clapper	*Rallus longirostris yumanensis*	Mexico, U.S.A. (AZ, CA)	do	E	1	2
Rhea, Darwin's	*Pterocnemia pennata*	Argentina, Bolivia, Peru, Uruguay	do	E	3	8
Robin, Chatham Island	*Petroica traversi*	New Zealand	do	E	3	8
Robin, scarlet-breasted (flycatcher)	*Petroica multicolor multicolor*	Australia (Norfolk Island)	do	E	3	8
Rockfowl, grey-necked	*Picathartes oreas*	Cameroon, Gabon	do	E	3	8
Rockfowl, white-necked	*Picathartes gymnocephalus*	Africa: Togo to Sierra Leone	do	E	3	8
Roller, long-tailed ground	*Uratelornis chimaera*	Malagasy Republic (=Madagascar)	do	E	3	8
Scrub-bird, noisy	*Atrichornis clamosus*	Australia	do	E	3	8
Shama, Cebu black (thrush)	*Copsychus niger cebuanus*	Philippines	do	E	3	8
Shearwater, Newell's (Townsend's, formerly Manx) (='A'o).	*Puffinus auricularis* (formerly *puffinus*) *newelli*.	U.S.A. (Hawaii)	do	T	10	1
Sparrow, Cape Sable seaside	*Ammospiza maritima mirabilis*	U.S.A. (Florida)	do	E	1	4
Sparrow, dusky seaside	*Ammospiza maritima nigrescens*	do	do	E	1	4
Starling, Ponape mountain	*Aplonis pelzelni*	West Pacific Ocean: U.S.A. (Caroline Island).	do	E	3	1
Starling, Rothschild's (myna)	*Leucopsar rothschildi*	Indonesia (Bali)	do	E	3	8
Stilt, Hawaiian (=Ae'o)	*Himantopus himantopus knudseni*	U.S.A. (Hawaii)	do	E	2	1
Stork, oriental white	*Ciconia ciconia boyciana*	China, Japan, Korea, U.S.S.R	do	E	3	8
Tern, California least	*Sterna antillarum* (=*albifrons*) *browni*	Mexico, U.S.A. (CA)	do	E	2, 3	1
Thrasher, white-breasted	*Ramphocinclus brachyurus*	West Indies: St. Lucia, Martinique	do	E	3	8
Thrush, large Kauai	*Phaeornis obscurus myadestina*	U.S.A. (Hawaii)	do	E	2	1
Thrush, Molokai (=oloma'o)	*Phaeornis obscurus rutha*	do	do	E	2	1
Thrush, New Zealand (wattlebird)	*Turnagra capensis*	New Zealand	do	E	3	8
Thrush, small Kauai (=puaiohi)	*Phaeornis palmeri*	U.S.A. (Hawaii)	do	E	1	1
Trembler, Martinique brown (thrasher)	*Cinclocerthia ruficauda gutturalis*	West Indies: Martinique	do	E	3	8
Wanderer, plain (collared-hemipode)	*Pedionomus torquatus*	Australia	do	E	8	8
Warbler (willow), reed	*Acrocephalus luscinia*	Western Pacific Ocean: U.S.A. (Mariana Islands).	do	E	3	1
Warbler (willow), Rodriques	*Bebrornis rodericanus*	Mauritius (Rodrigues Islands)	do	E	3	8
Warbler (willow), Seychelles	*Bebrornis sechellensis*	Indian Ocean: Seychelles Island	do	E	3	8
Warbler (wood), Bachman's	*Vermivora bachmanii*	U.S.A. (southeastern), Cuba	do	E	1, 3	4
Warbler (wood), Barbados yellow	*Dendroica petechia petechia*	West Indies: Barbados	do	E	3	8
Warbler (wood), Kirtland's	*Dendroica kirtlandii*	U.S.A. (principally MI), Canada, West Indies: Bahama Islands.	do	E	1, 3	3
Warbler (wood), Semper's	*Leucopeza semperi*	West Indies: St. Lucia	do	E	3	8
Whipbird, Western	*Psophodes nigrogularis*	Australia	do	E	3	8
Whip-poor-will, Puerto Rican	*Caprimulgus noctitherus*	U.S.A. (Puerto Rico)	do	E	6	4
White-eye, Ponape great	*Rukia longirostra* (=*sanfordi*)	West Pacific Ocean: U.S.A. (Caroline Islands).	do	E	3	1
White-eye, Seychelles	*Zosterops modesta*	Indian Ocean: Seychelles	do	E	3	8
Woodpecker, imperial	*Campephilus imperialis*	Mexico	do	E	3	8
Woodpecker, red-cockaded	*Picoides* (=*Dendrocopos*) *borealis*	U.S.A. (southcentral and southeastern)	do	E	2	4
Woodpecker, Tristam's	*Dryocopus javensis richardsi*	Korea	do	E	3	8
Wren, Guadeloupe house	*Troglodytes aedon guadeloupensis*	West Indies: Guadeloupe	do	E	3	8
Wren, St. Lucia house	*Troglodytes aedon mesoleucus*	West Indies: St. Lucia	do	E	3	8
REPTILES						
Boa, Jamaican	*Epicrates subflavus*	Jamaica	do	E	3	8
Boa, Puerto Rico	*Epicrates inornatus*	U.S.A. (PR)	do	E	2	4
Boa, Round Island [no common name]	*Bolyeria multocarinata*	Indian Ocean: Mauritius	do	E	86	8
Boa, Round Island [no common name]	*Casarea dussumieri*	do	do	E	86	8
Boa, Virgin Islands tree	*Epicrates monensis granti*	U.S. and British Virgin Islands	do	E	2, 86	4
Caiman, Yacare	*Caiman crocodilus yacare*	Bolivia, Argentina, Peru, Brazil	do	E	3	8
Chuckwalla, San Esteban Island	*Sauromalus varius*	Mexico	do	E	86	8
Crocodile, African slender-snouted	*Crocodylus cataphractus*	Western and central Africa	do	E	5	8
Crocodile, American	*Crocodylus acutus*	U.S.A. (FL), Mexico, South America, Central America, Caribbean.	do	E	10, 67	8
Crocodile, Cuban	*Crocodylus rhombifer*	Cuba	do	E	3	8
Crocodile, Morelet's	*Crocodylus moreletii*	Mexico, Belize, Guatemala	do	E	3	8
Crocodile, Nile	*Crocodylus niloticus*	Africa	do	E	3	8
Crocodile, Orinoco	*Crocodylus intermedius*	South America: Orinoco River Basin	do	E	3	8
Crocodile, saltwater (=estuarine)	*Crocodylus porosus*	Southeast Asia, Australia, Papua-New Guinea, Pacific Islands.	Entire, except Papua-New Guinea.	E	67	8
Gecko, day	*Phelsuma edwardnewtoni*	Indian Ocean: Mauritius	Entire	E	3	8
Gecko, Round Island day	*Phelsuma guentheri*	do	do	E	3	8
Iguana, Anegada ground	*Cyclura pinguis*	West Indies: British Virgin Islands (Anegada Island).	do	E	3	8
Iguana, Barrington land	*Conolophus pallidus*	Ecuador (Galapegos Island)	do	E	3	8
Iguana, Fiji banded	*Brachylophus fasciatus*	Pacific: Fiji, Tonga	do	E	86	8
Iguana, Fiji crested	*Brachylophus vitiensis*	Pacific: Fiji	do	E	86	8
Lizard, blunt-nosed leopard	*Gambelia* (=*Crotaphytus*) *silus*	U.S.A. (CA)	do	E	1	1
Lizard, Coachella Valley fringe-toed	*Uma inornata*	do	do	T	105	1
Snake, San Francisco garter	*Thamnophis sirtalis tetrataenia*	do	do	E	1	1
Tartaruga	*Podocnemis expansa*	South America: Orinoco and Amazon River basins.	do	E	3	8
Terrapin, river (=Tuntong)	*Batagur baska*	Malaysia, Bangladesh, Burma, India, Indonesia.	do	E	3	8
Tortoise, Bolson	*Gopherus flavomarginatus*	Mexico	do	E	46	8
Tortoise, desert	*Scaptochelys* (=*Gopherus*) *agassizii*	U.S.A. (UT, AZ, CA, NV); Mexico	Beaver Dam Slope, Utah.	T	103	6

[Docket No. 85-06; Notice 1]

Passenger Automobile Average Fuel Economy Standards; Model Year 1986; Notice of Proposed Rulemaking and Public Meeting

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of proposed rulemaking and public meeting.

SUMMARY: This notice proposes that the passenger automobile average fuel economy standard for model year 1986 be established at 26 miles per gallon. It also announces a public meeting to be held on the proposal.

DATES: Comments must be received by September 20, 1985. The public meeting will be held on August 20, 1985, beginning at 9:30 a.m.

ADDRESSES: Comments should refer to the docket number and be submitted (in 10 copies) to the Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, SW., Washington, DC 20590. The public meeting will be held in Room 2230 of the Department of Transportation Building, 400 Seventh Street, SW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Orron P. Kee, Office of Market Incentives, NRM-12, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590, (202) 426-1740.

SUPPLEMENTARY INFORMATION: Section 502(a)(3) of the Motor Vehicle Information and Cost Savings Act, as amended by the Motor Vehicle and Schoolbus Safety Amendments of 1974 (15 U.S.C. 2002(a)(3)), required that the standards for each of model years 1981–84. [Docket No. FE-85-01; Notice 2]

Passenger Automobile Average Fuel Economy Standards; Model Year 1986

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking (NPRM); Notice of public meeting.

SUMMARY: This notice proposes to amend the average fuel economy standard applicable to passenger automobiles manufactured in model year (MY) 1986 and invites written and oral comments concerning the proposed action. This notice also announces the time and location of the public meeting to receive the oral comments. In March 1985, both General Motors (GM) and Ford submitted petitions for rulemaking requesting that NHTSA reduce the automotive fuel economy standards for passenger cars for the 1986 model year and beyond from 27.5 mpg to 26.0 mpg. The petitioners stated that factors beyond their control, including lower gasoline prices and resultant greater consumer demand for larger cars and engines, had reduced the maximum feasible average fuel economy level. Based on a detailed agency analysis, NHTSA is proposing to amend the MY 1986 standard to 26.0 mpg. Due to the fact that the agency needs more time to complete its analysis of the data for MY 1987 and subsequent years, the agency will not consider petitions for those years at this time. The agency currently anticipates issuing a notice simultaneously with its announcement of a final decision for model year 1986 or shortly thereafter, proposing a range of alternatives for passenger car standards for model year 1987 and subsequent years.

DATES: *Public Comments:* Written comments on this notice must be received on or before August 21, 1985.

Public Meeting: A public meeting to receive oral comments will be held on August 8–9, 1985, in Washington, D.C. The agency at this time intends to limit the meeting to two days, from 9:00 a.m. to 12:00 noon and 2:00 p.m. to 5:00 p.m.

Effective Date: The proposed amendment would be effective for the 1986 model year.

ADDRESSES: *Public Comments:* Written comments on this notice must refer to the docket and notice numbers set forth above and be submitted (preferably in 10 copies) to the Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, S.W., Washington, D.C. 20590. The Docket is open 8 a.m. to 4 p.m., Monday through Friday. Submissions containing information for which confidential treatment is requested should be submitted (in 3 copies) to Chief Counsel, National Highway Traffic Safety Administration, Room 5219, 400 Seventh Street, S.W., Washington, D.C. 20590, and 7 additional copies from which the purportedly confidential information has been deleted should be sent to the Docket Section.

Public Meeting: The meeting will be held at the following location: Federal Aviation Administration Auditorium, 800 Independence Avenue, S.W., Washington, D.C. 20591.

This facility is accessible to the handicapped.

FOR FURTHER INFORMATION CONTACT: All questions concerning the public meeting should be directed to: Ms. Viola Walsh, Office of Public and Consumer Affairs, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, D.C. 20590 (202–426–0670). All other questions should be directed to: Mr. William Boehly, Office of Market Incentives, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202–426–1740).

SUPPLEMENTARY INFORMATION:

Background

A. The Energy Policy and Conservation Act

1. Overview

In December 1975, during the aftermath of the energy crisis created by the oil embargo of 1973–74, the Congress enacted the Energy Policy and Conservation Act. Based on the relatively low average fuel economy of cars at that time (14 mpg for model year 1974 cars) and on a report by the Department of Transportation on the potential for improving that average, Congress included a provision in that Act establishing the automotive fuel economy regulatory program. That provision added a new title, Title V, "Improving Automotive Efficiency," to the Motor Vehicle Information and Cost Savings Act.

Title V specified corporate average fuel economy (CAFE) standards for cars of 18, 19 and 20 mpg for model years 1978, 1979, and 1980, respectively, and 27.5 mpg for 1985 and thereafter. The Secretary of Transportation was required to establish standards for model years 1981–84. Section 502(a)(3) required that the standards for each of those model years be set at a level which (1) was the maximum feasible average fuel economy level and (2) would result in steady progress toward meeting the 27.5 mpg standard for model year 1985.

Although Congress clearly established the 27.5 mpg value as a goal to strive for (27.5 mpg is roughly twice the MY 1974 estimated CAFE), it recognized that such long-term goals are subject to considerable uncertainty. As a means of adjusting the standards based on up-to-date information and changing trends and assumptions, the Act permits the standard to be changed by the Department. Section 502(a)(4) provides that the Secretary of Transportation can raise or lower the 27.5 mpg standard for model year 1985 or for any subsequent model year if he or she determines that some other standard represents the maximum feasible average fuel economy level. In determining maximum feasible average fuel economy, the Secretary is required under section 502(e) of the Act to consider four factors: technological feasibility, economic practicability, the effect of other Federal motor vehicle standards on fuel economy, and the need of the nation to conserve energy.[1]

Title V specifies several special rules regarding compliance with the fuel economy standards. In an attempt to prevent the fuel economy program from inducing domestic manufacturers to increase their importation of foreign produced cars, Title V requires manufacturers to meet average fuel economy standards separately for their domestically manufactured and imported fleets. See section 503. Also, the Act does not require absolute compliance with the standard for each year. Instead, it allows a shortfall in one year to be offset if a manufacturer exceeds the standard for another year. Under the Act, as amended by the Automobile Fuel Efficiency Act of 1980, manufacturers earn credits for exceeding average fuel economy standards which may be carried back for three model years or carried forward for three model years. See section 502(1). In order to use carryback credits in advance of their actually being earned, manufacturers must submit a plan demonstrating that the credits will be earned. Such plans are subject to DOT approval.

[1] Responsibility for the automotive fuel economy program was delegated by the Secretary of Transportation to the Administrator of NHTSA (41 FR 25015, June 22, 1976).

Under section 507 of the Act, it is unlawful conduct for a manufacturer not to meet an average fuel economy standard. Compliance is determined after taking into consideration available credits. The penalty for such unlawful conduct is payment of civil penalties, computed at $5 per each tenth of a mile a manufacturer falls below the standard, multiplied by its production volume for the year in question.

2. Congressional Intent

While the Congress established a goal of 27.5 mpg, it also provided the necessary flexibility to the Department to adjust the standards, upwards or downwards, to the maximum feasible level.

The report accompanying H.R. 7014, the bill containing the House version of the fuel economy provisions (which would have specified a 28.0 mpg standard for 1985 and thereafter), stated that "the automobile industry has a central role in our national economy and that any regulatory program must be carefully drafted so as to require of the industry what is attainable without either imposing impossible burdens on it or unduly limiting consumer choice as to capacity and performance of motor vehicles." H.R. Rep. No. 94-340, 94th Cong., 1st Sess. 87 (1975). As another indication of congressional view of the need for flexibility, the report recognized the difficulty in establishing goals ten years in the future by stating that "(t)he 1985 average fuel economy standard presented a different problem [than establishing standards for MY's 1978–80] because of the high level of uncertainty which attends any attempt to predict technological feasibility a decade into the future." Id. at 88. The Committee also stated that although the 1985 standard was a "clear target," it also provided DOT the ability to amend that target so as to provide the program "with the necessary flexibility." Ibid.

Congress thus recognized that the ability of the industry to meet the 27.5 mpg standard was subject to uncertainty and that the standard might have to be changed. It is noteworthy that the Secretary was given authority to lower the standard for MY 1985 or for any subsequent year to 26.0 mpg without such action being subject to a one-house veto. Conversely, any action to raise the standard above 27.5 mpg or to lower it beyond 26.0 mpg was subject to that form of congressional review and disapproval. While such legislative vetoes have since been declared unconstitutional, the separate treatment in the original legislation of action to lower the standard to any level between 26.0 mpg and 27.5 mpg appears to reflect Congress' view of the likelihood of such events and its willingness to accept—without formal review—Departmental actions which might make slight changes in the long-term goal established by the Act.[2]

B. Setting the 1981–84 Standards

On June 30, 1977, NHTSA published in the **Federal Register** (42 FR 33534) a final rule establishing the 1981–84 passenger automobile CAFE standards. The selected standards were 22 mpg for 1981, 24 mpg for 1982, 26 mpg for 1983, and 27 mpg for 1984.

As part of establishing the 1981–84 standards, the agency developed estimates of the maximum feasible fuel economy for each manufacturer for model years 1981 through 1985. The agency's conclusion at the time was that "levels of average fuel economy in excess of 27.5 mpg are achievable in the 1985 time frame." 42 FR 33552. The agency believed that it was feasible for General Motors to achieve an average fuel economy level of 28.9 mpg in model year 1985, Ford 27.9 mpg, and Chrysler 28.7 mpg. 1977 Rulemaking Support Paper (RSP), p. 5-38 (Table 5.11). Those levels were based on a number of assumptions, including the ability of manufacturers to maintain a rapid rate of introduction of technology, consumer acceptance of a 10 percent reduction in vehicle acceleration, and significant use of a widespread range of technological options, including weight reduction, improved transmissions and lubricants, reduced aerodynamic drag, reduced accessory losses, and reduced tire rolling resistance.

The agency's estimates did not assume a downward mix shift in automobile sizes or the use of diesel engines. The agency concluded that a standard set at a level that required substantial mix shifts would not be economically practicable due to the risk that a significant number of consumers might defer purchasing new automobiles, resulting in a substantial sales drop. However, these techniques were viewed in the 1977 rule as "constituting a safety margin" for manufacturers in the event that other technological improvements did not result in sufficient CAFE improvements. 42 FR 33545, June 30, 1977.

As to foreign manufacturers, the 1977 RSP projected that all but three of them could improve their average fuel economy levels, without expanded use of diesel engines, sufficiently to meet the 27.5 mpg standard. With fleet fuel economy improvements from additional diesels included in the foreign fleet projections, only one manufacturer, Mercedes-Benz, was projected to fall below the 1985 standard.

It should be emphasized that the agency's 1977 estimates were intended to demonstrate the feasibility of achieving the 27.5 mpg standard and not to predict what specific actions the manufacturers would actually take to achieve that standard. The agency's estimates were based on one scenario of what the agency believed manufacturers could do to achieve an average fuel economy level of 27.5 mpg by 1985. Manufacturers were free to pursue other courses of action to achieve the 27.5 mpg fuel economy level.

Subsequent to the issuance of the June 1977 final rule, the domestic manufacturers all indicated they expected to comply with the requirements.

C. Events From 1977 to 1985

In January 1979, NHTSA presented new feasibility estimates for each manufacturer for model years 1980 through 1985 in its Third Annual Report to the Congress on the Automotive Fuel Economy Program (44 FR 5742, January 29, 1979). The agency concluded that "(o)n balance, the conclusions reached during the 1981–84 rulemaking . . . are similar to those resulting from the most recent assessments. These assessments indicate that all domestic manufacturers can exceed the scheduled standards for each year through 1985." 44 FR 5757.

NHTSA recognized in its Third Annual Report that the changes in vehicle design necessary to meet the fuel economy projections would require tremendous outlays of capital. The agency stated:

. . . the important impact of the fuel economy program on the industry relates directly to the fact that the industry must have the resources directly to generate an "extra" $11.5 billion in capital. This ability to make increased investments while maintaining financial health is the criterion which was of prime importance in determining whether the standards are "economically practicable." The Department largely views this criterion to mean that the investment requirements are within the industry's capability but not so

[2] While section 502(a)(4) of the Cost Savings Act permits the Department to establish fuel economy standards for passenger automobiles at levels other than 27.5 mpg for model year 1985 or any subsequent model year, it provided that changes outside the range of 26.0 to 27.5 mpg were subject to a one-house legislative veto. Such vetoes were declared unconstitutional in the Supreme Court's 1983 *Chodha* decision. The Deparment of Justice has advised that the legislative veto provision in section 502(a)(4) is fully separable from the balance of the section. Thus, the Department of Transportation retains its authority to establish fuel economy standards both within and outside the 26.0 to 27.5 mpg range, so long as the standard is at the "maximum feasible" level for the model year in question.

stringent as to threaten economic hardship for the industry as a whole. 44 FR 5765.

NHTSA also recognized that its feasibility estimates were dependent on the continued financial health of the industry and could be subject to change in the event of a severe economic downturn. The agency stated:

DOT also analyzed the degree to which potential anti-competitive pressures would be increased if the economy were to suffer a downturn. Certainly in a severe economic downturn, companies with a weaker financial base will find their resources strained more severely. . . . Thus, if a serious decline in auto sales occurs in conjunction with a severe economic downturn, the Department has the authority to revise the standards since regulations that were "economically practicable" in a healthy economy might not be so in a recession. . . . 44 FR 5772.

The Third Annual Report noted that a number of manufacturers did not agree with the agency's conclusion that "(t)he technology is available that will enable manufacturers to achieve an average fuel economy of 27.5 mpg without reducing vehicle interior space or significantly affecting performance and without significantly changing the mix of size classes." The document stated:

Ford indicated the conclusion is wishful thinking on NHTSA's part. The technology on which Ford's predictions are based are the PROCO and/or diesel engines. They indicated that neither engine is "available" at the present time because of various problems yet to be solved. Ford also said the second round of downsizing will decrease interior volume unless very expensive materials are used and indicated that smaller engines in its vehicles will cause reduced vehicle acceleration.

GM stated that the rise of standards at the rate of two miles-per-gallon per year will cause all manufacturers to introduce unproven technology and that there will be compromises in vehicle acceleration and owner utility. GM stated that much of the available technology is "high risk," and may not be "commercially practicable in production hardware." 44 FR 5775–5776.

Between January and May of 1979, NHTSA received a number of submissions from Ford and General Motors on the 1981–84 fuel economy standards for passenger automobiles asserting that those standards should be reduced. In response to these submissions, the agency published a document entitled "Report on Requests by General Motors and Ford to Reduce Fuel Economy Standards for MY 1981–85 Passenger Automobiles," DOT HS–804 731, June 1979. The report concluded that the standards were technologically feasible and economically practicable and noted that both companies had submitted product plans for meeting the standards. Report, p. 14. The report noted that the product plans submitted by the two companies differed from each other significantly and also differed from the paths projected by NHTSA in its prior rulemaking on standards for MY 1981–84 and in the January 1979 Report to Congress. Report, p. 5.

One year later, the nation was in the midst of another energy crisis, brought on by events in Iran. Gasoline prices were rising rapidly, creating significantly increased consumer demand for small cars. The U.S. city average retail price for unleaded gasoline rose from 90 cents per gallon in 1979 to $1.25 in 1980. (In 1981 dollars, this increase was from $1.24 in 1979 to $1.57 in 1980.) In light of these changed conditions, the industry announced plans to significantly exceed the 27.5 mpg standard for 1985. Both Ford and GM, as well as Chrysler and American Motors, indicated that they expected to achieve average fuel economy in excess of 30 mpg for that model year. Product plans submitted to NHTSA by those companies indicated that the projections assumed significant mix shifts toward smaller cars and rapid introduction of new technology. A letter submitted to the agency by Ford in July 1980, however, cautioned that "it is important to emphasize that the affordability of many of these programs is dependent upon substantial improvement in the market and economic conditions."

On January 26, 1981, NHTSA published an advance notice of proposed rulemaking (ANPRM) in the Federal Register (46 FR 8056) which addressed the issue of passenger automobile fuel economy standards for model year 1985 and beyond. That notice and an accompanying paper entitled "Analysis of Post-1985 Fuel Economy," assumed that manufacturers would achieve their announced average fuel economy goals of over 30 mpg for 1985. The notice also took note, however, of a deepening economic crisis then facing the auto industry and possible effects on financing investments for improving fuel economy. The notice stated:

A major issue is the capability of the domestic manufacturers to finance investments for fuel economy improvements after 1985 when they have strained that capability to make the investments needed to meet the fuel economy standards through model year 1985. It is expected that the combined losses of the domestic manufacturers for 1980 will exceed $4.5 billion. The domestic automobile industry's traditionally more profitable mid and large size passenger automobiles are once again selling poorly, while smaller passenger automobiles are selling at very high volumes. Indefinite layoffs of automobile workers now exceed 175,000, and significant operational cash shortfalls are being projected for the domestic manufacturers in the early 1980's. This will involve substantial borrowing by the domestic manufacturers, whereas they have traditionally used internal sources of funds for capital expenditures. Thus, the pace at which the domestic manufacturers can improve their fuel economy must be closely examined. . . . 46 FR 8058–8059.

On April 16, 1981, NHTSA published in the Federal Register (46 FR 22243) a notice withdrawing the ANPRM. The notice stated that "(t)his action is being taken in recognition of market pressures which are creating strong consumer demand for fuel-efficient vehicles and sending clear signals to the vehicle manufacturers to produce such vehicles. It is expected that the market will continue to act as a powerful catalyst. . . .

Conditions affecting fuel economy changed dramatically after 1981, following decontrol of domestic oil and other external factors increasing available supplies. Gasoline prices did not continue to rise but instead declined over time. This, combined with economic recovery, caused consumer demand to shift back toward larger cars and larger engines. Data submitted to the agency by GM and Ford in mid-1983 indicated that instead of achieving fuel economy well in excess of the 27.5 mpg standard for MY 1985, they would be unable to meet the levels prescribed by the standard.

During the 1977 to 1985 timeframe, NHTSA twice found it necessary to reduce previously set CAFE standards for light trucks, based on changed circumstances. As with passenger car standards, the Motor Vehicle Information and Cost Savings Act requires that light truck standards be set at the maximum feasible average fuel economy level. In June 1979, the agency reduced the 1981 light truck average fuel economy standard. 44 FR 36975 (June 25, 1979). In October 1984, the agency reduced the 1985 light truck average fuel economy standard. 49 FR 41250, October 22, 1984.

Petitions

In March 1985, both GM and Ford submitted petitions for rulemaking requesting that NHTSA reduce the automotive fuel economy standards for passenger cars for the 1986 model year and beyond from 27.5 mpg to 26.0 mpg. The petitioners stated that factors beyond their control, including lower gasoline prices and resultant greater consumer demand for larger cars and engines, had reduced their fuel economy capability. NHTSA granted the GM and Ford petitions in a notice published in the Federal Register (50 FR 12344) on March 28, 1985, and requested public comments. The agency noted that it was already considering, in connection with a petition for rulemaking submitted by the Center for Auto Safety (CFAS) and the Environmental Policy Institute (EPI), whether the fuel economy standards for passenger cars manufactured in model years 1987 and thereafter should be amended. The CFAS/EPI petition had requested that those standards be increased.

NHTSA stated in the March 1985 notice that as a first step in its consideration of the fuel economy standards for passenger cars, it was focusing its attention on the 1986 model year. The agency explained that it believed this approach was appropriate in view of the possibility of serious economic harm cited by GM and Ford and the limited remaining time for amending the 1986 standard. As discussed by the agency in a previous Federal Register notice, amendments reducing a standard for a particular model year may be made until the beginning of the model year, but not after that time. See 49 FR 41254–5 (October 22, 1984).

Due to the fact that the agency needs more time to complete its analysis of the data for MY 1987 and subsequent years, the agency will not consider petitions for those years at this time. The agency currently anticipates issuing a notice simultaneously with its announcement of a final decision for model year 1986 or shortly thereafter, proposing a range of alternatives for model year 1987 and subsequent years.

Public Comments on the Petitions

Comments were received both from parties strongly supporting a reduction in the 1986 passenger car CAFE standard and parties strongly opposing such action. The National Automobile Dealers Association (NADA), the Automobile Importers of America (AIA), several limited-line European automobile manufacturers, the U.S. Department of Commerce, several members of Congress, and various private individuals supported the GM and Ford petitions.

NADA cited increased consumer demand for larger, less fuel-efficient vehicles and stated that the 27.5 mpg CAFE standard forces manufacturers to choose between either unlawful conduct or curtailment of product offerings and/or creation of market disincentives to the purchase of larger, less fuel-efficient passenger cars. According to NADA, either alternative would likely result in serious adverse consequences for affected manufacturers, their franchised dealers, consumers, and the nation's economy in general.

The European manufacturers generally cited the significant progress they have already made in improving fuel economy, increased market demand for larger cars and larger engines, and the difficulty limited-line manufacturers have in achieving higher average fuel economy if they do not produce small cars whose fuel economy can be averaged in with that of their larger cars.

The U.S. Department of Commerce expressed support for reducing the standard based upon its view that achievement of the 27.5 mpg standard for MY 1986 no longer appears to be economically practicable or technologically feasible. That Department stated that it believes GM and Ford can achieve that standard only by reducing their U.S. product offerings and adjusting their output mix, with economically damaging consequences, including substantial sales losses and employment decline.

Both GM and Ford submitted various additional information in support of their petitions, much of it at the request of the agency. Among other things, GM submitted a legal memorandum arguing that NHTSA should take account of the need to generate carryback credits as part of the determination of maximum feasible fuel economy.

Chrysler, Volkswagen, EPI, the New York State Energy Office, several members of Congress, and various private individuals opposed reducing the MY 1986 fuel economy standard. Both Chrysler and Volkswagen raised concerns as to the equity of changing the 1986 standard at this date, arguing that it is unfair to manufacturers which based their corporate plans on the long-established standard.

Chrysler argued that the GM and Ford petitions were untimely filed with respect to MY 1986, given the procedural steps which it contends the agency must work through and the difficulty and importance of the issues presented. Among other things, Chrysler argued that NHTSA must provide a comment period on any proposed rule of at least 60 and preferably 90 days and must wait until after the comment period to hold public hearings.

Chrysler also contended that the record does not warrant a reduction in the standard for MY 1986. According to that company, the issue is not whether the petitioners are currently capable of meeting the 27.5 mpg standard, but instead whether petitioners did everything possible, within the limits of technological feasibility and economic practicability, to meet the 27.5 mpg standard prescribed by Congress. That commenter stated that since Congress provided nearly 10 years to meet the standard, the "maximum feasible" average is the highest level they could have reached if they had done everything reasonably possible over the course of that entire period.

Chrysler raised a number of specific factual issues which it contends the agency must address. These include why GM and Ford are unable to meet the 27.5 mpg standard when Chrysler, a company with far fewer resources, can; why GM and Ford deferred programs to produce fuel-efficient cars; why the petitioners could not have had new, fuel-efficient vehicles planned for the future ready by MY 1986; why GM elected to close plants that build fuel-efficiency cars; why GM and Ford have elected to retain a number of older, fuel-inefficient rear-wheel-drive models that compete with their own newer front-wheel-drive cars; whether petitioners have done everything they can to influence consumer demand in favor of fuel-efficient cars; and why GM, and to a lesser extent Ford, are increasing their imports of cars that will compete with their own fuel-efficient domestic offerings.

Chrysler also expressed concern that a reduction in the standard for MY 1986, even if coupled with a carefully worded disclaimer about future years, would inevitably deter the petitioners from adopting any expensive new measures to improve fuel economy in 1987 and beyond.

Chrysler requested that NHTSA use its authority to place substantially all relevant material, including material subject to a claim of confidentiality, on the public record. According to that commenter, this is necessary in order to provide the public with a meaningful opportunity to comment.

EPI argued that a reduction in the MY 1986 CAFE standard would sanction the failure of certain automobile companies to comply with the Energy Policy and Conservation Act; exacerbate what it contends is a currently diminished focus on energy conservation in the transportation sector; and increase automobile fuel consumption, thereby promoting U.S. dependence on oil imports. That commenter questioned reducing the standard when it is conceivable that Ford and GM, if seizing the opportunity to advance fuel economy improvements, could earn sufficient carryback credits to avoid having to pay penalties for failure to meet one or more existing standards. EPI argued that the question of a commitment to gain these credits in the

future must be addressed and that industry should be willing to exercise

future must be addressed and that industry should be willing to exercise this option or pay the appropriate fines rather than "retreat" from the MY 1985 standard which was established nearly 10 years ago.

The New York State Energy Office argued that reducing the MY 1986 automobile fuel economy standard would result in an "enormous" increase in gasoline consumption, eliminating the gains in fuel economy that have been achieved during recent years.

Agency's Analytical Approach

As discussed above, section 502(a)(4) provides that if NHTSA determines that a level other than 27.5 mpg is the maximum feasible average fuel economy for 1985 or any subsequent model year, the agency may change the standard for that year to that level. If NHTSA were writing on a blank slate and establishing the MY 1986 standard for the first time, it would simply evaluate the average fuel economy levels of the manufacturers and determine what improvements could be made in those levels between now and the end of MY 1986. This would involve taking into account the capabilities of each manufacturer and considering the four factors listed in section 502(e), i.e., technological feasibility, economic practicability, the effect of other Federal motor vehicle standards on fuel economy, and the need of the nation to conserve energy.

The agency agrees with Chrysler, however, that the sole issue is not whether manufacturers are now capable of meeting the 27.5 mpg standard. Since the Cost Savings Act imposed a long-term obligation on manufacturers to achieve a 27.5 mpg fuel economy level, it would be inappropriate to reduce the standard if a current inability to meet the standard simply resulted from manufacturers previously declining to take reasonable steps to improve their average fuel economy as required by the Act. Therefore, the agency must evaluate the manufacturers' effort to achieve higher levels of fuel economy as well as their current capabilities.

On the other hand, the agency does not consider it appropriate to judge manufacturers' efforts by 20–20 hindsight. In assessing the reasonableness of manufacturers' fuel economy efforts, it is necessary to take account of the information available to manufacturers at the time product decisions were being made. Manufacturers had an obligation to take reasonable steps, consistent with the factors of section 502(e), to achieve a fuel economy level of 27.5 mpg. To the extent that manufacturers had reasonable plans to achieve the 27.5 mpg level which subsequently became infeasible due to unforeseen events, NHTSA does not believe the manufacturers should be charged with a failure to act in a reasonable manner.

The agency's analytical approach thus consists of first evaluating the maximum feasible average fuel economy level that manufacturers are now capable of achieving in MY 1986, taking into account the four factors of section 502(e) and second, to the extent that level is determined to be below 27.5 mpg, assessing the reasonableness of manufacturers' fuel economy efforts to meet the 27.5 mpg standard, in light of the information available to manufacturers at the time product decisions were being made and the four factors of section 502(e).

Summary of Agency Analysis

Based on its analysis and in light of the four factors of section 502(e), NHTSA has tentatively concluded that the maximum feasible average fuel economy level for MY 1986 is 26.0 mpg. The agency's analysis indicates that GM and Ford, constituting a substantial part of the industry, have made significant efforts to meet the current standard, and that those efforts have been overtaken by unforeseen events. Based on its analysis, the agency is proposing to reduce the 27.5 mpg CAFE standard for MY 1986 to 26.0 mpg.

Manufacturer Projections for 1986

The starting point in analyzing the GM and Ford petitions for rulemaking is to examine the manufacturers' MY 1986 CAFE projections. While manufacturers have greatly improved their CAFE during the past decade, current projections indicate that the CAFE levels for a number of manufacturers remain below 27.5 mpg.

GM projects its MY 1986 domestic CAFE to be 25.7 mpg,[3] 0.6 mpg higher than the company's projection of 25.1 mpg for MY 1985. This improvement results primarily from a reduction in the average weight of the GM fleet. The weight reduction is due mainly to the introduction of a new front-wheel drive large car (the GM70—replacing the rear-drive Buick LeSabre and Oldsmobile 88 models), the introduction of a lighter mid-size luxury car (the GM30—replacing the E- and K-body models: the Oldsmobile Toronado, Buick Riviera, the Cadillac Eldorado, and the Cadillac Seville) and the introduction of a 4-door version of the GM20 compact. There is an additional fuel economy gain due to the expanded use of 4-speed automatic transmissions. There is also an increase in CAFE because of a slight mix shift toward smaller models. Much of this mix shift is due to an increase in compact sales as a result of the introduction of the 4-door GM20 model, as well as a reduction in the share of GM's mix taken by large car sales.

Several other changes in the characteristics of the GM car fleet have minor, and generally offsetting, effects on the company's projected MY 1986 CAFE. The new models have improved aerodynamics, adding to the company's fuel economy level. This effect is essentially offset by the elimination of diesel engines from all models except the Chevette/1000.

Ford projects its MY 1986 domestic CAFE to be 26.2 mpg, 0.9 mpg higher than the company's projection of 25.3 mpg for MY 1985. The most visible change in Ford's fleet for MY 1986 is the introduction of the Taurus/Sable mid-size model. This new front-wheel drive car is designed to eventually replace the rear-wheel drive LTD/Marquis models. The new model includes new 2.5 liter 4-cylinder and 3.0 liter V–6 engines, as well as a new 4-speed automatic transmission, and is thus more fuel-efficient than the LTD/Marquis.

Between MY 1985 and MY 1986, Ford expects an increase in mid-size car sales as a percentage of its fleet and a decline in the large car and compact car share of its sales. Some of this effect is caused by the timing of the introduction of new models. This effect results in a slight lowering of Ford's CAFE.

Ford expects a slight increase in its average weight for MY 1986. Reasons for this increase include the replacement of the 1.6 liter engine in the Escort-Lynx compacts with a 1.9 liter engine, increased sales of a larger engine in the Mustang/Capri, and the introduction of a new version of an existing vehicle. This impact on Ford's CAFE is a 0.4 mpg decline, which is completely offset by a reduction in average engine size with the introduction of the Taurus/Sable.

Ford intends to introduce a number of technological improvements for MY 1986. These improvements include engine efficiency improvements, reduced aerodynamic drag (primarily due to the introduction of the Taurus/Sable), lower rolling resistance tires on several models, improved calibrations on two engines, and a number of other, relatively minor, changes.

[3] On June 18, 1985, GM submitted a letter indicating that its model year 1986 CAFE projection may change, based on a preliminary staff update of that company's current business plan. The submission was made under a claim of confidentiality, which is being reviewed by NHTSA. The agency will fully consider the submission before reaching a decision concerning a final rule.

Chrysler has projected that its MY 1985 CAFE would be 27.5 mpg and that its 1986 CAFE would be 28.1 mpg. However, subsequent to its statement about MY 1986 CAFE, Chrysler announced that it was changing its product plans because the United States had decided not to request an extension of the Japanese Voluntary Restraint Agreement on car exports to the United States. NHTSA has requested Chrysler to provide data on the effects of those product plan changes on Chrysler's MY 1986 CAFE and is awaiting the data. In the meantime, the agency does not know the specific impact of the changes on Chrysler's projection. However, the agency expects Chrysler's MY 1986 CAFE to be at or above 27.5 mpg.

American Motors, Volkswagen and the major Japanese manufacturers are expected to easily exceed the current 27.5 mpg standard for MY 1986. The fuel economy trend of the Japanese manufacturers has been mixed, however. Honda, Nissan and Isuzu have dropped in corporate fuel economy over the last three years, while Toyota and Mitsubishi have increased. The reason for the drop in fuel economy experienced by some of the Japanese manufacturers has been a mix shift toward larger, more performance-oriented vehicles.

Most of the European manufacturers are expected to be below the 27.5 mpg level for MY 1986. These include BMW, Mercedes-Benz, Peugeot, Saab, Volvo, and Jaguar. Many of these manufacturers' CAFE have also declined within the last three years.

BMW projects a MY 1986 CAFE of 26.1 mpg. While that is above its projected MY 1985 CAFE of 25.6 mpg, it is well below its MY 1984 CAFE of 27.4 mpg. BMW's drop in CAFE has resulted from a mix shift in sales to vehicles with larger engines and greater performance. While BMW has a selection of vehicle models which exceed the standard of 27.5 mpg, sales have shifted toward higher performance vehicles with lower fuel economy.

While the agency does not have a MY 1986 CAFE projection from Mercedes-Benz, that company's fuel economy has dropped approximately three mpg over the last three years. Its 1983, 1984 and projected 1985 CAFE levels have been 26.5 mpg, 25.5 mpg and 23.4 mpg, respectively. The reason for the drop is that consumer demand has shifted sales toward the higher performance end of that company's model line and away from vehicles with diesel engines. The fraction of Mercedes-Benz cars equipped with diesels has fallen from 78 percent in 1983 to an estimated 44 percent in 1985. While Mercedes introduced a smaller model (the 190) with fuel economy of up to 40 mpg in some diesel versions, the sales volumes have not been enough to offset the sales of its larger versions. That company noted in its comment that the pump price of regular unleaded gasoline is currently approximately $1.15 per gallon versus $1.29 for diesel fuel, the opposite of the relative prices in effect when the CAFE legislation was passed and when that company developed its plans to improve its fuel economy.

Volvo projects a MY 1986 CAFE of 26.5 mpg, approximately the same as its projected CAFE for MY 1985. Peugeot projects that its MY 1986 CAFE will be 25.8 mpg, 0.8 mpg higher than its MY 1985 projection of 24.8 mpg. Saab projects that its MY 1986 CAFE will be 25.4 mpg, 0.4 mpg lower than its MY 1985 projection of 25.8 mpg. Jaguar, which produces only large, heavy, luxury class vehicles, projects a MY 1986 CAFE of 19.2 mpg.

The agency has evaluated the manufacturers' MY 1986 CAFE projections and considers them to be reasonable projections based on the vehicles the manufacturers plan to offer for sale and expected market conditions. As with any sales projections, there are a number of uncertainties associated with them. Both GM and Ford indicated a number of marketing risks, including the possibility that Japanese car sales may rise substantially during the 1986 model year, resulting in a corresponding loss in sales of their most fuel efficient cars and a concomitant reduction in their CAFE ability. Ford also identified a number of technological risks associated with achieving their submitted CAFE estimates for MY 1986, which could result in a small reduction in that company's projected CAFE.

Manufacturer Capabilities for 1986

Since the 1986 model year begins this fall, there is insufficient time for the manufacturers to make further significant technological changes in their product plans. Any additional efforts by the manufacturers to increase their MY 1986 CAFE would therefore largely be limited to attempts to change product mixes through increased marketing efforts and/or product restrictions.

The agency has indicated in the past that manufacturers must, under the Act, make efforts to sell fuel-efficient cars. The agency concludes, based on its analysis, that GM and Ford have, in the past been, and are now, making such efforts. To counteract the declining consumer interest in new car fuel economy, manufacturers have undertaken extensive and significant market efforts to shift consumers toward their more fuel-efficient vehicles and options. As discussed in the agency's 1985 preliminary regulatory impact analysis (PRIA), both GM and Ford have undertaken pricing actions to encourage small car sales and to discourage large car sales and that purchase of optional, less fuel-efficient engines. Below-market financing offerings, cash discounts, and non-cash consumer and dealer incentives were some of the other measures undertaken by Ford and GM to increase their CAFE through marketing actions.

In light of these past efforts, the agency believes that there is relatively little remaining capability to improve fuel economy by this technique. An additional factor making it difficult to increase sales of small cars is the strong competition in that market from the Japanese manufacturers, which enjoy a significant cost advantage over the domestic manufacturers. The comment submitted by the Department of Commerce estimated the cost advantage at $2,000 per car. This cost advantage limits the ability of the domestic manufacturers to increase sales of small cars through price reductions. Given these factors, NHTSA does not believe that the manufacturers can significantly improve their CAFE by increased marketing efforts. Further, the agency concludes that Ford and GM made reasonable marketing efforts to improve their CAFE.

Manufacturers could improve their CAFE by restricting their product offerings, i.e., deleting less fuel-efficient car lines or dropping higher performance engines. However, such product restrictions would have significant adverse economic impacts on the industry and the economy as a whole. The Department of Commerce comment estimated that the effect of GM and Ford achieving 27.5 mpg CAFE in MY 1986 could be sales losses ranging from 750 thousand to 1 million units. Based on the labor required for producing large domestic cars, including suppliers, that Department estimated job losses between 80 and 110 thousand. Confidential submissions received from GM and Ford indicated that a much higher number of job losses would be possible. The agency has analyzed these submissions and has tentatively concluded that, while it is difficult to calculate precise numbers for potential sales and employment losses associated with the major manufacturers achieving 27.5 mpg CAFE for MY 1986, there would be a likelihood of sales losses well into the hundreds of thousands of units and job losses well into the tens of thousands. Sales and employment losses

of these magnitudes would have significant adverse effects on the

of these magnitudes would have significant adverse effects on the economy as a whole, including GNP. Also, such product restrictions could increase the price of large cars or reduce their availability, and thereby unreasonably limit consumer choices.

In the preamble to the final rule establishing the MY 1981–84 passenger car standards, the agency concluded that economic practicability should be interpreted as requiring standards to be within the financial capability of the industry, but not so stringent as to threaten substantial economic hardship for the industry. 42 FR 33537, June 30, 1977. In a final rule reducing the light truck fuel economy standard for MY 1985, the agency concluded that sales reductions to a manufacturer of 100,000 to 180,000 units, with resulting employment losses of 12,000 to 23,000, "go beyond the realm of 'economic practicability' as contemplated in the Act . . . ." 49 FR 41252, October 22, 1984. The agency similarly concludes that the economic hardship associated with the product restrictions necessary for the major manufacturers to achieve 27.5 mpg CAFE in MY 1986 would be beyond the realm of economic parcticability.

Manufacturer Compliance Efforts 1977 to 1985

While there is now insufficient time for manufacturers to improve their MY 1986 CAFE by making significant technological changes in their product plans, the current MY 1986 standard has been in effect for nearly a decade. Therefore, an important issue in analyzing the GM and Ford petitions is whether manufacturers made reasonable efforts to meet the standard. As discussed above, the agency would not consider it appropriate to reduce the standard if a current inability to meet the standard simply resulted only from manufacturers declining to take reasonable steps to improve their average fuel economy as required by the Act. As part of analyzing this issue, NHTSA compared manufacturers' current product plans with past agency analyses which had concluded that the 27.5 mpg standard was feasible. The agency also compared current product plans with earlier plans submitted by the manufacturers indicating that they would meet the standards. As discussed below, the agency believes that GM and Ford made reasonable attempts to comply with the current MY 1986 standard and that the manufacturers' efforts were overtaken by unforeseen events whose effects could not be overcome with the means and time available.

(The discussion which follows first presents the agency's conclusions concerning the differences between the manufacturers' current product plans, i.e., what is not actually happening, and past analyses/plans by NHTSA and the manufacturers as to what was believed feasible, and then presents the agency's conclusions as to why manufacturers' CAFE's are lower than was once expected.)

A. NHTSA's 1977 RSP

As discussed above, as part of establishing the 1981–84 standards, the agency developed estimates of the maximum feasible fuel economy for each manufacturer for model year 1981 through 1985. The estimates were based on a number of assumptions, including the ability of manufacturers to sustain a rapid rate of introduction of technology, consumer acceptance of a 10 percent reduction in vehicle acceleration, and significant use of a widespread range of technological options, including weight reduction, improved transmissions and lubricants, reduced aerodynamic drag, reduced accessory losses, and reduced tire rolling resistance. The agency's estimates did not assume a downward mix shift in automobile sizes or the use of diesel engines.

The agency's 1985 PRIA contains a detailed analysis comparing NHTSA's 1977 feasibility estimates for MY 1985 with manufacturers' current projections for that model year. It should be noted that while the 1977 RSP projected that it was feasible for a number of manufacturers to achieve fuel economy levels somewhat above 27.5 mpg by MY 1985, no standard was ever set above the 27.5 mpg level. Thus, manufacturers were never required to make efforts to achieve the higher (NHTSA-projected) CAFE levels.

The 1977 RSP estimated that GM could achieve 28.9 mpg CAFE for MY 1985. GM currently projects its MY 1985 CAFE at 25.1 mpg. The PRIA concludes that the primary reason why GM's present MY 1985 projection is lower is that the average GM model weighs 359 pounds more than NHTSA projected in 1977. Part of the difference in expected weight is due to changes in EPA test weight classes, which could result in a measured fuel economy loss of 0.3 mpg. The remaining weight difference is 284 pounds, the effect of which, including the fact that a proportionately larger engine is needed to maintain acceleration capabilities, is a 2.0 mpg reduction in average fuel economy from that estimated in 1977.

A number of factors appear to account for this weight difference. In the 1977 RSP, NHTSA concluded that GM could perform both a major redesign and a material substitution action for an additional reduction in weight, for every carline during the MY 1977–85 timeframe. GM made all anticipated major redesigns except in the T-body cars (Chevette and 1000) and, in addition, introduced two additional lightweight models not projected in the 1977 analysis. The redesigns did not, however, achieve the full amount of weight reduction originally projected as feasible, and, in most cases, the material substitution actions did not occur. Also, when GM introduced new models, the company often continued production of the earlier models.

Other factors which explain GM's lower CAFE are a higher than anticipated engine/size ratio (−0.6 mpg), indicating that GM did not reduce acceleration capability by the percentage projected by the 1977 RSP, and fewer 4-speed automatic transmissions (−0.8 mpg). These factors account for the bulk of the remaining differences between GM's present MY 1985 CAFE estimate and NHTSA's 1977 projection.

The 1977 RSP estimated that Ford could achieve 27.9 mpg CAFE for MY 1985. Ford currently projects its MY 1985 CAFE at 25.3. The agency's analysis in the PRIA concludes that a number of factors explain Ford's lower CAFE. The most significant are lack of acceleration capability reduction (−1.1 mpg), higher weight than anticipated (−0.8 mpg), and fewer lockup and wide-ratio automatic transmissions (−0.8 mpg). Additional factors which explain Ford's lower CAFE are the EPA change in test weight class (−0.3 mpg) and a sales mix adjustment (−0.3 mpg). While Ford's CAFE is lower than was projected as feasible back in 1977, the agency concludes, as discussed in the PRIA, that Ford exceeded the agency's projections for improving CAFE in the areas of reduced rolling resistance (+0.4 mpg) and reduced aerodynamic drag (+0.2 mpg). Also, diesel engines added slightly to Ford's CAFE (+0.1 mpg).

The 1977 RSP estimated that Chrysler could achieve 28.7 mpg CAFE for MY 1985. Chrysler currently projects its MY 1985 CAFE at 27.5 mpg. Major changes in product plans by that company from what were anticipated make it difficult to directly compare the agency's 1977 RSP to Chrysler's current projections. An unanticipated shift toward smaller cars in the company's product line-up significantly increased Chrysler's CAFE (+2.2 mpg). This was more than offset, however, by the effect of fewer lock-up and no wide-ratio automatic transmissions (−2.5 mpg). A number of other items, such as lack of acceleration capability reduction and minor weight increases contribute to the remaining decline in fuel economy.

The PRIA also compares the 1977 RSP feasibility estimates for foreign manufacturers to current projections. On a sales-weighted basis, the foreign manufacturers' vehicle horsepower/weight ratio has increased by an average of 13 percent and vehicle weight has increased by an average of 8.6 percent since 1977, rather than decreasing as believed feasible by NHTSA in 1977. In spite of these changes, the foreign manufacturers have increased their average fleet fuel economy by about 2.5 mpg since 1977, as a result of factors such as improved rolling resistance and aerodynamic drag. However, this is significantly less than the agency had projected as feasible.

B. Manufacturers' Previous Plans

1. 1980

During the summer of 1980, as fuel prices were rising rapidly, GM, Ford and Chrysler all announced that their MY 1985 CAFE levels would be approximately 30 mpg or higher. At NHTSA's request, the companies provided the agency with data to support the projections.

GM expected to achieve 31 mpg in MY 1985 with a completely redesigned line-up of U.S. passenger cars. Included in this product plan were extensive use of diesel engines, the introduction of an electric car, the introduction of a new domestic subcompact front-wheel drive economy car (the S-body, designed to eventually replace the Chevette/1000), the replacement of essentially all GM's existing cars with lighter weight front-wheel-drive models, a mix shift toward smaller models, and the virtual elimination of V–8 engines.

There are a number of differences in GM's 1980 plan for MY 1985 and what actually happened, including a substantial drop in diesel engine sales, the fact that GM did not introduce an electric car or a new domestic subcompact economy car, a slowdown in the rate of replacing existing cars with lighter weight front-wheel-drive models, a sales shift toward larger models and engines, and the continuation of many existing lines.

In the summer of 1980, Ford projected that it could achieve a fuel economy level as high as 29.9 mpg in MY 1985. Included in that product plan was the complete elimination of large cars and large station wagons by MY 1985. Instead, large car sales are now projected to comprise approximately a fifth of Ford's MY 1985 volume. Other differences between Ford's 1980 plan for MY 1985 and what actually happened include delay in introducing the new front-wheel-drive Taurus mid-size car (to MY 1986), continuation of V–6 engines in a significant portion of the vehicle fleet instead of eliminating them, lower-than-expected diesel sales, and substantially fewer sales of Ford's most fuel-efficient model, the two-seater EXP.

In 1980, Chrysler expected to achieve CAFE of 30.7 mpg in MY 1985, well above that company's current projection of 27.5 mpg. A number of the car models in that plan have not been introduced. In addition, Chrysler projected it would replace the rear-wheel-drive, relatively heavy M-body (presently the Diplomat, Gran Fury, and Fifth Avenue) with versions of the front-wheel-drive K-body. Instead, Chrysler continued to offer this model after its ostensible replacements were introduced. The older-design M-body has an average fuel economy about 6 mpg below the equivalent front-wheel-drive models. Chrysler also planned a number of technological improvements that have not been introduced.

2. 1983

By mid-1983, GM's and Ford's expectations about exceeding the fuel economy standards had reversed. By this time, the manufacturers were having difficulty meeting the levels of the fuel economy standards. GM, Ford and Chrysler, as well as many other companies, had experienced a decline in their CAFE levels between MY 1982 and MY 1983. At NHTSA's request, the manufacturers provided the agency with data indicating their projected fuel economy levels through MY 1988.

GM's and Ford's mid-1983 projections for MY 1985 were not substantially different from what they are today. GM projected a CAFE of 25.9 mpg for MY 1985, as compared to its current projection of 25.1 mpg. In 1983, that company projected a sales mix with a slightly lower average weight and a greater number of diesel sales. Ford's 1983 projection was almost identical to its current projection. That company's 1983 projection included fewer large cars and station wagons in its MY 1985 fleet. However, this negative impact was offset by an increase in average fuel efficiency of the compact class due primarily to increases in projected Escort/Lynx sales and decreases in Thunderbird/Cougar sales.

Chrysler projected in 1983 that it could achieve 28.8 mpg in MY 1985, 1.3 mpg above its current estimate. In 1983 Chrysler did not provide the agency with as detailed product plans for MY 1985 as did GM and Ford. Based on the limited data, it appears that Chrysler's least fuel-efficient models are now selling at higher rates than the company anticipated in 1983. In addition, the average fuel economy level for each carline is lower than anticipated. This appears to indicate a mix shift toward larger and more powerful engines within each carline, similar to the mix shift experienced by Ford and GM.

3. 1984–1985

Product plan information provided to NHTSA within approximately the past year by both GM and Ford indicates that those company's CAFE projections for *MY 1986* have declined within that time frame.

The most significant changes have been for Ford. A carryback plan submitted by that company on May 7, 1984, indicated that Ford then expected to exceed the 27.5 mpg standard in MY 1986. A carryback plan submitted on December 7, 1984, projected significantly lower CAFE for MY 1986, reflecting a product plan change by that company. Ford's February 28, 1985, response to a NHTSA questionnaire on post-1985 fuel economy and an April 19, 1985, submission discussing the effects of changes in the Voluntary Restraint Agreement (VRA) with Japan both included slight additional declines in projected CAFE for MY 1986.

The PRIA includes an analysis of the changes in Ford's CAFE projections. Ford explained the reductions by citing changes in mix and model start-up schedules and the fact that new models had resulted in less fuel economy improvement than expected. The agency's analysis is largely in agreement with Ford's explanation, although it concludes that an additional factor appears to be that Ford is not achieving the engine or transmission efficiencies it expected for certain of its cars.

A carryback plan submitted by GM on November 27, 1984, projected slightly higher CAFE for MY 1986 than it currently projects. The agency concludes, as discussed in the PRIA, that the change represents an aggregation of changes in the GM fleet in which the fuel economies and market share of several models change slightly. Overall, the changes are small and largely compensatory.

C. Assessment of Manufacturers' Compliance Efforts

Assessing manufacturers' efforts to meet the 27.5 mpg standard is a difficult and complex task. With 20–20 hindsight, one can point to various actions that manufacturers might have been able to take at different points over the past

decade, e.g., increased use of material substitution, that would have improved

decade, e.g., increased use of material substitution, that would have improved their current fuel economy capability for MY 1986. The manufacturers, however, had to make their product plan decisions based on the information then available and often in the face of considerable economic difficulty.

In looking back over the past decade, the manufacturers' progress in improving fuel economy has been impressive. In evaluating technological feasibility, the agency considers the commercial availablity of technology to aid in meeting a standard for a particular model year. The amount of CAFE improvements gained by a manufacturer from using new technology is dependent on: (1) The increase in fuel economy associated with a particular type of technology, and (2) the percent of a manufacturer's fleet which incorporates that technology. Technology-based improvements include such items as weight reduction via downsizing or material substitution, engine and transmission improvements, reduced performance (e.g., acceleration capability), reductions in rolling resistance and aerodynamic drag, improved lubricants, and increased accessory efficiency, among others.

Over the past 10 years, manufacturers have reduced average car weight by 1000 pounds, reduced average engine displacement from 288 CID to 177 CID, increased the use of front-wheel drive from seven percent to 64 percent, increased the use of transmissions with overdrive and/or lockup from five to 84 percent, and increased the use of fuel-injected engines from five percent to 54 percent.

The agency notes that some major investments made by manufacturers to improve fuel economy were not successful. For example, both GM and Ford made major investments in diesel engines. Largely due to market conditions, however, including lower-than-expected gasoline prices and a change in the relative price of gasoline and diesel fuel, sales of passenger cars with diesel engines have virtually collapsed. Various efforts by the manufacturers to develop new technologies, such as Ford's experience with the PROCO engine, were unsuccessful. Given the massive undertaking by the industry to virtually double its CAFE in a relatively short period of time, it is not surprising that there would be failures as well as successes. In assessing the manufacturers' efforts to improve their CAFE's, however, the agency believes it is appropriate to take account of all of the efforts.

Manufacturers have used virtually all the technologies deemed feasible in the the agency's 1977 RSP, as well as achieving a number of gains in areas not foreseen at that time. However, not all of those technologies have been installed in as high a percentage of cars in the manufacturers' fleets as was believed feasible. This is particularly true for weight reduction, performance reduction, and transmission improvements.

The agency believes that the lower than anticipated use of these three technologies is largely attributable to market conditions. The consumer acceptability of lower performance, for example, is relatively easy to achieve in times of short fuel supply and steadily rising prices. However, the real price of gasoline has declined by nearly 20 cents per gallon since the early 1980's, is generally expected to rise less than four percent over the next five years, and there is currently a petroleum glut, which results in the public perception of no foreseable energy shortage. Thus, as discussed in the PRIA, the anticipated performance reductions were achieved as early as 1982, but since that time consumers have been demanding greater engine/vehicle performance. Similarly, consumers have been switching to heavier vehicles over the last few years. And finally, making transmission improvements in certain small cars would have further exacerbated the already serious production cost differential between Japanese and domestic subcompacts.

As discussed above, the Cost Savings Act imposed a long-term obligation on manufacturers to make reasonable efforts to achieve CAFE of 27.5 mpg. As of mid-1980, GM and Ford had plans which they believed would not only achieve that level but significantly exceed it. Moreover, during the early 1980's, manufacturers not only met the standards set at levels intended to result in steady progress toward 27.5 mpg, but in fact exceeded those standards.

By 1983, however, domestic manufacturers were having difficulty meeting the levels of fuel economy standards. Consumer demand was shifting toward larger, more comfortable cars with better performance. The nation (and the auto industry in particular) was coming out of a serious economic recession, and, contrary to prior NHTSA and industry expectations, gasoline prices were falling instead of rising. The U.S. city average retail price for unleaded regular gasoline fell from $1.38 in 1981 to $1.30 in 1982 and $1.24 in 1983. (*Monthly Energy Review*, Energy Information Administration,[4] U.S. Department of Energy, January 1984, p. 88) (In 1984 dollars, this decrease was from $1.58 in 1981 to $1.40 in 1982 and $1.29 in 1983.) When fuel prices are high, consumers tend to demand more fuel-efficient vehicles in the marketplace. The rise in gasoline prices since 1973 was a factor in the tremendous increase in fuel efficiency that has been achieved since Congress passed the Energy Policy and Conservation Act. Conversely, when prices fall, it becomes more difficult for manufacturers to meet CAFE standards.

The effect of consumer demand on CAFE is reflected both by actual market shifts and by expected market shifts which did not occur. The percent of total new car sales consisting of subcompact models declined from 46 percent in model year 1980 to 30 percent in model year 1983. Since then, the share appears to be leveling off at approximately 26 percent. For GM, the percent of sales of subcompacts (including two-seaters) declined from 27 percent in model year 1980 to 11 percent in model year 1983. For model year 1985, GM projects an 11 percent share for subcompacts (including two-seaters). Seventeen percent of GM's model year 1980 sales were large cars, as compared to 27 percent for model year 1983 and a projection of 27 percent for model year 1985. For Ford, the percent of sales of subcompacts (including minicompacts) declined from 37 percent for model year 1980 to 12 percent for model year 1983. For model year 1985, Ford projects a 9 percent share for subcompacts (including two-seaters). Sixteen percent of Ford's model year 1980 sales were large cars, as compared to 21 percent for model year 1983 and a projection of 22 percent for model year 1985. For Chrysler, the percent of sales of subcompacts declined from 41 percent in model year 1980 to 12 percent in model year 1983. For model year 1985, Chrysler projects a 20 percent share for subcompacts. Eight percent of Chrysler's model year 1980 sales were large cars. That company stopped producing large cars after model year 1981.

In addition to these actual market shifts are expected market shifts which did not occur. For example, as indicated above, Ford anticipated in 1980 that it could virtually eliminate large cars by 1985, as compared to its current projection that large cars will comprise 22 percent of its sales. Ford's most fuel-efficient model, the two-seater EXP, was projected in 1980 to capture over 12 percent of model year 1985 sales. Ford now expects it will take less than two percent of sales. Similarly, GM anticipated in 1980 that the large car share of its model year 1985 sales would be 17 percent, well below its current projection of 27 percent. GM expected its subcompact share to be 18 percent, as compared to its current projection of 11 percent (including two-seaters). The manufacturers' 1980 expectations were overtaken by events as gasoline prices began to fall, instead of rising significantly as expected.

MY 1985 projections provided by the manufacturers during the summer of 1983 indicate that they recognized at that time they would not be able to achieve 27.5 mpg CAFE for MY 1985, although they apparently believed they would have sufficient carryforward and carryback credits available to avoid non-compliance with the Cost Savings Act. Given that the manufacturers recognized difficulties in achieving 27.5 mpg as early as 1983 (as opposed to their earlier expectations of significantly exceeding that level), the issue arises whether manufacturers could or should have done more between then and now to improve their CAFE.

The agency believes several factors are relevant in analyzing that issue. First, the domestic industry was just beginning to recover from one of the worst periods of economic difficulty in its history. From a picture of high profitability in the late 1970's, their fortunes had declined such that they encountered their largest losses ever during the 1980–82 period. During those three years, GM, Ford, and Chrysler had combined operating losses of $4.8 billion. Chrysler staved off bankruptcy through corporate restructuring and with the help of Federal loan guarantees, while Ford alone incurred $3.3 billion in losses over that three-year period.

At the same time, the companies were involved in massive efforts to restructure their operations and redesign their fleets. Even though they were incurring operating losses and inflation was high in the early 1980's, Ford and GM continued or accelerated their capital investment levels, compared to earlier years. For example, GM's highest two years of actual capital expenditures occurred during 1980–81. Long-term debt greatly increased for GM and Ford during this period, as they could not raise the money they needed for capital expenditures from operations.

Given this backdrop of events, it would have been very difficult for GM and Ford to initiate significant further new programs to improve their model year 1986 fuel economy. The companies were heavily in debt, and limited corporate funds were available for new programs. The agency has long recognized that the ability to generate the funds necessary to make fuel economy improvements is a critical factor in assessing economic practicability and determining maximum feasible average fuel economy. As discussed in the background section of this preamble, NHTSA recognized in its January 1979 Third Annual Report that its feasibility estimates were dependent on the continued financial health of the industry and could be subject to change in the event of a severe economic downturn.

Second, it was generally expected that the drop in gasoline prices during the early 1980's was temporary and would quickly reverse. For example, the Summer 1983 Data Resources, Inc. (DRI) U.S. Long-Term Review projected that the percent change in the personal consumption deflator for gasoline would be −3.9 for 1983 but 3.9, 6.6, and 8.6 or 7.7 (reflecting two types of forecasts) for 1984, 1985 and 1986, respectively. Had gasoline prices begun to rise again, consumer demand would have tended to shift back toward more fuel-efficient vehicles, and as a result the manufacturers would generally have had higher CAFE's. Instead of turning positive in 1984, however, the personal consumption deflator for gasoline was −1.6 percent. Moreover, the Spring 1985 DRI U.S. Long-Term Review forecasts that indicator will remain negative for both 1985 and 1986, at −1.8 percent and −0.8 percent, respectively. This continued decline (in real terms) of gasoline prices has resulted in relatively less consumer demand for small cars with high fuel efficiency levels than would otherwise have been expected.[5] The virtual collapse in sales of diesel fuel automobiles illustrates this effect.

Third, the manufacturers' projections in recent years indicate that they believed they would still comply with the law for model years 1985 and 1986, using carryforward/carryback credits as permitted by the Cost Savings Act. Indeed, later submissions by both Ford and GM, most notably the carryback plans, indicate that they did not recognize a CAFE compliance problem until approximately the time they submitted their petitions. By that time, it was too late for the manufacturers to make further significant technological changes in their product plans for MY 1986.

Chrysler has raised the issue of the reasonableness of GM and Ford changing their product plans in a variety of ways over the past few years with the effect of decreasing their projected CAFE's. That company cited decisions by those companies to continued selling larger models and engines that had been planned to be cancelled and the continuation of rear-wheel drive models after front-wheel drive "replacements" had been introduced.

The agency notes that Chrysler stated that it "agrees that consumers have indicated a preference for better performance in recent years . . ." and that it in fact has done some of the same things. It is that company's contention, however, that "what is permissible for Chrysler, who meets the 27.5 mpg standard, should be considered excessive for GM, who does not."

NHTSA cannot agree that product plan changes that decrease CAFE are *per se* "excessive" for companies which are having difficulty meeting the CAFE standards. Given that consumer demand is a major determinant of what it is economically practicable for manufacturers to sell, since consumers need not buy what they do not want, it is axiomatic that a change in consumer demand (all other things held constant) will change what is economically practicable for manufacturers to sell. The fact that GM and Ford once believed they could delete certain models or engines without significant adverse economic impacts does not mean that they would be able to do so after conditions have changed.

As discussed above, Congress did not cast the 27.5 mpg standard in stone but instead provided flexibility to adjust the standard based on up-to-date information, subject to the requirement that the standard be set at the maximum feasible average fuel economy level. Holding manufacturers to product plans which are no longer consistent with current market conditions would have the same result as requiring product restrictions. As discussed above, the types of product restrictions that would be required to significantly improve GM's and Ford's CAFE's would result in serious harm to the industry and the economy as a whole.

While the agency believes that product plan changes such as those discussed above are consistent with statutory criteria, since they reflect changes in what is economically practicable, manufacturers continue to have an obligation to make all efforts consistent with those statutory criteria

[4] The Energy Information Administration is a statistical and analytical branch of the Federal Government that is policy independent of the Department of Energy.

[5] The decline in gasoline prices has been occurring while prices in general have been rising. For example, the 1984 change in the implicit GNP Deflator was 3.8 percent. DRI forecasts increases of 3.4 and 3.3 percent for 1985 and 1986.

to meet CAFE standards. To the extent that changes in product plans result in manufacturers falling below the standard for any given year, the manufacturers must pursue other means, such as additional technological improvements, to achieve that standard. As discussed above, however, by the time GM and Ford recognized that economic forces had created a compliance problem, it was too late to make further significant technological changes to improve their CAFE's for MY 1986.

Another issue raised by Chrysler is why GM and Ford are unable to meet the 27.5 mpg standard when it, a company with far fewer resources, can. As noted above, the legislative history indicates that Congress did not intend to unduly limit consumer choice as to capacity and performance of motor vehicles. Unlike GM and Ford, Chrysler does not offer any vehicles which are defined by EPA as "large cars" or "large station wagons." These vehicles, which account for 10–25 percent of Ford's and GM's sales, are less fuel-efficient than the cars Chrysler sells. The primary reason GM's and Ford's CAFE's are lower than Chrysler's is that Chrysler does not complete in all the market segments in which GM and Ford sell cars. The agency believes that GM's and Ford's decisions to continue selling large cars are fully consistent with the statutory criteria. Moreover, Chrysler's fuel economy is not significantly different from that of GM or Ford for the market segments in which it does compete.

The agency tentatively concludes that the manufacturers did make reasonable efforts to improve their fuel economy and that those efforts were overtaken by unforeseen events whose effects could not be overcome by technological means within the time available.

Other Federal Standards

On July 1, 1985, the Environmental Protection Agency (EPA) published a final rule in the **Federal Register** (50 FR 27172) to provide CAFE adjustments to compensate for the effects of past test procedure changes. The final rule adopted a formula approach for calculating CAFE adjustments for the 1986 model year.

Manufacturers had argued that changes in EPA test procedures had adversely affected their CAFE values. On December 21, 1983, EPA published a proposal to give a 0.2 mpg credit to all passenger car manufacturers to account for test procedure changes regarding inertia weights, dynamometer controllers, actual distance versus nominal distance traveled in the test, and humidity level. In August 1984, GM requested additional CAFE credit to compensate for changes over time in the properties of test fuels used by EPA and the industry. GM argued that the test fuel adjustment should be an additional 0.02 mpg to 0.32 mpg fuel economy credit, with the value varying by model year. On December 7, 1984, EPA published a supplemental notice requesting comment on the test fuel issue.

Because EPA had issued its proposals prior to this agency's receipt of the GM and Ford petitions, NHTSA considered the effect of the EPA rulemaking throughout its analysis of those petitions. Due to the formula approach adopted by EPA, that agency is currently unable to provide precise calculations concerning how the rule will affect each manufacturer. EPA staff informed NHTSA that they expected GM and Ford to receive credits for the 1986 model year of approximately 0.2 mpg. GM and Ford informed NHTSA that they expected to receive credits of 0.2 mpg and 0.1 mpg, respectively. While the agency does not have specific data concerning how the credits will affect other manufacturers, it believes that the credits will be similar to those for GM and Ford. The EPA final rule will thus raise the manufacturers' projected CAFE for model year 1986 by approximately 0.1 to 0.2 mpg.

(It should be noted that some but not all of the manufacturers' projections provided to NHTSA prior to the EPA final rule included CAFE adjustments based on EPA's proposals. For purposes of consistency, however, none of the manufacturers' projections set forth above include the CAFE adjustment. This is true for both the model year 1986 projections and the projections for model year 1985. The EPA final rule generally provided somewhat higher CAFE adjustments for model year 1985 than for model year 1986.)

As discussed in the PRIA, changes in other Federal standards which may affect CAFE have been made in safety and damageability requirements. These include the May 1982 amendment to the Part 581 Bumper Standard, which permits weight savings; several amendments to the agency's lighting standard, which permit greater aerodynamic efficiency; and the fact that the automatic restraint requirement of Standard No. 208, with its attendant weight penalty, is not in effect for MY 1986, as earlier anticipated. The potential weight savings permitted by the change in the Bumper Standard could improve CAFE by approximately 0.15 to 0.4 mpg. The agency concluded, however, that continued consumer demand for 5 mph bumpers did not permit the manufacturers to avail themselves of much of those potential weight savings. The net effect of the safety changes was to increase the CAFE capabilities of the manufacturers by approximately 0.3 mpg.

The Need To Conserve Energy

Since 1975, when the Energy Policy and Conservation Act was passed, this nation's energy situation has undergone a great deal of change. In particular, oil markets have been deregulated and the Strategic Petroleum Reserve (SPR) has been established. These changes have raised questions about which means of energy conservation are most economically efficient. The agency invites comments on whether and, if so, how these changes should affect the determination of passenger car CAFE standards under the statute.

The United States imported 15 percent of its oil needs in 1955. By 1977, the import share was 46.4 percent and the value of imported crude oil and refined petroleum products was $67 billion (stated as 1984 dollars). While the import share of total petroleum demand declined after that year, the cost continued to rise to a 1980 peak level of $93.2 billion (1984 dollars). By 1984, the import share had declined to 30.9 percent at a cost of $54.2 billion. Thus, the concern over dependence on imported petroleum, as measured by these indicators, has lessened in the past several years.

Moreover, imports from OPEC sources have been declining, from a high of 6.2 million barrels per day and 70.3 percent of all imports in 1977 to 2.0 million barrels per day and 37.6 percent of imports in 1984. Imports from non-OPEC sources have risen slightly from a low of 2.2 million barrels per day or 30.7 percent in 1976, to 3.4 million barrels per day or 62.4 percent in 1984. In 1984, Mexico supplied the U.S. with the largest amount of crude oil and petroleum products, followed by Canada. As imports have shifted to non-OPEC sources, the United States' supply of petroleum has become less vulnerable to the political instabilities of some OPEC countries, as compared to the situation in the mid-1970's.

Overall, the nation is much more energy independent than it was a decade ago, when Congress established the MY 1985 and thereafter standard. From 1975 to 1984, energy efficiency in the economy improved by 21 percent. (*1984 Annual Energy Review*, Energy Information Administration, U.S. Department of Energy, p. 47) Passenger car petroleum consumption is actually lower than it was in 1975, even though travel has increased 25 percent since

then. Domestic oil production is higher than it was in 1975, total imports have dropped 20 percent since then, the value of the nation's imported oil bill has declined nearly 40 percent in the last five years (on a net import basis the value of the nation's imported oil bill fell nearly 45 percent from 1980 to 1984), and the amount of imported oil from OPEC has dropped by 67 percent since the peak of 1977. As a percentage share of GNP, the net oil import bill fell from 2.8 percent in 1980 to 1.5 percent in 1984. In addition, the price of oil is now fully decontrolled, permitting the market to adjust quickly to changing conditions, and the Strategic Petroleum Reserve is well on its way to being filled. The 451 million barrels in the SPR at year-end 1984 were equal to 141 days or 38.6 percent of non-SPR crude oil imports that year. Thus, by any measure, the nation is in a stronger energy position than it was a decade ago.

According to Energy Information Administration (EIA) and Data Resources, Inc., projections, however, domestic production is expected to decline from a stable level of 10 MMB/D to about 8.5 MMB/D by 1995. Net imports are expected to rise from 4.5 to 5 MMB/D to about 7.5 (EIA) to 9.0 (DRI) MMB/D by 1995. This would result in imports approaching 50 percent of U.S. petroleum use by 1995. However, future projections about petroleum imports are subject to great uncertainty and may be overtaken by new domestic discoveries. Indeed, oil imports are very difficult to project beyond a year or two. For example, the EIA's *1977 Annual Report to Congress* projected that net oil imports by the U.S. would, in the "reference case," reach 11 million barrels per day by 1985. Net imports for this year are now forecast to be less than 4.5 million barrels per day, substantially less than half the level predicted in 1977. The agency believes that energy conservation is important but also notes that even with a reduction in the standard MY 1986 passenger cars meeting a 26.0 mpg standard will be considerably more fuel-efficient than the nation's overall vehicle fleet and will thus make a substantial positive contribution to the goal of petroleum conservation.

Determining the 1986 Maximum Feasible Average Fuel Economy Level

As discussed above, section 502(a)(4) provides that the 27.5 mpg standard can be raised or lowered for MY 1985 or any subsequent model year if the agency determines that some other standard represents the maximum feasible average fuel economy level. In making this determination, the agency must consider the four factors of section 502(e): technological feasibility, economic practicability, the effect of other Federal motor vehicle standards on fuel economy, and the need of the nation to conserve energy.

Based on dictionary definitions and judicial interpretations of similar language in other statutes, the terms "feasible" and "practicable" refer to whether something is capable of being done.[8] A standard set at the maximum feasible average fuel economy level must thus (1) be capable of being done and (2) be at the highest level that is capable of being done, taking account of what manufacturers are able to do in light of available technology, economic practicability, how other Federal motor vehicle standards effect average fuel economy level, and the need of the nation to conserve energy.

The Conference Report to the 1975 Act (S. Rep. No. 94–516, 94th Cong., 1st Sess. 154–5 (1975)) states:

> Such determination should therefore take industrywide considerations into account. For example, a determination of maximum feasible average fuel economy should not be keyed to the single manufacturer which might have the most difficulty achieving a given level of average fuel economy. Rather, the Secretary must weigh the benefits to the nation of a higher average fuel economy standard against the difficulties of individual automobile manufacturers. Such difficulties, however, should be given appropriate weight in setting the standard in light of the small number of domestic automobile manufacturers that currently exist, and the possible implications for the national economy and for reduced competition association (sic) with a severe strain on any manufacturer. . . .

This language of the Conference Report indicates that standards may at times be set at a level above that of the least capable manufacturer and that some manufacturers may find it necessary to pay penalties. The issue arises of how (and whether) this language should be reconciled with the statutory text indicating that standards must be set at a level that is capable of being done. As a matter of construction, statutory language is controlling over legislative history. Legislative history, however, should be used as an indication of congressional intent in resolving ambiguities in a statutory language. The agency believes that the above-quoted language of the Conference Report provides guidance on the meaning of "maximum feasible average fuel economy level."

It is clear from the Conference Report that Congress did not intend that standards simply be set at the level of the least capable manufacturer. Rather, NHTSA must take industrywide considerations into account in determining the maximum feasible average fuel economy level. The focus, thus, must be on the manufacturers' collective ability to meet a standard, rather than any particular manufacturer's ability to meet it.

With respect to light truck standards, NHTSA has consistently taken the position that it has a responsibility to set standards at a level that can be achieved by manufacturers of a substantial share of sales. See 49 FR 41251, October 22, 1984. The agency believes this same criterion is relevant to the setting of passenger car standards, as part of taking industrywide considerations into account. Given the substantial share (more than 60 percent) of sales by GM and Ford, the agency believes that a standard set at a level above the maximum feasible capability of these manufacturers would by definition not be at the maximum feasible average fuel economy level for the industry, i.e., such standard would exceed that level.

The least capable manufacturers with major shares of the market are GM and Ford. Taking account of the EPA test adjustment credit, GM projects its MY 1986 CAFE at 25.9 mpg, and Ford projects its MY 1986 CAFE at 26.3 mpg. In the section of this preamble entitled "Manufacturer Capabilities for 1986," the agency made several tentative conclusions concerning the manufacturers' abilities to improve their projected CAFE levels. First, given the imminence of the 1986 model year, there is insufficient time now for the manufacturers to make further significant technological changes to their product plans. Therefore, any additional efforts by the manufacturers to increase their MY 1986 CAFE would largely be limited to attempts to change product mixes through increased marketing efforts and/or product restrictions. Second, based on past experience and current competitive conditions, NHTSA tentatively concludes that GM and Ford cannot significantly improve their CAFE's by increased marketing efforts. Third, the types of product restrictions that would be required for GM and Ford to significantly improve their CAFE's could

[8] The *Random House Dictionary of the English Language* (unabridged edition) defines "feasible" as "capable of being done, effected, or accomplished." It defines "practicable" as "capable of being done, effected, or put into practice, with the available means; feasible. . . ." In *American Textile Mfrs. Institute Inc. v. Donovan*, 452 U.S. 400 (1981), the Supreme Court interpreted use of the word "feasible" in a similar statutory context to mean "capable of being done."

result in significant adverse economic impacts and restrict consumer choice to an unreasonable degree. The unacceptability of the resulting product mix to a significant segment of the consuming public would likely result in MY 1986 sales losses well into the hundreds of thousands of units and job losses well into the tens of thousands. The agency considers these effects to be beyond the realm of economic practicability.

While the agency believes that that energy conservation is important, it cannot conclude that the possible energy savings associated with maintaining the 27.5 mpg standard for MY 1986 would justify the major economic hardships discussed above. The magnitude of possible energy savings is uncertain. If manufacturers restricted the availability of their large cars, consumers might tend to keep their older, less fuel-efficient large cars in service longer or purchase large pickup trucks and vans to obtain the room, power and load-carrying capacity they desire. This could offset in whole or part the apparent energy savings associated with higher passenger car CAFE.

The agency's PRIA indicates that the *maximum* magnitude of any increase in fuel consumption associated with a 26.0 mpg CAFE standard would be 1.54 billion gallons (37 million barrels) over the life of the MY 1986 fleet. The maximum yearly impact on U.S. gasoline consumption would be 210 million gallons, or roughly 0.3 percent of total annual automobile gasoline consumption. In terms of total U.S. petroleum consumption, it would amount to a maximum yearly increase of 0.09 percent. While the agency does not view these figures as insignificant, it does not believe that such savings would justify sales losses to the industry in the hundreds of thousands, job losses in the tens of thousands, or the unreasonable restriction of consumer choices.

The changes in Federal safety and damageability standards discussed above provided some additional flexibility in improving CAFE. However, as discussed above with respect to possible technological changes, the imminence of the 1986 model year precludes significant changes in product designs.

Taking account of the four factors of section 502(e), the agency tentatively determines that the maximum feasible average fuel economy level for MY 1986 is 26.0 mpg. This level would be at the maximum capability of GM, the least capable manufacturer with a major share of the market. As discussed above, the agency believes it has a responsibility to set standards at a level that can be achieved by such a major manufacturer. Based on its analysis discussed above, the agency believes 26.0 mpg is the highest standard GM can achieve for MY 1986, particularly since a standard at that level does not provide any margin for market risks. As discussed above, GM's projected CAFE is subject to marketing risks, including the possibility that Japanese car sales may rise substantially during the 1986 model year, resulting in a corresponding loss in sales of GM's most fuel-efficient cars and a concomitant reduction in its CAFE capability. Efforts by GM to exceed 26.0 mpg CAFE could necessitate significant product restrictions and could result in the serious economic harms discussed above. Furthermore, since the agency's ability to predict the future is necessarily imperfect, any standard is not without risk.

A 26.0 mpg standard would permit some slight allowance to Ford for technological and market risks. Given Ford's previous inability to meet the level of prior year standards, the agency believes that Ford will have strong incentives to achieve the highest CAFE possible in order to earn credits.

With the exception of Jaguar, Mercedes-Benz, and possibly Saab, the agency believes the rest of the industry is capable of meeting the 26.0 mpg standard, although compliance may be close for some of the European manufacturers. NHTSA has concern about setting standards that one or more manufacturers cannot meet, particularly since some of the manufacturers have made great improvements in their fuel economy. As discussed above, however, the Act requires the agency to take industrywide considerations into account in determining the maximum feasible average fuel economy level. A standard set at the level of the least capable European manufacturer would be so far below that of the industry as a whole that it would remove any effect the CAFE program has on improving fuel economy. The agency notes that each of the manufacturers in question has chosen to concentrate on a segment of the market that tends toward lower fuel economy.

In this and other rulemakings, commenters have raised the issue of whether and how penalties and carryforward/carryback credits should be taken into account in setting standards at the maximum feasible average fuel economy level. It is NHTSA's conclusion that the Act generally requires standards to be set without regard to penalties or carryforward/carryback credits. The agency's analysis of this issue is contained in the PRIA.

Competitive Effects; Equity

Chrysler contends that amending the standard to 26.0 mpg "would discriminate against, and place at a competitive disadvantage, those manufacturers like Chrysler, who have made the investment imposed ten years ago." This position was echoed by Volkswagen, which argued that lowering the standard "would be unfair to a manufacturer which relied on the long established standard in formulating its corporate plan for 1986."

The agency recognizes the equity issues involved in revising fuel economy standards. However, the agency must consider the feasibility of its standards for the industry as a whole, as discussed above, in accordance with the four factors provided by section 502(e) of the Act. Indeed, since the Act specifically permits the revision of previously set fuel economy standards, it necessarily contemplates the possibility of different impacts on different manufacturers. The agency notes that the MY 1981 light truck standard was lowered in response to a petition for rulemaking submitted by Chrysler. Thus, that company has requested and received the primary benefit from the same type of rulemaking action to which it now objects.

Comment Period; Timeliness of Petitions

The agency is providing a comment period of 30 days. In its March 1985 notice granting the GM and Ford petitions and requesting comments on those petitions, NHTSA stated that it was focusing its attention on the 1986 model year in view of the possibility of serious economic harm cited by the petitioners and the limited remaining time for amending the 1986 standard. As discussed by the agency in a previous **Federal Register** notice, amendments reducing a standard for a particular model year may be made until the beginning of the model year, but not after that time. See 49 FR 41250, 41254–5 (October 22, 1984). In its March 1985 notice, the agency noted that since model years begin in the fall, a final rule reducing the 1986 standard would have to be issued by this fall. The agency also noted that "(t)he nearness of that deadline would necessitate that each phase of the rulemaking, including the period for commenting on a proposal, be shortened so that the rulemaking could be completed in a timely fashion." 50 FR 12344 (March 28, 1985).

Chrysler argued that the GM and Ford petitions for rulemaking were untimely filed with respect to model year 1986, given the procedural steps which it contends the agency must work through and the difficulty and importance of the issues presented. Chrysler argued that NHTSA must provide a comment period on any proposed rule of at least 60 and preferably 90 days and must wait until after the comment period to hold public hearings, in order to provide a meaningful opportunity for public comment.

NHTSA disagrees. The agency addressed the issue of the timing of petitions to reduce fuel economy standards in a notice published in the **Federal Register** (49 FR 41250, 55–56) on October 22, 1984. Noting that amendments reducing a fuel economy standard for a particular model year must be promulgated prior to the start of the model year, the agency concluded that "(a)s a general matter, petitions regarding a particular model year's standards should be submitted no later than the early part of the preceding calendar year, and preferably before that time." The GM and Ford petitions were filed on March 1, 1985, which is in the early part of the calendar year preceding model year 1986. Thus, the timing of the petitions within agency guidelines.

The agency agrees with Chrysler concerning the importance of the issues presented. It is precisely because of the importance of the issues, which concern possible serious economic harm to GM and Ford and the economy as a whole, coupled with the nearness of the deadline for amending the 1986 model year standard, that the agency finds good cause for a shortened comment period. NHTSA does not agree with Chrysler that either a 60- or 90-day comment period is required, or that the public meetings need to be held after the close of the comment period. The statute does not establish a specific minimum notice period. Accordingly, the agency has established a reasonable comment period, based on the circumstances. The agency believes that the procedural steps previously followed by the agency and those adopted here provide a full opportunity for meaningful participation by the public. The agency notes that the public was given advance notice in the March 28, 1985, **Federal Register** publication of a possible shortened comment period and the opportunity to comment on the issues raised by the petitions in advance of NHTSA's decision whether to issue an NPRM.

Disclosure of Confidential Information

Chrysler requested that NHTSA release confidential information filed by GM and Ford concerning their petitions, arguing that the public needs such information in order to have a meaningful opportunity for comment. The agency contacted GM and Ford and other manufacturers and obtained revocations of claims of confidentiality for a considerable amount of information relevant to the issues of this rulemaking. The agency believes that the information available to the public ensures a full and meaningful opportunity for comment.

Public Meeting

A public meeting will be held on August 8–9, 1985, in Washington, D.C., at the time and place specified near the beginning of this notice. The agency invites interested members of the public to participate in this meeting and to comment on the full range of issues raised by this proposal.

No opportunity will be afforded the public to directly question participants in the meetings. However, the public may submit written questions to the presiding panel of Federal officials for the panel to consider asking of particular participants. The presiding officials reserve the right to ask questions of all persons making oral presentations.

Persons wishing to make oral presentations at the public hearing should contact Ms. Viola Walsh (whose address and telephone number are provided near the beginning of this notice) by July 29, so that time limitations (if necessary) and the need for any special equipment, such as projectors, can be discussed and final arrangements can be made. A general outline of each planned oral presentation should also be submitted to Ms. Walsh by August 5. Persons whose presentations will include slides, motion pictures, or other visual aids should submit copies of them for the record at the meeting. Oral presentations will be limited to between five and 15 minutes, depending upon the number of witnesses. If the number of requests for oral presentations exceeds the available time, the agency may ask prospective witnesses having similar views or belonging to similar types of groups or occupations to combine their presentations.

Persons making oral presentations are requested but not required to submit 25 written copies of the full text of their presentation to Ms. Walsh, no later than the day before the hearings begin. Where time permits, persons who have not requested time, but would like to make a statement, will be afforded an opportunity to do so at the end of the schedule for each day. Copies of all written statements will be placed in the docket for this notice. A verbatim transcript of the public hearing will be prepared and also placed in the NHTSA docket as soon as possible after the hearing. A schedule of the persons making oral presentations at the hearing will be available at the designated meeting area at the beginning of the public meeting.

Written Comments

Interested persons are invited to submit comments on the proposal. It is requested but not required that 10 copies be submitted.

All comments must be limited not to exceed 15 pages in length. (49 CFR § 553.21) Necessary attachments may be appended to these submissions without regard to the 15-page limit. This limitation is intended to encourage commenters to detail their primary arguments in a concise fashion.

If a commenter wishes to submit certain information under a claim of confidentiality, three copies of the complete submission, including purportedly confidential information, should be submitted to the Chief Counsel, NHTSA, at the street address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. A request for confidentiality should be accompanied by a cover letter setting forth the information specified in the agency's confidential business information regulation (49 CFR Part 512).

All comments received before the close of business on the comment closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Those persons desiring to be notified upon receipt of their comments in the rules docket should enclose, in the envelope with their comments, a self-addressed stamped postcard. Upon receiving the comments, the docket supervisor will return the postcard by mail.

Impact Analyses

A. Economic Impacts

The agency considered the economic implications of the proposed amendment and determined that the proposal is major within the meaning of Executive Order 12291 and significant within the meaning of the Department's regulatory procedures. The agency's detailed analysis of the economic effects is set forth in a preliminary regulatory impact analysis, copies of which are available free from the Docket Section. The contents of that analysis are generally described above.

B. Environmental Impacts

The agency has analyzed the environmental impacts of the proposed amendment to the 1986 model year passenger automobile average fuel economy standard in accordance with the National Environmental Policy Act, 42 U.S.C. 4321 *et seq.* Copies of that analysis are available from the Docket Section. The agency's analysis concludes that no significant adverse environmental impact would result from the execution of this rulemaking action.

C. Impacts on Small Entities

Pursuant to the Regulatory Flexibility Act, the agency has considered the impact this rulemaking would have on small entities. I certify that this action would not have a significant economic impact on a substantial number of small entities. Therefore, a regulatory flexibility analysis is not required for this action. No passenger car manufacturer subject to the proposed rule would be classified as a "small business" under the Regulatory Flexibility Act. In the case of small businesses, small organizations, and small governmental units which purchase passenger cars, adoption of the proposed rule would not affect the availability of fuel efficient passenger cars or have a significant effect on the overall cost of purchasing and operating passenger cars.

In accordance with section 502(i) of the Cost Savings Act, the agency submitted this proposal to the Department of Energy for review. That Department provided extensive comments on the NPRM, which have been placed in the public docket. The Department of Energy stated that it fully supports issuance of this NPRM as consistent with the statutory criteria of "economic practicability" and the "need of the nation to conserve energy." There were no unaccommodated comments.

List of Subjects in 49 CFR Part 531

Energy conservation, Gasoline, Imports, Motor vehicles.

PART 531—[AMENDED]

In consideration of the foregoing, 49 CFR Part 531 would be amended as follows:

1. The authority citation for Part 531 would be revised to read as follows:

Authority: 49 U.S.C. 1657, 15 U.S.C. 2002, delegation of authority at 49 CFR 1.50.

2. The table in § 531.5(a) would be revised to read as follows:

§ 531.5 Fuel economy standards.

(a) * * *

Model year	Average fuel economy standard (miles per gallon)
1978	18.0
1979	19.0
1980	20.0
1981	22.0
1982	24.0
1983	26.0
1984	27.0
1985	27.5
1986	26.0
1987 and thereafter	27.5

ENVIRONMENTAL PROTECTION AGENCY

[FRL-2868-4]

Draft General NPDES Permit for Oil and Gas Operations on the Outer Continental Shelf (OCS) of Alaska; Bering Sea General Permit Area II

AGENCY: Environmental Protection Agency.

ACTION: Notice of draft General NPDES permit.

SUMMARY: The Regional Administrator, Region 10, is proposing to issue a draft general National Pollutant Discharge Elimination System (NPDES) permit for oil and gas stratigraphic test and exploration wells on the Alaskan Outer Continental Shelf.

The proposed Bering Sea II general permit will authorize oil and gas stratigraphic test and exploration wells only (not production wells) in federal waters of St. George Basin. The permit will authorize discharges from operations in all areas offered for lease by the U.S. Department of the Interior's Minerals Management Service (MMS) during Federal Lease Sale 89 (St. George Basin), with the exception of areas in the vicinity of the Pribilof Islands and Unimak Pass. A general NPDES permit (49 *FR* 23734, June 7, 1984) was issued May 30, 1984, for two previous Bering Sea lease sales, Federal Lease Sales 70 (St. George Basin) and 83 (Navarin Basin).

When issued, the proposed permit will establish effluent limitations, standards, prohibitions, and other conditions on discharges from facilities in the general permit area. These conditions are based on the administrative record. EPA regulations and the permit contain a procedure which allows the owner or operator of a point source discharge to apply for an individual permit instead of coverage under the general permit.

A brief description of the basis for the conditions and requirements of the proposed permit is given in the fact sheet published below.

Public comment period: Interested persons may submit comments on the draft general permit to EPA, Region 10, at the address below. Comments must be received in the regional office by August 23, 1985.

Public hearing: A public hearing on the proposed general permit is tentatively scheduled to be held at the Federal Building, Room 105, 710 "C" Street, Anchorage, Alaska on August 21, 1985, from 9:00 until all persons have been heard. Persons interested in making a statement at the hearing must contact Duane Karna at the address below or at (206) 442-1413 by 4:00 p.m. on August 15, 1985. The public hearing will be cancelled if insufficient interest is expressed in it. Interested persons can contact Duane Karna between the hours of 8:30 a.m. and 4 p.m. on August 16, 1985, to confirm that the hearing will take place. At the hearing, interested persons may submit oral or written statements concerning the draft general permit.

Requets for coverage: Written request for authorization to discharge under the general permit shall be provided, as described in Part I.A. of the draft permit, to EPA, Region 10, at least 60 days prior to initiation of discharges. The 60-day notification requirement may be waived for those permittees who notify EPA during the public comment period for the draft permit. Authorization to discharge requires written notification from EPA that coverage has been granted and that a specific permit number has been assigned to operations at the discharge site. The permit also requires permittees to notify EPA no more than 7 days prior to the initiation of discharges at the site.

Administrative record: The administrative record for the draft permit is available for public review at EPA, Region 10, Room 10D, at the address listed below.

ADDRESS: Public comments and requests for coverage should be sent to: Environmental Protection Agency, Region 10, Attn: Ocean Programs Section M/S 430, 1200 Sixth Avenue, Seattle, Washington 98101.

FOR FURTHER INFORMATION CONTACT: Duane Karna, Region 10, at the address listed above or telephone (206) 442-1413. Copies of the draft general permit and today's publication will be provided upon request.

Fact Sheet

I. General Permits and Requests for Individual NPDES Permits

Section 301(a) of the Clean Water Act (the Act) provides that the discharge of pollutants is unlawful except in accordance with the terms of an NPDES permit. Under EPA's regulations [40 CFR 122.28(a)(2)], EPA may issue a single general permit to a category of point sources located within the same geographic area if the regulated point sources:

(1) Involve the same or substantially similar types of operations;

(2) Discharge the same types of wastes;

(3) Require the same effluent limitations or operating conditions;

(4) Require similar monitoring requirements; and

(5) In the opinion of the Regional Administrator, are more appropriately controlled under a general permit than under individual permits.

In addition, under EPA regulations [40 CFR 122.28(c)(1)], the Regional Administrator is required to issue general permits covering discharges from offshore oil and gas facilities within the Region's jurisdiction. Where the offshore area includes areas, for which separate permit conditions are required, such as areas of environmental concern, a separate individual or general permit may be required by the Regional Administrator.

The Regional Administrator has determined that exploratory oil and gas facilities operating in the area described in this general NPDES permit are more appropriately controlled by a general permit than by individual permits. The decision of the Regional Administrator is based on an evaluation of the section 403(c) Ocean Discharge Criteria (40 CFR Part 125, Subpart M) for discharges from exploratory operations in St. George Basin, the Agency's recent permit decisions in other Alaskan OCS areas, and the Final Environmental Impact Statement (Final EIS) for OCS Lease Sale 89.

Two geographic zones within proposed St. George Basin OCS Lease Sale 89 are excluded from coverage under the draft general permit. EPA has identified these zones as areas of biological concern based on information provided in the Final EIS for the proposed lease offering. The importance of the biological resources in these zones has led the Regional Administrator to conclude pursuant to 40 CFR 122.28(b)(2)(ii) and 122.28(c) that they should be excluded from coverage under the proposed general permit. Lease Sale 89 is scheduled for September 1985. If blocks within the two zones excluded from coverage under the general NPDES permit are offered and accepted for lease, operators in these areas would have to submit individual NPDES permit applications to EPA Region 10. The Region will review individual permit applications and all available site-specific environmental information on a case-by-case basis to determine appropriate permit conditions for operations in these areas.

The first zone excluded from coverage under the general permit was evaluated in the Final EIS as the Pribilof Islands Deferral Alternative. It consists of all whole and partial OCS blocks within a 50 statute mile radius of the Pribilof Islands. The area supports major populations of marine mammals, including benthic feeding species, and

marine and coastal birds, and provides important feeding habitat for these species. Furthermore, this region supports a major fishery for species of bottomfish and is an important migratory pathway for salmonid fish. Finally, recently reported work under the OCS Environmental Assessment Progam has revealed that virtually the entire U.S. population of blue king crab spawns in this area.

The second zone excluded from coverage under the proposed general permit is the area evaluated as the Unimak Pass Deferral Alternative in the Final EIS and consists of all whole and partial OCS blocks within 50 statute miles of Unimak Pass. This area is a major migratory route for fur seals, whales, and salmonid fish. Throughout most of the year, this region provides critical habitat for various species of migratory seabirds and waterfowl as well as for foraging seabirds.

Any owner and/or operator authorized to discharge under a general permit may request to be excluded from coverage under the general permit by applying for an individual permit as provided by 40 CFR 122.28(b). The operator shall submit an application together with the reasons supporting the request to the Director, Water Division, EPA, Region 10 ("Director"). A source located within a general permit area, excluded from coverage under the general permit solely because it already has an individual permit (i.e., a permit that has not been continued under the Administrative Procedures Act), may request that its individual permit be revoked, and that it be covered by the general permit. Upon revocation of the individual permit, the general permit shall apply. Procedures for modification, revocation, termination, and processing of NPDES permits are provided by 40 CFR 122.62–122.64. As in the case of individual permits, violation of any condition of a general permit constitutes a violation of the Act that is enforceable under section 309 of the Act.

II. Nature of Discharges and Covered Facilities

The general permit proposed today authorizes the discharge of drilling muds, drill cuttings and associated operational wastewaters from exploratory operations in federal waters. Exploratory operations are defined as those operations involving the drilling of wells to determine the nature of potential hydrocarbon reserves. Under the permit, they are limited to a maximum of five wells at a single site. Exploration facilities covered by this general permit are included in the Offshore Subcategory of the Oil and Gas Extraction Point Source Category (40 CFR Part 435).

This general permit authorizes the following discharges: drilling mud; drill cuttings and washwater; deck drainage; sanitary wastes; domestic wastes; desalination unit wastes; blowout preventer fluid; boiler blowdown; fire control system test water; non-contact cooling water; uncontaminated ballast water; uncontaminated bilge water; excess cement slurry; mud, cuttings, and cement at the seafloor; and test fluids. Descriptions of discharges are given in Part II.A. of the permit.

Drilling muds and cuttings are the major pollutant sources discharged from exploratory drilling operations.

III. Statutory Basis for Permit Conditions

Sections 301(b), 304, 308, 401, 402, and 403 of the Clean Water Act provide the basis for the permit conditions contained in the permit. The general requirements of these sections fall into three categories, which are described below. A discussion of the basis for specific permit conditions follows in Part IV.

A. Technology-Based Effluent Limitations.

1. *BPT Effluent Limitations:* The Clean Water Act requires particular classes of industrial dischargers to meet effluent limitations established by EPA. EPA promulgated effluent limitations guidelines requiring Best Practicable Control Technology Currently Available (BPT) for the Offshore Subcategory of the Oil and Gas Extraction Point Source Category (40 CFR Part 435, Subpart A) on April 13, 1979 (44 *FR* 22069).

BPT effluent limitations guidelines required "no discharge of free oil" for discharges of deck drainage, drilling muds, drill cuttings, and well treatment fluids. This limitation required that a discharge shall not cause a film or sheen upon or discoloration on the surface of the water or adjoining shorelines, or cause a sludge or emulsion to be deposited beneath the surface of the water or upon adjoining shorelines (40 CFR 435.11(d)). The BPT effluent limitations guideline for sanitary waste required that the concentration of chlorine be maintained as close to 1 mg/l as possible in discharges from facilities housing ten or more persons. For facilities continuously manned by nine or fewer persons or only intermittently manned by any number of persons, the BPT effluent limitations guideline for sanitary waste required no discharge of floating solids. A "no floating solids" guideline also applied to domestic waste. BPT limitations on oil and grease in produced water allowed a daily maximum of 72 mg/l and a monthly average of 48 mg/l.

2. *BAT and BCT Effluent Limitations:* All permits issued after July 1, 1984, are required by section 301(b)(2) of the Act to contain effluent limitations for all categories and classes of point sources which: (1) Control toxic pollutants (40 CFR 401.15) through the use of Best Available Technology Economically Achievable (BAT), and (2) represent Best Conventional Pollutant Control Technology (BCT). BCT effluent limitations apply to conventional pollutants (pH, BOD, oil and grease, suspended solids, and fecal coliform). In no case may BCT or BAT be less stringent than BPT. Permits must impose effluent limitations which control nonconventional pollutants by means of BAT not later than July 1, 1987.

BAT/BCT effluent limitations guidelines and New Source Performance Standards (NSPS) are currently under development and will be proposed in the near future for the Offshore Subcategory. In the absence of effluent limitations guidelines for the Offshore Subcategory, permit conditions must be established using Best Professional Judgment (BPJ) procedures (40 CFR 122.43, 122.44, and 125.3). This permit incorporates BAT and BCT effluent limitations based on the Agency's Best Professional Judgment. Previous BPJ determinations for offshore oil and gas exploratory operations were incorporated into the general permits for the Bering and Beaufort Seas (49 *FR* 23734, June 7, 1984) and for Norton Sound (50 *FR* 23578, June 4, 1985).

As required by section 304(b)(2)(B) of the Act, in developing the BPJ/BAT permit conditions, the Agency considered the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, the cost of achieving such effluent reduction, non-water quality environmental impact (including energy requirements), and such other factors as the Director deemed appropriate.

The types of equipment and processes employed in exploratory drilling operations are well known to the Agency. Region 10 has issued numerous general and individual permits for such operations. The records for this permit and those earlier permits thoroughly discuss the types of equipment, facilities and processes employed in exploratory drilling operations. With regard to the engineering aspects of the application of various types of control techniques, there are no BAT permit limitations

based on installation of control equipment. All proposed BAT permit

prohibition of discharge, if necessary, to ensure this goal" (45 *FR* 65942, October

of deck drainage, drilling muds, drill cuttings, and well treatment fluids

washers to meet the free oil limitation. The limitation on the maximum oil

waste streams, Region 10 has determined that the BCT effluent

based on installation of control equipment. All proposed BAT permit limitations can be achieved through product substitution, the technology basis for the limitations in this permit. Any costs of achieving the effluent limitations and any non-water quality environmental impacts were also evaluated. A discussion of such evaluations is presented below with respect to any limitation where applicable.

As required by section 304(b)(4)(b) of the Act, the Agency considered the same factors in determining BPJ/BCT permit conditions, but with one exception. Rather than considering "the cost of achieving such effluent reduction," any BCT determination includes "consideration of the reasonableness of the relationship between the costs of attaining a reduction in effluents and the effluent reduction benefits derived, and the comparison of the cost and level of reduction of such pollutants from publicly owned treatment works to the cost and level of reduction of such pollutants from a class or category of industrial sources." BCT effluent limitations cannot be less stringent than BPT; therefore, if the candidate industrial technology fails the BCT "cost test", BCT effluent limitations are set equal to BPT.

The Agency's evaluation of the BAT factors, as discussed above, is also applicable to BCT, as well as to the Agency's best professional judgment determinations of BPT in instances where there is no BPT effluent limitation guideline for a particular wastestream. Unlike the BAT permit limitations, there is one BCT limitation based on installation of control equipment. There is a 10 percent limitation on the oil content of cuttings, based on the efficiency of cuttings washers. With respect to the BCT "cost test," all BCT limitations are equal to the BPT effluent limitations guidelines or to the Region's best professional judgment determinations of BPT. Therefore, no incremental cost will be incurred.

B. Ocean Discharge Criteria.

Section 403 of the Act requires that an NPDES permit for a discharge into marine waters located seaward of the inner boundary of the territorial seas be issued in accordance with guidelines for determining the degradation of the marine environment. These guidelines, referred to as the Ocean Discharge Criteria (40 CFR Part 125, Subpart M), and section 403 are intended to "prevent unreasonable degradation of the marine environment and to authorize imposition of effluent limitations, including a prohibition of discharge, if necessary, to ensure this goal" (45 *FR* 65942, October 3, 1980).

If EPA determines that the discharge will cause unreasonable degradation, an NPDES permit will not be issued. If a determination of unreasonable degradation cannot be made because of a lack of sufficient information, EPA must then determine whether a discharge will cause irreparable harm to the marine environment and whether there are reasonable alternatives to on-site disposal. To assess the probability of irreparable harm, EPA is required to make a determination that the discharger, operating under appropriate permit conditions, will not cause permanent and significant harm to the environment during a monitoring period in which additional information is gathered. If data gathered through monitoring indicate that continued discharge may cause unreasonable degradation, the discharge must be halted or additional permit limitations established.

The Regional Administrator has concluded that there is sufficient information to determine that exploratory oil and gas facilities operating under the effluent limitations and conditions in this general permit will not cause unreasonable degradation of the marine environment pursuant to the Ocean Discharge Criteria guidelines. Conditions imposed under section 403(c) are discussed below in Part IV.D., Requirements Based on the Ocean Discharge Criteria Evaluation.

C. Section 308 of the Clean Water Act.

Under section 308 of the Act and 40 CFR 122.44(i) the Director must require a discharger to conduct monitoring to determine compliance with effluent limitations and to assist in the development of effluent limitations. EPA has included several monitoring requirements in this permit, as listed in the table below.

IV. Specific Permit Conditions

A. Approach

The determination of appropriate conditions for each discharge was accomplished through:

(1) Consideration of technology-based effluent limitations to control conventional pollutants under BCT;

(2) Consideration of technology-based effluent limitations to control toxic and nonconventional pollutants under BAT; and

(3) Evaluation of the Ocean Discharge Criteria assuming conditions in parts (1) and (2) were in place.

Discussions of the specific effluent limitations and monitoring requirements derived from (1) through (3) appear below in Parts B. through D., respectively. For convenience, these conditions and the regulatory basis for each are cross-referenced by discharge in the following table:

Discharge and permit condition	Statutory basis
Drilling muds and cuttings:	
Authorized muds and additives only	BAT.
No oil-based muds	BCT.
No diesel	BAT.
10% max. oil content of cuttings	BCT.
No free oil	BCT.
3 mg/kg cadmium and 1 mg/kg mercury in barite.	BAT.
Monitoring of metals and toxicity	Section 308.
Depth-related discharge rate limits	Section 403(c).
Monitor volume discharged	Section 308.
Inventory of added substances	Section 308.
Deck drainage:	
No free oil	BCT.
Monitor discharge rate	Section 308.
Sanitary wastes:	
No floating solids	BCT.
Chlorine 1.0 mg/1 (facilities with more than 10 people).	BCT.
Monitor discharge rate	Section 308.
Domestic wastes:	
No floating solids	BCT.
Monitor discharge rate	Section 308.
Miscellaneous discharges (Discharges 006 to 014 in the permit):	
No free oil	BCT.
Monitor discharge rate	Section 308.
Inventory of added substances	Section 308.
Test fluids:	
pH 6.5-8.5	BCT & Marine Water Quality Criteria.
No free oil	BCT.
Oil & grease limits: 48 mg/1 monthly avg., 72 mg/1 daily max.	BCT.
Monitor volume discharged	Section 308.
All discharges:	
No halogenated phenols, sodium chromate, sodium dichromate, or trisodium nitrilotriacetic acid.	BAT.
No floating solids	BCT.

B. BCT Requirements

1. *Oil and grease in test fluids:* Limited volumes of formation waters which are encountered during testing of the well are authorized for discharge as test fluids. Under BPT oil and grease in discharges of produced water were limited to a 48 mg/l monthly average and a 72 mg/l daily maximum based on oil/water separation technologies. Since formation waters may be present in test fluids, these limits are applied to the discharge of test fluids under BCT. This limitation is equal to BPT because Region 10 does not have technology performance data available at this time on which to base a more stringent limitation. As this limitation is equal to the BPT level of control, there is no incremental cost involved.

2. *Free oil and oil-based muds:* No discharge of free oil is permitted from discharges authorized by this permit. Region 10 has determined that the BPT effluent limitations guideline of no discharge of free oil from the discharge of deck drainage, drilling muds, drill cuttings, and well treatment fluids should apply to other discharges, including uncontaminated bilge water, uncontaminated ballast water, test fluids, desalination unit wastes, boiler blowdown, non-contact cooling water, excess cement slurry, blowout preventer fluid, fire control system test water; and mud, cuttings and cement at the seafloor. Thus, the no free oil limitation is Region 10's best professional judgment determination of BPT controls for these discharges. They have been subject to a no free oil limitation in previous permits issued by Region 10, and past practices have not resulted in violations of this limitation.

Under the draft permit, the discharge of oil-based drilling muds (with oil as the continuous phase and water as the dispersed phase) is prohibited since oil-based muds would violate the BCT effluent limitation of no discharge of free oil.

No technology performance data available to Region 10 indicate that more stringent standards are appropriate at this time. Region 10 has, therefore, set BCT effluent limitations equal to the BPT level of control. As such, these limitations impose no incremental costs.

The monitoring requirement for determining compliance with the effluent limitation on free oil is in most instances a visual observation of the receiving water. However, the Static Sheen Test is required for monitoring free oil in discharges with the greatest likelihood of oil contamination. These are: (1) Drilling muds and drill cuttings, with the Static Sheen Test required year-round, and (2) deck drainage and bilge water, with the Static Sheen Test required when ice is present on the receiving water. The Static Sheen Test on drilling muds must be conducted prior to bulk discharges. Thus, a violation of the limitation due to the discharge of oil-contaminated drilling muds can be prevented, something a visual observation of a sheen on the receiving water does not allow.

3. *Oil content of cuttings:* The draft general permit restricts the discharge of oil-contaminated cuttings by prohibiting the discharge of free oil (see Part IV.B.2) and by limiting the maximum mineral oil content of cuttings. The limitation of 10 percent by weight on oil content is based on the efficiency of currently available cuttings washers in removing oil from drill cuttings. Region 10 expects that if mineral oil-based drilling muds or water-based muds with high concentrations of mineral oil additives are used, drill cuttings would, at a minimum, have to be washed by cuttings washers to meet the free oil limitation. The limitation on the maximum oil content of drill cuttings has been imposed as an additional means of effectively controlling the discharge of oil from cuttings associated with these muds.

Region 10 expects that cuttings washers will routinely be required only for drilling operations which use mineral oil-based drilling muds or water-based muds with high concentrations of mineral oil additives, and not for all drilling operations. Due to the rare usage of such muds by exploratory drilling operations, very few, if any, Alaskan exploratory facilities will require the installation of cuttings washers. Any facility requiring a cutting washer to meet the 10 percent oil limitation is expected to already require a cutting washer to meet the BPT effluent limitation of no free oil. Therefore, there is no incremental cost involved beyond the cost of monitoring compliance, and the limitation passes the BCT cost test.

The permit requires an analysis of drill cuttings for oil content daily when oil-based drilling fluids or oil additives are used. Analysis is also required daily when drilling fluids could be contaminated with hydrocarbons from the formation. In addition, analysis is required immediately on any sample that has failed the daily Static Sheen Test if a discharge has occurred. Two alternative analytical methods for determining the oil content of drill cuttings are specified in the permit: (1) The soxhlet extraction procedure for oil and grease (as specified in 40 CFR Part 136), and (2) the American Petroleum Institute retort distillation procedure for oil.

4. *pH:* The pH of discharged test fluids (which may have a substantially different pH from that of the ambient receiving water) has been limited to a range of 6.5–8.5 at the point of discharge. In the Agency's best professional judgment, this limitation appropriately equals a BPT level of control. No more stringent standard has been identified by the Agency at this time. Therefore, the Agency is setting a BCT effluent limitation for the pH of test fluids equal to that of BPT. This limitation will ensure that pH changes greater than 0.2 pH unit will not occur beyond the edge of the 100-meter mixing zone [40 CFR 125.121(c)]. This requirement has been and is routinely complied with by operations under previous BPT permits and thus, reflects no cost incremental to BPT.

5. *Floating solids:* The BCT prohibition on floating solids is equal to the BCT level of control for sanitary wastes. As with the free oil limitations for other waste streams, Region 10 has determined that the BCT effluent limitations guideline of no discharge of floating solids from the discharge of sanitary wastes should apply to all other discharges as well. Thus, the no floating solids limitation is Region 10's best professional judgment determination of BPT limitations for these discharges. They have been subject to this limitation in previous permits issued by Region 10, and past practices have not resulted in violations of this limitation. No technology performance data available to Region 10 indicate that a more stringent standard is appropriate at this time. Therefore, Region 10 has determined that the BCT effluent limitation on floating solids from these discharges is equal to the BPT level of control. As such, the extension of this limitation to all discharges will involve no incremental cost.

6. *Chlorine:* The requirement of maintaining residual chlorine levels as close as possible to, but no less than 1 mg/1 in sanitary waste discharges for facilities manned by 10 or more people is a BCT determination equal to BPT. There is therefore no incremental cost to the industry.

C. BAT Requirements

1. *Diesel oil:* The discharge of muds which have been contaminated by diesel oil (i.e., those drilling muds which have contained diesel) or drill cuttings associated with these muds is prohibited. Diesel, which is sometimes added to a water-based mud system, is a complex mixture of petroleum hydrocarbons, known to be highly toxic to marine organisms and to contain numerous toxic and nonconventional pollutants. While this limitation thereby controls the toxic as well as nonconventional pollutants present in diesel, the Agency's primary concern is to control the toxic pollutants. The pollutant "diesel oil" is being used as an "indicator" of the listed toxic pollutants present in diesel oil which are controlled through compliance with the effluent limitation (i.e., no discharge). The technology basis for this limitation is product substitution of less toxic mineral oil for diesel oil.

The Agency selected "diesel" as an "indicator" as an alternative to establishing limitations on each of the specific toxic and nonconventional pollutants present in the diesel-contaminated waste streams. The listed toxic pollutants found in various diesel oils include naphthalene, benzene, ethylbenzene, phenanthrene, toluene, fluorene, and phenol. Diesel oil may contain from 20 to 60 percent by volume

aromatic hydrocarbons. The light aromatic hydrocarbons, such as

which must be conducted onshore, possibly outside the State of Alaska,

and other potentially toxic metals which can occur as contaminants in some

fluids by allowing only the discharge of generic drilling muds (listed in Table 1

unreasonable amount of time. Interim authorizations may also require testing a

4. Other toxic and nonconventional compounds. Under the permit discharges

VOL 50 ISS 140 JL 22 1985 UMI

aromatic hydrocarbons. The light aromatic hydrocarbons, such as benzenes, naphthalenes, and phenanthrenes, constitute the most toxic major components of petroleum products. Mineral oils, with their lower aromatic hydrocarbon content and lower toxicity, contain lower concentrations of toxic pollutants than do diesel oils. Diesel oil also contains a number of nonconventional pollutants, including polynuclear aromatic hydrocarbons such as methylnaphthalene, dimethylnaphthalene, methylphenanthrene, and other alkylated forms of each of the listed toxic pollutants.

The Region has determined that eliminating the discharge of drilling fluids contaminated with diesel oil will reduce the levels of toxic pollutants present in discharged fluids. Studies show that when the amount of diesel is reduced in drilling muds, the concentrations of toxic pollutants and the overall toxicity of the fluid generally is reduced. Available data clearly establish that diesel oils as a class contain significantly higher levels of toxic pollutants than do mineral oils as a class. It is reasonable and appropriate to conclude that BAT-level control of toxic pollutants (i.e., reduction in concentrations through substitution of mineral oil for diesel oil) will be achieved by regulating diesel oil as an indicator pollutant.

Region 10 has concluded that establishing effluent limitations for each of the seven toxic pollutants present in diesel oil is not economically or technically feasible at this time. The level achievable by BAT controls on the specific toxics can be calculated using available data on the three mineral oils which have been extensively characterized. However, the limited data on the many diesel and mineral oils, mud formulations, and the various additives used, and on the unquantified changes in toxic pollutant concentrations during drilling all frustrate an attempt to develop specific toxic pollutant effluent limitations at this time.

Not only is it infeasible to establish limitations on the specific toxic pollutants, but to comply with specific limitations on each of the toxic pollutants would be costly and technically complex. The analytical costs for specific pollutant analyses would be much greater than the cost of analyzing for diesel by gas chromatography alone. The high cost of compliance monitoring, which may include awaiting results of analyses, which must be conducted onshore, possibly outside the State of Alaska, also would be unwarranted. Either operators would have to delay discharge until monitoring results confirmed compliance or they would discharge and risk permit noncompliance. A permit limitation that prohibits the discharge of diesel oil is economically and technologically feasible and allows a determination of permit compliance prior to discharge.

The prohibition on the discharge of diesel is a technology-based BAT limitation based on product substitution. Low toxicity mineral oils are available as product substitutes for diesel oil, and do not impose unreasonable additional costs on industry. The Agency has relied primarily on the increased cost of mineral oil over diesel oil as a basis for this determination. For example, mineral oil costs Alaskan operators approximately $2.60 per gallon more than does diesel oil. The increased costs associated with using mineral oil rather than diesel oil for 50 barrels (2,100 gallons) of oil (the maximum amount generally expected in a concentrated spotting or "pill" formulation used to free stuck drill pipe) would therefore be equal to approximately $5,500. Since the frequency of differential sticking of drill pipe requiring the use of oil-based spotting formulations is low for exploratory operations (less than once per well on an average), this cost would not be incurred for each operation. The Agency has evaluated other costs associated with either diesel or mineral use in response to comments on the draft Norton Sound permit (50 FR 28589, Response to Comment 10). Both analyses show that the cost associated with the prohibition on the discharge of diesel oil clearly is economically achievable.

Region 10 has considered limiting "free oil," "oil-based drilling fluids," and "oil content of cuttings" as indicators of toxic pollutants. While the Agency has determined that such effluent limitations will control the discharge of toxic pollutants in these oils, it is unnecessary to designate these pollutants as indicators since the same levels of control have been established under BCT, which are equal to levels of control required by the BPT effluent limitations guidelines. Therefore, redundant limitations under BAT are not proposed for these pollutant parameters.

2. Mercury and cadmium in barite. The permit contains limitations of 1 mg/kg mercury and 3 mg/kg cadmium in barite, a major constituent of drilling muds. These restrictions are designed to limit the discharge of mercury, cadmium, and other potentially toxic metals which can occur as contaminants in some sources of barite. An identical limitation is included in the general permits for the Bering and Beaufort Seas and Norton Sound.

As discussed in the fact sheets for the above permits, the justification for the limitation under BAT is product substitution; i.e., Alaskan operators can substitute "clean" barite, which meets the above limitations, for contaminated barite which does not. Numerous offshore exploratory wells have been drilled in Alaska over the past year, and chemical analyses have shown that the barite used has not exceeded the limitations. Given that "clean" barite is available and that operators in the Bering and Beaufort Seas have been complying with an identical limitation, Region 10 believes that this limitation is both technologically feasible and economically achievable.

Region 10 has determined that it is impractical at this time to place the limitations on drilling mud until additional data are collected. Furthermore, if the limitation were placed on the drilling mud rather than on the barite, it would not be feasible for an operator to determine in advance if the discharge complied with the permit requirements since metals analyses must be conducted at commercial laboratories onshore. Such a requirement may impose costly and unreasonable delays while the analyses were being conducted.

EPA does recognize the possibility of changes in the available supply of "clean" barite. The draft permit contains a provision which would allow the Water Division Director the discretion to grant a waiver from the limitations on a case-by-case basis if the permittee (1) satisfactorily demonstrates that barite which meets the limitation is not available, and (2) provides results of analyses of the substitute barite. In determining the availability of "clean" barite under this provision, Region 10 will reasonably consider all relevant factors, including the cost of obtaining barite which meets the limitations. The Agency solicits comments and supporting data from those individuals who do not believe they can meet the above limitations. The Agency also solicits data indicating any increased costs that a permittee has incurred in meeting the barite limitations contained in the general permits for offshore drilling in the Beaufort and Bering Seas (49 FR 23734, June 7, 1984).

3. *Generic muds and authorized additives.* The draft permit limits the discharge of toxic substances in drilling fluids by allowing only the discharge of generic drilling muds (listed in Table 1 of the draft permit) and additives for which acceptable bioassay or chemical data are available. Permittees are required to certify in advance of discharge that only generic drilling muds and authorized additives will be discharged.

Permittees may discharge additives listed in Table 2 of the draft permit up to the specified concentrations without special permission. This table is the same as Table 2 in the Norton Sound general permit (50 *FR* 23578, June 4, 1985). The permit contains a provision (Table 2) which will allow the discharge of additives which are listed in Table 2 of subsequent Region 10 general permits, unless otherwise stated in the new permits. For operations under this permit, any additive receiving authorization in this manner will be evaluated according to the regional criteria used for this permit.

Any discharge of a generic mud which has been modified other than by addition of an additive listed in Table 2 requires submission of information demonstrating that it passes the criteria in Part II.C.1.d. of the permit or prior authorization by EPA, Region 10. Permittees may request authorization to discharge additives (including mineral oils) not listed in Table 2 by submitting appropriate information and bioassay data in advance of discharge. Region 10 will determine whether the use of the requested additives is likely to cause the mud system to be more toxic than Generic Mud No. 1, which is the base formulation which the Agency uses to determine acceptable toxicity levels for discharge of fluids. Other criteria (e.g., persistence and degradation), as appropriate, are also considered in the evaluation process. The proposed permit furthermore contains a provision (Part II.C.1.f. of the permit) which allows an exception for the discharge of mineral oil-containing muds which exceed the toxicity of Mud No. 1 if the least toxic available alternative is discharged.

In some cases, interim authorizations to discharge may be granted if preliminary bioassay data are submitted and the Region determines that additional bioassay testing or other analyses are required. Such testing may be required, for example, to examine possible cumulative or synergistic effects if the additive is to be used in combination with a number of other additives. Because the additional testing may take a considerable amount of time to conduct, interim authorization to discharge may be granted so that operations are not impaired for an unreasonable amount of time. Interim authorizations may also require testing a used drilling mud from a rig.

This approach to limiting toxicity is expected to control the discharge of listed toxic as well as nonconventional pollutants in drilling muds. For example, the toxicity of muds containing lubricants, including mineral oil products, may vary widely, and such additives may greatly increase the toxicity of the mud. Studies on diesel-contaminated drilling muds have shown toxicity to be strongly correlated with content of aromatic hydrocarbons, which include listed toxic pollutants. Some mineral oils also contain aromatic hydrocarbons which are listed toxics, such as fluorene, naphthalene, and phenanthrene. The toxicity of muds containing these oils is assumed to be caused, in part, by the listed toxic pollutants as well as by the nonconventional pollutants. Region 10 has determined that it is technically and economically infeasible to directly limit the toxic pollutants in drilling muds, as discussed in Part IV.C.1. Therefore, the Region has determined that the toxicity limitations (e.g., generic muds and approved additives) constitute a reasonable approach which is expected to control not only listed toxic pollutants, but other toxic substances (i.e., toxic nonconventional pollutants) as well.

The technology basis for this permit condition is product substitution; i.e., mud additives and components which would cause the toxicity of a mud system to exceed that of Generic Mud No. 1 can be replaced by less toxic mud additives and components.

Under section 308 of the CWA, compliance with this permit condition will be monitored in two ways: first, by requiring that permittees certify that only generic muds and authorized additives will be discharged; and second, by requiring that permittees submit an end-of-well inventory listing all chemicals and the amounts of each added to each mud system. In addition, permittees must analyze one sample from the end-of-well mud system for metals content and toxicity. The metals data will be used to verify that mercury and cadmium limits on barite are adequately controlling metal concentrations in used muds. The Drilling Fluids Toxicity Test, performed on the end-of-well mud system, will provide a comparison between the toxicity of used muds containing mixtures of additives and the bioassay data submitted on individual additives prior to discharge.

4. Other toxic and nonconventional compounds. Under the permit discharges of the following pollutants are prohibited: halogenated phenol compounds, trisodium nitrilotriacetic acid, sodium chromate, and sodium dichromate. The class of halogenated phenol compounds includes toxic pollutants, and sodium chromate and dichromate contain chromium; also a toxic pollutant. Trisodium nitrilotriacetic acid is a nonconventional pollutant. The discharge of these compounds was previously prohibited in the BPT general permits for the Beaufort Sea and Norton Sound (48 *FR* 54881, December 7, 1983) as well as in the BAT/BCT general permits for the Bering and Beaufort Seas and Norton Sound. These compounds are therefore subject to BAT limitations. Because operators complied with this provision in the BPT permit, there is no additional cost to the industry.

D. Requirements Based on the Ocean Discharge Criteria Evaluation

1. Drilling muds, cuttings, and washwater. Additional restrictions on these discharges are necessary to ensure no unreasonable degradation of the environment. Lease Sale 89 includes water depths between 30 and 3,200 meters. Discharge rate limitations on muds and cuttings have been established in the Ocean Discharge Criteria Evaluation process in order to allow adequate dispersion of the discharges. These maximum rates will ensure that acceptable toxicity levels will be met at the edge of the 100-meter mixing zone during open water conditions.

2. Other discharges (003–015). These discharges are adequately controlled by the limitations in Parts II.C.–F. of the draft permit to ensure no unreasonable degradation of the marine environment due to those discharges.

V. Other Legal Requirements

A. Oil Spill Requirements

Section 311 of the Act prohibits the discharge of oil and hazardous materials in harmful quantities. Routine discharges specifically controlled by the permit are excluded from the provisions of section 311. However, this permit does not preclude the institution of legal action or relieve permittees from any responsibilities, liabilities, or penalties for other, unauthorized discharges of oil and hazardous materials which are covered by section 311 of the Act.

B. Endangered Species Act

Based on information in the revised Ocean Discharge Criteria Evaluation and in the Final Environmental Impact

Statement prepared for Federal Lease Sale 89, EPA has concluded that the discharges authorized by this general

imposed on regulated facilities in this draft general permit under the Paperwork Reduction Act of 1980, 44

Reader Aids

Federal Register
Vol. 50, No. 140

VOL 50 ISS 140 JL 22 1985 UMI

Statement prepared for Federal Lease Sale 89, EPA has concluded that the discharges authorized by this general permit will neither jeopardize the continued existence of any endangered or threatened species nor adversely affect their critical habitat. EPA is requesting comments from the U.S. Fish and Wildlife Service and the National Marine Fisheries Service and will consider their comments in making the final permit decision. EPA will initiate consultation should new information reveal impacts not previously considered, should the activities be modified in a manner beyond the scope of the original opinion, or should the activities affect a newly listed species.

C. Coastal Zone Management Act

EPA has determined that the activities authorized by this general permit are consistent with local and state Coastal Management Plans. The proposed permit and consistency determination will be submitted to the State of Alaska for state interagency review at the time of public notice. The requirements for State Coastal Zone Management Review and approval must be satisfied before the general permit may be issued.

D. Marine Protection, Research and Sanctuaries Act

No marine sanctuaries as designated by this Act exist in the vicinity of the permit areas.

E. State Water Quality Standards and State Certification

No state waters are included in this permit.

F. Executive Order 12291

The Office of Management and Budget has exempted this action from the review requirements of Executive Order 12291 pursuant to section 8(b) of that order.

G. Paperwork Reduction Act

EPA has reviewed the requirements imposed on regulated facilities in this draft general permit under the Paperwork Reduction Act of 1980, 44 USC 3501 et seq. Most of the information collection requirements have already been approved by the Office of Management and Budget (OMB) in submissions made for the NPDES permit program under the provisions of the Clean Water Act. In addition, the environmental monitoring requirements pursuant to section 403(c) of the Clean Water Act in Part II.B. of this permit are similar to the monitoring requirements that were approved by OMB for the previously issued Beaufort Sea general NPDES permit (June 7, 1984; 49 *FR* 23734) and the Norton Sound general permit (50 *FR* 23578, June 4, 1985). The final general permit will explain how the information collection requirements respond to any OMB or public comments.

H. The Regulatory Flexibility Act

After review of the facts presented in the notice of intent printed above, I hereby certify, pursuant to the provisions of 5 U.S.C. 605(b), that this general permit will not have a significant impact on a substantial number of small entities. This certification is based on the fact that the regulated parties have greater than 500 employees and are not classified as small businesses under the Small Business Administration regulations established at 49 *FR* 5024 et seq. (February 9, 1984). These facilities are classified as Major Group 13—Oil and Gas Extraction SIC 1311 Crude Petroleum and Natural Gas.

Dated: July 17, 1985.

Signed:

Ernesta B. Barnes,

Regional Administrator, Region 10.

LIST OF PUBLIC LAWS

Last List July 16, 1985.
This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202–275–3030).

H.J. Res. 325/Pub. L. 99–66
To designate July 13, 1985, as "Live Aid Day". (July 17, 1985; 99 Stat. 164) Price $1.00

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

New units issued during the week are announced on the back cover of the daily **Federal Register** as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $550 domestic, $137.50 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Title 3—

The President

Proclamation 5357 of July 19, 1985

Captive Nations Week, 1985

By the President of the United States of America

A Proclamation

The unique and historic significance of our Nation has always derived from our role as a model of political freedom, social justice, and personal opportunity. While not a perfect Nation, we have offered to the world a vision of liberty. It is a vision that has motivated all our national endeavors and serves us yet as an anchor of conscience. The humanity and justice of our collective political life and the freedom and limitless opportunity in our personal lives are an inspiration for the peoples of the world, both for those who are free to aspire and for those who are not.

The uniqueness of our vision of liberty comes not only from its historical development, but also from the conviction that the benefits of liberty and justice rightfully belong to all humanity. Hostility to this fundamental principle still haunts the world, but our conviction that political freedom is the just inheritance of all nations and all people is firm. Our dedication to this principle has not been weakened by the sad history of conquest, captivity, and oppression to which so many of the world's nations have been subjected.

We are all aware of those many nations that are the victims of totalitarian ideologies, ruthless regimes, and occupying armies. These are the nations held captive by forces hostile to freedom, independence, and national self-determination. Their captivity and struggle against repression require a special courage and sacrifice. Those nations of Eastern Europe that have known conquest and captivity for decades; those struggling to save themselves from communist expansionism in Latin America; and the people of Afghanistan and Kampuchea struggling against invasion and military occupation by their neighbors: all require our special support. For those who seek freedom, security, and peace, we are the custodians of their dream.

Our Nation will continue to speak out for the freedom of those denied the benefits of liberty. We will continue to call for the speedy release of those who are unjustly persecuted and falsely imprisoned. So long as brave men and women suffer persecution because of their national origin, religious beliefs, and desire for liberty, the United States of America will demand that the signatories of the United Nations Charter and the Helsinki Accords live up to their obligations and respect the principles and spirit of those international agreements and understandings.

Each year we renew our resolve to support the struggle for freedom throughout the world by observing Captive Nations Week. It is a week in which all Americans are asked to remember that the liberties and freedoms which they enjoy as inherent rights are forbidden to many nations. It is a time to affirm publicly our conviction that, as long as the struggle from within these nations continues, and as long as we remain firm in our support, the light of freedom will not be extinguished. Together with the people of these captive nations, we fight against military occupation, political oppression, communist expansion, and totalitarian brutality.

The Congress, by joint resolution approved July 17, 1959 (73 Stat. 212), has authorized and requested the President to designate the third week in July as "Captive Nations Week."

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of

Rules and Regulations

Federal Register

VOL 50 ISS 141 JL 23 1985 UMI

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim the week beginning July 21, 1985, as Captive Nations Week. I invite the people of the United States to observe this week with appropriate ceremonies and activities to reaffirm their dedication to the international principles of justice and freedom, which unite us and inspire others.

IN WITNESS WHEREOF, I have hereunto set my hand this 19th day of July, in the year of our Lord nineteen hundred and eighty-five, and of the Independence of the United States of America the two hundred and tenth.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 50, No. 141
Tuesday, July 23, 1985

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 630

Absence and Leave

AGENCY: Office of Personnel Management.
ACTION: Final rule.

SUMMARY: The Office of Personnel Management is amending its annual leave regulations to clarify the period in which restored annual leave may be used in certain situations. The change applies only to situations that exist after termination of an extended exigency of the public business when the amount of restored and accrued annual leave cannot be used within the 2 years specified in the current regulations.

EFFECTIVE DATE: August 22, 1985.

FOR FURTHER INFORMATION CONTACT: James Matteson, (202) 632-4634.

SUPPLEMENTARY INFORMATION: Section 630.306(b) of Title 5, Code of Federal Regulations, provides that annual leave forfeited because of an exigency of the public business and restored under 5 U.S.C. 6304(d) must be scheduled and used not later than the end of the second full leave year following termination of the exigency. While this provision generally carries out congressional intent that there be ample time in which to use restored leave, it does not deal adequately with situations in which a prolonged exigency results in the accumulation of large amounts of restored leave that cannot be used in a 2-year period without disrupting normal operations.

To deal with such situations, we published an interim regulation to permit agencies to increase the time for affected employees to use restored annual leave after the termination of an extended exigency (50 FR 3314, January 24, 1985).

During the 60-day public comment period on the interim regulation, we received comments from one individual, one union, and one agency. The individual did not comment on the specifics of the interim regulation; rather, he commented on the procedure for declaring exigencies of the public business. These comments will be considered when we next revise regulations on that subject.

The union commented that the interim regulation was too narrow and suggested that the two-for-one formula be extended to *all* exigencies that last more than 1 year. When we published the interim regulation, we intended that it would apply only to those exigencies lasting for long periods of time under extreme circumstances. This intent is supported by the language of an congressional intent behind 5 U.S.C. 6304(d). Therefore, we have not adopted this suggestion.

The agency's comments made it apparent that the interim regulation is subject to more than one interpretation. Therefore, we have revised the interim regulation to clarify that the time period for use of restored leave following an extended exigency is 2 years for each calendar year, or part thereof, during which the exigency existed, *regardless of the number of years during the exigency in which the employee forfeited leave.* Because this interpretation is more generous than granting the additional period for each year during the exigency when leave was actually forfeited, we believe it is appropriate to further restrict the situations in which it may be applied. Therefore, we have revised the definition of "extended exigency" to specify that the exigency must last more than 3 calendar years.

E.O. 12291, Federal Regulation

I have determined that this is not a major rule as defined under section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because the regulation will affect only Government employees.

List of Subjects in 5 CFR Part 630

Government employees and Employee benefit plans.

Office of Personnel Management.
Loretta Cornelius,
Acting Director.

Accordingly, the interim regulation published in Part 630 of Title 5, Code of Federal Regulations, on January 24, 1985 (50 FR 3314), is adopted as final, with the following revisions:

PART 630—ABSENCE AND LEAVE

1. The authority citation for Part 630 continues to read as follows:

Authority: 5 U.S.C. 6311, unless otherwise noted.

2. Section 630.309 is revised to read as follows:

§ 630.309 Time limit for use of restored annual leave—extended exigency of the public business.

(a) Annual leave restored under 5 U.S.C. 6304(d)(1)(B) because of an extended exigency, as defined in paragraph (b) of this section, must be scheduled and used within a time period that equals twice the number of full calendar years, or parts thereof, that the exigency existed. This time period begins at the beginning of the leave year following the leave year in which the exigency is declared to be ended.

(b) An "extended exigency" means an exigency of such significance as to—

(1) Threaten the national security, safety, or welfare;

(2) Last more than 3 calendar years;

(3) Affect a segment of an agency or occupational class; and

(4) Preclude subsequent use of both restored and accrued annual leave within the time limit specified in § 630.308.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

Analysis of Potential Pressurized Thermal Shock Events

AGENCY: Nuclear Regulatory Commission.
ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations for light water nuclear

power plants to: (1) Establish a screening criterion related to the

decrease is dependent on the chemical composition of the vessel wall and weld

selected so that the risk from PTS events for reactor vessels with smaller RT

fracture mechanics calculations to uncertainties in the various input

when further safety analyses would be required, but expressed concern that by

Response: The Commission agrees that further analyses based upon better

VOL 50 ISS 141 JL 23 1985 UMI

power plants to: (1) Establish a screening criterion related to the fracture resistance of pressurized water reactor (PWR) vessels during pressurized thermal shock (PTS) events; (2) require analyses and schedule for implementation of flux reduction programs that are reasonably practicable to avoid exceeding the screening criterion; and (3) require detailed safety evaluations to be performed before plant operation beyond the screening criterion will be considered. These amendments are intended to produce an improvement in the safety of PWR vessels by identifying those corrective actions that may be required to prevent or mitigate potential PTS events.

EFFECTIVE DATE: July 23, 1985.

FOR FURTHER INFORMATION CONTACT: Roy Woods, Division of Safety Technology, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: 301–492–4714.

SUPPLEMENTARY INFORMATION:

Background

Transients and accidents can be postulated to occur in pressurized water reactors (PWRs) that result in severe overcooling (thermal shock) of the reactor vessel, concurrent with high pressure. In these pressurized thermal shock (PTS) events, rapid cooling of the reactor vessel internal surface causes a temperature distribution across the reactor vessel wall. This temperature distribution produces a thermal stress on the reactor vessel with a maximum tensile stress at the inside surface of the vessel. The magnitude of the thermal stress varies with the rate of change of temperature, and with time during the transient, and its effect is compounded by coincident pressure stresses.

Severe reactor system overcooling events with pressurization of the reactor vessel (PTS events) are postulated to result from a variety of causes. These include system transients, some of which are initiated by instrumentation and control system malfunctions (including stuck open valves in either the primary or secondary system), and postulated accidents such as small break loss-of-coolant accidents, main steam line breaks, and feedwater line breaks.

As long as the fracture resistance of the reactor vessel material is relatively high, these events are not expected to cause vessel failure. However, the fracture resistance of the reactor vessel material decreases with the integrated exposure to fast neutrons during the life of a nuclear power plant. The rate of decrease is dependent on the chemical composition of the vessel wall and weld materials. If the fracture resistance of the vessel has been reduced sufficiently by neutron irradiation, severe PTS events could cause small flaws that might exist near the inner surface to propagate into the vessel wall. The assumed initial flaw might be enlarged into a crack through the vessel wall of sufficient extent to threaten vessel integrity and, therefore, core cooling capability.

The toughness state of reactor vessel materials can be characterized by a "reference temperature for nil ductility transition" (RT_{NDT}). At normal operating temperatures, vessel materials are quite tough and resistant to crack propagation. As the temperature decreases, the metal gradually loses toughness over a temperature range of about 100 °F. RT_{NDT} is a measure of the temperature range at which this toughness transition occurs. Its value depends on the specific material in the vessel wall and the integrated neutron irradiation received by the vessel. These effects are determined by destructive tests of material specimens. Correlations, based on tests of irradiated specimens, have been developed to calculate the shift in RT_{NDT} as a function of neutron fluence for various material compositions. The value of RT_{NDT} at a given time in a vessel's life is used in fracture mechanics calculations to determine whether assumed pre-existing flaws would propagate when the vessel is subjected to overcooling events.

The PTS issue is a concern only for PWRs. Boiling water reactors (BWRs) operate with a large portion of water inventory inside the pressure vessel at saturated conditions. Any sudden cooling will condense steam and result in a pressure decrease. Simultaneous conditions of high pressure and low temperature are considered to be improbable. Most BWRs also receive lower integrated fast neutron flux at the vessel inner wall, resulting in smaller RT_{NDT} shifts. BWRs are designed with a thinner-walled vessel, resulting in lower thermal stress intensities for postulated cracks.

On the basis of studies of severe overcooling events that have occurred, generic calculations of postulated PTS events that could occur, and vessel integrity calculations, the NRC staff has concluded that a value of RT_{NDT}[1] can be selected so that the risk from PTS events for reactor vessels with smaller RT_{NDT} values is acceptable. (The risk for vessels with higher values of RT_{NDT} might also be shown to be acceptable, but the demonstration would require detailed plant-specific evaluations and possibly modifications to existing equipment, systems, and procedures.) The staff recommended that a value for RT_{NDT} be established as a screening criterion that would determine the need for, and timing of, further plant-specific evaluations.

The staff's approach to selection of the RT_{NDT} screening criterion is described in detail in SECY–82–465.[2] In summary, the approach was to use a deterministic fracture mechanics algorithm to calculate the value of RT_{NDT} for which assumed pre-existing flaws in the reactor vessel would be predicted to initiate (grow deeper into the vessel wall) assuming occurrence of one of the severe overcooling events that have been experienced in U.S. PWRs. These "critical" values of RT_{NDT} were related to the expected frequency of the experienced severe overcooling events based on a limited data base, consisting of eight events in 350 reactor-years.

In addition, the staff considered a wide spectrum of postulated overcooling events that could occur. These events were grouped into categories, estimates were made of their expected frequency, and stylized characterizations of the temperature and pressure time-histories were developed for each event category. The estimates presented in detail in SECY–82–465 are based on a generic study of Westinghouse-designed PWR systems, and are considered also to be generally representative of PWR systems designed by Combustion Engineering. Because there are some significant differences between those designs and PWRs designed by Babcock & Wilcox that affect the characteristics and estimated frequencies of PTS events, information was also developed for the Babcock & Wilcox designs. This information is described in detail in Enclosure C to SECY–83–288 (July 15, 1983)[3]. It was concluded that the PTS risk for B&W plants is not significantly different from that of other PWRs. A probabilistic treatment of the fracture mechanics calculations was developed to gain insight into the sensitivity of the fracture mechanics calculations to uncertainties in the various input parameters. By combining the estimated frequencies of postulated events with the probabilistic fracture mechanics results, some estimates of the probability of vessel failure resulting from PTS events were developed. These estimates were used by the staff to better understand the residual risks inherent in the use of the screening criterion approach for further evalutions and resolution of the PTS issue.

On the basis of these studies, the NRC staff concluded the PWR reactor pressure vessels with conservatively calculated values of RT_{NDT} less than 270 °F for plate material and axial welds, and less than 300 °F for circumferential welds, present an acceptably low risk of vessel failure from PTS events.

[1] RT_{NDT} decreases with depth from the inside surface of an irradiated vessel's wall. This decrease is accounted for in vessel integrity analyses. As used in this document and in the screening criteria, RT_{NDT} is the peak value at the inside surface of the vessel.

[2] Copies of this document are available for public inspection and copying at the Public Document Room at 1717 H Street, NW. Washington, DC 20555.

[3] Copies of this document are available for public inspection and copying at the Public Document Room at 1717 H Street, NW. Washington, DC 20555.

Proposed Rule

On February 7, 1984, the Commission published a proposed rule in the **Federal Register** (49 FR 4498) that would: (1) Establish an RT_{NDT} screening criterion; (2) require licensees to submit present and projected values of RT_{NDT} (3) require early analysis and implementation of such fast neutron flux reduction programs as are reasonably practicable to avoid reaching the screening criterion; and (4) require plant-specific PTS safety analyses before a plant is within three calendar years of reaching the screening criterion, including analyses of alternatives to minimize the PTS problem. After consideration of the public comments received, the Commission has modified the proposed rule as discussed in the following section.

Comments on Proposed Rule

The Commission received twenty-two letters commenting on the proposed rule. Copies of those letters are available for public inspection and copying for a fee at the NRC Public Document Room at 1717 H Street, Washington, DC. Fourteen letters were from utilities (or from attorneys representing utilities), three from PWR Nuclear Steam Supply System manufacturers, one from an architect/engineering firm, and one from a group representing the nuclear industry. The remaining three letters were from members of the public, two of the three being from the same individual. There were a total of 181 individual comments, which are discussed by subject below.

Commission Approval To Exceed Screening Criterion

Comment: Eleven commenters agreed with the intended use of an RT_{NDT} screening criterion to determine if and when further safety analyses would be required, but expressed concern that by requiring Commission approval of these analyses before operation beyond the criterion, the proposed rule in fact established the RT_{NDT} values as operating limits. They recommended that the rule should be amended to allow continued operation unless the Commission specifically disapproves the required safety analyses.

Response: The Commission affirms that the purpose of the PTS screening criterion is to determine whether and when further plant-specific safety analyses are required. Its acceptability for that purpose is based on the Commission's judgment that the generic PTS studies already performed by the industry and the NRC staff provide reasonable assurance that operation of PWR pressure vessels with RT_{NDT} values below the screening criterion does not result in undue risk to the public health and safety because of the potential for PTS events. However, the existing generic studies do not in themselves provide this assurance for operation of individual pressure vessels with higher RT_{NDT} values, i.e., with lower fracture resistance. The Commission has concluded that detailed plant-specific analyses are required to provide this assurance. For those cases (expected to be relatively few) where licensees determine that the screening criterion will be exceeded before the end of the desired service life of the vessel, and who nevertheless wish to continue operation, the licensees clearly have a responsibility to provide the necessary basis for assuring the protection of the public health and safety prior to operation beyond the screening criterion. The Commission's responsibility is to review the licensee's submittals and reach a decision on whether continued operation is acceptable. The Commission recognizes that a timely decision on its part is essential to avoid placing an unfair and unacceptable economic penalty on the licensee, but has concluded that the requirement for prior Commission approval in the proposed rule is appropriate and consistent with its statutory responsibilities.

Comment: Eight commenters also recommended that if the required safety analysis are not accepted by the Commission, then the proposed rule requirement that any further request must be based on "modifications to equipment, systems and operation of the facility in addition to those previously proposed . . .," should be changed so that re-analyses based upon better methods or new information would also be acceptable.

Response: The Commission agrees that further analyses based upon better methods or new information should be an allowable alternative if the original required safety analyses were not approved by the Commission. The final rule (§ 50.61(b)(6)) has been changed to reflect this alternative.

Reference Temperature Definition and Calculational Method

Comment: Nine of the commenters noted that since the proposed rule prescribes a specific conservative method for calculation of RT_{NDT} for use as a screening criterion, there is a potential inconsistency with the term RT_{NDT} as used elsewhere (e.g., in the ASME Code and in Appendix G to 10 CFR Part 50). The commenters recommended that RT_{NDT} be defined the same as in these other documents, or that the results of the prescribed calculation (for purposes of the PTS rule) be given a different designation.

Response: The final rule has been changed to define the reference temperature used for comparison with the screening criterion, and calculated as prescribed by § 50.61(b) of the rule, as "reference temperature for pressurized thermal shock" (RT_{PTS}).

Comment: The commenters also recommended that the values for copper and nickel content and fluence in Equations 1 and 2 of § 50.61(b) be described as "best estimate" values and that the "Margin" term to be added to Equations 1 and 2 be defined as covering uncertainties in those quantities as well as the uncertainties in initial RT_{NDT} value and in the calculational procedure for RT_{PTS}.

Response: This change has been made in the final rule.

Comment: One of the commenters requested that the definition of "Reactor Vessel Beltline" in the proposed rule be made the same as that given in Appendix G to 10 CFR Part 50.

Response: The Commission notes that the definition is the same as that given in the latest revision of Appendix G that was published in the **Federal Register** May 27, 1983 (48 FR 24008).

Use of Other Reference Temperature Correlations and Probabilistic Fracture Mechanics

Comment: Nine commenters responded that the rule should clearly state that alternative means of calculating RT_{NDT} (other than those specified in the rule) are acceptable for use in the analyses required by the rule to show acceptability of operation above the screening criterion values. One commenter requested that use of

surveillance data be allowed in evaluating the reference temperature.

Seven commenters requested that it

early analyses to justify actions other than flux reductions.

Response: The rule does not preclude

detailed analyses should be required five years prior to exceeding the screening criterion, instead of the three

selected, allowing a conservative margin for safety and time for implementation of identified corrective actions before an

analyses be performed to identify any necessary corrective actions, well before the screening criterion is

is thoroughly verified by multiple checks. The flux reduction accomplished

surveillance data be allowed in evaluating the reference temperature.

Seven commenters requested that it should also be made clear within the rule that the use of probabilistic fracture mechanics (PFM) techniques are acceptable in establishing PTS-related risk when performing these analyses. Five commenters also suggested that it should be acceptable to use other RT_{NDT} (now called RT_{PTS}) correlations to show that a plant is below the RT_{PTS} screening criterion and hence that no analyses are required.

Response: The Commission clearly intends that licensees be free to provide any information relevant in performing the rule-required analyses to justify continued operation of the plant, This includes other RT_{NDT} correlations, surveillance data, and PFM techniques. The wording of the rule in paragraph 50.61(b)(4) has been changed to reflect this intent.

However, the final rule does not permit use of other RT_{PTS} correlations or surveillance data in determining whether or not a reactor vessel exceeds the screening criterion. The screening criterion was selected taking many uncertainties into account, including the perceived conservatism of the prescribed method for calculating RT_{PTS}.

Reporting of Changes in Reference Temperature Projections

Comment: Three commenters responded that the requirement to report new projected values of Reference Temperature when significant changes occur is unnecessary. They believe that the reporting requirements of Appendix G to 10 CFR Part 50 are adequate. One commenter suggested requiring re-reporting only if the changes would indicate that the screening RT_{PTS} would be exceeded before the expiration of the operating license.

Response: The Commission must be informed early of any trends in RT_{PTS} changes, to allow adequate time for any necessary actions leading to implementation of corrective actions at any plant. Therefore, the Commission continues to believe that the reporting requirement as written in the proposed rule is necessary, and has not changed the reporting requirement in the final rule.

Alternatives to Flux Reduction

Comment: Sixteen commenters responded that, for those plants projected to exceed the screening criterion, the bias toward flux reduction as the "preferred" corrective action should be eliminated, and that other options should be allowed, including early analyses to justify actions other than flux reductions.

Response: The rule does not preclude options other than flux reduction measures. The implementation schedule for flux reduction options may include consideration of other options proposed by the licensee provided those other options are thoroughly justified by the licensee on a time schedule that will allow Commission review and acceptance before the efficacy of flux reduction is precluded by the passage of time.

Guidance of Plant-Specific Analysis

Comment: Thirteen commenters responded that the guidance and acceptance criteria for the analyses required by the rule should be provided with the rule, or the rule should be delayed until they can be provided.

Response: The Commission believes that the rule addresses an important safety issue and should be promulgated without delay. The development of the guidance and acceptance criteria involves performance by the staff and its contractors of analyses of the type to be required later from some licensees. The performance of the analyses requires several sequential steps which cannot be significantly shortened, and the insights to be gained from these analyses are necessary before the staff can draft its guidance. Therefore, the Commission believes that the best course of action is to promulgate the rule now and provide the guidance and acceptance criteria in late 1985 or early 1986. This will be at least a decade before any licensee will need to begin performing the analyses for submittal three years before exceeding the RT_{PTS} criteria, based on the Commission's current understanding of the flux levels at all PWRs. In order to avoid difficulty for any licensee where this expectation is not fulfilled, the Commission has changed the final rule to require licensees to submit the required analyses three years before the plant is projected to exceed the screening criterion, or one year after issuance of the guidance and acceptance criteria, whichever is later.

If a licensee elects to perform analyses to justify alternatives to flux reduction prior to issuance of the final guidance and acceptance criteria, the staff will provide on request its best current judgement of what analyses are likely to be acceptable and what level of safety will be required.

Timing of Required Plant-Specific Analyses

The Commission invited public comments regarding whether the detailed analyses should be required five years prior to exceeding the screening criterion, instead of the three years in the proposed rule.

Comment: Eleven commenters responded with ten of the eleven stating that three years is preferable. The eleventh comment stated that a five year requirement would be useful to the extent that it would lead to earlier Commission reaction and a longer lead time for implementation, but also noted that "unless the NRC reaction is timely, the advantage will be lost."

Response: The Commission believes that three years allows adequate time for review and implementation of any necessary corrective actions. Therefore, the three year requirement has been retained in the final rule.

Necessity of PTS Rule

Comment: One commenter responded that the rule is not necessary and that its purpose could be accomplished with a generic letter or plant-specific action, since the lead plants have already been identified.

Response: The Commission evaluated alternatives to rulemaking prior to publication of the proposed rule. Plant-specific information is needed to determine whether or not corrective actions are needed, in sufficient time to allow implementation before PTS risk exceeds acceptable levels. The Commission believes a rule is the appropriate means to accomplish the above for all plants that may require action.

Adequacy of Bases for Proposed Rule

Comments were received from two individuals that expressed general concerns regarding the Commission's bases for the proposed rule. These individuals' various contentions are briefly noted below with the Commission's response.

Comments:

(1) Flux measurements and/or calculations are uncertain.

(2) Basis and assumptions of PTS rule are incorrect.

(3) There are other causes of embrittlement that are not considered by the PTS rule.

(4) Coupons used to monitor vessel steel embrittlement are not representative of the vessel material.

(5) PRA techniques are inadequate.

Response: When the NRC staff performed the studies upon which the PTS rule is based, it was recognized that there were many uncertainties involved in determination of risk due to PTS. The uncertainties were taken into account when the screening criterion was selected, allowing a conservative margin for safety and time for implementation of identified corrective actions before an acceptable level of safety is exceeded. The probabilistic risk analysis (PRA) and deterministic methods used and conclusions reached that risk is acceptable for vessels with RT_{PTS} below the screening criterion are discussed in SECY–82–465, SECY–83–288, and in the **Federal Register** Notice of Proposed Rulemaking (February 7, 1984).

Comment:

(6) The ability to detect cracks greater than ¼-inch in depth, and the "leak before break" principle, are relied upon in the resolution of Unresolved Safety Issue A–11, Reactor Vessel Materials Toughness.

Response: This comment is not relevant to the bases for the PTS rule since the existence of a non-detected, non-leaking crack was conservatively assumed in the PTS analyses.

Comment:

(7) The rule should apply to BWR's.

Response: The Commission does not believe that PTS is a significant safety concern for BWRs, and believes that the PTS rule should not be applied to BWRs. The several technical reasons for this (low probability of the event, lesser embrittlement due to shielding from larger amounts of water, and lower stress intensity due to a thinner vessel) are explained in the staff testimony given at the licensing board hearing for Limerick in response to contentions by the same commentor.[4]

Comments:

(8) The bases for the PTS rule come mostly from operating reactor data.

(9) The screening criterion in the PTS rule is not based on observed precursors.

Response: As explained in SECY–82–465, the PTS rule is based both on a study of PTS precursors that have actually occurred, and on analytical studies of more severe events that have not actually occurred.

Comments:

(10) Generic analyses used without verification for specific plants.

(11) Link between Control System Interactions and Pressurized Thermal Shock not properly included.

Response: The PTS rule establishes a screening criterion, with a conservative margin to allow for uncertainties, below which the Commission has concluded that PTS risk is acceptable for any PWR. The rule also requires that plant-specific analyses be performed to identify any necessary corrective actions, well before the screening criterion is exceeded. Those required analyses will be plant-specific and will be required to include items such as control system interactions.

Comment:

(12) The Commission's analyses had to assume the existence of flaws.

Response: This is correct. If no flaw exists, then there is no PTS problem. Therefore, the Commission's analysis made the conservative assumption of the existence of a flaw, the depth of which was chosen, for each analysis, to maximize the likelihood of vessel failure.

Comment:

(13) B&W reactors are more susceptible to PTS-related failure.

Response: Based on staff analysis, reported in Enclosure C to SECY–83–288, the Commission concluded that the PTS risk for B&W plants is not significantly different from that for other PWRs.

Comment:

(14) Pump seal failures are not accounted for.

Response: Pump seal failure is one postulated cause of a small Loss of Coolant Accident (LOCA) and was accounted for in the analyses on which the PTS rule is based.

Comment:

(15) Missiles might penetrate containment during a PTS event.

Response: The analysis on which the PTS rule is based assume that vessel failure and core melt is a serious safety threat and must be avoided with or without containment failure. Those analyses did not quantify the probability of containment failure. However, the screening criterion was set at a value sufficiently low to account for the perceived small probability that a PTS event might fail containment. The Commission's long-term studies of PTS include analyzing the possibility of containment failure, and it is expected that the analyses required by the PTS rule will also require each licensee to perform such evaluations before the screening criteria specified are exceeded.

Comment:

(16) Fuel maneuvers to lower the fluence invite licensee cheating.

Response: The type of "maneuvers" performed to lower fluence to the critical welds are not the day-to-day maneuvers evidently envisioned by the commentor. These "maneuvers" involve selection of a particular pattern for arranging various types of fuel with various burnups in the core. This is done every year to 18 effective full power months when the core is reloaded, and is thoroughly verified by multiple checks. The flux reduction accomplished is also verified both experimentally and analytically, and will be reviewed by the Commission.

Comment:

(17) Fracture mechanics calculations do not have an experimental basis. The largest vessel ever tested was ⅙th-scale, and it "burst at ⅓rd the pressure calculated using fracture mechanics considerations."

Response: The experimental and analytical bases for the Commission's fracture mechanics methods are thoroughly documented (for example, in SECY–82–465) and are generally accepted in the engineering community as adequately conservative. A recent ⅙th-scale vessel test, the first such vessel subjected to pressure and thermal stress, failed at a stress very close to the predicted stress.[5]

Comments on Supplementary Information Section of Notice of Proposed Rulemaking

Several comments were received that relate to the Supplementary Information section of the February 7, 1983 **Federal Register** Notice. These comments are discussed below.

Number of Reactors Expected to Remain in Below RT_{PTS} Criterion

Comments: Several commenters took issue with the possible implication of a statement made that most PWRs will exceed the RT_{NDT} criterion.

Response: The Commission agrees that the implication is incorrect, and notes that it currently projects that the majority of plants are not expected to exceed the criterion before the expiration of the operating license.

Conservatism of Rule

Comment: Eight of the commenters responded to the statement by Commissioners Asselstine and Gilinsky in the Supplementary Information section that numerous conservative factors, unconservative factors, and unknown factors in the PTS analyses need to be considered appropriately in the acceptance criteria being developed by the staff, and that a suitable margin of safety should be retained throughout the service life of the facility. The commenters felt that in light of recent work by Oak Ridge National Laboratory, Electric Power Research Institute, etc., the staff has adequately

additional staff guidance. However, should a licensee decide to perform a

considered all factors and the statement is unwarranted.

Response: The Commission believes that although considerable knowledge has been gained about PTS in the past two years, the previous statement by Commissioners Asselstine and Gilinsky remains valid.

Consideration of Possible License Extension

Comment: Several commenters viewed the statement in the Supplementary Information section regarding licensee consideration of the possibility of future license extension requests when evaluating flux reduction options, as premature, and recommended deletion.

Response: The rule does not explicitly require this consideration, but the Commission continues to believe that the potential for license extensions is a factor that licensees should consider.

Preferred Risk Reduction Actions

Comment: Several commenters recommended deletion of a statement in the Supplementary Information section that in the analysis of modifications in support of operation beyond the screening criterion, "[m]odifications to equipment or systems are preferable to reliance on procedure modifications."

Response: Since the statement could be interpreted as prejudging a regulatory decision, it has not been included in the Supplementary Information section of this rule.

Thermal Annealing Requirement in Appendix G to 10 CFR Part 50

Comment: Sixteen comments were received in response to the Commission's request for public comment on the merits of eliminating the thermal annealing requirements of 10 CFR Part 50, Appendix G (Fracture Toughness Requirements) paragraph IV.B., which states:

"Reactor vessels for which the predicted value of upper-shelf energy at end of life is below 50 ft-lb or for which the predicted value of adjusted reference temperature at end of life exceeds 200 °F (93 °C) must be designed to permit a thermal annealing treatment at a sufficiently high temperature to recover material toughness properties of ferritic materials of the reactor vessel beltline."

All of the commenters said this requirement was too restrictive and should be deleted. The most-cited reason was that annealing is only one of the possible actions and deletion would provide desirable flexibility to demonstrate acceptably low risk. None of the commenters said it was a hardship to design to permit annealing, although one wrote, "As a practical matter, it is impossible to design for a process that has not been technically developed." On the other hand, eight of the commenters urged that deletion "... should not in any way imply that a utility is prevented from using the thermal annealing process as an option to increase safety margin."

Response: The Commission accepts the comment that to require design for annealing if radiation damage is expected to be significant is too restrictive. The decision to anneal is largely an economic one, which should be left to the licensee. Paragraph IV.B was intended to alert applicants that annealing might someday need to be considered, to require that it be considered in the design phase if a significant level of radiation damage is expected, and to define that level. Yet, it appears that there have been few, if any, actual design features added to accommodate annealing. Other maintenance, inspection and repair operations place similar requirements on clearances and radiological hazards. Vessel expansion at the nozzles is not expected to exceed that experienced in operation at the design temperature (650 °F). The extra features on the surveillance program are referred to briefly in ASTM E 185, which is referenced in Appendix H to 10 CFR Part 50. Thus, it can be concluded that this paragraph has had little impact on the design of plants. Third, the 200 °F RT_{NDT}/50 ft-lb criteria have been misinterpreted in the past to mean that operation beyond those limits is unsafe, which is not true. For these reasons, the Commission is planning a separate rulemaking action to delete paragraph IV.B. of Appendix G, 10 CFR Part 50. The annealing alternative will remain in the regulation, as given in paragraph V.D. of Appendix G.

Fracture Mechanics Methodology To Be Used for Plant-Specific Analysis

Comment: One telephone comment was received regarding a perception that the Commission would encourage or require development and use of the newest fracture mechanics techniques for the required plant-specific PTS analyses.

Response: It is anticipated that the forthcoming staff guidance on the preparation of plant-specific PTS analyses will specify that the deterministic fracture mechanics techniques underlying the algorithms in the probabilistic fracture mechanics evaluations be conservative, standard methodologies that have been in use for some time. It is not the intent of the Commission to require use of new methods that would "break new ground", such as those which account for elastic-plastic deformation.

Explanation of the Rule Requirements

Paragraph (b)(2) of § 50.61 establishes an RT_{PTS}—based screening criterion, and presents the conservative method chosen by the staff for the calculation of the RT_{PTS} for the purpose of comparison with the screening criterion. The basis for selection of this method is presented in Appendix E of Enclosure A to SECY 82–465. Since the acceptability of the screening criterion was based on generic studies, and since the purpose of the criterion is to provide a defined and consistent threshold for initiating the submittal of plant-specific analyses, the rule § 50.61(b)(1) requires each licensee to assess the current and projected values of RT_{PTS} using the methodology described in paragraph (b)(2) of the rule. Although the Commission expects that alternative methods of determining RT_{NDT} may be justified for use in plant-specific evaluations of PTS events in the future, the rule requires that the prescribed conservative method for calculating RT_{PTS} be used to determine when the plant-specific evaluations must be performed.

Applicants for operating licenses are required to provide projected values of RT_{PTS} as part of the final safety analysis report as provided in the amendment to paragraph (b) of § 50.34, "Contents of Applications: Technical Information."

On the basis of information currently available, it appears that the RT_{PTS} of most reactor vessels will remain below the screening criterion throughout the service life. For other reactor vessels, fuel management programs could be instituted that would result in core configurations reducing neutron flux at critical locations, thereby slowing the increase of RT_{PTS} so that the screening criterion would not be exceeded. The Commission recognizes that further refinements in materials information, analyses of PTS event frequencies and scenarios, and plant-specific analyses of alternative measures to reduce PTS risk may provide a basis for the acceptability of continued operation with RT_{PTS} values in excess of the screening criterion. The preparation and review of such analyses and determination of their acceptability will require substantial time. However, the effectiveness of flux reduction programs depends on early implementation. The Commission has determined that reasonably practicable flux reduction programs should be implemented promptly where needed to maintain

reactor vessel RT_{PTS} below the screening criterion, without awaiting possible plant-specific determinations that higher values of RT_{PTS} are acceptable. Therefore, the rule § 50.61(b)(3) requires licensees with pressure vessels for which the reference temperature is projected to exceed the screening criterion before the expiration date of the operating license to submit an analysis of such flux reduction programs as are reasonably practicable to avoid exceeding the screening criterion, and a schedule for implementation of such programs. The NRC staff will review these submittals to confirm that reasonably practicable programs have been, or will be, implemented.

At the time of this submittal, or at a later time, licensees may submit additional plant-specific analyses to justify (by new information, improved analyses or evaluations of alternative measures) operation with less restrictive flux reduction programs in the future. The proposed schedule for implementation of any needed flux reduction program may reflect appropriately the possibility of such justification. However, it is the Commission's intent that the effectiveness of flux reduction programs that are needed to avoid, or to delay, reaching the screening criterion, and that are reasonably practicable, should not be reduced by delay in implementation, pending review of these analyses. The Commission expects that in evaluating the need for flux reduction programs, each licensee will consider the possibility that, in the future, the licensee may wish to seek approval of a license amendment to extend the expiration date of the license. Since consideration of protection against PTS events would be a factor in the Commission's decision on such a request, licensees should consider flux reduction programs that would prevent reaching the screening criterion by the end of the anticipated service life of the facility.

When a licensee determines, and the Commission agrees, that reasonably practicable flux reduction measures have been or will be implemented, and that the vessel RT_{PTS} is still projected to exceed the screening criterion before expiration of the operating license, then the rule (§ 50.61(b)(4)) requires the submittal of a plant-specific safety analysis. The analysis must include an assessment of the vessel fracture mechanics properties for the remainder of vessel life, including effects on PTS risk of possible changes in fuel loading patterns affecting the neutron flux at the vessel wall. The analysis must also include a quantitative assessment of the PTS risk due to operation of the particular plant. It must identify potential event sequences that contribute significantly to PTS risk. It must consider both the expected frequency of these event sequences and the conditional probability of vessel failure and subsequent core melt, given the occurrence of these event sequences, and identify what, if any, modifications to equipment, systems and operation are necessary to prevent potential failure of the reactor vessel as a result of postulated PTS events, if continued operation beyond the screening criterion is allowed. Finally, the analysis must estimate the effects of recommended corrective actions on PTS risk and must justify, partly on the basis of risk analysis, operation at RT_{PTS} values above the screening criterion after completion of corrective or mitigative actions.

The plant-specific analysis must be submitted substantially in advance of the projected time at which the screening criterion would be exceeded, to allow time for Commission review of the analysis and licensee implementation of any proposed modifications well in advance of reaching the screening criterion. It is the Commission's intent that the staff perform a timely review of these analyses so that decisions, regarding any necessary corrective actions, are made with allowance for sufficient time to implement corrective actions before the screening criterion is exceeded.

Section 50.61(b)(5) of the rule provides for Commission review of these analyses. The Commission must approve the analysis before the plant may operate at RT_{PTS} values above the screening criterion.

The staff is developing additional guidance on the content of the required plant-specific analysis and on the acceptance criteria the staff will use in reviewing the analysis. The staff expects this guidance to be available long before any licensee will be required to start such an analysis (based on estimated rates of RT_{PTS} increase and recent information regarding the efficacy of flux reduction techniques planned at several plants with high RT_{PTS} values). The rule requires submittal of the plant-specific analysis at least three years before the screening criterion would be exceeded or one year after staff issuance of the guidance and acceptance criteria regarding those analyses, whichever is later. No plant-specific analysis performed in response to the requirement of § 50.61(b)(4) should be started before issuance of this additional staff guidance. However, should a licensee decide to perform a plant-specific PTS safety analysis as part of its response to § 50.61(b)(3) in support of alternatives to, or implementation schedules for, flux reduction measures, the staff will meet, upon request, with the licensee to provide its best current guidance for such analysis.

Paragraph (b)(6) of § 50.61 provides that if the Commission concludes that the plant-specific analysis, including any plant modifications proposed, does not provide a basis for approval of operation at values of RT_{PTS} in excess of the PTS screening criterion for a given facility, then that facility may not be operated beyond the criterion unless the licensee requests and receives Commission approval based on additional modifications or new factors that would reduce the potential for failure of the reactor vessel due to PTS events.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(3) (ii) and (iii). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

Regulatory Flexibility Act Certification

As required by the Regulatory Flexibility Act, 5 U.S.C. 605(b), the Commission certifies that this rule does not have a significant economic impact on a substantial number of small entities. This rule specifies minimum fracture toughness properties of irradiated pressure vessel materials to ameliorate the effects of PTS events on nuclear facilities licensed under the provisions of 10 CFR 50.21(b) and 10 CFR 50.22. The companies that own these facilities do not fall within the scope of the definition of "small entities" as set forth in the Regulatory Flexibility Act of the Small Business Size Standards in regulations issued by the Small Business Administration at 13 CFR Part 121.

Paperwork Reduction Act Statement

This final rule amends information collection requirements that are subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). These requirements were approved by the Office of Management and Budget, approval number 3150–0011.

VOL 50 ISS 141 JUL 23 1985 UMI

VOL 50 ISS 141 JL 23 1985 UMI

Regulatory Analysis

The Commission has prepared a regulatory analysis for this regulation. The analysis examines the costs and benefits of the rule as considered by the Commission. A copy of the regulatory analysis is available for inspection and copying for a fee at the NRC Public Document Room, 1717 H. Street, NW, Washington, DC 20555. Single copies of the analysis may be obtained from Mr. Karl Kniel, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 492–7359.

List of Subjects in 10 CFR Part 50

Antitrust, Classified information, Fire prevention, Incorporation by reference, Intergovernmental relations, Nuclear power plants and reactors, Penalty, Radiation protection, Reactor siting criteria, Reporting and record keeping requirements.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, and 5 U.S.C. 553, the NRC is adopting the following amendments to 10 CFR Part 50.

PART 50—DOMESTIC LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

1. The authority citation for Part 50 continues to read as follows:

Authority: Secs. 103, 104, 161, 182, 183, 186, 189, 68 Stat. 936, 937, 948, 953, 954, 955, 956, as amended, sec. 234, 83 Stat. 1244, as amended (42 U.S.C. 2133, 2134, 2201, 2232, 2233, 2236, 2239, 2282); secs. 201, 202, 206, 88 Stat. 1242, 1244, 1246, as amended (42 U.S.C. 5841, 5842, 5846), unless otherwise noted.

Section 50.7 also issued under Pub. L. 95–601, sec. 10, 92 Stat. 2951 (42 U.S.C. 5851). Section 50.57(d), 50.58, 50.91, and 50.92 also issued under Pub. L. 97–415, 96 Stat. 2071, 2073 (42 U.S.C. 2133, 2239). Section 50.78 also issued under sec. 122, 68 Stat. 939 (42 U.S.C. 2152). Sections 50.80–50.81 also issued under sec. 184, 68 Stat. 954, as amended (42 U.S.C. 2234). Sections 50.100–50.102 also issued under sec. 186, 68 Stat. 955 (42 U.S.C. 2236).

For the purposes of sec. 223, 68 Stat. 958, as amended (42 U.S.C. 2273), §§ 50.10 (a), (b), and (c), 50.44, 50.46, 50.48, 50.54, and 50.80(a) are issued under sec. 161b, 68 Stat. 948, as amended (42 U.S.C. 2201(b)); §§ 50.10 (b) and (c) and 50.54 are issued under sec. 161i, 68 Stat. 949, as amended (42 U.S.C. 2201(i)); and §§ 50.55(e), 50.59(b), 50.70, 50.71, 50.72, 50.73, and 50.78 are issued under sec. 161o, 68 Stat. 950, as amended (42 U.S.C. 2201(o)).

2. Section 50.34 is amended by adding a new paragraph (b)(9) to read as follows:

§ 50.34 Contents of applications; technical information.

* * * * *

(b) * * *

(9) A description of protection provided against pressurized thermal shock events, including projected values of the reference temperature for reactor vessel beltline materials as defined in § 50.61 (b)(1) and (b)(2).

* * * * *

3. A new § 50.61 is added to read as follows:

§ 50.61 Fracture Toughness Requirements for Protection Against Pressurized Thermal Shock Events.

(a) *Definitions.* For the purposes of this section:

(1) "ASME Code" means the American Society of Mechanical Engineers, Boiler and Pressure Vessel Code, Section III, "Rules for the Construction of Nuclear Power Plant Components," edition and addenda as specified by § 50.55a, Codes and Standards.

(2) "Pressurized Thermal Shock Event" means an event or transient in pressurized water reactors (PWRs) causing severe overcooling (thermal shock) concurrent with or followed by significant pressure in the reactor vessel.

(3) "Reactor Vessel Beltline" means the region of the reactor vessel (shell material including welds, heat affected zones, and plates or forgings) that directly surrounds the effective height of the active core and adjacent regions of the reactor vessel that are predicted to experience sufficient neutron radiation damage to be considered in the selection of the most limiting material with regard to radiation damage.

(4) "Initial RT_{NDT}" means the reference temperature for a reactor vessel material as defined in the ASME Code, Paragraph NB–2331. RT_{NDT} means the reference temperature as adjusted for the effects of neutron radiation for the period of service in question.

(5) "RT_{PTS}" means the reference temperature calculated by the method given in paragraph (b)(2) of this section for use as a screening criterion.

(b) *Requirements.*

(1) For each pressurized water nuclear power reactor for which an operating license has been issued, the licensee shall submit projected values of RT_{PTS} (at the inner vessel surface) of reactor vessel beltline materials by giving values from the time of submittal to the expiration date of the operating license. The assessment must specify the bases for the projection, including the assumptions regarding core loading patterns. This assessment must be submitted by January 23, 1986, and must be updated whenever changes in core loadings, surveillance measurements, or other information indicate a significant change in projected values.

(2) The pressurized thermal shock (PTS) screening criterion is 270 °F for plates, forgings, and axial weld materials, or 300 °F for circumferential weld materials. For the purpose of comparison with this criterion, the value of RT_{PTS} for the reactor vessel must be calculated as follows. The calculation must be made for each weld and plate, or forging, in the reactor vessel beltline. For each material, RT_{PTS} is the lower of the results given by Equations 1 and 2.

Equation 1: $RT_{PTS} = I + M + [-10 + 470\ Cu + 350\ Cu\ Ni]\ f^{0.270}$

Equation 2: $RT_{PTS} = I + M + 283\ f^{0.194}$

(i) "I" means the initial reference temperature of the unirradiated material measured as defined in the ASME Code, Paragraph NB–2331. If a measured value is not available, the following generic mean values must be used: 0 °F for welds made with Linde 80 flux, and −56 °F for welds made with Linde 0091, 1092 and 124 and ARCOS B–5 weld fluxes.

(ii) "M" means the margin to be added to cover uncertainties in the values of initial RT_{NDT}, copper and nickel content, fluence and the calculational procedures. In Equation 1, M=48 °F if a measured value of I was used, and M=59 °F if the generic mean value of I was used. In Equation 2, M=0 °F if a measured value of I was used, and M=34 °F if the generic mean value of I was used.

(iii) "Cu" and "Ni" mean the best estimate weight percent of copper and nickel in the material. The source of these values must be included in the assessment. The relationship of the material, on which any measurements were made, to the actual material in the pressure vessel must be described.

(iv) "f" means the best estimate neutron fluence, in unit of 10^{19} n/cm² (E greater than or equal to 1 MeV), at the clad-base-metal interface on the inside surface of the vessel at the location where the material in question receives the highest fluence for the period of service in question.

(3) For each pressurized water nuclear power reactor for which the value of RT_{PTS} for any material in the beltline is projected to exceed the PTS screening criterion before the expiration date of the operating license, the licensee shall submit by April 23, 1986, an analysis and schedule for implementation of such flux reduction programs as are reasonably practicable to avoid exceeding the PTS screening criterion set forth in paragraph (b)(2). The schedule for implementation of flux reduction measures may take into account the schedule for submittal and anticipated Commission approval of detailed plant-specific analyses, submitted to demonstrate acceptable risk at values of RT_{PTS} above the screening limit due to plant modifications, new information or new analysis techniques.

(4) For each pressurized water nuclear power reactor for which the analysis required by paragraph (b)(3) of this section indicates that no reasonably practicable flux reduction program will prevent the value of RT_{PTS} from exceeding the PTS screening criterion before the expiration date of the operating license, the licensee shall submit a safety analysis to determine what, if any, modifications to equipment, systems, and operation are necessary to prevent potential failure of the reactor vessel as a result of postulated PTS events if continued operation beyond the screening criterion is allowed. In the analysis, the licensee may determine reactor vessel materials properties based on available information, research results, and plant surveillance data, and may use probabilistic fracture mechanics techniques. This analysis must be submitted at least 3 years before the value of RT_{PTS} as defined in paragraph (b)(2) of this section is projected to exceed the PTS screening criterion or by one year after issuance of the Commission Guidance and Acceptance Criteria for these analyses, whichever is later.

(5) After consideration of the licensee's analyses (including effects of proposed corrective actions, if any) submitted in accordance with paragraphs (b)(3) and (b)(4) of this section, the Commission may, on a case-by-case basis, approve operation of the facility at values of RT_{PTS} in excess of the PTS screening criterion. The Commission will consider factors significantly affecting the potential for failure of the reactor vessel in reaching a decision.

(6) If the Commission concludes, pursuant to paragraph (b)(5) of this section, that operation of the facility at value of RT_{PTS} in excess of the PTS screening criterion cannot be approved on the basis of the licensee's analyses submitted in accordance with paragraphs (b)(3) and (b)(4) of this section, the licensee must request and receive Commission approval prior to any operation beyond the criterion. The request must be based upon modifications to equipment, systems, and operation of the facility in addition to those previously proposed in the submitted analyses that would reduce the potential for failure of the reactor vessel due to PTS events, or upon further analyses based upon new information or improved methodology.

Dated at Washington, DC, this 17th day of July 1985.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590–01–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 21

[Docket No. NM–16; Special Conditions No. 25–ANM–7]

Special Conditions: Aerospatiale Model ATR–42 Series Airplane

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final special conditions.

SUMMARY: These special conditions are issued pursuant to §§ 21.16 and 21.17 of the Federal Aviation Regulations (FAR) to Aerospatiale/Aeritalia, Toulouse, France, for a type certificate for the ATR–42 series airplane. The ATR–42 airplane will have novel or unusual design features associated with an automatic takeoff power control system (ATPCS) for which the applicable airworthiness regulations do not contain adequate or appropriate safety standards. The ATPCS will allow the airplane to take off with less than maximum takeoff thrust approved for the airplane; and, if an engine fails, the system will automatically provide maximum takeoff thrust on the operating engine. These special conditions contain safety standards which the Administrator finds necessary to establish a level of safety equivalent to that provided by the regulations applicable to the ATR–42 series airplane because of the novel or unusual features.

EFFECTIVE DATE: August 22, 1985.

FOR FURTHER INFORMATION CONTACT: James Walker, Policy and Procedures Branch, Transport Standards Staff, ANM–110, FAA, Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168; telephone (206) 431–2116.

SUPPLEMENTARY INFORMATION:

Background

In February of 1982, Aerospatiale Division of Avions, 316 Route De Bayonne, 31060 Toulouse Cedex 3, France, applied for a United States Import Type Certificate for its Model ATR–42 series airplane.

The Model ATR–42 is a high wing, twin-engine, pressurized transport category airplane having a maximum takeoff weight of 34,720 pounds. The airplane is equipped with two Pratt and Whitney PW–120 turbopropeller engines, each producing 2,000 shaft horsepower. The airplane has a maximum seating capacity for 50 persons, including the crew, and a maximum permissible altitude of 25,000 feet.

The design covered under the type certificate is the installation of an ATPCS. Automatic takeoff power control system special conditions issued to date for other airplanes require the ATPCS be designed to permit manual decrease or increase in power up to the maximum takeoff power approved for the airplane under existing conditions through the use of power levers. The ATPCS system installed on the engines of the ATR–42 airplane contains an electronic fuel controller (EFC), which provides an automatic fixed speed increment increase in the event of an engine failure during takeoff. In the event of an engine failure, a signal from the ATPCS is transmitted to the EFC which up-trims the operating engine to the approved takeoff power. In the event of an ATPCS failure concurrent with engine failure, the crew would be required to advance the power lever to obtain the maximum power.

The type design of the ATR–42 series airplane with the automatic system installed contains a number of novel or unusual design features for which the applicable airworthiness requirements do not contain adequate or appropriate safety standards. Special conditions are necessary to provide a level of safety equal to that generally intended by the established certification basis and to support a finding by the Administrator that no feature or characteristic of the airplane with the automatic system installed makes it unsafe for the category in which certification is required. These special conditions specify limits on the maximum power increment which may be applied to the operating engines by the ATPCS, prescribe system reliability and status monitoring requirements, require provisions of manual selection of the maximum takeoff power approved for

the airplane under existing conditions, paragraphs C1 and C2 of the special on one model series of airplanes. It is

VOL 50 ISS 141 JL 23 1985 UMI

the airplane under existing conditions, prohibit approval of the system if the automatic or manual application of approved maximum takeoff power would result in an engine operating limit being exceeded, and require the installation of an independent engine failure warning system if the inherent characteristics of the airplane do not provide a clear warning to the crew.

Discussion of Comments

Notice of proposed special conditions No. SC–85–1–NM for the ATR–42 series airplane was published in the **Federal Register** on February 26, 1985 [50 FR 7791]. Only one person, the applicant, commented.

The applicant notes that the description in the preamble of the control operation for a simultaneous engine and ATPCS system failure event incorrectly states that crew action is required to deactivate the system to obtain maximum takeoff power. In fact, the only crew action to obtain maximum power for the ATR–42 in the failure event is to manually advance the engine power lever.

The FAA notes the correct operation method; however, paragraph E2(b) of the special conditions is not revised as this paragraph still remains applicable for either an automatic system override or a manual system. It is understood the ATR–42 engines do not have the limiters referred to in paragraph E2(b) and that the manual method is required to obtain the engine power increase.

Another comment expressed by the applicant is that the proposed reliability requirements in paragraphs C1 and C2 of the special conditions are too conservative. The applicant states that in addition to avoiding unnecessary costs due to system complexity, relaxation of these reliability criteria can reduce the need for pre-flight checks of the system and thus reduce flightcrew workload. In lieu of paragraphs C1 and C2, the applicant proposes replacing these paragraphs with the corresponding text of the French Special Condition BB 1 (Issue 2, Oct. 1984).

The FAA has determined that paragraphs C1 and C2 of the special conditions do provide the level of safety necessary to satisfy an equivalent safety finding on the issue of trading airplane performance for a calculated ATPCS reliability and to assure a minimum safety standard intended by the applicable regulations. The FAA notes the arguments of the commenter; however, it has been determined that the special conditions, as issued, are necessary for acceptance of a system that automatically increases power or thrust on operating engines when one engine fails during takeoff.

Type Certification Basis

The type certification basis for the Aerospatiale/Aeritalia ATR–42 series airplane with the ATPCS installed, to be incorporated in the type certificate, is Part 25 of the FAR, including Amendments 25–1 through 25–54; Part 36 of the FAR, including Amendments 36–1 through current amendment; § 21.29 of the FAR; SFAR 27, dated December 12, 1973, including Amendments 27–1 through current amendment; and the special conditions for and ATPCS contained herein.

The applicable airworthiness standards for import products are those regulations designated in accordance with § 21.29 and are know as the "type certification basis" for the airplane design. Special conditions may be issued and amended, as necessary, as a part of the type certification basis if the Administrator finds that the airworthiness standards designated in accordance with § 21.17(a)(1) do not contain adequate or appropriate safety standards because of novel or unusual design features of the airplane. Special conditions, as appropriate, are now issued after public notice in accordance with §§ 11.28 and 11.29(b) effective October 14, 1980, and become part of the type certification basis in accordance with § 21.17(a)(2).

Conclusion:

This action affects only certain unusual or novel design features on one model series of airplanes. It is not a rule of general applicability and affects only the manufacturer who applied to the FAA for approval of these features on the airplane.

List of Subjects in 14 CFR Part 21

Air transportation, Aircraft, Aviation safety.

The authority citation for these special conditions is as follows:

Authority: Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); 14 CFR 21.16 and 21.17; and 14 CFR 11.28 and 11.49.

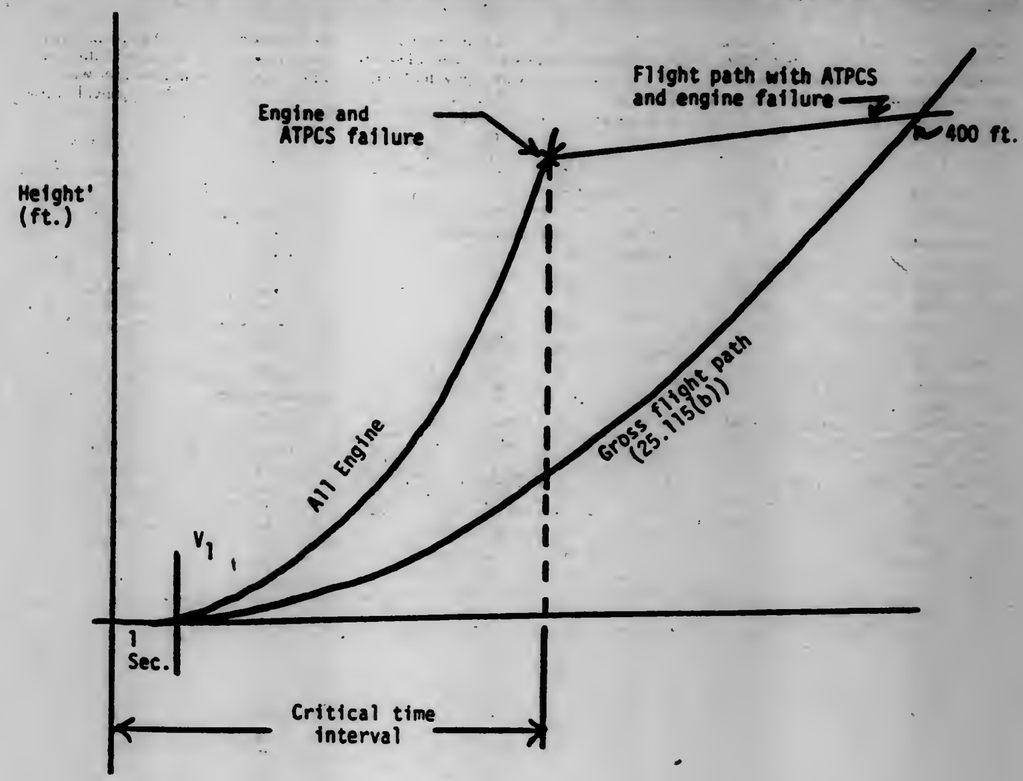
The Special Conditions

Accordingly, pursuant to the authority delegated to me by the Administrator, the following special conditions are issued to Aerospatiale/Aeritalia for the ATR–42 series airplane equipped with an automatic takeoff power control system (ATPCS):

(A) *General.* With the ATPCS and associated systems functioning normally as designed, all applicable requirements of Part 25, except as provided in these special conditions, must be met without requiring any action by the crew to increase power.

(B) *Definitions.*—(1) *Automatic Takeoff Power Control System (ATPCS).* An ATPCS is defined as the entire automatic system used on takeoff, including all devices, both mechanical and electrical, that sense engine failure, transmit signals, actuate fuel controls or power levers on operating engines to achieve scheduled power increase, and furnish cockpit information on system operation.

(2) *Critical Time Interval.* When conducting an ATPCS takeoff, the critical time interval is between V_1 minus 1 second and a point on the minimum performance, all-engine flight path where, assuming a simultaneous engine and ATPCS failure, the resulting minimum flight path thereafter intersects the Part 25 required gross flight path at not less than 400 feet from the takeoff surface. This definition is shown in the following graph.



(3) *Takeoff Power.* Notwithstanding the definition of "takeoff power" in Part 1 of the FAR, "takeoff power" means the horsepower obtained from each initial power setting approved for takeoff under these special conditions.

(C) *Performance Requirements.* The applicant must comply with the following performance and reliability requirements.

(1) An ATPCS system failure during the critical time interval must be shown to be improbable.

(2) The concurrent existence of an ATPCS failure and an engine failure during the critical time interval must be shown to be extremely improbable.

(3) All applicable performance requirements of Part 25 must be met with an engine failure occurring at the most critical point during takeoff with the ATPCS system functioning.

(D) *Power Setting.* The initial takeoff power set on each engine at the beginning of the takeoff roll may not be less than:

(1) Ninety percent (90%) of the power level set by the ATPCS (the maximum takeoff power approved for the airplane under existing conditions);

VOL 50 ISS 141 JL 23 1985 UMI

(2) That required to permit normal operation of all safety related systems and equipment dependent upon engine power or power lever position; or

(3) That shown to be free of hazardous engine response characteristics when power is advanced from the initial takeoff power level to the maximum approved takeoff power.

(E) *Powerplant Controls.*—1. In addition to the requirements of § 25.1141, no single failure or malfunction, or probable combination thereof, of the ATPCS system, including associated systems, may cause the failure of any powerplant function necessary for safety.

(2) The ATPCS must be designed to:

(a) Apply power on the operating engine, following an engine failure during takeoff, to achieve the selected takeoff power without exceeding engine operating limits;

(b) Permit manual decrease or increase in power up to the maximum takeoff power approved for the airplane under existing conditions through the use of the power lever. For aircraft equipped with limiters that automatically prevent engine operating limits from being exceeded under existing conditions, other means may be used to increase the maximum level of power controlled by the power levers in the event of an ATPCS failure, provided the means:

(1) Is located on or forward of the power levers;

(2) Is easily identified and operated under all operating conditions by a single action of either pilot with the hand that is normally used to actuate the power levers; and

(3) Meets the requirements of § 25.777, paragraphs (a), (b), and (c);

(c) Provide a means to verify to the flightcrew prior to takeoff that the ATPCS is in a condition to operate; and

(d) Provide a means for the flightcrew to deactivate the automatic function. This means must be designed to prevent inadvertent deactivation.

(F) *Powerplant Instruments.* In addition to the requirements of § 25.1305:

(1) A means must be provided to indicate when the ATPCS is in the armed or ready condition; and

(2) If the inherent flight characteristics of the airplane do not provide adequate warning that an engine has failed, a warning system that is independent of the ATPCS must be provided to give the pilot a clear warning of any engine failure during takeoff.

Issued in Seattle, Washington, on July 11, 1985.

Wayne J. Barlow,

Acting Director, Northwest Mountain Region.

BILLING CODE 4910-13-M

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 249

[Release No. 34-22208]

Technical Revision of Form MSD

AGENCY: Securities and Exchange Commission.

ACTION: Technical revisions of a form.

SUMMARY: The Commission is adding a Privacy Act Statement to Form MSD, the form used by bank municipal securities dealers to register with the Commission.

EFFECTIVE DATE: September 1, 1985.

FOR FURTHER INFORMATION CONTACT: Amy Natterson Kroll, Esq., Attorney-Advisor, (202) 272-2848, Office of the Chief Counsel, Division of Market Regulation, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION:

A. Technical Revision

Form MSD was adopted by the Commission in October 1975, pursuant to Section 15B of the Securities Exchange Act of 1934 which requires all municipal securities dealers to register with the Commission. Form MSD is the application used by bank municipal securities dealers that register with the Commission. The Commission is now amending the General Instructions of Form MSD to include a Privacy Act Statement, pursuant to 5 U.S.C. Section 552a(e)(3), informing bank municipal securities dealers that the information they are required to disclose on Form MSD will be used primarily for determining whether to grant or deny their registration and social security numbers, if furnished, will be used only to assist the Commission in identifying applicants. The statement also indicates that information supplied on Form MSD will be included in the Commission's public files and will be available for inspection by any interested person. Specifically, the statement indicates: (1) the Commission's authority to solicit information required on the Form MSD, (2) that disclosure of the information is mandatory, except for social security numbers, (3) the use of the information, including social security numbers, (4) the public availability of Form MSDs and the information they contain, (5) the unacceptability of a form which does not comply with the applicable disclosure requirements, (6) the absence of any finding by the Commission that an application has been filed correctly or contains true, current or complete information by the Commission upon acceptance of the application, and (7) that intentional misstatements or omissions of fact constitute federal criminal violations.

B. Administrative Procedure Act Considerations

The Commission has determined that the Administrative Procedure Act requirements of notice and public procedure are not applicable to this amendment pursuant to 5 U.S.C. Section 553(b).[1] The Commission finds that such notice and public procedure are impracticable and unnecessary because this amendment of Form MSD will impact neither the public nor the applicable industry. Rather, this technical amendment will merely inform applicants for registration as municipal securities dealers and their asociated persons that the Commission will use the information they provide in processing the application and that the information is available to the public upon registration. The Commission also finds good cause for this amendment to be made effective as of September 1, 1985 in order to insure that all Form MSDs available after such date include the appropriate Privacy Act Statement. This is necessary in order to comply with requirements of the Paperwork Reduction Act, as administered by the Office of Management and Budget.

Because this amendment to Form MSD is a technical amendment, requiring no notice or public procedure, the provisions of the Regulatory Flexibility Act do not apply.

C. Statutory Authority

The Securities and Exchange Commission, acting pursuant to the Exchange Act, particularly Sections 15, 15B, 17(a) 23(a) (15 U.S.C. 78*o*-4(a)(2), 78w(a)) hereby amends Chapter II, Title 17 of the Code of Federal Regulations adopting the following amendment to Section 249.1100.

[1] This section excepts rulemaking from the general notice and public procedure requirements when an agency, for good cause, finds that "notice and public procedure thereon are impracticable, unnecessary or contrary to the public interest."

Lists of Subjects in 17 CFR Part 249

Privacy Act, Securities, Municipal securities dealers.

Text of Amendment

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

1. The authority citation for Part 249 continues to read as follows:

Authority: The Securities Exchange Act of 1934, 15 U.S.C. 78a. *et seq.*

2. By adding paragraph M to the general instructions of Form MSD as follows:

§ 249.1100 Form MSD, application for registration as a municipal securities dealer pursuant to rule 15Ba2-1 under the Securities Exchange Act of 1934 or amendment to such application.

* * * * *

M. Under Sections 15, 15B(a), 17(a) and 23(a) of the Securities Exchange Act of 1934 and the Rules and Regulations thereunder, the Commission is authorized to solicit the information required to be supplied by this form from applicants for registration as a municipal securities dealer (and persons associated with applicants). Disclosure of the information specified on this form is mandatory prior to processing of applications for registration as a municipal securities dealer, except social security numbers, disclosure of which is voluntary. The information will be used for the principal purpose of determining whether the Commission should grant or deny registration to an applicant; social security numbers, if furnished, will be used only to assist the Commission in identifying applicants and, therefore, in promptly processing applications. Information supplied on this form will be included routinely in the public files of the Commission and will be available for inspection by any interested person. A form which is not prepared and executed in compliance with applicable requirements may be returned as not acceptable for filing. Acceptance of this form, however, shall not constitute any finding that it has been filed as required or that the information submitted is true, current or complete. Intentional misstatements or omissions of fact constitute federal criminal violations. (See 18 U.S.C. 1001 and 15 U.S.C. 78ff(a)).

By the Commission.

John Wheeler,

Secretary.

July 2, 1985.

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Parts 4, 10, 19, 24, 103, 113, 134, 141, 143, 145, 148, 152, 162, 171, 173, and 191

[T.D. 85-123]

Conforming Amendments to the Customs Regulations

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: In accordance with Customs policy of periodically reviewing its regulations to ensure that they are current, this document makes certain conforming changes which are necessary because of various executive, legislative, and administrative actions. Several of the changes in the document implement provisions of the Trade and Tariff Act of 1984. The changes merely conform the regulations to existing law or practice. They are nonsubstantive and essentially are procedural.

EFFECTIVE DATE: July 23, 1985.

FOR FURTHER INFORMATION CONTACT: Marvin M. Amernick, Regulations Control Branch, Office of Regulations and Rulings, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, D.C. 20229 (202-566-8237).

SUPPLEMENTARY INFORMATION:

Background

As part of a continuing program to keep its regulations current, the Customs Service has determined that various executive, legislative, and administrative actions require conforming amendments to the Customs Regulations contained in Chapter 1, Title 19, Code of Federal Regulations (19 CFR Chapter 1). Following is a list of these actions, the affected sections of the regulations, and the necessary changes.

Discussion of changes

1. Section 204 of Pub. L. 98-573, the Trade and Tariff Act of 1984, amends section 441(3), Tariff Act of 1930, as amended (19 U.S.C. 1441(3)), to add "vessels carrying passengers on excursions from the U.S. Virgin Islands to the British Virgin Islands and returning" to the list of types of vessels which are not required to make entry with Customs.

As footnote 5 of Part 4, Customs Regulations (19 CFR Part 4), corresponding to § 4.3, sets forth 19 U.S.C. 1441 in its entirety, the footnote is being amended to reflect the revision of subsection (3) of 19 U.S.C. 1441.

2. Section 4.7a, Customs Regulations (19 CFR 4.7a), contains instructions for completing the Cargo Declaration, Customs Form 1302. Although the form has a column for indicating the name of the shipper, such information has not been required. To comply with section 203 of Pub. L. 98-573, the Trade and Tariff Act of 1984, § 4.7a(c) is being amended to reflect this new instruction.

3. Section 206 of Pub. L. 98-573, the Trade and Tariff Act of 1984, amends section 466(e), Tariff Act of 1930, as amended (19 U.S.C. 1466(e)), to make the "special purpose vessel" exemption applicable to any U.S.-flag vessel subject to the vessel repair statute that arrives at a port of the U.S. two years or more after its last departure from a port in the U.S. The amendment further provides that this exemption will not apply to vessels designed and used primarily for transporting passengers and property if the vessel departed the U.S. for the sole purpose of obtaining equipment, parts, materials or repairs. Section 4.14(a)(2)(iii), Customs Regulations (19 CFR 4.14(a)(2)(iii)), is being amended to reflect this amendment to 19 U.S.C. 1466(e).

4. By T.D. 84-213, published in the Federal Register on October 19, 1984 (49 FR 41152), various parts of the Customs Regulations relating to the Customs bond structure were amended. One of the changes made by T.D. 84-213 was to amend § 4.34(h), Customs Regulations (19 CFR 4.34(h)), which concerns cargo undelivered at a foreign port and returned to the U.S., by making specific reference to a bond on Customs Form 301. It now has been discovered that paragraph (h) of § 4.34 contains the identical language as paragraph (g). Accordingly, § 4.34 is being amended by removing paragraph (h) and making the changes set forth in T.D. 84-213 to paragraph (g).

5. Item 808.00, Tariff Schedules of the United States (19 U.S.C. 1202), provided for the duty-free entry of both foreign-built containers in international traffic and of repair components for a particular container. Section 127, Trade and Tariff Act of 1984, amended Subpart C of Part 1 of Schedule 8, Tariff Schedules of the United States, to provide for the duty-free entry of repair components for any such container instead of for a particular container, and also for duty-free entry of accessories and equipment for any such container. Section 10.41a, Customs Regulations (19 CFR 10.41a), is being amended to reflect these changes.

6. It has been determined that the Declaration for Free Entry of Articles for Colleges, Religious Institutions, Etc. (Customs Form 3321), is no longer required in order for an importer of

articles for religious, educational, scientific, and other institutions, to obtain duty-free entry for the articles.

limit for all articles will be set initially at $1,000, with the option to increase it to $1,250 in the future. This change is

consignee, in its biennial certification, state reasons for requesting confidentiality of its identity and/or the

organizations in § 148.87(b), Customs

in property seized by the government.

1(b) of E.O. 12291, the regulatory

VOL 50 ISS 141 JL 23 1985 UMI

articles for religious, educational, scientific, and other institutions, to obtain duty-free entry for the articles. Accordingly, it is necessary to amend §§ 10.43, 10.44, 10.52, 10.75, and 145.36, Customs Regulations (19 CFR 10.43, 10.44, 10.52, 10.75, 145.36), which refer to the use of Customs Form 3321 to obtain duty-free entry, to reflect the discontinued use of this form.

7. Pub. L. 93–438, the Energy Reorganization Act of 1974, transferred to the Energy Research and Development Administration, all functions of the Atomic Energy Commission not specifically transferred to the Nuclear Regulatory Commission. Pub. L. 95–91, the Department of Energy Organization Act of 1978, transferred the functions of the Energy Research and Development Administration to the Department of Energy. Accordingly, § 10.102, Customs Regulations (19 CFR 10.102), which relates to the duty-free entry of articles for governmental agencies or offices, is being amended to delete reference to the abolished agency.

8. Section 115 of Pub. L. 97–446, amended section 321(a)(2)(A), Tariff Act of 1930, as amended (19 U.S.C. 1321(a)(2)(A)), to provide that bona-fide gifts from persons in foreign countries to persons in the U.S. having an aggregate fair retail value in the country of shipment not exceeding $50, may enter the U.S. free of duty and tax and without making a Customs entry. In the case of articles sent from persons in the U.S. Virgin Islands, Guam, and American Samoa, the value is $100. Previously, the values were $25 and $40, respectively. Sections 10.152, 10.153 and 145.32, Customs Regulations (19 CFR 10.152, 10.153, 145.32), are being amended to reflect these changes.

9. Section 206 of Pub. L. 98–573, the Trade and Tariff Act of 1984, amended section 498(a)(1), Tariff Act of 1930, as amended (19 U.S.C. 1498(a)(1)), by increasing the informal entry limit from $250 to $1,250. However, it exempted all articles valued in excess of $250 classified in Schedule 3, parts of Schedule 7, and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated or any other article for which formal entry is required without regard to value. Under 19 U.S.C. 1498(a)(1), the Secretary of the Treasury may specify the exact amount of the informal entry limit. The limit may vary for different classes or kinds of merchandise or different classes of transactions. After thorough consideration of the issue, it has been determined that, with the exception of the specific exclusions, the informal limit for all articles will be set initially at $1,000, with the option to increase it to $1,250 in the future. This change is being reflected by amending §§10.173, 141.82, 143.21, 143.22, 143.23, 145.12, 145.35 and 145.41, Customs Regulations (19 CFR 10.173, 141.82, 143.21, 143.22, 143.23, 145.12, 145.35, 145.41).

10. By T.D. 84–109, published in the **Federal Register** on May 8, 1984 (49 FR 19447), § 10.183, Customs Regulations (19 CFR 10.183), relating to Civil Aircraft, was established. The sample form, entitled "BLANKET CERTIFICATION FOR CIVIL AIRCRAFT PARTS", which was included in § 10.183(d)(2), contains an incorrect reference to, "section 10.183, Customs Regulations (19 *U.S.C.* 10.183)." the correct reference should be to "§ 10.183, Customs Regulations (19 *CFR* 10.183)." Accordingly, § 10.183(d)(2) is being amended to correct the reference.

11. T.D. 84–213, published in the **Federal Register** on October 19, 1984 (49 FR 41152), amended § 19.14(d), Customs Regulations (19 CFR 19.14(d)), relating to the transfer of domestic spirits from the bonded premises of a distilled spirits plant to a bonded manufacturing warehouse, or for the transfer of domestic wines from a bonded wine cellar to a bonded manufacturing warehouse, by making specific reference to a bond on Customs Form 301. As amended, § 19.14(d) is an incomplete sentence. Accordingly, it is being further amended by adding the words "shall be required" at the end of the sentence.

12. Section 24.16(c), Customs Regulations (19 CFR 24.16(c)), relating to application and bond for overtime services performed by Customs officers, is being amended by removing an "s" at the end of the word "provisions". A bond only contains one provision to secure reimbursement.

13. Section 24.18(f), Customs Regulations (19 CFR 24.18(f)), regarding the reimbursable costs involved in preclearance of air travelers in a foreign country, incorrectly refers to § 24.15, Customs Regulations. Section 24.18(f) is being amended to correct the reference to § 24.16, Customs Regulations.

14. Section 103.11, Customs Regulations (19 CFR 103.11), contains a list of specific Customs Service records subject to disclosure. The list of administrative staff manuals and instructions in § 103.11(a) contains several obsolete publications. It is being revised and updated.

14a. Section 203 of Pub. L. 98–573, the Trade and Tariff Act of 1984, amends section 431 of the Tariff Act of 1930, as amended (19 U.S.C. 1431), by removing the requirement that an importer/consignee, in its biennial certification, state reasons for requesting confidentiality of its identity and/or the identity of its shipper. Accordingly, Customs is amending § 103.14, Customs Regulations (19 CFR 103.14), to reflect the changes made to 19 U.S.C. 1431. This change will relieve Customs of the requirement to make determinations regarding the legal sufficiency of importer/consignee claims for confidentiality.

15. Various parts of the Customs Regulations relating to the Customs bond structure were amended by T.D. 84–213, published in the **Federal Register** on October 19, 1984 (49 FR 41152). That document contained a typographical error. The title for the international carrier bond conditions in § 113.64(a), Customs Regulations (19 CFR 113.64(a)), is shown as "Agreement to Pay Penalties, Duties, Taxes, and Other Changes." The correct title is, "Agreement to Pay Penalties, Duties, Taxes, and Other Charges." Section 113.64(a) is being amended to make the correction.

16. Section 207 of Pub. L. 98–573, the Trade and Tariff Act of 1984, amended § 304, Tariff Act of 1930, as amended (19 U.S.C. 1304), to provide that no exception shall be made for the country of origin marking of certain pipe and pipe fittings, compressed gas cylinders, and certain manhole rings or frames, covers, and assemblies thereof, by means of die stamping, cast-in-mold lettering, etching, or engraving, etc. Therefore, "Pipes, iron or steel, and pipe fitting of cast or malleable iron" must be removed from the J-list in § 134.33, Customs Regulations (19 CFR 134.33), which lists those articles which are excepted from the country of origin marking requirements of 19 U.S.C. 1304.

17. Customs Form 6061 and Customs Form 3299, were consolidated into a revised Customs Form 3299 to be used for the declaration for free entry of articles under item 817.00, Tariff Schedules of the United States (19 U.S.C. 1202).

Sectioin 148.77(b), Customs Regulations (19 CFR 148.77(b)), which relates to the entry of effects of persons on the termination of assignment to extended duty, or on an evacuation, is being amended to change the reference from Customs Form 6061 to Customs Form 3299.

18. Various Executive Orders relating to the designation of organizations as public international organizations entitled to certain privileges, exemptions, and immunities, necessitate the following changes to the list of such

organizations in § 148.87(b), Customs Regulations (19 CFR 148.87(b)).

(a) The Coffee Study Group (E.O. 10943) and the Southeast Asia Treaty Organization (E.O. 10866) are being removed because they no longer exist by E.O. 12033 of January 10, 1078.

(b) The first reference to the International Telecommunications Satellite Organization (INTELSAT) (E.O. 11718) is being removed because that E.O. granted limited privileges only. E.O. 11966 of January 19, 1977, revoked E.O. 11718. The second reference to INTELSAT by virture of E.O. 11966 remains as is on the list.

(c) By virtue of E.O. 12359 of April 22, 1982, the Multinational Force and Observers, and the International Food Policy Research Institute are added to the list. However, the International Food Policy Research Institute is not provided the privileges of section 2(a), section 2(b), section 2(c), that portion of the last clause of section 2(d) relating to official communications and section 7(b) of the International Organizations Immunities Act (22 U.S.C. 288a (a), (b), (c), the last clause of (d) and 288d(b)).

19. Section 152.105, Customs Regulations (19 CFR 152.105), referring to the use of deductive value for Customs purposes in determining the value of imported merchandise, incorrectly contains paragraph headings (h)(3)(a) and (b). These paragraph headings are being changed to read (h)(3)(i) and (h)(3)(ii).

20. Section 152.108, Customs Regulations (19 CFR 152.108), referring to unacceptable bases of appraisement for imported merchandise, incorrectly contains paragraphs numbered (1), (2), (3), (4), (5), (6) and (7). These paragraph headings are being changed to read (a), (b), (c), (d), (e), (f) and (g).

21. Section 213 of Pub. L. 98–573, the Trade and Tariff Act of 1984, amended several sections of the Tariff Act of 1930, as amended, relating to seizures and forfeitures. This causes changes in the administrative forfeiture limits and cost bond requirements contained in Part 162, Customs Regulations (19 CFR Part 162).

Previously, the value of property that could be seized and summarily forfeited to the government was $10,000. Now it is $100,000, except that there is no limit to the value of merchandise the importation of which is prohibited that can be summarily forfeited nor is there a limit to the value of vessels, vehicles, or aircraft used to import, export, transport or store any controlled substances, that can be summarily forfeited.

Previously, a bond for costs in the amount of $250 had to be filed with Customs by anyone claiming an interest in property seized by the government. Now the amount is $2500 or 10% of the value of the claimed property, whichever is lower, but not less than $250.

These changes are being reflected by amending §§ 162.43, 162.45, 162.46, 162.47 and 162.48, Customs Regulations (19 CFR 162.43, 162.45, 162.46, 162.47, 162.48).

22. Section 171.12, Customs Regulations (19 CFR 171.12), is being amended to conform with existing practice in regard to petitions for remission of forfeitures of conveyances. The regulations currently refer to seizure of a conveyance used *in connection with* the importation of illegal drugs or large amounts of firearms. Seizure of conveyances now takes place *after* the importation, exportation, transportation or storage of illegal drugs or firearms.

23. Section 212 of Pub. L. 98–573, the Trade and Tariff Act of 1984, amended § 520 of the Tariff Act of 1930, as amended (19 U.S.C. 520), to provide for the refund, prior to liquidation, of excess duties, fees, charges, or exactions, deposited or paid on an entry by reason of clerical error. Part 173, Customs Regulations (19 CFR Part 173), is being amended to include this new provision for correcting clerical errors.

24. Section 202 of Pub. L. 98–573, the Trade and Tariff Act of 1984, amended section 313 of the Tariff Act of 1930, as amended (19 U.S.C. 1313), by establishing a new type of drawback called "same condition substitution drawback." It also extends direct identification same condition drawback to include drawback on packaging material used to package or repackage merchandise exported under this type of drawback.

Also, as a result of section 202, the tradeoff provision of drawbacks relating to petroleum has been extended to cover all merchandise under manufacturing drawback (19 U.S.C. 1313 (a) and (b)).

Several sections of Part 191, Customs Regulations (19 CFR Part 191), are being revised to reflect the changes made by section 202.

Inapplicability of Public Notice and Delayed Effective Date Provisions

Inasmuch as these amendments merely conform the Customs Regulations to existing law or practice, pursuant to 5 U.S.C. 553(b)(B), notice and public procedure thereon are unnecessary and pursuant to 5 U.S.C. 553(d)(3), a delayed effective date is not required.

Executive Order 12291

Because this document will not result in a "major rule" as defined by section 1(b) of E.O. 12291, the regulatory analysis and review prescribed by the E.O. is not required.

Inapplicability of Regulatory Flexibility Act

This document is not subject to the provisions of sections 603 and 604 of Title 5, United States Code, as added by section 3 of Pub. L. 96–354, the "Regulatory Flexibility Act". That Act does not apply to any regulation, such as this, for which a notice of proposed rulemaking is not required by the Administrative Procedure Act (5 U.S.C. 551, *et seq.*) or any other statute.

Drafting Information

The principal author of this document was John E. Doyle, Regulations Control Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

Amendments to the Regulations

Parts 4, 10, 19, 24, 103, 113, 134, 141, 143, 145, 148, 152, 162, 171, 173, and 191, Customs Regulations (19 CFR Parts 4, 10, 19, 24, 103, 113, 134, 141, 143, 145, 148, 152, 162, 171, 173, 191), are amended as set forth below.

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

The general authority citation for Part 4 continues to read as follows:

Authority: 5 U.S.C. 301; 19 U.S.C. 66, 1624; 46 U.S.C. 3, 2103 * * *.

1. Paragraph (3) of footnote 5 to § 4.3 is revised to read as follows:

§ 4.3 Vessels required to enter.

* * * * *

(3) Vessels carrying passengers on excursion from the United States Virgin Islands to the British Virgin Islands and returning, and licensed yachts or undocumented American pleasure vessels not engaged in trade: *Provided,* That such vessels do not in any way violate the customs or navigation laws of the United States and have not visited any hovering vessel: *Provided further,* That the master of any such vessel which has on board any article required by law to be entered shall be required to report such article to the appropriate customs officer within twenty-four hours after arrival.

3. Section 4.7a(c) is amended by inserting, between the second and third sentences, a new sentence to read as follows:

§ 4.7a Inward manifest; information required; alternative forms.

* * * * *

(c) *Cargo Declaration.* (1) * * *

The name of the shipper shall be set forth in the column calling for such information and on the same line where the bill of lading is listed for that shipper's merchandise. When more than one bill of lading is listed for merchandise from the same shipper, ditto marks or the word "ditto" may be used to indicate the same shipper. * * *

4. Section 4.14 is amended by revising § 4.14(a)(2)(iii) to read as follows:

§ 4.14 Foreign equipment purchases by, and repairs to, American vessels.

(a) * * *

(2) * * *

(iii) *Vessels outside U.S. for two years or more.*

(A) *Requirements for declaration and entry of dutiable items.* If a vessel which is documented with a registry, coastwise trade, or Great Lakes trade endorsement is operated in international or foreign waters two years or more after its last departure from the U.S., the only dutiable items are fish nets and nettings whenever purchased and any other items purchased or repairs made during the first six months after the vessel's last departure from the U.S. Under these circumstances, only those items (with the exception of fish nets and nettings) purchased and repairs made outside the U.S. during the first six months after the vessel's last departure from the U.S. shall be declared and entered. Fish nets and netting purchased or repaired outside the U.S. shall be declared and entered whether or not purchased or repaired during the first six months after departure.

(B) *Exception.* The provisions of § 4.14(a)(2)(iii)(A) do not apply to a vessel designed and used primarily for transporting passengers and property if such vessel departed the U.S. for the sole purpose of obtaining equipment, parts, materials, or repairs.

* * * * *

5. Section 4.34 is amended by removing paragraph (h) and by revising paragraph (g) to read as follows:

§ 4.34 Prematurely discharged, overcarried, and undelivered cargo.

* * * * *

(g) *Cargo undelivered at foreign port and returned to the U.S.* Merchandise shipped from a domestic port, but undelivered at the foreign destination and returned, shall be manifested as "Undelivered-to be returned to original foreign destination," if such a return is intended. The district director may issue a permit to retain the merchandise on board, or he may, upon written application of the steamship company, issue a permit on a Delivery Ticket, Customs Form 6043, allowing the merchandise to be transferred to another vessel for return to the original foreign destination. No charge shall be made against the bond on Customs Form 301, containing the bond conditions relating to international carriers set forth in section 113.64 of this chapter. The items shall be remanifested outward and an explanatory reference of the attending circumstances and compliance with export requirements noted.

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE ETC.

1. The authority citation for Part 10 continues to read as follows:

AUTHORITY: 19 U.S.C. 66, 1202, 1481, 1484, 1498, 1623, 1624:

a. Section 10.17 also issued under 19 U.S.C. 1401a, 1402;

b. Section 10.22 also issued under 19 U.S.C. 1304;

c. Sections 10.41, 10.41a, 10.107 also issued under 19 U.S.C. 1322;

d. Section 10.53 also issued under 18 U.S.C. 1521, *et seq.*

e. Section 10.59 also issued under 19 U.S.C. 1309, 1317;

f. Sections 10.61–10.64a also issued under 19 U.S.C. 1309;

g. Sections 10.62a, 10.65 also issued under 19 U.S.C. 1309, 1317, 1555, 1556, 1557, 1646a;

h. Sections 10.70, 10.71 also issued under 19 U.S.C. 1486;

i. Sections 10.80–10.83 also issued under 19 U.S.C. 1313 (e) and (i);

j. Sections 10.152, 10.153 also issued under 19 U.S.C. 1321;

k. Sections 10.171–10.178 also issued under 19 U.S.C. 2461 *et seq.*

l. Sections 10.191–10.198 also issued under 19 U.S.C. 2701 *et seq.*

2. Section 10.41a(a)(2) is revised to read as follows:

§ 10.41a Lift vans, cargo vans, shipping tanks, skids, pallets, and similar instruments of international traffic; repair components.

(a)(1) * * *

(2) Repair components, accessories, and equipment for any container of foreign production which is an instrument of international traffic may be entered or withdrawn from warehouse for consumption without the deposit of duty if the person making the entry or withdrawal from warehouse files a declaration that the repair component was imported to be used in the repair of a container of foreign production which is an instrument of international traffic, or that the accessory or equipment is for a container of foreign production which is an instrument of international traffic. The district director must be satisfied that the importer of the repair component, accessory, or equipment had the declared intention at the time of importation.

* * * * *

3. Section 10.43 and the section heading are revised to read as follows:

§ 10.43 Duty-Free status.

(a) The district director may, at his discretion, require appropriate proof of duty-free status for articles for institutions claimed to be exempt from duty under items 850.10, 850.40, 850.70, 851.10, 851.20, 851.30, 851.40, 851.50, Tariff Schedules of the United States (19 U.S.C. 1202).

(b) Appropriate proof may be a copy of the charter or other evidence of the character of the institution for the use of which the articles are imported.

§ 10.44 [Removed]

4. Part 10 is amended by removing § 10.44 and marking it "Reserved".

5. Section 10.52 is revised to read as follows:

§ 10.52 Painted, colored or stained glass windows for religious institutions.

When painted, colored, or stained glass windows or parts thereof, are claimed free of duty under item 850.30, Tariff Schedules of the United States (19 U.S.C. 1202), the district director may, at his discretion, require appropriate proof that the importation was designed by, and produced by or under the direction of, a professional artist, and that it is for the use of an institution established solely for religious purposes.

6. Section 10.75 is revised to read as folllows:

§ 10.75 Wild animals and birds; zoological collections.

When wild animals or birds are claimed to be free of duty under item 852.20, Tariff Schedules of the United States (19 U.S.C. 1202), the district director may, at his discretion, require appropriate proof that the animals or birds were specially imported pursuant to negotiations conducted prior to importation for the delivery of animals or birds of a named species meeting agreed specifications of reasonable particularity and that they are intended at the time of importation for public exhibition in a collection maintained for scientific or educational purposes and not for sale or for use in connection with any enterprise conducted for profit. That fact that an animal or bird may have been sent on approval shall not preclude free entry under item 852.20 when it is actually accepted as a part of the zoological collection and so exhibited.

§ 10.102 [Amended]

7. Section 10.102(b)(3) is amended by removing the words, "Energy Research and Development Administration" both places where they appear, and inserting, in their place, "Department of Energy".

§ 10.152 [Amended]

8. Section 10.152 is amended by removing "$25", and inserting, in its place, "$50", and by removing "$40", and inserting, in its place, "$100".

§ 10.153 [Amended]

9. Sections 10.153(b), (d)(2), (d)(3) and (f) are amended by removing "$25", and inserting, in its place, "$50", and by removing "$40", and inserting, in its place, "$100".

§ 10.173 [Amended]

10. Section 10.173 is amended by revising the heading of paragraph (a) to read, *"Shipments covered by a formal entry".* Paragraph (a) is further amended by deleting "$250", and inserting in its place, "$1,000 (except for articles valued in excess of $250 classified in Schedule 3; Parts 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated)".

§ 10.183 [Amended]

11. The sample form in § 10.183(d)(2) is amended by removing "(19 U.S.C. 10.183)" and inserting, in its place, "(19 CFR 10.183)".

PART 19—CUSTOMS WAREHOUSES, CONTAINER STATIONS AND CONTROL OF MERCHANDISE THEREIN

1. The authority citation for Part 19 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1624:

Section 19.1 also issued under 19 U.S.C. 1311, 1312, 1555, 1556, 1557, 1560, 1561, 1562;

Section 19.7 also issued under 19 U.S.C. 1555, 1556;

Section 19.11 also issued under 19 U.S.C. 1556,1562;

Section 19.15 also issued under 19 U.S.C. 1311;

Section 19.16 also issued under 19 U.S.C. 1311, 26 U.S.C. 5723, 5752;

Sections 19.17–19.25 also issued under 19 U.S.C. 1312;

Section 19.40(a) also issued under 19 U.S.C. 1450, 1499, 1623;

Sections 19.41–19.43 also issued under 19 U.S.C. 1499;

Section 19.44 also issued under 19 U.S.C. 1448;

Section 19.45 also issued under 19 U.S.C. 1551, 1565;

Section 19.48 also issued under 19 U.S.C. 1499, 1623;

Section 19.49 also issued under 19 U.S.C. 1484.

2. All other statutory authority cited at the end of various sections in Part 19 is removed.

3. Section 19.14(d) is amended to read as follows:

§ 19.14 Materials for use in manufacturing warehouse.

* * * * *

(d) *Domestic spirits and wines.* For the transfer of domestic spirits from the bonded premises of a distilled spirits plant to a bonded manufacturing warehouse, or for the transfer of domestic wines from a bonded wine cellar to a bonded manufacturing warehouse, a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter, shall be required.

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

1. The authority citation for Part 24 continues to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (Gen. Hdnote 11), 1624, 31 U.S.C. 9701:

Section 24.1 also issued under 19 U.S.C. 197, 198, 1648;

Section 24.4 also issued under 19 U.S.C. 1623, 26 U.S.C. 5007, 5054, 5061, 7805;

Section 24.11 also issued under 19 U.S.C. 1485(d);

Section 24.12 also issued under 19 U.S.C. 1524, 46 U.S.C. 927;

Section 24.14 also issued under 19 U.S.C. 1;

Section 24.16 also issued under 19 U.S.C. 261, 267, 1450, 1451, 1452, 1623, 46 U.S.C. 2111, 2112;

Section 24.17 also issued under 19 U.S.C. 261, 267, 1450, 1451, 1452, 1458, 1524, 1557, 1582, 46 U.S.C. 2110, 2111, 2112;

Section 24.32 also issued under 5 U.S.C. 5562, 5563;

Section 24.36 also issued under 26 U.S.C. 6423.

§ 24.16 [Amended]

2. The third sentence of § 24.16(c) is amended by removing the "s" at the end of the word "provisions".

§ 24.18 [Amended]

3. Section 24.18(f) is amended by removing "§ 24.15" and inserting, in its place, "§ 24.16".

PART 103—AVAILABILITY OF INFORMATION

1. The authority citation for Part 103 is revised to read as follows:

Authority: 5 U.S.C. 301, 552, 19 U.S.C. 66, 1624, 31 U.S.C. 9701.

2. All other statutory authority cited at the end of various sections in Part 103 is removed.

3. Section 103.11(a) is revised to read as follows:

§ 103.11 Specific Customs Service records subject to disclosure.

(a) *Administrative staff manuals and*

(iv) Each certification will be valid for a period of two (2) years from the date

place, "$1,000 (except for articles valued in excess of $250 classified in Schedule

Authority: 19 U.S.C. 66, 1201 (Gen. Hdnote 11); 1624.

Section 148.21 also issued under 19 U.S.C. 1461, 1462;

§ 103.11 Specific Customs Service records subject to disclosure.

(a) *Administrative staff manuals and instructions.* Except as exempted by § 103.12, all administrative staff manuals and instructions to staff that affect any member of the public, and indexes thereto, are available for public inspection and copying in the Customs Service public reference facilities (see § 103.1), including the following:

Forms Catalog. Customs and other agency forms currently available from the Customs Service.

Legal Precedent Retrieval System. The directory is a listing by selected keywords of all classification rulings issued since early 1974 that affect a substantial volume of imports or transactions or are of general interest or importance, and of all published classification rulings issued since August 31, 1963, including classification decisions, and classification rulings circulated within the Customs Service by the Customs Information Exchange and the Office of Regulations and Rulings. The directory also contains limited information on decisions and rulings pertaining to entry, value, drawback, marking, country of origin, and vessel repairs. The directory is maintained on microfiche and is continually updated. Duplicate microfiche are available for 15¢ each, through subscription or in individual sets. The costs of a set will depend upon the number of microfiche it contains.

Fines, Penalties, and Forfeitures Handbook. Collects in one document information relating to the total management of the fines, penalties, and forfeitures program.

Inspector Rate Book. A ready reference guide for inspection personnel. Contains an abbreviated Tariff Schedules of the United States and other reference material.

Customs Issuance System (CIS) Index. The index provides a brief description of circulars, manuals, legal rulings, decisions, and other Customs documents.

Operational Handbook of Other Agency Requirements Enforced by the U.S. Customs Service.

Customs Valuation under the Trade Agreements Act of 1979.

Fundamentals of Customs Tariff and Trade Operations Handbook. Material relating to the duties and responsibilities of import specialists: entry of merchandise, restrictions, prohibitions and other agency requirements, special trade programs, invoicing and related documentation, examination of merchandise, Customs valuation, tariff classification, liquidation, protests, and miscellaneous import specialist concerns.

* * * * *

4. Section 103.14(d)(1) is revised to read as follows:

§ 103.14 Information on vessel manifests and summary statistical reports.

* * * * *

(d) *Confidential treatment.* (1) *Inward manifest.* An importer or consignee may request confidential treatment of its name and address contained in inward manifests, to include identifying marks and numbers. In addition, an importer or consignee may request confidential treatment of the name and address of the shipper or shippers to such importer or consignee by using the following procedure:

(i) An importer or consignee, or authorized employee, attorney or official of the importer or consignee, must submit a certification (as described in subparagraph (ii) of this paragraph) claiming confidential treatment of its name and address. The name and address of an importer or consignee includes marks and numbers which reveal the name and address of the importer or consignee. An importer or consignee may file a certification requesting confidentiality for all its shippers.

(ii) There is no prescribed format for a certification. However, the certification shall include the importer's or consignee's Internal Revenue Service Employer Number, if available. There is no requirement to provide sufficient facts to support the conclusion that the disclosure of the names and addresses would likely cause substantial harm to the competitive position of the importer or consignee.

(iii) The certification must be submitted to the Disclosure Law Branch, Regulations Control and Disclosure Law Division, Headquarters, U.S. Customs Service, 1301 Constitution Avenue, NW., Room 2325, Washington, D.C. 20229.

(iv) Each initial certification will be valid for a period of two years from the date of receipt. Renewal certifications should be submitted to the Disclosure Law Branch at least 60 days prior to the expiration of the current certification. Information so certified may be copied, but not published, by the press during the effective period of the certification. An importer or consignee shall be given written notification by Customs of the receipt of its certification of confidentiality.

* * * * *

5. Section 103.14(d)(2) (iii) and (iv) are revised to read as follows:

§ 103.14 Information on vessel manifests and summary statistical reports.

* * * * *

(d) *Confidential treatment.* * * *

(2) *Outward manifest.* * * *

(iii) The certification must be submitted to the Disclosure Law Branch, Regulations Control and Disclosure Law Division, Headquarters, U.S. Customs Service, 1301 Constitution Avenue, NW., Room 2325, Washington, D.C. 20229.

(iv) Each certification will be valid for a period of two (2) years from the date of its approval.

PART 113—CUSTOMS BONDS

1. The authority citation for Part 113 is revised to read as follows:

Authority: 19 U.S.C. 66, 1623, 1624. Subpart E also issued under 19 U.S.C. 1484.

§ 113.64 [Amended]

2. The heading to § 113.64(a), is amended by removing "Changes" and inserting, in its place, "Charges."

PART 134—COUNTRY OF ORIGIN MARKING

1. The authority citation for Part 134 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Headnote 11), 1304, 1624.

2. All other statutory authority cited at the end of various sections in Part 134 is removed.

§ 134.33 [Amended]

3. Section 134.33 is amended by removing "Pipes, iron or steel, and pipe fittings of cast or malleable iron (except cast iron soil pipe and fittings) T.D. 71–89.", from the list of articles excepted from country of origin marking requirements.

PART 141—ENTRY OF MERCHANDISE

1. The authority citation for Part 141 is revised to read as follows:

Authority: 19 U.S.C. 66, 1448, 1484, 1624.

Subpart G also issued under 19 U.S.C. 1505

Section 141.1 also issued under 31 U.S.C. 3713

Section 141.4 also issued under 19 U.S.C. 1498

Section 141.19 also issued under 19 U.S.C. 1485, 1486

Section 141.20 also issued under 19 U.S.C. 1485, 1623

Section 141.66 also issued under 19 U.S.C. 1490, 1623

Section 141.69 also issued under 19 U.S.C. 1315

Section 141.89 also issued under 19 U.S.C. 1202 (Gen Hdnote 11), 1481

Section 141.90 also issued under 19 U.S.C. 1487

Section 141.112 also issued under 19 U.S.C. 1564

Section 141.113 also issued under 19 U.S.C. 1499, 1623

2. All other statutory authority cited at the end of various sections in Part 141 is removed.

§ 141.82 [Amended]

3. Section 141.82(d) is amended by removing "$250", and inserting, in its place, "$1,000 (except for articles valued in excess of $250 classified in Schedule 3; Parts 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated)"

PART 143—CONSUMPTION, APPRAISEMENT, AND INFORMAL ENTRIES

1. The authority citation for Part 143 is revised to read as follows:

Authority: 19 U.S.C. 66, 1481, 1484, 1498, 1624.

2. All other statutory authority cited at the end of various sections in Part 143 is removed.

§ 143.21 [Amended]

3. Section 143.21(a) is amended by removing, "$250 in value", and inserting, in its place, "$1,000 in value (except for articles valued in excess of $250 classified in Schedule 3; Parts 1, 4A, 7B, 12A, 12D and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated)."

4. Section 143.21(b) is amended by removing, "$250", and inserting, in its place "$1,000".

5. Section 143.21(c) is amended by removing, "$250" and inserting, in its place "$1000". Paragraph (c) is further amended by adding the sentence, "This paragraph does not apply to shipments of articles valued in excess of $250 classified in items from Schedule 3; Parts 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated."

6. Section 143.21(f) and (g) are amended by removing, "$250", and inserting, in its place, "$1,000".

§ 143.22 [Amended]

7. Section 143.22 is amended by removing "$250" and inserting, in its place, "$1,000".

§ 143.23 [Amended]

8. Section 143.23(d) is amended by removing "$250 in value" and inserting, in its place, "$1,000 in value (except for articles valued in excess of $250 classified in Schedule 3; Parts 1, 4A, 7B, 12A, 12D, and 13B of Schedule 7; items 772.30 and 772.35; and Parts 2 and 3 of the Appendix of the Tariff Schedules of the United States Annotated)".

PART 145—MAIL IMPORTATIONS

1. The authority citation for Part 145 is revised to read as follows:

Authority: 19 U.S.C. 66, 1201 (Gen. Hdnote 11); 1624.

Section 145.4 also issued under 18 U.S.C. 545, 19 U.S.C. 1618;

Section 145.11 also issued under 19 U.S.C. 1481, 1485, 1498;

Section 145.12 also issued under 19 U.S.C. 1315, 1484, 1498;

Sections 145.22–145.23 also issued under 19 U.S.C. 1501, 1514;

Section 145.31 also issued under 19 U.S.C. 1321;

Section 145.32 also issued under 19 U.S.C. 1321, 1498;

Sections 145.35–145.38, 145.41, also issued under 19 U.S.C. 1498;

Section 145.51 also issued under 19 U.S.C. 1305;

Section 145.54 also issued under 19 U.S.C. 1618.

2. All other statutory authority cited at the end of various sections in Part 145 is removed.

§ 145.12 [Amended]

3. Section 145.12(a)(2), is amended by removing "$250" and inserting, in its place, "$1,000".

4. Section 145.12(a)(3) is amended by removing "$250", both places where it appears, and inserting, in its place, "$1,000".

5. Section 145.12(b), is amended by removing "$250" and inserting, in its place, "$1,000".

6. Section 145.12(c) is amended by removing "$250" from the sub-section heading and from the paragraph, and inserting, in both places, "$1,000".

§ 145.32 [Amended]

7. Section 145.32 is amended by removing "$25", and inserting, in its place, "$50", and by removing "$40", and inserting, in its place, "$1,00".

§ 145.35 [Amended]

8. Section 145.35 is amended by removing "$250" and inserting, in its place, "$1,000".

§ 145.36 [Amended]

9. Section 145.36 is amended by removing, "on Customs Form 3321" from the last sentence.

§ 145.41 [Amended]

10. Section 145.41 is amended by removing "$250" and inserting, in its place, "$1,000".

PART 148—PERSONAL DECLARATIONS AND EXEMPTIONS

1. The authority citation for Part 148 is revised to read as follows:

Authority: 19 U.S.C. 66, 1498, 1624. The provisions of this part, except for Subpart C, are also issued under 19 U.S.C. 1202 (Gen. Hdnote 11);

Section 148.21 also issued under 19 U.S.C. 1461, 1462;

Sections 148.43, 148.51, 148.63, 148.64, 148.74 also issued under 19 U.S.C. 1321;

Section 148.87 also issued under 22 U.S.C. 288.

2. All other statutory authority cited at the end of various sections in Part 148 is removed.

§ 148.77 [Amended]

3. Section 148.77(b) is amended by removing "8061" and inserting, in its place, "3299".

§ 148.87 [Amended]

4. The list in § 148.87(b) is amended by making the following changes:

(a) The references to the "Coffee Study Group, E.O. 10943, May 19, 1961" and the "Southeast Asia Treaty Oranization, E.O. 10866, February 23, 1960" are removed.

(b) The first reference to the "International Telecommunications Satellite Organization (INTELSAT)—Limited privileges only, E.O. 11718, May 14, 1973" is removed.

(c) The list is further amended by inserting the following in appropriate alphabetical order:

§ 148.87 Officers and employees of, and representatives to public international organizations.

* * * * *

(b) * * *

Organization	Executive order	Date
International Food Policy Research Institute—Limited Privileges only.	12359	Apr. 22, 1982.
* * *	* * *	* * *
Multinational Force and Observers.	12359	Apr. 22, 1982.

PART 152—CLASSIFICATION AND APPRAISEMENT OF VALUE

1. The authority citation for Part 152 is revised to read as follows:

Authority: 19 U.S.C. 66, 1401a, 1500, 1502, 1624. Subpart B also issued under 19 U.S.C. 1315. Subpart C also issued under 19 U.S.C. 1503. Subpart D also issued under 19 U.S.C. 1202 (Gen. Hdnote 12).

Section 152.3 also issued under 19 U.S.C. 1499;

Sections 152.13, 152.24 also issued under 19 U.S.C. 1202 (Gen. Hdnote 7);

Sections 152.31–152.32 also issued under 19 U.S.C. 1401a

2. All other statutory authority cited at the end of various sections in Part 152 is removed.

3. Part 152 is amended in the following manner:

§ 163.45 [Amended]

4. The heading to § 162.45 is amended

limit in value of merchandise, the importation of which is prohibited, or in

§ 173.4a Correction of clerical error prior to liquidation.

[19 U.S.C. 1313(j) contains two paragraphs numbered (4). See first

(h) *Substitution same condition drawback.* If legal person X possesses

VOL 50 ISS 141 JL 23 1985 UMI

3. Part 152 is amended in the following manner:

§ 152.105 [Amended]

In § 152.105, paragraph headings (h)(3)(a) and (b) are changed to (h)(3)(i) and (ii), respectively.

§ 152.108 [Amended]

4. Part 152 is further amended by changing the paragraph headings in § 152.108 from (1), (2), (3), (4), (5), (6), and (7) to (a), (b), (c), (d), (e), (f) and (g), respectively.

PART 162—RECORDKEEPING, INSPECTION, SEARCH AND SEIZURE

1. The authority citation for Part 162 is revised to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1624.

Subpart B also issued under 19 U.S.C. 1595;

Subpart G also issued under 19 U.S.C. 1466, 1584, 1592, 1613, 1618;

Section 162.3 also issued under 19 U.S.C. 1581;

Section 162.4 also issued under 39 U.S.C. 604, 605;

Section 162.5 also issued under 19 U.S.C. 1581, 49 U.S.C. 1509

Section 162.6 also issued under 19 U.S.C. 1461, 1467, 1498;

Section 162.7 also issued under 19 U.S.C. 482;

Section 162.21 also issued under 19 U.S.C. 482, 1581, 1582, 1602;

Section 162.22 also issued under 18 U.S.C. 546, 19 U.S.C. 1459, 1460, 1594, 1701, 1703–1708;

Section 162.32 also issued under 19 U.S.C. 1603, 1610;

Section 162.43 also issued under 19 U.S.C. 1606, 1608;

Section 162.44 also issued under 19 U.S.C. 1614;

Section 162.46 also issued under 19 U.S.C. 1609, 1611;

Section 162.47 also issued under 19 U.S.C. 1608;

Section 162.48 also issued under 19 U.S.C. 1612;

Section 162.49 also issued under 19 U.S.C. 5688;

Section 162.50 also issued under 19 U.S.C. 1611, 1705;

Section 162.61 also issued under 21 U.S.C. 592, 953, 957;

Section 162.62 also issued under 21 U.S.C. 592, 956;

Sections 162.63, 162.64 also issued under 21 U.S.C. 881, 966;

Section 162.65 also issued under 19 U.S.C. 1584, 21 U.S.C. 960, 961.

2. All other statutory authority cited at the end of various sections in Part 162 is removed.

§ 163.43 [Amended]

3. Section 162.43 is amended by removing paragraph (c).

§ 163.45 [Amended]

4. The heading to § 162.45 is amended by removing "$10,000" and inserting, in its place, "$100,000".

5. Section 162.45(a) is revised to read as follows:

§ 162.45 Summary forfeiture where value not over $100,000 Property other than Schedule 1 controlled substances. Notice of seizure and sale.

(a) *Contents.* The notice required by section 607, Tariff Act of 1930, as amended (19 U.S.C. 1607), of seizure and intent to forfeit and sell or otherwise dispose of according to law property not exceeding $100,000 in value, or any seized merchandise the importation of which is prohibited, or any seized vessel, vehicle or aircraft that was used to import, export, transport, or store any controlled substance, shall:

(1) Describe the property seized and in the case of motor vehicles, specify the motor and serial numbers;

(2) State the time, cause, and place of seizure;

(3) State that any person desiring to claim property must appear at a designated place and file with the district director within 20 days from the date of first publication of the notice a claim to such property and a bond in the sum of $2,500 or 10% of the value of the claimed property, whichever is lower, but not less than $250, in default of which the property will be disposed of in accordance with the law; and

(4) State the name and place of residence of the person to whom any vessel or merchandise seized for forfeiture under the navigation laws belongs or is consigned, if that information is known to the district director.

* * * * *

§ 162.45 [Amended]

5. Section 162.45(c) is amended by removing "$10,000" and inserting, in its place, "$100,000 (excluding merchandise, the importation of which is prohibited, and vessels, vehicles or aircraft used to import, export, transport or store and controlled substance, for which there is no value limit)"

§ 162.46 [Amended]

6. Section 162.46 is amended by removing "$10,000" from the section heading and inserting, in its place, "$100,000".

§ 162.47 [Amended]

7. Section 162.47(a) is amended in the following manner:

(a) The figure "$10,000" is removed and $100,000" is inserted in its place.

(b) Immediately after the word "value", insert "(however there is no limit in value of merchandise, the importation of which is prohibited, or in the value of vessels, vehicles or aircraft used to import, export, transport, or store any controlled substance, that may be seized and forfeited)."

8. Section 162.47(b) is amended by removing "$250" and and inserting, in its place, "$2,500 or 10% of the value of the claimed property, whichever is lower, but not less than $250,".

§ 146.48 [Amended]

9. Section 162.48 is amended by removing "$10,000" from the section heading and the text, and inserting, in those places, "$100,000".

PART 171—FINES, PENALTIES, AND FORFEITURES

1. The authority citation for Part 171 is revised to read as follows:

Authority: 19 U.S.C. 66, 1592, 1618, 1624.

Subpart C also issued under 22 U.S.C. 401, 46 U.S.C. 320, 2107.

Section 171.44 also issued under 40 U.S.C. 304j, 304k.

2. All other statutory authority cited at the end of various sections in Part 171 is removed.

3. Section 171.12(c) is revied to read as follows:

§ 171.12 Filing of petition.

* * * * *

(c) *Petitions for remission of forfeitures of certain conveyances.* Petitions for remission of forfeiture of a conveyance seized in connection with the illegal importation, exportation, transportation, or storage of any amount of heroin, 5 pounds or more of cocaine, 10 pounds or more of hashish, 250 pounds or more of other controlled substances, or with the illegal importation, exportation, or transportation of firearms in a quantity clearly in excess of personal use needs, shall be filed within 30 days from the date of mailing of the notice of fine, penalty or forfeiture incurred.

* * * * *

PART 173—ADMINISTRATIVE REVIEW IN GENERAL

1. The authority citation for Part 173 is revised to read as follows:

Authority: 19 U.S.C. 66, 1501, 1520, 1521, 1624.

2. All other statutory authority cited at the end of the various section of Part 173 is removed.

3. Part 173 is amended by adding a new section, designated § 173.4a to read as follows:

§ 173.4a Correction of clerical error prior to liquidation.

Pursuant to § 520(a)(4), Tariff Act of 1930, as amended (19 U.S.C. 1520(a)(4)), the district director may, prior to liquidation of an entry, take appropriate action to correct a clerical error that resulted in the deposit or payment of excess duties, fees, charges, or exactions.

PART 191—DRAWBACK

1. The authority citation for Part 191 is revised to read as follows:

Authority: 5. U.S.C. 301, 19 U.S.C. 66, 1202 (Gen. Hdnote 11), 1313, 1624.

Section 191.7 also issued under 19 U.S.C. 1514;

Section 191.8 also issued under 19 U.S.C. 1557;

Section 191.9 also issued under 18 U.S.C. 550;

Section 191.94 also issued under 19 U.S.C. 1309;

Sections 191.131(a), 191.133, 191.137, 191.139 also issued under 19 U.S.C. 1557;

Sections 191.162–191.166 also issued under 19 U.S.C. 81c.

2. All other statutory authority cited at the end of various sections of Part 191 is removed.

§ 191.2 [Amended]

3. Section 191.2(b) is amended by removing the period from the end of the section, and inserting, in its place, "or (j)(2)."

§ 191.4 [Amended]

4. Section 191.4(a)(9) is amended by revising the hearing to read, *Direct identification same condition drawback"*, and by adding a "(1)" after 313(j) and after 1313(j) in this section.

5. Sections 191.4(a)(10), (a)(11), and (a)(12) are renumbered §§ 191.4(a)(12), (a)(13), and (a)(14), respectively.

6. Part 191 is further amended by adding new §§ 191.4(a)(10) and (a)(11) to read as follows:

§ 191.4 Types of drawback.

(a) * * *

(10) *Substitution same condition drawback.* Drawback of duties is provided for in § 313(j)(3), Tariff Act of 1930, as amended (19 U.S.C. 1313(j)(3)), on merchandise fungible with imported merchandise when exported or destroyed under Customs supervision, provided all the conditions described under § 191.141(h) are complied with.

(11) *Packaging materials.* Drawback of duties is provided for in § 313(j)(4), Tariff Act of 1930, as amended (19 U.S.C. 1313(j)(4)), on packaging material used to package or repackage merchandise exported with direct identification same condition drawback. (19 U.S.C. 1313(j) contains two paragraphs numbered (4). See first paragraph (4)).

§ 191.12 [Amended]

* * * * *

7. Section 191.12 is amended by removing "19 U.S.C. 1313(l)", and inserting, in its place, "19 U.S.C. 1313(m)".

8. Part 191 is further amended by adding a new § 191.27 to read as follows:

§ 191.27 Tradeoff.

(a) *Exchanged Merchandise.* To comply with §§ 191.22(a)(ii) and 191.32(a)(3), the use of domestic merchandise taken in exchange for imported merchandise of the same kind and quality shall be treated as use of the imported merchandise if no certificate of delivery (Customs Form 7543) is issued covering the imported merchandise. This provision shall be known as tradeoff and is authorized by section 313(k), Tariff Act of 1930, as amended (19 U.S.C. 1313(k)).

(b) *Requirements.* Tradeoff must occur between two separate legal entities, but it is not necessary that the entity exchanging the imported merchandise be the importer thereof. In addition, tradeoff must be a straight tradeoff of same kind and quality merchandise, with no additional payments of any type, including additional payment in kind.

(c) *Application.* Each would-be user of tradeoff, except those operating under a general drawback contract covering substitution, must apply to the Drawback and Bonds Branch, Office of Regulations and Rulings, Customs Headquarters, for a determination of whether the imported and domestic merchandise are same kind and quality. For those users manufacturing under substitution drawback, this request should be contained in the drawback proposal. For those users manufacturing under direct identification drawback, the request should be made by a separate letter. General drawback contracts covering substitution will be revised to provide for tradeoff.

§ 191.32 [Amended]

9. Section 191.32 is amended by removing paragraph (c). Section 191.32 is further amended by redesignating paragraphs (d) as (c), and (e) as (d), respectively.

10. Section 191.141 is amended by adding a new subparagraph (h) to read as follows:

§ 191.141 Same condition drawback.

* * * * *

(h) *Substitution same condition drawback.* If legal person X possesses imported merchandise (the designated merchandise) during some time interval in period A (defined below) and also possesses other merchandise fungible with it (the substituted merchandise) during the same or different time interval in period A, then 99 percent of the duty paid on the designated merchandise will be refunded as drawback, provided that:

(1) The designated merchandise was in the same condition as imported either at the time of substitution, the time X used it in manufacturing, or at the time X transferred it to another person, whichever occurs first;

(2) The substituted merchandise is in the same condition when exported or destroyed under Customs supervision as was the designated merchandise when imported;

(3) X does not issue a certificate of delivery covering the designated merchandise nor a certificate of manufacture and delivery covering articles manufactured or produced therefrom; and

(4) X maintains records to establish requirements, (1), (2), and (3) of this section and also complies with all relevant requirements of §§ 191.141 (a) through (g) of this chapter.

Period A (referred to above) begins when X receives the merchandise and ends three years after the importation of said merchandise.

William von Raab,
Commissioner of Customs.

Approved: June 13, 1985.

John M. Walker, Jr.,
Assistant Secretary of the Treasury.

BILLING CODE 4820–02–M

RAILROAD RETIREMENT BOARD

20 CFR Part 200

Debt Collection

AGENCY: Railroad Retirement Board.

ACTION: Final rule.

SUMMARY: The Railroad Retirement Board (Board) hereby amends its regulations to provide for waiver of interest, penalties, and collection costs, as authorized by the Debt Collection Act of 1982, in connection with the collection of certain debts arising from erroneous benefit payments under the several Acts administered by the Board. The Debt Collection Act of 1982 requires the Board to charge interest on claims for money owed the Board, to assess the

penalties on delinquent debts, and to assess charges to cover the costs of processing claims for delinquent debts,

penalties, and administrative costs when it is determined that assessing such charges would be against equity

By Authority of the Board.
Beatrice Ezerski,

(A) The debt is paid within thirty days after the end of the period within which the debtor may request waiver of

tax is applicable to model types of 1980 and later model year automobiles that

manufacturer to establish not only that it was not

penalties on delinquent debts, and to assess charges to cover the costs of processing claims for delinquent debts. The Act permits, and in certain cases requires, an agency to waive the collection of interest, penalties, and charges. This new section contains the circumstances under which the Board may waive the collection of interest, penalties and charges which arise from benefit or annuity overpayments made under any of the Acts the Board administers.

EFFECTIVE DATES: July 23, 1985.

FOR FURTHER INFORMATION CONTACT: Steven A. Bartholow, Deputy General Counsel, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 (312) 751–4935 (FTS 387–4935).

SUPPLEMENTARY INFORMATION: The Board published this rule as a proposed rule on March 7, 1985, and invited public comment (50 FR 9285–9286). No comments were received by the Board on the proposed rule.

Section 11 of the Debt Collection Act of 1982 (Pub. L. 97–365) amended section 3(e) of the Federal Claims Collection Act of 1966 to provide that the head of an agency shall charge interest on claims owed the agency, assess penalties on delinquent debts, and assess charges to cover the costs of processing delinquent claims. Section 11 imposes a mandatory requirement that interest, penalties, and charges be assessed except as specifically provided in that section. Paragraphs (3) and (6) of the amended section 3(e) provide, respectively, for waiver of interest and penalties under agency regulations adopted in accordance with standards established by the Attorney General and the Comptroller General and for a thirty-day grace period within which payment may be made and no interest charged.

The amended § 200.6 implements the exception contained in the amended section 3(e)(6) of the Federal Claims Collection Act by establishing criteria for waiver in conformity with the standards adopted by the Attorney General and the Comptroller General and published as a final rule in the **Federal Register** on March 9, 1984. The new § 200.6 provides that interest must be waived if the underlying debt is paid within 30 days after notice of the debt or, where waiver of recovery of the overpayment is available, within 30 days after the expiration of the period within which the debtor may request waiver of recovery of the erroneous payment if no request is made or within 30 days after a decision denying waiver of recovery if such was requested. The new § 200.6 also provides for discretionary waiver of interest, penalties, and administrative costs when it is determined that assessing such charges would be against equity and good conscience or not in the best interests of the United States.

The Board has determined that this is not a major rule under Executive Order 12291. Therefore, no Regulatory Impact Analysis is required.

Claims, Employee benefit plans, Railroad employees, Railroad retirement, Railroad unemployment insurance, Debt collection.

PART 200—[AMENDED]

Title 20 CFR Chapter II, is amended as follows:

1. The authority citation for 20 CFR Part 200 is revised to read as follows:

Authority: 45 U.S.C. 231f(b)(5) and 45 U.S.C. 362, unless otherwise noted. Section 200.6 also issued under 31 U.S.C. 3717.

2. The table of contents for Title 20, Chapter II, Subchapter A, Part 200 is amended by adding at the end thereof the following: "200.6 Waiver of interest, penalties, and collection costs with respect to collection of certain debts."

3. A new § 200.6 is added to Subchapter A and reads as follows:

§ 200.6 Waiver of interest, penalties, and collection costs with respect to collection of certain debts.

(a) *Purpose.* The Debt Collection Act of 1982 requires the Board to charge interest on claims for money owed the Board, to assess penalties on delinquent debts, and to assess charges to cover the costs of processing claims for delinquent debts. The Act permits, and in certain cases requires, an agency to waive the collection of interest, penalties and charges under circumstances which comply with standards enunciated jointly by the Comptroller General and the Attorney General. Those standards are contained in 4 CFR 102.13. This section contains the circumstances under which the Board may waive the collection of interest, penalties and charges which arise from benefit or annuity overpayments made under any of the Acts the Board administers.

(b)(1) The Board shall waive the collection of interest under the following circumstances:

(i) When the debt is paid within thirty days after the date on which notice of the debt was mailed or personally delivered to the debtor;

(ii) When in any case where a decision with respect to waiver of recovery of the overpayment must be made,

(A) The debt is paid within thirty days after the end of the period within which the debtor may request waiver of recovery if no request is received within the prescribed time period; or

(B) The debt is paid within thirty days after the date on which notice was mailed to the debtor that his or her request for waiver of recovery has been wholly or partially denied if the debtor requested waiver of recovery within the prescribed time limit; however, regardless of when the debt is paid, no interest may be charged for any period prior to the end of the period within which the debtor may request waiver of recovery or, if such request is made, for any period prior to the date on which notice was mailed to the debtor that his or her request for waiver of recovery has been wholly or partially denied;

(iii) When, in the situations described in paragraphs (b)(1)(i) and (b)(1)(ii) of this section, the debt is paid within any extension of the thirty-day period granted by the Board;

(iv) With respect to any portion of the debt which is paid within the time limits described in paragraphs (b)(1)(i), (b)(1)(ii), or (b)(1)(iii) of this section; or

(v) In regard to any debt the recovery of which is waived.

(2) The Board may waive the collection of interest, penalties and administrative costs in whole or in part in the following circumstances:

(i) When collecting interest, penalty and administrative costs is against equity and good conscience; or

(ii) Where collecting interest, penalty and adminstrative costs is not in the best interests of the United States.

(c)(1) In making determinations as to when the collection of interest, penalty and administrative costs is against equity and good conscience the Board will consider evidence on the following factors:

(i) The fault of the overpaid individual in causing the underlying overpayment; and

(ii) Whether the overpaid individual in reliance on the incorrect payment relinquished a valuable right or changed his or her position for the worse.

(2) In rendering a determination as to when the collection of interest, penalties and charges is "not in the interest of the United States" the Board will consider the following factors:

(i) Whether the collection of interest, penalties and charges would result in the debt never being repaid; and

(ii) Whether the collection of interest, penalties and charges would cause undue hardship.

Dated: July 15, 1985.

By Authority of the Board.
Beatrice Ezerski,
Secretary of the Board.

BILLING CODE 7905–01–M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Parts 1, 48, 138 and 602

[T.D. 8036]

Income, Miscellaneous Excise, and Manufacturers and Retailers Excise Taxes, Temporary Excise Tax Regulations, Reporting and Recordkeeping Requirements; Gas Guzzler Tax

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to the gas guzzler tax, as provided by section 4064 of the Internal Revenue Code of 1954. Changes to the applicable tax law were made by the Energy Tax Act of 1978. These final regulations provide manufacturers of automobiles with the guidance needed to comply with that Act.

DATE: This Treasury decision applies to 1980 and later model year automobiles, and is effective July 23, 1985.

FOR FURTHER INFORMATION CONTACT: Robert H. Ginsburgh of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202–566–3297).

SUPPLEMENTARY INFORMATION:

Background

On February 8, 1980, the **Federal Register** published proposed amendments to the Excise Tax Regulations (26 CFR Part 48) under sections 4064 and 4222 of the Code, as well as temporary regulations containing the same rules. A public hearing was held on June 19, 1980. After consideration of all comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision. These regulations supersede the temporary regulations issued under §§ 138.4064–1 and 138.4222–1.

Explanation of Provisions

The Energy Tax Act of 1978 imposes on the sale by a manufacturer of an automobile a tax determined in accordance with prescribed tables. The tax is applicable to model types of 1980 and later model year automobiles that have a fuel economy level below the applicable tax-free fuel economy level. A small manufacturer may apply to the Secretary for an alternate rate schedule by showing that it is not feasible for that manufacturer to meet the tax-free fuel economy level.

Determination of Fuel Economy

The proposed regulations provided for determination of fuel economy in accordance with testing and calculation procedures (weighted 55 percent urban cycle and 45 percent highway cycle) utilized by the Environmental Protection Agency Administrator. One comment requested that the urban fuel economy level be used for purposes of the tax. No change was made, however, since section 4064 clearly states that a weighted urban-highway figure should be used. Another comment noted that no provision dealt with the issue of how the fuel economy estimates calculated by the Environmental Protection Agency should be rounded for purposes of determining which model types are subject to the tax. It was suggested that the figures should be rounded to the nearest one-half mile per gallon increments since the tax is imposed in whole number of miles per gallon increments (*e.g.*, "at least 16 but less than 17" miles per gallon). The regulations were changed to provide that rounding is to be done to the nearest .1 mile per gallon, the rounding rule used by the Environmental Protection Agency. One comment expressed at the public hearing inquired as to the tax status of an automobile that is sold, under certain circumstances, before the time the Environmental Protection Agency has made a determination of fuel economy for the model type. The final regulations provide that the sale of such automobile will be taxable if it is ultimately determined that the fuel economy level of the model type of such automobile is within the taxable range.

The regulations on determining fuel economy value have also been revised to take into account the rule requiring recalculation of fuel economy values that was promulgated by the Environmental Protection Agency.

Alternate Rate Schedule for Small Manufacturers

Section 4064(d) allows a small manufacturer to apply to the Secretary for an alternate rate schedule upon a showing that it is not feasible for that manufacturer to meet the tax-free fuel economy level. The proposed regulations required a small manufacturer to establish not only that it was not economically feasible for that manufacturer to meet the tax-free fuel economy level, but also that the granting of an alternate rate schedule would serve a public policy purpose. The proposed regulations prescribed the public policy considerations that would be taken into account by the Secretary in deciding whether to grant an alternate rate schedule to a small manufacturer. One comment objected to the provision in the regulations that would make the availability of the alternate rate schedule dependent upon the public policy considerations. The comment pointed out that the small manufacturer provision provided in section 4064(d) was modeled after a similar provision provided in the Energy Policy and Conservation Act of 1975 ("EPCA"), which prescribes "fleet-wide average standards" and allows small manufacturers to seek an exemption from those standards. It noted that the National Highway Traffic Safety Administration ("NHTSA"), the agency administering EPCA, had interpreted the EPCA small manufacturer provision to allow an exemption from those standards without taking into account public policy considerations of the type prescribed in the proposed regulations under the gas guzzler tax. Although the small manufacturer provision provided in EPCA is similar to the provision provided in section 4064(d), it does not mean that those provisions must be given the same interpretation. EPCA and the Energy Tax Act of 1978 are different statutes that reflect different legislative concerns. In the case of the gas guzzler tax, the Ways and Means Committee Report (H.R. Rep. No. 95–496, Part III, 95th Cong., 1st Sess., 48–49 (1978)) made it clear that Congress was adopting the tax in addition to the existing EPCA system and that:

> The committee believes that it is important for the tax to be highly visible to indicate to consumers that there is a serious energy problem and that the Congress has taken action to deal with it. When the consumer sees the amount of the gas guzzler tax shown on the car invoice, he will realize he is paying a premium (which, in many cases, is substantial) to purchase an inefficient car. Thus, consumers would be provided with a financial and, perhaps, psychological incentive to purchase more fuel-efficient automobiles.
>
> The committee also feels that if individuals are to be permitted to purchase inefficient cars and detract from the conservation effort made by most others, they should as a matter of equity pay a considerable premium (in the form of a gas guzzler tax) for this privilege.

Although section 4064(d) grants the Secretary discretion to prescribe an

alternate rate schedule, that discretion is to be exercised only within the

The tax is—	

addition of readily attachable components, such as mirrors or tire and

VOL 50 ISS 141 JL 23 1985 UMI

alternate rate schedule, that discretion is to be exercised only within the boundaries of the policy guidelines prescribed in the legislative history of the tax. Accordingly, the provisions in the proposed regulations regarding small manufacturers have not been changed in the final regulations.

Tax-Free Sales of Emergency Vehicles

Finally, section 4064(b)(1)(C) provides that emergency vehicles are not included in the definition of automobile and, accordingly, are not subject to the gas guzzler tax. The proposed regulations required registration under section 4222 in order for those vehicles to be sold tax free. One comment suggested adopting a procedure in lieu of registration that would allow a manufacturer under certain circumstances to make tax-free sales of vehicles for resale by the purchaser (dealer) to a second purchaser for emergency use. That suggestion was not adopted because there is no statutory authority for extending tax-free sales of emergency vehicles to resales. Furthermore, such a rule would create administrative and compliance problems. The comment also complained that there was no method prescribed for credit or refund of the gas guzzler tax when a vehicle is sold tax paid and resold for emergency use. The final regulations retain the registration procedure to ensure that only proper sales of emergency vehicles are made. A provision was added, however, to the final regulations to make it clear that a refund or credit of the gas guzzler tax may be obtained if a vehicle is sold tax paid and resold for emergency use under section 4064(b)(1)(C).

Special Analyses

The Commissioner of Internal Revenue has determined that a Regulatory Impact Analysis is not required because this final rule is not a major rule under Executive Order 12291. Because the notice of proposed rulemaking relating to this final rule was published prior to January 1, 1981, the provisions of the Regulatory Flexibility Act do not apply to this final rule.

Paperwork Reduction Act

The Collection of information requirements contained in this regulation has been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

Drafting Information

The principal author of this regulation is Robert H. Ginsburgh of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Treasury Department participated in developing the regulations, both on matters of substance and style.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR Parts 1, 48, 138, and 602 are amended as follows:

PART 138—[AMENDED]

Paragraph 1. The authority citation for Part 138 continues to read as follows:

Authority: 26 U.S.C. 7805 and section 231 (b) and (c) of the Energy Tax Act of 1978 (Pub. L. 95–618; 92 Stat. 3174).

§§ 138.4064–1 and 138.4222–1 [Removed]

Par. 2. Sections 138.4064–1 and 138.4222–1 are removed.

PART 602—[AMENDED]

Par. 3. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

§ 602.101 [Amended]

Par. 4. Section 602.101(c) is amended by inserting in the appropriate place in the table, "§ 48.4064–1(d) (5) and (6) . . . 1545–0014."

PART 1—[AMENDED]

Par. 5. The authority citation for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805.* * *

Par. 6. Section 1.1016–5 is amended by adding a new paragraph (u) at the end thereof to read as follows:

§ 1.1016–5 Miscellaneous adjustments to basis.

* * * * *

(u) *Gas guzzler tax.* In the case of an automobile upon which the gas guzzler tax was imposed, the basis shall be reduced as provided in section 1016 (d).

PART 48—[AMENDED]

Par. 7. The authority citation for Part 48 is amended by adding the following citation:

Authority: 26 U.S.C. 7805; * * * § 48.4064–1(b)(3) also issued under 26 U.S.C. 4064(b)(1)(C)(iii); § 48.4064–1(d)(3)(iii) also issued under 26 U.S.C. 4064(d)(1); § 48.4064–1(d)(5) also issued under 26 U.S.C. 4064(d)(2).

Par. 8. The following new § 48.4064–1 is added immediately after § 48.4063–3:

§ 48.4064–1 Gas guzzler tax.

(a) *General rule*—(1) *In general.* Section 4064 imposes on the sale by the manufacturer of an automobile a tax determined in accordance with the tables in section 4064(a) (1) through (7), and in paragraph (a)(2) of this section. The tax is applicable to model types of 1980 and later model year automobiles that have a fuel economy level below the applicable tax-free fuel economy level. Paragraph (b) of this section defines the following terms: sale, manufacturer, automobile, model year, model type, fuel economy, and fuel. Paragraph (c) of this section contains rules relating to the determination of fuel economy. Paragraph (d) of this section contains a special rule for certain small manufacturers. Paragraph (e) of this section contains rules relating to the tax-free sales of emergency vehicles.

(2) *Tables.* (i) In the case of a 1980 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

Miles per gallon:	The tax is—
At least 15	0
At least 14 but less than 15	$200
At least 13 but less than 14	300
Less than 13	550

(ii) In the case of a 1981 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

Miles per gallon:	The tax is—
At least 17	0
At least 16 but less than 17	$200
At least 15 but less than 16	350
At least 14 but less than 15	450
At least 13 but less than 14	550
Less than 13	650

(iii) In the case of a 1982 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

Miles per gallon:	The tax is—
At least 18.5	0
At least 17.5 but less than 18.5	$200
At least 16.5 but less than 17.5	350
At least 15.5 but less than 16.5	450
At least 14.5 but less than 15.5	600
At least 13.5 but less than 14.5	750
At least 12.5 but less than 13.5	950
Less than 12.5	1,200

(iv) In the case of a 1983 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

Miles per gallon:	The tax is—
At least 19	0
At least 18 but less than 19	$350
At least 17 but less than 18	500
At least 16 but less than 17	650
At least 15 but less than 16	800
At least 14 but less than 15	1,000
At least 13 but less than 14	1,250
Less than 13	1,550

(v) In the case of a 1984 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

Miles per gallon:	The tax is—
At least 19.5	0
At least 18.5 but less than 19.5	$450
At least 17.5 but less than 18.5	600
At least 16.5 but less than 17.5	750
At least 15.5 but less than 16.5	950
At least 14.5 but less than 15.5	1,150
At least 13.5 but less than 14.5	1,450
At least 12.5 but less than 13.5	1,750
Less than 12.5	2,150

(vi) In the case of a 1985 model year automobile:

If the fuel economy of the model type in which the automobile falls is:

Miles per gallon:	The tax is—
At least 21	0
At least 20 but less than 21	$500
At least 19 but less than 20	800
At least 18 but less than 19	800
At least 17 but less than 18	1,000
At least 16 but less than 17	1,200
At least 15 but less than 16	1,500
At least 14 but less than 15	1,800
At least 13 but less than 14	2,200
Less than 13	2,650

(vii) In the case of a 1986 or later model year automobile falls is:

Miles per gallon:	The tax is—
At least 22.5	0
At least 21.5 but less than 22.5	$500
At least 20.5 but less than 21.5	650
At least 19.5 but less than 20.5	850
At least 18.5 but less than 19.5	1,050
At least 17.5 but less than 18.5	1,300
At least 16.5 but less than 17.5	1,500
At least 15.5 but less than 16.5	1,850
At least 14.5 but less than 15.5	2,250
At least 13.5 but less than 14.5	2,700
At least 12.5 but less than 13.5	3,200
Less than 12.5	3,850

(3) *Liability for tax.* The tax imposed by section 4064 is payable by the manufacturer making the sale. An automobile sold before the time a determination of fuel economy is made for the model type (as defined in paragraph (b)(6) of this section) is subject to tax if it is subsequently determined that the fuel economy level of that model type of automobile is within the taxable range (see paragraph (a)(1) of this section).

(b) *Definitions*—(1) *Sale.* Sale includes the use (within the meaning of section 4218) or the first lease (within the meaning of section 4217(e)) of an automobile by the manufacturer.

(2) *Manufacturer.* The term "manufacturer" has the same meaning assigned to such term under § 48.0–2(a)(4). The term "manufacturer" includes a producer or importer. An importer is a person who imports an automobile whether or not in connection with a trade or business.

(3) *Automobile.* The term "automobile" means any four-wheeled vehicle—

(i) Propelled by an engine powered by fuel;

(ii) Manufactured primarily for use on public streets, roads, and highways (except any vehicle operated exclusively on a rail or rails);

(iii) Rated at 6,000 pounds gross vehicle weight or less; and

(iv) Requiring no further manufacturing operations to perform its intended function, other than the addition of readily attachable components, such as mirrors or tire and rim assemblies, or minor finishing operations, such as painting. For this purpose, gross vehicle weight means the value specified by the manufacturer as the maximum design loaded weight of a single vehicle. An automobile does not include a nonpassenger automobile as defined in regulations in effect on November 9, 1976 (49 CFR 523.5 (1978)), which were prescribed by the Secretary of Transportation for section 501 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2001). In addition, an automobile does not include the following: any vehicle sold for use and used primarily as an ambulance or combination ambulance-hearse; any vehicle sold for use and used by the United States or by a State or local government primarily for police or other law enforcement purposes; or any vehicle sold for use and used primarily for firefighting purposes.

(4) *Model year.* The term "model year" means the manufacturer's annual production period (as determined by the Administrator of the Environmental Protection Agency) which includes January 1 of any particular calendar year. If the manufacturer has no annual production year, the model year is the calendar year.

(5) *Model type.* The term "model type" means a particular class of automobile, as determined by regulations in effect on November 9, 1978 (40 CFR 600.002–79(a)(19) (1978)), which were prescribed by the Administrator of the Environmental Protection Agency.

(6) *Fuel economy.* The term "fuel economy" means the average number of miles traveled by an automobile per gallon of fuel consumed, rounded to the nearest .1 mile per gallon. The fuel economy for any model type is determined by the Environmental Protection Agency (as determined in accordance with the procedures provided in paragraph (c) of this section). For this purpose, the fuel economy is a combined (urban-highway weighted average) mileage figure estimated in connection with the determination (or redetermination) of general label value (fuel economy information displayed on a sticker that is affixed to new automobiles) mandated under section 506 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2006) and regulations thereunder (40 CFR Part 600).

(7) *Fuel.* The term "fuel" means gasoline and diesel fuel.

(c) *Determination of fuel economy.* For purposes of this section, the fuel

economy for any model type is determined (or redetermined) in accordance with the testing and consideration set forth in paragraph (d)(3)(ii) of this section. If a small United States' need to conserve energy. The Commissioner (or his delegate),

(4) *Duration of determination.* A determination under this paragraph does

(7) *Processing of applications.* If a manufacturer's application is found not

before the flush material appearing immediately after paragraph (a)(5), to

VOL 50 ISS 141 JL 23 1985 UMI

economy for any model type is determined (or redetermined) in accordance with the testing and calculation procedures utilized by the Environmental Protection Agency Administrator for model year 1975 (weighted 55 percent urban cycle and 45 percent highway cycle), or any other procedures (yielding comparable results) established by the Administrator. The Environmental Protection Agency's determination (or redetermination) of a model type's fuel economy is made at the time the general label fuel economy value is calculated (or recalculated). This determination (or redetermination) is conclusive for purposes of this section. A redetermination of a model type's fuel economy value shall be effective only with respect to those automobiles for which the manufacturer is required (or is permitted and chooses) under Environmental Protection Agency regulations to affix labels with the recalculated general label fuel economy value.

(d) *Special rule for small manufacturers—(1) In general.* A small manufacturer (as defined in subparagraph (2)(i) of this paragraph) may apply for a determination that it is not feasible for that manufacturer to meet the statutory tax-free fuel economy level for the model year, with respect to all automobiles produced by that manufacturer, or with respect to a particular model type. For this purpose, the Commissioner (or his delegate) will make a determination of maximum feasible fuel economy level with respect to the automobiles that are the subject of the determination, but only after consultation with the Secretary of Energy, the Secretary of Transportation, and the Administrator of the Environmental Protection Agency (or their delegates) to obtain their views. A finding that it is not feasible for the manufacturer to meet the statutory tax-free fuel economy level will be made by the Internal Revenue Service if the maximum feasible fuel economy level (as defined in subparagraph (3)(i) of this paragraph) of the automobiles that are the subject of the determination is lower than the statutory tax-free fuel economy level for those automobiles. If it is determined that it is not feasible for a small manufacturer to meet the statutory tax-free fuel economy level, the Secretary (or his delegate) has the discretion to grant to the manufacturer the alternate rate schedule prescribed in paragraph (d)(3)(iii) of this section in lieu of the applicable statutory tax table prescribed in section 4064(a). The decision whether to grant the alternate rate schedule shall be based on the consideration set forth in paragraph (d)(3)(ii) of this section. If a small manufacturer for which an alternate rate schedule under this paragraph (d) is applicable sells an automobile to an importer, the alternate rate schedule applies to the sale by the importer of such automobile if such automobile is of the model year and type to which such alternate schedule applies.

(2) *Definitions—*(i) *manufacturer.* A small manufacturer is any manufacturer who produced (whether or not in the United States) fewer than 10,000 automobiles in the second model year preceding the affected model year (the model year for which the determination under this paragraph is being made), and who can reasonably be expected to produce (whether or not in the United States) fewer than 10,000 automobiles in the affected model year.

(ii) *Manufacturer.* For purposes of this paragraph, the term "manufacturer" does not include a person who is only an importer, but does include a producer of automobiles outside the United States who is also an importer.

(iii) *Members of a controlled group.* For purposes of this paragraph, persons who are members of a controlled group of corporations (as defined in section 1563(a) of the Internal Revenue Code, except that "more than 50 percent" is substituted for "at least 80 percent" each place it appears in section 1563(a)) are treated as one manufacturer.

(3) *Basis for determination—*(i) *Maximum feasible fuel economy level.* For purposes of this paragraph, the maximum feasible fuel economy level is determined by taking into account the same factors used in determining the maximum feasible fuel economy level under section 502(e) of the Motor Vehicle Information and Cost Savings Act (as amended) and the regulations thereunder in effect on November 9, 1978. (Those regulations for small manufacturers are prescribed in 49 CFR Part 525 (1978).) In making this determination, the Commissioner (or his delegate) will consult with the National Highway Traffic Safety Administration of the Department of Transportation.

(ii) *Decision to grant alternate rate schedule.* In deciding whether to grant an alternate rate schedule, the Secretary (or his delegate) will consider whether the use (in the United States) of the automobile serves an important public policy (*e.g.*, providing public transportation or transportation for the handicapped) that overrides the United States' need to conserve energy. The manufacturer has the burden of demonstrating that the public policy consideration involved overrides the United States' need to conserve energy. The Commissioner (or his delegate), after consultation with the Secretary of Energy, the Secretary of Transportation, and the Administrator of the Environmental Protection Agency (or their delegates), will review the information submitted by the manufacturer and report findings and recommendations to the Secretary (or his delegate).

(iii) *Alternate rate schedule and tax.* If an alternate rate schedule is granted, the maximum feasible fuel economy level shall be deemed to be the statutory tax-free fuel economy level. Accordingly, a tax is imposed only on automobiles sold that fail to meet the deemed tax-free fuel economy level. The alternate rate schedule shall be determined by substituting the maximum feasible fuel economy level for the tax-free fuel economy level in the applicable statutory tax table set forth in section 4064(a), and by substituting for the miles per gallon amount prescribed in that applicable table an amount that is the tax-free level decreased by one mile per gallon increments, while keeping the same corresponding tax amount prescribed in the applicable table. The rule for determining an alternate rate schedule may be illustrated by the following example:

Example. Manufacturer X, a small manufacturer of automobiles specifically designed to accommodate disabled passengers, applied for a determination that it is not feasible for X to meet the statutory tax-free fuel economy level for a particular model type of X's 1982 model year automobiles. It was determined that the maximum feasible fuel economy level for that model type was 15 miles per gallon. The Secretary decided to grant X an alternate rate schedule. The alternate rate schedule for the model type would be as follows:

If the fuel economy of the automobile is:

	The tax is—
Miles per gallon:	
At least 15	0
At least 14 but less than 15	$200
At least 13 but less than 14	350
At least 12 but less than 13	450
At least 11 but less than 12	600
At least 10 but less than 11	750
At least 9 but less than 10	950
Less than 9	1,200

Thus, if X's 1982 automobiles of that model year and type attain only 12 miles per gallon (because X fails to modify them to reach the maximum feasible fuel economy level before they are sold), the tax imposed upon the sale of each automobile is $450 (instead of the $1,200 tax (see the applicable statutory tax table set forth in section 4064(a)(3)), which would have been imposed had no alternate rate schedule been prescribed).

(4) *Duration of determination.* A determination under this paragraph does not apply to more than three model years.

(5) *Requirements for application.* Each application for a determination under this section must—

(i) Identify the model year or years, and particular model type or types for which a determination is requested;

(ii) (A) In the case of an application for model year 1980, be submitted not later than May 8, 1980;

(B) In case of an application for model year 1981, be submitted not later than 9 months before the beginning of that model year or March 10, 1980, whichever is later;

(C) In the case of an application for model year 1982 or any subsequent model year, be submitted not later than 9 months before the model year;

(iii) Be submitted in three copies to: Commissioner of Internal Revenue, Attention: Associate Chief Counsel (Technical), 1111 Constitution Avenue, NW., Washington, D.C. 20224;

(iv) Be written in the English language;

(v) Set forth the full name, address, and title of the official responsible for preparing the application;

(vi) State whether the applicant is a member of a controlled group of corporations (as defined in paragraph (d) (2) (iii) of this section);

(vii) State the total number of automobiles manufactured (whether or not in the United States) by the applicant (or the controlled group of corporations in the case where the applicant is a member of the group) in the second model year immediately preceding each affected model year and the total number of automobiles likely to be manufactured in the affected model year;

(viii) Set forth the same information required by an application pursuant to section 502 (c) of the Motor Vehicle Information and Cost Savings Act (as amended) and the regulations thereunder (see 49 CFR Part 525 (1978)) and state whether or not the applicant under this paragraph has also made an application pursuant to such Act; and

(ix) Set forth the reasons why an alternate rate schedule should be granted under paragraph (d) (3) (ii) of this section.

(6) *Update of application.* A manufacturer making an application under this section must update the application when a material change of circumstances occurs or material information not available at the time of applying becomes available. The manufacturer must also furnish any further information that may be required by the Internal Revenue Service.

(7) *Processing of applications.* If a manufacturer's application is found not to contain the information required by this paragraph, the applicant will be informed of the areas of insufficiency. The application will not receive further consideration until the required information is submitted. Each applicant will be informed in writing whether an application has been granted or denied.

(e) *Tax-free sales of emergency vehicles—*(1) *In general.* The tax imposed by section 4064 (a) shall not apply to vehicles sold by a manufacturer for use and used (i) primarily as an ambulance or combination ambulance-hearse, (ii) by the United States or by a State or local government primarily for police or other law enforcement purposes, or (iii) primarily for fire-fighting purposes. A vehicle may be sold tax-free by the manufacturer under this paragraph only in those cases where the sale is made directly to a purchaser for an emergency use prescribed in this subparagraph. In order to effect tax-free sale, the requirements of section 4222 and the regulations thereunder must be met.

(2) *Credit or refund.* Where tax is paid on the sale of a vehicle, but the vehicle is used or resold for an emergency use prescribed in subparagraph (1) of this paragraph, a claim for refund of the tax paid on such sale may be filed by the manufacturer on Form 843, or a credit may be taken on a subsequent return, in accordance with the provisions of sections 6402 (a) and 6416 (a) and § 48.6416 (a)–1.

Par. 9. Section 48.4217–1 is amended by adding a new sentence at the end thereof to read as follows:

§ 48.4127–1 Lease considered as sale.

* * * However, in the case of the lease of an automobile the sale of which by the manufacturer would be taxable under section 4064, the term includes only the first lease (excluding any renewal or extension of the lease) of such automobile by the manufacturer.

Par. 10. Section 48.4217–2 is amended by adding a new paragraph (i) at the end thereof to read as follows:

§ 48.4217–2 Limitation on amount of tax applicable to certain leases.

* * * * *

(i) *Cross-reference.* In the case of the lease of an automobile the sale of which by the manufacturer would be taxable under section 4064, the foregoing provisions of this section shall not apply. See section 4217 (e) for the rules relating to the payment of the gas guzzler tax.

Par. 11. Section 48.4221–1 is amended by adding a new sentence immediately before the flush material appearing immediately after paragraph (a)(5), to read as follows:

§ 48.4221–1 Tax-free sales; general rule.

(a) *In general.* * * *

(5) * * * Subparagraphs (4) and (5) of this paragraph do not apply to the tax imposed by section 4064. * * *

* * * * * *

Par. 12. Paragraph (a) of § 48.4221–5 is amended by revising the first sentence to read as follows:

§ 48.4221–5 Tax-free sale of articles to State and local governments for their exclusive use.

(a) *In general.* An article (excluding an automobile subject to tax under section 4064) subject to tax under Chapter 32 of the Code may be sold tax free by the manufacturer, pursuant to section 4221(a)(4) and this section, to a State or local government for the exclusive use of such State or local government. * * *

* * * * * *

Par. 13. Paragraph (a) of § 48.4221–6 is amended by revising the first sentence to read as follows:

§ 48.4221–6 Tax-free sales of articles to nonprofit educational organizations.

(a) *In general.* An article (excluding an automobile subject to tax under section 4064) subject to tax under Chapter 32 of the Code may be sold tax free by the manufacturer, pursuant to section 4221(a)(5) and this section, to a nonprofit educational organization for its exclusive use. * * *

* * * * * *

Par. 14. Paragraph (d) of § 48.4222(d)–1 is revised to read as follows:

§ 48.4222(d)–1 Registration in the case of certain other exemptions.

* * * * * *

(d) Tax-free sales on or after March 10, 1980, under section 4064(b)(1)(C) (relating to emergency vehicles). Both the vendor and vendee (other than a State or local government) must be registered.

* * * * * *

Par. 15. Paragraph (b) of § 48.6416(b)–2 is amended by adding a new sentence immediately after the first sentence to read as follows:

§ 48.6416(b)–2 Tax payments deemed to be overpayments by reason of certain uses, sales, or resales.

* * * * * *

(b) *Uses, sales, and resales giving rise to right of refund or credit.* * * * However, subparagraphs (3) and (4) of this paragraph do not apply in the case

of any tax paid under section 4064.

* * *

26 CFR Parts 31 and 602

[T.D. 8039]

Employment Taxes and Collection of Income Tax at Source; OMB Control Numbers Under the Paperwork Reduction Act; Employee Tip Reporting and Substantiation Requirements

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides temporary regulations relating to employee tip reporting and substantiation requirements. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations cross-referenced in the notice of proposed rulemaking in the Proposed Rules Section of this issue of the Federal Register. The temporary regulations reflect amendments to the Internal Revenue Code of 1954 with respect to tipped employees made by section 1072 of the Tax Reform Act of 1984 and provide guidance to employers and employees with respect to the new provisions.

DATES: The regulations contained in this document in § 31.6053-3(h) and § 31.6053-3T(h) with respect to a lower allocation-of-tips percentage are to be effective on and after July 18, 1984. The provisions of § 31.6053-3(j)(g)(9) and §31.6053-3T(j)(9) relating to the definition of a large food or beverage establishment apply to taxable years beginning after December 31, 1982, and are effective after December 31, 1982. The substantiation requirements contained in § 31.6053-(b)(5), § 31.6053-3T(b)(5), and § 31.6053-4T generally apply to tips received on or after October 1, 1985, and are effective after September 30, 1985. The amendment to Part 602 is effective July 23, 1985.

FOR FURTHER INFORMATION CONTACT: Gail H. Morse of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3297, not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

Under current law, all employees who receive cash tips of $20 or more in a calendar month are required to report such tips to their employers for purposes of income, social security, and railroad retirement tax withholding requirements. To increase compliance with this requirement, the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) provided rules which, under certain circumstances, require large food and beverage establishments to file an information report setting forth an allocation of tip amounts. Generally, whenever the employees of a large food or beverage establishment fail to report to their employer tips aggregating 8 percent or more of the gross receipts of an establishment, the employer must allocate to the employees (as tips for purposes of section 6053(c)) an amount equal to the difference between 8 percent of the establishment's gross receipts and the aggregate amount of tips reported by the employees. The Secretary of the Treasury is authorized to reduce the allocation figure based on a showing by an employer that the tip rate for its particular establishment was lower than 8 percent. Under the provisions enacted in TEFRA, the rate could not be lower than 5 percent. The TEFRA rules were amended by section 1072 of the Tax Reform Act of 1984 (the Act) (98 Stat. 1052, 26 U.S.C. 6053 note) to allow a majority of employees to petition for a reduced allocation rate and to permit a minimum allocation rate of 2 percent. In addition, the Act provides that for purposes of determining whether an establishment normally employed more than 10 employees and thus was a large food or beverage establishment, an individual who owns 50 percent of more in value of the stock of a corporation operating a food or beverage establishment is not considered an employee of such establishment. The Act also directed the Secretary to promulgate regulations with respect to recordkeeping requirements applicable to tipped employees.

The temporary regulations contained herein would provide guidance to employers and employees with respect to the provisions of section 1072 of the Act.

Explanation of Provisions

The temporary regulations reflect amendments to section 6053 with respect to the reduction of the minimum allocation rate from 5 percent to 2 percent (§ 31.6053-3T(h)(1)) and with respect to the treatment of 50-percent stockholders as nonemployees (§ 31.6053-3T(j)(9)).

In addition, the temporary regulations provide rules with respect to employee-originated petitions for a reduction in the tip allocation rate. Section 31.6053-3T(h)(2) provides that employee-originated petitions must be consented to by a majority of employees, which, for this purpose, means more than one-half of the directly tipped employees employed by the establishment at the time the petition is filed. Further requirements of employee-originated petitions are set forth in § 31.6053-3T(h)(2)(iii), including a requirement that employers provide (in confidence) certain information to the district director.

In addition to the general recordkeeping requirements applicable to all taxpayers, these temporary regulations, in response to the congressional mandate to promulgate regulations with respect to recordkeeping requirements applicable to tipped employees, provide rules specifically applicable to tipped employees. Under the temporary regulations, an employee is required to maintain sufficient evidence to establish the amount of tip income received by the employee during a taxable year. The temporary regulations provide that sufficient evidence consists of either (i) a daily record, or (ii) other evidence of the tip income received which is as credible and as reliable as a daily record (§ 31.6053-4T). The daily record or other evidence may not be sufficient evidence if there are facts and circumstances which indicate that the employee received a larger amount of tip income (§ 31.6053-4T).

The effective date for these substantiation regulations is October 1, 1985. However, under the general recordkeeping provisions of section 6001 and the regulations thereunder tipped employees are required, for periods prior to that date, to have books and records adequate to substantiate the amount of tip income received. Substantiation considered sufficient as provided in these temporary regulations will also be considered sufficient for such prior periods.

Regulatory Flexibility Act; Executive Order 12291; Paperwork Reduction Act of 1980

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act does not apply and no Regulatory Flexibility Analysis is required for this rule. The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. The reporting requirements added by this document have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. The reporting requirements have been approved by OMB.

Drafting Information

The principal author of these temporary regulations is Gail H. Morse of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue and Treasury Department participated in developing the regulations both on matters of substance and style.

List of Subjects

26 CFR Part 31

Employment taxes, Income taxes, Lotteries, Railroad retirement, Social security, Unemployment tax, Withholding.

26 CFR Part 602

OMB control numbers, Paperwork Reduction Act, Reporting and recordkeeping requirements.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR Part 31 and Part 602 are amended as follows:

PART 31—EMPLOYMENT TAXES AND COLLECTION OF INCOME TAX AT SOURCE

Paragraph 1. The authority for Part 31 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Sections 31.6053-3T and 31.8053-4T are also issued under section 1072 of Pub. L. 98-369, 98 Stat. 1052; and 26 U.S.C. 6001.

Par. 2. Section 31.6053-3 is amended by revising paragraphs (b)(5), (h), and (j)(9) to read as set forth below:

§ 31.6053-3 Reporting by certain large food or beverage establishments with respect to tips.

* * * * * *

(b) *Employer statement to employees.* * * *

(5) See paragraph (b)(5) of § 31.6053-3T.

* * * * * *

(h) *Lowering the percentage to be used.* See paragraph (h) of § 31.6053-3T.

* * * * * *

(j) *Definitions.* * * *

(9) *More than 10 employees on a typical business day.* See paragraph (j)(9) of § 31.6053-3T.

* * * * * *

Par. 3. A new § 31.6053-3T is added immediately following § 31.6053-3 to read as follows:

§ 31.6053-3T Reporting by certain large food or beverage establishments with respect to tips. (Temporary)

(a) [Reserved]

(b) *Employer statement to employees*—(1)-(4) [Reserved]

(5) *Employee reporting of tip income.* Regardless of whether an employee receives an allocation under section 6053(c) and § 31.6053-3, the employee is required to report as income on his or her Federal income tax return all tips received. For tips received before October 1, 1985, an employee must be able to substantiate the amount of reported tip income as provided in section 6001 and the regulations thereunder. For tips received on or after October 1, 1985, an employee must be able to substantiate the amount of reported tip income as provided in § 31.6053-4T. The Internal Revenue Service may determine that a tipped employee received a larger amount of tip income than is reflected by the employee's allocation.

(c)-(g) [Reserved]

(h) *Lowering the percentage to be used*—(1) *In general.* On and after July 18, 1984, an employer or a majority of the employees (as defined in paragraph (h)(2)(iii) of this section) of an employer may petition the district director for the internal revenue district in which the employer's establishment is located to have the percentage of gross receipts that is used to determine the amount to be allocated under section 6053(c)(3)(A) and paragraph (d) of § 31.6053-3 reduced from 8 percent to the percentage that the petitioning employer or employees believe to be the actual percentage of the amount of the establishment's gross receipts that reflects the amount of tips. The district director may thereafter reduce the percentage of gross receipts used to determine the amount to be so allocated to the percentage that the district director determines to be the proper estimate of the actual percentage of gross receipts constituting tips. The district director, however, may not reduce the percentage below 2 percent. For the rules in effect prior to July 18, 1984, see 26 CFR 31.6053-3(h) (Rev. as of April 1, 1984).

(2) *Time and manner for petition to have percentage reduced*—(i) *In general.* The petition shall be in writing and shall include sufficient information to allow the district director to estimate with reasonable accuracy the actual tip rate of the establishment. For example, such information might include the charged tip rate, the type of establishment, menu prices, the location of the establishment, the amount of "self-service" required, the days and hours open for business, and whether the customer receives the check from or pays the server for the meal.

(ii) *Employer petitions.* In the case of employer-originated petitions, the employer has the burden of supplying sufficient information to allow the district director to estimate with reasonable accuracy the actual tip rate of the establishment. The employer also shall attach to the petition copies of Form 8027 (if any) filed for the establishment for the 3 immediately preceding calendar years.

(iii) *Employee petitions.* (A) In the case of employee-originated petitions, a majority of the employees of an establishment must consent to the petition. A majority for purposes of this paragraph is more than one-half of all the directly tipped employees (within the meaning of paragraph (j)(12) of § 31.6053-3) employed by the establishment at the time the petition is filed. In the case of a single petition for certain multi-establishment employers (see paragraph (h)(4) of this section), more than one half of the aggregate directly tipped employees (at the time the petition is filed) of the establishments covered by the petition must consent. The petition filed with the district director must state the total number of directly tipped employees employed by the establishment (or establishments) and the number of the directly tipped employees consenting to the petition.

(B) The petitioning employees have the burden of supplying sufficient information to allow the district director to estimate with reasonable accuracy the actual tip rate of the establishment to the extent they possess such information. If the employer possesses relevant information, the employer must provide such information to the district director upon the request of the petitioning employees or district director. Employees who file a petition under this paragraph must promptly notify their employer of the petition. Promptly upon receipt of such notification, their employer must submit to the district director copies of the Form 8027 (if any) filed for the

establishment for the 3 immediately preceding calendar years. Any

(9) *More than 10 employees on a typical business day.* An employer shall

Par. 4. A new § 31.6053-4T is added immediately after § 31.6053-3T to read

amounts that were added to a check by customers as a tip and paid over to the

Bureau of Alcohol, Tobacco and Firearms

may petition ATF to establish a grape-

VOL 50 ISS 141 JL 23 1985 UMI

establishment for the 3 immediately preceding calendar years. Any information supplied by the employer during the petitioning process shall not be disclosed by the Internal Revenue Service to any employees of the employer nor to representatives of such employees.

(3) *Effective date for reduced percentage.* The district director shall determine the term for which the reduced percentage is to be effective. At the end of such term, the reduced percentage shall cease to apply unless previously extended by the district director for the district in which the large food or beverage establishment is located. In no event shall the reduced percentage be applied to payroll periods before the date the petition described in paragraph (h)(2) of this section is filed unless the establishment is a new business (as described in paragraph (i) of § 31.6053–3). In the case of a new business or a petition for reduction filed prior to September 30, 1983, the district director may allow the approved reduced percentage to be applied retroactively to the first day of the calendar year of the petition. Until such time as the employer is notified in writing by the district director of approval of a reduction, the employer must continue to use 8 percent of gross receipts for purposes of complying with section 6053(c) and this section.

(4) *Single petition for certain multi-establishment employers.* An employer (including a single employer as defined in section 52 (a) or (b)) or a majority of the employees of such employer may use a single petition for two or more of the employer's establishments if such establishments are essentially the same type of business, the petitioning employer or employees have made a good faith determination that the tip rates at such establishments are essentially the same, and the establishments are located in the same internal revenue region. Single petitions shall include the names and locations of the establishments for which a reduction is requested and the information required by paragraph (h)(2) of this section for a typical establishment. A single petition for multi-establishments located within an internal revenue region shall be filed with the district director for the internal revenue district in which the greatest number of the establishments included in the petition are located. If there is an equal number of establishments located in two or more internal revenue districts the employer or employees petitioning may choose the district to which the petition is sent.

(i) [Reserved]

(j) *Definitions*—(1)–(8) [Reserved]

(9) *More than 10 employees on a typical business day.* An employer shall be considered to have normally employed more than 10 employees on a typical business day during a calendar year if one-half of the sum of the average number of employee hours worked per business day during the calendar month in which the aggregate gross receipts from food or beverage operations were the greatest plus the average number of employee hours worked per business day during the calendar month in which the aggregate gross receipts from food or beverage operations were the least, is greater than 80 hours. The average number of employee hours worked per business day during a month shall be computed by dividing the total number of hours worked during the month by all employees of the employer who are employed in a food or beverage operation by the average of the number of days during the month that each food or beverage operation at which such employees worked was open for business. If an employer operates both a food or beverage operation and a nonfood or beverage operation, and one or more of his or her employees work for both operations, the employer may make a good faith estimate of the number of hours such employees worked for each operation in a given month. Similarly, in cases where one or more of an employer's employees work for more than one of such employer's food or beverage operations, a good faith estimate may be made of the number of hours such employees worked for each operation in a given month. For purposes of this subparagraph, employees who are employed in a food or beverage operation include all employees of the operation, not just food or beverage employees. The employees of an employer shall include all employees at all food or beverage operations who, along with the employees of such employer, would be treated as employees of a single employer under section 52 (a) or (b) (as in effect on September 3, 1982) and the regulations thereunder. For example, if an employer at a food or beverage operation is a member of a controlled group of corporations, then all employees of all corporations which are members of such controlled group of corporations shall be treated as employed by each such employer for purposes of this paragraph. However, an individual who owns 50 percent or more in value of the stock of a corporation operating an establishment shall not be treated as an employee of any establishment owned by the corporation.

Par. 4. A new § 31.6053–4T is added immediately after § 31.6053–3T to read as follows:

§ 31.6053–4T Substantiation requirements for tipped employees. (Temporary)

(a) *Substantiation of tip income*—(1) *In general.* An employee shall maintain sufficient evidence to establish the amount of tip income received by the employee during a taxable year. A daily record maintained by the employee (as described in paragraph (a)(2) of this section) shall constitute sufficient evidence. If the employee does not maintain a daily record, other evidence of the amount of tip income received during the year, such as documentary evidence (as described in paragraph (a)(3) of this section), shall constitute sufficient evidence, but only if such other evidence is as credible and as reliable as a daily record. However, notwithstanding any other provision of this paragraph (a)(1), a daily record or other evidence that is as credible and as reliable as a daily record may not be sufficient evidence if there are facts or circumstances which indicate that the employee received a larger amount of tip income. Moreover, oral statements of the employee, without corroboration, cannot constitute sufficient evidence.

(2) *Daily record.* The daily record shall state the employee's name and address, the employer's name, and the establishment's name. The daily record shall show for each work day the amount of cash tips and charge tips received directly from customers or from other employees, and the amount of tips, if any, paid out to other employees through tip sharing, tip pooling or other arrangements and the names of such employees. The record shall also show the date that each entry is made. Form 4070A, *Employee's Daily Record of Tips,* may be used to maintain such daily record. The daily record of tips received by an employee shall be prepared and maintained in such manner that each entry is made on or near the date the tip income is received. A daily record made on or near the date the tip income is received has a high degree of credibility not present with respect to a record prepared subsequent thereto when generally there is a lack of accurate recall. An entry is made "near the date the tip income is received" if the required information with respect to tips received and paid out by the employee for the day is recorded at a time when the employee has full present knowledge of those receipts and payments.

(3) *Documentary evidence.* Documentary evidence consists of copies of any documents that contain (i) amounts that were added to a check by customers as a tip and paid over to the employee or (ii) amounts that were paid by a customer for food or beverages with respect to which tips generally would be received by the employee. Examples of documentary evidence are copies of restaurant bills, credit card charges, or charges under any other arrangement (see § 31.6053–3(j)(4)) containing amounts added by the customer as a tip.

(b) *Retention of records.* Records maintained under this section shall be kept at all times available for inspection by authorized internal revenue officers of employees, and shall be retained so long as the contents thereof may become material in the administration of any internal revenue law.

(c) *Effective date.* The substantiation requirements of this §31.6053–4T shall be effective for tips received on or after October 1, 1985. For the rules in effect prior to October 1, 1985, see section 6001 and the regulations thereunder. Substantiation considered sufficient as provided in this § 31.6053–4T will also be considered sufficient for tips received before October 1, 1985.

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 5. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

§ 602.101 [Amended]

Par. 6. Section 602.101(c) is amended by inserting in the appropriate places in the table "§ 31.6053–3T and § 31.6053–4T . . . 1545–0065."

BILLING CODE 4830–01–M

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 9

[T.D. ATF–210; Notice No. 559]

Establishment of Cumberland Valley Viticultural Area

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: Treasury decision, final rule.

SUMMARY: The Bureau of Alcohol, Tobacco and Firearms is establishing in portions of the States of Maryland and Pennsylvania an American viticultural area known as "Cumberland Valley." This final rule is the result of a petition filed jointly by Charles M. Webster, a grower of wine grapes in Sharpsburg, Maryland, and Robert W. Ziem, the proprietor of a Vineyard and bonded winery in Downsville, Maryland.

The establishment of the Cumberland Valley viticultural area and the use of the name as an appellation of origin in the labeling and advertising of wine allows the proprietor of a winery to designate the area as the locale in which grapes used in the production of a wine are grown and enables the consumer to identify and to differentiate between that wine and other wines offered at retail.

EFFECTIVE DATE: This final rule is effective August 26, 1985.

FOR FURTHER INFORMATION CONTACT: Michael J. Breen, Coordinator, FAA, Wine and Beer Branch, Room 6237, Bureau of Alcohol, Tobacco and Firearms, Washington, DC 20226, Telephone: (202) 566–7626.

SUPPLEMENTARY INFORMATION:

Background

On August 23, 1978, ATF published Treasury Decision ATF–53 (43 FR 37672, 54624) revising regulations in Title 27, Code of Federal Regulations, Part 4. These regulations allow the establishment of definite American viticultural areas. The regulations also allow the name of an approved viticultural area to be used as an appellation of origin in the labeling and advertising of wine. On October 2, 1979, ATF published Treasury Decision ATF–60 (44 FR 56692) which added to Title 27 a new Part 9 providing for the listing of approved American viticultural areas.

Section 4.25a(e)(1) defines an American viticultural area as a delimited grape growing region distinguishable by geographical features. Section 4.25a(e)(2), outlines the procedure for proposing an American viticultural area. Any interested person may petition ATF to establish a grape-growing region as a viticultural area. The petition shall include—

(a) Evidence that the name of the proposed viticultural area is locally and/or nationally known as referring to the area specified in the petition;

(b) Historical or current evidence that the boundaries of the viticultural area are as specified in the petition;

(c) Evidence relating to the geographical characteristics (climate, soil, elevation, physical features, etc.) which distinguish features of the proposed area from surrounding areas;

(d) A description of the specific boundary of the proposed viticultural area, based on features which can be found on United States Geological Survey (U.S.G.S.) maps of the largest applicable scale; and,

(e) A copy (or copies) of the appropriate U.S.G.S. map(s) with the proposed boundary prominently marked.

Petition

In December 1982, ATF received the petition submitted by Mr. Webster and Mr. Ziem for the establishment of a viticultural area in Washington County, Maryland, to be known as "Cumberland Valley, Maryland." ATF's initial examination of the U.S.G.S. maps and the Washington County, Maryland, soil survey submitted with the petition indicated that the area for which the petition was submitted is more commonly known as the Hagerstown Valley, a portion of the larger Cumberland Valley which extends north above the Mason-Dixon Line, the geopolitical boundary between the States of Maryland and Pennsylvania. In light of this determination, the petitioners agreed to amend the petition to include the portions of the Cumberland Valley which are located in Franklin and Cumberland counties in Pennsylvania and to petition for the name "Cumberland Valley." In Notice No. 559 published in the **Federal Register** of February 28, 1985, ATF proposed the establishment of the Cumberland Valley viticultural area.

Comments

ATF received three comments during the comment period which closed April 29, 1985. All three commenters support the proposal to establish the viticultural area. One commenter, a proprietor of a bonded winery located in the vicinity of Shippensburg, Pennsylvania, states that the historical reference to Cumberland Valley is evidenced by the number of schools and businesses which include "Cumberland Valley" in their names.

Another comment, submitted by the Office of the Secretary of Agriculture of the State of Pennsylvania states the

the earliest settlers who came from Cumberland County, England. In 1751

1,600 feet above the valley floor and include South Mountain (2,145 feet) to

moisture holding capacity whereas the mountains which border to the west

the Berks soil along creek beds is not

Cumberland County, Pennsylvania

VOL
50
ISS
141

23
1985
UMI

Another comment, submitted by the Office of the Secretary of Agriculture of the State of Pennsylvania states the Cumberland Valley has been a locally and nationally recognized designation for this area since Colonial times and that use of this name continues to this day, both in common reference, and in the names of a host of agricultural, industrial, commercial and social organizations ranging from the Cumberland Valley Cooperative to the Cumberland Valley School District. This commenter describes the area of the Cumberland Valley as "located generally between South Mountain on the southeast and Blue Mountain and adjacent ridges of the Appalachian Mountains on the northwest, and by the Susquehanna and Potomac rivers on the northeast and southwest, respectively."

ATF received no comments expressing opposition to the proposal.

The Cumberland Valley

The Cumberland Valley is an 80-mile long valley which bends in a northeasterly direction from the Potomac River in Washington County, Maryland, to the Susquehanna River in Cumberland County, Pennsylvania. The valley is bordered on the southeast by South Mountain, which is the northernmost extension of the Blue Ridge Mountains, and on the northwest by the Allegheny Mountain complex. The principal streams that drain the valley are Conococheague Creek and Antietam Creek, tributaries of the Potomac River, and Conodoguinet Creek and Yellow Breeches Creek, tributaries of the Susquehanna River. The land drained by these streams shares similar geological history, topographical features, soils, and climatic conditions.

The boundary of the proposed viticultural area encompasses approximately 1,200 square miles or 765,000 acres. The petitioners state that within the Cumberland Valley there are approximately 60 acres devoted to the cultivation of wine grapes and there are three bonded wineries. Due to the effects of soil, drainage, rainfall, frost and winter kill, the areas of this valley which are devoted to viticulture consist primarily of high terraces along the north bank of the Potomac River, hills and ridges in the basin of the valley, and upland areas along the slopes of South Mountain.

Name

The name "Cumberland Valley" is well established by the petition. The area is known locally and nationally by the name "Cumberland Valley" and use of this name is well documented. The name was given to the valley in 1736 by the earliest settlers who came from Cumberland County, England. In 1751 the name was formally adopted when the northeast part of the valley was named Cumberland County and the City of Carlisle (PA) was named for its counterpart in Cumberland County, England. Today, numerous references to the name of the valley are made in industrial, business and organizational names.

Geography

The Cumberland Valley viticultural area consists of a large elongated intermountain valley and the immediately surrounding upland areas. Mountains of the Allegheny Mountain complex form the western and northern portions of the boundary of the viticultural area and South Mountain, the northernmost extension of the Blue Ridge Mountain complex, forms the southern and eastern portions of the boundary. The southwestern and northeastern portions of the boundary are, respectively, the northeast bank of the Potomac River in Maryland and the southwest bank of the Susquehanna River in Pennsylvania. The valley is approximately 80 miles long from river to river. Its width is approximately 20 miles along the Potomac River (MD), approximately 24 miles at the Mercersburg-Waynesboro (PA) corridor, approximately 12 miles near Shippensburg (PA), and narrows to approximately 8 miles at Harrisburg (PA) along the Susquehanna River.

Distinguishing Characteristics

The viticultural area is distinguished geographically from surrounding areas by its topography, geology and soils, and to a lesser extent by climatological characteristics.

Topography

The topography of the basin of the Cumberland Valley is nearly level. The basin of the valley is a gently rolling plain which at its western edge along the Potomac River is approximately 300 feet above sea level and which over a distance of approximately 80 miles gradually ascends to an average elevation of 600 feet above sea level and then descends to an altitude of 300 feet above sea level along the Susquehanna River. The valley floor has some areas of higher elevation, i.e., lowlying hills and ridges.

The portions of the boundary to the northwest, north and southeast are higher due to the slopes of the mountains. The ridges and peaks of these mountains range from 1,000 feet to 2,100 feet above sea level. The areas of higher elevation range from 700 feet to 1,600 feet above the valley floor and include South Mountain (2,145 feet) to the south and east of the valley floor, the Bear Pond Mountains (2,062 feet), Cove Mountain (1,582 feet), and Kittatinny Mountain (2,056 feet) to the west and Blue Mountain to the north (2,000 feet). Most of the land above 1,000 feet in elevation along the southeastern portion of the boundary and above 700 feet in elevation along the northern and western portions of the boundary is stoney and unsuitable for agriculture, and consequently, remains forested.

Geology

The Cumberland Valley is an example of a mountain landscape that has been formed by erosion during a long interval of geologic time and that has reached a condition of dynamic equilibrium in which the adjustment between the landforms and the rocks beneath is nearly complete.

The Cumberland Valley is a segment of the Great (Limestone) Valley, a long and fertile lowland trough, underlain by Cambrian and Ordovician limestone and shale, that extends along the axis of the Appalachian Highlands from the State of Alabama north into Canada. It is geologically well defined by South Mountain to the south and east and by the Allegheny Mountains to the west and north. The segment of the Great Valley lying to the northeast of the Cumberland Valley is known as the Lebanon Valley and the segment lying to the southwest is known as the Shenandoah Valley.

Soil Characteristics

The topography and soils of the Cumberland Valley result from the geology of the area. The valley is a limestone bed that has been weathered to a gently rolling plain. The valley lies at approximately 600 feet above sea level between low mountains that rise to an elevation of about 2,000 feet above sea level and belong to the easternmost fringes of the Appalachian Mountains. The mountains to the west, north and south of the valley are formed of sedimentary, metamorphic sedimentary, and igneous rocks while the valley is composed almost entirely of limestone.

The soils found in the Cumberland Valley are typical of those derived from limestone. The Shenandoah and Lebanon valleys, respectively to the southwest and northeast, are contiguous segments of the Great (Limestone) Valley and bear soil characteristics similar to those of the Cumberland Valley. The soils in these valleys are deep, well drained, generally alkaline, and highly productive with a high moisture holding capacity whereas the mountains which border to the west, north and south, have soils generally of associations which are not as productive, deep, or well drained and which are acidic.

The General Soil Map of Pennsylvania, prepared by the Pennsylvania State University in collaboration with the Soil Conservation Service of the U.S. Department of Agriculture, and the General Soil Map of Maryland, prepared by the University of Maryland in collaboration with the Soil Conservation Service of the U.S. Department of Agriculture, show that the soils suitable for agriculture in the Cumberland Valley can, in fact, be used to delineate the basin of the valley from the surrounding highlands.

Data from the soil surveys for Washington County in Maryland and the counties of Franklin and Cumberland in Pennsylvania strongly support carrying the Cumberland Valley appellation all the way from the Potomac River to the Susquehanna River.

The major soil associations found in the three counties which make up the Cumberland Valley are Berks, Hagerstown and Murrill and are distributed within the total land area of each county as follows:

Name of county	Soil associations (in acres)			Area (in acres)
	Berk	Hagerstown	Murrill	
Washington (MD)	15,000	136,000	19,000	295,680
Franklin (PA)	150,000	154,000	43,500	482,880
Cumberland (PA)	61,000	58,000	12,700	335,000
Totals	226,000	348,000	75,200	1,113,360

Washington County, Maryland

Soils of the Waynesboro association are found almost entirely on the high terraces along the Potomac River. The Waynesboro soils consist of very old, acid alluvium, mostly gravelly, which have been eroded from highland areas and deposited in rather thick beds above the Potomac River. These soils are well-drained, deep and medium-textured, but require liming in order to be productive for grapegrowing.

Soils of the Berks association have differences in capability depending upon underlying rock formations which can be either limestone (alkaline) or other than limestone (acidic). Berks soils require periodic liming in order to be productive. Berks soils found on slopes hold less moisture than Berks soils found along the beds of creeks which drain the basin of the valley. However, the Berks soil along creek beds is not used for the cultivation of fruit.

Soils of the Murrill association are underlain by limestone and are influenced by limestone materials. These soils are used generally for farming with emphasis on dairying and other livestock enterprises. There are orchards and vindyards on the somewhat higher intermediate slopes where air drainage is better. These soils occur on the lowest western slopes of South Mountain from the Pennsylvania line southward almost to Rohrersville, Maryland. These soils are also on the lowest western slopes of Elk Ridge from near Porterstown, Maryland, southward to the Potomac River; in a small isolated area just north of Antietam, Maryland; and in a large area on the lowest eastern slopes of Fairview Mountain from the Pennsylvania line southward beyond Clear Spring and southeastward to the Potomac in the vicinity of Two Locks.

Soils of the Hagerstown-Duffield-Frankstown association occupy most of the main basin of the Great (Limestone) Valley that crosses Washington County between South Mountain and Fairview Mountain. These are the dominant soils which made up more than 90 percent of soils in the valley in Washington County and are the most important in its agricultural economy which lies chiefly in corn, small grains, hay crops, dairying, breeding of livestock, and fruit.

Franklin County, Pennsylvania

The land area of Franklin County, Pennsylvania, is located primarily in the Great Limestone Valley.

The principal soil associations in Franklin County are: Hagerstown-Duffield, Murrill-Laidig and Weikert-Berks-Bedington.

The deep and well drained Hagerstown-Duffield soils make up about 32 percent of the land in the county and are found in the limestone valleys which are dedicated to crops, fruit, hay, and pasture.

The Murrill-Laidig association consists of deep, well-drained, gently sloping to moderately steep soils formed in colluvium on the foot slopes and benchlike areas on mountainsides. Nearly all of the soils of this association have been cleared and are used for crops, hay, pasture and fruit. They are among the best in Franklin County for farming.

Soils of the Weikert-Berks-Bedington association are shallow to deep, well-drained soils formed in materials weathered from shale and interbedded shale, siltstone and sandstone and are found in the valleys where crops are planted.

Cumberland County, Pennsylvania

Although the soils in Cumberland County have been surveyed, the report of the survey has not yet been published. The Soil Conservation Service in Carlisle, Pennsylvania, furnished field data and a preliminary map which shows continuation into Cumberland County of the major soil types found in Washington and Franklin counties. The Hagerstown type soil (limestone) continues all the way to the floodplain of the Susquehanna River and the Murrill colluvial fans (sandstone over limestone) continue along the slopes of South Mountain.

Climatological Characteristics

Climate is a feature which differentiates the Cumberland Valley from surrounding areas. Because of the location of the Allegheny Mountain complex to the west and north and South Mountain to the south, as well as the movement of warm, moist air northward from the Gulf of Mexico over the basin of the Great (Limestone) Valley, the climate, including average temperature and precipitation, is relatively uniform throughout the Cumberland Valley.

The valley lies in an area of prevailing westerly winds which originate in the interior of North America. Warm, moist air from the Gulf of Mexico flows northward along the basin of the Great (Limestone) Valley into the Cumberland Valley. In addition, the Atlantic Ocean to the east is a modifying factor and an occasional source of warmth and moisture. These conditions give a "Humid Continental" type of climate, typical of the Middle Atlantic States. Most weather systems that affect this area originate in Canda or on the Central Plains of the United States, are caught up in the prevailing westerly flow aloft, move eastward over the Appalachian Mountains, and lose moisture in the form of precipitation over the basin of the valley.

By the time an air mass has passed over the Appalachian chain, it is considerably modified in both temperature and moisture. After cooling and losing moisture while traversing the mountains, an air mass tends to warm and at least partly replenish its moisture supply over the valley. Orographic uplift along the windward side of South Mountain, which forms the eastern portion of the border of the proposed viticultural area, results in increased cloudiness and the greatest precipitation along this eastern ridge. Annual temperatures generally average near 53°F over the Cumberland Valley but at

higher elevations along the western and eastern borders average two to three

and valley temperatures reach into the nineties about 30 times during summer

(3) Commercial wineries—one in the Maryland portion of the area and two in

Paragraph 1. The authority citation for 27 CFR Part 9 continues to read as

(17) "Steelton Quadrangle", edition of 1963, photo-revised 1972.

(5) Then southeasterly along Porterstown Road to its intersection

higher elevations along the western and eastern borders average two to three degrees lower. Precipitation also follows topographical features; the annual average is 40 inches in the western mountain and valley region and approximately 45 inches in the South Mountain region. The lower totals along the western border are due to the drying of the air mass over the mountains farther west and the lack of a moisture source.

Average temperature and precipitation are relatively consistent throughout the valley. In addition to the data obtained by the petitioners from weather stations within and outside the proposed boundary of the petitioned area, ATF found evidence presented in the notices and Treasury decisions for the Catoctin, Lancaster Valley, and Shenandoah Valley viticultural areas that documents the climatological differences between the Cumberland Valley and surrounding areas.

The climate of the Catoctin viticultural area which lies to the south of the Cumberland Valley has an average annual rainfall of 36–42 inches, temperatures of 50–55 degrees F., and a frost-free season of 160–170 days. The Lancaster Valley viticultural area to the southeast of the Cumberland viticultural area has an average annual rainfall of 40–42 inches, temperatures of 55–60 degrees F., and a frost-free season of 170–180 days. The Shenandoah Valley viticultural area to the southwest of the Cumberland Valley has an average annual rainfall of 34–38 inches, temperatures of 54–56 degrees F., and a frost-free season of 150–160 days.

The petitioners cite data from three weather stations of the National Oceanic and Atmospheric Administration, U.S. Department of Commerce, specifically, the stations at Chewsville (elev. 640 feet) located near Hagerstown (MD) at the southern end of the valley, Chambersburg (PA) located centrally (elev. 570 feet), and Carlisle (PA) located in the northeastern end of the valley (elev. 465 feet). These stations show average temperatures ranging from 51.6 °F to 53.4 °F, total precipitation from 34.9" to 39.8", and degree growing days of 3,050 at Chewsville, 2,890 at Chambersburg, and 3,150 at Carlisle. The average annual temperature is 52° Fahrenheit with the coldest month being January (32° Fahrenheit) and the warmest month being July (75° Fahrenheit). Based upon data recorded at Chambersburg, annual precipitation averaging 38.25 inches occurred fairly evenly throughout the 30-year period from 1931 to 1960.

In summer, several periods of hot and humid weather are observed, however, and valley temperatures reach into the nineties about 30 times during summer. On the average, daytime highs reach the middle to upper eighties and nighttime lows are near 60°. Temperatures in the mountains are lower.

Freezing temperatures have not been experienced during summer in the valley. Cloud cover is at a minimum in summer; the valley receives more than 60 percent of the available sunshine, and nights are generally clear.

The prevailing wind is from the southwest and averages 8 miles per hour. Rainfall is generally adequate but dry periods of 2 to 3 weeks duration are sometimes experienced. Summer rainfall is usually in the form of afternoon and evening thundershowers, which occur on an average of 24 days during the months of June, July and August.

The length of the growing season is fairly consistent over the valley and averages 160 to 170 days. Frost occurs as late as mid-May and as early as mid-September. A shorter growing season exists in the mountains. About 57 percent of the annual precipitation falls during spring and summer.

The Climatological characteristics of the Cumberland Valley and surrounding areas may be summarized as follows:

Name of area	Temperature degrees Fahrenheit	Rainfall inches	Frost-free days
Mountains (west).	48 to 50	40	Less than 160
Mountains (north).	48 to 50	40	Do.
South Mountain.	49 to 52	45	Do.
Catoctin	50 to 55	36 to 42	160 to 170.
Cumberland Valley.	51 to 54	34 to 40	Do.
Shenandoah Valley.	54 to 56	34 to 38	150 to 160.
Lancaster Valley.	55 to 60	40 to 42	170 to 180.

Boundary

The boundary of the Cumberland Valley viticultural area is found on 32 United States Geological Survey maps of the 7.5 minute series, scale 1:24,000. The boundary is described in § 9.105.

Viticulture in the Area

The following statistics were developed from information (not necessarily in the petition) available to ATF:

(1) Total acreage in the area—approximately 765,000 acres.

(2) Commercial vineyards (winegrapes)—approximately 20 acres in Maryland and approximately 40 acres in Pennsylvania.

(3) Commercial wineries—one in the Maryland portion of the area and two in the Pennsylvania portion.

Grapes grown commercially for winemaking are mainly *vitis Labrusca* and *vitis Labrusca-vitis vinifera* crosses (French hybrids). Only a few *vitis vinifera* varieties are grown commercially in the area.

Compliance with Executive Order 12291

It has been determined that this final rule is not a "major rule" within the meaning of Executive Order 12291 of February 17, 1981, because it will not have an annual effect on the economy of $100 million or more; it will not result in a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and it will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

The notice of proposed rulemaking which resulted in this final rule contained a certification under the provisions of the Regulatory Flexibility Act (5 U.S.C. 605(b), that if promulgated as a final rule, it would not have a significant economic impact on a substantial number of small entities. Therefore, the requirement contained in the Regulatory Flexibility Act (5 U.S.C. 603, 604) for a final regulatory flexibility analysis does not apply to this final rule.

Paperwork Reduction Act

The provisions of the Paperwork Reduction Act of 1980, Pub. L. 96–511, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR Part 1320, do not apply to this final rule because no requirement to collect information is imposed.

§ 9.105 Cumberland Valley.

(a) *Name.* The name of the viticultural area described in this section is "Cumberland Valley."

(b) *Approved maps.* The appropriate maps for determining the boundary of the Cumberland Valley viticultural area are the following 32 U.S.G.S. topographical maps of the 7.5 minute series:

(1) "Williamsport Quadrangle", edition of 1969.
(2) "Shepherdstown Quadrangle", edition of 1978.
(3) "Keedysville Quadrangle", edition of 1978.
(4) "Middletown Quadrangle", edition of 1953, photo-revised 1979.
(5) "Myersville Quadrangle", edition of 1953, photo-revised 1971.
(6) "Smithsburg Quadrangle", edition of 1953, photo-revised 1971.
(7) "Waynesboro Quadrangle", edition of 1944, photo-revised 1968 and 1973.
(8) "Iron Springs Quadrangle", edition of 1953, photo-revised 1968 and 1973.
(9) "Scotland Quadrangle", edition of 1944, photo-revised 1968 and 1973.
(10) "Caledonia Park Quadrangle", edition of 1944, photo-revised 1968 and 1973.
(11) "Walnut Botton Quadrangle", edition of 1952, photo-revised 1969 and 1977.
(12) "Dickinson Quadrangle", edition of 1952, photo-revised 1969 and 1977.
(13) "Mount Holly Springs Quadrangle", edition of 1952, photo-revised 1968 and 1973.
(14) "Carlisle Quadrangle", edition of 1952, photo-revised 1968 and 1973.
(15) "Mechanicsburg Quadrangle", edition of 1952, photo-revised 1968 and 1973.
(16) "LeMoyne Quadrangle", edition of 1963, photo-revised 1972.
(17) "Steelton Quadrangle", edition of 1963, photo-revised 1972.
(18) "Harrisburg West Quadrangle", edition of 1969, photo-revised 1974.
(19) "Wertzville Quadrangle", edition of 1952, photo-revised 1968 and 1973.
(20) "Sherman's Dale Quadrangle", edition of 1952, photo-revised 1968 and 1973.
(21) "Landisburg Quadrangle", edition of 1952, photo-revised 1969 and 1977.
(22) "Andersonburg Quadrangle", edition of 1952, photo-revised 1969 and 1977.
(23) "Newville Quadrangle", edition of 1952, photo-revised 1969 and 1975.
(24) "Newburg Quadrangle", edition of 1966, photo-revised 1973.
(25) "Doylesburg Quadrangle", edition of 1966, photo-revised 1973.
(26) "Roxbury Quadrangle", edition of 1966, photo-revised 1973.
(27) "Fannettsburg Quadrangle", edition of 1966, photo-revised 1973.
(28) "St. Thomas Quadrangle" edition of 1944, photo-revised 1968 and 1973.
(29) "McConnellsburg Quadrangle", edition of 1944, photo-revised 1968 and 1973.
(30) "Mercersburg Quadrangle", edition of 1943, photo-revised 1968 and 1973.
(31) "Clear Spring Quadrangle", edition of 1955, photo-revised 1971.
(32) "Hedgesville Quadrangle", edition of 1979.

(c) *Boundary.* The Cumberland Valley viticultural area is located in Washington County in west-central Maryland and Franklin and Cumberland counties in south-central Pennsylvania. The boundary is as follows:

(1) Starting immediately west of the Town of Williamsport in Washington County, Maryland, at Lock 45 of the Chesapeake & Ohio (C&O) Canal National Historical Park and the confluence of the Potomac River and Conococheague Creek (see Williamsport Quadrangle), the boundary proceeds in a southeasterly direction along the perimeter of the park on the northeastern bank of the Potomac River to the confluence of Antitam Creek and the Potomac River;

(2) Then southeast of Limekiln Road which runs along the perimeter of the park from Antietam Creek to the intersection of Limekiln Road and Harpers Ferry Road;

(3) Then northeasterly a straight line approximately two miles to the 952-foot summit of Hawk's Hill;

(4) Then northerly on a straight line approximately 2.5 miles to the intersection of Red Hill Road and Porterstown Road;

(5) Then southeasterly along Porterstown Road to its intersection with Mount Briar—Trego Road;

(6) Then southerly along Mount Briar—Trego Road to its intersection with Millbrook Road;

(7) Then east along Millbrook Road to its intersection with State Route 67, approximately 0.5 mile north of Rohersville, Maryland;

(8) Then directly east approximately 1.25 miles in a straight line to the 1,000-foot contour line of South Mountain;

(9) Then in a north northeasterly direction along the 1,000-foot contour line of South Mountain in Washington County, Maryland, and Franklin and Cumberland counties in Pennsylvania to the point on South Mountain where the 1,000-foot contour line crosses State Hollow Road (Rt. 233);

(10) Then north along Rt. 233 to the point where it crosses the 750-foot contour of South Mountain;

(11) Then east along the 750-foot contour line of South Mountain to the point southwest of the Mount Holly Springs Reservoir where Cold Spring Run, a tributary of Yellow Breeches Creek, crosses the 750-foot contour line, approximately 3 miles southwest of the town of Mount Holly Springs, Pennsylvania;

(12) Then east northeast in a straight line approximately seven miles to Center Point Knob, elev. 1050 feet, approximately two miles southeast of Boiling Springs, Pennsylvania (see Mechanicsburg Quadrangle);

(13) Then continuing east northeast in a straight line approximately six miles to the point where U.S. Rt. 15 crosses Yellow Breeches Creek, approximately one mile east of Williams Grove, Pennsylvania;

(14) Then east and northeast in a meandering line along the north bank of Yellow Breeches Creek to its confluence with the Susquehanna River;

(15) Then north along the west bank of the Susquehanna River, which forms the western portion of the corporate boundary line of the City of Harrisburg, Pennsylvania, to the point where the 300-foot contour line and the west bank of the Susquehanna River meet;

(16) Then directly west to the 700-foot contour line of Blue Mountain overlooking the Susquehanna River;

(17) Then along the 700-foot contour line of Blue Mountain as it meanders west and around McClures Gap;

(18) Then along the 700-foot contour line of Blue Mountain to the point where the 700-foot contour line crosses State Rt. 233;

(19) Then northeast along Rt. 233 through Doubling Gap to the 1,000-foot

perimeter of the C&O National Historical Park to the point of beginning.

DEPARTMENT OF THE INTERIOR

that requires annual publication of refuge fishing regulations has become a costly administrative burden and has

withdrawn from this rule because the refuge has never been opened to sport

requirements relating to the annual publication of refuge-specific fishing

(19) Then northeast along Rt. 233 through Doubling Gap to the 1,000-foot contour line of Blue Mountain;

(20) Then in a generally southwesterly direction along the 1,000-foot contour line of Blue Mountain into Franklin County to the point where the 1,000-foot contour line meets the roadbed of the Pennsylvania Turnpike, Interstate 76;

(21) Then along the roadbed of the Pennsylvania Turnpike to the east entrance of the Blue Mountain Tunnel;

(22) Then in a straight line approximately 6.5 miles to the intersection of State Rt. 533 and the 1,000-foot contour line of Blue Mountain, approximately one mile west northwest of Upper Strasburg, Pennsylvania;

(23) Then southwest along the 1,000-foot contour line of Blue Mountain to and along the 1,000-foot contour line of Broad Mountain;

(24) Then along the 1,000-foot contour line as it meanders along and around Broad Mountain and Front Mountain to the point where the 1,000-foot contour line crosses Wilson Run near Franklin Furnace, Pennsylvania;

(25) Then southwest in a straight line approximately 3.5 miles to Parnell Knob, elev. 2060 feet;

(26) Then west northwest in a straight line approximately four miles to the point where the 1,000-foot contour line crosses Township Run near Cape Horn on Cove Mountain, approximately two miles north northwest of Fort Loudon, Pennsylvania;

(27) Then southwest along the 1,000-foot contour line of Cove Mountain into and out of Cove Gap;

(28) Then along the 1,000-foot contour line of Cove Mountain and Two Top Mountain in Franklin County, Pennsylvania, and Sword Mountain and Fairview Mountain in Washington County, Maryland, to the point on Fairview Mountain where the 1,000-foot contour line intersects the National Road (U.S. Rt. 40);

(29) Then west along U.S. Rt. 40 approximately 0.5 mile to the intersection of U.S. Rt. 40 and Cove Road;

(30) Then south in a straight line from the intersection of U.S. Rt. 40 and Cove Road approximately 1.25 miles to the intersection of McCoys Ferry Road and State Rt. 56;

(31) Then south along McCoys Ferry Road to the perimeter of the C&O Canal National Historical Park along the Potomac River;

(32) Then southeast along the perimeter of the C&O National Historical Park to the point of beginning.

Signed: January 17, 1985.

W.T. Drake,

Acting Director.

Approved: June 28, 1985.

Edward T. Stevenson,

Deputy Assistant Secretary (Operations).

BILLING CODE 4310-31-M

GENERAL SERVICES ADMINISTRATION

41 CFR Part 101-41

Unused Ticket Refund Procedures; Completion of Review by the Office of Management and Budget

AGENCY: Office of the Comptroller, GSA.

ACTION: Confirmation of effective date.

SUMMARY: This general notice advises the public that a decision has been made by the Office of Management and Budget (OMB) regarding the final rule on unused ticket refund procedures published in the **Federal Register** on January 8, 1985 (50 FR 938), and submitted to OMB for review, as published in the **Federal Register** on March 12, 1985 (50 FR 9908) and confirms the effective date. OMB has determined that this rule is not subject to the Paperwork Reduction Act because it does not impose any information collection burden on the public.

The General Services Administration (GSA) urges those members of the carrier industry that may have problems meeting requirements of § 101-41.210-5a to contact GSA to discuss mutually satisfactory alternative arrangements, as outlined in § 101-41.210-5c.

EFFECTIVE DATE: Therefore, the provisions published at 50 FR 938 became effective on January 8, 1985.

ADDRESS: Requests should be addressed to: Thomas P. Wolf, Director, Office of Transportation Audits (BW), General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, (202) 786-3000.

FOR FURTHER INFORMATION CONTACT: John W. Sandfort, 202-786-3014.

Dated: July 17, 1985.

Raymond A. Fontaine,

Comptroller.

BILLING CODE 6820-AM-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 33

Refuge-Specific Fishing Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The Fish and Wildlife Service (Service) is revising sections of 50 CFR Part 33 by deleting the provision that requires the issuance of special fishing regulations on an annual basis and by amending § 33.1 to more accurately describe the Service's authority to permit fishing on national wildlife refuges. Also, the term "special regulations" is replaced by a more appropriate term "refuge-specific regulations." Refuge-specific fishing regulations are codified for certain national wildlife refuges.

EFFECTIVE DATE: August 22, 1985.

FOR FURTHER INFORMATION CONTACT: James F. Gillett, Chief, Division of Refuge Management, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (telephone 202-343-4311).

SUPPLEMENTARY INFORMATION: 50 CFR Part 33 contains the provisions that govern fishing on national wildlife refuges. Fishing is regulated on refuges for two basic reasons: (1) To properly manage the fishery resource, and (2) to protect other refuge values. On many refuges, the Service policy of adopting State fishing regulations is an adequate way of meeting these objectives, but on other refuges it is necessary for the Service to issue fishing regulations in addition to State regulations to ensure that the Service meets its management responsibilities.

Section 33.3 contains the provision that requires the publication of fishing regulations for a given refuge on an annual basis. These regulations are generally limited to one season and historically have not been permanently codified in Title 50 of the Code of Federal Regulations (50 CFR). The Service implemented this provision in 1960 when the Department of the Interior revised and reorganized 50 CFR. Since then, the number of refuges on the list of areas open to sport fishing has doubled. Also, the authority to issue these regulations has been centralized in the Office of the Assistant Secretary for Fish and Wildlife and Parks to ensure the standardization of these refuge fishing regulations throughout the National Wildlife Refuge System. For these reasons, the provision in § 33.3 that requires annual publication of refuge fishing regulations has become a costly administrative burden and has adversely affected their timely issuance. Therefore, the Service is deleting this provision and issuing the refuge-specific fishing regulations listed in this rule. Once these regulations are codified, they will remain in place and control fishing activities on a given refuge unless and until they are amended by subsequent regulations published in the **Federal Register**.

The fishing regulations that have been developed for individual refuges are referred to as "special regulations" in Part 33. These "special regulations" are similar in effect to any other regulation governing an activity or use on national wildlife refuges, and they have no "special" value as the term implies. Therefore, the Service is making a technical amendment to change the term "special regulations" in Part 33 to "refuge-specific regulations" to clarify the fact that these fishing regulations govern individual fishing programs on particular refuges.

This rulemaking contains refuge-specific fishing regulations only for refuges that have been opened in previous rulemakings and does not add any refuges to the list of those open to sport fishing. This rulemaking represents an administrative technical amendment that is designed to place the regulations governing fishing on refuges in the Code of Federal Regulations. In the absence of such refuge-specific fishing regulations, fishing on national wildlife refuges open to this activity is permitted subject to State law and regulations and the provisions of 50 CFR Part 33.

Section 33.1 deals with the Service's authority to permit sport fishing by the public. The Service is amending this section to more accurately detail its responsibilities as mandated by the National Wildlife Refuge System Administration Act, as amended (NWRSAA), and the Refuge System Recreation Act (RSRA).

On February 20, 1985, at 50 FR 7079, the Service published a proposed rule to amend portions of 50 CFR Part 33 as noted above and in the section entitled "Section-by-Section Analysis." Technical and administrative changes have been made to several of the refuge-specific fishing regulations proposed in the February 20 rulemaking. Most of these modifications reflect minor corrections in the times or areas in which fishing activities are permitted on individual refuges. Some wording changes were also made, for clarity. In addition, regulations proposed in the February 20 rulemaking for Oxbow National Wildlife Refuge (NWR) are withdrawn from this rule because the refuge has never been opened to sport fishing. Regulations for J.N. "Ding" Darling NWR and Monomoy NWR are included in this rule but did not appear in the proposed rule. These two refuges have been open to sport fishing for eight and 24 years, respectively, and their fishing programs were subject to public review when they were opened. Furthermore, although the fishing regulations contained herein for J.N. "Ding" Darling NWR and Monomoy NWR were not published in the proposed rule, the public has been made aware of the regulations in the past through the use of refuge signs and brochures, per 50 CFR 25.31.

Section-by-Section Analysis

Section 33.1 Public fishing authorization. This paragraph will be amended by adding, as an introductory statement, the Service's responsibility to determine if sport fishing is compatible with the purposes for which the refuge was established prior to opening the refuge to this activity. A statement to this effect more accurately reflects the Service's responsibilities as mandated by the NWRSAA and the RSRA than the sentence in the paragraph that now states, "However, wildlife refuge areas will be opened to sport fishing only when a determination has been made that such activity is not detrimental to the objectives for which the area was established." This sentence will be deleted from the section.

Section 33.2 General regulations. The term "special regulations" will be replaced by "refuge-specific regulations" in paragraph (e) for the purposes of clarity. Also, the last sentence in paragraph (e) that states that special regulations are not codified will be replaced by one that states that refuge-specific fishing regulations are codified in §§ 33.5 through 33.54.

A new paragraph will be added to the section, that will list the approved information collection requirements related to sport fishing regulations.

Section 33.3 Procedure for publication of special regulations. The terms "special regulations" and "special fishing regulations" will be replaced wherever they are used in this section by the term "refuge-specific fishing regulations."

Paragraph (a) of this section will be revised to permit the issuance of refuge-specific fishing regulations for a refuge at the time of publication of the opening of that refuge to sport fishing. Paragraph (h) will be revised to include fish wherever wildlife is mentioned.

Paragraphs (b) and (e) will be deleted because these provisions contain requirements relating to the annual publication of refuge-specific fishing regulations. Also, the statement that special regulations are not codified will be deleted from paragraph (g).

Section 33.5 Special regulations; sport fishing; for individual wildlife refuge areas. This section has traditionally contained all the special regulations for sport fishing on refuges. The Service is amending this section to contain only those refuge-specific fishing regulations for national wildlife refuges in the State of Alabama and adding sections 33.6 through 33.54 for the remaining States. Thus, the refuge-specific fishing regulations for national wildlife refuges in a particular State will be listed in a separate section of Part 33. (Although § 33.6 has been reserved for Alaska, fishing on national wildlife refuges in Alaska is permitted in accordance with State fishing regulations. There are no refuge-specific regulations for these refuges.)

Responses to Comments Received

It is the policy of the Service, whenever practicable, to afford the public an opportunity to participate in the Service's rulemaking process. Accordingly, the February 20 proposed rule had a 30-day comment period. Two written comments were received from organization's in response to the proposed rulemaking. Substantive comments are outlined and responded to below:

Issue 1: One commenter wanted to know whether the lack of refuge-specific regulations for Great Swamp NWR indicated that the Service feels State regulations are adequate in meeting the refuge's objectives.

Service Response: No regulations were proposed for Great Swamp NWR because the refuge has never been opened to sport fishing (see § 33.4, List of Open Areas: Sport Fishing).

Issue 2: One commenter preferred a more liberal fishing season than the July 20 through September 21 season proposed for Edwin B. Forsythe NWR.

Service Response: This season was proposed for a portion of the refuge's Brigantine Division known as William Vogt Pool. The restricted season is designed to prevent undue disturbance to nesting and migrating waterfowl and other migratory birds using the area. There is very little demand for fishing within the Pool's impoundments.

Issue 3: One commenter found the proposed prohibition on the possession of fish and minnows for use as bait at the Edwin B. Forsythe NWR of questionable value.

Service Response: The Service agrees and this restriction has been eliminated for the final rule.

regulation governing fishing on the wildlife refuge area. Regulations for a

Service Response: The Service agrees and this restriction has been eliminated for the final rule.

Conformance With Statutory Authorities

The National Wildlife Refuge System Administration Act of 1966, as amended (16 U.S.C. 668dd), and the Refuge Recreation Act of 1962 (16 U.S.C. 460k) govern the administration and the public use of national wildlife refuges. Specifically, section 4(d)(1)(A) of the Refuge System Administration Act authorizes the Secretary of the Interior, under such regulations as he may prescribe, to permit the use of any area within the System for any purpose, including but not limited to hunting, fishing, public recreation and accommodations and access when he determines that such uses are compatible with the major purposes for which such areas were established.

The Refuge Recreation Act authorizes the Secretary of the Interior to administer the refuge areas within the National Wildlife Refuge System for public recreation as an appropriate incidental or secondary use only to the extent that it is practicable and not inconsistent with the primary objectives for which the area was established. The Refuge Recreation Act also authorizes the Secretary to issue regulations to carry out the purposes of the Act.

Fishing plans are developed for each fishing program on a refuge prior to the opening of the refuge to fishing. In some cases refuge-specific fishing regulations are included as a part of the fishing plans to ensure the compatibility of the fishing programs with the purposes for which the affected national wildlife refuges were established. Compliance with the Refuge Administration and Refuge Recreation Acts is ensured when the fishing plans are developed, and the determinations required by these Acts are made prior to the addition of the refuge to the list of areas open to sport fishing in 50 CFR. Also, refuge-specific fishing regulations are subject to a categorical exclusion from the NEPA process if they do not significantly alter the existing use of the refuge. The changes in the general provisions governing fishing on national wildlife refuges and the refuge-specific fishing regulations contained in this rulemaking do not significantly alter the existing use of national wildlife refuges.

Stephen J. Lewis, Division of Refuge Management, U.S. Fish and Wildlife Service, Washington, D.C., is the primary author of this rulemaking document.

Information regarding the conditions that apply to individual refuge fishing programs and a map of the refuge are available at refuge headquarters. This information can also be obtained from the regional offices of the U.S. Fish and Wildlife Service at the addresses listed below. Anglers should contact the refuge manager for further information regarding public use on a specific refuge so that they are aware of all the restrictions related to public use on a particular refuge.

Assistant Regional Director—Wildlife Resources, U.S. Fish and Wildlife Service, 1011 E. Tudor Rd., Anchorage, Alaska 99503; telephone (907) 786–3542.

Paperwork Reduction Act

The Service has received approval from the Office of Management and Budget (OMB) for the information collection requirements of these regulations pursuant to the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). These requirements are presently approved by OMB as cited below:

Type of information collection	*OMB approval No.*
Off-road vehicle permit applications	1018–0041
Special use permits	1018–0046

These regulations impose no new reporting or recordkeeping requirements that must be cleared by OMB.

Environmental Considerations

The "Final Environmental Statement for the Operation of the National Wildlife Refuge System" (FES 76–59) was filed with the Council on Environmental Quality on November 12, 1976; a notice of availability was published in the **Federal Register** on November 19, 1977 (41 FR 51131). Fishing plans are developed for each fishing program on a refuge prior to the opening of the refuge to fishing. Compliance with section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4332(C)) and the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) is ensured when the fishing plans are developed, and the determinations required by these Acts have a significant effect on a substantial number of small entities, which include small businesses, organizations or governmental jurisdictions.

The Service is deleting its requirement for annual publication of refuge-specific fishing regulations and is codifying these regulations in 50 CFR. As described above, the elimination of this administrative burden will benefit the Federal government and affected individuals. These actions will not significantly alter existing refuge fishing programs and, therefore, are not expected to have any gross economic effect and will not cause an increase in costs or prices for consumers, individual industries, Federal, State, or local governments, agencies, or geographic regions.

Accordingly, the Department of the Interior has determined that this rule is not a "major rule" within the meaning of Executive Order 12291 and will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Economic Effect

Executive Order 12291, "Federal Regulation," of February 17, 1981, requires the preparation of regulatory impact analyses for major rules. A major rule is one likely to result in an annual effect on the economy of $100 million or more; a major increase in cost of prices for consumers, individual industries, government agencies or geographic regions; or significant adverse effects on the ability of United States-based enterprises to compete with foreign-based enterprises. The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) further requires the preparation of flexibility analyses for rules that will

Fishing, National wildlife refuge system, Wildlife refuges.

PART 33—[AMENDED]

For the reasons set forth in the preamble, Part 33, Subchapter C, Chapter I of Title 50 Code of Federal Regulations, is amended as set forth below:

1. The Table of Contents for Part 33 is revised to read as follows:

Subpart A—General Provisions

Sec.
33.1 Opening of wildlife refuge areas to fishing.
33.2 General regulations and information collection requirements.
33.3 Procedure for publication of refuge-specific fishing regulations.
33.4 List of open areas; sport fishing.

Subpart B—Refuge-Sapecific Regulations for Sport Fishing

33.5 Alabama.
33.6 Alaska. [Reserved]
33.7 Arizona.
33.8 Arkansas.
33.9 California.
33.10 Colorado. [Reserved]
33.11 Connecticut. [Reserved]
33.12 Delaware. [Reserved]
33.13 Florida.
33.14 Georgia.
33.15 Hawaii. [Reserved]
33.16 Idaho.
33.17 Illinois.
33.18 Indiana.
33.19 Iowa.
33.20 Kansas. [Reserved]
33.21 Kentucky. [Reserved]
33.22 Louisiana.
33.23 Maine.
33.24 Maryland.
33.25 Massachusetts.
33.26 Michigan.
33.27 Minnesota.
33.28 Mississippi.
33.29 Missouri.
33.30 Montana.
33.31 Nebraska.
33.32 Nevada.
33.33 New Hampshire. [Reserved]
33.34 New Jersey.
33.35 New Mexico.
33.36 New York.
33.37 North Carolina.
33.38 North Dakota. [Reserved]
33.39 Ohio. [Reserved]
33.40 Oklahoma.
33.41 Oregon.
33.42 Pennsylvania.
33.43 Rhode Island. [Reserved]
33.44 South Carolina.
33.45 South Dakota. [Reserved]
33.46 Tennessee.
33.47 Texas.

33.49 Vermont.
33.50 Virginia.
33.51 Washington.
33.52 West Virginia. [Reserved]
33.53 Wisconsin.
33.54 Wyoming. [Reserved]

2. The authority citation for Part 33 is revised to read as follows:

Authority: Sec. 2, 33 Stat. 614, as amended, sec. 5, 43 Stat. 651, secs. 5, 10, 45 Stat. 449, 1224, secs. 4, 2, 48 Stat. 402, as amended, 451, 1270, sec. 4, 76 Stat. 654; 5 U.S.C. 301, 16 U.S.C. 685, 725, 690d, 715i, 664, 718d, 43 U.S.C. 315a, 16 U.S.C. 460k; sec. 2, 80 Stat. 926; 16 U.S.C. 668bb.

3. Sections 33.1—33.4 are designated as Subpart A—General Provisions.

3a. Section 33.1 is revised to read as follows:

Subpart A—General Provisions

§ 33.1 Opening of wildlife refuge areas to fishing.

Wildlife refuge areas may be opened to sport fishing only after a determination is made that this activity is compatible with the purposes for which the refuge was established. In addition, the sport fishing program must be consistent with principles of sound fishery management and otherwise be in the public interest. The opening or closing of wildlife refuge areas to fishing is subject to the rulemaking requirements of the Administrative Procedure Act (5 U.S.C. 551 *et seq.*). Lands acquired as "waterfowl production areas" are open to sport fishing subject to the provisions of State laws and regulations and the pertinent provisions of Parts 25 through 31 of this subchapter: *Provided,* that fishing or entry on all or any part of individual areas may be temporarily suspended by posting upon occasions of unusual or critical conditions of, or affecting, land, water, vegetation or fish and wildlife populations.

4. Section 33.2 is amended by revising the section title and paragraph (e), and by adding a new flush paragraph following paragraph (e), to read as follows:

§ 33.2 General regulations and information collection requirements.

* * * * * *

(e) Each person shall comply with the provisions of any refuge-specific regulation governing fishing on the wildlife refuge area. Regulations for a particular wildlife refuge are available at its headquarters office. In addition, refuge-specific fishing regulations are codified in §§ 33.5 through 33.54.

The Service has received approval from the Office of Management and Budget (OMB) for the information collection requirements of these regulations pursuant to the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). These requirements are presently approved by OMB under the OMB approval numbers cited:

Type of information collection	*OMB approval No.*
Off-road vehicle permit applications	1018–0041
Special use permits	1018–0046

These regulations impose no new reporting or record keeping requirements that must be cleared by OMB. The information is being collected to assist the Service in administering these programs in accordance with statutory authorities that require recreational uses be compatible with the primary purposes for which the areas were established. The information is used to award benefits. A response is mandatory to obtain a benefit.

5. Section 33.3 is revised to read as follows:

§ 33.3 Procedure for publication of refuge-specific fishing regulations.

(a) Refuge-specific fishing regulations are issued only at the time of or after the opening of a wildlife refuge area to sport fishing.

(b) Refuge-specific fishing regulations may contain the following items:
(1) Fish species that may be taken,
(2) Seasons,
(3) Creel limits,
(4) Methods of fishing,
(5) Description of areas open to fishing, or
(6) Other provisions as required.

(c) Refuge-specific fishing regulations will not liberalize existing State laws or regulations.

(d) Refuge-specific fishing regulations are subject to change and the public is invited to submit suggestions and comments for consideration at any time.

(e) Refuge-specific fishing regulations are initially published in the daily issue of the **Federal Register** and are codified in 50 CFR 33.5 through 33.54.

(f) Refuge-specific fishing regulations may be amended as needed when unpredictable changes occur in fish and wildlife populations, habitat conditions

or in other factors affecting a refuge's fish and wildlife resources.

6. Section 33.4 is amended by revising

portions of Martinez Lake and Fergerson Lake are closed to entry from October 1 to March 1.

(1) Fishing is permitted from March 1 through October 31 except as posted and as follows: Fishing is permitted

Fishing and frogging are permitted from February 1 through October 15.

(i) *Salton Sea National Wildlife*

(1) Fishing is permitted during daylight hours on all areas of the refuge except the management impoundments and

designated areas of the refuge subject to the following conditions:

or in other factors affecting a refuge's fish and wildlife resources.

6. Section 33.4 is amended by revising the introductory paragraph to read as follows:

§ 33.4 List of open areas; sport fishing.

Sport fishing is authorized on the following wildlife refuge areas in accordance with the provisions of §§ 33.1, 33.2, and 33.5 through 33.54.

* * * * *

7. A new Subpart B is added consisting of § 33.5, which is revised, and §§ 33.6 through 33.54 which are added to read as follows:

Subpart B—Refuge-Specific Regulations for Sport Fishing

§ 33.5 Alabama.

(a) *Choctaw National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing is permitted during daylight hours only.

(b) *Eufaula National Wildlife Refuge.* Fishing, frogging and turtle trapping are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing, frogging and turtle trapping are permitted year-round in all refuge waters contiguous with the Walter F. George Reservoir.

(2) Fishing, including bowfishing, is permitted from March 1 through October 31 during daylight hours only in all refuge impoundments and waters other than the Walter F. George Reservoir.

§ 33.6 Alaska. [Reserved]

§ 33.7 Arizona.

(a) *Cibola National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted during respective State seasons in the channelized portions of the Colorado River in Zone I, Zone II, and the Old River Channel of the Colorado River.

(2) Fishing is permitted from March 15 through Labor Day in Cibola Lake and the channelized portion of the Colorado River in Zone III.

(b) *Havasu National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following condition: Designated portions of Topock Marsh are closed to all entry from October 1 through January 31.

(c) *Imperial National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following condition: Designated portions of Martinez Lake and Fergerson Lake are closed to entry from October 1 to March 1.

§ 33.8 Arkansas.

(a) *Big Lake National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted during daylight hours only from March 1 through October 31 with the following exceptions: Bank fishing is permitted at any time in the area around Floodway Dam south of the Highway 18 bridge, and fishing during daylight hours only from nonmotorized boats and boats with electric motors is permitted in the Sand Slough—Mud Slough Area from November 1 through the end of February.

(2) The use of limb lines and toxic chemical containers for jug fishing is not permitted.

(3) The ends of trotlines must consist of a length of cotton line that extends from the points of attachment into the water.

(b) *Felsenthal National Wildlife Refuge.* Fishing, frogging and the taking of turtles are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is not permitted in the waterfowl sanctuary area during the waterfowl hunting season with the exception of the main channel of the Ouachita River and the borrow pits along Highway 82.

(2) The ends of trotlines must consist of a length of cotton line that extends from the points of attachment into the water.

(c) *Holla Bend National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following condition: Fishing is permitted from March 1 through October 31.

(d) *Wapanocca National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from March 15 through September 30 during daylight hours only.

(2) Only boats with motors 10 horsepower or less are permitted on Wapanocca Lake.

(3) The use of live carp, shad, buffalo, and goldfish for bait is not permitted.

(4) The use of yo-yos, jugs, drops, trotlines and all commercial fishing tackle is not permitted.

(e) *White River National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from March 1 through October 31 except as posted and as follows: Fishing is permitted year-round in Jacks Bay, LaGrue Bayou, Moon Lake next to Highway 1, the portion of Indian Bay south of Highway 1, and those borrow ditches located adjacent to the west bank of the portion of the White River Levee north of the Arkansas Power and Light Company powerline right-of-way.

(2) A permit is required for the use of any fishing tackle other than hook and line.

(3) Trotlines must be reset when receding water levels expose them and cannot be left unattended. The ends of trotlines must consist of a length of cotton line that extends from the points of attachment into the water.

(4) Frogging is permitted from the beginning of the State season through October 31. The use of bow and arrow for taking bullfrogs is not permitted.

§ 33.9 California.

(a) *Antioch Dunes National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Vehicle access is limited to designated parking areas and foot access is limited to designated trails and fishing areas.

(2) Fishing is permitted year-round from one hour before sunrise to one hour after sunset.

(b) *Cibola National Wildlife Refuge.* (Refer to regulations for Arizona, Cibola NWR in § 33.7.)

(c) *Colusa National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following condition: Fishing and frogging are permitted from February 1 through October 15.

(d) *Delevan National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following condition: Fishing and frogging are permitted from February 1 through October 15.

(e) *Havasu National Wildlife Refuge.* (Refer to regulations for Arizona, Havasu NWR in § 33.7.)

(f) *Imperial National Wildlife Refuge.* (Refer to regulations for Arizona, Imperial NWR in § 33.7.)

(g) *Modoc National Wildlife Refuge.* Fishing is permitted only on Dorris Reservoir subject to the following condition: Fishing is not permitted during the migratory waterfowl hunting season.

(h) *Sacramento National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following condition:

Fishing and frogging are permitted from February 1 through October 15.

(i) *Salton Sea National Wildlife Refuge.* Fishing is permitted only on that portion of the refuge inundated by the Salton Sea subject to the following condition: Only boat fishing is permitted.

(j) *San Francisco Bay National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing from designated shoreline trail fishing areas and from the Dumbarton and Ravenswood Piers is permitted during the hours posted at the piers and refuge headquarters.

(2) Fishing and all other public entry is not permitted in the entire Mowry Slough from March 15 through June 15.

(3) The upper reaches of Mallard Slough are closed to fishing and all other public entry from March 1 through August 31.

(k) *San Luis National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted only from one-half hour before sunrise to one-half hour after sunset.

(2) The use of boats is not permitted.

§ 33.10 Colorado. [Reserved]

§ 33.11 Connecticut. [Reserved]

§ 33.12 Delaware. [Reserved]

§ 33.13 Florida.

(a) *J. N. "Ding" Darling National Wildlife Refuge.* Fishing and crabbing are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted in refuge waters except in the Mangrove Head Pond, Tower Pond, and Tarpon Bay Slough at the Bailey Tract.

(2) Crabbing is permitted with the use of dip nets only; lines, traps, and bait are not permitted.

(b) *Lake Woodruff National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted during daylight hours only.

(2) The use of snatch hooks is not permitted in refuge impoundments.

(3) The use of airboats is not permitted.

(c) *Loxahatchee National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted during daylight hours on all areas of the refuge except the management impoundments and those areas marked by sign as closed to public entry or to fishing.

(2) Only the use of rods and reels or poles and lines is permitted and this fishing equipment must be attended at all times.

(3) Commercial fishing and the taking of frogs or turtles is not permitted.

(4) The possession or use of trotlines, gigs or other fishing devices not described above is not permitted.

(d) *Merritt Island National Wildlife Refuge.* Fishing, crabbing, clamming, oystering and shrimping are permitted on designated areas of the refuge subject to the following conditions:

(1) A permit is required for night fishing.

(2) The daily limit for the Kennedy Athletic Recreational Site (K.A.R.S.) Marina in the Banana River and the Eddy Creek "trout hole" in Mosquito Lagoon is 20 fish during the period from November 15 through March 31.

(3) Fishing lines must be attended at all times.

(e) *St. Marks National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted only during daylight hours.

(2) The use of boats with motors of 10 horsepower or less is permitted on the St. Marks Unit only from March 15 through October 15.

(f) *St. Vincent National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted only during daylight hours.

(2) Only nonmotorized boats and boats with electric motors are permitted.

(3) The use of live minnows as bait is not permitted.

§ 33.14 Georgia.

(a) *Blackbeard Island National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Freshwater fishing is permitted from March 15 through October 25 from sunrise until one-half hour after sunset.

(2) Only nonmotorized boats and boats with electric motors are permitted.

(3) The use of live minnows as bait is not permitted.

(4) Boats may not be left on the refuge overnight.

(b) *Eufaula National Wildlife Refuge.* (Refer to regulations for Alabama, Eufaula NWR in § 33.5.)

(c) *Okefenokee National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) The use of boats with motors larger than 10 horsepower is not permitted.

(2) The use of live minnows as bait is not permitted.

(3) Only the use of pole and line or rod and reel is permitted.

(d) *Piedmont National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from May 1 through September 30 during daylight hours only.

(2) The creel limit for black bass is five.

(3) Only the use of pole and line or rod and reel is permitted.

(4) The use of live minnows as bait is not permitted.

(5) Nonmotorized boats and boats with electric motors are permitted only in Pond 2A and Allison Lake.

(e) *Savannah National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted on refuge impoundments from March 1 through October 25.

(2) Fishing is permitted from boats into tidal creeks from February 1 through October 25.

(3) Fishing is permitted from sunrise until one-half hour after sunset.

(4) Only nonmotorized boats and boats with electric motors are permitted on impounded waters.

(5) Boats may not be left on the refuge overnight.

§ 33.15 Hawaii. [Reserved]

§ 33.16 Idaho.

(a) *Bear Lake National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Boats are not permitted in fishing areas.

(b) *Deer Flat National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) During the waterfowl hunting season, fishing is permitted only within the area bounded by the water's edge extending to a point 200 yards lakeward in fishing Areas A and B on the Lake Lowell Sector.

(2) Nonmotorized boats are permitted throughout the year except during the waterfowl hunting season when they are restricted to that area within the area bounded by the water's edge extending to a point 200 yards lakeward in fishing

Areas A and B on the Lake Lowell Sector.

(3) Motorized and nonmotorized boats are permitted throughout the year on A-41 pond from March 15 through September 30.

(3) Ice fishing is permitted when ice conditions are safe.

(2) Only cotton limb lines are permitted.

(3) Fishing, crabbing, crayfishing, and

the following conditions: Anglers must

Areas A and B on the Lake Lowell Sector.

(3) Motorized and nonmotorized boats are permitted from one-half hour before sunrise to one-half hour after sunset from April 15 through September 30.

(4) Shoreline fishing is not permitted on the islands of the Snake River Sector from February 1 through May 31.

(c) *Kootenia National Wildlife Refuge.* Fishing is permitted only on Myrtle Creek subject to the following condition: Only bank fishing and nonmotorized boats are permitted.

§ 33.17 Illinois.

(a) *Chautauqua National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) All refuge waters are open to fishing from December 15 through October 15 during daylight hours. From October 16 through December 14 during daylight hours, fishing is permitted in the posted area that extends one-eighth of a mile around the recreation area, along Goofy Ridge Ditch, along the cross dike, and in all waters within the Public Hunting Area.

(2) Bank fishing is permitted only along the cross dike, at the Recreation Area and at Boatyard No. 3, as posted.

(3) The use of boats with motors of 10 horsepower or less is permitted on the waters of Lake Chautauqua.

(4) Private boats must be removed from refuge waters overnight or moored at either Boatyard No. 3 or the Recreation Area.

(b) *Crab Orchard National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Areas I and III are open to fishing year-round. Within these areas, specifically Devils Kitchen Lake and Little Grassy Lake, the use of boats with motors larger than 10 horsepower is not permitted. Floating trotlines and jug fishing are not permitted during daylight hours in the area west of the closed portion boundary line in Crab Orchard Lake (Zone 1) from Memorial Day through Labor Day.

(2) In Area II: Bank fishing is permitted from Wolf Creek Road and Highway 148 causeways during daylight hours; sport and jug fishing are permitted from Wolf Creek Road causeway west to the closed portion boundary line (Crab Orchard Lake Zone 2); sport and jug fishing are permitted from Wolf Creek Road causeway east (Crab Orchard Lake Zone 3) from March 15 through September 30 during daylight hours only; and bank fishing is permitted during daylight hours in the A–41 pond from March 15 through September 30.

(3) The minimum size limit for largemouth black bass taken from Crab Orchard Lake is 14 inches.

(c) *Mark Twain Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted in the Big Timber Division at all times.

(2) Fishing is permitted in the Louisa Division from February 1 until the start of the Iowa waterfowl hunting season with the exception of certain designated areas adjacent to the Port Louisa Road that are open through December 31.

(3) Fishing is permitted in the Upper, Middle and Lower Pools of the Batchtown Division, Calhoun County, Illinois, from December 15 through October 15.

(4) Fishing is permitted in the southern portion of Swan Lake on the Calhoun Division, Calhoun County, Illinois, from December 15 through October 15. Fishing is permitted in the upper section of Swan Lake (man-made ditch at Six Mile Island to the northern refuge boundary) at all times.

(5) Fishing is permitted in the Keithsburg Division from January 1 until the start of the Illinois waterfowl hunting season. Bank fishing at the Spring Slough access is permitted year-round.

(6) Fishing is permitted year-round on the Bear Creek Unit of the Gardner Division. On the remainder of the Gardner Division, fishing is permitted from February 1 through September 30.

(7) The Clarence Cannon and Delair Divisions of the refuge are closed to fishing.

(8) Fishing is permitted in the Gilbert Lake Division from January 1 through October 15 and December 15 through December 31.

(d) *Upper Mississippi River Wild Life and Fish Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions: Fishing on the Spring Lake Close Area, Carroll County, Illinois, is not permitted from October 1 through the last day of the Illinois waterfowl season.

§ 33.18 Indiana.

(a) *Muscatatuck National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted on Stanfield Lake from designated bank areas and from nonmotorized boats from May 15 through October 15 and when ice conditions permit ice fishing.

(2) Only fishing with rod and reel or pole and line is permitted.

(3) Ice fishing is permitted when ice conditions are safe.

(4) The minimum size limit for largemouth black bass taken from refuge waters is 14 inches.

(5) Fishing is permitted during daylight hours only.

§ 33.19 Iowa.

(a) *De Soto National Wildlife Refuge.* Fishing is permitted in De-Soto Lake subject to the following conditions:

(1) Ice fishing is permitted from January 1 through the end of February when conditions are safe.

(2) Motor- or wind-driven conveyances are not permitted on the lake from January 1 through the end of February.

(3) The use of portable ice fishing shelters is permitted on a daily basis from January 1 through the end of February.

(4) Only the use of pole and line or rod and reel is permitted from April 15 through September 30 with the exception that archery and spear fishing are permitted only for nongame fish from April 15 to September 30.

(5) Fishing with more than two lines or with more than two hooks on each line is not permitted.

(6) The use of trotlines and float lines is not permitted.

(7) Digging or seining for bait or taking frogs is not permitted.

(8) Minimum length limits are required as posted.

(b) *Mark Twain National Wildlife Refuge.* (Refer to regulations for Illinois, Mark Twain NWR in § 33.17.)

(c) *Union Slough National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from April 15 through September 30.

(2) The use of boats, canoes or other floating devices is not permitted.

(d) *Upper Mississippi Wild Life and Fish Refuge.* (Refer to regulations for Illinois, Upper Mississippi Wild Life and Fish Refuge in § 33.17.)

§ 33.20 Kansas. [Reserved]

§ 33.21 Kentucky. [Reserved]

§ 33.22 Louisiana.

(a) *Bogue Chitto National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) The ends of trotlines must consist of a length of cotton line that extends from the points of attachment into the water.

(2) Only cotton limb lines are permitted.

(b) *Catahoula National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted in Cowpen Bayou year-round during daylight hours only.

(2) Fishing is permitted in the Duck Lake Impoundment from March 1 through October 31 during daylight hours only.

(3) Only nonmotorized boats and boats with electric motors are permitted in Cowpen Bayou.

(4) Only nonmotorized boats and boats with motors of 10 horsepower or less are permitted in the Duck Lake Impoundment and adjacent waters. Boat launching is permitted from designated boat ramps only.

(5) Only the use of pole and line or rod and reel is permitted.

(c) *D'Arbonne National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) The ends of trotlines must consist of a length of cotton line that extends from the points of attachment into the water.

(2) Only cotton limb lines are permitted.

(d) *Delta National Wildlife Refuge.* Fishing, shrimping and crabbing are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing, shrimping and crabbing are permitted only during daylight hours.

(2) Only shrimping trawls of 16 feet or less are permitted.

(e) *Lacassine National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from March 1 through October 15 during daylight hours only.

(2) Only boats with motors totaling 25 horsepower or less are permitted in Lacassine Pool.

(f) *Sabine National Wildlife Refuge.* Fishing, crabbing, crayfishing, and shrimp cast netting are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing, crabbing and shrimp cast netting are permitted year-round from the bank of the Highway 27 canal road during daylight hours only.

(2) Fishing, crabbing and shrimp cast netting are permitted during daylight hours only in the Grand and Lambert Bayous of East Cove except during the State waterfowl hunting seasons.

(3) Fishing, crabbing, crayfishing, and shrimp cast netting are permitted in refuge waters, only than those noted above, from March 1 through October 15 during daylight hours only.

(4) The crabbing, crayfishing, and shrimp netting creel limit is 96 quarts or 100 pounds of crab, crayfish, and/or shrimp per vehicle. Users must leave the area after they have reached their limit.

(5) Boats with motors totaling 25 horsepower or less are permitted on refuge impoundments. Boating access into open marsh and ponds is restricted to paddling or push-poling the boat. There are no horsepower restrictions for boats using refuge canals, bayous or lakes.

(g) *Upper Ovachita National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) The ends of trotlines must consist of a length of cotton line that extends from the points of attachment into the water.

(2) Only cotton limb lines are permitted.

§ 33.23 Maine.

(a) *Moosehorn National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) The use of nonmotorized boats only is permitted on Bearce, Conic, and Cranberry Lakes.

(2) Fishing is permitted during daylight hours only.

§ 33.24 Maryland.

(a) *Blackwater National Wildlife Refuge.* Fishing and crabbing are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing and crabbing are permitted from April 1 through October 1 during daylight hours only.

(2) All fish and crab lines must be attended.

(3) Boat launching from refuge lands is not permitted.

(4) The use of airboats is not permitted on refuge waters.

§ 33.25 Massachusetts.

(a) *Great Meadows National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted along the Concord River, Sudbury River, Heard Pond, and ponds in the West Bedford Area during daylight hours only.

(2) Only foot access is permitted.

(b) *Monomoy National Wildlife Refuge.* Fishing is permitted in designated areas of the refuge subject to the following conditions: Anglers must be actively fishing between sunset and sunrise.

(c) *Parker River National Wildlife Refuge.* Saltwater fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Saltwater fishing is permitted on the ocean beach only.

(2) A permit is required for night fishing and for the use of over-the-sand surf-fishing vehicles.

§ 33.26 Michigan.

(a) *Seney National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Ice fishing.

(i) Fishing is permitted from January 1 through the end of February during daylight hours only.

(ii) Ice shanties, houses or shelters are not permitted on F Pool.

(iii) Snowmobiles or all-terrain vehicles are not permitted.

(2) Summer fishing.

(i) Fishing is permitted from July 1 through September 30 during daylight hours only.

(ii) Fishing is permitted on the Snow Pools from Memorial Day through September 30.

(iii) Fishing is permitted on the Creighton, Driggs and Manistique Rivers, Walsh Creek west of the Walsh Ditch and the Walsh Ditch south to its entry into the C–3 Pool.

(iv) Only bank fishing is permitted in refuge pools.

(v) Access to the Driggs and Creighton Rivers, Walsh Creek and Walsh Ditch is limited to canoes without motors and to foot traffic along these watercourses.

§ 33.27 Minnesota.

(a) *Big Stone National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing from nonmotorized boats is permitted only on the Minnesota River Channel Canoe Trail as designated by signs.

(2) Bank fishing only is permitted on refuge pools and open marshes.

(3) Ice fishing shelters must be removed from the refuge following each day's fishing activities.

(b) *Minnesota Valley National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Only bank fishing is permitted.

(c) *Rice Lake National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from May 1 through November 30.

Fishing in May Pond and Fox Pond is permitted in accordance with posted

(2) Only bank fishing is permitted in the areas north of Brown Dike and east

(3) Fishing is not permitted within 150 feet of headgates.

(3) Airboats are not permitted.

(b) *Mattamuskeet National Wildlife*

be marked so that they are clearly visible to boaters.

(1) Fishing is permitted from May 1 through November 30.

(2) Fishing from nonmotorized boats is permitted only in designated areas.

(d) *Sherburne National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted on the St. Francis River only.

(2) Nonmotorized boats are permitted only on designated areas of St. Francis River and must be launched from designated access points.

(e) *Tamarac National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted in North Tamarac Lake and Pine Lake during the State fishing season.

(2) Fishing is permitted in Two Island, Wauboose, Lost and Blackbird Lakes from the first day of the State fishing season through Labor Day.

(3) Bank fishing is permitted only in an area 50 yards on either side of the Ottertail River Bridges on County Roads No. 26 and No. 126.

(f) *Upper Mississippi Wild Life and Fish Refuge.* (Refer to regulations for Illinois, Upper Mississippi Wild Life and Fish Refuge in § 33.17.)

§ 33.28 Mississippi.

(a) *Hillside National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted on all refuge waters year-round except for any borrow pond along the Corps of Engineers Hillside flood control levee that is designated as closed by signs.

(2) Frogging is permitted on all refuge waters during the State bullfrog season.

(3) Trotlines are not permitted in borrow ponds.

(4) Commercial fishing is not permitted.

(b) *Noxubee National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing is permitted from March 1 through October 31.

§ 33.29 Missouri

(a) *Mark Twain National Wildlife Refuge.* (Refer to regulations for Illinois, Mark Twain NWR in § 33.17.)

(b) *Mingo National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted during daylight hours year-round in all waters west of Ditch 6 and in all other refuge waters from March 15 through September 30. Fishing in May Pond and Fox Pond is permitted in accordance with posted regulations.

(2) Only nonmotorized boats are permitted.

(3) Nongame fish may be taken for personal use by nets and seines. All nets must be plainly labeled with the name and address of the user. Trammel and gill nets must be attended at all times. (All other nets may be left set and unattended but not for more than 24 hours.) Game fish may not be possessed by persons using nets or seines on the refuge.

(c) *Squaw Creek National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fish, amphibians, reptiles and crustaceans may only be taken with hand-held pole and line or rod and reel.

(d) *Swan Lake National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from March 1 through October 15 during daylight hours only.

(2) Only nonotorized boats are permitted on refuge waters with the exception that the use of motors of 10 horsepower or less is permitted on Silver Lake.

§ 33.30 Montana.

(a) *Red Rock Lakes National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing is permitted from the third week of June through the end of the general State fishing season.

§ 33.31 Nebraska.

(a) *De Soto National Wildlife Refuge.* (Refer to regulations for Iowa, De Soto NWR in § 33.19.)

§ 33.32 Nevada.

(a) *Pahranagat National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted year-round in Upper Pahranagat Lake, North Marsh, Middle Pond, and Lower Lake.

(2) Only nonmotorized boats and boats with electric motors are permitted on Upper Pahranagat Lake, Middle Pond, and Lower Lake year-round.

(3) Boats are not permitted on North Marsh.

(b) *Ruby Lake National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from one hour before sunrise until two hours after sunset.

(2) Only bank fishing is permitted in the areas north of Brown Dike and east of the Collection Ditch with the exception that fishing by wading and from personal flotation devices is permitted in Unit 21 and portions of Unit 10.

(3) Only artificial lures may be used in the Collection Ditch and the associated springs that are open to fishing.

§ 33.33 New Hampshire. [Reserved]

§ 33.34 New Jersey.

(a) *Edwin B. Forsythe National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Saltwater fishing is permitted from the beach on Holgate Peninsula and Little Beach Island with the exception of those areas posted as closed.

(2) Fishing is permitted along the South Dike of the William Vogt Pool from July 20 through September 21 during daylight hours.

(3) South Dike anglers may park at the headquarters and south town parking areas only.

§ 33.35 New Mexico.

(a) *Bitter Lake National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from April 1 through October 15.

(2) Fishing is permitted only in Pools 5, 6, 7, 15, and 16.

(3) Fishing is permitted from one hour before sunrise until one hour after sunset.

(4) The use of boats is not permitted.

(b) *Bosque del Apache National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from the Saturday of Memorial Day weekend through September 30.

(2) Fishing is permitted from one-half hour before sunrise until one-half hour after sunset.

(3) Frogging and the use of trotlines, spears, bows and arrows, boats and other flotation devices are not permitted.

(c) *Maxwell National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from the last Saturday in February through the Sunday nearest October 16.

(2) Boats are permitted only on Lake 13 and Lake 14 and only during the fishing season.

(3) Fishing is not permitted within 150 feet of headgates.

§ 33.36 New York.

(a) *Elizabeth A. Morton National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted only on the beach and in areas not designated as closed.

(2) Fishing is permitted only during daylight hours.

(b) *Iroquois National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted only during daylight hours.

(2) Fishing is permitted from July 15 through September 30 and from December 1 through the end of February with the exception that fishing is permitted at all times in Feeder Canal and Oak Orchard Creek.

(3) Ice fishing is permitted on Ringneck, Schoolhouse and Center Marshes only from December 15 through the last day of February when conditions are safe.

(4) The use of boats or other flotation devices is not permitted with the exception that nonmotorized boats may be used on Oak Orchard Creek from Knowlesville Road to the cable across the creek approximately two miles downstream.

(5) Boats, structures or other equipment must be removed from the refuge after the completion of the day's fishing activities.

(c) *Wertheim National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Shore and boat fishing is permitted on that portion of the Carmans River between Sunrise and Montauk Highways.

(2) Only boat fishing is permitted from Montauk Highway south to the mouth of the Carmans river.

(3) Fishing is permitted only during daylight hours.

(4) Spearfishing and taking of baitfish and frogs is not permitted.

§ 33.37 North Carolina.

(a) *MacKay Island National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted during daylight hours only from March 15 through October 15 with the exception that bank fishing is permitted in Corey's Ditch and the canal adjacent to the Knotts Island Causeway year-round.

(2) All fishing lines must be attended.

(3) Airboats are not permitted.

(b) *Mattamuskeet National Wildlife Refuge.* Fishing and crabbing are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing and crabbing are permitted from March 1 through November 1 from one-half hour before sunrise to one-half hour after sunset.

(2) Bank fishing and crabbing are permitted year-round along the Highway 94 Causeway and in the immediate vicinity of the Lake Landing water control structure, the Outfall Canal water control structure, and Central Canal Bridge.

(3) Herring (alewife) dipping is permitted from the canal banks and water control structures in the immediate vicinity of Waupoppin Canal, Outfall Canal and Lake Landing Canal from March 1 through May 15 from one-half hour before sunrise until 10:00 p.m.

(4) All crabbing equipment must be attended.

(5) Airboats are not permitted.

(c) *Pee Dee National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from April 1 through October 15.

(2) Fishing is permitted only during daylight hours.

(3) Only nonmotorized boats and boats with electric motors are permitted on Arrowhead Lake and Andrews Pond.

(4) Only the use of pole and line or rod and reel is permitted.

(5) The use of live minnows as bait is not permitted.

§ 33.38 North Dakota. [Reserved]

§ 33.39 Ohio. [Reserved]

§ 33.40 Oklahoma.

(a) *Salt Plains National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following conditions:

(1) The northern portion of Great Salt Plains Reservoir is closed.

(2) Fishing is permitted from April 15 through October 15.

(3) The use of firearms for taking frogs is not permitted.

(4) Trotlines must be attended daily and removed when fishing is completed.

(5) Trotlines are not permitted within 500 feet of the shoreline of the Jet Recreation Area.

(6) Posts used to secure or anchor trotlines must reach a minimum of two feet above the water surface and must be marked so that they are clearly visible to boaters.

(7) The use of any metallic posts or stakes to secure or anchor trotlines is not permitted.

(8) Taking any type of bait from refuge lands or waters is not permitted.

(b) *Sequoyah National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing and frogging are not permitted in the posted area located south of Vian Creek to Tuff Ramp and north along the western shore of Sally Jones Lake to the mouth of Horton Slough from January 1 through February 15 and October 1 through December 31.

(2) Fishing and frogging are not permitted in the Sandtown Bottom area from one hour after sunset to 4:00 a.m.

(3) The use of firearms for taking frogs is not permitted.

(c) *Tishomingo National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing and frogging are permitted on all refuge waters from March 1 through September 30 except as noted below in (3).

(2) Bank fishing and frogging are permitted in the immediate area of the refuge headquarters boat launching ramp, Goose Pen Pond, Dick's Pond, Big Sandy Creek, Bell Creek and Rock Creek from October 1 through the last day of February.

(3) All refuge waters are closed to fishing during the special fall deer hunts.

(4) The use of trotlines, juglines, throwlines and other set tackle is permitted only in Cumberland Pool of Lake Texoma and the Washita River from March 1 through September 30, and set tackle must be removed from these waters by October 1.

(5) The use of firearms for taking frogs is not permitted.

(d) *Washita National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing and frogging are permitted from March 15 through October 14 with the exception that the eastern shore of Foss Reservoir from the Lakeview Recreation Area to the Pitts Creek Recreation Area and the eastern bank of Pitts Creek are open to bank fishing and frogging year-round.

(2) Access to fishing and frogging is permitted only from the McClure, Riverside, Owl Cove, Pitts Creek and Lakeview Recreation Areas and by boat from Foss Reservoir.

(3) Boats and other flotation devices are not permitted on refuge waters from October 15 through March 14.

designated areas of the refuge subject to the following condition: Fishing is permitted from March 1 through

(1) Fishing is permitted only during daylight hours in non-state-controlled

(1) Fishing is permitted in refuge pools and reservoirs from March 1 through

(3) The use of trotlines, setlines, bows and arrows, gigs, or spears is not

§ 33.48 Utah. [Reserved]

VOL 50 ISS 141 JL 23 1985 UMI

(3) Boats and other flotation devices are not permitted on refuge waters from October 15 through March 14.

(4) Trotlines must be attended daily and must be removed when fishing is completed.

(5) Taking any type of bait from refuge lands and waters is not permitted.

(6) The use of firearms for taking frogs is not permitted.

(e) *Wichita Mountains Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fish may be taken only with pole and line or rod and reel except that in Elmer Thomas Lake only, nongame fish may be taken with any technique permitted by State regulations.

(2) Taking any type of bait from refuge lands or waters is not permitted.

(3) Taking of frogs and turtles is not permitted.

§ 33.41 Oregon.

(a) *Cold Springs National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from March 1 through September 30.

(2) Bank fishing only is permitted from October 1 through the last day of February.

(3) Only nonmotorized boats and boats with electric motors are permitted.

(b) *Deer Flat National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Shoreline fishing is not permitted on the islands of the Snake River Sector from February 1 through May 31.

(c) *Hart Mountain National Antelope Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing is permitted only in Rock Creek, Guano Creek, and Warner Pond.

(d) *Klamath Forest National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Bank fishing is permitted in the borrow ditches adjacent to the Silver Lake Highway and along the shoreline of Wocus Bay.

(2) The use of boats is not permitted.

(e) *Malheur National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted only during the State trout season.

(2) Boats are not permitted with the exception that nonmotorized boats are permitted on Krumbo Reservoir.

(f) *McKay Creek National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing is permitted from March 1 through September 30.

(g) *Umatilla National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted on refuge impoundments and ponds from May 16 through September 30. Other refuge waters (Columbia River and its backwaters) are open in accordance with State regulations.

(2) Only nonmotorized boats and boats with electric motors are permitted on refuge impoundments and ponds.

(h) *Upper Klamath National Wildife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted in Pelican Bay, Recreation Creek, Crystal Creek, Odessa Creek, Thomas Creek, Pelican Cut and that portion of Upper Klamath Lake located on the east side of the refuge.

(2) Motorized boats shall not exceed 10 miles per hour in any stream, creek or canal and on that portion of Pelican Bay west of a line beginning at designated points on the north shore of Pelican Bay one-fourth mile east of Crystal Creek and extending due south to the opposite shore of the lake.

(i) *William L. Finley National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted on Muddy Creek from the beginning of the State trout season in April through October 31.

(2) The use of boats is not permitted.

§ 33.42 Pennsylvania.

(a) *Erie National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted only during daylight hours.

(2) Boats without motors are permitted 3,000 feet (to the buoyline) above the Pool 9 dike from the second Saturday in June through September 15.

(3) Ice fishing is permitted on Pools K and 9 when conditions are safe.

(4) Only minnows may be taken as bait from refuge lands and waters and a special use permit is required for taking minnows.

(5) A permit is required to take turtles.

(6) The taking of frogs is not permitted.

(b) *Tinicum National Environmental Center.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted only during daylight hours in non-state-controlled areas.

(2) Boats are not permitted.

(3) Bow fishing is not permitted.

(4) A permit is required to take turtles.

(5) The taking of frogs is not permitted.

§ 33.43 Rhode Island. [Reserved]

§ 33.44 South Carolina.

(a) *Cape Romain National Wildife Refuge.* Fishing, crabbing, and shell fishing are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from March 1 through September 30 during daylight hours only.

(2) Only nonmotorized boats and boats with electric motors are permitted.

(3) The use of cast nets from Moores Landing Pier is not permitted.

(b) *Carolina Sandhills National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from March 1 through September 30 with the exception that fishing is permitted year-round in Lake Bee, Lynches River and the Black Creek Bridge Areas on State Road 33, State Road 145, Highway 1 and Wire Road.

(2) Fishing is permitted only during daylight hours.

(3) Only bank fishing is permitted with the exception that nonmotorized boats and boats with electric motors are permitted in Martins Lake, Lake Bee, Lake 16, Lake 17 and May's Lake.

(4) Fish baskets, nets, set hooks and trotlines are not permitted.

(c) *Santee National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted on inland ponds only during daylight hours except as posted.

(2) Fishing is permitted in Cantey Bay, Black Bottom, Savannah Branch and refuge ponds and impoundments from March 1 through September 30.

(d) *Savannah National Wildlife Refuge.* (Refer to regulations for Georgia, Savannah NWR in § 33.14.)

§ 33.45 South Dakota. [Reserved]

§ 33.46 Tennessee.

(a) *Cross Creeks National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted in refuge pools and reservoirs from March 1 through October 31 during daylight hours only.

(2) Boat fishing is permitted at any time on Lake Barkley waters.

(3) Trotlines, limb lines, jugs and slat baskets are not permitted in refuge pools and reservoirs.

(4) Taking of frogs is not permitted.

(5) Boats are restricted to "slow speed/minimum wake" on all refuge pools.

(b) *Hatchie National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted during daylight hours only.

(2) Only nonmotorized boats and boats with electric motors are permitted.

(3) Fishing is permitted only with pole and line or rod and reel.

(c) *Lake Isom National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from March 15 through October 15 during daylight hours only.

(2) Only boats with motors of 10 horsepower or less are permitted.

(d) *Lower Hatchie National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing is permitted with pole and line or rod and reel only.

(e) *Reelfoot National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted on the Long Point Unit (north of Upper Blue Basin) from March 15 through October 15 and on the Grassy Island Unit (south of the Upper Blue Basin) from the day following the closing day of the winter waterfowl hunting season through the day preceding the opening day of the fall waterfowl hunting season.

(2) Fishing is permitted only during daylight hours.

(3) Only boats with motors of 10 horsepower or less are permitted.

§ 33.47 Texas.

(a) *Anahuac National Wildlife Refuge.* Fishing and crabbing are permitted on designated areas of the refuge subject to the following conditions:

(1) Boats and other flotation devices are not permitted on inland waters. Boats may be launched from the refuge into East Bay.

(2) Fishing is permitted only with pole and line, rod and reel or hand-held line.

(3) The use of trotlines, setlines, bows and arrows, gigs, or spears is not permitted in inland waters.

(b) *Aransas National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is permitted from April 15 through October 15 from sunrise to sunset.

(2) Boat launching from refuge lands is not permitted.

(3) Access by foot to bays is permitted only at designated entry points.

(c) *Brazoria National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing in inland waters is permitted only in Nick's Lake, Salt Lake, and Lost Lake.

(d) *Hagerman National Wildlife Refuge.* Fishing and frogging are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing and frogging are permitted from April 1 through September 30.

(2) Frogs may be taken only by dip net, hands, gigs, or hook and line.

(3) Trotlines must be attended daily and removed when fishing is completed.

(4) Fishing is not permitted from bridges and roadways.

(e) *Laguna Atascosa National Wildlife Refuge.* Fishing and crabbing are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing is only permitted by pole and line, rod and reel, or hand-held line. Bait may be taken with cast nets.

(2) Crabs may be taken only with dip net, setline, hand-held line, gig or crab trap.

(f) *McFaddin National Wildlife Refuge.* Fishing and crabbing are permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing in inland waters is permitted only with pole and line, rod and reel, or hand-held line.

(2) The use of trotlines, setlines, bows and arrows, gigs, or spears is not permitted in inland waters.

(g) *San Bernard National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing in inland waters is permitted on the refuge portions of Cowtrap Lake and Cedar Lake only.

(h) *Texas Point National Wildlife Refuge.* Fishing and crabbing are permitted on designated areas of the refuge subject to the following condition: Fishing in inland waters is permitted only with pole and line, rod and reel, or hand-held line.

§ 33.48 Utah. [Reserved]

§ 33.49 Vermont.

(a) *Missisquoi National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following condition: Fishing is permitted only from refuge lands along Lake Champlain and the Missisquoi River.

§ 33.50 Virginia.

(a) *Back Bay National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Fishing access from refuge headquarters is permitted only by foot, bicycle, and hand-launched boat.

(2) Launching trailered boats in the refuge headquarters area is not permitted.

(b) *Chincoteague National Wildlife Refuge.* Fishing, crabbing and clamming are permitted on designated areas of the refuge subject to the following conditions:

(1) Sport fishing, crabbing and clamming are permitted in salt water areas and in that portion of Swan Cove adjacent to Beach Road. All other refuge ponds, impoundments and channels are closed to these activities.

(2) Traps and crab pots must be attended.

(3) A permit is required to remain on the refuge after normal closing hours.

(c) *Great Dismal Swamp National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Boat fishing is permitted in Lake Drummond and in the Feeder Ditch on the east side of the lake during daylight hours only.

(2) Bank fishing is not permitted.

(3) All fishing lines must be attended.

(4) A permit is required for vehicular access to the boat ramp on Interior Ditch Road on the west side of Lake Drummond from April 1 through June 15.

§ 33.51 Washington.

(a) *Columbia National Wildlife Refuge.* Fishing is permitted on designated areas of the refuge subject to the following conditions:

(1) Only nonmotorized boats are permitted on the chain of lakes extending from Soda Lake through Upper Hampton and on Crab Creek and its impoundments.

(2) Motorized boats are permitted on all other refuge waters open to fishing.

(b) *McNary National Wildlife Refuge.* Fishing is permitted on designated areas of the McNary, Hanford Islands and

Strawberry Island Divisions of the refuge subject to the following conditions:

(1) Fishing is permitted only during daylight hours.

(2) Fishing and frogging are only permitted during daylight hours.

(1) Fishing is permitted only in Sprague and Goose Pools including their

BILLING CODE 3410-EN-M

FEDERAL HOME LOAN BANK BOARD

12 CFR Parts 561 and 563

[No. 85-505]

Preferred Stock as Regulatory Net Worth

Date: June 21, 1985.

AGENCY: Federal Home Loan Bank Board.

ACTION: Proposed rule.

SUMMARY: The Federal Home Loan Bank Board ("Board"), as operating head of the Federal Savings and Loan Insurance Corporation ("FSLIC" or "Corporation"), is proposed to revise its regulations concerning the use of non-permanent preferred stock as regulatory net worth. First, the Board is proposing to allow preferred stock that is redeemable to the option of the issuer to be included as regulatory net worth only if the security form of the preferred stock has been approved by the FSLIC prior to issuance of the security and the form of the security states that no redemption may be made if, after giving effect to such redemption, the insured institution would fail to meet its regulatory net-worth requirement. Second, the Board is proposing to allow mandatorily redeemable preferred stock to be included as regulatory net worth only if an application to include such preferred stock has been filed with and approved by the FSLIC. In addition, the proposal would require that mandatorily redeemable preferred stock be subject to an amortization schedule which would reduce the amount of such preferred stock that may be included as regulatory net worth based on the time remaining to require redemption. Finally, the Board is proposing to explicitly prohibit any insured institution from including as regulatory net worth any capital instrument or security issued by the insured institution if such capital instrument or security is owned by a service corporation or other subsidiary controlled by the issuing insured institution.

DATE: Comments must be received by September 17, 1985.

ADDRESS: Director, Information Services Section, Office of the Secretariat, Federal Home Bank Board, 1700 G Street, N.W., Washington, D.C. 20552. Comments will be publicly available at this address.

FOR FURTHER INFORMATION CONTACT: James H. Underwood, Attorney, Corporate and Securities Division, Office of General Counsel, (202) 377-6649, or Francis M. Passarelli, Deputy Director, Office of Examinations and Supervision, (202) 377-6493, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, D.C. 20552.

SUPPLEMENTARY INFORMATION: By Resolution No. 85-292, dated April 18, 1985 (50 FR 20550; May 17, 1985), the Board adopted a final rule concerning the issuance and use of subordinated debt as regulatory net worth. In that rulemaking proceeding, and earlier, in the resolution proposing the revisions to the net-worth and subordinated debt regulations, Resolution No. 84-680, dated November 30, 1984 (49 FR 47498; December 5, 1984), the Board indicated that it did not consider subordinated debt to be the equivalent of permanent capital stock and retained earnings for purposes of satisfying the Board's minimum net-worth requirement since subordinated debt is a non-permanent liability that must be repaid upon maturity. Upon further consideration of the items that are eligible to be included in regulatory net worth, the Board has preliminarily concluded that 12 CFR 561.13 should be further revised to distinguish between permanent preferred stock and non-permanent preferred stock as regulatory net worth.

The current regulation permits permanent preferred stock to be included as regulatory net worth without limitation, which is consistent with the accounting treatment permitted under generally accepted accounting principles ("GAAP"). The Board does not propose to make any changes regarding permanent preferred stock except to clarify in the text of the regulation that treasury shares of permanent preferred stock (and other types of equity securities) will not be includable as net worth, which is consistent with prior interpretations and policy of the Board. Similarly, the proposed revisions would not alter the current regulation's prohibition of the inclusion of preferred stock which is redeemable at the option of the holder as regulatory net worth.

The treatment of preferred stock that is redeemable at the option of the issuer and preferred stock that is required to be redeemed by the issuer would, however, be revised by this proposal.

First, the proposal would specify that the security form of preferred stock that is redeemable at the option of the issuer

The final revision that the Board is proposing to § 561.13 would provide that any capital instrument of security issued

(2) If the Board were to determine that less than fifty-percent ownership

Lists of Subjects in 12 CFR Parts 561 and 563

be included as net worth without limitation if it would otherwise qualify

be obtained either before or after the

VOL 50 ISS 141 JL 23 1985 UMI

First, the proposal would specify that the security form of preferred stock that is redeemable at the option of the issuer must be approved pursuant to 12 CFR 563.1, which requires that the security form be approved by the Corporation prior to its issuance. In addition, the security form would be required to include a statement that no redemption may be made if, after giving effect to such redemption, the issuing insured institution would fail to meet its net-worth requirement under 12 CFR 563.13. The Board believes that the proposed revision to § 561.13 concerning the form of preferred-stock securities that are redeemable at the option of the issuer would ensure that no redemptions are made in violation of § 561.13 and that the investing public is aware of the regulatory restrictions of the redemption of the preferred stock.

The second revision to § 561.13 proposed by the Board would change the net-worth treatment of preferred stock that is required to be redeemed by the issuing insured institution. The Board believes that mandatorily redeemable preferred stock, in terms of the degree of protection if affords the FSLIC, is substantially similiar to other non-permanent capital instruments with a fixed maturity or redemption date. For that reason, the Board is proposing to require the written approval of the Board to include mandatorily redeemable preferred stock as regulatory net worth and to require that such preferred stock be subject to an amortization schedule which reduces the amount of the outstanding preferred stock that can be included as net worth based on the time remaining to required redemption. The Board believes that this proposed revision would appropriately recognize that preferred stock with mandatory redemption features does not provide the FSLIC with the same degree of protection as permanent capital stock, and would ensure that all non-permanent capital instruments with a fixed maturity or redemption date are treated consistently.

The Board is also proposing to adopt a new § 563.7–5 to set forth the criteria for review of applications for approval of mandatorily redeemable preferred stock as regulatory net worth. The provisions of proposed § 563.7–5 are substantially similar to § 563.8–1 and are intended to provide a basis for the Board's review of the financial condition of the issuing institution and the terms and conditions of the mandatorily redeemable preferred stock to ensure that inclusion of the preferred stock as regulatory net worth would result in a decrease in risk to the FSLIC.

The final revision that the Board is proposing to § 561.13 would provide that any capital instrument of security issued by an insured institution that is held by a service corporation or other subsidiary directly or indirectly controlled by an insured institution must be excluded from the issuing insured institution's regulatory net worth in reports filed with the Board. This proposal is intended to formalize the Board's current policy concerning the treatment of capital instruments or securities of an insured institution that qualify as regulatory net worth that are held by a service corporation or other subsidiary that is controlled by the insured institution. The Board notes that under GAAP, insured institutions would be required to report their holdings in majority-owned subsidiaries on a consolidated basis, which would result in any equity securities of the parent institution held by the subsidiary being netted against the parent institution's equity. Under the Board's regulatory reporting procedures however, the parent institution reports its investment in its service corporation by the "equity method of accounting", which could result in an overstatement of an insured institution's net worth if the service corporation or other subsidiary has invested in capital instruments or securities issued by the parent insured institution. It has always been the Board's position that the regulatory reporting procedures utilized by insured institutions should not be employed to overstate an insured institution's regulatory net worth, and the proposed revision would explicitly prohibit such a result by disallowing net-worth treatment for capital securities of the parent held by the subsidiary.

The Board notes that the proposal does not define what percentage of ownership of a service corporation or other subsidiary would constitute control for purposes of determining whether capital instruments or securities held by a service corporation or other subsidiary of the insured institution should be excluded from the insured institution's regulatory net-worth. Further, the proposal would not necessarily prohibit net worth treatment by the parent of capital securities held by other entities such as partnerships or trusts that are controlled by the insured institution. In that regard, the Board is particularly interested in receiving comments on the following issues:

(1) For purposes of this proposal, what percentage of ownership or other tests should be used to determine when an insured institution is in control of a service corporation or other subsidiary?

(2) If the Board were to determine that less than fifty-percent ownership constituted control, should the percentage of a capital instrument or security issued by the insured institution that is excluded from the insured institution's regulatory net worth be based on the insured institution's percentage of ownership of the service corporation or other subsidiary?

(3) Should the proposed prohibition be expanded to include not only service corporations and other subsidiaries but any entity in which the insured institution has an equity investment?

The Board notes that pursuant to this rulemaking proceeding, it could adopt in a final rule new net-worth requirements that would be applied to all non-permanent preferred stock, both prospective and outstanding issuances. The Board, however, does not believe, if it adopted the new restrictions substantially as proposed, that it would be appropriate to impose these restrictions on non-permanent preferred stock which was issued by insured institutions prior to today's action. Thus, the proposed rule would specifically grandfather non-permanent preferred stock which was issued in conformity with § 561.13 prior to the date this proposed rule is published in the **Federal Register**.

Initial Regulatory Flexibility Analysis

Pursuant to Section 3 of the Regulatory Flexibility Act, Pub. L. No. 96–354, 94 Stat. 1164 (1980), the Board is providing the following regulatory flexibility analysis.

1. *Reasons, objectives and legal basis underlying the proposed rule.* These elements are incorporated above in the supplementary information regarding the proposal.

2. *Small entities to which the proposed rule would apply.* The proposed rule would apply to institutions whose accounts are insured by the FSLIC.

3. *Impact of the proposed rule on small institutions.* The proposed rule would restrict the use of non-permanent preferred stock as regulatory net worth by small institutions.

4. *Overlapping or conflicting federal rules.* There are no known federal rules that duplicate, overlap, or conflict with this proposal.

5. *Alternatives to the proposed rules.* There are no alternatives that would be less burdensome that the proposal in addressing the concerns expressed in the supplementary information set forth above.

Lists of Subjects in 12 CFR Parts 561 and 563

Insurance of accounts, Savings and loan associations.

Accordingly, the Board hereby proposes to amend Parts 561 and 563 of Subchapter D, Chapter V of Title 12, Code of Federal Regulations, as set forth below.

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

PART 561—DEFINITIONS

1. The authority citations for 12 CFR Parts 561 and 563 would continue to read:

Authority: Sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1437); secs. 1 and 5, 48 Stat. 128 and 132, as amended (12 U.S.C. 1462 and 1464); sec. 409, 94 Stat. 160, sec. 5A, 47 Stat. 736, as amended (12 U.S.C. 1464); secs. 401, 402, 403, 405, 406, 407, 48 Stat. 1255, 1256, 1257, 1259, 1260, as amended (12 U.S.C. 1724, 1725, 1726, 1729, 1730). Reorg. Plan No. 3 of 1974, 12 FR 4981, 3 CFR, 1943–1948 Comp., p. 1071; sec. 4, 80 Stat. 824, as amended (12 U.S.C. 1425a).

2. Amend § 561.13 by revising paragraph (a); redesignating paragraph (d) as paragraph (f); and adding new paragraphs (d) and (e); as follows:

§ 561.13 Regulatory net worth.

(a) The term "regulatory net worth" means the sum of all reserve accounts (except specific or valuation reserves), retained earnings, permanent common stock, permanent preferred stock, non-permanent preferred stock issued prior to July 23, 1985, mutual capital certificates (issued pusuant to § 563.7–4 of this chapter), securities which constitute permanent equity capital in accordance with generally accepted accounting principles (if approved by the Corporation), appraised equity capital (as defined in § 563.13(c) of this chapter), and any other nonwithdrawable accounts of an insured institution (excluding any treasury shares held by the insured institution): *Provided,* that for any non-permanent instrument qualifying as regulatory net worth under this paragraph, either (1) the remaining period to maturity or required redemption (or time of any required sinking fund or other prepayment or reserve allocation, with respect to the amount of such prepayment or reserve) is not less than one year, or (2) the redemption or prepayment is only at the option of the issuing insured institution and such payments would not cause the insured institution to fail or continue to fail to meet its net-worth requirement under § 563.13 of this chapter; and *Provided further,* that capital stock may be included as net worth without limitation if it would otherwise qualify but for either (i) a provision permitting redemption, in the event of a merger, consolidation, or reorganization approved by the Corporation where the issuing institution is not the survivor, or (ii) a provision permitting a redemption where the funds for redemption are raised by the issuance of permanent stock.

* * * * *

(d) The term "regulatory net worth" also includes:

(1) Preferred stock that is redeemable at the option of the issuer which was issued after July 23, 1985: *Provided,* that the form of the security is approved pursuant to § 563.1 of this subchapter and states that no redemption may be made by the issuing insured institution if, after giving effect to such redemption, the insured institution would fail to meet its net-worth requirement under § 563.13 of this subchapter;

(2) Mandatorily redeemable preferred stock which is issued pursuant to § 563.7–5 of this subchapter, or was issued after July 23, 1985, and was approved in writing by the Corporation for inclusion as net worth: *Provided,* that unless otherwise approved by the Corporation in writing, mandatorily redeemable preferred stock issued after July 23, 1985, may be included as net worth only in accordance with the schedule set forth in paragraph (c)(1) of this section and consistent with the provisions of paragraphs (c) (2) and (3) of this section.

(e) Notwithstanding paragraphs (a), (b), (c), and (d) of this section, the term "regulatory net worth" does not include any capital instrument or security which may be included as regulatory net worth pursuant to any of those paragraphs if such capital instrument or security is held by a service corporation or other subsidiary directly or indirectly controlled by the insured institution, unless such inclusion is specifically approved by the Corporation in writing.

PART 563—OPERATIONS

3. Add new § 563.7–5 to read as follows:

§ 563.7–5 Mandatorily redeemable preferred stock.

(a) *General.* No insured institution shall issue mandatorily redeemable preferred stock pursuant to this section or amend the terms of such preferred stock unless it has obtained written approval of the Corporation. Approval of the issuance under this section, in order to qualify as regulatory net worth under § 561.13 of this subchapter, may be obtained either before or after the preferred stock is issued, but no approval shall be granted unless the issuance of preferred stock and the form and manner of filing of the application are in accordance with the provisions of this section.

(b) *Eligibility requirements.* In determining whether the Corporation will process an application by an insured institution for approval of the issuance of mandatorily redeemable preferred stock pursuant to this section, the Corporation will consider the following factors:

(1) Whether the issuance of such preferred stock by the applicant is authorized by applicable law and regulation and is not inconsistent with any provision of the applicant's charter, constitution, or bylaws;

(2) Whether, in the opinion of the Corporation, the overall policies, condition, and operation of the applicant do not afford a basis for supervisory objection to the application. Bases for supervisory objecton may include the following:

(i) Net worth, without regard to the amount of any mandatorily redeemable preferred stock to be included in net worth, does not meet the requirements of § 563.13;

(ii) Scheduled items exceed 2.5 percent of specified assets;

(iii) Losses have not been offset by specific reserves to the extent required pursuant to § 563.17–2;

(iv) Actual and anticipated income from operations, after distribution of earnings to the holders of savings accounts, payment of dividends on outstanding equity securities and payment of interest on borrowings but before income taxes, is not demonstrably sufficient for payment of dividends and redemption price, discount, and related expenses of the proposed issues; and

(3) Whether the issuance of such securities by the applicant in the transaction and any related transactions will result in a transfer of risk from the Corporation to parties other than insured institutions.

(c) *Application form; supporting information.* An application for approval of the issuance of mandatorily redeemable preferred stock by an insured institution pursuant to this section shall be in the form prescribed by the Corporation. Such application and instructions may be obtained from the Supervisory Agent. Information and exhibits shall be furnished in support of the application in accordance with such instructions, setting forth all of the terms and provisions relating to the proposed

issue and showing that all of the requirements of this section have been or will be met.

(f) *Additional requirements.* The Corporation may impose on the

ACTION: Notice of proposed rulemaking (NPRM).

regulatory, economic, environmental and energy aspects of the proposed rule. All comments submitted will be

assemblies. Mooney Aircraft Corporation has issued the following: (1) Service Bulletin S/B M20–229, dated

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

VOL 50 ISS 141 JL 23 1985 UMI

issue and showing that all of the requirements of this section have been or will be met.

(d) *Requirements as to securities.* Mandatorily redeemable preferred stock issued pursuant to this section shall meet all of the following requirements unless one or more of such requirements, not including paragraph (d)(1)(i) of this section which is not eligible for waiver, are waived by the Corporation.

(1) *Form of certificate.* Each certificate evidencing mandatorily redeemable preferred stock issued by an insured institution pursuant to this section shall:

(i) Bear on its face, in bold-face type, the following legend: "This security is not a savings account or deposit and it is not insured by the Federal Savings and Loan Insurance Corporation";

(ii) Clearly state that the security is unsecured and is not eligible as collateral for any loan by the issuing institution: and

(iii) State or refer to a document stating that no redemption, other than scheduled redemptions, may be made by the issuer if after giving effect to such redemption the institution would fail to meet the net-worth requirements of § 563.13;

(2) *Limitation as to term.* No mandatorily redeemable preferred stock issued by an insured institution pursuant to this section shall have an original period to required redemption of less than seven years. During the first six years that such a security is outstanding, the total of all required purchase-fund payments, required reserve allocations and required redemptions with respect to the portion of such six years as have elapsed shall at no time exceed the original redemption price thereof multiplied by a fraction the numerator of which is the number of years which have elapsed since the issuance of the security and the denominator of which is the number of years covered by the original period to required redemption.

(e) *Filing of application.* The application for approval of the issuance of mandatorily redeemable preferred stock under this section shall be filed with the Corporation by transmitting the original and two copies of the application and all supporting documents to the Supervisory Agent. As used in this section, the term "Supervisory Agent" means the President of the Federal Home Loan Bank of the district in which the applicant is located or any other officer or employee of such Bank designated by the Board as agent of the Corporation, as provided by § 501.10 or § 501.11 of this chapter.

(f) *Additional requirements.* The Corporation may impose on the applicant such requirements or conditions with regard to the securities or the offering or issuance thereof as it may deem necessary or desirable for the protection of purchasers, the applicant, or the Corporation.

(g) *Limitation on offering period.* Following the date of approval of the application by the Corporation, the institution shall have an offering period of not more than one year in which to complete the sale of the mandatorily redeemable preferred stock issued pursuant to this section. The Corporation may in its discretion extend such offering period if a written request showing good cause for such extension is filed with it not later than 30 days before the expiration of such offering period or any previous extension thereof.

(h) *Reports.* Within 30 days after completion of the sale of the mandatorily redeemable preferred stock issued pursuant to prior approval under this section, the institution shall transmit a written report to the Supervisory Agent stating the number of purchasers, the total dollar amount of securities sold, and the amount of net proceeds received by the institution.

(i) *Delegations.* The Director of the Office of Examinations and Supervision with the concurrence of the General Counsel or their designees, are authorized to approve any mandatorily redeemable preferred stock applications filed pursuant to this section if they are in compliance with regulatory requirements, unless they are of the opinion that the application involves policy considerations which warrant formal consideration by the Corporation.

By the Federal Home Loan Bank Board.

Jeff Sconyers,

Secretary.

[FR Doc. 85-17226 Filed 7-22-85; 8:45 am]

BILLING CODE 6720-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 85-CE-25-AD]

Airworthiness Directives; Mooney Aircraft Corporation Models M20B, M20C, M20D, M20E, M20F, M20G, M20J, M20K and M22 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This Notice proposes to adopt a new Airworthiness Directive (AD), applicable to Mooney Aircraft Corporation Models M20B, M20C, M20D, M20E, M20F, M20G, M20J, M20K and M22 airplanes. This AD would require inspection of fuel tanks and fuel filler cap assemblies and establish periodic inspection of the filler cap assemblies. Water can be trapped in the fuel bays due to improper fuel tank sealant application and the fuel filler cap assemblies can have improper sealing characteristics allowing water leakage into the wing fuel tanks. These inspections and modification of the tanks will preclude fuel contamination which could be detrimental to satisfactory engine operation.

DATES: Comments must be received on or before August 26, 1985.

ADDRESSES: Mooney Aircraft Corporation Service Bulletins (S/Bs) M20-229 and M20-230 both dated April 10, 1985, applicable to this AD may be obtained from Mooney Aircraft Corporation, Post Office Box 72, Kerrville, Texas 78028-0072, or the Rules Docket at the address below. Send comments on the proposal in duplicate to Federal Aviation Administration, Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 85-CE-25-AD, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106. Comments may be inspected at this location between 8 a.m. and 4 p.m., Monday through Friday, holidays excepted.

FOR FURTHER INFORMATION CONTACT: Mr. Billy R. Parker, Airplane Certification Branch, ASW-150, Federal Aviation Administration, Post Office Box 1689, Forth Worth, Texas; Telephone (817) 877-2449.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Director before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. Comments are specifically invited on the overall regulatory, economic, environmental and energy aspects of the proposed rule. All comments submitted will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons. A report summarizing each FAA public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Availability of NPRMs

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Central Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket No. 85-CE-25-AD, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

Discussion

The FAA has received reports on certain Mooney Model M20 and M22 airplanes which indicate that deterioration of fuel tank filler cap seals (O-rings) has allowed leakage of water into the wing fuel tanks and that improper fuel tank sealant application can result in water being entrapped between wing fuel bay ribs. There have been a number of accidents and incidents in which water in the fuel was determined to be a causal factor. Prior to an FAA audit conducted last year, the manufacturer did not have detailed tank sealing requirements for production airplanes which identified critical rib drain holes within the fuel tanks that must be open after tank sealing, nor were there any manufacturer's service instruction available for resealing of fuel tanks after field modifications. The combination of water entering the wing fuel tanks through fuel filler ports and the entrapment of such water and/or other contaminants in the fuel tanks could result in engine fuel supply contamination when airplanes are maneuvered in certain ways. The applicable service or maintenance manuals do not require inspection of fuel tank sealing applications or fuel filler cap assemblies nor had any service bulletins been issued regarding required inspections of the subject fuel tanks and fuel filler caps.

The National Transportation Safety Board (NTSB) has recommended to the FAA that an AD be issued to: (1) Inspect fuel tank filler cap assemblies for deterioration of sealing components to assure proper sealing and (2) require necessary action to eliminate the potential for water entrapment in the fuel tanks. In addition, the NTSB recommended that the manufacturer be required to generate a service bulletin concerning the inspection and maintenance of the fuel tank filler cap assemblies. Mooney Aircraft Corporation has issued the following: (1) Service Bulletin S/B M20-229, dated April 10, 1985, describing inspection and maintenance procedures which will restore and ensure continued sealing capability of the fuel tank filler cap assemblies, and (2) Service Bulletin S/B M20-230, dated April 10, 1985, requiring the inspection of fuel tank sealing application to ensure all required wing rib fuel drain holes are open to prevent water entrapment.

The FAA has examined the available information relating to the issuance of the NTSB safety recommendation and the aforementioned service bulletins and agrees that rulemaking action is appropriate. Since the condition described is likely to exist or develop in other airplanes of the same design, the AD would require initial and repetitive inspections of the fuel tank filler cap assemblies and a one-time inspection of the fuel tank sealant application on certain Mooney Model M20 and M22 series airplanes. The FAA has determined there are approximately 7800 airplanes affected by the proposed AD. The cost of compliance with the proposed AD is estimated to be $328 per airplane. The total cost is estimated to be $2,558,400 to the private sector. The cost is so small that compliance with the proposal will not have a significant financial impact on any small entities owning affected airplanes.

Therefore, I certify that this action: (1) Is not a major rule under the provisions of Executive Order 12291, (2) is not a significant rule under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and (3) if promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation has been prepared for this action and has been placed in the public docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **"ADDRESSES"**.

List of Subjects in 14 CFR Part 39

Air transportation, Aviation safety, Aircraft, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend Section 39.13 of Part 39 of the FAR as follows:

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised, Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

2. By adding the following new AD:

Mooney Aircraft Corporation: Applies to Models M20B, M20C, M20D, M20E, M20F, M20G, M20J, M20K and M22 (all Serial Numbers (S/N)) airplanes certificated in any category.

Compliance: Required as indicated, after the effective date of this AD, unless already accomplished.

To preclude fuel contamination and water entrapment in the fuel tanks accomplish the following:

(a) For Models M20B, M20C, M20D, M20E, M20F, M20G (all S/N), M20J (S/N 24-001 through 24-1498), M20K (S/N 25-0001 through 25-0854) and M22 (all S/N) airplanes, within the next 100 hours time-in-service (TIS) after the effective date of this AD, visually inspect all fuel tank bays and rib stations in accordance with the instructions contained in Mooney S/B M20-230, dated April 10, 1985. Repair all discrepancies found prior to further flight.

(b) For Models M20C (S/N 2823 through 20-1258), M20D (S/N 201 through 280), M20E, M20F, M20G, M20J, M20K and M22 (all serial numbers) airplanes, within the next 100 hours TIS after the effective date of this AD, and each 100 hours TIS thereafter, visually inspect the fuel tank filler cap assemblies in accordance with the instructions contained in Mooney S/B M20-229, dated April 10, 1985. Repair all discrepancies found prior to further flight.

(c) For Models M20J (S/N 24-1499 and on) and M20K (S/N 25-0855 and on) airplanes that have had any fuel tank resealed after initial installation at the factory, within the next 100 hours TIS after the effective date of this AD visually inspect all fuel tank bays and rib stations in accordance with the instructions contained in Mooney S/B M20-230 dated April 10, 1985. Repair all discrepanices found prior to further flight.

(d) Airplanes may be flown in accordance with FAR 21.197 to a location where this AD may be accomplished.

(e) The intervals between the repetitive inspections required by Paragraph (b) of this AD may be adjusted up to 10 percent of the specified interval to allow accomplishing these inspections concurrent with other scheduled maintenance on the airplane.

(f) An equivalent method of compliance with this AD, if used, must be approved by the Manager, Airplane Certification Branch, ASW-150, Federal Aviation Administration, Southwest Region, Post Office Box 1689, Fort Worth, Texas 76101.

All persons affected by this directive may obtain copies of the documents referred to herein upon request to Mooney Aircraft Corporation, Post Office Box 72, Kerrville, Texas 78028-0072 or FAA, Office of Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

Issued in Kansas City, Missouri, on July 11, 1985.

Edwin S. Harris,

BILLING CODE 4810-13-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 31

[LR-162-84]

Employee Tip Reporting and Substantiation Requirements; Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In the Rules and Regulations portion of this issue of the **Federal Register**, the Internal Revenue Service is issuing temporary employment tax regulations relating to the reporting and substantiation requirements applicable to tipped employees. The text of the temporary regulations serve as the comment document for this notice of proposed rulemaking.

DATES:

Proposed Effective Date

The proposed amendments with respect to a lower allocation-of-tips percentage would be effective on and after July 18, 1984. The provisions relating to the definition of a large food or beverage establishment would apply to taxable years beginning after December 31, 1982, and would be effective after December 31, 1982. The substantiation requirements would generally apply to tips received on or after October 1, 1985, and would be effective after September 30, 1985.

Dates for Comments and Requests for a Public Hearing

Written comments and requests for a public hearing must be delivered or mailed by September 23, 1985.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-162-84) Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Gail H. Morse of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Ave., NW., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3297, not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

The Temporary regulations in the Rules and Regulations portion of this issue of the **Federal Register** amend the Employment Tax Regulations (26 CFR Part 31) under section 6053.

For the text of the temporary regulations see T.D. published in the Rules and Regulations portion of this issue of the **Federal Register**. The preamble to the temporary regulations explains the addition to the regulations.

Regulatory Flexibility Act and Executive Order 12291

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although this document is a notice of proposed rulemaking that solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

Comments and Requests for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written requests to the commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the **Federal Register**. The collection of information requirements contained herein have been submitted for OMB review under the Paperwork Reduction Act, and comments on them should be sent to the Office of Information and Regulatory Affairs of OMB, Attn: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests persons submitting comments to OMB to also send copies of the comments to the Service.

Drafting Information

The principal author of these proposed regulations is Gail H. Morse of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

BILLING CODE 4830-01-M

VETERANS ADMINISTRATION

38 CFR Part 17

Medical Services

AGENCY: Veterans Administration.

ACTION: Proposed regulations.

SUMMARY: The Veterans Administration is amending its medical regulations, (38 CFR Part 17) to more clearly reflect the specific action that the Department of Medicine and Surgery will take when a patient breaks a medical appointment, and to more accurately define the eligibility requirements for claims filed for VA payment of unauthorized medical services. The costs allowed for unauthorized repairs to certain prosthetic items are increased also. The amendments will more clearly define the prerequisite for the benefits.

DATES: Comments must be received on or before August 22, 1985. It is proposed to make this amendment effective 30 days after publication of final regulations.

ADDRESSES: Interested persons are invited to submit written comments, suggestions, or objections regarding this proposed regulation to: Administrator of Veterans Affairs (271A), 810 Vermont Avenue, NW., Washington, D.C. 20420. All written comments received will be available for public inspection only in the Veterans Services Unit, room 132, of the above address, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday (except holidays) until September 6, 1985.

FOR FURTHER INFORMATION CONTACT: Joseph F. Fleckenstein, (202) 389-3785.

SUPPLEMENTARY INFORMATION: Section 628 of Title 38 United States Code authorizes the Administrator, subject to regulations the Administrator shall prescribe, to reimburse veterans for certain medical expenses. The proposed amendments to 38 CFR Part 17 more precisely define the prerequisites for this benefit, and will increase the costs allowed for the repair of certain prosthetic items. In addition, editorial changes are made to more clearly define action to be taken by the Veterans Administration when appointments are broken by persons under medical treatment.

The Administrator has determined that this amendment to VA regulations is considered nonmajor under the criteria of Executive Order 12291 on Federal Regulation. It will not have an annual effect on the economy of $100 million or more; it will not result in major increases in costs for consumers, individual industries, Federal, State or local government agencies, or geographic regions, nor will it have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. The Administrator of Veterans Affairs certifies that this amendment will not have a significant economic impact on a substantial number of small entities as they are defined in the RFA (Regulatory Flexibility Act), 5 U.S.C. 601-612. Pursuant to 5 U.S.C. 605(b), these regulations are exempt from the initial and final regulatory flexibility analyses requirements of sections 603-604. The reason for this certification is that this change will regulate only the eligibility of individuals to these benefits.

(The catalog of Federal Domestic Assistance Program numbers are: 64.009, 64.011 and 64.013)

List of Subjects in 38 CFR Part 17

Alcoholism, Claims, Dental health, Drug abuse, Foreign relations, Government contracts, Grants programs—health, Health care, Health facilities, Health professions, Medical devices, Medical research, Mental health programs, Nursing homes, Philippines, Veterans.

Approved: June 18, 1985.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

PART 17—[AMENDED]

38 CFR Part 17, MEDICAL, is amended as follows:

1. Section 17.61 and the heading preceding the title of the section are revised to read as follows:

Breaking Appointments

§ 17.61 Refusal of treatment by unnecessarily breaking appointments.

A patient under medical treatment who breaks an appointment without a reasonable excuse will be informed that breaking an additional appointment will be deemed to be a refusal to accept VA treatment. If such a patient fails to keep a second appointment, without at least 24 hours notice, such action will be deemed as a refusal to accept VA treatment. Thereafter, no further treatment will be furnished until a new application is filed, and the veteran has agreed to cooperate by keeping appointments. Treatment will not be discontinued until the treating physician has reviewed the treatment files, concurred in the action and signed a statement to this effect in the record. Consideration will be given to the veteran's ability to make a rational decision concerning the need for medical care and/or examination. The veteran will be advised of the final decision. Nothing in this section will be construed to prevent treatment for an emergent condition that may arise during or subsequent to this action. Where an appointment is broken without notice and satisfactory reasons are advanced for breaking the appointment and circumstances were such that notice could not be given, the patient will not be deemed to have refused treatment.

(38 U.S.C. 4115)

2. In § 17.80, paragraphs (a) and (c) are revised to read as follows:

§ 17.80 Payment or reimbursement of the expenses of hospital care and other medical services not previously authorized.

* * * * *

(a) *For veterans with service-connected disabilities.* Care or services not previoualy authorized were rendered to a veteran in need of such care or services: (1) For an adjudicated service-connected disability; (2) for nonservice-connected disabilities associated with and held to be aggravating an adjudicated service-conneced disability; (3) for *any disability* of a veteran who has a total disability permanent in nature resulting from a service-connected disability (does not apply outside of the States, Territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico); (4) for any illness, injury or dental condition in the case of a veteran who is participating in a rehabilitation program under 38 U.S.C. Ch. 31 and who is medically determined to be in need of hospital care or medical services for any of the reasons enumerated in § 17.48(g). (38 U.S.C. 624, 628); and

* * * * *

(c) *When Federal facilities are unavailable.* VA or other Federal facilities were not feasibly available, and an attempt to use them beforehand or obtain prior VA authorization for the services required would not have been reasonable, sound, wise, or practicable, or treatment had been or would have been refused.

(38 U.S.C. 624, 628, 4115)

3. In § 17.81, the introductory paragraph and paragraph (b) are revised to read as follows:

§ 17.81 Payment or reimbursement of the expenses of repairs to prosthetic appliances and similar devices furnished without prior authorization.

The expenses of repairs to prosthetic appliances, or similar appliances, therapeutic or rehabilitative aids or devices, furnished without prior authorization, but incurred in the care of an adjudicated service-connected disability (or, in the case of a veteran who is participating in a rehabilitation program under 38 U.S.C. Ch. 31 and who is determined to be in need of the repairs for any of the reasons enumerated in § 17.48(g)) may be paid or reimbursed on the basis of a timely filed claim, if

(38 U.S.C. 628)

* * * * *

(b) The costs were reasonable, except that where it is determined the costs were excessive or unreasonable, the claim may be allowed to the extent the costs were deemed reasonable and disallowed as to the remainder. In no circumstances will any claim for repairs be allowed to the extent the costs exceed $125.

(38 U.S.C. 628, 4115)

4. In § 17.84, paragraphs (a) and (d) are revised to read as follows:

§ 17.84 Where to file claims. * * *

(a) *For services rendered in the U.S.* Claims for the expenses of care or services rendered in the United States, including the Territories or possessions of the United States, should be filed with the Chief, Outpatient Service or Clinic Director of the VA facility designated as a clinic of jurisdiction which serves the region in which the care or services were rendered, and (38 U.S.C. 4115)

* * * * *

(d) *For services rendered in other foreign countries.* Claims for the expenses of care or services rendered in other foreign countries may be filed with the American Embassy or consulate in the country where services were provided. Claims will be developed and forwarded to the VA Medical Center, Washington, D.C., for final action. Claims may be submitted directly to the VA Medical Center, Washington, D.C., if

VOL 50 ISS 141 JL 23 1985 UMI

the veteran has returned to the United States before having had a chance to contact the appropriate Embassy or Consulate.

(38 U.S.C. 4115)

* * * * *

5. In § 17.85, paragraph (c) is removed and paragraph (b) is revised to read as follows:

§ 17.85 Timely filing.

* * * * *

(b) In the case of care or services rendered prior to a VA adjudication allowing service-connection:

(1) The claim must be filed within 2 years of the date the veteran was notified by the VA of the allowance of the award of service-connection.

(2) VA payment may be made for care related to the service-connected disability received only within a 2-year period prior to the date the veteran filed the original or reopened claim which resulted in the award of service-connection but never prior to the effective date of the award of service-connection within that 2-year period.

(3) VA payment will never be made for any care received beyond this 2-year period whether service connected or not.

(c) [Removed]

(38 U.S.C. 4115)

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 260, 262, 264, 265, and 270

[WH-FRL-2868-7]

Hazardous Waste Management System; Standards for Hazardous Waste Storage and Treatment Tank Systems

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule: correction.

SUMMARY: The Environmental Protection Agency (EPA) is today announcing a correction in the preamble of the proposed rule for hazardous waste storage and treatment tanks, that appeared in the Federal Register of Wednesday, June 26, 1985, [50 FR 26444–26504]. This action is necessary in order to correct a typographical error of the date terminating the public comment period.

FOR FURTHER INFORMATION CONTACT: The RCRA/Superfund Hotline at (800) 424-9346 (toll free) or (202) 382-3000 in Washington, DC, or William J. Kline, Office of Solid Waste (WH-565A), U.S. Environmental Protection Agency, Washington, DC 20460, (202) 382-7917.

SUPPLEMENTARY INFORMATION: In the Federal Register of Wednesday, June 26, 1985, on page 26493, column two, first full paragraph, "September 24, 1985" is corrected to read "August 26, 1985."

Dated: July 16, 1985.

Jack W. McGraw,

Acting Assistant Administrator.

[FR Doc. 85-17412 Filed 7-22-85; 8:45 am]

BILLING CODE 6560-50-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, Federal Emergency Management Agency.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations and proposed modified base flood elevations listed below for selected locations in the nation. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: John L. Matticks, Acting Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2767.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the proposed determinations of base (100-year) flood elevations and modified base flood elevations for selected locations in the nation, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 44 CFR 67.4(a).

These elevations, together with the flood plain management measures required by § 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

Pursuant to the provisions of 5 USC 605(b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that the proposed flood elevation determinations, if promulgated, will not have a significant economic impact on a substantial number of small entities. A flood elevation determination under Section 1363 forms the basis for new local ordinances, which, if adopted by a local community, will govern future construction within the flood plain area. The elevation determinations, however, impose no restriction unless and until the local community voluntarily adopts flood plain ordinances in accord with these elevations. Even if ordinances are adopted in compliance with Federal standards, the elevations prescribe how high to build in the flood plain and do not proscribe development. Thus, this action only forms the basis for future local actions. It imposes no new requirement; of itself it has no economic impact.

BILLING CODE 6718-03-M

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 571

[Docket No. 70-27; Notice 28 and Docket 83-07; Notice 3]

Federal Motor Vehicle Safety Standards

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Proposed rule, reopening of period for public comment.

SUMMARY: This notice grants four requests for extension of the period to submit written comments on an agency notice on brake burnish. The period for comment is exended by 135 days.

DATES: Comments on Docket No. 70-72; Notice 27 and Docket No. 83-07; Notice 2 must be received by November 19, 1985.

ADDRESS: Comments should refer to the docket and notice numbers and be submitted to: Docket Section, Room 5109, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590. (Docket Room hours 8 a.m.-4 p.m.)

FOR FURTHER INFORMATION CONTACT: Mr. Stephen Kratzke, Office of Chief Counsel, Room 5219, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590. Telephone (202) 426-2992

SUPPLEMENTARY INFORMATION: On May 23, 1985 (50 FR 21313), NHTSA issued a supplemental notice of proposed rulemaking (SNPRM) seeking comments on a proposal to amend the agency's braking standards by modifying the brake burnish procedures. Comments were requested by July 8, 1985. General Motors, International Harvester, Motor Vehicle Manufacturers Association and PACCAR have timely requested an extension of the period to comment on the SNPRM.

GM said that the current 45 day comment period is not sufficient to allow it to evaluate the effect of the alternative procedures on the multitude of brake systems it uses. GM said that it plans to test several vehicle configurations to determine the effects of the proposed changes. It noted that its testing resources are also being committed to testing related to the agency's recent proposal on truck/tractor air brake timing compatability. GM requested the agency to allow for a total of 180 days to comment on the notice. The other petitioners offered similar reasons for an extension of the comment period, but they requested an extension to May 14, 1986.

The Agency recognizes that additional manufacturing testing would assist the agency in determining which of the proposed alternatives should be adopted in the final rule. At the same time, the agency believes that the testing can be accomplished in less time than sought by three of the petitioners. The agency has decided to grant GM's request and is therefore reopening the comment period for this notice to provide a total of 180 days to comment, starting from the date of the May notice.

(15 U.S.C. 1392, 1407; delegations of authority at 49 CFR 1.50 nd 501.8)

Issued on July 17, 1985.

Barry Felrice,

Associate Administrator for Rulemaking.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

Oglethorpe Power Corp.; Finding of No Significant Impact

AGENCY: Rural Electrification Administration.

ACTION: Notice of Finding of No Significant Impact.

SUMMARY: Notice is hereby given that the Rural Electrification Administration (REA), pursuant to the National Environmental Policy Act of 1969, the Council on Environmental Quality Regulations (40 CFR Part 1500) and REA's Environmental Policies and Procedures (7 CFR Part 1794), has made a Finding of No Significant Impact with respect to a proposed project by Oglethorpe Power Corporation (OPC). The project consists of construction of a 230 kV transmission line from Alpharetta, Georgia, in Fulton County to Woodstock, Georgia, in Cherokee County, modifications to the Alpharetta Substation and acquisition of and modifications to the Woodstock Substation.

FOR FURTHER INFORMATION CONTACT: REA's Finding of No Significant Impact and Environmental Assessment (EA) and OPC's Borrower's Environmental Report (BER) may be reviewed in the Office of the Chief, Distribution and Transmission Engineering Branch, Southeast Area—Electric, Room 0262, South Agriculture Building, REA, Washington, D.C. 20250, telephone (202) 382–8436, or at the Office of OPC (Mr. F. F. Stacy, Jr., Manager), 2100 East Exchange Place, Tucker, Georgia 30085–1349, telephone (404) 496–7600.

SUPPLEMENTARY INFORMATION: REA has reviewed OPC's BER and has determined that it represents an accurate assessment of the environmental impacts of the proposed project. The proposed project will consist of approximately 22 kilometers (14 miles) of 230 kV line, acquisition of the Woodstock Substation and modification of the Woodstock and Alpharetta substations to accommodate this line. REA determined that the proposed project is not likely to affect any threatened or endangered species or critical habitat; it will have no effect on any property listed or eligible for listing in the National Register of Historic Places; it will not occur in wetland; will have no effect upon any river section in the Nationwide Inventory of Wild and Scenic Rivers; will not occur in a coastal barrier and will not directly affect the coastal zone.

The proposed substation expansion will not occur in a floodplain, or on any prime farmland or forestland.

The proposed transmission line will cross approximately 2,955 meters (9,700 feet) of floodplain. There is no practicable alternative to locating in a floodplain and all practicable means to minimize harm will be taken. Some of the floodplains can be spanned completely. Others will have some poles placed in floodplains, but most of the floodplain in the right-of-way will be spanned. Since the proposed line will be single pole construction, no adverse effects to the floodplain are anticipated.

The proposed transmission line will cross approximately 5,544 meters (12,200 feet) of prime farmland and 14,081 meters (46,200 feet) of prime forestland. Much of the prime farmland can be spanned and can remain in production, but the forestland in the right-of-way will be taken out of production for the life of the project. The proposed project will convert prime forestland and a small amount of prime farmland to other uses, but there is a demonstrated significant need for and no practicable alternative to the proposed action.

Alternatives to an aerial 230 kV transmission line were considered, such as no action, direct current, load management and energy conservation, and underground transmission. Alternative connection plans to supply power to Woodstock and alternative routes from Alpharetta to Woodstock were considered also.

Based upon OPC's BER and supporting documents, REA prepared an EA concerning the proposed project and its impacts. In accordance with REA's 7 CFR Part 1794, OPC advertised and requested comments on the environmental aspects of the proposed project. REA held two public meetings in Alpharetta, Georgia, to obtain comments on this project. Numerous oral and written comments were received. The written comments are an appendix to the EA and all environmental concerns are addressed in the EA or BER. It is believed that the environmental concerns raised in comments can be avoided or minimized by careful project design, construction and mitigation. REA concluded that approval of financing assistance for the project would not constitute a major Federal action significantly affecting the quality of the human environment.

An environmental impact statement is not necessary. This program is listed in the Catalog of Federal Domestic Assistance as 18.850–Rural Electrification Loans and Loan Guarantees.

Dated: July 17, 1985.

Harold V. Hunter,

Administrator.

BILLING CODE 3412–15–M

DEPARTMENT OF COMMERCE

International Trade Administration

Cornell University; Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897; 15 CFR Part 301). Related records can be viewed between 8:30 a.m. and 5:00 p.m. in Room 1523, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C.

Docket No. 84–095. Applicant: Cornell University, Ithaca, NY 14853. Instrument: Viscoelastometer, Model DDV–II–C. Manufacturer: Toyo Baldwin Co., Japan. Intended use: See notice at 50 FR 9475.

Comments: None received.

Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument is capable of measuring forces at least one order of magnitude lower than comparable domestic instruments for research on high modulus fibers and thin polymer films. The National Bureau of Standards advises in its memorandum dated May 15, 1985 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Stanford Linear Accelerator Center; Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897; 15 CFR Part 301). Related records can be viewed between 8:30 am and 5:00 pm in Room 1523, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C.

Docket No. 85–146. Applicant: Stanford Linear Accelerator Center, Stanford, CA 94305. Instrument: Streak Camera, Model IMACON 500 with Accessories. Manufacturer: Hadland Photonics, Ltd., United Kingdom. Intended use: See notice at 50 FR 19430.

Comments: None received.

Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument provides a resolving power of 2 picoseconds for the detection of ultra-fast occurring events. The capability of the foreign instrument described above is pertinent to the applicant's intended purpose. We know of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use. We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Carbon Steel Plate From Brazil; Intention to Review and Preliminary Results of Changed Circumstances Administrative Review and Tentative Determination To Terminate Suspended Countervailing Duty Investigation

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of Intention to Review and Preliminary Results of Changed Circumstances Administrative Review and Tentative Determination to Terminate Suspended Countervailing Duty Investigation.

SUMMARY: The Department of Commerce has received information which shows changed circumstances sufficient to warrant an administrative review, under section 751(b)(1) of the Tariff Act, of the countervailing duty case on carbon steel plate from Brazil. The review covers the period from September 7, 1982. The petitioner and the other domestic interested parties to this proceeding have notified the Department that they are no longer interested in the countervailing duty case. These affirmative statements of no interest provide a reasonable basis for the Department to terminate the suspended investigation. Therefore, we intend to terminate the suspended investigation. The termination will apply to all carbon steel plate entered, or withdrawn from warehouse, for consumption on or after September 7, 1982. Interested parties are invited to comment on these preliminary results and tentative determination to terminate.

EFFECTIVE DATE: September 7, 1982.

FOR FURTHER INFORMATION CONTACT: Peggy Clarke or Al Jemmott, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 377-2786.

SUPPLEMENTARY INFORMATION:

Background

On September 7, 1982, the Department of Commerce ("the Department") published in the **Federal Register** (47 FR 39394) a notice of suspension of countervailing duty investigation on carbon steel plate from Brazil.

In a letter dated May 1, 1985, United States Steel Corporation, the petitioner in this proceeding, informed the Department that it was no longer interested in the case and stated its support of termination of the suspended investigation. The Department received similar letters from the other domestic interested parties to the proceeding, Bethlehem Steel Corporation, Republic Steel Corporation, Inland Steel Corporation, Jones & Laughlin Corporation, National Steel Corporation, and Cyclops Steel Corporation. Under section 751 of the Tariff Act of 1930 ("the Tariff Act"), the Department may terminate a suspended countervailing duty investigation that is no longer of interest to domestic interested parties.

Scope of the Review

Imports covered by the review are shipments of Brazilian carbon steel plate. The term "carbon steel plate" covers hot-rolled carbon steel products, whether or not corrugated or crimped; not pickled; not cold-rolled; not in coils; not cut, not pressed, and not stamped to non-rectangular shapes; 0.1875 inch or more in thickness and over 8 inches in width; as currently provided for in items 607.6615 and 607.9400 of the Tariff Schedules of the United States Annotated ("TSUSA"); and hot- or cold-rolled carbon steel plate which has been coated or plated with zinc including any material which has been painted or otherwise covered after having been coated or plated with zinc, as currently provided for in items 608.0710 or 608.1100 of the TSUSA. Semi-finished products of solid rectangular cross section with a width at least four times the thickness in the as cast condition or processed only through primary mill hot-rolling are not included. The review covers the period from September 7, 1982.

Preliminary Results of the Review and Tentative Determination

As a result of our review, we preliminarily determine that the domestic interested parties' affirmative statements of no interest in continuation of the countervailing duty case on carbon steel plate from Brazil provide a reasonable basis for termination of the suspended investigation.

Therefore, we tentatively determine to terminate the suspended investigation on this product effective September 7, 1982. The current requirements of the agreement suspending the investigation will continue until publication of the final results of this review.

Interested parties may submit written comments on these preliminary results and tentative determination to terminate within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within five days of the date of publication. Any hearing, if requested, will be held 45 days after the date of publication or the first workday thereafter. The Department will publish the final results of the review and its decision on termination, including its analysis of issues raised in any such written comments or at a hearing.

This intention to review, administrative review, tentative determination to terminate, and notice are in accordance with sections 751 (b) and (c) of the Tariff Act (19 U.S.C. 1675 (b), (c)) and §§ 355.41 and 355.42 of the Commerce Regulations (19 CFR 355.41, 355.42).

Dated: July 17, 1985.

Gilbert B. Kaplan,

Acting Deputy Assistant Secretary, Import Administration.

BILLING CODE 3510-DT-M

Applications for Amendment to Export Trade Certificate of Review

AGENCY: International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: Department of Commerce has received 22 applications for amendments to Export Trade Certificates of Review. This notice summarizes the conduct for which the amendments are sought.

ADDRESS: The Department requests public comments on the applications. Interested parties should submit their written comments, original and five (5) copies, to: Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, Room 5618, Washington, D.C. 20230 Comments should be received by August 12, 1985.

FOR FURTHER INFORMATION CONTACT: James V. Lacy, Director, Office of Export Trading Company Affairs, International Trade Administration, 202-377-5131. Ths is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 ("the Act") (Pub. L. No. 97-290) authorizes the Secretary of Commerce to issue export trade certificates of review. The regulations implementing the Act are found at 15 CFR part 325 (50 FR 1804, January 11, 1985).

The certificate of review previously issued to each of the applicants for this amendment contains the following disclaimer:

This certificate does not apply to sales to the United States Government or to any sale more than half the cost of which is borne by the United States Government.

On January 11, 1985, the Department of Commerce and the Department of Justice issued a second edition of "Guidelines for the Issuance of Export Trade Certificates of Review," 50 FR 1786. Section V. (D.) of the revised Guidelines sets out the agencies' views on the applicability of a certificate of review to export sales involving the U.S. Government. Under the revised Guidelines, certificates may be issued with the following, less restrictive disclaimer:

The application of this certificate to conduct in export trade where the United States Government is the buyer or where the United States Government bears more than half the cost of the transaction is subject to the limitations set forth in Section V.(D.) of the "Guidelines for the Issuance of Export Trade Certificates of Review (Second Edition)," 50 FR 1786 (January 11, 1985).

The following certificate holders have applied for an amendment to their certificate of review to replace the old disclaimer language with the new disclaimer language that the agencies have agreed is appropriate:

International Development Institute, 750 13th Street, S.E. Washington, D.C. 20003, Application #83-00001

Docket No. 85–135. Applicant: Montana State University, Bozeman, MT 59717. Instrument: Electron Microscope, Model EM 10 CA with Accessories. Manufacturer: Carl Zeiss Inc., West Germany. Intended Use: See notice at 50 FR 15597. Instrument ordered: January 25, 1985.

Docket No. 85–139. Applicant: Dwight David Eisenhower Army Medical Center, Fort Gordon, GA 30905–5650. Instrument: Electron Microscope, Model JEM–100CXII with Accessories. Manufacturer: JEOL Co., Ltd., Japan. Intented use: See notice at 50 FR 18898. Application Received by Commissioner of Customs: March 22, 1985.

Docket No. 85–147. Applicant: University of Illinois at Chicago, Chicago, IL 60612. Instrument Electron Microscope, Model H–600–2 with Accessories. Manufacturer: Hitachi, Japan. Intended use: See notice at 50 FR 19430. Instrument ordered: August 1, 1984.

Comments: None received.

Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as these instruments are intended to be used, was being manufactured in the United States at the time the intruments were ordered.

Reasons: Each foreign instrument is a conventional transmission electron microscope (CTEM) and is intended for research or scientific educational uses requiring a CTEM. We know of no CTEM, or of any other instrument suited to these purposes, which was being manufactured in the United States either at the time of order of each instrument or at the time of receipt of application by the U.S. Customs Service.

BILLING CODE 3510–DS

Short Supply Determination on Open Coil Annealed Rimmed Steel and Aluminum-Killed Cold-Rolled Steel Sheet; Request for Comments

AGENCY: International Trade Administration/Import Administration, Commerce.

ACTION: Notice of request for comments.

SUMMARY: The Department of Commerce hereby announces its review of a request for a short supply determination under Paragraph 8 of the U.S.-Japan Arrangement Concerning Trade in Certain Steel Products with respect to open coil annealed rimmed steel and aluminum-killed cold-rolled steel sheet used in the manufacture of aperture masks for television screens.

DATE: Comments must be submitted no later than ten days from publication of this notice.

ADDRESS: Send all comments to Joseph A. Spetrini, Director, Office of Agreements Compliance, Import Administration, U.S. Department of Commerce, 14th and Constitution Ave., NW., Washington, D.C. 20230, Room 3099.

FOR FURTHER INFORMATION CONTACT: Holly A. Kuga, Office of Agreements Compliance, Import Administration, U.S. Department of Commerce, 14th and Constitution Ave., NW., Washington, D.C. 20230, Room 3709, (202) 377–1102.

SUPPLEMENTARY INFORMATION: Paragraph 8 of the U.S.-Japan Arrangement Concerning Trade in Certain Steel Products provides that if the U.S. ". . . determines that because of abnormal supply or demand factors, the United States steel industry will be unable to meet demand in the United States of America for a particular category or sub-category (including substantial objective evidence such as allocation, extended delivery periods or other relevant factors), an additional tonnage shall be allowed for such category or sub-category . . ."

We received a short supply request for the following products:

(1) Aluminum-killed cold-rolled sheet, in coils, conforming to AISI standard C 1001. The dimensions of the steel in question are: a) 24.0 inches in width by 0.0060 inch in thickness; b) 19.0 inches in width by 0.006 inch in thickness; and c) 19.0 inches in width by 0.0068 inch in thickness. Weight per coil may range from 3,300 to 6,600 pounds.

(2) Open coil annealed rimmed steel, conforming to AISI standard C 1001. The dimensions of the steel in question are: a) 19 inches in width by 0.006 inch in thickness; and b) 24.5 inches in width by 0.006 inch in thickness. Weight per coil may range from 3,300 to 6,600 pounds. These products are used in the manufacture of aperture masks for television screens.

Commerce already has requested comments and sent out detailed questionnaires regarding aluminum-killed cold-rolled sheet meeting similar dimensional requirements pertinent to a request under the U.S.-European Communities (EC) steel trade arrangement. (See Federal Register notice, May 20, 1985, page 20822.) It is presumed that comments received under the May 20, 1985 **Federal Register** notice relating to aluminum-killed cold-rolled sheet from the EC also apply to aluminum-killed cold-rolled sheet requested from Japan as described in (1) above. If this is not the case, interested parties should submit supplementary comments under this notice as soon as possible and no later than ten days from publication of this notice.

Parties interested in commenting on open coil annealed rimmed steel as described in 2) above should send written comments as soon as possible, and no later than ten days from publication of this notice. Comments should focus on the economic factors involved in granting or denying this request.

Commerce will maintain this request and all comments in a public file. Anyone submitting business proprietary information should clarely so label the business proprietary portion of the submission and also include with it a submission without proprietary information which can be placed in the public file. The public file will be maintained in the Central Records Unit, Import Administration, U.S. Department of Commerce, Room B–099 at the above address.

C. Christopher Parlin,

Acting Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–M

DEPARTMENT OF DEFENSE

Office of the Secretary

Department of Defense Explosives Safety Board

ACTION: Notice.

SUMMARY: Pursuant to Title 10 U.S.C., Article 172, the Department of Defense Explosives Safety Board announces its decision to change the distance allowed from selected explosives facilities to inhabited buildings in sparsely populated areas. The current Ammunition and Explosives Safety Standard (DoD 6055.9–STD)[1] requires a separation of at least 1,250 feet between any inhabited building and an explosives facility containing from 101 to 30,000 pounds of mass detonating explosives. As the quantity of these explosives increases above 30,000 pounds, the required separation distance increase. The change will require a minimum distance of 900 feet from an explosives facility, containing from 101 to 11,400 pounds of mass detonating explosives, to an inhabited building in a sparsely populated area. A sparsely populated area is defined as one having no more than 25 persons in an area bounded by the sides of a 45 degree angle, with the vertex at the potential exposion site (PES), and the 900 and 1,250 foot arcs from that PES. There is no change to the minimum distance requirements to populous locations. The current regulation unduly restricts the use of storage facilities for small quantities of ammunition wher the hazard is small as a result of the low density of population exposed to the PES, and differs from NATO explosives safety principles which acknowledge the low risk. This change will: Take into consideration storage of relatively small amounts of explosives in sparsely populated areas, more closely align U.S. and NATO explosives safety principles, reduce the cost of storing limited amounts of ammunition, and permit establishment of certain explosives facilities in locations that are not currently usable as storage sites.

DATE: August 7, 1985.

FOR FURTHER INFORMATION CONTACT: The Department of Defense Explosives Safety Board, 2461 Eisenhower Avenue, Alexandria, VA 22331–0600, telephone (202) 325–8624.

BILLING CODE 3810–01–M

DEPARTMENT OF EDUCATION

Office of Postsecondary Education

Invitation To Participate and Closing Date for Participation in Pell Grant Electronic Pilot

AGENCY: Department of Education.

ACTION: Notice of invitation to participate in the Pell Grant Electronic Pilot and notice of closing date for submission of requests to participate.

SUMMARY: The Secretary invites postsecondary institutions participating in the Pell Grant Program and those financial aid services that process Pell Grant awards for such institutions to participate in the Pell Grant Electronic Pilot. To participate in the Electronic Pilot, an institution or financial aid service must have computer and communications equipment which will be capatible with the Electronic Pilot network and be capable of developing the software necessary to receive, process, and transmit data in formats that will be used by the Department.

Closing Date for Requests to Participote: An institution or financial aid service wishing to participate in the Electronic Pilot must submit a request to the Secretary, with a listing of the computer equipment currently owned or leased by the institution or financial aid service that would be available for use with the Electronic Pilot data exchange network, on or before August 22, 1985.

Documents Delivered by Mail: Requests should be addressed to Bill Bush or Jerry Hicks, Room 4624, ROB–3, Office of Student Financial Assistance, Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. These documents must be received on or before August 22, 1985.

Documents Delivered by Hand: Requests may be delivered by hand to Bill Bush or Jerry Hicks, Room 4624, ROB–3 [7th and D Streets, S.W.], Washington, D.C. 20202. The Division of System Design and Development will accept these hand-delivered documents between 8:00 a.m. and 4:30 p.m. daily (Washington, D.C. time), except Saturdays, Sundays, and Federal holidays.

Requests will not be accepted after 4:30 p.m., August 22, 1985.

Program Information: In order to receive a Pell Grant award, a student must submit a valid Student Aid Report to the institution. The Student Aid Report is generated by the Federal application processing system based on information that the student reported on his or her financial aid application. The Student Aid Report contains the family contribution figure (Student Aid Index) used to make the Pell Grant award, as well as the household and financial information for the student's family that was used to calculate that figure.

Frequently the information on the initial Student Aid Report must be corrected by the student, either because of a keypunch error, or because the information reported on the application was inaccurate. The Pell Grant Electronic Pilot Project is a project under which Pell Grant applicants can correct or verify information contained on their Student Aid Reports through computer facilities at those institutions or financial aid services that participate in the project. In contrast, students attending institutions that do not participate in the project and do not contract with a financial aid service that participates in the project must make the corrections directly on their Student Aid Reports and mail the Reports back to the Secretary. Participation in this project by institutions and financial aid services is strictly voluntary.

FOR FURTHER INFORMATION CONTACT: Bill Bush or Jerry Hicks, telephone (202) 245–8012.

(Catalog of Federal Domestic Assistance No. 84.063, Pell (Basic) Grant Program)

Dated: July 18, 1985.

C. Ronald Kimberling,

Acting Assistant Secretary, Office of Postsecondary Education.

[FR Doc. 85–17478 Filed 7–22–85; 8:45 am]

BILLING CODE 4000–01–M

Guaranteed Student Loan Program and Plus Program; Special Allowance for Quarter Ending June 30, 1985

AGENCY: Department of Education.

ACTION: Notice of Special Allowance for Quarter Ending June 30, 1985.

The Assistant Secretary for Postsecondary Education announces a special allowance to holders of eligible loans made under the Guaranteed Student Loan Program (GSLP) or the

PLUS Program. This special allowance is provided for under section 438 of the Higher Education Act of 1965 (the Act), as amended (20 U.S.C. 1087–1). Except for loans subject to section 438(b)(2)(B) of the Act, 20 U.S.C. 1087–1(b)(2)(B), for the quarter ending June 30, 1985, the special allowance will be paid at the following rates:

[In percentage]

	Applicable interest rate	Annual special allowance rate	Special allowance rate percent for quarter ending June 30, 1985
GSLP loans or PLUS loans made prior to Oct. 1, 1981	7	4.375	1.09375
	9	2.375	0.59375
GSLP loans or PLUS loans made on or after Oct. 1, 1981	7	4.28	1.07
	8	3.28	0.82
	9	2.28	0.57
	12	0.00	0.00
	14	0.00	0.00

The Assistant Secretary determines the special allowance rate in the manner specified in the Act, for loans at each applicable interest rate by making the following four calculations:

(a) *Step 1.*

Determine the average bond equivalent rate of the 91-day Treasury bills auctioned during the quarter for which this notice applies;

(b) *Step 2.*

Subtract from that average the applicable interest rate (7, 8, 9, 12, or 14 percent) of loans for which a holder is requesting payment;

(c) *Step 3.*

(1) Add 3.5 percent to the remainder; and

(2) In the case of loans made before October 1, 1981, round the sum upward to the nearest one-eighth of one percent;

(d) *Step 4.*

Divide the resulting percent in Step 3 (either (c)(1) or (c)(2), as applicable) by four.

FOR FURTHER INFORMATION CONTACT: Nancy Eakin, Program Specialist, or Larry Oxendine, Chief, Policy Section, Guaranteed Student Loan Branch, Division of Policy and Program Development, Department of Education on (202) 245–2475.

(Catalog of Federal Domestic Assistance No. 84.032, Guaranteed Student Loan Program and PLUS Program)

Dated: July 18, 1985.

C. Ronald Kimberling,

Acting Assistant Secretary for Postsecondary Education.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Office of Assistant Secretary for International Affairs and Energy Emergencies

International Atomic Energy Agreements; Switzerland; Proposed Subsequent Arrangements

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of proposed "subsequent arrangements" under the Agreement for Cooperation Between the Government of the United States of America and the Government of Switzerland Concerning Civil Uses of Atomic Energy, as amended, and the Additional Agreement for Cooperation between the Government of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Peaceful Uses of Atomic Energy, as amended.

The subsequent arrangements to be carried out under the above mentioned agreements involve U.S. approval of:

a. The transfer of 120 kilograms of plutonium from the COGEMA reprocessing plant in Cap-La-Hague, France, to the ALKEM fabrication plant in the Federal Republic of Germany and then to Switzerland for use in the Beznau I and II power reactors. This subsequent arrangement is designated as RTD/SD(EU)–44.

b. The transfer of 80 kilograms of plutonium from the COGEMA reprocessing plant in Cap- La- Hague, France, to the ALKEM fabrication plant in the Federal Republic of Germany and then to Switzerland for use in the PROTEUS research reactor. This subsequent arrangement is designated as RTD/SD(EU)–45.

These subsequent arrangements will take effect no sooner than fifteen (15) days after the date of publication of this notice, and after fifteen (15) days of continuous session of the Congress, beginning the day after the date on which the reports required by section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), are submitted to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House. The two time periods referred to above shall run concurrently.

Dated: July 16, 1985.

For the Department of Energy.

Joseph F. Salgado,

Under Secretary.

BILLING CODE 6450–01–M

Energy Information Administration

Publication of Alternative Fuel Price Ceilings and Incremental Price Threshold for High Cost Natural Gas

The Natural Gas Policy Act of 1978 (NGPA) (Pub. L. 95–621) signed into law on November 9, 1978, mandated a new framework for the regulation of most facets of the natural gas industry. In general, under Title II of the NGPA, interstate natural gas pipeline companies are required to pass through certain portions of their acquisition costs for natural gas to industrial users in the form of a surcharge. The statute requires that the ultimate costs of gas to the industrial facility should not exceed the cost of the fuel oil which the facility could use as an alternative.

Pursuant to Title II of the NGPA, section 204(e), the Energy Information Administration (EIA) herewith publishes for the Federal Energy Regulatory Commission (FERC) computed natural gas ceiling prices and the high cost gas incremental pricing threshold which are to be effective August 1, 1985. These prices are based on the prices of alternative fuels.

For further information contact: Leroy Brown, Jr., Energy Information Administration, 1000 Independence Avenue, SW., Room BE–034, Washington, DC 20585, Telephone: (202) 252–6077.

Section I

As required by FERC Order No. 50, computed prices are shown for the 48 contiguous States. The District of Columbia's ceiling is included with the ceiling for the State of Maryland. FERC, by an Interim Rule issued on April 2, 1981, in Docket No. RM79–21, revised the methodology for calculating the monthly alternative fuel price ceilings for State regions. Under the revised methodology, the applicable alternative fuel price ceiling published for each of the contiguous States shall be the lower of the alternative fuel price ceiling for the State or the alternative fuel price ceiling for the multistate region in which the State is located.

The price ceiling is expressed in dollars per million British Thermal Units (BTU's). The method used to determine the price ceilings is described in section III.

State	Dollars per million Btu's
Alabama	3.31
Arizona [1]	3.44
Arkansas [1]	3.37
California	3.34
Colorado [2]	3.43
Connecticut [1]	3.53
Delaware [1]	3.63
Florida	3.37
Georgia [1]	3.49
Idaho [2]	3.43
Illinois [1]	3.56
Indiana	3.52
Iowa [1]	3.44
Kansas [1]	3.44
Kentucky [1]	3.56
Louisiana	3.23
Maine	3.53
Maryland	3.54
Massachusetts	3.51
Michigan [1]	3.56
Minnesota	3.39
Mississippi [1]	3.49
Missouri [1]	3.44
Montana [2]	3.43
Nebraska [1]	3.44
Nevada [1]	3.44
New Hampshire	3.52
New Jersey	3.50
New Mexico [1]	3.37
New York [1]	3.63
North Carolina [1]	3.49
North Dakota [1]	3.44
Ohio	3.43
Oklahoma [1]	3.37

Utah [2]	3.43
Vermont [1]	3.53
Virginia [1]	3.49
Washington [1]	3.44
West Virginia [1]	3.58
Wisconsin [1]	3.58
Wyoming [2]	3.43

[1] Region based price as required by FERC Interim Rule, issued on April 2, 1981, in Docket No. RM–79–21.

[2] Region based price computed as the weighted average price of Regions E, F, G, and H.

Section II. Incremental Pricing Threshold for High Cost Natural Gas

The EIA has determined that the volume-weighted average price for No. 2 distillate fuel oil landed in the greater New York City Metropolitan area during May 1985 was $31.23 per barrel. In order to establish the incremental pricing threshold for high cost natural gas, as identified in the NGPA, Title II, section 203(a)(7), this price was multiplied by 1.3 and converted to its equivalent in millions of BTU's by dividing by 5.8. Therefore, the incremental pricing threshold for high cost natural gas, effective August 1, 1985, is $7.00 per million BTU's.

Section III. Method Used To Compute Price Ceilings

The FERC, by Order No. 50, issued on September 29, 1979, in Docket No. RM79–21, established the basis for determining the price ceilings required by the NGPA. FERC also, by Order No. 167, issued in Docket No. RM81–27 on July 24, 1981, made permanent the rule that established that only the price paid for No. 6 high sulfur content residual fuel oil would be used to determine the price ceilings. In addition, the FERC, by Order No. 181, issued on October 6, 1981, in Docket No. RM81–28, established that price ceilings should be published for only the 48 contiguous States on a permanent basis.

A. Data Collected

The following data were required from all companies identified by the EIA as sellers of No. 6 high sulfur content (greater than 1 percent sulfur content by weight) residual fuel oil: for each selling price, the number of gallons sold to large industrial users in the months of March 1985, April 1985, and May 1985.[1] All reports of volume sold and price were identified by the State into which the oil was sold.

B. Method Used To Determine Alternative Price Ceilings

(1) Calculation of Volume-Weighted Average Price

The prices which will become effective August 1, 1985, (shown in section I) are based on the reported price of No. 6 high sulfur content residual fuel oil, for each of the 48 contiguous States, for each of the 3 months, March 1985, April 1985, and May 1985. Reported prices for sales in March 1985 were adjusted by the percent change in the nationwide volume-weighted average price from March 1985 to May 1985. Prices for April 1985 were similarly adjusted by the percent change in the nationwide volume-weighted average price from April 1985 to May 1985. The volume-weighted 3-month average of the adjusted March 1985 and April 1985, and the reported May 1985 prices were then computed for each State.

(2) Adjustment for Price Variation

States were grouped into the regions identified by the FERC (see section III.C.). Using the adjusted prices and associated volumes reported in a region during the 3-month period, the volume-weighted standard deviation of prices was calculated for each region. The volume-weighted 3-month average price (as calculated in Section III.B.(1) above) for each State was adjusted downward by two times this standard deviation for the region to form and adjusted weighted average price for the State.

(3) Calculation of Ceiling Price

The lowest selling price within the State was determined for each month of the 3-month period (after adjusting up or down by the percent change in oil prices at the national level as discussed in section III.B(1) above). The products of the adjusted low price for each month times the State's total reported sales volume for each month were summed over the 3-month period for each State and divided by the State's total sales volume during the 3 months to determine the State's average low price. The adjusted weighted average price (as calculated in section III.B.(2)) was compared to this average low price, and the higher of the values was selected as the base for determining the alternative fuel price ceiling for each State. For those States which had no reported sales during one or more months of the 3-month period, the appropirate regional volume-weighted alternative fuel price was computed and used in combination with the available State data to calculate the State alternative fuel price ceiling base. The State's alternative fuel price ceiling base was compared to the alternative fuel price ceiling base for the multistate region in which the State is located and the lower of these two prices was selected as the final alternative fuel price ceiling base for the State. The appropriate lag adjustment factor (as discussed in section III.B.4) was then applied to the alternative fuel price ceiling base. The alternative fuel price (expressed in dollars per gallon) was multiplied by 42 and divided by 6.3 to estimate the alternative fuel price ceiling for the State (expressed in dollars per million BTU's).

There were insufficient sales reported in Region G for the months of March 1985, April 1985, and May 1985. The alternative fuel price ceilings for the States in Region G were determined by calculating the volume-weighted average price ceilings for Region E, Region F, Region G, and Region H.

(4) Lag Adjustment

The EIA has implemented a procedure to partially compensate for the two-month lag between the end of the month for which data are collected and the beginning of the month for which ceiling prices become effective. It was determined that *Platt's Oilgram Price Report* publication provides timely information relative to the subject. The prices found in *Platt's Oilgram Price Report* publication are given for each trading day in the form of high and low prices for No. 6 residual oil in 20 cities throughout the United States. The low posted prices for No. 6 residual oil in these cities were used to calculate a

[1] Large Industrial User—A person/firm which purchases No. 6 fuel oil in quantities of 4,000 gallons or greater for consumption in a business, including the space heating of the business premises. Electric utilities, governmental bodies (Federal, State, or Local), and the military are excluded.

VOL 50 ISS 141 JL 23 1985 UMI

VOL 50 ISS 141 JL 23 1985 UMI

national and a regional lag adjustment factor. The national lag adjustment factor was obtained by calculating a weighted average price for No. 6 high sulfur residual fuel oil for the ten trading days ending July 15, 1985, and dividing that price by the corresponding weighted average price computed from prices published by Platt's for the month of May 1985. A regional lag adjustment factor was similarly calculated for four regions. These are: one for FERC Regions A and B combined; one for FERC Region C; one for FERC Regions D, E, and G combined; and one for FERC Regions F and H combined. The lower of the national or regional lag factor was then applied to the alternative fuel price ceiling for each State in a given region as calculated in section III.B.(3).

Listing of States by Region

States were grouped by the FERC to form eight distinct regions as follows:

Region A	*Region B*
Connecticut	Delaware
Maine	Maryland
Massachusetts	New Jersey
New Hampshire	New York
Rhode Island	Pennsylvania
Vermont	

Region C	*Region D*
Alabama	Illinois
Florida	Indiana
Georgia	Kentucky
Mississippi	Michigan
North Carolina	Ohio
South Carolina	West Virginia
Tennessee	Wisconsin
Virginia	

Region E	*Region F*
Iowa	Arkansas
Kansas	Louisiana
Missouri	New Mexico
Minnesota	Oklahoma
Nebraska	Texas
North Dakota	
South Dakota	

Region G	*Region H*
Colorado	Arizona
Idaho	California
Montana	Nevada
Utah	Oregon
Wyoming	Washington

Issued in Washington, DC, July 18, 1985.

Agency Forms Under Review by the Office of Management and Budget

AGENCY: Energy Information Administration, DOE.

ACTION: Notice of submission of request for clearance to the Office of Management and Budget.

SUMMARY: In an effort to improve the efficiency of its information resource management program, the Energy Information Administration (EIA) is in the process of consolidating most of its approved information collections (forms) into program packages, primarily by fuel type.

Following this Notice is a list containing the names of the program packages submitted to the Office of Management and Budget (OMB) for approval under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 35). Included in the list are the names of each package, the requested expiration dates, and the individual forms contained in each package. For each form in a package, the following items are shown: (1) The EIA collection number and title, (2) the current OMB control number, and (3) the current OMB approval expiration date. Once approved by OMB, the collections in each package will have the same expiration date.

Prior to the expiration date of each of these consolidated program packages, EIA will continue its practice of publishing requests for comments in the **Federal Register**, allowing the public ample time to comment on proposed extensions or modifications to EIA data collections. For example, a **Federal Register** notice soliciting comments on proposed changes to the collections included in the Petroleum Supply Reporting System was published April 3, 1985 (50 FR 13275). (Similar **Federal Register** notices for the Coal Program and the Oil and Gas Reserves program are currently being prepared and will be published in the near future.)

FOR FURTHER INFORMATION CONTACT:

John Gross, Director, Data Collection Services Division (DCSD), Energy Information Administration, M.S. 1H-023, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 252-2308

Vartkes Broussalian, Department of Energy Desk Officer, Office of Management and Budget, 726 Jackson Place NW., Wasington, DC 20503, (202) 395-7313.

SUPPLEMENTARY INFORMATION: Copies of supporting documents sent to OMB may be obtained from Mr. Gross. Comments and questions about this request should be directed to Mr. Broussalian of OMB at the address shown above.

If you anticipate commenting on these submissions, but find that time to prepare these comments will prevent you doing so promptly, please advise Mr. Broussalian of your intent as early as possible.

Issued in Washington, DC., July 17, 1985.

Yvonne M. Bishop,

Director, Statistical Standards.

BILLING CODE 6450-01-M

Coal Program Data Collection Forms; Solicitation of Comments

AGENCY: Energy Information Administration, DOE.

ACTION: Solicitation of comments.

SUMMARY: The Energy Information Administration (EIA) of the Department of Energy solicits comments concerning the coal program data collection forms and the extension of the Office of Management and Budget approval of these forms for 3 years. (See Section II, "Current Action," for a list of these forms and proposed minor modifications to these collections.)

DATES: Written comments must be received within 30 days of the publication of this notice.

ADDRESS: Send comments to Harriet M. Tarver, at the address listed immediately below.

FOR FURTHER INFORMATION CONTACT: To obtain copies of the proposed forms and instructions, contact: Harriet M. Tarver, Coal Division, Energy Information Administration, EI-521, Department of Energy, Mail Stop 2F-021, 1000 Independence Avenue SW., Washington, DC 20585, (202) 252-9723.

SUPPLEMENTARY INFORMATION:

I. Background
II. Current Actions
III. Comment Procedure

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. 93-275), and the Department of Energy (DOE) Organization Act (Pub. L. 95-91), the Energy Information Administration (EIA) is obliged to publish, and otherwise make available to the public, high-quality statistical data that reflect national and regional coal activity as accurately as possible. To meet this responsibility, as well as internal DOE requirements that are dependent on accurate data, the EIA conducts statistical surveys that encompass each significant coal activity in the U.S.

II. Current Actions

In keeping with DOE's mandated responsibilities, the EIA proposes a 3 year extension of the following coal program data collection forms:

EIA-1, Weekly Coal Monitoring Report—General Industries and Blast Furnaces (Standby form)—to be implemented only in case of a supply disruption.

EIA-3, Quarterly Coal Consumption Report—Manufacturing Plants.

EIA-4, Weekly Coal Monitoring Report—Coke Plants (Standby form)—to

VOL
50
ISS
141
JUL
23
1985
UMI

be implemented only in case of a supply disruption.

EIA–5, Coke Plant Report—Quarterly.

EIA–5A, Coke Plant Report—Annual Supplement.

EIA–6, Coal Distribution Report (Quarterly).

EIA–7A, Coal Production Report (Annual).

EIA–7A, (Supplement), Coal Production Report (Supplement) (Biennial).

EIA–20, Weekly Telephone Survey of Coal Burning Utilities (Standby form)—to be implemented only in case of a supply disruption.

EIA–97, Boiler Order Report (Quarterly).

The EIA proposes a change to Form EIA–7A to add the requirement that mines producing less than 10,000 short tons during the year report their total production for the year in Section II C.6. column (1). Currently, these mines check a box to indicate that they produce less than 10,000 tons. Other than this one additional data element, these mines will not have to provide any data beyond their previous reporting requirements. This will allow EIA to identify total production by all mines directly from Form EIA–7A.

Also, EIA proposes to change its policy for releasing selected coal data as follows:

The data elements on Forms EIA–7A and EIA–7A (Supplement) identified below will not be treated as confidential by EIA in the future. These data elements are considered readily available and in the public domain.

Form EIA–7A Non-confidential Data Elements:

a. Total production quantity.

b. Coal beds mined.

Form EIA–7A (Supplement) Non-confidential Data Elements:

a. Total shipments quantity.

b. Coal shipments by method of transportation.

c. For rail shipments—name of railroad and total quantity shipped by rail and quantity shipped by unit train.

d. For water shipments—name of waterway, name of barge company, and quantity shipped.

e. Quantity of coal prepared by method and by type of equipment used.

f. Indication of consumer categories receiving coal shipments (but quantity, quality, and price data will be treated as confidential information).

The following information is provided as a restatement of EIA's current disclosure policy:

1. The responding company's name and address, the mine or plant type (i.e. underground, surface, preparation plant, SIC code) and location (state, county, and/or coal-producing district) will be released upon request in the form of a full or partial list of respondents for each of the EIA coal data collection surveys. This policy is based on the fact that these data are publicly available from other sources and therefore not considered to be confidential.

2. The information contained on Forms EIA–1, 3, 4, 5, 5A, 6, 7A, 7A (Supplement) and 97, other than that described above, will be kept confidential to the extent that it satisfies the criteria set forth in the Freedom of Information Act (FOIA) exemption for trade secrets and confidential commercial information and DOE regulations implementing the FOIA, and is prohibited from public release by the Trade Secrets Act, 18 U.S.C. § 1905.

Upon receipt of a request for disclosure of this information under the FOIA, the DOE shall, in accordance with procedures and criteria provided in 10 CFR 1004.11, make a final determination whether the information is exempt from disclosure. To assist us in this determination, respondents should demonstate to the DOE that their information constitutes trade secrets or commercial or financial information whose release would be likely to cause substantial harm to their company's competitive position. A letter accompanying the submission that explains (on an element-by-element basis, if possible) the reasons why the information would be likely to cause the respondent substantial competitive harm if released to the public would aid in this determination.

Requests from other Federal agencies for information from these forms shall be evaluated in accordance with the DOE Policy on the Disclosure of Individually Identifiable Energy Information in the Possession of the EIA [45 FR 59812 (1980)]. Information concerning coal supplies (stocks) from Forms EIA–1, 3, 4, 5, 6, and 7A are subject to disclosure to state agencies under certain limited conditions and provided that the state agrees to maintain the confidential nature of the data.

Except as otherwise provided by law, the information will also be made available in response to an order of a Court of competent jurisdiction, or upon written request, to the Congress, any committee of Congress, the General Accounting Office, or other congressional agencies authorized by law to receive such information.

3. All data on Form EIA–20 will continue to be treated as non-confidential because this form collects data from coal-fired electric power plants and all electric utility survey data are considered to be in the public domain.

III. Comment Procedure

Written Comments

The EIA invites the public to comment on these proposed changes and provides the following guidelines to assist in preparation of responses.

If you are a data provider:

1. How many hours, including time for research, computation, preparation, and administrative review, will it take your firm to complete and submit each form relevant to your firm?

2. How many hours will your firm require in subsequent years of reporting?

3. Estimate the cost to respond to the forms, including direct and indirect costs associated with the data collection. Direct costs should include all one-time and recurring costs, such as development, assembly, equipment, ADP, and other administrative costs.

4. Are there any changes to any of the forms that you would recommend?

5. Do you know of other sources of similar information? If yes, please identify these sources.

If you are a data user:

1. Do you use data at the levels of aggregation that are available using the forms? (i.e., do the products, frequency, market categories, and geography reflect your needs?

2. Are there alternative sources of data? Do you now use them? What are their deficiencies?

3. How could the forms be improved to better meet your specific data needs?

Comments or summaries of comments will be included in EIA's submission to the Office of Management and Budget and will become a matter of public record.

EIA is also interested in receiving comments concerning the need to continue the collection of the data required on these forms.

Issued in Washington DC, on July 19, 1985.

Yvonne M. Bishop,

Director, Statistical Standards Energy Information Administration.

BILLING CODE 6450–01–M

Office of Hearings and Appeals

St. James Resources Corp. and Kingston Oil Supply: Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, DOE.

ACTION: Notice of Implementation of Special Refund Procedures.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy announces the procedures for disbursement of $228,335.71 and $546.00 obtained as a result of Consent Orders that the DOE entered into with St. James Resources Corporation and Kingston Oil Supply, both reseller-retailers of petroleum products. St. James is located in Boston, Massachusetts; Kingston Oil Supply is in Port Ewen, New York.

DATE AND ADDRESS: Applications for refund of a portion of the St. James or Kingston consent order funds must be received within 90 days of publication of this notice in the **Federal Register**. All applications should refer to Case Number HEF–0100 or HEF–0109 and should be addressed to the Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Walter Marullo, Office of Hearings and Appeals, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 252–6602.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(b) of the procedural regulations of the Department of Energy, 10 CFR 205.282(b), notice is hereby given of the issuance of the Decision and Order set out below. The decision relates to two consent orders entered into by St. James Resources Corporation (St. James) and Kingston Oil Supply (Kingston). The St. James consent order settled possible pricing violations in the firm's sale of No. 2 heating oil to customers during the period May 1, 1974 through June 30, 1976; the Kingston consent order settled alleged pricing violations in the firm's sale of No. 4 residual fuel oil to its customers during the period of November 1, 1973 through December 31, 1974. A Proposed Decision and Order tentatively establishing refund procedures and soliciting comments from the public concerning the distribution of the St. James and Kingston, consent order funds was issued on May 16, 1985. 50 FR 23505 (June 4, 1985).

Today's Decision sets forth final procedures and standards that the DOE has formulated to distribute the contents of two escrow accounts funded by St. James and Kingston pursuant to the respective consent orders. In the case of St. James, the DOE has decided that the consent order funds should be distributed in two stages. In the first stage, OHA finds that a portion of the consent order fund should be distributed to 78 first purchasers after each has filed an application for refund. In the event that money remains in the St. James escrow account after all first-stage claims have been disposed of, the DOE will determine an alternative plan for distributing these funds. The DOE has also determined that the $546 in the Kingston consent order fund should be distributed to one purchaser after he has filed an application for refund. The purchasers in these cases were identified by DOE audits and were allotted funds based on presumptions of injury which the DOE has utilized in past proceedings. In both cases, however, applications for refund will also be accepted from purchasers not identified by the DOE audits.

As the Decision and Order published with this Notice indicates, applications for refunds may now be filed by customers who purchased petroleum products from St. James or Kingston during the respective audit periods. Applications will be accepted provided they are received no later than 90 days after publication of this Decision and Order in the **Federal Register**. The specific information required in an application for refund is set forth in the Decision and Order.

Dated: July 11, 1985.

George B. Breznay,

Director, Office of Hearings and Appeals.

July 11, 1985.

Decision and Order of the Department of Energy

Special Refund Procedures

Names of Firms: St. James Resources Corporation and Kingston Oil Supply.

Date of Filing: October 13, 1983.

Case Numbers: HEF–0100 and HEF–0109.

In accordance with the procedural regulations of the Department of Energy (DOE), 10 CFR Part 205, Subpart V, on October 13, 1983, the Economic Regulatory Administration (ERA) filed a Petition for the Implementation of Special Refund Procedures with the Office of Hearings and Appeals (OHA). The petition requests that the OHA formulate and implement procedures for the distribution of funds received in connection with consent order that ERA entered into with St. James Resources Corporation (St. James) and Kingston Oil Supply (Kingston).

I. Background

Each of these firms is a "reseller" of "covered products" as those terms were defined in 10 CFR 212.31. St. James's main office is in Boston, Massachusetts; Kingston is located in Port Ewen, New York. A DOE audit of each firm's records revealed possible violations of the Mandatory Petroleum Price Regulations. 10 CFR Part 212, Subpart F. Subsequently each firm entered into a consent order with DOE. Each consent order refers to ERA's allegations of overcharges, but notes that no findings of violation were made. Each consent order also states that the subject firm does not admit that it committed any such violations. A brief discussion of other pertinent matters covered by each consent order follows.

The St. James consent order covers the period May 1, 1974 though June 30, 1976. The DOE audit alleges that during that period, the firm committed possible pricing violations amounting to $228,335.71 with respect to its sales of No. 2 heating oil. In order to settle all claims and disputes between St. James and DOE regarding the firm's sales of No. 2 heating oil during the audit period, St. James and the DOE entered into the consent order on March 20, 1980. According to the St. James consent order, the firm agreed to deposit $228,335.71, including interest, into an interest-bearing escrow account for ultimate distribution by DOE. The consent order funds were paid in full on March 20, 1980.

In the Kingston case, the DOE audit revealed possible pricing violations with respect to sales of No. 4 residual fuel oil during the November 1, 1973 through December 31, 1974 audit period. In order to settle all claims and disputes between Kingston and DOE regarding these sales, Kingston and the DOE entered into the consent order of August 7, 1981, in which the firm agreed to make refunds amounting to $78,000 (including interest). Since the audit in this case identified the allegedly overcharged end-user purchasers, Kingston made direct refunds to its customers. One customer, however, could not be located. Therefore, Kingston placed this purchaser's refund of $546.00 in an interest-bearing escrow account for ultimate distribution by DOE.

On May 16, 1985, a Proposed Decision and Order (PD&O) was issued which set forth a tentative plan for the distribution of the St. James and Kingston consent order funds. 50 FR 23505 (June 4, 1985). The PD&O stated that the basic purpose of a special refund proceeding is to make restitution for injuries which were probably suffered as a result of alleged or actual violations of the DOE regulations. In order to effect restitution in this proceeding, we tentatively determined to rely, in part, on the information contained in the ERA audit files. The PD&O states that this approach is warranted based upon our experience in prior Subpart V cases where all or most of the purchasers of the firm's products are identified in the

VOL 50 ISS 141 JUL 23 1985 UMI

audit file, *see e.g., Marion Corp.*, 12 DOE ¶ 85,014 (1984) (*Marion*). Under such circumstances, a more precise determination with respect to the identity of the parties allegedly overcharged in the first instance was possible. At the same time, we recognized that there may have been other purchasers not identified by the ERA audit who may have been injured as a result of St. James's pricing practices during the audit period that would be entitled to a portion of the consent order funds.[1] Therefore, procedures by which such purchasers could establish a refund claim in this proceeding were also proposed.

A copy of the PD&O was published in the **Federal Register** and comments were solicited regarding the proposed refund procedures. In addition, a copy of the PD&O was sent to each purchaser identified in the ERA audit file.[2] While none of St. James' or Kingston's customers filed comments on the proposed procedures, comments were filed on behalf of the States of Arkansas, Delaware, Iowa, Louisiana, North Dakota, Rhode Island and West Virginia. These comments, however, discuss the distribution of any residual funds in a subsequent proceeding. The purpose of this Decision and Order is limited to establishing procedures to be used for filing and processing claims in the first stage of the St. James and Kingston refund proceedings. This Decision sets forth the information that a St. James or Kingston customer should submit in an Application for Refund in order to establish eligibility for a portion of the consent order funds. The formulation of procedures for the final disposition of any remaining funds will necessarily depend on the size of the fund. *See Office of Enforcement*, 9 DOE ¶ 82,508 (1981). Therefore, it would be premature for us to address at this time the issues raised by the States' comments concerning the disposition of any funds remaining after all the meritorious first-Stage claims have been paid.[3]

[1] Regarding the Kingston case, we stated that since the funds in the escrow account represented overcharges to a customer who could not be located, we would conclude the first stage in the Kingston proceeding and reserve this customer's refund for distribution in a secnd stage proceeding. *See* discussion *infra*.

[2] Some of the copies of the PD&O which were mailed to the identified purchasers were returned unclaimed. We attempted to contact these purchasers, but we were unable to do so. As a result, copies of this Final Decision and Order cannot be sent to these purchasers. However, each may still submit an application for refund.

[3] Furthermore, these comments were not only filed long after the expiration of the comment period, but they also have virtually no bearing on this proceeding. As we have stated previously, we request that states participate only in those cases were they can demonstrate a significant interest and in which they can participate in a meaningful and constructive way. *See* August 1, 1984 letter to Johanna McCully-Bonner, Assistant Attorney General for Texas, in reference to request to participate in sixty-six proceedings. We note that in this instance there is no apparent connection between the violations alleged in this proceeding and the interests of the above-mentioned states and their citizens. The petroleum products in these cases were sold in New England and the State of New York.

II. Refund Procedures

The procedural regulations of the DOE set forth general guidelines to be used by the OHA in formulating and implementing a plan of distribution for funds received as a result of an enforcement proceeding. 10 CFR Part 205, Subpart V. The Subpart V process may be used in situations where the DOE is unable to identify readily those persons who likely were injured by alleged overcharges or to ascertain readily the amount of such persons' injuries. For a more detailed discussion of Subpart V and the authority of the OHA of fashion procedures to distribute refunds *see Office of Enforcement*, 9 DOE ¶ 82,508 (1981), *and Office of Enforcement* 8 DOE ¶ 82,597 (1981).

A. Refunds to Identified Purchasers

In the PD&O we stated that during the St. James audit, seventy-eight first purchasers were identified as having allegedly been overcharged. In the case of the Kingston audit, the alleged overcharges under discussion in this decision were attributable to purchases made by a single firm. We know that the DOE audit files do not necessarily provide conclusive evidence as to the identity of possible refund recipients or the refund that may be appropriate. However, the information contained in the audit files may reasonably be used for guidance. *See Armstrong and Associates/City of San Antonio*, 10 DOE ¶ 85,050 at 88,259 (1983). In *Marion* we stated that "the information contained in the . . . audit file can be used for guidance in fashioning a refund plan which is likely to correspond more closely to the injuries probably experienced than would a distribution plan based solely on a volumetric approach. *Marion* at 88,031. In previous cases of this type, we have proposed that the funds in the escrow account be apportioned either among the customers identified by the audit or to their downstream purchasers. *See, e.g., Bob's Oil Co.*, 12 DOE ¶ 85,024 (1984); *Brown Oil Co.*, 12 DOE ¶ 85,028 (1984). The first purchasers identified by the audit, along with the share of settlement funds allotted to each by ERA, are listed in Appendices A and B.

Identification of first purchasers is only the initial step in the distribution process. We must also determine whether these first purchasers were actually injured, or whether any part of the alleged overcharges were passed on. As we stated in the PD&O, we will adopt certain presumptions in order to determine a purchaser's level of injury and thereby distribute the escrow accounts in these cases. Presumptions in refund cases are specifically authorized by applicable DOE procedural regulations. Section 205.282(e) of those regulations states that:

> [i]n establishing standards and procedures for implementing refund distributions, the Office of Hearings and Appeals shall take into account the desirability of distributing the refunds in an efficient, effective and equitable manner and resolving to the maximum extent practicable all outstanding claims. In order to do so, the standards for evaluation of individual claims may be based upon appropriate presumptions.

10 CFR 205.282(e). We will adopt presumptions in this case in order to permit claimants to participate in the refund process without disproportionate expense, and to enable OHA to consider the refund applications in the most efficient way possible in view of the limited resources available. Therefore, as in previous special refund procedures, in this case we will adopt a presumption that claimants seeking small refunds were injured by St. James' or Kingston's pricing practices.

There are a variety of reasons for adopting this presumption. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 (1982). As we have noted in many previous refund decisions, there may be considerable expense involved in gathering the types of data needed to support a detailed claim of injury. In order to prove such a claim, an applicant must compile and submit detailed factual information regarding the impact of alleged overcharges which took place many years ago. This procedure certainly can be time-consuming and expensive. In the case of small claims, the cost to the firm of gathering this factual information, and the cost to OHA of analyzing it, may exceed the expected refund amount. Failure to adopt simplified application procedures for small claims could therefore operate to deprive injured parties of the opportunity to obtain a refund. The use of presumptions is also desirable from an administrative standpoint, because it allows OHA to process a large number of routine refund claims quickly, and to use its limited resources more efficiently. Finally, these smaller claimants did purchase covered products from St. James and Kingston and were in the chain of distribution where the alleged overcharges occurred. Therefore, they were affected by the alleged overcharges, at least intially. The presumption eliminates the need for a claimant to submit, and the OHA to analyze, detailed proof of what happened downstream of that initial impact.

Under the small claim presumption which we will adopt, a claimant who is a reseller or retailer would not be required to submit any additional evidence of injury if its refund claim is based on purchases below a threshold level. Other refund decisions have expressed the threshold either in terms of purchase volumes or dollar amounts. However, in *Texas Oil & Gas Corp.*, 12 DOE ¶ 85,069 (1984), we noted that describing the threshold in terms of a dollar amount rather than a purchase volume figure would more readily facilitate disbursements to applicants seeking relatively small refunds. *Id.* at 88,210. This case merits the same approach. Several factors determine the value of the threshold below which a claimant is not required to submit any further evidence of injury beyond volumes purchased. One of these factors is the concern that the cost to the applicant and the government of compiling and analyzing information sufficient to show injury not exceed the amount of the refund to be gained. In these cases, where the consent order fund is small, the refund amount is fairly low, and the time period of the consent order is many years past, establishing a threshold of $5,000 would be reasonable. *See Texas Oil & Gas Corp.*, 12 DOE ¶ 85,069 (1984); *Office of Special Counsel: In the Matter of Conoco, Inc.*, 11 DOE ¶ 85,226 (1984), and cases cited therein. In the PD&O we stated that after analysis of the information in the record, it appears that 73 of St. James' customers listed in Appendix A and the one Kingston customer listed in Appendix B, made small purchases of the respective firms' products. However, as we also stated, the refunds authorized for five St. James customers are larger than the amount which a firm may be entitled to receive under the small claims presumption we will adopt.

On the basis of the considerations discussed above, we will distribute a portion of the escrow funds to the first purchasers listed in Appendix A who file refund applications, in the amounts specified, plus accrued interest to date. The share of the escrow fund which the listed purchasers in Appendix A may receive represents 100 percent of the amount each was allegedly overcharged, and is consistent with the terms of the St. James consent order, which settled for 100 percent of the total amount of alleged overcharges identified by the audit. In order to actually receive a refund each customer will still be required to file an application for refund. (*See* discussion *infra*).

However, since the refunds allotted to five of St. James' reseller customers are larger than $5,000—and therefore larger than a "small claim"—we will require each of these firms to make a specific demonstration of injury prior to receiving the full refund allotted to it in Appendix A.[4] As in previous special refund cases, we will ask these firms to show that they did not pass the effects of St. James' alleged regulatory violations through to their own customers. *See, e.g., Office of Enforcement*, 8 DOE ¶ 82,597 (1981). While there are a variety of means by which they could make this showing, these firms should generally demonstrate that at the time they purchased St. James products, market conditions would not permit them to pass the alleged overcharges on to their own customers in the form of higher prices. In addition, the firms must show that they maintained a "bank" of unrecovered costs in order to demonstrate that they did not subsequently recover these costs by increasing their prices. The maintenance of a bank will not, however, automatically establish injury. *See Tenneco Oil Co./Chevron U.S.A., Inc.*, 10 DOE ¶ 85,014 (1982); *Vickers Energy Corp./Standard Oil Co.*, 10 DOE ¶ 85,036 (1982); *Vickers Energy Corp./Koch Industries, Inc.*, 10 DOE ¶ 85,038 (1982).

In addition, we have no other information regarding the identity or location of the last 11 purchasers listed in Appendix A and are unable to distribute refunds to them. However, we will contact St. James and publish notice of this Decision and Order in the **Federal Register** in an effort to reach these purchasers. We will accept information regarding the identity and present locations of these purchasers for a period of 90 days following publication in the **Federal Register** of notice of this final Decision and Order.

In the PD&O we also stated that based on the information available to us, we were unable to distribute the Kingston consent order funds to the purchaser listed in Appendix B. According to our records, this customer, Rubin's Hotel, was sold, and Mr. David Rubin, the owner at the time of the alleged violation, left no forwarding address.[5] Since publication of the PD&O, however, Mr. Rubin has contacted this office. Therefore, we will distribute the Kingston escrow funds to Mr. Rubin in the amount specified, plus accrued interest to date, after he has filed an application for refund. (*See* discussion *infra*.)

B. Refunds to Other Purchasers

As discussed, this Decision concerns the distribution of the entire $228,335.71 that St. James deposited into the escrow account, plus accrued interest to date. Since the refunds tentatively allotted to identified purchasers total only $117,023.88, the remaining portion of the St. James consent order funds may be distributed among direct purchasers other than those identified by the ERA audit, and downstream purchasers, who may have been injured by the alleged overcharges. To assist other potential claimants in deciding whether to apply for a refund, we proposed to utilize the small claim presumption discussed above and, in addition, to adopt a presumption that the alleged overcharges were dispersed equally in all sales of products made by St. James during the consent order period. OHA has referred to this presumption in the past as a volumetric refund amount. In the absence of better information, this assumption is sound because the DOE price regulations generally required a regulated firm to account for increased costs on a firm-wide basis in determining its prices. However, we also recognize that the impact on an individual purchaser could have been greater, and any purchaser is allowed to file a refund application based on a claim that the impact of the alleged overcharge on it was greater than the pro rata amount determined by the volumetric presumption. *See, e.g., Sid Richardson Carbon & Gasoline Co. and Richardson Products Co./Siouxland Propane Co.*, 12 DOE ¶ 85,054 (1984), and cases cited therein at 88,164.

Using a volumetric approach in this proceeding means that a portion of the St. James consent order amount would be allocated to each gallon of product which a successful claimant purchased from St. James. The average per gallon refund, or volumetric refund amount, in this proceeding is $0.005828 per gallon.[6]

[4] These five firms are: Decker & Simmons; Emerson Coal & Oil Company; Ingle & Son; Atlantic Coal & Oil Company; Avon Coal & Oil, Inc.

[5] *See* copy of August 18, 1961 letter which Mr. Arthur P. Motckin, President of Kingston Oil Supply Corp., sent to Mr. Samuel Borenkind, Esq., Counsel for Kingston.

[6] This per gallon factor is computed by dividing the $228,335.71 available for distribution under the

Continued

VOL 50 ISS 141 JL 23 1985 UMI

Potential applicants that were not identified by the ERA audit of St. James may use this volumetric figure to estimate the refund to which they may be entitled. Previous experience with Subpart V proceedings indicates that to the extent such other purchasers come forward as first-stage refund claimants, they would be either resellers (including retailers) or end-users. As we stated above, in order to qualify for a refund, resellers generally would be required to establish that they absorbed the alleged overcharges. However, those reseller claimants applying for a refund under $5,000 will not be required to demonstrate injury. *See* discussion, *supra*.

In addition to the presumptions we are adopting, we are making a finding that end-users or ultimate consumers whose businesses are unrelated to the petroleum industry were injured by the alleged overcharges settled in the consent order. Unlike regulated firms in the petroleum industry, members of this group generally were not subject to price controls during the consent order period, and they were not required to keep records which justified selling price increases by reference to cost increases. For these reasons, an analysis of the impact of the alleged overcharges on the final prices of non-petroleum goods and services would be beyond the scope of a special refund proceeding. *See Office of Enforcement, Economic Regulatory Administration: In the Matter of PVM Oil Associates, Inc.*, 10 DOE ¶ 85,072 (1983); *see also Texas Oil & Gas Corp.*, 12 DOE ¶ 85,069 (1984), and cases cited therein. We have concluded that end-users of St. James petroleum products need only document their purchase volumes from St. James to make a sufficient showing that they were injured by the alleged overcharges. As we indicated in the PD&O, if additional meritorious claims are filed, we will adjust the figures listed in the Appendix accordingly. Actual refunds will be determined only after analyzing all appropriate claims.[7]

Finally, as we indicated in the PD&O, we will establish a minimum amount of $15 for refund claims. We have found through our experience in prior refund cases that the cost of processing claims in which refunds are sought for amounts less than $15 outweighs the modest benefits of restitution in those situations. *See, e.g., Uban, supra* at 85,225. *See also* 10 CFR 205.286(b).

III. Applications for Refund

We have concluded that the procedures described in the PD&O represent the best means available for distributing the St. James and Kingston consent order funds. No comments were received objecting to the refund procedures proposed in the PD&O. Accordingly, for the reasons stated in the PD&O we will implement these proposals. We shall now accept applications for refunds from customers who purchased petroleum products from St. James and Kingston during the audit period. As proposed, the consent order funds will be distributed to the firms that the ERA alleged in its audit were overcharged by St. James or Kingston, provided each files an application, as well as to other eligible customers of St. James who apply for a refund.

In order to receive a refund each claimant will be required to submit with its application, either a schedule of its monthly purchases of petroleum products from St. James or Kingston or a statement verifying that it purchased petroleum products from St. James or Kingston and is willing to rely on the data in the audit file. Claimants must indicate, as well, whether they have previously received a refund, from any source, with respect to the alleged overcharges identified in the ERA audit underlying these proceedings.

Purchasers not identified by the ERA audit will be required to provide specific information as to the date, place, and volume of product purchased, the name of the firm from which the purchase was made, and the extent of any injury alleged. A purchaser must indicate, as well, how it used the St. James or Kingston product, *i.e.*, whether it was a reseller or ultimate consumer. Each applicant must also state whether there has been a change in ownership of the firm since the audit period, and must provide the names and addresses of any other owners. If there has been a change in ownership, the applicant should either state the reasons why the refund should be paid to the applicant rather than the other owners or provide a signed statement from the other owners indicating that they do not claim a refund.

All applications must be filed in duplicate and must be received within 90 days after publication of this Decision and Order in the **Federal Register**. A copy of each application will be available for public inspection in the Public Docket Room of the Office of Hearings and Appeals. Any applicant who believes that its application contains confidential information must so indicate and submit two additional copies of its application from which the information that the applicant claims is confidential has been deleted. Each application must also include the following statement: "I swear (or affirm) that the information submitted is true and accurate to the best of my knowledge and belief." *See* 10 CFR 205.283(c); 18 U.S.C. 1001. In addition, the applicant should furnish us with the name and telephone number of a person who may be contacted by this Office for additional information concerning the application. All applications should refer to Case Number HEF–0100 (St. James) or HEF–0109 (Kingston) and should be sent to: Office of Hearings and Appeals, Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585.

It is therefore ordered that:

(1) Applications for refunds from the funds remitted to the Department of Energy by St. James Resources Corporation pursuant to the consent order executed on March 20, 1980, may not be filed.

(2) Applications for refunds from the funds remitted to the Department of Energy by Kingston Oil Company pursuant to the consent order executed on August 7, 1981, may now be filed.

(3) All applications must be filed no later than 90 days after publication of this Decision and Order in the **Federal Register**.

(4) This is a final order of the Department of Energy.

Dated: July 11, 1985.

George B. Breznay,

Director, Office of Hearings and Appeals.
